(4) A person who has discharged a sentence in the ten years immediately preceding the application date for a conviction of a felony or a person who at any time has been convicted of a

felony under any state or federal law regarding the possession, distribution, or use of a controlled substance;

(5) A person who employs another person at a medical cannabis center, a medical cannabis cultivation and production facility, or a medical cannabis testing facility who has not passed a criminal background check;

(6) A sheriff, deputy sheriff, police officer, or prosecuting officer, or any officer or employee of the division or a local licensing authority;

(7) A person whose authority to be a caregiver as defined in sections 195.900 to 195.985 has been revoked by the department; or

(8) A person who holds a license for a location that is currently licensed as a retail food establishment or wholesale food registrant.

2. The provisions of section 324.010.1 shall apply to sections 195.900 to 195.985.

3. All medical cannabis cultivation and production facility licensees and all medical cannabis center licensees shall be held by entities that are sixty percent or more owned by natural persons who have been bona fide residents of the state of Missouri for at least three years continuously immediately prior to the date of filing of application for such licenses. Notwithstanding the foregoing, medical cannabis cultivation and production facility licensees and medical cannabis center licensees may be held by entities with no greater than a forty percent interest owned by natural persons who have not been citizens of the state of Missouri for at least three years continuously immediately prior to the date of filing of application for such licenses.

4. (1) In investigating the qualifications of an applicant or a licensee, the division shall have access to criminal background check information furnished by a criminal justice agency subject to any restrictions or costs imposed by such agency. In addition to considering the applicant's criminal background check information, the division shall also consider any information provided by the applicant regarding such criminal background check, including, but not limited to, evidence of rehabilitation, character references, and educational achievements, especially those items pertaining to the period of time between the applicant's last criminal conviction and the consideration of the application for a state license.

(2) As used in subdivision (1) of this subsection, "criminal justice agency" means any federal, state, or municipal court or any governmental agency or subunit of such agency that administers criminal justice under a statute or executive order and that allocates a substantial part of its annual budget to the administration of criminal justice.

(3) At the time of filing an application for issuance or renewal of a state medical cannabis center license, a medical cannabis cultivation and production facility license, or a medical cannabis testing facility license, an applicant shall submit a set of his or her fingerprints and file personal history information concerning the applicant's qualifications for a state license on forms

prepared by the division. The division shall submit the fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol shall forward the fingerprints to the Federal Bureau of Investigation for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted in accordance with section 43.543, and fees shall be paid in accordance with section 43.530. The division may acquire a name-based criminal background check for an applicant or a license holder who has twice submitted to a fingerprint-based criminal background check and whose fingerprints are unclassifiable. The division shall use the information resulting from the fingerprint-based criminal history record check to investigate and determine whether an applicant is qualified to hold a state license under sections 195.900 to 195.985. The division may verify any of the information an applicant is required to submit.

195.930. The division or a local licensing authority shall not receive or act upon an application for the issuance of a state or local license under sections 195.900 to 195.985:

(1) If the application for a state or local license concerns a particular location that is the same as or within one thousand feet of a location for which, within the two years immediately preceding the date of the application, the division or a local licensing authority denied an application for the same class of license due to the nature of the use or other concern related to the location;

(2) Until it is established that the applicant is or shall be entitled to possession of the premises for which application is made under a lease, rental agreement, or other arrangement for possession of the premises or by virtue of ownership of the premises;

(3) For a location in an area where the cultivation, manufacture, and sale of medical cannabis as contemplated is not permitted under the applicable local zoning laws of the municipality or county; or

(4) (a) If the building in which medical cannabis is to be cultivated, produced, or sold is located within one thousand feet of, the real property comprising a public or private elementary, vocational, or secondary school or a public or private college, junior college, or university, or a playground, or housing facility owned by a public housing authority, or a licensed child care facility, or within 100 feet of a public or private youth center, public swimming pool, or video arcade facility. The provisions of this subdivision shall not affect the renewal or reissuance of a license once granted nor shall the provisions of this subdivision apply to a license in effect and actively doing business before such school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade was constructed.

(b) The distances referred to in this subdivision are to be computed by direct measurement from the nearest property line of the land used for a school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade to the nearest portion of the building in which medical cannabis is to be cultivated, produced, or sold.

(c) In addition to the requirements of section 195.909, the local licensing authority shall consider the evidence and make a specific finding of fact as to whether the building in which the medical cannabis is to be cultivated, produced, or sold is located within the distance restrictions established by or under this subdivision.

195.933. 1. A state or local license granted under the provisions of sections 195.900 to 195.985 shall not be transferable except as provided in this section, but this section shall not prevent a change of location as provided in subsection 13 of section 195.936.

2. For a transfer of ownership, a license holder shall apply to the division and the local licensing authority on forms prepared and furnished by the division. In determining whether to permit a transfer of ownership, the division and the local licensing authority shall consider only the requirements of sections 195.900 to 195.985, any rules promulgated by the division, and any other local restrictions. The local licensing authority may hold a hearing on the application for transfer of ownership. The local licensing authority shall not hold a hearing under this subsection until the local licensing authority has posted a notice of hearing in the manner described in section 195.912 on the licensed medical cannabis center premises and/or the medical cannabis cultivation and production facility for a period of ten days and has provided notice of the hearing to the applicant at least ten days prior to the hearing. Any transfer of ownership hearing by the division shall be held in compliance with the requirements specified in section 195.912.

195.936. 1. Sections 195.900 to 195.985 authorize a county or municipality to enact reasonable regulations or other restrictions applicable to licenses of medical cannabis centers and medical cannabis cultivation and production facilities based on local zoning, health, safety, and public welfare laws for the distribution of medical cannabis that are more restrictive than sections 195.900 to 195.985.

2. A medical cannabis center and a medical cannabis cultivation and production facility shall not operate unless licensed by the local licensing authority and the state licensing authority under sections 195.900 to 195.985. In connection with a license, the applicant shall provide a complete and accurate list of all owners, officers, and employees who work at, manage, own, or are otherwise associated with the operation and shall provide a complete and accurate application as required by the division.

3. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing within ten days after an owner, officer, or employee ceases to work at, manage, own, or otherwise be associated with the operation. The owner, officer, or employee shall surrender his or her identification card to the division on or before the date of the notification.

4. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing of the name, address, and date of birth of an owner, officer, manager, or employee before the new owner, officer, manager, or employee begins working at, managing, owning, or begins an association with the operation. The owner, officer, manager, or employee shall pass a fingerprint-based criminal background

check as required by the division and obtain the required identification prior to being associated with, managing, owning, or working at the operation.

5. A medical cannabis center and a medical cannabis cultivation and production facility shall not acquire, possess, cultivate, deliver, transfer, transport, supply, or dispense cannabis for any purpose except to assist patients with qualifying medical conditions or to test the product at a medical cannabis testing facility, or as otherwise provided in section 195.900 to 195.985.

6. All owners of a licensed medical cannabis center and a licensed medical cannabis cultivation and production facility shall be authorized to do business in Missouri. A local licensing authority shall not issue a license provided for in sections 195.900 to 195.985 until that share of the license application fee due to the state has been received by the division. All licenses granted under sections 195.900 to 195.985 shall be valid for a period not to exceed one year from the date of issuance unless revoked or suspended under sections 195.900 to 195.985 or the rules promulgated under sections 195.900 to 195.985.

7. Before granting a local or state license, the respective licensing authority may consider, except where sections 195.900 to 195.985 specifically provide otherwise, the requirements of sections 195.900 to 195.985 and any rules promulgated under sections 195.900 to 195.985, and all other reasonable restrictions that are or may be placed upon the licensee by the licensing authority. With respect to a second or additional license for the same licensee or the same owner of another licensed business under sections 195.900 to 195.985, each licensing authority shall consider the effect on competition of granting or denying the additional licenses to such licensee and shall not approve an application for a second or additional license that has the effect of restraining competition.

8. (1) Each license issued under sections 195.900 to 195.985 is separate and distinct. It is unlawful for a person to exercise any of the privileges granted under a license other than the license that the person holds or for a licensee to allow any other person to exercise the privileges granted under the licensee's license. A separate license shall be required for each specific business or business entity and each geographical location.

(2) At all times, a licensee shall possess and maintain possession of the premises for which the license is issued by ownership, lease, rental, or other arrangement for possession of the premises.

9. (1) The licenses provided under sections 195.900 to 195.985 shall specify the date of issuance, the period of licensure, the name of the licensee, and the premises licensed. The licensee shall conspicuously display the license at all times on the licensed premises.

(2) A local licensing authority shall not transfer location of or renew a license to sell medical cannabis until the applicant for the license produces a license issued and granted by the state licensing authority covering the whole period for which a license or license renewal is sought.

10. In computing any period of time prescribed by sections 195.900 to 195.985, the day of the act, event, or default from which the designated period of time begins to run shall not be included. Saturdays, Sundays, and legal holidays shall be counted as any other day.

11. A licensee shall report each transfer or change of financial interest in the license to the division and the local licensing authority thirty days prior to any transfer or change under subsection 13 of this section. A report shall be required for transfers of capital stock of any corporation, regardless of size.

12. Each licensee shall manage the licensed premises himself or herself or employ a separate and distinct manager on the premises and shall report the name of the manager to the division and the local licensing authority. The licensee shall report any change in manager to the division and local licensing authority thirty days prior to such change.

13. (1) A licensee may move his or her permanent location to any other place in the same municipality for which the license was originally granted, or in the same county if the license was granted for a place outside the corporate limits of a municipality, but it shall be unlawful to cultivate, manufacture, distribute, possess, or sell medical cannabis at any such place until permission to do so is granted by the division and the local licensing authority provided for in sections 195.900 to 195.985.

(2) In permitting a change of location, the division and the local licensing authority shall consider all reasonable restrictions that are or may be placed upon the new location by the governing body or local licensing authority of the municipality or county; any such change in location shall be in accordance with all requirements of sections 195.900 to 195.985 and rules promulgated under sections 195.900 to 195.985.

195.939. 1. (1) Ninety days prior to the expiration date of an existing license, the division shall notify the licensee of the expiration date by first class mail at the licensee's address of record with the division. A licensee shall apply for the renewal of an existing license to the local licensing authority not less than forty-five days and to the division not less than thirty days prior to the date of expiration. A local licensing authority shall not accept an application for renewal of a license after the date of expiration, except as provided in subsection 2 of this section. The division may extend the expiration date of the license and accept a late application for renewal of a license; provided that, the applicant has filed a timely renewal application with the local licensing authority. All renewals filed with the local licensing authority and subsequently approved by the local licensing authority shall next be processed by the division. The division or the local licensing authority, in its discretion, subject to the requirements of this section and based upon reasonable grounds, may waive the forty-five-day or thirty-day time requirements set forth in this subsection. The local licensing authority may hold a hearing on the application for renewal only if the licensee has had complaints filed against it, has a history of violations, or there are allegations against the licensee that constitute good cause.

(2) The local licensing authority shall not hold a renewal hearing provided for by this subsection for a medical cannabis center and a medical cannabis cultivation and production facility until it has posted a notice of hearing on the licensed medical cannabis center premises

and the medical cannabis cultivation and production facility premises in the manner described in section 195.912 for a period of ten days and provided notice to the applicant at least ten days prior to the hearing. The local licensing authority may refuse to renew any license for good cause, subject to judicial review.

2.(1) Notwithstanding the provisions of subsection 1 of this section, a licensee whose license has been expired for not more than ninety days may file a late renewal application upon the payment of a nonrefundable late application fee of five hundred dollars to the local licensing authority. A licensee who files a late renewal application and pays the requisite fees may continue to operate until both the state and local licensing authorities have taken final action to approve or deny the licensee's late renewal application.

(2) The state and local licensing authorities shall not accept a late renewal application more than ninety days after the expiration of a licensee's permanent annual license. A licensee whose permanent annual license has been expired for more than ninety days shall not cultivate, manufacture, distribute, possess, or sell any medical cannabis until all required licenses have been obtained.

195.942. The division or local licensing authority may, in its discretion, revoke or elect not to renew any license if it determines that the licensed premises have been inactive without good cause for at least one year.

195.945. 1. The division, by rule, shall require a complete disclosure of all persons having a direct or indirect financial interest and the extent of such interest in each license issued under sections 195.900 to 195.985.

2. A person shall not have an unreported financial interest in a license under sections 195.900 to 195.985 unless such person has undergone a fingerprint-based criminal background check as provided for by the division in its rules; except that, this subsection shall not apply to banks, savings and loan associations, or industrial banks supervised and regulated by an agency of the state or federal government, or to FHA-approved mortgagees, or to stockholders, directors, or officers thereof.

3. This section is intended to prohibit and prevent the control of the outlets for the sale of medical cannabis by a person or party other than the persons licensed under the provisions of sections 195.900 to 195.985.

195.948. 1. For the purpose of regulating the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis, the division may, in its discretion and upon application on the prescribed form made to it, issue and grant to the applicant a license or registration from any of the following classes, subject to the provisions and restrictions provided by sections 195.900 to 195.985:

(1) Medical cannabis center license;

(2) Medical cannabis cultivation and production facility license;

(3) Medical cannabis testing facility license;

(4) Occupational licenses and registrations for owners, managers, operators, employees, contractors, and other support staff employed by, working in, or having access to restricted areas of the licensed premises as determined by the division. The division may take any action with respect to a registration under sections 195.900 to 195.985 as it may with respect to a license under sections 195.900 to 195.985, in accordance with the procedures established under sections 195.900 to 195.985.

2. In order to do business in Missouri under sections 195.900 to 195.985, a medical cannabis business shall hold both a medical cannabis center license and a medical cannabis cultivation and production facility license and shall be operated as a vertically integrated business.

3. A medical cannabis business shall use a cannabis plant monitoring system as the primary inventory tracking system of records.

4. A state-chartered bank or a credit union may loan money to any person licensed under sections 195.900 to 195.985 for the operation of a licensed business.

5. A medical cannabis testing facility shall be licensed, approved, and certified by the division in order to test medical cannabis. A person who is an owner of a medical cannabis cultivation and production facility or a medical cannabis center facility is prohibited from having a financial interest in a medical cannabis testing facility. An owner of a medical cannabis testing facility is prohibited from having a financial interest in a medical cannabis cultivation and production facility or a medical cannabis center facility.

195.951. 1. A medical cannabis center license shall be issued only to a person selling medical cannabis under the terms and conditions of sections 195.900 to 195.985.

2. Notwithstanding the provision of this section, a medical cannabis center licensee may also sell medical cannabis-infused products that are prepackaged and labeled under subsection 7 of this section.

3. Except as otherwise provided in subsection 4 of this section, every person selling medical cannabis as provided for in this section shall sell medical cannabis grown in its medical cannabis cultivation and production facility licensed under sections 195.900 to 195.985.

4. A medical cannabis center licensee shall not purchase more than thirty percent of its total on-hand inventory of medical cannabis flower from another licensed medical cannabis center licensee in Missouri. A medical cannabis center licensee shall not sell more than thirty percent of its total on-hand inventory of medical cannabis flower to another Missouri medical cannabis licensee. At least seventy percent of the medical cannabis flower sold at a medical cannabis center shall be grown at its cultivation and production facility.

5. Prior to initiating a sale, the employee of the medical cannabis center making the sale shall verify that the purchaser has a valid registration card issued under section 195.981 and a valid picture identification card that matches the name on the registration card.

6. A licensed medical cannabis center shall provide an amount of its medical cannabis established by rule of the division for testing to a medical cannabis testing facility.

7. All medical cannabis sold at a licensed medical cannabis center shall be labeled as follows:

(1) The medical cannabis center shall place a legible, firmly affixed label on medical cannabis, excluding medical cannabis-infused products, on which the wording is no less than one-sixteenth inch in size on each package of medical cannabis that it prepares for dispensing and which contains at a minimum the following information:

(a) The registered qualifying patient's name;

(b) The name and registration number of the medical cannabis center that produced the cannabis, together with the medical cannabis center's telephone number and mailing address, and website information, if any;

(c) The quantity of usable medical cannabis contained within the package;

(d) The date that the medical cannabis center packaged the contents;

(e) A batch number, sequential serial number, and bar code when used, to identify the batch associated with manufacturing and processing;

(f) The cannabinoid profile of the medical cannabis contained within the package, including tetrahydrocannabinol (THC) level; and

(g) A statement that the product has been tested for contaminants, that there were no adverse findings, and the date of testing, and the following statement, including capitalization: "This product has not been analyzed or approved by the FDA. There is limited information on the side effects of using this product, and there may be associated health risks. Do not drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN."

(2) The medical cannabis center shall place a legible, firmly affixed label on medical cannabis-infused products on which the wording is no less than one-sixteenth inch in size on each medical cannabis-infused product that it prepares for dispensing and which contains at a minimum the following information:

(a) The registered qualifying patient's name;

(b) The name and registration number of the medical cannabis center that produced the medical cannabis-infused product, together with the medical cannabis center's telephone number and mailing address, and website information, if any;

(c) The name of the product;

(d) The quantity of usable cannabis contained within the product as measured in ounces;

(e) A list of ingredients, including the cannabinoid profile of the cannabis contained within the product, including the tetrahydrocannabinol (THC) level;

(f) The date of product creation and the recommended "use by" or expiration date;

(g) To identify the batch associated with manufacturing and processing, a batch number, sequential serial number, and bar code when used;

(h) Directions for use of the product if relevant;

(i) A statement that the product has been tested for contaminants, that there were no adverse findings, and the date of testing;

(j) A warning if known allergens are contained in the product; and

(k) The following statement, including capitalization: "This product has not been analyzed or approved by the FDA. There is limited information on the side effects of using this product, and there may be associated health risks. Do not drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN."

(3) Cannabis shall be packaged in plain, opaque, tamperproof, and child-resistant containers without depictions of the product, cartoons, or images other than the medical cannabis center's logo.

8. A licensed medical cannabis center shall comply with all provisions of law as such provisions relate to persons with disabilities.

195.954. A medical cannabis cultivation and production facility license shall only be issued to a person licensed under this section who grows and cultivates medical cannabis and who manufactures medical cannabis or medical cannabis-infused products under the terms and conditions of sections 195.900 to 195.985.

195.957. 1. The department of health and senior services is the designated state agency for regulating and controlling the manufacturing of medical cannabis-infused products.

2. (1) Medical cannabis-infused products shall be prepared on a cultivation and production facility licensed premises that is used for the manufacture and preparation of medical

cannabis-infused products and which uses equipment that is used for the manufacture and preparation of medical cannabis-infused products.

(2) Only a licensed medical cannabis cultivation and production facility is permitted to produce medical cannabis-infused products. A medical cannabis cultivation and production facility may produce medical cannabis-infused products for the facility's medical cannabis centers and may sell the medical cannabis-infused products it produces to any other licensed medical cannabis centers in the state.

(3) The medical cannabis cultivation and production facility shall have all cannabis cultivated by such facility tested by a licensed medical cannabis testing facility in accordance with the following:

(a) Cannabis shall be tested for the cannabinoid profile and for contaminants as specified by the department, including, but not limited to, mold, mildew, heavy metals, plant-growth regulators, and the presence of nonorganic pesticides. The department may require additional testing;

(b) The facility shall maintain the results of all testing for no less than one year;

(c) The facility shall have and follow a policy and procedure for responding to results indicating contamination, which shall include destruction of contaminated product and assessment of the source of contamination. Such policy shall be available to registered qualifying patients and primary caregivers;

(d) All testing shall be conducted by an independent laboratory that is:

a. Accredited to International Organization for Standardization (ISO) 17025 by a third-party accrediting body such as A2LA or ACLASS; or

b. Certified, registered, or accredited by an organization approved by the department.

(e) The facility shall arrange for testing to be conducted in accordance with the frequency required by the department;

(f) A facility shall have a contractual arrangement with a medical cannabis testing facility for the purposes of testing cannabis, including a stipulation that those individuals responsible for testing at the medical cannabis testing facility be licensed;

(g) A medical cannabis cultivation and production facility is prohibited from having any financial or other interest in a medical cannabis testing facility providing testing services for any medical cannabis cultivation and production facility;

(h) No individual employee of a medical cannabis testing facility providing testing services for medical cannabis cultivation and production facilities shall receive direct financial compensation from any medical cannabis cultivation and production facility;

(i) All transportation of cannabis to and from laboratories providing cannabis testing services shall comply with rules promulgated under any rulemaking authority granted in sections 195.900 to 195.985;

(j) All storage of cannabis at a laboratory providing cannabis testing services shall comply with subdivision (4) of this subsection; and

(k) All excess cannabis shall be returned to the source medical cannabis cultivation and production facility and be disposed of under paragraph (e) of subdivision (6) of this subsection.

(4)(a) All cannabis in the process of cultivation, production, preparation, transport, or analysis shall be housed and stored in such a manner as to prevent diversion, theft, or loss.

(b) Such items shall be accessible only to the minimum number of specifically authorized dispensary agents essential for efficient operation.

(c) Such items shall be returned to a secure location immediately after completion of the process or at the end of the scheduled business day.

(d) If a manufacturing process cannot be completed at the end of a working day, the processing area or tanks, vessels, bins, or bulk containers containing cannabis shall be securely locked inside an area or building that affords adequate security.

(5) A medical cannabis cultivation and production facility shall process cannabis in a safe and sanitary manner. A facility shall process the leaves and flowers of the female cannabis plant only, which shall be:

(a) Well cured and free of seeds and stems;

(b) Free of dirt, sand, debris, and other foreign matter;

(c) Free of contamination by mold, rot, other fungus, and bacterial diseases;

(d) Prepared and handled on food-grade stainless steel tables; and

(e) Packaged in a secure area.

(6) All facilities, including those that develop or process nonedible medical cannabis-infused products, shall comply with the following sanitary requirements:

(a) Any dispensary agent whose job includes contact with cannabis or nonedible medical cannabis-infused products, including cultivation, production, or packaging, is subject to the requirements for food handlers under state law and in accordance with rules of the department of health and senior services;

(b) Any dispensary agent working in direct contact with preparation of cannabis or nonedible medical cannabis-infused products shall conform to sanitary practices while on duty, including:

a. Maintaining adequate personal cleanliness; and

b. Washing hands thoroughly in an adequate hand-washing area before starting work, and at any other time when hands may have become soiled or contaminated.

(c) Hand-washing facilities shall be adequate and convenient and shall be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the facility in production areas and where good sanitary practices require employees to wash and sanitize their hands, and shall provide effective hand cleaning and sanitizing preparations and sanitary towel service or suitable drying devices;

(d) There shall be sufficient space for placement of equipment and storage of materials as is necessary for the maintenance of sanitary operations;

(e) Litter and waste shall be properly removed, disposed of so as to minimize the development of odor, and shall minimize the potential for the waste attracting and harboring pests. The operating systems for waste disposal shall be maintained in an adequate manner;

(f) Floors, walls, and ceilings shall be constructed in such a manner that they may be adequately kept clean and in good repair;

(g) There shall be adequate safety lighting in all processing and storage areas, as well as areas where equipment or utensils are cleaned;

(h) Buildings, fixtures, and other physical facilities shall be maintained in a sanitary condition;

(i) All contact surfaces, including utensils and equipment, shall be maintained in a clean and sanitary condition. Such surfaces shall be cleaned and sanitized as frequently as necessary to protect against contamination, using a sanitizing agent registered by the United States Environmental Protection Agency (EPA), in accordance with labeled instructions. Equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable;

(j) All toxic items shall be identified, held, and stored in a manner that protects against contamination of cannabis and medical cannabis-infused products;

(k) A facility's water supply shall be sufficient for necessary operations. Any private water source shall be capable of providing a safe, potable, and adequate supply of water to meet the facility's needs;

(l) Plumbing shall be of adequate size and design, and adequately installed and maintained to carry sufficient quantities of water to required locations throughout the facility. Plumbing shall properly convey sewage and liquid disposable waste from the facility. There shall be no cross-connections between the potable and waste water lines;

(m) A facility shall provide its employees with adequate, readily accessible toilet facilities that are maintained in a sanitary condition and in good repair;

(n) Products that may support the rapid growth of undesirable microorganisms shall be held in a manner that prevents the growth of such microorganisms; and

(o) Storage and transportation of finished products shall be under conditions that shall protect them against physical, chemical, and microbial contamination as well as against deterioration of them or their container.

3. (1) A medical cannabis cultivation and production facility shall provide adequate lighting, ventilation, temperature, humidity, space, and equipment.

(2) A facility shall have separate areas for storage of cannabis that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging have been opened or breached, until such products are destroyed.

(3) Facility storage areas shall be maintained in a clean and orderly condition.

(4) Facility storage areas shall be free from infestation by insects, rodents, birds, and pests of any kind.

(5) Facility storage areas shall be maintained in accordance with the security requirements promulgated under the authority granted in sections 195.900 to 195.985.

195.960. 1. Until a medical cannabis cultivation and production facility's cultivation or production process has been validated, such facility shall not wholesale, transfer, or process into a medical cannabis concentrate or medical cannabis product any medical cannabis, medical cannabis concentrate, or medical cannabis product unless samples from the harvest batch or production batch from which such medical cannabis, medical cannabis concentrate, or medical cannabis product was derived were tested by a medical cannabis testing facility for contaminants and passed all contaminant tests required by subsection 3 of this section.

2. (1) A medical cannabis cultivation and production facility's cultivation process shall be deemed valid if every harvest batch that it produced during a twelve-week period passed all contaminant tests required by subsection 3 of this section, including at least twelve test batches that were submitted at least six days apart and contained samples from entirely different harvest batches.

(2) A facility's production process shall be deemed valid if every production batch that it produced during a four-week period passed all contaminant tests required by

subsection 3 of this section, including at least four test batches that were submitted at least six days apart which contained samples from entirely different production batches.

3. (1) Each harvest batch of medical cannabis and production batch of medical cannabis concentrate and medical cannabis product shall be tested for microbial contamination by a medical cannabis testing facility. The microbial contamination test shall include, but not be limited to, testing to determine the presence of and amounts present of salmonella sp., escherichia coli, and other bile-tolerant bacteria. Each harvest batch of medical cannabis and production batch of medical cannabis concentrate and medical cannabis product shall be tested for mold contamination by a medical cannabis testing facility. The mold contamination test shall include, but shall be limited to, testing to determine presence and the level of aspergillus sp., mucor sp., penicillium sp., and thermophilic actinomycetes sp.

(2) Each harvest batch of medical cannabis produced by a facility shall be tested for filth and other visible contamination by a medical cannabis testing facility. The filth contamination test shall include, but shall not be limited to, the detection, separation, quantification, identification, and interpretation of extraneous materials, including insects, rodent droppings, visible adulterants, and other contaminants, in medical cannabis flowers and trim.

(3) Each production batch of solvent-based medical cannabis concentrate produced by a facility shall be tested for residual solvent contamination by a medical cannabis testing facility. The residual solvent contamination test shall include, but not be limited to, testing to determine the presence of, and amounts present of, butane, propane, ethanol, isopropanol, acetone, and heptane.

4. (1) The division may require additional tests to be conducted on a harvest batch or production batch prior to a facility wholesaling, transferring, or processing into a medical cannabis concentrate or medical cannabis product any medical cannabis, medical cannabis concentrate, or medical cannabis product from such harvest batch or production batch. Additional tests may include, but not be limited to, screening for pesticides, harmful chemicals, adulterants, or other types of microbials, molds, filth, or residual solvents.

(2) (a) A production batch of medical cannabis concentrate shall be considered exempt from subdivision (1) of this subsection if the facility that produced it does not wholesale or transfer any portion of the production batch and it uses the entire production batch to manufacture medical cannabis product; except that, a solvent-based medical cannabis concentrate produced using butane, propane, ethanol, isopropanol, acetone, heptane shall still be submitted for a residual solvent contaminant test.

(b) A facility shall not be required to have residual solvent testing conducted on the product batch of a solvent-based medical cannabis concentrate if only CO2 was used during the production of the medical cannabis concentrate.

5. (1) (a) If a facility makes a material change to its cultivation or production process, such facility shall have the first five harvest batches or production batches produced using the new standard operating procedures tested for all of the contaminants required by subsection 3 of this section regardless of whether its process has been previously validated. If any such tests fail, such facility's process shall be revalidated.

(b) It shall be considered a material change if a facility begins using a new or different pesticide during its cultivation process, and the first five harvest batches produced using the new or different pesticide shall also be tested for pesticide.

(c) It shall be considered a material change if a facility begins using a new or different solvent or combination of solvents.

(d) A facility that makes a material change shall notify the medical cannabis testing facility that conducts contaminant testing on the first five harvest batches or production batches produced using the new standard operating procedures.

(e) When a harvest batch or production batch is required to be submitted for testing under this subsection, the facility that produced it shall not wholesale, transfer, or process into a medical cannabis concentrate or medical cannabis product any of the medical cannabis, medical cannabis concentrate, or medical cannabis product from such harvest batch or production batch.

(2) If six of the ten most recently tested test batches produced by a facility fail contaminant testing, the facility shall be required to revalidate its process.

6. Notwithstanding any other provision of state law, sales of medical cannabis-infused products shall not be exempt from state or local sales tax.

195.961.1. A tax is hereby levied and imposed upon the retail sale of cannabis for medical use sold at medical cannabis centers within the state. The tax shall be equivalent to two percent of the retail price. The purpose and intent of the tax is to impose a tax upon the privilege of engaging in the business, in this state, of selling medical cannabis. The primary tax burden is placed on making taxable sales of medical cannabis. All sellers of medical cannabis shall be required to report to the director of revenue, on such forms and in such manner as the director of revenue shall prescribe. Their "gross receipts from the sale of medical cannabis," defined to mean the aggregate amount of the sales price of all sales at retail of medical cannabis, and remit to the director of revenue two percent of their gross receipts from the sales of medical cannabis.

2. After retaining no more than five percent for its actual collection costs, one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Missouri Veterans' Health and Care Fund, one-half percent of the amount generated by the tax imposed in this section will be deposited by the department of revenue into the Missouri Public Safety Fund, one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Missouri Drug Treatment Fund, and one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Early Childhood Development,

Education and Care Fund created by section 161.125. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(1) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of certain taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veteran's Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(2) There is hereby created in the state treasury the "Missouri Public Safety Fund", which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be allocated evenly to all police departments, fire protection districts, and fire departments in the State of Missouri that have medical cannabis centers or medical cannabis cultivation and production facilities within their geographic boundaries.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) There is hereby created in the state treasury the "Missouri Drug Treatment Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be allocated evenly to all Missouri Drug Treatment Centers that are funded by the State of Missouri.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(4) The department of revenue shall have the authority to establish, revise, and amend rules as necessary to carry into effect the tax imposed by this section and to issue all forms, instructions and other documents necessary for the collection of the tax.

3. The provisions of sections 144.010 through 144.527 shall apply to the administration of the tax imposed by this section.

195.963. 1. (1) There is hereby created in the state treasury the "Medical Cannabis License Cash Fund," which shall consist of all moneys collected by the division under sections

195.900 to 195.985. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of sections 195.900 to 195.985.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

(3) The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

(4) There is hereby created the "Medical Cannabis Program Account" as an account within the medical cannabis license cash fund. The account shall consist of all moneys collected by the department of health and senior services under section 195.981. The account shall be a dedicated account and, upon appropriation, moneys in the account shall be used solely for the administration of section 195.981.

2. (1) The division shall require all applicants for initial state licenses under sections 195.900 to 195.985 to submit a nonrefundable application fee of twelve thousand five hundred dollars for a medical cannabis center license, and twelve thousand five hundred dollars for a medical cannabis cultivation and production facility license. The division shall require all applicants for initial state licenses under sections 195.900 to 195.985 to submit an annual license fee of twelve thousand five hundred dollars for a medical cannabis center license, and twelve thousand five thousand dollars for a cultivation and production facility license. All applications submitted shall be accompanied by all applicable state license and application fees. Any applications which are later denied or withdrawn may allow for a refund of license fees only. All application fees provided by an applicant shall be retained by the division.

(2) The division shall establish all other fees for processing the following types of applications, licenses, notices, or reports required to be submitted to the state licensing authority:

(a) Applications to change location under subsection 13 of section 195.936 and rules promulgated thereunder;

(b) Applications for transfer of ownership under section 195.933 and rules promulgated thereunder;

(c) License renewal fees, application fees for renewals, and expired license renewal applications under section 195.939; and

(d) Licenses as listed in section 195.948.

(3) The amounts of the fees under subdivisions (1) and (2) of this subsection, when added to the other fees transferred to the fund under this section, shall reflect the actual direct and

indirect costs of the division in the administration and enforcement of sections 195.900 to 195.985.

(4) The division may charge applicants licensed under sections 195.900 to 195.985 a fee for the cost of each fingerprint analysis and background investigation undertaken to qualify new officers, directors, managers, or employees.

(5) At least annually, the division shall review the amounts of the fees and, if necessary, adjust the amounts to reflect the direct and indirect costs of the division.

3. Except as provided in subsection 4 of this section, the division shall establish a basic fee that shall be paid at the time of service of any subpoena upon the division, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the division for each day of attendance to cover the expenses of the person named in the subpoena.

4. The subpoena fee established under subsection 3 of this section shall not be applicable to any federal, state, or local governmental agency.

195.966. 1. Except as otherwise provided, all fees and fines provided for by sections 195.900 to 195.985 shall be paid to the division, which shall transmit the fees to the state treasurer. The state treasurer shall credit the fees to the medical cannabis license cash fund created in section 195.963.

2. The expenditures of the division shall be paid out of appropriations from the medical cannabis license cash fund created in section 195.963.

195.969. 1. Each application for a local license provided for in sections 195.900 to 195.985 filed with a local licensing authority shall be accompanied by an application fee and a license fee in an amount determined by the local licensing authority not to exceed ten percent of the state application fee and license fee.

2. License fees as determined by the local licensing authority shall be paid to the treasurer of the municipality or county where the licensed premises is located in advance of the approval, denial, or renewal of the license.

195.972. 1. In addition to any other sanctions prescribed by sections 195.900 to 195.985 or rules promulgated under sections 195.900 to 195.985, the division or a local licensing authority has the power, on its own motion or on complaint, after investigation and opportunity for a public hearing at which the licensee shall be afforded an opportunity to be heard, to suspend or revoke a license issued by the respective authority for a violation by the licensee or by any of the agents or employees of the licensee of the provisions of sections 195.900 to 195.985, or any of the rules promulgated under sections 195.900 to 195.985, or of any of the terms, conditions, or provisions of the license issued by the division or local

licensing authority. The division or a local licensing authority has the power to administer oaths and issue subpoenas to require the presence of persons and the production of papers, books, and records necessary to the determination of a hearing that the division or local licensing authority is authorized to conduct.

2. The division or local licensing authority shall provide notice of suspension, revocation, fine, or other sanction, as well as the required notice of the hearing under subsection 1 of this section by mailing the same in writing to the licensee at the address contained in the license. Except in the case of a summary suspension under section 195.984, a suspension shall not be for a longer period than six months. If a license is suspended or revoked, a part of the fees paid therefore shall not be returned to the licensee. Any license or permit may be summarily suspended by the issuing licensing authority without notice, pending any prosecution, investigation, or public hearing under the terms of section 195.984. Nothing in this section shall prevent the summary suspension of a license under section 195.984.

3. (1) Whenever a decision of the division or a local licensing authority suspending a license for fourteen days or less becomes final, the licensee may, before the operative date of the suspension, petition for permission to pay a fine in lieu of having the license suspended for all or part of the suspension period. Upon the receipt of the petition, the division or local licensing authority may, in its sole discretion, stay the proposed suspension and cause any investigation to be made which it deems desirable and may, in its sole discretion, grant the petition if the division or local licensing authority is satisfied that:

(a) The public welfare and morals shall not be impaired by permitting the licensee to operate during the period set for suspension and that the payment of the fine shall achieve the desired disciplinary purposes;

(b) The books and records of the licensee are kept in such a manner that the loss of sales that the licensee would have suffered had the suspension gone into effect may be determined with reasonable accuracy; and

(c) The licensee has not had his or her license suspended or revoked, nor had any suspension stayed by payment of a fine, during the two years immediately preceding the date of the motion or complaint that resulted in a final decision to suspend the license or permit.

(2) The fine accepted shall be not less than five hundred dollars nor more than one hundred thousand dollars.

(3) Payment of a fine under the provisions of this subsection shall be in the form of cash or in the form of a certified check or cashier's check made payable to the division or local licensing authority, whichever is appropriate.

4. Upon payment of the fine under subsection 3 of this section, the division or local licensing authority shall enter its further order permanently staying the imposition of the suspension. If the fine is paid to a local licensing authority, the governing body of the authority

shall cause the moneys to be paid into the general fund of the local licensing authority. Fines paid to the division under subsection 3 of this section shall be transmitted to the state treasurer who shall credit the same to the medical cannabis license cash fund created in section 195.963.

5. In connection with a petition under subsection 3 of this section, the authority of the division or local licensing authority is limited to the granting of such stays as are necessary for the authority to complete its investigation and make its findings and, if the authority makes such findings, to the granting of an order permanently staying the imposition of the entire suspension or that portion of the suspension not otherwise conditionally stayed.

6. If the division or local licensing authority does not make the findings required in subdivision (1) of subsection 3 of this section and does not order the suspension permanently stayed, the suspension shall go into effect on the operative date finally set by the division or local licensing authority.

7. Each local licensing authority shall report all actions taken to impose fines, suspensions, and revocations to the division in a manner required by the division. No later than January fifteenth of each year, the division shall compile a report of the preceding year's actions in which fines, suspensions, or revocations were imposed by local licensing authorities and by the division. The division shall file one copy of the report with the chief clerk of the house of representatives, one copy with the secretary of the senate, and six copies in the legislative library.

195.975. 1. Each licensee shall keep a complete set of all records necessary to show fully the business transactions of the licensee, all of which shall be open at all times during business hours for the inspection and examination of the division or its duly authorized representatives. The division may require any licensee to furnish such information as it considers necessary for the proper administration of this section and may require an audit to be made of the books of account and records on such occasions as it may consider necessary by an auditor to be selected by the division who shall likewise have access to all books and records of the licensee, and the expense thereof shall be paid by the licensee.

2. The licensed premises, including any places of storage where medical cannabis is grown, stored, cultivated, sold, or dispensed, shall be subject to inspection by the division or local licensing authorities and their investigators, during all business hours and other times of apparent activity, for the purpose of inspection or investigation. For examination of any inventory or books and records required to be kept by the licensees, access shall be required during business hours. Where any part of the licensed premises consists of a locked area, upon demand to the licensee, such area shall be made available for inspection without delay, and, upon request by authorized representatives of the division or local licensing authority, the licensee shall open the area for inspection.

3. Each licensee shall retain all books and records necessary to show fully the business transactions of the licensee for a period of the current tax year and the three immediately prior tax years.

195.978. 1. Except as otherwise provided in sections 195.900 to 195.985, it is unlawful for a person:

(1) To consume medical cannabis in a licensed medical cannabis center, and it shall be unlawful for a medical cannabis licensee to allow medical cannabis to be consumed upon its licensed premises;

(2) With knowledge, to permit or fail to prevent the use of such person's registry identification by any other person for the unlawful purchasing of medical cannabis; or

(3) To buy, sell, transfer, give away, or acquire medical cannabis, except as allowed under sections 195.900 to 195.985.

2. It is unlawful for a person licensed under sections 195.900 to 195.985:

(1) To be within a limited-access area unless the person's license badge is displayed as required by sections 195.900 to 195.985;

(2) To fail to designate areas of ingress and egress for limited-access areas and post signs in conspicuous locations as required by sections 195.900 to 195.985;

(3) To fail to report a transfer required by section 195.933; or

(4) To fail to report the name of or a change in managers as required by section 195.936.

3. It is unlawful for any person licensed to sell medical cannabis under sections 195.900 to 195.985:

(1) To sell more than two and one-half ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a sales transaction to a qualifying patient;

(2) To display any signs that are inconsistent with local laws or regulations;

(3) To use advertising material that is misleading, deceptive, or false, or that is designed to appeal to minors;

(4)(a) To sell medical cannabis to a person not licensed under sections 195.900 to 195.985 or to a person not able to produce a valid patient registry identification card. Notwithstanding any provision in this paragraph to the contrary, a person under twenty-one years of age shall not be employed to sell or dispense medical cannabis at a medical cannabis center or grow or cultivate medical cannabis at a medical cannabis cultivation and production facility;

(b) If a licensee or a licensee's employee has reasonable cause to believe that a person is exhibiting a fraudulent patient registry identification card in an attempt to obtain

medical cannabis, the licensee or employee shall be authorized to confiscate the fraudulent patient registry identification card, if possible, and shall, within seventy-two hours after the confiscation, turn it over to the department of health and senior services or local law enforcement agency. The failure to confiscate the fraudulent patient registry identification card or to turn it over to the department or a state or local law enforcement agency within seventy-two hours after the confiscation shall not constitute a criminal offense;

(5) To offer for sale or solicit an order for medical cannabis in person except within the licensed premises;

(6) To have in possession or upon the licensed premises any medical cannabis, the sale of which is not permitted by the license;

(7) To buy medical cannabis from a person not licensed to sell as provided by sections 195.900 to 195.985;

(8) To sell medical cannabis except in the permanent location specifically designated in the license for sale;

(9) To require a medical cannabis center or medical cannabis cultivation and production facility to make delivery to any premises other than the specific licensed premises where the medical cannabis is to be sold, except as otherwise provided under sections 195.900 to 195.985; or

(10) To sell, serve, or distribute medical cannabis at any time other than between the hours of 8:00 a.m. and 7:00 p.m. Monday through Sunday.

4. Except as otherwise provided in sections 195.900 to 195.985, it is unlawful for:

(1) A medical cannabis center or medical cannabis cultivation and production facility to sell, deliver, or cause to be delivered to a licensee any medical cannabis not grown upon its licensed premises; or

(2) A medical cannabis center or medical cannabis cultivation and production facility to sell, possess, or permit sale of medical cannabis not grown upon its licensed premises. A violation of this subsection by a licensee shall be grounds for the immediate revocation of the license granted under sections 195.900 to 195.985.

5. It shall be unlawful for a physician who makes patient referrals to a licensed medical cannabis center to receive anything of value from the medical cannabis center licensee or its agents, servants, officers, or owners or anyone financially interested in the licensee, and it shall be unlawful for a licensee licensed under sections 195.900 to 195.985 to offer anything of value to a physician for making patient referrals to the licensed medical cannabis center.

6. A person who commits any acts that are unlawful under this section is guilty of a class A misdemeanor.

195.981.1. As used in this section, the following terms shall mean:

(1) "Bona fide physician-patient relationship", for purposes of the medical cannabis program:

(a) A physician and a patient have a treatment or counseling relationship, in the course of which the physician has completed a full assessment of the patient's medical history and current medical condition, including an appropriate personal physical examination;

(b) The physician has consulted with the patient with respect to the patient's qualifying medical condition before the patient applies for a registry identification card; and

(c) The physician is available to or offers to provide follow-up care and treatment to the patient, including, but not limited to, patient examinations, to determine the efficacy of the use of medical cannabis as a treatment of the patient's qualifying medical condition.

(2) "Department", the department of health and senior services.

(3) "Director", the director of the department of health and senior services.

(4) "In good standing", with respect to a physician's license:

(a) The physician holds a doctor of medicine or doctor of osteopathic medicine degree from an accredited medical school;

(b) The physician holds a valid license to practice medicine in Missouri that does not contain a restriction or condition that prohibits the recommendation of medical cannabis; and

(c) The physician has a valid and unrestricted United States Department of Justice Federal Drug Enforcement Administration controlled substances registration.

(5) "Medical cannabis program", the program established under sections 195.900 to 195.985.

(6) "Nonresident cardholder", a person who: (1) has been diagnosed with a qualifying medical condition, or is the parent, guardian, conservator, or other person with authority to consent to the medical treatment of a person who has been diagnosed with a qualifying medical condition; (2) is not a resident of Missouri; (3) was issued a currently valid registry identification card or its equivalent under the laws of another state, district, territory, commonwealth, insular possession of the United States, or country recognized by the United States that allows the person to use cannabis for medical purposes in the jurisdiction of issuance; and (4) has submitted documentation required by the department and has received confirmation of registration.

(7) "Caregiver", the same meaning as such term is defined in section 195.900.

(8) "Registry identification card", the nontransferable confidential registry identification card issued by the department to patients and caregivers under this section.

2. The department of health and senior services shall establish, revise, and amend rules and regulations as follows:

(1) To ensure that patients suffering from qualifying medical conditions are able to safely gain access to medical cannabis and to ensure that such patients:

(a) Are not subject to criminal prosecution for their use of medical cannabis in accordance with this section, and the rules of the department; and

(b) Are able to establish an affirmative defense to their use of medical cannabis in accordance with this section, and the rules of the department.

(2) To prevent persons who do not suffer from qualifying medical conditions from using this section as a means to sell, acquire, possess, produce, use, or transport cannabis in violation of state and federal laws;

(3) The establishment and maintenance of a confidential registry of patients who have applied for and are entitled to receive a registry identification card;

(4) The development by the department of an application form and making such form available to residents of this state seeking to be listed on the confidential registry of patients who are entitled to receive a registry identification card;

(5) The verification by the department of medical information concerning patients who have applied for a confidential registry card or for renewal of a registry identification card;

(6) The development by the department of a written certification form that shall be used by a physician to certify that a patient has a qualifying medical condition;

(7) The conditions for issuance and renewal, and the form, of the registry identification cards issued to patients, including, but not limited to, standards for ensuring that the department issues a registry identification card to a patient only if such patient has a bona fide physician-patient relationship with a physician in good standing and licensed to practice medicine in the state of Missouri;

(8) Communications with law enforcement officials about registry identification cards that have been suspended when a patient is no longer diagnosed as having a qualifying medical condition;

(9) A waiver process to allow a homebound patient who is on the registry to have a caregiver transport the patient's medical cannabis from a licensed medical cannabis center to the patient; and

(10) To regulate and control the manufacturing of medical cannabis-infused products.

3. The department shall conduct a public review hearing to receive public input on any emergency rules adopted by the department and be provided with an update from the industry, caregivers, patients, and other stakeholders regarding the industry's current status. The department shall provide at least five business days' notice prior to the hearing.

4. Within one hundred eighty days of the effective date of this section, the department shall make available to the public application forms and application instructions for qualifying patient and caregiver identification cards. Within two hundred ten days of the effective date of this section, the department shall begin accepting applications for qualifying patient and caregiver identification cards.

5. A physician who certifies a qualifying medical condition for an applicant to the medical cannabis program shall comply with all of the following requirements:

(1) The physician shall have a valid and active license to practice medicine in this state, which license is in good standing;

(2) After a physician, who has a bona fide physician-patient relationship with the patient, determines that the patient has a qualifying medical condition, the physician shall certify to the department that the patient has a qualifying medical condition after the physician has completed an assessment of the qualifying patient's medical history, reviewed relevant records related to the patient's qualifying medical condition, and conducted a physical examination. The physician shall specify the qualifying medical condition and, if known, the cause or source of the qualifying medical condition;

(3) The physician shall maintain a record-keeping system for all patients for whom the physician has determined have a qualifying medical condition;

(4) A physician shall not:

(a) Accept, solicit, or offer any form of pecuniary remuneration from or to a caregiver, distributor, or any other provider of medical cannabis;

(b) Offer a discount or any other thing of value to a patient who uses or agrees to use a particular caregiver, distributor, or other provider of medical cannabis to procure medical cannabis;

(c) Examine a patient for purposes of diagnosing a qualifying medical condition at a location where medical cannabis is sold or distributed;

(d) Hold an economic interest in an enterprise that provides or distributes medical cannabis if the physician certifies the qualifying medical condition of a patient for participation in the medical cannabis program; or

(e) Issue a certification for the medical use of cannabis for a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient registry identification card on behalf of a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such registry identification card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as caregiver for a non-emancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical cannabis for a non-emancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical cannabis to a non-emancipated qualifying patient under the age of eighteen.

(5) If the department has reasonable cause to believe that a physician has violated subdivision (1), (2), or (3) of subsection 4 of this section, or the rules promulgated by the department, the department may refer the matter to the state board of registration for the healing arts.

6. (1) A caregiver shall not delegate to any other person his or her authority to provide medical cannabis to a patient nor may a caregiver engage others to assist in providing medical cannabis to a patient.

(2) A caregiver shall not cultivate cannabis. Only a medical cannabis cultivation and production facility may cultivate cannabis and only for medical use.

(3) A caregiver shall provide to a law enforcement agency, upon inquiry, the registry identification card number of each of his or her patients. The department shall maintain a registry of such information and make it available twenty-four hours per day and seven days a week to law enforcement for verification purposes.

7. A registered patient or caregiver shall not:

(1) Purchase medical cannabis from unauthorized sources; or

(2) Obtain medical cannabis from other registered patients or caregivers.

8. (1) To be considered in compliance with this section and the rules of the department, a patient or caregiver shall have his or her registry identification card in his or her possession at all times that he or she is in possession of any form of medical cannabis and produce the same upon request of a law enforcement officer to demonstrate that the patient or caregiver is not in violation of the law. A person who violates this section or the rules promulgated by the department may be subject to criminal prosecution.

(2) The department shall maintain a registry of such information and make available twenty-four hours a day and seven days a week to law enforcement for verification purposes. Authorized employees of state or local law enforcement agencies shall be granted access to the information contained within the state health agency's confidential registry only for the purpose

of verifying that an individual who has presented a registry identification card to a state or local law enforcement official is lawfully in possession of such card. The department may promulgate rules to implement this subsection.

(3) The department may deny a patient's application for a registry identification card or revoke the card if the department determines that the physician who diagnosed the patient's qualifying medical condition, the patient, or the caregiver violated this section, or the rules promulgated by the department under this section; except that, when a physician's violation is the basis for adverse action, the department may only deny or revoke a patient's application or registry identification card when the physician's violation is related to the issuance of a medical cannabis recommendation.

(4) A registry identification card shall be valid for one year and shall contain a unique identification number. It shall be the responsibility of the patient to apply to renew his or her registry identification card prior to the date on which the card expires. The department shall develop a form for a patient to use in renewing his or her registry identification card.

(5) If the department grants a patient a waiver to allow a caregiver to transport the patient's medical cannabis from a medical cannabis center to the patient, the department shall designate the waiver on the patient's registry identification card.

(6) A homebound patient who receives a waiver from the department to allow a caregiver to transport the patient's medical cannabis to the patient from a medical cannabis center shall provide the caregiver with the patient's registry identification card, which the caregiver shall carry when the caregiver is transporting the medical cannabis. A medical cannabis center may provide the medical cannabis to the caregiver for transport to the patient if the caregiver produces the patient's registry identification card.

9. (1) The State of Missouri and the medical cannabis centers in this State which hold valid medical cannabis center licenses will recognize a nonresident card under the following circumstances:

(a) The state or jurisdiction from which the holder or bearer obtained the nonresident card grants an exemption from criminal prosecution for the medical use of cannabis;

(b) The state or jurisdiction from which the holder or bearer obtained the nonresident card requires, as a prerequisite to the issuance of such a card, that a physician advise the person that the person has a qualifying medical condition recognized by the state of Missouri;

(c) The nonresident card has an expiration date and has not yet expired;

(d) The state or jurisdiction from which the holder or bearer obtained the nonresident card maintains a database which preserves such information as may be necessary to verify the authenticity or validity of the nonresident card;

(e) The state or jurisdiction from which the holder or bearer obtained the nonresident card allows the division and medical cannabis centers in this State to access the database described in paragraph (d);

(f) The division determines that the database described in paragraph (d) is able to provide to medical cannabis centers in this State information that is sufficiently accurate, current and specific as to allow those centers to verify that a person who holds or bears a nonresident card is entitled lawfully to do so; and

(g) The holder or bearer of the nonresident card agrees to abide by, and does abide by, the legal limits on the possession of cannabis for medical purposes in this State, as set forth in 195.900.3(1).

(2) For the purposes of the reciprocity described in this section:

(a) The amount of medical cannabis that the holder or bearer of a nonresident card is entitled to possess in his or her state or jurisdiction of residence is irrelevant; and

(b) Under no circumstances, while in this State, may the holder or bearer of a nonresident card possess cannabis for medical purposes in excess of the limits set forth in 195.900.3(1).

(3) As used in this section, "nonresident card" means a card or other identification that:

(a) Is issued by a state or jurisdiction other than Missouri; and

(b) Is the functional equivalent of a registry identification card or letter of approval, as determined by the division.

10. (1) The use of medical cannabis is allowed under state law to the extent that it is carried out in accordance with sections 195.900 to 195.985 and the rules of the department.

(2) A patient or caregiver shall not:

(a) Engage in the medical use of cannabis in a way that endangers the health and well-being of a person;

(b) Engage in the medical use of cannabis in plain view or in a place open to the general public;

(c) Undertake any task while under the influence of medical cannabis, when doing so would constitute negligence or professional malpractice;

(d) Possess medical cannabis or otherwise engage in the use of medical cannabis in or on the grounds of a school or in a school bus;

(e) Engage in the use of medical cannabis while:

a. In a correctional facility;
b. Subject to a sentence to incarceration; or
c. In a vehicle, aircraft, or motorboat.

(f) Operate, navigate, or be in actual physical control of any vehicle, aircraft, or motorboat while under the influence of medical cannabis; or

(g) Use medical cannabis if the person does not have a qualifying medical condition as diagnosed by the person's physician in the course of a bona fide physician-patient relationship that has been certified to the department.

(3) A person shall not establish a business to permit patients to congregate and smoke medical cannabis.

11. Only licensed medical cannabis cultivation and production facilities may cultivate medical cannabis.

12. If a patient raises an affirmative defense to prosecution under sections 195.900 to 195.985, the patient's physician shall certify the specific amounts in excess of an adequate supply that are necessary to address the patient's qualifying medical condition and why such amounts are necessary. A patient who asserts this affirmative defense shall waive confidentiality privileges related to the condition or conditions. If a patient, caregiver, or physician raises an exception to the state criminal laws, the patient, caregiver, or physician waives the confidentiality of his or her records related to the qualifying medical condition or conditions maintained by the department for the medical cannabis program. Upon request of a law enforcement agency for such records, the department shall only provide records pertaining to the individual raising the exception, and shall redact all other patient, caregiver, or physician identifying information.

13. (1) Except as provided in subdivision (2) of this subsection, the department shall establish a basic fee that shall be paid at the time of service of any subpoena upon the department, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the department for each day of attendance to cover the expenses of the person named in the subpoena.

(2) The subpoena fee established under subdivision (1) of the subsection shall not be applicable to any federal, state, or local governmental agency.

14. The department may collect fees from patients who apply to the medical cannabis program for a cannabis registry identification card for the purpose of offsetting the department's direct and indirect costs of administering the program. The amount of such

fees shall be set by rule of the department. The amount of the fees set under this section shall reflect the actual direct and indirect costs of the department in the administration and enforcement of this section. All fees collected by the department through the medical cannabis program shall be transferred to the state treasurer who shall credit the same to the medical cannabis program account within the medical cannabis license cash fund created in section 195.963.

195.982. 1. No individual or health care entity organized under the laws of this state shall be subject to any adverse action by the state or any agency, board, or subdivision thereof, including civil or criminal prosecution, denial of any right or privilege, the imposition of a civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission if such individual or employee or agent of the health care facility, in its normal course of business and within its applicable licenses and regulations, certifies a qualifying medical condition for an applicant to the medical cannabis program under sections 195.900 to 195.985.

2. A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

3. A health care provider shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing health care services that involve the medical use of cannabis consistent with this section and legal standards of professional conduct.

4. A testing laboratory shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

5. A caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering cannabis for medical use by a qualifying patient under the provisions of sections 195.900 to 195.985.

6. An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for providing legal assistance to prospective or licensed medical cannabis cultivation and productive facilities, medical cannabis centers, medical cannabis testing facilities, qualifying patients, caregivers, physicians, health care providers, or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

7. Actions and conduct by duly registered or licensed qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, and medical

cannabis testing facilities or their employees or agents, as permitted by this section and in compliance with division and department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

8. Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

9. It is the public policy of the state of Missouri that contracts related to cannabis for medical use that are entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, or medical cannabis testing facilities and those who allow property to be used by those entities, shall be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, medical cannabis testing facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical cannabis may be prohibited by federal law.

10. Real property used in the cultivation, manufacture, testing, distribution, sale, possession and administration of cannabis for medical use shall not be subject to asset forfeiture solely because of that use.

195.984.1. (1) The division of alcohol and tobacco control may summarily suspend a license issued under sections 195.900 to 195.985 prior to a hearing in order immediately to stop or restrict operations by a licensee to protect the public health, safety, or welfare. The division may rescind or amend a summary suspension.

(2) If, based upon inspection, affidavits, or other evidence, the division determines that a licensee or the products prepared by a licensee pose an immediate or serious threat to the public health, safety, or welfare, the division may summarily suspend a license:

(a) Requiring cessation or restriction of any or all licensee operations and prohibiting the use of medical cannabis produced by such licensee; or

(b) Placing restrictions on a licensee to the extent necessary to avert a continued threat, pending final investigation results.

(3) The requirements of the summary suspension shall remain in effect until the division rescinds or amends such requirements or until such time as the division takes final action on any related pending complaint and issues a final decision.

2. The department of health and senior services may summarily suspend any registration issued under section 195.981, pending further proceedings for denial of renewal or revocation of a registration, whenever the department finds that the continued registration poses an imminent danger to the public health, safety, or welfare.

195.985. 1. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in sections 195.900 to 195.985 shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. Sections 195.900 to 195.985 and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after November 6, 2018, shall be invalid and void.

2. If any provision of sections 195.900 to 195.985 or its application to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of sections 195.900 to 195.985 which can be given full effect without the invalid provision or application, and to this end the provisions of sections 195.900 to 195.985 are severable.

263.250. 1. The plant "marijuana", botanically known as cannabis sativa, is hereby declared to be a noxious weed and all owners and occupiers of land shall destroy all such plants growing upon their land. Any person who knowingly allows such plants to grow on his land or refuses to destroy such plants after being notified to do so shall allow any sheriff or such other persons as designated by the county commission to enter upon any land in this state and destroy such plants.

2. Entry to such lands shall not be made, by any sheriff or other designated person to destroy such plants, until fifteen days' notice by certified mail shall be given the owner or occupant to destroy such plants or a search warrant shall be issued on probable cause shown. In all such instances, the county commission shall bear the cost of destruction and notification.

3. The provisions of this section shall not apply to the authorized cultivation and production of cannabis plants for purposes of providing medical cannabis under sections 195.900 to 195.985.

311.610. 1. For the purpose of carrying out the provisions of this chapter [and], the liquor control law, and sections 195.900 to 195.985 the governor, by and with the advice and consent of the senate, shall appoint some suitable person of good moral character over the age of thirty years, who has been a qualified elector in the state of Missouri for at least five years next before the date of his appointment, as supervisor of liquor control. The supervisor of liquor control shall serve at the pleasure and under the supervision and direction of the governor.

2. The supervisor of liquor control shall devote his entire time to the duties of his office and, with the approval of the governor, appoint and employ all agents, assistants, deputies, inspectors and employees necessary for the proper enforcement and administration of the provisions of the liquor control law whose salaries shall be fixed by the governor, but no salary shall be greater than that paid to employees in other state departments for similar work, except that no salary of an agent directly engaged in the enforcement of the liquor control law shall be less than eight thousand dollars a year. In addition to his salary, the supervisor of liquor control and each of the agents, assistants, deputies, inspectors and employees shall be reimbursed for all

expenses necessarily incurred in the discharge of their duties. No expenses shall be allowed for sustenance to any supervisor, agent, assistant, deputy, inspector or employee while in the city or town of his residence.

3. Before entering upon the discharge of his duties, the supervisor of liquor control shall take and subscribe to an oath to support the Constitution of the United States and of this state, and faithfully demean himself in office, and shall also execute bond to the state of Missouri in the penal sum of ten thousand dollars, conditioned for the faithful performance of the duties of his office, which bond shall be approved by the governor and deposited with the secretary of state and kept in his office; the premiums of the bond shall be paid by the state out of funds appropriated for that purpose.

4. The supervisor of liquor control shall issue licenses for the manufacture and sale of ardent spirits, malt, vinous, fermented and every class of liquors used as beverages. The supervisor of liquor control shall keep a record of all intoxicating liquor manufactured, brewed or sold in this state by every brewery, distiller, manufacturer, distributor or wholesaler, and make a complete report of the same to the governor at the end of each calendar year, or as soon thereafter as possible.

311.620. 1. No person shall be appointed as agent, assistant, deputy or inspector under the provisions of the liquor control law <u>or the Missouri Patient Care Act</u> who shall have been convicted of or against whom any indictment may be pending for any offense; nor shall any person be appointed as such agent, assistant, deputy or inspector who is not of good character or who is not a citizen of the United States, and who is not or has not been a resident taxpaying citizen of the state for a period of three years previous to his appointment; or who is not able to read and write the English language or who does not possess ordinary physical strength and who is not able to pass such physical and mental examination as the majority of a board, consisting of the governor, lieutenant governor, attorney general, and the supervisor of liquor control may prescribe.

2. No agent, assistant, deputy or inspector so appointed shall hold any other commission or office, elective or appointive or accept any other employment compensation while he is an employee of the department of liquor control, except with the written permission of the supervisor of liquor control. No agent, assistant, deputy or inspector of the department of liquor control shall accept any reward or gift other than his regular salary and expenses as provided in this chapter. No agent, assistant, deputy or inspector of the department of liquor control shall perform any police duty connected with the conduct of any election, nor at any time or in any manner electioneer for or against any party ticket, or any candidate for nomination or office on any party ticket, nor for or against any proposition of any kind or nature to be voted upon at any election.

3. The agents, assistants, deputies and inspectors appointed under the provisions of section 311.610 shall before entering upon the discharge of their duties, each take and subscribe an oath to support the Constitution and laws of the United States and the State of Missouri and to faithfully demean themselves in office in the form prescribed by Section 11, Article VII of the Constitution of this State, and they shall each give bond to be approved by the supervisor of liquor control for faithful performance of the duties of their respective offices and to safely keep

and account for all moneys and property received by them. This bond shall be in the sum of five thousand dollars, and the cost of furnishing all such bonds shall be paid by the state.

4. Any agent, assistant, deputy or inspector of the department of liquor control who shall violate the provisions of this chapter shall be immediately discharged.

311.630. 1. The supervisor of alcohol and tobacco control and employees to be selected and designated as peace officers by the supervisor of alcohol and tobacco control are hereby declared to be peace officers of the state of Missouri, with full power and authority to make arrests and searches and seizures only for violations of the provisions of this chapter relating to intoxicating liquors, [and] sections 407.924 to 407.934 relating to tobacco products, and sections 195.900 to 195.985 and to serve any process connected with the enforcement of such laws. The peace officers so designated shall have been previously appointed and qualified under the provisions of section 311.620 and shall be required to hold a valid peace officer license pursuant to chapter 590.

2. The supervisor of alcohol and tobacco control shall furnish such peace officers with credentials showing their authority and a special badge, which they shall carry on their person at all times while on duty. The names of the peace officers so designated shall be made a matter of public record in the office of the supervisor of alcohol and tobacco control.

3. All fees for the arrest and transportation of persons arrested and for the service of writs and process shall be the same as provided by law in criminal proceedings and shall be taxed as costs.

311.660. 1. The supervisor of liquor control shall have the authority to suspend or revoke for cause all such licenses; and to make the following regulations, without limiting the generality of provisions empowering the supervisor of liquor control as in this chapter set forth as to the following matters, acts and things:

(1) Fix and determine the nature, form and capacity of all packages used for containing intoxicating liquor of any kind, to be kept or sold under this law;

(2) Prescribe an official seal and label and determine the manner in which such seal or label shall be attached to every package of intoxicating liquor so sold under this law; this includes prescribing different official seals or different labels for the different classes, varieties or brands of intoxicating liquor;

(3) Prescribe all forms, applications and licenses and such other forms as are necessary to carry out the provisions of this chapter, except that when a licensee substantially complies with all requirements for the renewal of a license by the date on which the application for renewal is due, such licensee shall be permitted at least an additional ten days from the date notice is sent that the application is deficient, in which to complete the application;

(4) Prescribe the terms and conditions of the licenses issued and granted under this law;

(5) Prescribe the nature of the proof to be furnished and conditions to be observed in the issuance of duplicate licenses, in lieu of those lost or destroyed;

(6) Establish rules and regulations for the conduct of the business carried on by each specific licensee under the license, and such rules and regulations if not obeyed by every licensee shall be grounds for the revocation or suspension of the license;

(7) The right to examine books, records and papers of each licensee and to hear and determine complaints against any licensee;

(8) To issue subpoenas and all necessary processes and require the production of papers, to administer oaths and to take testimony;

(9) Prescribe all forms of labels to be affixed to all packages containing intoxicating liquor of any kind; and

(10) To make such other rules and regulations as are necessary and feasible for carrying out the provisions of this chapter, as are not inconsistent with this law.

2. The supervisor of liquor control shall have the authority to regulate and control the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state; to grant or refuse state licenses for the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of sections 195.900 to 195.985, or a rule promulgated under sections 195.900 to 195.985; to impose any penalty authorized by sections 195.900 to 195.985, or any rule promulgated under sections 195.900 to 195.985; and to establish, revise, and amend rules and regulations as necessary to carry into effect the provisions of sections 195.900 to 195.985 as set forth in section 195.906.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-271)

Subject

Initiative petition from Lowell Pearson regarding a proposed amendment to Chapters 192, 195, 263, and 311 of the Revised Statutes of Missouri. (Received September 1, 2017)

Date

September 21, 2017

Description

This proposal would amend Chapters 192, 195, 263, and 311 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University,** the

Missouri Veterans Commission, and the **Missouri Association of Fire Protection Districts.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** (DHSS) indicated increased operating costs to all state funds of $3,126,494 in fiscal year 2019, $6,234,798 for fiscal year 2020, and $6,297,291 for fiscal year 2021. Of these costs, $940,252 are initial and one-time costs in fiscal year 2019 for equipment and a new computer system. These costs will be offset by additional revenues of $0 in fiscal year 2019, $6,444,096 for fiscal year 2020, and $6,444,096 for fiscal year 2021.

This proposal is not an entire duplication, however; Section 192.945, RSMo allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for persons who are issued a registry identification card due to a debilitating medical condition. Under this proposal, patients with intractable epilepsy could also qualify to receive a registration card for medical marijuana use.

Rental space for 89 FTE located in Jefferson City will be needed: 89.00 FTE x 230 sq ft/FTE x $21.00/sq. ft. = $429,870.

The proposed language would legalize the use of marijuana for medicinal purposes. There could be an unknown impact on small businesses that serve as medical cannabis cultivation and production facility, testing facility, or medical cannabis center.

The proposed legislation requires their department to issue annual registrations for qualified patients.

Section 198.981.14 allows their department to collect fees from patients that apply for a cannabis registry identification card through the medical cannabis program, in order to offset the direct and indirect costs of administering the program. The amount of such fee shall be set by their department in rule. The amount of the fees set under this section shall reflect the actual direct and indirect costs of the department in the administration and enforcement. All fees collected by their department shall be transferred to the state treasurer who shall credit the same to the "Medical Cannabis Program Account" within the Medical Cannabis License Cash Fund created in Section 195.963. Appropriations from the account shall be used solely for the administration of Section 195.981.

The provisions of this section shall become effective on December 6, 2018. According to the proposed provisions of this section, their department shall make available to the public all application forms and application instructions within 180 days of the effective date of the section (June 6, 2019). Their department shall accept all applications for patients and caregivers no later than 210 days following the effective date of this section (July 6, 2019). The first fees for qualifying patient identification cards are assumed to be collected beginning July 1, 2019 (FY 2020).

The estimations for the number of identification cards issued each year are detailed under question 12. The total estimate of collected fees for the cards equal $6,444,096 for FY 2020.

Section 195.961 of the proposed language imposes a tax of two percent on the retail price of cannabis for medical use sold at medical cannabis centers within the state which all sellers of medical cannabis are required to remit to the Director of Revenue (DOR). The amount of tax that will be collected is unknown and they defer to the Department of Revenue for these estimations. DOR may retain up to five percent of the annual retail taxes collected to cover collection cost. DOR is to then divide the remainder of the annual retail tax and deposited equally among each of the following funds: Missouri Veterans' Health and Care Fund, the Missouri Public Safety Fund, the Missouri Drug Treatment Fund, and Early Childhood Development Education and Care Fund. They are not able to determine what duties the department would have to utilize the funding established in Section 195.961.

Section 195.963.1 establishes in the state treasury the Medical Cannabis License Cash Fund which shall consist of all monies collected by the Division of Alcohol and Tobacco Control within the Department of Public Safety for licensing of facilities as prescribed in Sections 195.800 to 195.985.

Section 195.981.13(1) requires their department to establish a basic fee to charge in affirmative defense cases when the department is served with a subpoena for information contained in the medical cannabis database for the defendant in the case. Their department is also to charge for actual mileage and meals related to the case along with employee time spent at the place named in subpoena. They are not certain of the number of subpoenas that would be issued, therefore the cost and revenue for this subsection is unknown.

Division of Community and Public Health (DCPH)

Section 195.957 designates their department as the state agency responsible for regulating and controlling the manufacturing of medical cannabis-infused products. Only a licensed medical cannabis cultivation and production facility is permitted to produce medical cannabis-infused products. Cannabis shall be tested for the cannabinoid profile and for contaminants as specified by their department. All testing shall be done by an independent laboratory that is accredited to International Organization for Standardization 17025 or certified, registered, or accredited by an organization approved by their department and shall arrange for testing to be conducted in accordance with the frequency required by their department. Section 195.981.2(10) grants their department the authority to establish, revise and amend rules regarding the regulation and control of medical cannabis-infused products.

Section 195.981.2 permits their department to issue any rules necessary to: ensure that patients with qualifying medical conditions are able to safely gain access to medical cannabis; prevent persons who do not suffer from qualifying medical conditions from selling, acquiring, possessing, producing, using or transporting cannabis; establish and maintain a confidential registry of patients who have applied for and are entitled to receive a registry identification card; development of an application form for residents seeking a registry identification card; verifying medical information concerning patients who have applied for a registration card or for the renewal of a registry identification card; developing a written certification form that shall be used by a physician to certify that a patient has a qualifying medical condition; designate the conditions for issuance and renewal, and the form, of the registry identification card issued to patients, including assurance that the department only issues or renews a registration card to a patient if the patient has a bona fide physician-patient relationship with a physician in good standing and licensed to practice medicine in Missouri; providing communications with law enforcement officials about registration cards that have been suspended when a patient is no longer diagnosed as having a qualifying medical condition; providing a waiver process to allow homebound patients that qualify for a registration card to have a caregiver transport the patient's medical cannabis from a licensed medical cannabis center to the patient; to regulate and control the manufacturing of medical cannabis infused products.

Section 195.981.3 requires their department to conduct a public review hearing to receive public input on any emergency rules adopted by the department and be provided with an update from the industry, caregivers, patients and other stakeholders regarding the current status of the industry. Their department is required to provide at least five business days' notice prior to the hearing.

Section 195.981.4 requires their department to make application forms and application instructions available for qualifying patient and caregiver identification cards within 180 days of the effective date of this section. Within 210 days of the effective date of this section, they shall begin accepting applications for the identification cards.

Section 195.981.5 requires their department to ensure that a physician who certifies a qualifying medical condition for an applicant to the medical cannabis program shall comply with certain requirements.

Sections 195.981.6(3) and 195.981.8(2) require that their department maintains a registry with qualifying patient information and make the registry information available 24 hours per day and seven days a week to law enforcement for verification purposes.

Section 195.981.13(1) requires their department to establish a basic fee to charge in an affirmative defense cases when the department is served with a subpoena for information contained in the medical cannabis database for the defendant in the case. Their department is also to charge for actual mileage and meals related to the case along with employee time spent at the place named in subpoena. They are not certain of the number of subpoenas that would be issued, therefore the cost and revenue for this subsection is unknown.

Division of Administration

Section 195.981.14 allows their department to collect fees from patients who apply to the medical cannabis program for the purpose of offsetting the department's direct and indirect costs of administering the program.

Information Technology Services Division (ITSD)

Support of an IT vendor to build a data system to support the administration and reporting requirements indicated in Section 195.981. The system would be used by the department to process applications to include issuance identification cards, verification of current identification cards, and tracking lost or stolen cards.

Division of Community and Public Health (DCPH)

Applications for Patient and Caregiver Identification

Section 195.981 requires their department to issue registration cards for qualified patients. A study by the nonprofit entity ProCon organization, updated March 2016, published the rates of patient registration cards issued for each state with a medical marijuana program (http://medicalmarijuana.procon.org/view.resource.php?resourceID=005889). This study found that Oregon was issuing qualified patient cards at a ratio of 19.2 per 1,000 state residents. For purposes of this fiscal note, the State of Oregon's program will be benchmarked in regard to the number of registrants. While the Oregon program was initiated in May 1999 and therefore has an established program, the state of Missouri's chronic disease rates are generally higher and the qualifying medical conditions accepted under Missouri's proposal are broader than those of Oregon.

Calculation of applications:

- Patients: According to the 2015 U.S. Census Bureau information, Missouri's population is at 6,083,672. Applying the rate of 19.2 applications per 1,000 residents, Missouri would estimate issuing 116,807 patient registration cards annually ((6,083,672/1,000) x 19.2)).

- Caregivers: According to the October 1, 2016 data on Oregon's Medical Marijuana Program Website, the ratio of patient registration cards to caregiver cards is calculated at 2.29. Calculating this same ratio, Missouri would estimate issuing 51,007 caregiver cards annually (116,807/2.29).

The proposed effective date of the medical cannabis program is December 6, 2018. Their department is required to have the applications for the qualifying patient and caregiver identification cards available within 180 days of the effective date (June 6, 2019). Section 195.981.4 requires their department to begin accepting applications for the qualifying patient and caregiver cards no later than 210 days from the effective date (July 6, 2019). For purposes of this fiscal note analysis, it is assumed that DHSS will begin accepting applications July 1, 2019 (FY 2020). They assume that it will collect an application fee of $32 per card for initial application and renewal. It is assumed that the fees will be collected in the same fiscal year the applications are received. It is also assumed that ten percent of the initial applicants will submit a renewal application within the same fiscal year and the remaining applicants will submit a renewal application the following year. Initial applicants in FY 2021 are estimated to be ten percent of the total initial applications in FY 2020. It is also assumed that ten percent of the initial applicants in FY 2020 will not renew in FY 2021. In subsequent years, lost or stolen cards will be ten percent of the renewal applications. It is assumed that the fee to replace a card will be the same as the initial issuance and renewal fee.

	FY 2019	FY 2020	FY 2021
Qualifying Patient Initial Applications	0	116,807	11,681
Qualifying Patient Renewal Applications	0	11,681	116,807
Caregiver Initial Applications	0	51,007	5,101
Caregiver Renewal Applications	0	5,101	51,007
Lost/Stolen Patient & Caregiver Replacement Cards	0	16,782	16,782
Total Patient & Caregiver Identification Cards	0	201,378	201,378
Total Patient & Caregiver Application Fees	$0	$6,444,096	$6,444,096

Program Operations: Staffing

Section 195.981 requires the establishment of a medical cannabis program through promulgation of rules and implementation of those rules for administration of patient and caregiver identification cards, and the regulation of manufacturing of medical cannabis-infused products. This includes the development of all program applications and forms, identification cards, and a computerized database system to allow for the electronic storage of and processing of data needed to issue and verify identification cards. As a result, DCPH anticipates the need to hire the following staff beginning on December 1, 2018 (FY 2019) to begin development of the program/system:

One Program Manager Broad Band 2 ($65,000) – will serve as Chief of the Medical Cannabis Program. Duties will include overall program management, including involvement in rule promulgation, development of forms, program policies and procedures, information system development, and initial program set-up. This position

will also supervise a Program Coordinator, one Investigator III, a Health Program Representative III, an Environmental Specialist V, and a Bureau Administrative Office Support Assistant.

One Program Coordinator (A30, $50,112, Step H) – will serve as a Unit Coordinator over Patient Registrations. This unit will be responsible for processing patient and caregiver applications. This position will be involved in the initial program development with the Bureau Chief, hiring of staff, and development of training for staff. Once the program is operational, responsibilities extend to implementation and maintenance of the program, responsibility for meeting application decision deadlines, and ongoing management responsibilities.

One Health Program Representative III (A24, $39,708, Step G) – duties will include assistance in rule promulgation, program policies and procedures, forms development, information system development/troubleshooting and maintenance, and initial program set-up. This position will serve as the liaison between the Program and IT to work on system maintenance, enhancements, and running reports used to inform the Division of Alcohol and Tobacco Control regarding the location of registrants for statewide access. This position will also be responsible for establishing materials to educate the public about the program and exhibiting at conferences or other venues to educate physicians and the general public.

One Administrative Office Support Assistant (A15, $28,668, Step F) – duties will include providing administrative assistance to the Bureau Chief, Program Coordinator, Investigator, Inspectors, and HPR III positions. As allowed, this position will also assist in initial processing of patient and caregiver applications for registration cards.

The following staff will be hired to begin March 1, 2019. This hire date will allow for training and final program preparation to occur prior to the required release dates for the application forms for patients and caregivers, patient or caregiver cultivators, certifications, and facility licenses:

One Investigator III positions (A25, $41,184, Step G) – this position will investigate all instances/complaints of possible fraud or negligence on the behalf of a recommending physician, and a registered patient and/or caregiver. This position would also investigate the circumstances under which a licensed facility confiscated a potentially fraudulent identification card. With a new program of this size and the legalization of something that remains illegal for the majority of the population, it is anticipated that DHSS will receive a fair number of calls reporting instances of possible violations. While one position is estimated for purposes of this fiscal note, it may be necessary to add additional staff after the program is operational for some time. The additional costs remain unknown.

One Grain Inspector IV position (A23, $38,304, Step G) – this position will complete the onsite inspections of the medical cannabis cultivation and production facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules

that need to be met for initial and continued regulation of medical cannabis-infused products. This specialty position was chosen because a technical piece of the regulation and control involves analyzing the testing of plants for molds, mildew, and pesticides and making sure the facilities are dealing with these issues in a proper way.

Two Environmental Public Health Specialist IV positions (A27, $44,352, Step G) – these positions will complete the onsite inspections of the medical cannabis cultivation and production facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued regulation of medical cannabis-infused products. This specialty position was chosen because a technical piece involves ensuring sanitation requirements are met and the infused-products are labeled and packaged correctly.

One Environmental Public Health Specialist V position (A28, $46,056, Step G) – this position coordinates and supervises the work of the EPHS IV positions and the Grain Inspector IV position; ensuring inspections are completed consistently and timely. This position also provides technical assistance to the environmental specialists and grain inspector, and makes final action decisions/recommendations for problem inspections.

49 Senior Office Support Assistant (SOSA) positions (A12, $26,340, Step F) – duties will include processing of paper applications to include opening and date stamping of mail, entry of application information into the electronic registry, initial verification of applicant and physician identification, initial application review to include determination of application approval or denial (including incomplete status), preparation of patient and caregiver identification cards, processing revoked cards, processing requests for lost and stolen cards, and answering of phones and assisting telephone callers.

24 Health Program Representative II (HPR II) positions (A21, $35,640, Step G) – duties will include supervision of the SOSA positions and quality assurance checks of the application entry and initial verification completed by the SOSAs. These positions will have responsibility for final approval of application incomplete notices, rejects, revocations, and card issuances.

For fiscal note purposes they calculated 45 minutes to process each application.
201,378 patient and caregiver apps X .75/hour / 2,080 hours per year per staff = 72.6 staff (round to 73 staff). This is a total of 73 processing staff (49 SOSA and 24 HPR II positions).

Printing Costs
They will print identification cards for the qualified patient and caregiver. The cards are encoded with a magnetic stripe for security and linkage to the IT system for dispensing purposes. The card delivery system will have the ability to print the card with the magnetic stripe, attach the card to a personalized letter, and secure in an envelope ready for mailing. The initial cost of the card delivery system is estimated at $277,000. In addition there will be an annual equipment preventative maintenance fee of $34,000. The

average supply cost to print each card is $0.59/card ($0.59 X 201,378 cards = $118,813 annually).

They will print 100,000 brochures each year the program is operational at a cost of $0.06 per brochure. This brochure will provide the public with information about the medical cannabis program and assistance in completing a valid registration. ($0.06 per brochure X 100,000 brochures= $6,000 annually).

Mailing Costs

Each qualifying patient and caregiver will receive his/her card in the mail. It is estimated that 10 percent of the registered patients and caregivers, will submit a change request to their application requiring a change notification receipt by mailing. It is projected that five percent of all applications will be incomplete and requires mailing of an incomplete notice. It is also projected that 25 percent of the printed brochures (25,000) along with paper applications will be mailed to the public upon request. The other printed brochures will be available for distribution at conferences and other public venues.

Projected mailings are as follows:

	FY 2019	FY 2020	FY 2021
Total Patient and Caregiver ID Cards	0	201,378	201,378
Change Request Notifications	0	20,138	20,138
Incomplete Notifications	0	10,069	10,069
Brochures/app mailed	25,000	25,000	25,000
Total mailings	**25,000**	**256,585**	**256,585**

FY 2019

- 25,000 envelopes ($41 per 1,000) = 25 X $41 = $1,025
- Postage (25,000 x $0.39/postage rate) = $9,750

FY 2020

- 256,585 envelopes ($41 per 1,000) = 257 X $41 = $10,537
- Postage (256,585 x $0.39/postage rate) = $100,068

FY 2021

- 256,585 envelopes ($41 per 1,000) = 257 X $41 = $10,537
- Postage (256,585 x $0.39/postage rate) = $100,068

Division of Administration

DHSS-DA assumes one Accounting Clerk (start date June 1, 2019) can process 30,000 receipt transactions per year. An Accounting Generalist I/II (start date March 1, 2019) would be needed to supervise for every five Account Clerks.

Accounting Clerk (A12, $26,340, Step F) - duties would include open and sort mail, process and enter receipts in the department computer system, prepare bank deposits and cash receipts documents, reconcile daily receipts and distribute supporting documentation program.

Accounting Generalist I/II (A25, $41,184, Step G) - duties would include supervise and review the work of Accounting Clerks who are processing the fees.

Each application and license would have a fee transaction.

Transaction	**FY 2020**
Qualifying Patient Initial Applications	116,807
Qualifying Patient Renewal Applications	11,681
Caregiver Initial Applications	51,007
Caregiver Renewal Applications	5,101
Lost/Stolen Patient & Caregiver Replacement Cards	16,782
Total Number of Transactions	**201,378**
Accounting Clerk	6.00 FTE
Accounting Generalist I/II	1.00 FTE

Information Technology Services Division (ITSD)

Application Storage Costs

In order to manage the final storage of paper applications submitted, Content Manager for electronic scanning and storage will be utilized. The costs for Content Manager are estimated at $132 per month for the state data server costs, $234 for an annual license for each user who needs to view files and $828 for an annual license for each position with ability to scan/import documents. Content Manager services will not be acquired until FY 2020.

Information Systems Development

Estimating a 12 month project duration with a project team consisting of 4 IT Consultants. Applications will be received as paper submissions to the department. System will print identification cards for physical delivery to the applicant. The system will be hosted in the State Data Center (SDC) on existing virtual servers. Disk space has been estimated at 50 GB for Development and Test with 150 GB estimated for Production. While we have estimated for a system build it is possible COTS solutions are available at a similar cost.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated:

Increased costs of $11,229 in FY19, $35,262 in FY20, and $67,160 in FY25 and thereafter.

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Current laws provide for class C felony penalties for possession (Section 579.015) and class B felony for distribution and production of controlled substances (Section 579.055). Considering additional increases in related violations, proposed changes in this bill are expected to result in two new prison admissions and three new field admissions in the first year of enactment (FY19). The maximum impact should be expected by FY 25 and will lead to an additional three offenders in prison and eighteen offenders in the field.

In addition, this proposal would be impactful to their department in that they currently test their staff for marijuana use and discipline accordingly. If their staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for them to determine which of their staff are innocently exposed from those who are abusing this substance illegally.

One would think that legalizing medical marijuana would reduce costs as fewer people would be sentenced to probation/parole/prison. But in fact, a few secondary crimes would go up, described on the estimate cover page. Also, our prisons aren't currently full of people who just committed medical marijuana crimes. That's why it's just a few people and a small cost for the overall impact.

Officials from the **Department of Revenue** indicated this petition will have a fiscal impact on their department. Increased operating costs to all state funds would total $242,855 for fiscal year 2019, $124,921 for fiscal year 2020, and $126,460 for fiscal year 2021. Of these costs, $165,106 are initial and one-time costs in fiscal year 2019 for equipment and a new computer system.

This legislation will have an economic impact on small business to the extent the business is in the growing and distribution chain of medical marijuana through remittance of additional taxes and new job creation.

	Total		150,012	30,752	31,521

This legislation increases Total State Revenue by an unknown amount from the sales tax collected on the sale of medical marijuana.

Section 195.961

The petition levies a two percent tax on the retail sale of medical cannabis sold at medical cannabis centers. Their department may retain up to five percent for the cost of collection. The petition creates the Missouri Veterans' Health and Care Fund (MVHCF), the Missouri Public Safety Fund (MPSF), and the Missouri Drug Treatment Fund (MDTF). After retention of five percent, their department deposits one-half percent into the MVHCF, one-half percent into the MPSF, one-half percent into the MDTF, and one-half percent into the Early Childhood Development Education and Care Fund. The Commissioner of Administration may make cash operating transfers to the fund to meet cash requirements in advance of receiving revenues. The provisions of sections 144.010 to 144.527 apply to the tax levied by this section.

Administrative Impact:

Collections & Tax Assistance:
This section will see additional registrations, registration phone calls, business tax account update requests, and delinquent phone contacts from the additional businesses registering to collect sales tax on medical marijuana. Collections and Tax Assistance requires two (2) Revenue Processing Technicians I (Range 10, Step L) per 24,000 additional contacts to the registration section and 15,000 contacts annually on the delinquent tax line. Each technician requires CARES equipment. Collections & Tax Assistance also requires registration updates to capture the sellers and the item tax associated with them.

Business Tax Processing:
Although the legislation bases the two percent tax on the retail selling price, it is separate from sales and use tax. This tax needs to be reported and deposited separately from sales and use tax. This would require new reporting forms and a new program to track and distribute receipts.

The sales at retail of medical cannabis would be subject to existing state and local sales tax as sales of tangible personal property. Neither the current Sales Tax Law, nor the initiative petition, provides an exemption or exclusion from tax for such sales.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition. They have forwarded this to MSHP, MVC, and ATC for their comment.

Officials from the **Department of Public Safety - Missouri State Highway Patrol** indicated unknown impact for their criminal records division.

They also indicated unknown economic impact on small businesses.

The proposed legislation would create the Missouri Patient Care Act.

At the time of filing an application for issuance or renewal of a state medical cannabis center license, a medical cannabis cultivation and production facility license, or a medical cannabis testing facility license, an applicant shall submit a set of his or her fingerprints to the Missouri State Highway Patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. Additionally, they assume that any owner, officer, manager, or employee at any one of these facilities shall pass a state and federal fingerprint-based criminal background check prior to being associated with, managing, owning, or working at the operation.

Currently, the Missouri State Highway Patrol Criminal Justice Information Services (CJIS) Division processes all state and federal fingerprint background checks. CJIS does not know how many individuals this petition will affect, however, the fees assessed for these background checks are as follows:

State fee: $20.00
FBI fee: $12
Applicant fingerprinting vendor fee: $8.30
Total fee per applicant: $40.30

Of these amounts, the state retains the $20 state fee and $2 of the federal charge of $12 for a pass thru fee. The $8.30 charge is paid directly to the vendor at the time of application.

They submitted these additional comments:

To ensure compliance with Public Law 92-544, it is suggested to add the following wording to 195.906.2(h):

<u>An applicant shall submit a set of his or her fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint based criminal record check. Fingerprints shall be submitted in accordance with section 43.543, and fees shall be paid in accordance with section 43.530.</u>

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed under sections 195.900 to 195.985, including a fingerprint based criminal record check as may be required by the division prior to issuing a card<u>; an applicant shall submit a set of his or her fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal</u>

fingerprint based criminal record check. Fingerprints shall be submitted in accordance with section 43.543, and fees shall be paid in accordance with section 43.530.

Officials from the **Department of Public Safety - Missouri Division of Alcohol and Tobacco Control** indicated increased operating costs to all state funds of $5,404,449 for fiscal year 2019, $3,782,561 for fiscal year 2020, and $3,833,045 for fiscal year 2021. Of these costs, $1,521,944 are initial and one-time costs in fiscal year 2019 for project management, equipment, and consultant/background checks. These costs would be offset by additional revenues of $0 in fiscal year 2019, $12,573,800 for fiscal year 2020, and $10,186,900 for fiscal year 2021. Cities and counties license fee and user fee revenue would increase by $731,380 in fiscal year 2020, $327,190 in fiscal year 2021, and $327,190 in fiscal year 2022.

This proposal will affect the following:

Department of Health and Senior Services
OA – ITSD calculated separately by ITSD.
Local Cities and Counties

Costs for ITSD are not included in this budget and will have to be calculated by ITSD. Costs related to facilities management for new facilities are not included in this budget and will have to be calculated separately.

ATC would need to remodel its current office location or move to a bigger facility in order to facilitate 48 additional staff.

The Division of Alcohol and Tobacco Control has determined that the proposed legislation should not impose a direct or significant economic burden upon a small business or directly restrict the formation, operation or expansion of a small business in Missouri.

Revenue will be generated from licensing establishments for the cultivation, production and sales of cannabis. Revenue will additionally be generated from user fees. The revenue generated will be deposited into the Medical Cannabis License Cash Fund created in 195.963.1 to use for the administration and enforcement of the Sections 195.900 to 195.985.

Section 195.918.1(1) – ATC may limit the number of licensed medical cannabis cultivation and production facilities, but must be no less than one facility per 100,000 inhabitants. ATC will license a minimum of 60 cultivation and production facilities (6,000,000 inhabitants / 100,000 = 60). At least one cannabis center license shall be issued to each cultivation and production facility license.

Section 195.918.1(2) - ATC may limit the number of licensed medical cannabis centers, but must be no less than one center per 100,000 inhabitants. ATC will license a minimum of 60 cannabis centers (6,000,000 inhabitants / 100,000 = 60). A medical cannabis cultivation and production facility may be approved for up to two additional cannabis center licenses if more cannabis centers are needed for sufficient access to patients.

Section 195.963.2(1) – Requires applicants to submit a non-refundable $12,500 application fee when filing for a license, 60 cultivation and production facilities and 60 cannabis centers with the possibility of an additional 120 cannabis centers or 240 x $12,500 = $3,000,000. It also requires a $12,500 annual license fee for the medical cannabis cultivation and production facility license and the medical cannabis center license, 240 x $12,500 = $3,000,000.

ATC believes that there will be approximately 100 license applications submitted above the amount that will be finally approved for licenses. Nevada which has less than half the population of Missouri currently has 176 applications for the medical marijuana center license for only 77 allowable centers. Since the fee is nonrefundable, this will generate another $1,250,000. This amount will probably only occur in the first year as once the licenses are allocated, there will be few applications submitted.

Section 195.963.2(2) also requires ATC to establish all other processing fees needed. Below are examples of license fees and processes that would require a fee. ATC is estimating fees for licenses, renewals and each change based on what Colorado is currently charging for these types of transactions. Colorado is similar in population to Missouri.

Fee Revenue – FY'20			
Type of Fee	**Fee**	**Est. Number**	**Annual Revenue**
Initial License Fees (1 Year)			
Medical Cannabis Center License	$12,500	180	$2,250,000
Medical Cannabis Cultivation and Production Facility License	$12,500	60	$750,000
Medical Cannabis Testing Facility Registration	$2,200	17	$37,400
Renewal License Fees			
Medical Cannabis Center License	$12,500		N/A
Medical Cannabis Cultivation and Production Facility License	$12,500		N/A
Medical Cannabis Testing Facility Registration	$2,200		N/A
Occupational License Fees (1 Year)			
Occupational Licenses – Key Occupational Employee (Manager or Owner)	$300	1,200	$360,000
Occupational Licenses – Support Occupational Employee	$150	6,000	$900,000
Occupational License Fees Renewals			
Occupational Licenses – Key Occupational Employee (Manager or Owner)	$150		N/A
Occupational Licenses – Support Occupational Employee	$75		N/A
License Change Fees			
Reallocation of Ownership	$1,000	10	$10,000
Change of Corporation or LLC Structure	$800 per person	10	$1,800
Modification of Licensed Premises	$120	20	$2,400
Duplicate Business License	$40	5	$200
Duplicate Occupational License	$10	50	$500
Indirect Financial Interest Background Investigations	$150	10	$1,500
Subpoena Fee	$200	0	0
Applications to change location	$500	0	0
Transfers of Ownership – New Owner	$2,000	5	$10,000

Fee Revenue – FY'21			
Type of Change	**Fee**	**Est. Number**	**Annual Revenue**
Initial License Fees (1 Year)			
Medical Cannabis Center License	$12,500	5	$62,500
Medical Cannabis Cultivation and Production Facility License	$12,500	5	$62,500
Medical Cannabis Testing Facility Registration	$2,200	3	$6,600
Renewal License Fees			
Medical Cannabis Center License	$12,500	175	$2,187,500
Medical Cannabis Cultivation and Production Facility License	$12,500	55	$687,500
Medical Cannabis Testing Facility Registration	$2,200	14	$30,800
Occupational License Fees (1 Year)			
Occupational Licenses – Key Occupational Employee (Manager or Owner)	$300	400	$120,000
Occupational Licenses – Support Occupational Employee	$150	2,000	$300,000
Occupational License Fees Renewals			
Occupational Licenses – Key Occupational Employee (Manager or Owner)	$150	800	$120,000
Occupational Licenses – Support Occupational Employee	$75	4,000	$300,000
License Change Fees			
Reallocation of Ownership	$1,000	20	$20,000
Change of Corporation or LLC Structure	$800 per person	20	$16,000
Modification of Licensed Premises	$120	15	$1,800
Duplicate Business License	$40	5	$200
Duplicate Occupational License	$10	50	$500
Indirect Financial Interest Background Investigations	$150	10	$1,500
Subpoena Fee	$200	10	$2,000
Applications to change location	$500	2	$1,000
Transfers of Ownership – New Owner	$2,000	2	$4,000

Fee Revenue – FY'22 and Ongoing (3rd year of operation)			
Type of Change	**Fee**	**Est. Number**	**Annual Revenue**
Initial License Fees (1 Year)			
Medical Cannabis Center License	$12,500	5	$62,500
Medical Cannabis Cultivation and Production Facility License	$12,500	5	$62,500
Medical Cannabis Testing Facility Registration	$2,200	3	$6,600
Renewal License Fees			
Medical Cannabis Center License	$3,300	175	$2,187,500
Medical Cannabis Cultivation and Production Facility License	$8,300	55	$687,500
Medical Cannabis Testing Facility Registration	$2,200	14	$30,800
Occupational License Fees (1 Year)			
Occupational Licenses – Key Occupational Employee (Manager or Owner)	$300	400	$120,000
Occupational Licenses – Support Occupational Employee	$150	2,000	$300,000
Occupational License Fees Renewals			
Occupational Licenses – Key Occupational Employee (Manager or Owner)	$150	800	$120,000
Occupational Licenses – Support Occupational Employee	$75	4,000	$300,000
License Change Fees			
Reallocation of Ownership	$1,000	20	$20,000
Change of Corporation or LLC Structure	$800 per person	20	$16,000
Modification of Licensed Premises	$120	15	$1,800
Duplicate Business License	$40	5	$200
Duplicate Occupational License	$10	50	$500
Indirect Financial Interest Background Investigations	$150	10	$1,500
Subpoena Fee	$200	10	$2,000
Applications to change location	$500	2	$1,000
Transfers of Ownership – New Owner	$2,000	2	$4,000

Section 195.966.1 directs all fees and fines provided for by this act (other than as collected by DHSS for patient and caregiver registry or collected by ATC for the Department of Revenue) shall be paid to the Division and credited to the medical cannabis license cash fund. ATC does not believe the first year will result in fines as the

licensing process could take 6 months to a year before an applicant becomes licensed. It is estimated that in FY'21 and ongoing fines could be between $25,000 - $500,000 annually.

Revenue	FY'20	FY'21	FY'22
License Application Fees	$4,250,000	$162,500	$162,500
License Fees (1 year license)	$4,297,400	$3,877,400	$3,877,400
License Change Fees	$26,400	$47,000	$47,000
Fines	0	$100,000	$200,000
Total Revenue	$8,573,800	$4,186,900	$4,286,900

Colorado Medical Marijuana Sales Tax Receipts

Fiscal Year	Receipts
10-11	$4,367
11-12	$5,982,950
12-13	$9,112,237
13-14	$10,562,577

Colorado receipts include a 2.9% sales tax rate on medical marijuana. ATC estimates that sales tax receipts in Missouri for the first year will be minimal because of the time it takes to implement this act. However, ATC estimates that Missouri revenue from sales tax collections on medical marijuana could be slightly lower as the Missouri sales tax rate (2%) is almost one percent lower what Colorado is assessing.

Section 195.005 Gives the department of Health and Senior Services the duties and powers set forth in sections 195.900 to 195.985.

Sections 195.018 Products used as authorized by sections 195.900 to 195.985 are exempt from the provisions of section 195.017.

Section 195.900.1 & 2 Creates the Missouri Patient Care Act that allows marijuana to be used for medicinal purposes under sections 195.900 to 195.985, and also specifies that it is illegal to cultivate, manufacture, or sell medical cannabis except in compliance with the medical cannabis laws as provided.

Section 195.900.3 Defines the following terms:

(1) Adequate supply means 2.5 ounces during a 14 day period derived solely from an in state source. It provides for a waiver to department of health and senior services to allow for additional amounts under certain situations. Qualifying patients cannot possess more than a sixty day supply.
(2) Administer is the ways that marijuana and marijuana products can be applied to the qualifying patient.

(3) Cannabis is defined, but specifically excludes the stalks of such plant, fiber from the stalks, or cake made from the seeds.
(4) Cannabis plant monitoring system is an electronic seed-to-sale tracking system that tracks the life cycle of the medical cannabis plant from growth to packaging and sale to a qualifying patient.
(5) Cannabis products are products infused with cannabis or cannabis extract intended for use or consumption.
(6) Caregiver is a person, over 21 years of age that has significant responsibility for helping the patient. Not the patient or the patient's physician.
(7) Department means the department of health and senior services (DHSS).
(8) Division means the division of alcohol and tobacco control (ATC).
(9) Entity is a natural person, corporation, unincorporated association, business trust, limited liability company or partnership, general or limited partnership, joint venture, or any other entity.
(10) Good Cause defines the situations that can result in the refusing or denying of a medical cannabis license, license renewal, or reinstatement of license.
    (a) Applicant or licensee has violated, does not meet, or has failed to comply with any of the terms of the act or rules.
    (b) Applicant or licensee has violated or fails to comply with special terms or conditions.
    (c) The licensed premises have been operated in a manner that adversely affects public health.
(11) License is the act of granting a license or registration under the new sections.
(12) Licensed premises mean the premises that have been licensed to cultivate, manufacture, distribute or sell medical cannabis.
(13) Licensee is the person licensed or registered under the new sections.
(14) Limited access area is an area of the licensed premises that access is limited to only those persons licensed by ATC, and visitors and vendors as provided by rule and requires signage designating such.
(15) Local licensing authority refers to municipal or county charter or ordinances.
(16) Medical cannabis refers to the cannabis that is grown and sold under the new sections.
(17) Medical cannabis center is a person licensed to operate a business that sells medical cannabis to registered qualifying patients or caregivers.
(18) Medical cannabis cultivation and production facility is a person licensed to operate a business as described in section 195.954.
(19) Medical cannabis-infused products are products that are infused with medical cannabis that is intended for use or consumption other than by smoking.
(20) Medical cannabis testing facility is an independent facility licensed, certified and approved by ATC to conduct research and analyze medical cannabis for contaminants and potency. (Does ATC have to approve medical cannabis testing, or can they be certified in other ways?)
(21) Medical use is production, distribution and use of cannabis or cannabis infused products for qualifying patients to relieve symptoms or effects of qualifying medical conditions.

(22) Person includes person, partnership, association, company, corporation, LLC, or organization, manager, agent, owner, director, servant, officer or employee.
(23) Premises is defined as a distinct and definite location.
(24) Qualifying medical conditions are defined in this subsection.
(25) Qualifying patient is a Missouri resident diagnosed with at least on qualifying medical condition.
(26) Smokeless vaporizing device is a medical-grade vaporizing device used to administer metered doses of medical cannabis.
(27) State licensing authority means ATC and is responsible for regulating and controlling the licensing of the cultivation, manufacture, distribution and sale of medical cannabis in this state.
(28) Written certification is a document dated and signed by a physician stating that a qualifying patient has a qualifying condition and is being treated or managed by the physician.

195.903.1 Makes ATC the state regulatory and licensing authority.

195.903.2 Allows the State Supervisor to employ FTE as may be determined necessary. It also specifies that no money shall be appropriated or used from general revenue to support the Missouri Patient Care Act.

195.906.1 Provides what ATC is responsible for such as:

(1) Grant or refuse applications for state licenses; suspend, fine, restrict or revoke licenses issued under these provisions. It also provides ATC with the authority to take any action with respect to registrations as it may with respect to licenses.
(2) Establish rules and regulations to carry out the provisions of this new section.
(3) Provide written notice of denial and provide the right to a hearing before the administrative hearing commission.
(4) Maintain the confidentiality of patient record reports received from license holders.
(5) Develop forms as necessary for administration of this act and related rules.
(6) Prepare annual report to the Governor accounting for the discharge of duties.

195.906.2(1) Provides guidelines for the promulgation of rules such as:

(a) Provide procedures to assure compliance with this act, and establish procedures for administrative actions against licensee.
(b) Specify procedures for officers and employees of ATC.
(c) Provide instructions for local licensing authorities and law enforcement.
(d) Provide the requirements for inspections, investigations, searches, seizures and other activities.
(e) Creation of a range of administrative penalties.
(f) Prohibit misrepresentation and unfair practices.
(g) Provide control of informational and product displays.

(h) Develop process for ID cards for all involved in the medical cannabis industry, including a fingerprint-based criminal record check.
(i) Provide identification (ID cards) of state licensees and industry employees/ owners.
(j) Provide for security requirements to secure the licensed premises and reporting requirements for changes to the licensed premises.
(k) Provide regulations for the storage of, warehouses for and transportation of medical cannabis.
(l) Provide for sanitary requirements for licensed premises including the sanitary requirements for the preparation of medical cannabis-infused products.
(m) Outline the acceptable forms of picture identification that may be used when verifying a sale.
(n) Provide for labeling standards.
(o) Provide for testing standards.
(p) Provide record keeping standards and required availability of records.
(q) Provide state licensing procedures, including renewals, reinstatements, initial licenses and the payment of licensing fees.
(r) Provide for the reporting and collection of monthly sales tax payments by medical cannabis centers.
(s) Work with the department of revenue to ensure sales and income tax payments.
(t) Provide for method to impose administrative penalties and procedures for appealing.
(u) Provide for other procedures or rules that are necessary for comprehensive administration of the act.

(2) Authorizes ATC to use emergency rulemaking procedures set out in section 536.025 to promulgate emergency rules by March 6, 2019 for prompt implementation of this act.
(3) Prevents ATC from fixing prices for medical cannabis.

195.909.1 A local licensing authority of cities and counties upon receipt of the fee may issue a:

(1) Medical cannabis center license.
(2) Medical cannabis cultivation and production facility license.

195.909.2(1) Prevents local licensing authority from issuing a local license within a municipality or unincorporated portion of a county unless they have adopted an ordinance or resolution specifying the licensing standards. If licensing standards have not been adopted prior to June 1, 2019, the local licensing authority shall use the minimum licensing requirement of this act.

195.909.2(2) Allows the local governing body to adopt additional standards for the issuance of medical cannabis licenses consistent with the intent of sections 195.900 to 195.985 as follows, but not limited to:

(a) Distance restrictions between premises

(b) Other requirements necessary to ensure control of the premises and ease of enforcement of the terms and conditions of the license.

195.909.3 Local governments may limit the use of land for medical cannabis centers and medical cannabis cultivation and production facilities. Local zoning approvals shall be made by the governing body of the city, county, or municipality as it applies. Local governments can prohibit the operations of medical cannabis in the city, county, or municipality with a two-thirds majority vote from the registered voters.

195.909.4 Requires an applicant to file his license application with the appropriate local licensing authority on ATC application forms, and local licensing authorities can also require additional forms. License applications must be verified by the oath or affirmation of the persons as prescribed by ATC.

195.909.5 Requires applicant to provide plan specifications for the interior of the building that is to be licensed to local licensing authority and other requirements deemed necessary by ATC or the local licensing authority.

195.912.1 A local licensing authority must schedule and hold a public hearing on submission of an initial application to be held not less than thirty days after the date of the application, but not more than ninety days from the application date. If a hearing is not scheduled within the timeframe, the application shall be considered approved. The local licensing authority shall post and publish public notice thereof not less than 10 days prior to the hearing.

195.912.2 Specifies the sign that should be used for public notice of hearing.

195.912.3 Requires public notice given by publication to contain the same information as required on the sign.

195.912.4 Requires the sign where medical cannabis is to be cultivated, tested, manufactured, distributed or sold to be posted on the proposed licensed location in a conspicuous and visible spot, and if the building is not constructed, a sign shall be posted at the location that it is to be built.

195.912.5(1) A local licensing authority or the license applicant may request a concurrent state review of the license application before final approval is given by the local licensing authority, but the local authority shall still continue to independently review the applicant's license application.

(2) Requires ATC to notify local licensing authority of issues that might result in denial of license and must also notify the local licensing authority of correction of the problem(s). ATC must also notify the local licensing authority of conditional approval of applicant. After final approval by the locals, ATC shall issue the applicant a state license.

(3) Applications for concurrent review shall be accompanied by all license and application fees. Denial of the license will result in a refund of the license fee, but not any other fees. Application fees shall be retained by the respective licensing authority.

195.915.1 A local licensing authority must provide results of its investigation in writing to the applicant not less than 5 days prior to the date of the public hearing. License may be refused for good cause, subject to judicial review.

195.915.2 Outlines considerations that may be made by local licensing authority when determining whether to approve or deny an application.

195.915.3 Local licensing authority must issue licensing decision within 30 days after the public hearing or completion of the application investigation. The decision must be made in writing and provided to the applicant.

195.915.4 A local licensing authority may not issue a local license until the building is completed and ready for business and has been inspected by the local licensing authority and it matches plan provided with application.

195.915.5 A local licensing authority must notify ATC of the approval of the license by the local licensing authority, and the state will then investigate and approve or disapprove the application.

195.918.1(1) Limits licensing of medical cannabis cultivation and production facilities to 60 each statewide (1 per 100,000 inhabitants or 6,000,000/100,000 = 60). The license is valid for one year and shall be renewable, except for good cause. At least one medical cannabis center license shall be issued for each medical cannabis cultivation and production facility license.

(2) Limits licensing of medical cannabis centers to 60 (1 per 100,000 inhabitants or 6,000,000/100,000 = 60), but allows current licensees to, in some instances, acquire an additional two medical cannabis center licenses. These two additional ones are above and beyond the initial 60 licenses. The license is valid for one year and shall be renewable, except for good cause.

(3) Licenses shall be disbursed geographically by ATC, in consultation with DHSS, to ensure statewide access for patients. If more than the statewide limit for medical cannabis centers is necessary to provide sufficient patient access, a medical cannabis cultivation and production facility may be approved for up to two additional cannabis centers licenses, subject to approval by ATC and local licensing authority.

195.918.2 Requires a $5,000 bond for sales and use taxes due the state in event of nonpayment.

195.918.3 Requires ATC to have a final determination of failure to pay taxes before such bond can be required to make payments to the state.

195.918.4 Requires bonds to be renewed or continued at the time of license renewals.
195.921.1 Applications for a state license must be made to ATC on forms prepared by ATC to include information to establish whether a state license shall be granted.

195.921.2 ATC shall make application forms available within 180 days of the effective date of this section, and shall begin accepting applications no later than 240 days after the effective date.

195.921.3 ATC may not issue a state license until the local licensing authority has given approval.

195.921.4 Does not preempt local government to enact ordinances or resolutions concerning matters which local governments are authorized to oversee.

195.924.1 & 2 Requires ATC to deny a state license if the premises don't meet requirements set out in statutes. It also provides for the applicant to have a hearing before the administrative hearing commission if the license is denied. ATC is required to provide written notice of the reason for denial to the applicant and local licensing authority at least 15 days prior to the hearing.

195.927.1 Provides guidelines on who shall not be issued a license:

(1) Annual Fee must be paid.
(2) A person under 21 years old.
(3) A licensee who has:
    a. Failed to provide a surety bond, proof of assets or file any tax return
    b. Failed to pay taxes.
    c. Failed to pay a judgment due to a government agency.
    d. Failed to stay out of default on a government-issued student loan.
    e. Failed to pay child support.
    f. Failed to remedy an outstanding delinquency for any of the above.

(4) A person who in the last ten years preceding the application date has discharged a sentence for a felony conviction, or a person who has at any time been convicted of a felony regarding the possession, distribution, or use of a controlled substance.
(5) A person who employs someone at a medical cannabis center, cultivation and production facility or testing facility that has not passed a criminal background check.
(6) A sheriff, deputy sheriff, police officer, or prosecuting officer or any officer or employee of ATC, or a local licensing authority.
(7) A person whose primary caregiver license was revoked by DHSS.
(8) A person who is licensing a location that is currently licensed as a retail food establishment or wholesale food registrant.

195.927.2 This new section shall comply with provisions of section 324.010.1.

195.927.3 Licenses shall be held by entities that are 60% or more owned by natural citizens who have been Missouri residents for the three years prior to filing of the application for a license.

195.927.4(1) Gives ATC access to criminal background checks information in order to investigate applicants. If ATC considers the background check information, ATC must also consider information provided by the applicant showing evidence of rehabilitation, character reference, and educational achievements.

(2) Defines criminal justice agency to mean any federal, state, or municipal court or any government agency or subunit of such agency that administers criminal justice under a statute or executive order, and which a substantial part of their annual budget is spent on criminal justice.

(3) Applicant must submit personal history information as required by ATC, and also fingerprints which shall be in accordance with section 43.543 and 43.530, for submission to the MSHP who shall forward, if necessary, to the FBI for conducting a criminal background check. After a licensee has submitted the fingerprint check twice, they may thereafter submit a name based criminal background check. ATC is allowed to verify any information that an applicant is required to submit.

195.930 Gives reasons ATC or the local licensing authority shall not issue license:

(1) If ATC already denied a license at the location or within 1,000 feet of the location in the 2 years prior due to the nature of the use, or other concern.

(2) Until the lease or ownership of the location is established.

(3) If the local zoning laws of the municipality or county do not allow medical cannabis production or sale.

(4)(a) If the building to be licensed is within 1,000 feet of a school, college or university, or a licensed childcare facility, or within 100 feet of a youth center, public swimming pool, or video arcade facility . It allows for an exception for those already licensed, if the licensee was actively doing business prior to one of the listed facilities being constructed.

(b) The distances are computed by direct measurement from the nearest property lines of the land used for school or campus to the nearest portion of the building in which medical cannabis is to be sold.

(c) The local licensing authority shall make the determination as to whether the distance restrictions are valid.

195.933.1 A state or local license is not transferable except in special situations:

195.933.2 A transfer of ownership requires the license holder to apply to ATC and the local licensing authority on ATC forms. The local licensing authority may hold a hearing in the same manner as set out in section 195.912. ATC may hold a transfer of ownership hearing in compliance with section 195.912.

195.936.1 Allows a county or municipality to enact stricter regulations and restrictions than the state law.

195.936.2 Applicant cannot operate until license has been granted by both local licensing authority and ATC. Applicant must provide a complete list of all owners, officers, and employees to licensing authorities.

195.936.3 Licensee must notify ATC in writing within 10 days after an owner, officer, or employee ceases to work at, manage, own, or otherwise be associated with the operation. They must surrender their identification card to ATC on or before the date of notification.

195.936.4 Licensee must notify ATC in writing of the name, address, and date of birth of an owner, officer, manager or employee before the new person may begin working with the operation. They must pass a fingerprint-based criminal background check and obtain the identification card prior to being associated with, managing, owning or working at the operation.

195.936.5 Licensee may not acquire, possess, cultivate, deliver, transfer, transport, supply or dispense cannabis for any reason except to assist patients or as otherwise provided for in sections 195.900 to 195.985.

195.936.6 Owners of licensed medical cannabis operations are authorized to do business in Missouri. The local licensing authority shall not issue a license until ATC has received the license fee due. Licenses are valid for a one year period from date of issuance.

195.936.7 Licensing authorities may consider all requirements and exceptions of the Missouri Patient Care Act and rules promulgated under this act, along with any other reasonable restrictions before issuing the license. Licensing authorities may consider the effect on competition of granting or denying a second or third additional license to the licensee and shall not approve an additional license that has the effect of restraining competition.

195.936.8(1) Each license is separate and distinct. A separate license is required for each specific business and each geographical location.

(2) Licensee must maintain possession of the premises at all times.

195.936.9(1) License must specify the date of issuance, period of licensure and name of licensee and the premises licensed. License must be displayed conspicuously on the licensed premises at all times.

(2) A local licensing authority may not transfer location of or renew a license until the applicant produces a license granted by ATC covering the whole period for which the license or renewal is sought. (It appears that for initial licenses, the local licensing authority must grant the license before ATC can issue a license, but for changes in location, ownership or renewals, ATC must grant the license before the local licensing authority can issue the license.)

195.936.10 The day of the license issuance shall not count towards the designated time period of the license. Saturdays, Sundays and legal holidays shall be counted as any other day.

195.936.11 Licensee must report transfers or change of financial interest to ATC and the local licensing authority 30 days prior to the event. A report shall be required for transfers of capital stock of any corporation.

195.936.12 Licensee shall manage the licensed premise or appoint a manager on the premises. The manager must be reported to ATC and the local licensing authority. Any changes must be reported to both 30 days prior to the change.

195.936.13(1) A licensee may move the permanent location within the same municipality or county in which the license was granted, but may not conduct business until permission is granted from both ATC and the local licensing authority.

(2) ATC and the local licensing authority must consider all aspects of the new location to be sure the new location is in accordance with all requirements of the Act, local ordinances and the rules and regulations before granting a change.

195.939.1(1) ATC shall notify the licensee 90 days before the expiration date of the license. A renewal must be submitted to the local licensing authority 45 days and to ATC 30 days prior to the expiration date. A local licensing authority shall not accept a late renewal except as provided in (2) below. ATC may extend the expiration date and accept a late application for renewal provided that the applicant has filed timely with the local license authority. All renewals filed with the local licensing authority and approved by such, shall next be processed by ATC. ATC and the local licensing authority may waive the late renewal time requirements upon reasonable grounds. The local licensing authority may hold a hearing for renewal only if there have been complaints filed against it, there is a history of violations, or there are allegations that constitute good cause.

(2) The local licensing authority must post a notice of the hearing and notify the licensee for a period of ten days prior to holding a hearing. The local licensing authority may refuse to renew any license for good cause.

195.939.2(1) A late renewal application fee of $500 to the local licensing authority will be charged to renew a license that has expired, but not if it is expired for more than 90 days. A licensee may continue to operate until both ATC and the local licensing authorities have taken final action to approve or deny the late renewal application.

(2) No late renewal application is acceptable after more than 90 days after the expiration date and licensee must discontinue business actions.

195.942 A license may be revoked or not renewed if the licensed premises have been inactive without good cause for at least one year.

195.945.1 ATC, by rule, shall require complete disclosure of all persons having a direct or indirect financial interest and the details of such interest in any license.

195.945.2 A person shall not have unreported financial interest in a license unless such person has undergone a fingerprint-based criminal background check (Does this mean that if they haven't reported a financial interest as required by the application process and previous requirements, it's okay as long as they have undergone a fingerprint-based criminal background check?). This does not apply to banks, savings and loan associations or industrial banks, or to stockholders, directors, or officers thereof.

195.945.3 This section is intended to prevent control of the business by a person other than who is licensed to do so (subterfuge).

195.948.1 ATC may grant four types of licenses under this act.

(1) Medical cannabis center license;

(2) Medical cannabis cultivation and production facility license;

(3) Medical cannabis testing facility license;

(4) Occupational licenses and registrations for owners, managers, operators, employees, contracts and other support staff, or those having access to restricted areas as determined by ATC. ATC may take action against the registration the same as the other licenses.

195.948.2 A business will be required to hold both a medical cannabis center license and cultivation and production facility license.

195.948.3 A medical cannabis business must use a cannabis plant monitoring system to track all inventory.

195.948.4 Banks and credit unions may loan money to licensees for the operation of a licensed business.

195.948.5 A medical cannabis testing facility shall be licensed, approved, and certified by ATC. Owners of medical cannabis testing facilities cannot have financial interest in medical cannabis cultivation and production facilities and medical cannabis centers. Owners of medical cannabis cultivation and production facilities and medical cannabis centers cannot have financial interest in medical cannabis testing facilities.

195.951.1 A medical cannabis center license may be issued only to a person selling medical cannabis under this section.

195.951.2 A medical cannabis center licensee may also sell prepackaged and labeled cannabis-infused products

195.951.3 Except as provided in subsection 4 of this section, a licensee shall only sell cannabis grown in its medical cannabis cultivation and production facility.

195.951.4 A licensee shall not purchase more than thirty percent of its total on-hand inventory of cannabis from another licensed medical cannabis center in Missouri, and shall not sell more than thirty percent of its on-hand inventory to another licensed medical cannabis center in Missouri.

195.951.5 Licensee of the medical cannabis center must verify that the purchaser has a valid registration card from DHSS and valid picture identification card that matches the name on the registration card before making a sale.

195.951.6 Licensee shall provide an amount of its medical cannabis to a medical cannabis testing facility for testing as established by rule.

195.951.7 Provides the labeling requirements for selling medical cannabis:

(1) Medical cannabis (not infused) shall have a legible, firmly affixed label on which the wording is no less than one-sixteenth inch in size on each package and contains the following information:

(a) Patients name.

(b) Name and registration number of the licensee that produced it along with telephone number, mailing address, and website information if any.

(c) Quantity of usable cannabis in the package.

(d) The date of the packaging.

(e) Batch number, sequential serial number, and bar code when used, to identify the batch associated with manufacturing and processing.

(f) The cannabinoid profile of the cannabis including the THC level.

(g) Statement regarding the limited information about the safety of the product and/or to keep away from children.

(2) Medical cannabis-infused products shall have a legible, firmly affixed label on which the wording is no less than one-sixteenth inch in size on each package and contains the following information:

(a) Patients name.

(b) Name and registration number of the licensee that produced it along with telephone number, mailing address, and website information if any.

(c) Name of the product.

(d) Quantity of usable cannabis in the package as measured in ounces.

(e) A list of the ingredients, including the cannabinoid profile and the THC level.

(f) The date of the product creation and use by date.

(g) Batch number, sequential serial number, and bar code when used, to identify the batch associated with manufacturing and processing.

(h) Directions for use if relevant.

(i) Statement that the product was tested for contaminants, and no adverse findings, and the date of the testing.

(j) A warning known allergens are in the product.

(k) Statement regarding the limited information about the safety of the product and/or to keep away from children.

(3) Packaging instructions include plain, opaque, tamper-proof and child-proof containers without designs other than the centers logo.

195.951.8 Licensee shall comply with all provisions of law as relate to persons with disabilities.

195.954 A medical cannabis cultivation and production facility license may be issued only to a person who grows and cultivates cannabis and who manufactures medical cannabis or cannabis-infused products under this Act.

195.957.1 The DHSS is designated as the state agency for regulating and controlling the manufacture of medical cannabis infused products.

195.957.2(1) Medical cannabis-infused products can only be prepared on a licensed cultivation and production facility used for the manufacture and preparation of cannabis-infused products and which uses equipment for that exclusive purpose.

(2) Only a licensed medical cannabis cultivation and production facility is permitted to produce cannabis-infused products for such facility's medical cannabis centers and may sell to any other licensed cannabis center in Missouri.

(3) All cannabis cultivated must be tested in accordance with:

(a) Cannabinoid profile and for contaminants as specified by DHSS, including mold, mildew, heavy metals, plant-growth regulators and nonorganic pesticides. DHSS may require additional testing.

(b) Testing results must be maintained for no less than one year.

(c) Must have a procedure to follow up on results indicating contamination including destruction of product and assessment of the source.

(d) All testing shall be conducted by an independent laboratory that is:

a. accredited to International Organization for Standardization (ISO) 17025 by a third- party accrediting body; OR

b. Certified, registered, or accredited by an organization approved by DHSS.

(e) Testing must be conducted in accordance with the frequency as required by DHSS.

(f) The medical cannabis facility shall have a contractual arrangement with a laboratory for the purposes of testing cannabis, and those individuals responsible for testing must be licensed.

(g) A medical cannabis cultivation and production facility may not have a financial or other interest in a laboratory providing testing services for a licensee.

(h) No individual employee of a laboratory providing testing services shall receive financial compensation from any medical cannabis facility.

(i) Transportation to and from the laboratories shall comply with rules promulgated by ATC.

(j) All storage of cannabis at a laboratory shall comply with subdivision (4) below.

(k) Excess cannabis from the testing facility shall be returned to the source facility and be disposed of so as to minimize the development of odor and minimize attraction of bugs, in section 195.957.2(6)(e).

(4)(a) All cannabis shall be housed and stored in such a manner as to prevent diversion, theft, or loss.

(b) Medical cannabis shall be accessible only to the minimum number of authorized agents essential for efficient operations.

(c) Medical cannabis shall be returned to a secure location at the end of the scheduled business day.

(d) If the manufacturing process cannot be completed at the end of a day, all processing area or tanks, vessels, bins, or containers containing cannabis shall be securely locked inside an area or building that affords adequate security.

(5) Cannabis shall be processed in a safe and sanitary manner. Only the leaves and flowers of the female cannabis plant shall be processed as follows:

(a) Well cured and free of seeds and stems;

(b) Free of dirt, sand, debris, and other foreign matter;

(c) Free of contamination by mold, rot, other fungus, and bacterial diseases;

(d) Prepared and handled on food-grade stainless steel tables; and

(e) Packaged in a secure area.

(6) (a) – (o) Sets out the specific guidelines for sanitary requirements that must be met by anybody whose job includes contact with cannabis or nonedible medical cannabis-infused products, including cultivation, production, packaging, is subject to the requirements for food handlers under state law and in accordance with DHSS. It specifically sets out rules that must be followed by all who come into contact with the manufacturing and processing of medical cannabis products. (Not sure if ATC would oversee this aspect as DHSS is the agency for setting out sanitation standards and would likely have more expertise in doing such inspections).

195.957.3(1) Medical cannabis cultivation and production facilities shall provide adequate lighting, ventilation, temperature, humidity, space and equipment.

(2) Facilities shall have separate storage for outdated, damaged, deteriorated, mislabeled, contaminated, opened or breached cannabis, until it is destroyed.

(3) Storage shall be clean and orderly.

(4) Storage shall be free from infestation by insects, rodents, birds, and pests of any kind.

(5) Storage shall be maintained in accordance with security requirements set out by ATC.

195.960.1 Prevents wholesaling, transferring or processing any medical cannabis product until the product has been tested by a medical cannabis testing facility and validated.

195.960.2(1) Sets out the cultivation process and testing that needs to take place before it will be deemed valid.

(2) Sets out the production process and testing that needs to take place before it will be deemed valid.

195.960.3(1) Each harvest and production batch of medical cannabis concentrate and product shall be tested by a medical cannabis testing facility for salmonella sp., Escherichia coli and other bile tolerant bacteria.

(2) Each harvest batch shall be tested for filth and other visible contamination.

(3) Each production batch of solvent-based cannabis concentrate shall be tested for residual solvent contamination.

195.960.4(1) ATC may require additional tests on a harvest or production batch.

(2)(a) Sets out a waiver to testing production batches in (1) above if the facility does not wholesaler or transfer any portion of the production batch to manufacture medical cannabis product, except that a solvent-based medical cannabis concentrate shall still be submitted for a residual solvent contaminant test.

(b) If only CO2 was used on a product batch, residual solvent testing is not required.

195.960.5(1)(a) When a facility makes a material change to its cultivation or production process, the first five harvest or production batches must be revalidated.

(b) A material change includes if a facility uses a different pesticide.

(c) Using a new solvent is considered a material change.

(d) Licensee shall notify the medical cannabis testing facility of the material change.

(e) When a harvest or production batch is required for testing due to a material change, the facility may not wholesale, transfer or process into medical cannabis concentrate or product being tested.

(2) If six of ten tests batches produced fail contaminant testing, the facility will have to revalidate its process.

195.960.6 Medical cannabis-infused products shall not be exempt from state or local sales tax.

195.961.1 Levies a two percent retail sales tax on the sale of medical cannabis at medical cannabis centers for the privilege of engaging in business. Sellers of medical cannabis shall report to the director of revenue, on forms provided by the director of revenue, the total gross receipts for sales of medical cannabis at retail, and remit to the director of revenue two percent of their gross receipts.

195.961.2 After retaining no more than five percent of its actual collection costs, the department of revenue shall deposit one-half percent of tax collections into the Missouri Veterans' Health and Care Fund, one-half percent into the Missouri Public Safety Fund, one-half percent into the Missouri Drug Treatment Fund, and one-half percent into the Early Childhood Development, Education and Care Fund created by section 161.125. Licensees will be allowed approved credits for returns provided the tax was paid on the returned item and the purchaser received the refund or credit.

(1) Creates the Missouri Veterans' Health and Care Fund consisting of certain taxes and fees collected under this section. The interest earned on investments shall be credited to the fund. The money remaining in the fund does not revert to general revenue at the end of the year. This is a dedicated fund and shall stand appropriated as follows:

(a) An amount necessary for the department to carry out this section.

(b) Remainder of funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans.

(c) The money in this fund shall provide additional funding for the purposes listed above and shall not replace existing funding.

(2) Creates the Missouri Public Safety Fund consisting of certain taxes and fees collected under this section. The interest earned on investments shall be credited to the fund. The money remaining in the fund does not revert to general revenue at the end of the year. This is a dedicated fund and shall stand appropriated as follows:

(a) An amount necessary for the department to carry out this section.

(b) Remainder of funds shall be allocated evenly to all police departments, fire protection districts, and fire departments in Missouri that have medical cannabis centers or medical cannabis cultivation and production facilities within their geographic boundaries.

(c) The money in this fund shall provide additional funding for the purposes listed above and shall not replace existing funding.

(3) Creates the Missouri Drug Treatment Fund consisting of certain taxes and fees collected under this section. The interest earned on investments shall be credited to the fund. The money remaining in the fund does not revert to general revenue at the end of the year. This is a dedicated fund and shall stand appropriated as follows:

(a) An amount necessary for the department to carry out this section.

(b) Remainder of funds shall be allocated evenly to all Missouri Drug Treatment Centers funded by the state of Missouri.

(c) The money in this fund shall provide additional funding for the purposes listed above and shall not replace existing funding.

(4) Gives department of revenue authority to establish, revise, and amend rules necessary to carry into effect the retail sales tax on medical cannabis and to issue forms, instructions and other documents necessary for tax collections.

195.961.3 Sections 144.010 through 144.527 apply to the administration of tax imposed in this section.

195.963.1(1) Creates the Medical Cannabis License Cash Fund that will consist of all money collected by ATC under the Missouri Patient Care Act. The fund will be dedicated solely for the administration of the Act.

(2) The money in the fund does not revert back to general revenue at the end of the fiscal year.

(3) The interest earned on investments shall be credited to the fund.

(4) Creates a Medical Cannabis Program Account as an account within the medical cannabis license cash fund and will consist of all funds collected by DHSS under section 195.981 that deals with the physician and patient side of this act.

195.963.2(1) The nonrefundable application fee for a medical cannabis center license and a medical cannabis cultivation and production facility is $12,500 each, and the annual license fee is $12,500 each and must be submitted with the license application.

(2) ATC shall establish all other fees for processing applications that are submitted to ATC, such as applications;

(a) To change location.

(b) Transfer of ownership.

(c) License renewal and expired license renewal applications.

(d) Licenses, i.e. medical cannabis testing facility licenses, occupational licenses and registrations.

(3) The fees that ATC charges should reflect the actual direct and indirect costs to ATC in the administration and enforcement of the Missouri Patient Care Act.

(4) ATC can charge applicants a fee for the cost of each fingerprint analysis and background investigation undertaken to qualify new officers, directors, managers, or employees.

(5) At least annually, ATC will review the amount of fees and adjust the amount to reflect actual costs.

195.963.3 ATC shall establish a basic subpoena fee that will include meals, mileage, and lodging for each day of attendance as a result of a subpoena.

195.963.4 The subpoena fee will not be applicable to any federal, state, or local government agency.

195.966.1 Except for the fees charged by DHSS and the local licensing authority, all fees and fines under this act shall be paid to ATC, who will credit it to the medical cannabis license cash fund.

195.966.2 ATC expenditures shall be paid out of appropriations from the medical cannabis license cash fund.

195.969.1 Local licensing authorities can charge a fee for applications and licenses in an amount determined by them, but not to exceed ten percent of the state fees.

195.969.2 Local license fees shall be paid to the treasurer of the municipality or county where the licensed premises are located in advance of the approval, denial or renewal of the license.

195.972.1 ATC and local licensing authorities may suspend or revoke a license for violations by the licensee or any agents or employees of the licensee. Licensee must be given an opportunity for a public hearing. Both have the power to administer oaths and issue subpoenas to require the presence of people or for the production of records.

195.972.2 ATC or the local licensing authority shall provide written notifications to licensee regarding the suspension, revocation, fine and the required notice of the hearing. A suspension shall not be longer than six months, unless a summary suspension. The fees will not be returned to the licensee. A license can be summarily suspended without notice pending any prosecution, investigation or public hearing in the case of an immediate risk

or threat to public safety (195.984). Nothing in this section prevents the summary suspension of a license.

195.972.3(1) A licensee that has their license suspended for 14 days or less can petition to pay a fine in lieu of having the license suspended and both state and local licensing authorities may stay the suspension, investigate, or grant the petition if:

(a) The public welfare and morals are not impaired, and the fine achieves the desired disciplinary purposes.

(b) The books and records are kept in such a manner that the loss of revenue had the licensee suffered if the suspension had gone into effect is known or can be estimated accurately.

(c) The licensee has not had his or her license suspended or revoked, nor had any suspension stayed during the two years immediately preceding.

(2) The fine shall not be less than $500 or more than $100,000.

(3) Payment of a fine shall be by cash, certified check or cashier's check.

195.972.4 Fines paid to the local licensing authority should be credited to the general fund. Fines paid to ATC shall be credited to the medical cannabis license cash fund (I question the effect of fines being credited to the agency that is imposing the fine as it could create the appearance that a fine is being imposed for revenue enhancement as faced by the many St. Louis municipalities as a result of traffic violations funding their operations.)

195.972.5 Stays of a suspension as a result of a licensee petitioning to pay a fine in lieu of a suspension granted are limited to those necessary while the authority completes its investigation to determine the amount of fine, or if a fine will replace the stay.

195.972.6 If the authority does not find that a stay is appropriate, the suspension shall go into effect on the operative date set by ATC or the local licensing authority.

195.972.7 Local licensing authorities are required to report all actions taken to impose fines, suspensions and revocations to ATC. ATC shall report the preceding year's actions in which fines, suspensions or revocations were imposed by local licensing authorities and ATC by January 15th and shall file a copy with the House of Representatives and the Senate, and six copies for the legislative library.

195.975.1 Licensees must keep a complete set of records which shall be open during all business hours for inspection and examination by ATC. ATC can require any licensee to furnish information to determine the business transactions of the license and can appoint an auditor to have access to such records which the licensee will pay for.

195.975.2 The licensed premises shall be subject to inspection and investigation by ATC or local licensing authorities during all business hours, or other time of apparent activity. Upon demand, locked areas must be made available for inspection without delay.

195.975.3 Licensee must keep books and records for the current tax year and the three immediately prior tax years.

195.978.1 Except as otherwise provided, it is unlawful for a person:

(1) To consume medical cannabis in a licensed medical cannabis center or for the licensee to allow it to be consumed on the licensed premise.

(2) To permit or fail to prevent the use of a registry identification by any person for the unlawful purchasing of medical cannabis.

(3) To buy, sell, transfer, give away, or acquire medical cannabis except as allowed under this act.

195.978.2 It is unlawful for a licensed person to:

(1) Be in a limited-access area unless the person's license badge is displayed.

(2) Fail to designate areas of ingress and egress for limited-access areas and post signs as required.

(3) Fail to report a transfer of location or ownership of license.

(4) Fail to report the name of or a change in managers.

195.978.3 It is unlawful for any licensee under this act to:

(1) Sell more than two and one-half ounces of cannabis flower or its equivalent during a sales transaction to a qualifying patient.

(2) Display any signs that are not consistent with local laws or regulations.

(3) Use advertising material that is misleading, deceptive, false, or appeals to minors.

(4)(a) Sell to a person not licensed by DHSS or to a person without a valid patient registry identification card. A person under 21 years of age shall not be employed to sell or dispense medical cannabis, or grow or cultivate it.

(b) If a licensee has reasonable cause to believe a person is using a fraudulent ID card to obtain medical cannabis, the licensee shall be authorized to confiscate the card if possible. They shall within 72 hours turn it over to the DHSS or local law enforcement. Failing to confiscate the ID card and turning it in does not constitute a criminal offense.

(5) Offer for sale or solicit an order for medical cannabis in person except within the licensed premises.

(6) Have on the premises medical cannabis that is not permitted for sale by the license.

(7) Buy medical cannabis from a person not licensed to sell as provided by this act.

(8) Sell medical cannabis except in the permanent location designated in the license for sale.

(9) Require a licensee to make delivery to any premises other than the specific licensed premises where it is to be sold.

(10) Sell, serve, or distribute medical cannabis at any time other than between the hours of 8:00 a.m. and 7:00 p.m. seven days a week.

195.978.4 Except as otherwise provided, it is unlawful for:

(1) A licensee to sell, deliver or cause to be delivered to a licensee any medical cannabis not grown upon its licensed premises.

(2) A licensee to sell, possess or permit sale of medical cannabis not grown upon its licensed premises.

A violation of the above subsection shall be grounds for immediate revocation of the license.

195.978.5 A physician who makes patient referrals may not receive anything of value from the licensees, and a licensee cannot offer anything of value to a physician making patient referrals.

195.978.6 Violations under this section (195.978) result in a person being guilty of a class A misdemeanor.

195.981 Relates to DHSS's role in ensuring patients who are suffering legitimate debilitating medical conditions are able to gain access to medical cannabis and that those who aren't suffering cannot get it through this act. They are responsible for registering patients and primary caregivers. (DHSS should respond to this section).

195.982 Provides that no adverse action by the state or any agency, board, or subdivision thereof shall be taken against any individual or entity acting in accordance with this act. Nothing in this section provides immunity for negligence.

195.984.1(1) ATC may summarily suspend a license prior to a hearing to restrict operations to protect the public health, safety or welfare.

(2) If ATC determines that a licensee or the products prepared pose an immediate or serious threat to the public, based upon inspections, affidavits or other evidence, ATC can summarily suspend a license:

(a) Requiring cessation or restriction of any or all licensee operations and restricting use of the medical cannabis produced.

(b) Placing restrictions to the extent to avert a continued threat pending final investigation results.

(3) The summary suspension shall be in effect until ATC rescinds or amends it or they take final action on a pending complaint and issue a final decision.

195.984.2 DHSS may summarily suspend any registration pending further proceedings for denial of renewal or revocation of a registration if they determine that continued registration poses an imminent danger to the public.

195.985.1 Rules promulgated under this act by DHSS and ATC will become effective only if they comply with Chapter 536.

195.985.2 Provisions of sections 195.900 to 195.985 are severable.

Section 195.903.1 makes ATC the state Regulatory and Licensing Authority.

Section 195.903.2 prevents any general revenue funds from being used to fund the operation of the act, and prevents ATC from expending GR money for the operation of these sections. ATC will not have staff or funds available to initiate the operations of this act until funds are collected by the user fees and license fees. In order for ATC to acquire staff and money to begin processing applications, funds will have to be appropriated in some manner to fund the start up.

Section 195.903.2 allows the state supervisor to employ such FTE as may be necessary; therefore, ATC would add staff at four district offices (Kansas City, St. Louis, Springfield, and Jefferson City) as follows: 1 Staff Attorney, 7 Senior Office Support Assistants, 4 Executive I, 4 Agricultural Experts, 24 Special Agents, 4 District Supervisors and 4 Auditors.

District Supervisor – 4 – ATC would locate a District Supervisor in each office to oversee the activities of six Agent/Special Agents located in the field offices.

Special Agents – 24 – Special Agents would each be assigned a specific territory in the district to oversee licensing and regulation. Agents would be the key contact person for licensees to contact with questions and application problems. Agents would attend public hearings, perform inspections and do background checks. ATC currently has 5 districts.

Senior Office Support Assistant (SOSA) – 7 – The SOSA would be assisting in the large amount of clerical work related to the implementation and ongoing licensing of all the medical cannabis centers, cultivation and production facilities, medical testing facilities, and all the occupational licenses. In addition, this position would assist with the monthly sales tax reporting duties.

Executive I – 4 – The Executive I's would be working with the administrative and licensing sections to process licenses, data entry, track statistics, and facilitate the composition of the reports required by law. They would in addition be utilized to assist in the payroll and payables of processing the increased transactions.

Auditor – 4 – The Auditor would audit the monthly sales tax reports of the medical cannabis licensees, and be responsible for auditing licensed premises records to ascertain that the State of Missouri is receiving all taxes due, and the licensee is keeping records according to regulatory standards.

Agricultural Expert – 4 – ATC would employ this person to assist with the technical aspects of the medical cannabis growth process, cultivation, preparation of, testing of, storage of and anything to do with the product itself.

Staff Attorney – 1 – This person would be responsible for sorting through the large complex language of the bill, and interpreting the statutes and assisting with the promulgation of new rules to implement the act.

Expense and Equipment would be necessary for staff as outlined in the expense and equipment fiscal portion to include basic office equipment, laptops and telephone equipment. Agents will need law enforcement equipment to include weapons, ammunition, ballistic vests, vehicles, travel expenses, etc. ATC would need an identification printer scanner to create identification cards for occupational licenses.

In addition ATC plans to contract with a consultant who has expertise implementing state medical marijuana laws to help with creating the rules for the proper regulation and control of the cultivation, manufacture, distribution and sale of medical cannabis. Section 195.906 sets out ATC's responsibilities and duties under this law. ATC is responsible for setting out requirements for inspections, investigations, searches and seizures. ATC must create a range of administrative penalties, control of informational and product displays, development of individual identification cards for owners, officers, managers, contractors, employees and other support staff. ATC must set out the strict security requirements for licensed premises, regulation of the storage of, warehouse for, and transportation of medical cannabis. Sanitary requirements must be set. ATC must set labeling standards, recordkeeping standards, licensing procedures, and monthly reporting and payment of sales tax. ATC must prepare rules to prohibit misrepresentation and unfair practices in this new industry.

Section 195.966.2 provides that ATC's expenditures shall be paid out of the medical cannabis license cash fund.

ITSD ASSUMPTIONS

It is assumed that the new system will be required to carry out the provisions of the proposed legislation. ITSD would contract for the development of a single system to support the requirements of the Department of Health and Senior Services and for the Department of Public Safety. The estimated hours for development to support the requirement of the Department of Public Safety are based on a similar system implemented for the Department of Public Safety. The application would be hosted in the State Data Center (SDC) on existing shared hosting systems and those costs are included in the on-going costs. First year funding is unknown as section 195.903.2 prevents general revenue funds from being used, but following years will be supported by the Medical Cannabis License Cash Fund. Total estimated cost of the system is $715,797 with $365,472 for requirements of the Department of Health and Senior Services and $350,325 for the requirements of the Department of Public Safety.

Many states have a medical cannabis program that is similar to the proposed legislation. It appears Missouri's language was a combination of Oregon, Nevada and Colorado laws.

Oregon (population 4.09 million) has a medical marijuana registry program that registers patients, caregivers and grow sites. It allows for the medical use of marijuana in Oregon within specified limits. It provides legal protections for qualified patients; requires a physician-written statement of the patient's qualifying debilitating medical condition; allows for a caregiver to provide assistance; and mandates an Oregon Health Authority registration system. The Oregon Medical Marijuana Program is totally fee-supported. No

state funds are used to support the program. Beginning in 2014, the state began to license dispensaries in Oregon. It sets out a schedule of fees which include a $4,000 annual fee for a processors license and the same for a dispensary license. In January 2017 Oregon reported having 307 licensed dispensaries collecting $1,228,000 in licensing fees, and 121 processing centers collecting $484,000 in licensing fees. There does not appear to be a fee for a testing facility, they only need to be certified. Oregon also charges a registration fee of $200 for marijuana growers and a $200 registration fee for patients, which appears to be a one-time fee. The patient fee can be reduced if a patient meets certain qualifications.

Nevada's (population 2.94 million) medical marijuana program seems to be very similar to the proposed legislation. The initial program included a patient and caregiver registry, but in 2014 expanded to include a regulated medical marijuana industry. It sets a schedule of fees for medical marijuana dispensaries (of which there may be up to 66), medical marijuana cultivation facilities, infused product manufacturers, testing laboratories and staff. The initial fees range from $3,000 for a cultivator to $30,000 for a dispensary. Renewal fees range from $1,000 to $5,000. Annual staffs ID cards are $75. In addition to standard sales tax, there is also a 2% excise tax at the wholesale level and a 2% excise tax at the retail level. Nevada's annual budget for FY'15 for the medical marijuana establishment (MME) program budget was $1.1 million. Revenue is as of yet unknown.

Colorado (population 5.54 million) has the largest state-regulated dispensary program in the nation. As of FY'2012, more than 1,700 medical marijuana businesses were operating in the state – 532 medical marijuana centers and 1,459 cultivation facilities and infused products manufacturers. Medical marijuana taxes and fees have been quite lucrative, both at the city and state levels. Revenues from state and city tax, registry and licensing medical marijuana exceeded $20 million in FY'12. The Medical Marijuana Enforcement Division (MMED) collected $3.78 million in fees in FY'11 and FY'12. The state application fees for medical marijuana centers are $7,500 for 300 or fewer patients, $12,500 for 301 to 500 patients, and $18,000 for those serving 501 or more patients. Annual renewal fees are lower, with center's fees ranging from $3,750 to $14,000 depending on the centers size. Cultivation and infused products manufacturers annual fees are $2,750. In addition, medical marijuana sales taxes brought in more than $5.4 million to state coffers. It appears that at least $6.3 million was collected in county and local sales taxes on medical marijuana in FY'12.

Colorado's Expenditures for their Medical Marijuana Enforcement Division

Fiscal Year	Total Program Expenditure	FTE
10-11	$1,127,118	22
11-12	$5,262,020	13
12-13	$2,103,341	17
13-14	$9,555,599	35

Some of the other states that have medical marijuana programs including licensing of industry for production and retail sales are Arizona, California, Connecticut, Delaware, District of Columbia, Hawaii, Illinois, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New Mexico, North Dakota, Ohio, Pennsylvania, Rhode Island, Vermont ,Washington and West Virginia.

Alaska, Arkansas, Florida, Michigan, Montana and New York have a medical marijuana law and registers patients and caregivers, but there are not state-registered dispensaries. Washington is the only one of the 21 states that does not provide for a registry card.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Changes to Missouri's state driving laws could impact some federal commercial drivers' license laws.

Failure to comply with 49 C.F.R. 384.225 and 384.226 could result in a withholding of Missouri's federal-aid highway funds apportioned to it under each of Title 23, United States Code (U.S.C.), sections 104(b)(1), (b)(3), and (b)(4). The federal funds impacted consist of national highway performance program funds, highway safety improvement program funds, and congestion mitigation and air quality improvement funds. The withholding amount would be four percent for the first year of non-compliance and eight percent for the second and subsequent years.

Officials from the **Office of Administration** indicated:

This proposal amends Chapters 192, 195, 263 and 311, RSMo to legalize medical marijuana. Section 195.903.1 designates the Division of Alcohol and Tobacco Control within the Department of Public Safety as the state licensing authority for regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in Missouri. Section 195.909 authorizes local licensing authorities (i.e. governing bodies designated by municipal or county charter or ordinance), upon scheduling a public hearing, to issue local licenses for medical cannabis centers and medical cannabis cultivation and production facilities. Section 195.957.1 designates the Department of Health and Senior Services (DHSS) as the state agency

responsible for regulating and controlling the manufacturing of medical cannabis-infused products. Section 195.981.2 requires DHSS to create regulations governing the issuance of cannabis registry identification cards to patients with qualifying conditions.

If approved, the proposal will be enacted on January 1, 2019. Section 195.906.2(2) requires the division to file regulations by March 6, 2019. Section 195.921.2 states the division shall make license application forms and instructions available within 180 days of the effective date of this section which would be July 1, 2019. The division shall begin accepting license applications no later than 240 days after the effective date of this section, which would be September 1, 2019. Applications shall be approved or denied by the division no later than 120 days after their submission, which would be January 1, 2020.

Section 195.918.1(1) and (2) state the division may limit the number of medical cannabis centers and medical cannabis cultivation and production facilities, but that limit may not be less than one license per every 100,000 inhabitants of Missouri, according to the most recent U.S. Census. Licenses shall be valid for one year from its date of issuance and shall be renewable. At least one medical cannabis center license shall be issued for each medical cannabis cultivation and production facility license. Applicants for a medical cannabis center license may be approved for an additional two medical center licenses, which will not be counted toward the statewide limit. Medical cannabis center licenses shall be valid for one year from its date of issuance and renewable. Section 195.918.1(3) states the division shall geographically disburse, in consultation with DHSS, licenses according to demographics of the state and patient demand in order to ensure access. If the number of licenses needed to ensure patient access exceeds the statewide limit, a medical cannabis cultivation and production facility licensee may be approved for up to an additional two medical cannabis center licenses, subject to approval. For the purposes of this estimate, B&P assumes that license limits are adequate to ensure patient access.

The limits on facility types and the estimated number of facilities are shown in Table 1 below.

Table 1: Estimated Number of Facilities			
Section	**Facility License Type**	**Limit***	**Number**
195.918.1(1)	Medical Cannabis Cultivation and Production Facility	Not less than one per every 100,000 Missouri inhabitants	60
195.918.1(2)	Medical Cannabis Center	Not less than one per every 100,000 Missouri inhabitants	60

**The number of inhabitants is based on the most recent U.S. Census.*

Section 195.906.1 allows the issuance of medical cannabis center licenses and medical cannabis cultivation and production facility licenses by the Division of Alcohol and Tobacco Control. Section 195.963.2(1) establishes application and annual license fees for medical cannabis center licenses and medical cannabis cultivation and production facility licenses. These fees are shown in Table 2 below.

Table 2: Facility License and Annual Fees				
Section	**Facility License Type**	**Initial Application Fee**	**Annual License Fee**	**License Renewal Period**
195.963.2	Medical Cannabis Center	$12,500	$12,500	Annual
195.963.2	Medical Cannabis Cultivation and Production Facility	$12,500	$12,500*	Annual

**The proposal states the annual license fee for a Medical Cannabis Cultivation and Production Facility is "twelve thousand five thousand dollars". B&P assumes this is a typo and should be "twelve thousand five hundred dollars".*

Table 3: License and Annual Fees by Facility Type			
Patient and Facility Type	**Revenue Generated by Application and License Fees**		
	FY 2020	**FY 2021**	**FY 2022**
Medical Cannabis Center*	$1,500,000	$759,000	$759,000
Medical Cannabis Cultivation and Production Facility*	$1,500,000	$759,000	$759,000
Total	**$3,000,000**	**$1,518,000**	**$1,518,000**

** Assumes a 1.2% turnover rate in facility licenses.*

B&P used information from the Arizona Department of Health Services to determine that, on average, 1.2% of businesses close per year. B&P further assumed that new facilities would apply for any open licenses, and thus be subject to the initial application fee.

Section 195.961.1 creates a sales tax on the retail sale of medical cannabis of 2% of the retail price. Section 195.961.2 allows the Department of Revenue (DOR) to retain no more than 5% for collection costs. The remainder is to be deposited as follows:

- 0.5% into the Missouri Veterans' Health and Care Fund;
- 0.5% into the Missouri Public Safety Fund;
- 0.5% into the Missouri Drug Treatment Fund; and
- 0.5% into the Early Childhood Development, Education and Care Fund.

Section 195.961.2(1) establishes the Missouri Veterans' Health and Care Fund in the state treasury. The fund is to stand appropriated without further legislative action. The department is to receive an amount to carry out this section. The remainder is to be transferred to the Missouri Veterans Commission for health and care services for military veterans – capital improvements of the Missouri Veteran's Homes, mental health services, job training, housing assistance, etc.

Section 195.961.2(2) establishes the Missouri Public Safety Fund in the state treasury. The fund is to stand appropriated without further legislative action. The department is to receive an amount to carry out this section. The remainder is to be allocated evenly to all police departments, fire protection districts, and fire departments in Missouri that have medical cannabis centers or cultivation and production facilities within their geographic boundaries. The additional funding provided shall not replace existing dedicated funding.

Section 195.961.2(3) establishes the Missouri Drug Treatment Fund in the state treasury. The fund is to stand appropriated without further legislative action. The department is to receive an amount to carry out this section. The remainder shall be allocated evenly to all Missouri Drug Treatment Centers that are funded by the State of Missouri. The additional funding provided shall not replace existing dedicated funding.

B&P determined that Arizona has a similar medical marijuana law in terms of illnesses that qualify for treatment. Based on this similarity, B&P was able to base some estimates for Missouri from trends seen in Arizona since medical marijuana was approved in 2012.

Table 4: Sales Tax Revenues			
Sales Tax Fund	**Revenue Generated by Sales Tax**		
	FY 2020*	**FY 2021***	**FY 2022***
Veterans Health Care Fund	$275,000	$550,000	$779,000
Public Safety Fund	$275,000	$550,000	$779,000
Drug Treatment Fund	$275,000	$550,000	$779,000
Early Childhood Development, Education and Care Fund	$275,000	$550,000	$779,000
Total	**$1,100,000**	**$2,200,000**	**$3,116,000**

**Based on sales data from Arizona during 2014 and 2015.*

Section 195.963.1(1) establishes the Medical Cannabis License Cash Fund in the state treasury. The fund shall be used solely in the administration of Sections 195.900 to 195.985. Section 195.963.1(4) establishes the Medical Cannabis Program Account within the Medical Cannabis License Cash Fund. The account shall contain moneys collected from patients applying for cannabis registry identification cards. Section 195.981.14 allows DHSS to collect fees from patients that apply to the medical cannabis program for a cannabis registry identification card. Section 195.981.8(4) states that patient registry identification cards shall be valid for one year. This amount is to be established by DHSS through rule; therefore, no estimate is provided.

Section 195.963.2(2) allows the division to establish other fees for processing various types of applications, licenses, notices, or reports required to be submitted to the state licensing authority. Section 195.963.2(4) allows the division to charge applicants a fee for the cost of each fingerprint analysis and background investigation undertaken to qualify new officers, directors, managers, or employees. Section 195.963.3 requires the division to establish a basic fee that shall be paid at the time of service of any subpoena upon the division. Section 195.972.3(2) states that fines related to the suspension of a license shall not be less than $500 or more than $100,000. B&P is unable to provide an estimate of revenues from these fees and fines. Section 195.966.1 states that except as otherwise provided, all fees and fines shall be credited to the Medical Cannabis License Cash Fund.

Table 5 provides a summary of revenue to be collected from licensing fees and sales tax. Because the proposal is subject to voter approval, additional revenues from the sales tax and licensing fees will not impact TSR or the calculation under Article X, Section 18(e) of the Missouri Constitution.

Table 5: Summary of Revenue Generated by Medical Marijuana Taxes and Fees			
Revenue Source	**Revenue Generated by License Fees**		
	FY 2020	**FY 2021***	**FY 2022***
Application* and Annual License Fees			
Medical Cannabis Center	1,500,000	759,000	759,000
Medical Cannabis Cultivation and Production Facility	1,500,000	759,000	759,000
Total License and Annual Fees:	3,000,000	1,518,000	1,518,000
Sales Tax**			
Veterans Health Care Fund	275,000	550,000	779,000
Public Safety Fund	275,000	550,000	779,000
Drug Treatment Fund	275,000	550,000	779,000
Early Childhood Development, Education and Care Fund	275,000	550,000	779,000
Total Sales Tax:	1,100,000	2,200,000	3,116,000
Total Revenue to Medical Cannabis License Cash Fund	**4,100,000**	**3,718,000**	**4,634,000**
Total Local Application and License Fees^	**300,000**	**152,000**	**152,000**

** Assumes a 1.2% turnover rate in facility licenses*

*** Based on sales data from Arizona during 2014 and 2015*

^ Assumes locals set fees at the maximum 10% of state application and license fees

Officials from the **Office of State Courts Administrator** indicated:.

The proposed initiative petition would amend Chapters 192, 195, 263 and 311. This section would be known as the "Missouri Patient Care Act". It is intended to make changes necessary to protect patients, their caregivers and their physicians from civil and criminal penalties.

The average of all marijuana related charge codes from 2011 to 2015 for Circuit case types is 14,122 per year. The average of all marijuana related charge codes from 2011 to 2015 for Associate case types is 10,982.

The following Criminal Court Costs could be affected by this petition:

Criminal Court Costs		
Felony Case Costs	**Amount of Cost**	**Disburse to State/County**
Basic Civil Legal Services Fund surcharge	$10.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$45.00	State of Missouri - General Revenue $36, County $9
County Fee	$75.00	County
Court Automation Fund Fee	$7.00	State of Missouri -Statewide Court Automation Fund
Court Reporter fee (All Circuit Division Cases)	$15.00	State of Missouri - General Revenue
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$30.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Head Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards & Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$1.00	State of Missouri - Prosecuting Attorney Training Fund
Sheriffs' Fee	$75.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement Fund
Spinal Cord Injury Fund surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$279.50**	
Misdemeanor Case Costs		

Basic Civil Legal Services Fund surcharge	$8.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$15.00	$12 State of Missouri / $3 County
County Fee	$25.00	County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$15.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Brain Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$1.00	$0.50 State of Missouri / $0.50 County
Sheriffs' fee	$10.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement fund
Spinal Cord Injury Fund Surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$102.50**	
Municipal Case (Filed in Associate Division) Costs		
Clerk Fee	$15.00	$12 State of Missouri / $3 County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund

Sheriffs' Retirement Fund surcharge	$3.00	Sheriffs' Retirement Fund
Total	**$33.50**	
Criminal Costs Not Included Above		
Drug Testing by a State Lab	$150.00	State of Missouri
Drug Testing by a Private Lab	Actual Costs	County Reimbursement
Law Enforcement Arrest Costs:		
Highway Patrol		Amt. Approved by the Court
Local (County)		Amt. Approved by the Court
Municipal		Amt. Approved by the Court

The decrease in the court fees, depending on the number of cases, will result in an unknown loss to the courts.

They also assume there will be an unknown decrease in caseload for the courts because the courts will no longer process these cases; however, at this time they are unable to calculate the decrease.

Any significant increase or decrease will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to their office for Administrative Rules is less than $2,500. Their office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year’s legislative session. Funding for this item is adjusted each year depending upon the

election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures.

In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish. These measures filled approximately 15 pages of text, for an estimated publication cost of $160,000 per page. The full text of petition 2018-271 occupies 49 pages of language. Based on the estimated cost of $160,000 per page, this petition alone would cost approximately $3,600,000-$3,800,000 to publish in all necessary local newspapers in FY 2019. This would be in addition to the cost of publishing any other ballot measures which are certified for the 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have an impact on their office. It creates several new Class A misdemeanors for which, should indigent persons be accused of, public defenders would be required to provide representation. For the purpose of the initiative petition and as a result of excessive caseloads, they CANNOT assume existing staff will provide competent, effective representation for any new cases where indigent persons are charged with the proposed new crimes relating to the legalization of medical marijuana in the State of Missouri.. The Missouri State Public Defender System is currently providing legal representation in caseloads in excess of recognized standards. The State Public Defender will continue to request sufficient appropriations to provide competent and effective representation in all criminal cases where the right to counsel attaches.

Officials from the **State Treasurer's office** indicated given the potential source of the tax and fees proposed in this initiative petition, and the known banking issues involving this industry, they are unable to determine the potential fiscal impact of this initiative petition upon their office.

Even where cannabis dispensaries have been legalized and are regulated by states, federal authorities still prohibit banks and credit card companies from transporting, transmitting, accepting deposits from, or transacting business involving funds known to have been derived from marijuana distribution. For this reason, these businesses tend to have great difficulty obtaining and maintaining traditional bank accounts, and it's not clear whether

this difficulty would extend to the state's attempts to deposit tax funds derived from these businesses in the state's own bank accounts. Further, these businesses also tend to transact their business in cash, including when paying their taxes, so that instead of seeing modest amounts of cash deposits each day, the state could suddenly be faced with hundreds of thousands of dollars, or more. This would require considerably altering their security practices.

Despite knowing of all of these issues in other states, the continuing uncertainty about how or if these issues will ultimately be resolved, and whether they would face the same problems here, makes it impossible for them to even estimate the potential fiscal impact of this initiative, and those like it.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Central Missouri** indicated they do not cultivate, manufacture, store, or sell marijuana for medical or other purposes so this will not affect them.

Officials from **Missouri State University** indicated no fiscal impact for their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from the **Missouri Veterans Commission** indicated they have no position on this initiative petition. They are pleased to receive any funding which appropriately comes to them to support the Veterans Programs currently administered by the Commission.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education,** the **Department of Labor and Industrial Relations, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia**, the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Harris-Stowe State University, Lincoln University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University,** and the **Missouri Association of Fire Protection Districts.**

Fiscal Note Summary

State government entities estimate initial and one-time costs of $2.6 million, annual costs of $10 million, and annual revenues of at least $10 million. Local government entities estimate no annual costs and are expected to have at least $152,000 in annual revenues.

RE: Petition approval request from Rush Loftis regarding a proposed statutory amendment to Chapter 188 (2018-270)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Rush Loftis on August 29, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Address of Notary (Street, City, State & Zip Code)

Be it enacted by the people of the State of Missouri:

A new section be added to the Revised Statutes of Missouri to be known as section 188.340 and to read as follows:

188.340 1. As used in this section, the following terms shall mean:

(1) "Fertilization", the fusion of a human spermatozoon with a human ovum.

(2) "Premeditated murder", a murder planned in advance and carried out willfully.

(3) "Unborn human", an individual organism of the species homo sapiens from fertilization until live birth.

(4) "Abortion", The Willing use of or prescription of any instrument, medicine, drug, or any other substance or device to intentionally kill an unborn human;

2. This state recognizes that abortion denies the most defenseless persons the same rights, powers, and privileges as are secured or granted by the laws of this state to any other human child.

3. This state recognizes that all persons are created equal and are entitled to equal rights and opportunity under the law.

4.This state recognizes that all persons have a natural right to life including the right to life of every unborn human child at every stage of biological development and shall protect such life from deprivation by the state or private action.

5. On the effective date of this section, no person who lives in this state or has traveled to this state shall perform, procure, or attempt to perform an abortion. No person who lives in this state may perform, procure, or attempt to perform an abortion outside of this state.

6. Any individual who violates the provisions of this section shall be guilty of the offense of premeditated murder and shall be punished in accordance with the penalties for that offense under the law on the effective date of this section.

7. No abortions are permitted in this state. Any current state statutes regarding the regulation of abortions are void on the effective date of this section. It shall be the duty of the Missouri General Assembly to immediately repeal laws that regulate abortion during the next legislative or extraordinary session.

8. No government may deprive any person of life, without due process of law, therefore any federal statute, regulation, executive order, or court decision which purports to supersede, stay, or overrule this Act is in violation of the Missouri Constitution and the Constitution of the United States of America and is therefore void. The State of Missouri and its political subdivisions, and agents thereof, may not enter an appearance, special or otherwise, in any federal suit challenging this Act.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article VIII (2018-269)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on August 28, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED BY THE PEOPLE of the State of Missouri That the Constitution be amended:

Missouri Constitution Article VIII Suffrage and Elections is amended by adding one new section to be known as section 24, to read as follows:

The People of Missouri recommend a federal Constitutional Convention that will allow for national votes on the federal level. The People of Missouri support and recommenced to the President, Congress, and to the other states of the United States that a Constitutional Convention be held as soon as possible to address: approval of a process to attain minimal signatures (1%), of people in all states to place issues on the national ballot. Examples of possible national ballot issues could be: term limits on federal elected office, campaign finance limits, limits on time allowed to campaign for elective offices, a balanced budget amendment be added to the federal constitution and review and audits of the judicial system concerning what they were set up for by the Founding Fathers which is to protect the individual Liberties and Rights of the People.

MO. SECRETARY OF STATE

Chapter 374 Department of Insurance, Financial Institutions and Professional Registration 374.695 to 374.755 REGULATION OF BAIL BOND AGENTS & 374.783 to 374.789 SURETY RECOVERY AGENTS how some Missouri statutes are broken by what is listed in 374.695 to 374.789, broken the Missouri Constitution Bill of Rights Article I and The United States Constitution.

Missouri Statute 374.700. Definitions. — As used in sections 374.695 to 374.789, the following terms shall mean: (1) **"Bail bond agent"**, a surety agent or an agent of a property bail bondsman who is duly licensed pursuant to the provisions of sections 374.695 to 374.789, is employed by and is working under the authority of a licensed general bail bond agent;...(3) **"Department"**, the department of insurance, financial institutions and professional registration of the state of Missouri;(4) **"Director"**, the director of the department of insurance, financial institutions and professional registration;(5) **"General bail bond agent"**, a surety agent or a property bail bondsman, as defined in sections 374.700 to 374.775, who is licensed in accordance with sections 374.700 to 374.775 and who devotes at least fifty percent of his working time to the bail bond business in this state; **(6) "Insurer", any surety insurance company which is qualified by the department to transact surety business in Missouri;(7) "Licensee", a bail bond agent or a general bail bond agent;** (8) "Property bail bondsman", a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security for a bail bond in connection with a judicial proceeding, and who receives or is promised therefor money or other things of value; (9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, and who receives or is promised money or other things of value therefor;(10) **"Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent;**

(11) "Taking a bail" or "take bail", the acceptance by a person authorized to take bail of the undertaking of a sufficient surety for the appearance of the defendant according to the terms of the undertaking or that the surety will pay to the court the sum specified. Taking of bail or take bail does not include the fixing of the amount of bail and no person other than a competent court shall fix the amount of bail.

Points (6) "Insurer" & ;(7) "Licensee", a bail bond agent or a general bail bond agent; are private citizens who think they have more power than the Missouri statutes, Missouri Constitution & the United States Constitution. Who pay fee not to exceed one hundred fifty dollars, as Missouri Statute 374.710. States issue a two-year license for the bail bond agent or general bail bond agent.

Missouri Statute 374.710. License required for bail bond agents, application, qualifications — exceptions.4. Upon completion of said basic training or biennial continuing education and the licensee meeting the other requirements as provided under sections 374.695 to 374.789, the director shall issue a two-year license for the bail bond agent or general bail bond agent for a fee not to exceed one hundred fifty dollars.

Missouri Statute 374.717. Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall: (4) Accept anything of value from a principal except the premium and expenses incurred, provided that the licensee shall be permitted to accept collateral security or other indemnity from the principal in accordance with the provisions of section 374.719.

Missouri Statute 374.719. Collateral security accepted, when — receipt required — used to reimburse costs, when — records to be retained. — 1. A licensee may accept collateral security from the principal in a fiduciary capacity, which collateral shall be returned upon final termination of liability on the bond. When a licensee accepts collateral, the licensee shall provide a prenumbered written receipt, which shall include a detailed account of the collateral received by the licensee.

Missouri Statute 374.757. Notification by agent of intention to apprehend — local law enforcement may accompany agent — violations, penalties. — 1. Any agent licensed by sections 374.695 to 374.775 who intends to apprehend any person in this state shall inform law enforcement authorities in the city or county in which such agent intends such apprehension, before attempting such apprehension. Such agent shall present to the local law enforcement authorities a certified copy of the bond and all other appropriate paperwork identifying the principal and the person to be apprehended. Local law enforcement may accompany the agent. Failure of any agent to whom this section applies to comply with the provisions of this section shall be a class A misdemeanor for the first violation and a class E felony for subsequent violations; and shall also be a violation of section 374.755 and may in addition be punished pursuant to that section. 2. The surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. Such agent shall have a certified copy of the bond and all appropriate paperwork to identify the principal. Local law enforcement, when notified, may accompany the surety recovery agent to that location to keep the peace if an active warrant is effective for a felony or misdemeanor. If a warrant is not active, the local law enforcement officers may accompany the surety recovery agent to such location. Failure to report to the local law enforcement agency is a class A misdemeanor. For any subsequent violations, failure to report to the local law enforcement agency is a class E felony. **374.700point (10) states surety recovery agent can't.**

Missouri Statute 374.783. Surety recovery agents, license required — director to license, powers. — 1. No person shall hold himself or herself out as being a surety recovery agent in this state, unless such person is licensed in accordance with the provisions of sections 374.783 to 374.789. **Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent.** 2. **The director shall have authority to license all surety recovery agents in this state. The director shall have control and supervision over the licensing of such agents and the enforcement of the terms and provisions of sections 374.783 to 374.789.** 3. The director shall have the power to: (1) Set and determine the amount of the fees authorized and required pursuant to sections 374.783 to 374.789. The fees shall be set at a level sufficient to produce revenue which shall not substantially exceed the cost and expense of administering sections 374.783 to 374.789. However, such fees shall not exceed one hundred fifty dollars for a two-year license; and (2) Determine the sufficient qualifications of applicants for a license. 4. The director shall license for a period of two years all surety recovery agents in this state who meet the requirements of sections 374.783 to 374.789.

So Missouri Statute 374.783. Surety recovery agents, The Last sentence of point 1 Licensed bail bond agents and general bail bond agents may perform fugitive recovery without being licensed as a surety recovery agent.

Missouri Statute 374.789. Prohibited acts. — 1. A person is guilty of a class E felony if he or she does not hold a valid surety recovery agent license or a bail bond license and commits any of

the following acts:(1) Holds himself or herself out to be a licensed surety recovery agent within this state;(2) Claims that he or she can render surety recovery agent services; or (3) Engages in fugitive recovery in this state.2. Any person who engages in fugitive recovery in this state and wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. **Just because Missouri Statutes 374.710Point (10), 374.757, 374.783 the bail bond agent or general bail bond agent, Think they have the same power as a police office, then The surety recovery agent have to be person licensed in accordance with the provisions of sections 374.783-374.789, then in 374.700 point (10) Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive, So in 374.757 2. surety recovery agent shall inform the local law enforcement in the county or city where such agent is planning to enter a residence. So this can't happen because of the above statement of 374.700(10), a surety recovery agent can somehow have a warrant as stated in 374.757 2. & Local law enforcement may accompany.**

So What is the purpose of Missouri Statutes 374.789 Prohibited acts if they are licensed somehow they can arrest people if they have a warrant if you're a surety recovery agent so what is the need for a criminal justice education to be a policeman or law enforcement agent since you let bail bond agent, general bail bond & surety recovery agent act as law enforcement agents with just 24 hours of training and 150 dollars they are License as stated in 374.710. So the Director of Department of Insurance, Financial Institutions and Professional Registration has his own bail bond agent, general bail bond & surety recovery agent act as law enforcement agents

374.700 point (10) "Surety recovery agent", & 374.757 2. surety recovery agent contradict each other.

In 374.789 Prohibited acts 2. wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. **I'M being unlawful detained & assaulted with this ankle monitor ever day it violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design.**

Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. Section 19. That no person shall be compelled to testify against himself in a

criminal cause, nor shall any person be put again in jeopardy of life or liberty for the same offense,...

It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**

Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

Missouri Statute 374.755. Complaint by department, procedure — grounds — disciplinary action — alternate procedure — additional remedy **(4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation; (6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas;**

Violations have taken place taking of money from people who are gps/electronic monitored no were in the chapter of 374 does it state taking of money for gps/electronic monitored which a lot of people have been put on in Missouri for just being charged for a crime, and nonconvicted are paying a excessive fines imposed, which violates United States Constitution Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Also says Missouri Statute 374.755. Complaint by department, procedure — grounds — disciplinary action — alternate procedure — additional remedy

2. After the filing of such complaint, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that one or more of the causes stated in subsection 1 of this section have been met, the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

3. In lieu of filing a complaint at the administrative hearing commission, the director and the bail bond agent or general bail bond agent may enter into an agreement for a monetary or other penalty pursuant to section 374.280.

4. In addition to any other remedies available, the director may issue a cease and desist order or may seek an injunction in a court of competent jurisdiction pursuant to the provisions of section 374.046 whenever it appears that any person is acting as a bail bond agent or general bail bond agent without a license or violating any other provisions of sections 374.695 to 374.789.

Violations have taken place and somehow filing of such complaint the provisions of chapter 621. Upon a finding by the administrative hearing commission the director may suspend or revoke the license or enter into an agreement for a monetary or other penalty pursuant to section 374.280.

Missouri Statute 621.015. Administrative hearing commission, number of commissioners — qualifications, appointment, terms, compensation. — The "Administrative Hearing Commission" is assigned to the office of administration. It shall consist of no more than five commissioners. The commissioners shall be appointed by the governor with the advice and consent of the senate. The term of each commissioner shall be for six years and until his successor is appointed, qualified and sworn. The commissioners shall be attorneys at law admitted to practice before the supreme court of Missouri, but shall not practice law during their term of office. Each commissioner shall receive annual compensation of fifty-one thousand dollars plus any salary adjustment provided pursuant to section 105.005. Each commissioner shall also be entitled to actual and necessary expenses in the performance of his duties. The office of the administrative hearing commission shall be located in the City of Jefferson and it may employ necessary clerical assistance, compensation and expenses of the commissioners to be paid from appropriations made for that purpose.

Missouri Statute 621.110. Commission's findings and recommendations — hearing by agency on disciplinary action. — Upon a finding in any cause charged by the complaint for which **the license may be suspended or revoked as provided in the statutes and regulations relating to the profession or vocation of the licensee** and within one hundred twenty days of the date the case became ready for decision, the commission shall deliver or transmit by mail to the agency which issued the license the record and a transcript of the proceedings before the commission together with the commission's findings of fact and conclusions of law. **The commission may make recommendations as to appropriate disciplinary action but any such recommendations shall not be binding upon the agency**.... Statute continues. **So how can the commission's findings of fact and conclusions of law, even as provided in the statutes not be binding upon the agency, which is just about this 374 bail/bondsman companies. The two parts of 621.110 contradict each other.**

Missouri Statute 374.280. Civil penalty or forfeiture ordered when, how enforced. — 1. The director may, after a hearing under section 374.046, order a civil penalty or forfeiture payable to the state of Missouri authorized by section 374.049, which penalty or forfeiture, if unpaid within ten days, may be recovered by a civil action brought by and in the name of the director under section 374.048. The civil action may be brought in the county which has venue of an action against the person, partnership or corporation under other provisions of law. The director may also suspend or revoke the license or certificate of authority of such person for any willful violation.

2. Nothing contained in this section shall be construed to prohibit the director and any person subject to an investigation, examination, or other proceeding from agreeing to a voluntary forfeiture of the sum mentioned herein without civil proceedings being instituted. Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties.

In Missouri Statute 374.280 2. in last sentence how is"Any sum so agreed upon shall be paid into the school fund as provided by law for other fines and penalties". What law tells them to paid into the school fund? So why is this statute trying to tell the director to just act with civil penalty and civil action or agreed sum to be paid into the school fund? when State statutes are broken the rest of the public is ticketed or arrested, put in jail, and put through the criminal justice system.

So how does the director not tell the Attorney General of Missouri, a state or local law enforcement that the law has been broken and should issue a warrant for arrest not take place, where is equal protection under the law for the person or people who had their constitutional protected rights taken from them which are in Missouri Constitution Bill of Rights Article I Section 2., Section 10., Section 14., Section 15., Section 19. and The United States Constitution Amendment IV, Amendment V, Amendment VIII, Amendment XIV Section 1., Amendment I

With the above proof of what house arrest and electronic monitoring is as listed in the Missouri Statutes, and the proof that bail/bond companies pay $150 for a license from Department of Insurance, Financial Institutions and Professional Registration. For nonconvicted the illegally electronic monitor by private bail/bond companies which are listed in statute 374.700.1., Which have violated the Missouri Statute 374.717 Prohibited acts. — No insurer or licensee, court, or law enforcement officer shall: (4) Accept anything of value from a principal except the premium and expenses incurred, broke this missouri statue forcing nonconvicted to pay illegally electronic monitor fine. Missouri Statute 374.755.number (4) and (6), (4) Obtaining or attempting to obtain any compensation as a member of the profession licensed by sections 374.695 to 374.775 by means of fraud, deception or misrepresentation; (6) Violation of any provision of or any obligation imposed by the laws of this state, department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules or regulations, or subpoenas; broke (4) of this missouri statue forcing nonconvicted to pay illegally electronic monitor fine, deception and misrepresentation nonconvicted illegally electronic monitor/GPS tracking and (6) laws of the state 374.717, 374.755(4), 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, nonconvicted illegally electronic monitor/GPS tracking and Broken the laws of the Missouri Constitution Bill of Rights Article I Section 2., Section 10., Section 15. and broken the laws as stated in Constitution of the United States Amendment I, Amendment IV, Amendment V, Amendment VII, Amendment VIII, Amendment XIV.

Missouri Statute 374.764. Alleged violations and complaints, procedure. — 1. The director shall examine and inquire into all alleged violations or complaints filed with the department of insurance, financial institutions and professional registration of the bail bond law of the state, and inquire into and investigate the bail bond business transacted in the state by any bail bond agent, general bail bond agent, or surety recovery agent.

2. The director or any of his or her duly appointed agents may compel the attendance before him or her, and may examine, under oath, the directors, officers, bail bond agents, general bail bond agents, surety recovery agents, employees, or any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto. He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary.

3. The director may make and conduct the investigation in person or the director may appoint one or more persons to make and conduct the investigation. If made by a person other than the director, the person duly appointed by the director shall have the same powers as granted to the director pursuant to this section. A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. For the purpose of making the investigations, or having the same made, the director may employ the necessary clerical, actuarial, and other assistance. **In Missouri Statute 374.764 2. Can act as a judge now and as stated compel the attendance before him or her, and may examine, under oath, He or she may administer oaths or affirmations and shall have power to summon and compel the attendance of witnesses and to require and compel the production of records, books, papers, contracts, or other documents if necessary. So he does this in his office not in a courtroom? In 3. If director appoints people they just need A certificate of appointment under the official seal of the director shall be sufficient authority and evidence thereof for the person to act. Each of these appointed people can act as judge and any law enforcement agent and require & compel any other person in reference to the condition, affairs, management of the bail bond or surety recovery business, or any matters relating thereto.**

Missouri Statute 374.764. Alleged violations and complaints, procedure. **it violates the United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated,** and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; **nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law;** nor shall private property be taken for public use, without just compensation. **Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances. Amendment VI In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been**

committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense. Amendment VII In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any court of the United States, than according to the rules of the common law. Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Missouri Statute 374.785. License issued, when — reciprocity — apprehension of defendant, permitted where — fee. 1. The director shall issue a license for a period of two years to any surety recovery agent who is licensed in another jurisdiction and who:

(1) Has no violations, suspensions, or revocations of a license to engage in fugitive recovery in any jurisdiction; and

(2) Is licensed in a jurisdiction whose requirements are substantially equal to or greater than the requirements for a surety recovery agent license in Missouri at the time the applicant applies for a license.

2. Any surety recovery agent who is licensed in another state shall also be subject to the same training requirements as in-state surety recovery agents prescribe to under section 374.784.

3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees.

4. Every applicant for a license pursuant to this section, upon making application and showing the necessary qualifications as provided in this section, shall be required to pay the same fee as required of resident applicants. Within the limits provided in this section, the director may negotiate reciprocal compacts with licensing entities of other states for the admission of licensed surety recovery agents from Missouri in other states. **Missouri Statue 374.785. 3. For the purpose of surrender of the defendant, a surety recovery agent may apprehend the defendant anywhere within the state of Missouri before or after the forfeiture of the undertaking without personal liability for false imprisonment or may empower any surety recovery agent to make apprehension by providing written authority endorsed on a certified copy of the undertaking and paying the lawful fees. This violates another Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement, excluding a bail bond agent or general bail bond agent; so if a Missouri statute is violated a law is violated so are more Missouri Constitutional rights and United States Constitutional rights, the last sentence in374.785 3. Paying what lawful fees the only fees in 374.700 those (8),(9) and (11)** (8) "Property bail bondsman", **a person who pledges United States currency, United States postal money orders or cashier's checks or other property as security** for a bail bond in connection with a judicial proceeding, and who receives or is **promised therefor money or**

other things of value; (9) "Surety bail bond agent", any person appointed by an insurer by power of attorney to execute or countersign bail bonds in connection with judicial proceedings, **and who receives or is promised money or other things of value therefor;**(11) "Taking a bail" or "take bail", the acceptance by a person authorized to **take bail of the undertaking of a sufficient surety** for the appearance of the defendant according to the terms of the undertaking **or that the surety will pay to the court the sum specified.**

Missouri Statute 374.787. Complaint procedure. — 1. The director may cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any surety recovery agent or any person who has failed to renew or has surrendered his or her license for any one or any combination of the following causes:

(1) Violation of any provisions of, or any obligations imposed by, the laws of this state, the department of insurance, financial institutions and professional registration rules and regulations, or aiding or abetting other persons to violate such laws, orders, rules, or regulations; (4) Obtaining or attempting to obtain any compensation as a surety recovery agent by means of fraud, deception, or misrepresentation; (6) Incompetence, misconduct, gross negligence, fraud, or misrepresentation in the performance of the functions or duties of a surety recovery agent; **Violations have taken place taking of money from people who are gps/electronic monitored no were in the chapter of 374 does it state taking of money for gps/electronic monitored which a lot of people have been put on in Missouri for just being charged for a crime, and nonconvicted are paying a excessive fines imposed, which violates United States Constitution Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.**

Missouri Statute 374.788. Apprehension standards for breach of surety agreement or absconding. — 1. A bail bond agent having probable grounds to believe a subject free on his or her bond has failed to appear as directed by a court, has breached the terms of the subject's surety agreement, or has taken a substantial step toward absconding may utilize all lawful means to apprehend the subject. To surrender a subject to a court, a licensed bail bond or surety recovery agent having probable grounds to believe the subject is free on his or her bond may:

(1) Detain the subject in a lawful manner, for a reasonable time, provided that in the event travel from another state is involved, the detention period may include reasonable travel time not to exceed seventy-two hours;

(2) Transport a subject in a lawful manner from state to state and county to county to a place of authorized surrender; and

(3) Enter upon private or public property in a lawful manner to execute apprehension of a subject.

2. A surety recovery agent who apprehends a subject pursuant to the provisions of subsection 1 of this section shall surrender custody of the subject to the court of jurisdiction.

3. When a surety recovery agent is in the process of performing fugitive recovery, a photographic identification card shall be prominently displayed on his or her person.

This violates another Missouri Statute 374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement.

Missouri Statute 374.785 number 3., 374.788 has broken the Missouri statute 374.700(10) and Missouri Statute 374.789. Prohibited acts. 2. each stated hereafter Missouri Statute

374.700 (10) "Surety recovery agent", a person not performing the duties of a sworn peace officer who tracks down, captures and surrenders to the custody of a court a fugitive who has violated a bail bond agreement. Missouri Statute 374.789. Prohibited acts. 2. Any person who engages in fugitive recovery in this state and wrongfully causes damage to any person or property, including, but not limited to, unlawful apprehension, unlawful detainment, or assault, shall be liable for such damages and may be liable for punitive damages. It violates the Missouri Constitution Bill of Rights Article I Section 2. That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. Section 10. That no person shall be deprived of life, liberty or property without due process of law. Section 14. That the courts of justice shall be open to every person, and certain remedy afforded for every injury to person, property or character, and that right and justice shall be administered without sale, denial or delay. Section 15. That the people shall be secure in their persons, papers, homes, effects, and electronic communications and data, from unreasonable searches and seizures; and no warrant to search any place, or seize any person or thing, or access electronic data or communication, shall issue without describing the place to be searched, or the person or thing to be seized, or the data or communication to be accessed, as nearly as may be; nor without probable cause, supported by written oath or affirmation. It violates The United States Constitution Amendment IV The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.
Amendment VIII Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. Amendment XIV Section 1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. Amendment I Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

No were in chapter 374.695 to 374.789 does in state gps/electronic monitoring, nor paying fine for gps/electronic monitoring.

RE: Petition approval request from Brian Hagg regarding a proposed statutory amendment to Chapter 559 (2018-267)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Brian Hagg on August 18, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Missouri Statute **559.026 Detention condition of probation.** Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse.**(1) In misdemeanor cases, the period of detention under this section shall **not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558.** (2) In felony cases, the period of detention under this section shall not exceed one hundred twenty days....Not the Whole Missouri Statute its Screen printed on the next page.

Missouri Statute **558.011. Sentence of imprisonment, terms — conditional release.** — 1. The authorized terms of imprisonment, including both prison and conditional release terms, are: (1) For a class A felony, a term of years not less than ten years and not to exceed thirty years, or life imprisonment;(2) For a class B felony, a term of years not less than five years and not to exceed fifteen years;(3) For a class C felony, a term of years not less than three years and not to exceed ten years; (4) For a class D felony, a term of years not to exceed seven years;(5) For a class E felony, a term of years not to exceed four years; **(6) For a class A misdemeanor, a term not to exceed one year; (7) For a class B misdemeanor, a term not to exceed six months; (8) For a class C misdemeanor, a term not to exceed fifteen days...**Not the whole Missouri Statute its Screen printed on the next page.

In the Last paragraph of 559.026the first, second class city or a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, **even though he was not convicted and sentenced to a jail or workhouse. How can someone not convicted & sentenced be placed in detention? Was not convicted & and sentenced to a jail or workhouse. Then Missouri Statute 559.012 Did not take place so points (1) and (2) is the reason probation is given. So what probation is the not convicted on that they get detention?** Missouri Statute 559.012. Eligible for probation, when. — The court may place **a person on probation for a specific period upon conviction of any offense or upon suspending imposition of sentence** if, having regard to the nature and circumstances of the offense and to the history and character of the defendant, the court is of the opinion that: (1) Institutional confinement of the defendant is not necessary for the protection of the public; and (2) The defendant is in need of guidance, training or other assistance which, in his or her case, can be effectively administered through probation supervision.

Point 1 of Missouri Statute 559.26 Detention condition of probation **not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558, the Statute give a misdemeanor offender more imprisonment than a Felony offender.** Missouri Statute 559.26 **also violates the class C misdemeanor, a term not to exceed fifteen days stated in 558.011, by giving them not exceed the shorter of thirty days.** Violates the United States Constitutional Amendment VIII **Excessive bail shall not be required, nor excessive fines imposed,** nor cruel and unusual punishments inflicted. Also Amendment XIVSection **1.All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law;** nor deny to any person within its jurisdiction the equal protection of the laws.

Title XXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

559.026. Detention condition of probation. — Except in infraction cases, when probation is granted, the court, in addition to conditions imposed pursuant to section 559.021, may require as a condition of probation that the offender submit to a period of detention up to forty-eight hours after the determination by a probation or parole officer that the offender violated a condition of continued probation or parole in an appropriate institution at whatever time or intervals within the period of probation, consecutive or nonconsecutive, the court shall designate, or the board of probation and parole shall direct. Any person placed on probation in a county of the first class or second class or in any city with a population of five hundred thousand or more and detained as herein provided shall be subject to all provisions of section 221.170, even though he was not convicted and sentenced to a jail or workhouse.

(1) In misdemeanor cases, the period of detention under this section shall not exceed the shorter of thirty days or the maximum term of imprisonment authorized for the misdemeanor by chapter 558.

(2) In felony cases, the period of detention under this section shall not exceed one hundred twenty days.

(3) If probation is revoked and a term of imprisonment is served by reason thereof, the time spent in a jail, half-way house, honor center, workhouse or other institution as a detention condition of probation shall be credited against the prison or jail term served for the offense in connection with which the detention condition was imposed.

Title XXVIII CRIMES AND PUNISHMENT; PEACE OFFICERS AND PUBLIC DEFENDERS

558.011. Sentence of imprisonment, terms — conditional release. — 1. The authorized terms of imprisonment, including both prison and conditional release terms, are:

(1) For a class A felony, a term of years not less than ten years and not to exceed thirty years, or life imprisonment;

(2) For a class B felony, a term of years not less than five years and not to exceed fifteen years;

(3) For a class C felony, a term of years not less than three years and not to exceed ten years;

(4) For a class D felony, a term of years not to exceed seven years;

(5) For a class E felony, a term of years not to exceed four years;

(6) For a class A misdemeanor, a term not to exceed one year;

(7) For a class B misdemeanor, a term not to exceed six months;

(8) For a class C misdemeanor, a term not to exceed fifteen days.

2. In cases of class D and E felonies, the court shall have discretion to imprison for a special term not to exceed one year in the county jail or other authorized penal institution, and the place of confinement shall be fixed by the court. If the court imposes a sentence of imprisonment for a term longer than one year upon a person convicted of a class D or E felony, it shall commit the person to the custody of the department of corrections.

3. (1) When a regular sentence of imprisonment for a felony is imposed, the court shall commit the person to the custody of the department of corrections for the term imposed under section 557.036, or until released under procedures established elsewhere by law.

(2) A sentence of imprisonment for a misdemeanor shall be for a definite term and the court shall commit the person to the county jail or other authorized penal institution for the term of his or her sentence or until released under procedure established elsewhere by law.

4. (1) Except as otherwise provided, a sentence of imprisonment for a term of years for felonies other than dangerous felonies as defined in section 556.061, and other than sentences of imprisonment which involve the individual's fourth or subsequent remand to the department of corrections shall consist of a prison term and a conditional release term. The conditional

MO. SECRETARY OF STATE

Be it enacted by the People of the state of Missouri, as follows:

Section A. Sections 192.005, 263.250, 311.610, 311.620, 311.630 and 311.660 RSMo, are amended and thirty-three new sections are enacted to be known as sections 195.018, 195.900, 195.903, 195.906, 195.909, 195.912, 195.915, 195.918, 195.921, 195.924, 195.927, 195.930, 195.933, 195.936, 195.939, 195.942, 195.945, 195.948,195.951, 195.954, 195.957, 195.960, 195.961, 195.963, 195.966, 195.969, 195.972, 195.975, 195.978, 195.981, 195.982, 195.984 and 195.985 to read as follows:

192.005. There is hereby created and established as a department of state government the "Department of Health and Senior Services". The department of health and senior services shall supervise and manage all public health functions and programs. The department shall be governed by the provisions of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo, unless otherwise provided in sections 192.005 to 192.014. The division of health of the department of social services, chapter 191, this chapter, and others, including, but not limited to, such agencies and functions as the state health planning and development agency, the crippled children's service*, chapter 201, the bureau and the program for the prevention of developmental disability, the hospital subsidy program, chapter 189, the state board of health, section 191.400, the student loan program, sections 191.500 to 191.550, the family practice residency program, the licensure and certification of hospitals, chapter 197, the Missouri chest hospital, sections 199.010 to 199.070**, are hereby transferred to the department of health and senior services by a type I transfer, and the state cancer center and cancer commission, chapter 200, is hereby transferred to the department of health and senior services by a type III transfer as such transfers are defined in section 1 of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo Supp. 1984. The provisions of section 1 of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo Supp. 1984, relating to the manner and procedures for transfers of state agencies shall apply to the transfers provided in this section. The division of health of the department of social services is abolished. The department of health and senior services shall have the duties and powers set forth in sections 195.900 to 195.985.

195.018. The provisions of section 195.017 shall not apply to any product used as authorized by sections 195.900 to 195.985.

195.900. 1. Sections 195.900 to 195.985 shall be known and may be cited as the "Missouri Patient Care Act".

2. (1) Sections 195.900 to 195.985 shall be deemed an exercise of the police powers of the state for the protection of the economic and social welfare and the health, peace, and morals of the people of this state.

(2) It shall be unlawful under state law to cultivate, manufacture, distribute, test, possess, or sell medical cannabis, except in compliance with the terms, conditions, limitations, and restrictions in sections 195.900 to 195.985.

(3) This section is intended to permit state-licensed physicians to certify that a patient has a qualifying medical condition and that the physician is treating or managing treatment of the

patient's qualifying medical condition in the course of a bona fide physician-patient relationship, after the physician has completed an assessment of the qualifying patient's medical history, reviewed relevant records related to the patient's qualifying medical condition, and conducted a physical examination.

(4) This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale, possession, and purchase of cannabis for medical use. This section is not intended to change current civil and criminal laws governing the use of cannabis for nonmedical purposes. The section does not allow for the public use of cannabis and driving under the influence of cannabis.

3. As used in sections 195.900 to 195.985, the following terms shall mean:

(1) "Adequate supply", 2.5 ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a period of fourteen days and that is derived solely from a licensed intrastate source. Subject to the rules of the department of health and senior services, a patient may apply for a waiver to possess more than 2.5 ounces for a fourteen-day period if a physician provides a substantial medical basis in a signed written statement asserting that, based on the patient's medical history and in the physician's professional judgment, 2.5 ounces is an insufficient adequate supply for a fourteen-day period to properly alleviate the patient's qualifying medical condition or symptoms associated with the qualifying medical condition. A qualifying patient may possess no more than a sixty-day supply of cannabis flower or its equivalent in cannabis concentrate or cannabis product.

(2) "Administer", the direct application of cannabis to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming cannabis-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(3) "Cannabis", all parts of the plant genus Cannabis in any species or form thereof, including, but not limited to, Cannabis Sativa L., Cannabis Indica, Cannabis Americana, Cannabis Ruderalis, and Cannabis Gigantea, whether growing or not, the seeds thereof, the resin extracted from any part of the plant; and every compound, manufacture, derivative, mixture, or preparation of the plant, its seeds or resin. It does not include the mature stalks of the plant; fiber produced from the stalks; oil or cake made from the seeds of the plant; any other compound,

manufacture, salt, derivative, mixture, or preparation of the mature stalks except the resin extracted therefrom; fiber, oil, or cake; or the sterilized seed of the plant which is incapable of germination.

(4) "Cannabis plant monitoring system", an electronic seed-to-sale tracking system that includes, but is not limited to, testing and data collection established and maintained by the licensed medical cannabis cultivation and production facility and the medical cannabis center and available to the division for the purposes of documenting each cannabis plant and for monitoring plant development throughout the life cycle of a cannabis plant cultivated for the intended use by a qualifying patient from seed planting, cloning, or other method of propagation, to final packaging and sale to a qualifying patient.

(5) "Cannabis products", concentrated cannabis, cannabis extracts, and products that are infused with cannabis or an extract thereof and are intended for use or consumption. The term includes, without limitation, edible cannabis products, beverages, topical products, ointments, oils, and tinctures.

(6) "Caregiver", a natural person, other than the qualifying patient or the qualifying patient's physician, who is twenty-one years of age or older and has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the caregiver's application for an identification card under this section.

(7) "Department", the department of health and senior services.

(8) "Division", the division of alcohol and tobacco control within the department of public safety.

(9) "Entity", a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other entity.

(10) "Good cause", for purposes of refusing or denying a license renewal, reinstatement, or initial license issuance:

(a) The license applicant has violated, does not meet, or has failed to comply with any of the terms, conditions, or provisions of sections 195.900 to 195.985, any rules promulgated thereunder, or any supplemental local law, rules, or regulations;

(b) The licensee or applicant has failed to comply with any special terms or conditions that were placed on its license under an order of the state or local licensing authority; or

(c) The licensed premises have been operated in a manner that adversely affects the public health or welfare or the safety of the immediate neighborhood in which the establishment is located.

(11) "License", a license or registration under sections 195.900 to 195.985.

(12) "Licensed premises", the premises specified in an application for a license under sections 195.900 to 195.985, which are owned or in possession of the licensee and within which the licensee is authorized to cultivate, manufacture, distribute, test, possess, or sell medical cannabis in accordance with the provisions of sections 195.900 to 195.985.

(13) "Licensee", a person licensed or registered under sections 195.900 to 195.985.

(14) "Limited access area", a building, room, or other contiguous area upon the licensed premises where medical cannabis is grown, cultivated, stored, weighed, displayed, packaged, sold, or possessed for sale, under control of the licensee, with limited access to only those persons licensed by the division, and visitors and vendors as provided by rule. All areas of ingress or egress to limited access areas shall be clearly identified as such by a sign as designated by the division.

(15) "Local licensing authority", an authority designated by municipal or county charter or ordinance.

(16) "Medical cannabis", cannabis that is grown and sold under sections 195.900 to 195.985 for a purpose authorized under sections 195.900 to 195.985.

(17) "Medical cannabis center", a person licensed under sections 195.900 to 195.985 to operate a business as described in sections 195.900 to 195.985 that acquires, possesses, stores, delivers, transfer, transports, sells, supplies or dispenses cannabis, cannabis products, medical cannabis, paraphernalia or related supplies to registered qualifying patients or caregivers, or other licensed medical cannabis centers.

(18) "Medical cannabis cultivation and production facility", a person licensed under sections 195.900 to 195.985 to operate a business as described in section 195.954.

(19) "Medical cannabis-infused product", a product infused with medical cannabis that is intended for use or consumption other than by smoking, including, but not limited to edible cannabis products, beverages, topical products, ointments, oils, and tinctures or smokeless vaporizing devices. Such products, when manufactured or sold by a licensed medical cannabis center, shall not be considered a drug for the purposes of chapter 196.

(20) "Medical cannabis testing facility", an independent entity licensed, approved, and certified by the division pursuant to this act to analyze the safety and potency of cannabis and as otherwise provided under sections 195.900 to 195.985.

(21) "Medical use", the production, possession, distribution, transportation, or administration of cannabis or a cannabis-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(22) "Person", a natural person, partnership, association, company, corporation, limited liability company, or organization, or a manager, agent, owner, director, servant, officer, or employee thereof.

(23) "Premises", a distinct and definite location, which may include a building, a part of a building, a room, or any other definite contiguous area.

(24) "Qualifying medical condition", the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including, but not limited to, those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of cannabis could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis (ALS), inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(25) "Qualifying patient", a Missouri resident diagnosed with at least one qualifying medical condition.

(26) "Smokeless vaporizing device", a medical-grade vaporizer delivery device capable of administering the active ingredients of a metered dose of medical cannabis via inhalation without combustion by-products.

(27) "State licensing authority", the division of alcohol and tobacco control which is responsible for regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state.

(28) "Written certification", a document dated and signed by a physician, stating:

(a) That the qualifying patient has a qualifying medical condition and specifying the qualifying medical condition the qualifying patient has; and

(b) That the physician is treating or managing treatment of the patient's qualifying medical condition.

195.903. 1. For the purpose of regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state, the division of alcohol and tobacco control is hereby designated as the state licensing authority.

2. The state supervisor of the division may employ such officers and employees as may be determined to be necessary, with such officers and employees being part of the division. No moneys shall be appropriated to the division from the general revenue fund for the operation of sections 195.900 to 195.985, nor shall the division expend any general revenue fund moneys for the operation of sections 195.900 to 195.985. Notwithstanding any other provision of law, the division, the Commissioner of Administration, and the State Treasurer are authorized to receive and disburse funds from any source, public or private, as may assist the prompt implementation of this Act.

195.906. 1. The division shall:

(1) Grant or refuse state licenses for the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of sections 195.900 to 195.985, or a rule promulgated under sections 195.900 to 195.985; and impose any penalty authorized by sections 195.900 to 195.985, or any rule promulgated under sections 195.900 to 195.985. The division may take any action with respect to a registration under sections 195.900 to 195.985 as it may with respect to a license under sections 195.900 to 195.985, in accordance with the procedures established under sections 195.900 to 195.985;

(2) Establish, revise, and amend rules and regulations as necessary to carry into effect the provisions of sections 195.900 to 195.985;

(3) Upon denial of a state license, provide written notice of the grounds for such denial of a state license to the applicant and to the local authority and the right of the applicant to a hearing before the administrative hearing commission under subsection 2 of section 195.924;

(4) Maintain the confidentiality of patient records, reports obtained from licensees showing the sales volume or quantity of medical cannabis sold, or any other records that are exempt from inspection under state law;

(5) Develop such forms, licenses, identification cards, and applications as are necessary in the discretion of the division for the administration of sections 195.900 to 195.985 or any of the rules promulgated under sections 195.900 to 195.985; and

(6) Prepare and submit an annual report accounting to the governor for the efficient discharge of all responsibilities assigned by law or directive to the state licensing authority.

2. (1) Rules promulgated under subdivision (2) of subsection 1 of this section shall include, but not be limited to, the following:

(a) Compliance with, enforcement, or violation of any provision of sections 195.900 to 195.985, or any rule issued under sections 195.900 to 195.985, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license issued under sections 195.900 to 195.985;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions for local licensing authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed under sections 195.900 to 195.985, including a fingerprint-based criminal record check as may be required by the division prior to issuing a card;

(i) Identification of state licensees and their owners, officers, managers, and employees;

(j) Security requirements for any premises licensed under sections 195.900 to 195.985, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the division to properly administer and enforce the provisions of sections 195.900 to 195.985, including reporting requirements for changes, alterations, or modifications to the premises;

(k) Regulation of the storage of, warehouses for, and transportation of medical cannabis;

(l) Sanitary requirements for medical cannabis centers and medical cannabis cultivation and production facilities, including, but not limited to, sanitary requirements for the preparation of medical cannabis-infused products;

(m) The specification of acceptable forms of picture identification that a medical cannabis center may accept when verifying a sale;

(n) Labeling standards, including, but not limited to, the serving size of active THC per serving and total servings per package;

(o) Testing standards;

(p) Records to be kept by licensees and the required availability of the records;

(q) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(r) The reporting and transmittal of monthly sales tax payments by medical cannabis centers;

(s) Authorization for the department of revenue to have access to licensing information to ensure sales and income tax payment and effective administration of sections 195.900 to 195.985;

(t) Authorization for the division to impose administrative penalties and procedures of issuing, appealing, and creating a violation list and schedule of administrative penalties; and

(u) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of sections 195.900 to 195.985.

(2) The prompt implementation of this Missouri Patient Care Act is necessary to avoid immediate danger to the public health, safety and welfare. The division is authorized to use the emergency rulemaking procedures set out in section 536.025, and shall promulgate emergency rules by March 6, 2019, and also to file a notice of rulemaking as provided in section 536.025 by March 6, 2019.

(3) Nothing in sections 195.900 to 195.985 shall be construed as delegating to the division the power to fix prices for medical cannabis.

195.909. 1. A local licensing authority may issue only the following medical cannabis licenses upon payment of the fee and compliance with all local licensing requirements to be determined by the local licensing authority:

(1) A medical cannabis center license; and

(2) A medical cannabis cultivation and production facility license.

2. (1) A local licensing authority shall not issue a local license within a municipality or the unincorporated portion of a county unless the governing body of the municipality has adopted an ordinance or the governing body of the county has adopted a resolution containing specific standards for license issuance, or if no such ordinance or resolution is adopted prior to June 1, 2019, a local licensing authority shall consider the minimum licensing requirements of this section when issuing a license.

(2) In addition to all other standards applicable to the issuance of licenses under sections 195.900 to 195.985, the local governing body may adopt additional standards for the issuance of medical cannabis center or medical cannabis cultivation and production facility licenses consistent with the intent of sections 195.900 to 195.985 that may include, but not be limited to:

(a) Distance restrictions between premises for which local licenses are issued; and

(b) Any other requirements necessary to ensure the control of the premises and the ease of enforcement of the terms and conditions of the license.

3. Local governments may limit the use of land for operation of medical cannabis centers and medical cannabis cultivation and production facilities to specified areas as to time, place, and manner of such facilities. Local zoning approval shall be made by the governing body of the municipality if the premises are located in the municipality, or by the governing body of the county if the premises are located in the unincorporated portion of the county. The operation of sections 195.900 to 195.985 shall be statewide unless a municipality, county, or city, by a two-thirds majority of the registered voters voting at a regular election or special election called in accordance with state law, vote to prohibit the operation of medical cannabis centers and medical cannabis cultivation and production facilities in the municipality, county, or city.

4. An application for a license specified in subsection 1 of this section shall be filed with the appropriate local licensing authority on forms provided by the state licensing authority and shall contain such information as the state licensing authority may require and any forms as the local licensing authority may require. Each application shall be verified by the oath or affirmation of the persons prescribed by the state licensing authority.

5. An applicant shall file with the application for a local license, plans and specifications for the interior of the building if the building to be occupied is in existence at the time. If the building is not in existence, the applicant shall file a plot plan and a detailed sketch for the interior and submit an architect's drawing of the building to be constructed. In its discretion, the local or state licensing authority may impose additional requirements necessary for the approval of the application.

195.912. 1. Upon receipt of an application for a local license, except an application for renewal or for transfer of ownership, a local licensing authority shall schedule and hold a public hearing upon the application to be held not less than thirty days after the date of the application, but not more than ninety days from the date of the application. If the local licensing authority fails to hold a public hearing within such time lines, the application shall be considered

approved. If the local licensing authority schedules a hearing for a medical cannabis center application and/or a medical cannabis cultivation and production facility application, it shall post and publish public notice thereof not less than ten days prior to the hearing. The local licensing authority shall give public notice by the posting of a sign in a conspicuous place on the medical cannabis center premises and/or the medical cannabis cultivation and production facility premises for which application has been made and by publication in a newspaper of general circulation in the county in which the medical cannabis center premises and/or the medical cannabis cultivation and production premises are located.

2. Public notice given by posting shall include a sign of suitable material, not less than twenty-two inches wide and twenty-six inches high, composed of letters not less than one inch in height and stating the type of license applied for, the date of the hearing, the name and address of the applicant, and such other information as may be required to fully apprise the public of the nature of the application. The sign shall contain the names and addresses of the officers, directors, or manager of the facility to be licensed.

3. Public notice given by publication shall contain the same information as that required for signs.

4. If the building in which medical cannabis is to be cultivated, manufactured, distributed, possessed, or sold is in existence at the time of the application, a sign posted as required in subsections 1 and 2 of this section shall be placed so as to be conspicuous and plainly visible to the general public. If the building is not constructed at the time of the application, the applicant shall post a sign at the premises upon which the building is to be constructed in such a manner that the notice shall be conspicuous and plainly visible to the general public.

5. (1) A local licensing authority, or a license applicant with the authorization of the local licensing authority, may request that the state licensing authority conduct a concurrent review of a new license application prior to the local licensing authority's final approval of the license application. Local licensing authorities who permit concurrent review shall continue to independently review the applicant's license application.

(2) When conducting a concurrent application review, the state licensing authority may advise the local licensing authority of any items it finds that may result in the denial of the license application. Upon correction of the noted discrepancies if the correction is permitted by the state licensing authority, the state licensing authority shall notify the local licensing authority of its conditional approval of the license application subject to the final approval by the local licensing authority. The state licensing authority shall then issue the applicant's state license upon receiving evidence of final approval by the local licensing authority.

(3) All applications submitted for concurrent review shall be accompanied by all applicable state license and application fees. Any applications which are later denied or withdrawn may allow for a refund of license fees only. All application fees provided by an applicant shall be retained by the respective licensing authority.

195.915. 1. Not less than five days prior to the date of the public hearing authorized in section 195.912, the local licensing authority shall make known its findings, based on its investigation, in writing to the applicant and other parties of interest. The local licensing authority has authority to refuse to issue a license provided for in this section for good cause, subject to judicial review.

2. Before entering a decision approving or denying the application for a local license, the local licensing authority may consider, except where sections 195.900 to 195.985 specifically provides otherwise, the facts and evidence adduced as a result of its investigation, as well as any other facts pertinent to the type of license for which application has been made, including the number, type, and availability of medical cannabis outlets located in or near the premises under consideration, and any other pertinent matters affecting the qualifications of the applicant for the conduct of the type of business proposed. A local licensing authority may only issue a medical cannabis center license and a medical cannabis cultivation and production facility license upon payment of the fee and compliance with all local licensing authority.

3. Within thirty days after the public hearing or completion of the application investigation, a local licensing authority shall issue its decision approving or denying an application for local licensure. The decision shall be in writing and shall state the reasons for the decision. The local licensing authority shall send a copy of the decision by certified mail to the applicant at the address shown on the application.

4. After approval of an application, a local licensing authority shall not issue a local license until the building in which the business to be conducted is ready for occupancy with such furniture, fixtures, and equipment in place as are necessary to comply with the applicable provisions of sections 195.900 to 195.985, and then only after the local licensing authority has inspected the premises to determine that the applicant has complied with the architect's drawing and the plot plan and detailed sketch for the interior of the buildings submitted with the application.

5. After approval of an application for local licensure, the local licensing authority shall notify the state licensing authority of such approval, who shall investigate and either approve or disapprove the application for state licensure.

195.918. 1. (1) The division may restrict the number of licenses granted for medical cannabis cultivation and production facilities, provided, however, that number may not be limited to fewer than one license per every one hundred thousand inhabitants of the state of Missouri, according to the most recent census of the United States. Each facility in operation shall require a separate license but multiple licenses may be utilized in a premises. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. No more than three medical cannabis and production facility licenses shall be issued to any person under substantially common control, ownership, or management. At least one medical cannabis center license shall be issued for each medical cannabis cultivation and production facility license.

(2) The division may restrict the numbers of licenses granted for medical cannabis centers, provided, however, that number may not be limited to fewer than one license per every one hundred thousand inhabitants of the state of Missouri, according to the most recent census of the United States, except that, an applicant for a medical cannabis center license may be approved for an additional two medical cannabis center licenses in accordance with subdivision (3) of this subsection. Such additional medical cannabis center licenses shall not be counted toward the statewide limit for medical cannabis centers. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause.

(3) Licenses shall be geographically disbursed by the division, in consultation with the department of health and senior services, based on the demographics of the state and patient demand to ensure statewide access for patients. If more than the statewide limit for medical cannabis centers are necessary to provide sufficient patient access, a medical cannabis cultivation and production facility licensee may be approved for up to an additional two medical cannabis center licenses, subject to approval by the local licensing authority and the division.

2. Before the division of alcohol and tobacco control issues a state license to an applicant, the applicant shall procure and file with the division evidence of a good and sufficient bond in the amount of five thousand dollars with corporate surety thereon duly licensed to do business with the state, approved as to form by the state attorney general, and conditioned that the applicant shall report and pay all sales and use taxes due to the state, or for which the state is the collector or collecting agent, in a timely manner, as provided in law.

3. A corporate surety shall not be required to make payments to the state claiming under such bond until a final determination of failure to pay taxes due to the state has been made by the division or a court of competent jurisdiction.

4. All bonds required under this section shall be renewed at such time as the bondholder's license is renewed. The renewal may be accomplished through a continuation certificate issued by the surety.

195.921. 1. Applications for a state license under the provisions of sections 195.900 to 195.985 shall be made to the division on forms prepared and furnished by the division and shall set forth such information as the division may require to enable the division to determine whether a state license shall be granted. The information shall include the name and address of the applicant, the names and addresses of the officers, directors, or managers, and all other information deemed necessary by the division. Each application shall be verified by the oath or affirmation of such person or persons as the division may prescribe.

2. Within one hundred eighty days of the effective date of this section, the division shall make available to the public license application forms and application instructions for medical cannabis cultivation and production facilities, medical cannabis center facilities, and medical cannabis testing facilities. The division shall begin accepting license and certification applications no later than two hundred forty days after the effective date of this section.

Applications for licenses and certifications shall be approved or denied by the division no later than one hundred twenty days after their submission.

3. The division shall not issue a state license under this section until the local licensing authority has approved the application for a local license and issued a local license as provided for in sections 195.909 to 195.918.

4. Nothing in sections 195.900 to 195.985 shall preempt or otherwise impair the power of a local government to enact ordinances or resolutions concerning matters authorized to local governments.

195.924. 1. The division shall deny a state license if the premises on which the applicant proposes to conduct its business does not meet the requirements of sections 195.900 to 195.985.

2. If the division denies a state license under subsection 1 of this section, the applicant shall be entitled to a hearing before the administrative hearing commission. The division shall provide written notice of the grounds for denial of the state license to the applicant and to the local licensing authority at least fifteen days prior to the hearing.

195.927. 1. A license provided by sections 195.900 to 195.985 shall not be issued to or held by:

(1) A person until the annual fee has been paid;

(2) A person under twenty-one years of age;

(3) A person licensed under sections 195.900 to 195.985 who during a period of licensure or who at the time of application has failed to:

(a) Provide a surety bond, proof of assets, or file any tax return with a taxing agency;

(b) Avoid delinquency in the payment of any state income taxes, personal property taxes, municipal taxes, or real property taxes;

(c) Pay any judgments due to a government agency;

(d) Stay out of default on a government-issued student loan;

(e) Pay child support; or

(f) Remedy an outstanding delinquency for taxes owed, an outstanding delinquency for judgments owed to a government agency, or an outstanding delinquency for child support.

(4) A person who has discharged a sentence in the ten years immediately preceding the application date for a conviction of a felony or a person who at any time has been convicted of a

felony under any state or federal law regarding the possession, distribution, or use of a controlled substance;

(5) A person who employs another person at a medical cannabis center, a medical cannabis cultivation and production facility, or a medical cannabis testing facility who has not passed a criminal background check;

(6) A sheriff, deputy sheriff, police officer, or prosecuting officer, or any officer or employee of the division or a local licensing authority;

(7) A person whose authority to be a caregiver as defined in sections 195.900 to 195.985 has been revoked by the department; or

(8) A person who holds a license for a location that is currently licensed as a retail food establishment or wholesale food registrant.

2. The provisions of section 324.010.1 shall apply to sections 195.900 to 195.985.

3. All medical cannabis cultivation and production facility licensees and all medical cannabis center licensees shall be held by entities that are sixty percent or more owned by natural persons who have been bona fide residents of the state of Missouri for at least three years continuously immediately prior to the date of filing of application for such licenses. Notwithstanding the foregoing, medical cannabis cultivation and production facility licensees and medical cannabis center licensees may be held by entities with no greater than a forty percent interest owned by natural persons who have not been citizens of the state of Missouri for at least three years continuously immediately prior to the date of filing of application for such licenses.

4. (1) In investigating the qualifications of an applicant or a licensee, the division shall have access to criminal background check information furnished by a criminal justice agency subject to any restrictions or costs imposed by such agency. In addition to considering the applicant's criminal background check information, the division shall also consider any information provided by the applicant regarding such criminal background check, including, but not limited to, evidence of rehabilitation, character references, and educational achievements, especially those items pertaining to the period of time between the applicant's last criminal conviction and the consideration of the application for a state license.

(2) As used in subdivision (1) of this subsection, "criminal justice agency" means any federal, state, or municipal court or any governmental agency or subunit of such agency that administers criminal justice under a statute or executive order and that allocates a substantial part of its annual budget to the administration of criminal justice.

(3) At the time of filing an application for issuance or renewal of a state medical cannabis center license, a medical cannabis cultivation and production facility license, or a medical cannabis testing facility license, an applicant shall submit a set of his or her fingerprints and file personal history information concerning the applicant's qualifications for a state license on forms

prepared by the division. The division shall submit the fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol shall forward the fingerprints to the Federal Bureau of Investigation for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted in accordance with section 43.543, and fees shall be paid in accordance with section 43.530. The division may acquire a name-based criminal background check for an applicant or a license holder who has twice submitted to a fingerprint-based criminal background check and whose fingerprints are unclassifiable. The division shall use the information resulting from the fingerprint-based criminal history record check to investigate and determine whether an applicant is qualified to hold a state license under sections 195.900 to 195.985. The division may verify any of the information an applicant is required to submit.

195.930. The division or a local licensing authority shall not receive or act upon an application for the issuance of a state or local license under sections 195.900 to 195.985:

(1) If the application for a state or local license concerns a particular location that is the same as or within one thousand feet of a location for which, within the two years immediately preceding the date of the application, the division or a local licensing authority denied an application for the same class of license due to the nature of the use or other concern related to the location;

(2) Until it is established that the applicant is or shall be entitled to possession of the premises for which application is made under a lease, rental agreement, or other arrangement for possession of the premises or by virtue of ownership of the premises;

(3) For a location in an area where the cultivation, manufacture, and sale of medical cannabis as contemplated is not permitted under the applicable local zoning laws of the municipality or county; or

(4) (a) If the building in which medical cannabis is to be cultivated, produced, or sold is located within one thousand feet of, the real property comprising a public or private elementary, vocational, or secondary school or a public or private college, junior college, or university, or a playground, or housing facility owned by a public housing authority, or a licensed child care facility, or within 100 feet of a public or private youth center, public swimming pool, or video arcade facility. The provisions of this subdivision shall not affect the renewal or reissuance of a license once granted nor shall the provisions of this subdivision apply to a license in effect and actively doing business before such school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade was constructed.

(b) The distances referred to in this subdivision are to be computed by direct measurement from the nearest property line of the land used for a school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade to the nearest portion of the building in which medical cannabis is to be cultivated, produced, or sold.

(c) In addition to the requirements of section 195.909, the local licensing authority shall consider the evidence and make a specific finding of fact as to whether the building in which the medical cannabis is to be cultivated, produced, or sold is located within the distance restrictions established by or under this subdivision.

195.933. 1. A state or local license granted under the provisions of sections 195.900 to 195.985 shall not be transferable except as provided in this section, but this section shall not prevent a change of location as provided in subsection 13 of section 195.936.

2. For a transfer of ownership, a license holder shall apply to the division and the local licensing authority on forms prepared and furnished by the division. In determining whether to permit a transfer of ownership, the division and the local licensing authority shall consider only the requirements of sections 195.900 to 195.985, any rules promulgated by the division, and any other local restrictions. The local licensing authority may hold a hearing on the application for transfer of ownership. The local licensing authority shall not hold a hearing under this subsection until the local licensing authority has posted a notice of hearing in the manner described in section 195.912 on the licensed medical cannabis center premises and/or the medical cannabis cultivation and production facility for a period of ten days and has provided notice of the hearing to the applicant at least ten days prior to the hearing. Any transfer of ownership hearing by the division shall be held in compliance with the requirements specified in section 195.912.

195.936. 1. Sections 195.900 to 195.985 authorize a county or municipality to enact reasonable regulations or other restrictions applicable to licenses of medical cannabis centers and medical cannabis cultivation and production facilities based on local zoning, health, safety, and public welfare laws for the distribution of medical cannabis that are more restrictive than sections 195.900 to 195.985.

2. A medical cannabis center and a medical cannabis cultivation and production facility shall not operate unless licensed by the local licensing authority and the state licensing authority under sections 195.900 to 195.985. In connection with a license, the applicant shall provide a complete and accurate list of all owners, officers, and employees who work at, manage, own, or are otherwise associated with the operation and shall provide a complete and accurate application as required by the division.

3. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing within ten days after an owner, officer, or employee ceases to work at, manage, own, or otherwise be associated with the operation. The owner, officer, or employee shall surrender his or her identification card to the division on or before the date of the notification.

4. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing of the name, address, and date of birth of an owner, officer, manager, or employee before the new owner, officer, manager, or employee begins working at, managing, owning, or begins an association with the operation. The owner, officer, manager, or employee shall pass a fingerprint-based criminal background

check as required by the division and obtain the required identification prior to being associated with, managing, owning, or working at the operation.

5. A medical cannabis center and a medical cannabis cultivation and production facility shall not acquire, possess, cultivate, deliver, transfer, transport, supply, or dispense cannabis for any purpose except to assist patients with qualifying medical conditions or to test the product at a medical cannabis testing facility, or as otherwise provided in section 195.900 to 195.985.

6. All owners of a licensed medical cannabis center and a licensed medical cannabis cultivation and production facility shall be authorized to do business in Missouri. A local licensing authority shall not issue a license provided for in sections 195.900 to 195.985 until that share of the license application fee due to the state has been received by the division. All licenses granted under sections 195.900 to 195.985 shall be valid for a period not to exceed one year from the date of issuance unless revoked or suspended under sections 195.900 to 195.985 or the rules promulgated under sections 195.900 to 195.985.

7. Before granting a local or state license, the respective licensing authority may consider, except where sections 195.900 to 195.985 specifically provide otherwise, the requirements of sections 195.900 to 195.985 and any rules promulgated under sections 195.900 to 195.985, and all other reasonable restrictions that are or may be placed upon the licensee by the licensing authority. With respect to a second or additional license for the same licensee or the same owner of another licensed business under sections 195.900 to 195.985, each licensing authority shall consider the effect on competition of granting or denying the additional licenses to such licensee and shall not approve an application for a second or additional license that has the effect of restraining competition.

8. (1) Each license issued under sections 195.900 to 195.985 is separate and distinct. It is unlawful for a person to exercise any of the privileges granted under a license other than the license that the person holds or for a licensee to allow any other person to exercise the privileges granted under the licensee's license. A separate license shall be required for each specific business or business entity and each geographical location.

(2) At all times, a licensee shall possess and maintain possession of the premises for which the license is issued by ownership, lease, rental, or other arrangement for possession of the premises.

9. (1) The licenses provided under sections 195.900 to 195.985 shall specify the date of issuance, the period of licensure, the name of the licensee, and the premises licensed. The licensee shall conspicuously display the license at all times on the licensed premises.

(2) A local licensing authority shall not transfer location of or renew a license to sell medical cannabis until the applicant for the license produces a license issued and granted by the state licensing authority covering the whole period for which a license or license renewal is sought.

10. In computing any period of time prescribed by sections 195.900 to 195.985, the day of the act, event, or default from which the designated period of time begins to run shall not be included. Saturdays, Sundays, and legal holidays shall be counted as any other day.

11. A licensee shall report each transfer or change of financial interest in the license to the division and the local licensing authority thirty days prior to any transfer or change under subsection 13 of this section. A report shall be required for transfers of capital stock of any corporation, regardless of size.

12. Each licensee shall manage the licensed premises himself or herself or employ a separate and distinct manager on the premises and shall report the name of the manager to the division and the local licensing authority. The licensee shall report any change in manager to the division and local licensing authority thirty days prior to such change.

13. (1) A licensee may move his or her permanent location to any other place in the same municipality for which the license was originally granted, or in the same county if the license was granted for a place outside the corporate limits of a municipality, but it shall be unlawful to cultivate, manufacture, distribute, possess, or sell medical cannabis at any such place until permission to do so is granted by the division and the local licensing authority provided for in sections 195.900 to 195.985.

(2) In permitting a change of location, the division and the local licensing authority shall consider all reasonable restrictions that are or may be placed upon the new location by the governing body or local licensing authority of the municipality or county; any such change in location shall be in accordance with all requirements of sections 195.900 to 195.985 and rules promulgated under sections 195.900 to 195.985.

195.939. 1. (1) Ninety days prior to the expiration date of an existing license, the division shall notify the licensee of the expiration date by first class mail at the licensee's address of record with the division. A licensee shall apply for the renewal of an existing license to the local licensing authority not less than forty-five days and to the division not less than thirty days prior to the date of expiration. A local licensing authority shall not accept an application for renewal of a license after the date of expiration, except as provided in subsection 2 of this section. The division may extend the expiration date of the license and accept a late application for renewal of a license; provided that, the applicant has filed a timely renewal application with the local licensing authority. All renewals filed with the local licensing authority and subsequently approved by the local licensing authority shall next be processed by the division. The division or the local licensing authority, in its discretion, subject to the requirements of this section and based upon reasonable grounds, may waive the forty-five-day or thirty-day time requirements set forth in this subsection. The local licensing authority may hold a hearing on the application for renewal only if the licensee has had complaints filed against it, has a history of violations, or there are allegations against the licensee that constitute good cause.

(2) The local licensing authority shall not hold a renewal hearing provided for by this subsection for a medical cannabis center and a medical cannabis cultivation and production facility until it has posted a notice of hearing on the licensed medical cannabis center premises

and the medical cannabis cultivation and production facility premises in the manner described in section 195.912 for a period of ten days and provided notice to the applicant at least ten days prior to the hearing. The local licensing authority may refuse to renew any license for good cause, subject to judicial review.

2.(1) Notwithstanding the provisions of subsection 1 of this section, a licensee whose license has been expired for not more than ninety days may file a late renewal application upon the payment of a nonrefundable late application fee of five hundred dollars to the local licensing authority. A licensee who files a late renewal application and pays the requisite fees may continue to operate until both the state and local licensing authorities have taken final action to approve or deny the licensee's late renewal application.

(2) The state and local licensing authorities shall not accept a late renewal application more than ninety days after the expiration of a licensee's permanent annual license. A licensee whose permanent annual license has been expired for more than ninety days shall not cultivate, manufacture, distribute, possess, or sell any medical cannabis until all required licenses have been obtained.

195.942. The division or local licensing authority may, in its discretion, revoke or elect not to renew any license if it determines that the licensed premises have been inactive without good cause for at least one year.

195.945. 1. The division, by rule, shall require a complete disclosure of all persons having a direct or indirect financial interest and the extent of such interest in each license issued under sections 195.900 to 195.985.

2. A person shall not have an unreported financial interest in a license under sections 195.900 to 195.985 unless such person has undergone a fingerprint-based criminal background check as provided for by the division in its rules; except that, this subsection shall not apply to banks, savings and loan associations, or industrial banks supervised and regulated by an agency of the state or federal government, or to FHA-approved mortgagees, or to stockholders, directors, or officers thereof.

3. This section is intended to prohibit and prevent the control of the outlets for the sale of medical cannabis by a person or party other than the persons licensed under the provisions of sections 195.900 to 195.985.

195.948. 1. For the purpose of regulating the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis, the division may, in its discretion and upon application on the prescribed form made to it, issue and grant to the applicant a license or registration from any of the following classes, subject to the provisions and restrictions provided by sections 195.900 to 195.985:

(1) Medical cannabis center license;

(2) Medical cannabis cultivation and production facility license;

(3) Medical cannabis testing facility license;

(4) Occupational licenses and registrations for owners, managers, operators, employees, contractors, and other support staff employed by, working in, or having access to restricted areas of the licensed premises as determined by the division. The division may take any action with respect to a registration under sections 195.900 to 195.985 as it may with respect to a license under sections 195.900 to 195.985, in accordance with the procedures established under sections 195.900 to 195.985.

2. In order to do business in Missouri under sections 195.900 to 195.985, a medical cannabis business shall hold both a medical cannabis center license and a medical cannabis cultivation and production facility license and shall be operated as a vertically integrated business.

3. A medical cannabis business shall use a cannabis plant monitoring system as the primary inventory tracking system of records.

4. A state-chartered bank or a credit union may loan money to any person licensed under sections 195.900 to 195.985 for the operation of a licensed business.

5. A medical cannabis testing facility shall be licensed, approved, and certified by the division in order to test medical cannabis. A person who is an owner of a medical cannabis cultivation and production facility or a medical cannabis center facility is prohibited from having a financial interest in a medical cannabis testing facility. An owner of a medical cannabis testing facility is prohibited from having a financial interest in a medical cannabis cultivation and production facility or a medical cannabis center facility.

195.951. 1. A medical cannabis center license shall be issued only to a person selling medical cannabis under the terms and conditions of sections 195.900 to 195.985.

2. Notwithstanding the provision of this section, a medical cannabis center licensee may also sell medical cannabis-infused products that are prepackaged and labeled under subsection 7 of this section.

3. Except as otherwise provided in subsection 4 of this section, every person selling medical cannabis as provided for in this section shall sell medical cannabis grown in its medical cannabis cultivation and production facility licensed under sections 195.900 to 195.985.

4. A medical cannabis center licensee shall not purchase more than thirty percent of its total on-hand inventory of medical cannabis flower from another licensed medical cannabis center licensee in Missouri. A medical cannabis center licensee shall not sell more than thirty percent of its total on-hand inventory of medical cannabis flower to another Missouri medical cannabis licensee. At least seventy percent of the medical cannabis flower sold at a medical cannabis center shall be grown at its cultivation and production facility.

5. Prior to initiating a sale, the employee of the medical cannabis center making the sale shall verify that the purchaser has a valid registration card issued under section 195.981 and a valid picture identification card that matches the name on the registration card.

6. A licensed medical cannabis center shall provide an amount of its medical cannabis established by rule of the division for testing to a medical cannabis testing facility.

7. All medical cannabis sold at a licensed medical cannabis center shall be labeled as follows:

(1) The medical cannabis center shall place a legible, firmly affixed label on medical cannabis, excluding medical cannabis-infused products, on which the wording is no less than one-sixteenth inch in size on each package of medical cannabis that it prepares for dispensing and which contains at a minimum the following information:

(a) The registered qualifying patient's name;

(b) The name and registration number of the medical cannabis center that produced the cannabis, together with the medical cannabis center's telephone number and mailing address, and website information, if any;

(c) The quantity of usable medical cannabis contained within the package;

(d) The date that the medical cannabis center packaged the contents;

(e) A batch number, sequential serial number, and bar code when used, to identify the batch associated with manufacturing and processing;

(f) The cannabinoid profile of the medical cannabis contained within the package, including tetrahydrocannabinol (THC) level; and

(g) A statement that the product has been tested for contaminants, that there were no adverse findings, and the date of testing, and the following statement, including capitalization: "This product has not been analyzed or approved by the FDA. There is limited information on the side effects of using this product, and there may be associated health risks. Do not drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN."

(2) The medical cannabis center shall place a legible, firmly affixed label on medical cannabis-infused products on which the wording is no less than one-sixteenth inch in size on each medical cannabis-infused product that it prepares for dispensing and which contains at a minimum the following information:

(a) The registered qualifying patient's name;

(b) The name and registration number of the medical cannabis center that produced the medical cannabis-infused product, together with the medical cannabis center's telephone number and mailing address, and website information, if any;

(c) The name of the product;

(d) The quantity of usable cannabis contained within the product as measured in ounces;

(e) A list of ingredients, including the cannabinoid profile of the cannabis contained within the product, including the tetrahydrocannabinol (THC) level;

(f) The date of product creation and the recommended "use by" or expiration date;

(g) To identify the batch associated with manufacturing and processing, a batch number, sequential serial number, and bar code when used;

(h) Directions for use of the product if relevant;

(i) A statement that the product has been tested for contaminants, that there were no adverse findings, and the date of testing;

(j) A warning if known allergens are contained in the product; and

(k) The following statement, including capitalization: "This product has not been analyzed or approved by the FDA. There is limited information on the side effects of using this product, and there may be associated health risks. Do not drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN."

(3) Cannabis shall be packaged in plain, opaque, tamperproof, and child-resistant containers without depictions of the product, cartoons, or images other than the medical cannabis center's logo.

8. A licensed medical cannabis center shall comply with all provisions of law as such provisions relate to persons with disabilities.

195.954. A medical cannabis cultivation and production facility license shall only be issued to a person licensed under this section who grows and cultivates medical cannabis and who manufactures medical cannabis or medical cannabis-infused products under the terms and conditions of sections 195.900 to 195.985.

195.957. 1. The department of health and senior services is the designated state agency for regulating and controlling the manufacturing of medical cannabis-infused products.

2. (1) Medical cannabis-infused products shall be prepared on a cultivation and production facility licensed premises that is used for the manufacture and preparation of medical

cannabis-infused products and which uses equipment that is used for the manufacture and preparation of medical cannabis-infused products.

(2) Only a licensed medical cannabis cultivation and production facility is permitted to produce medical cannabis-infused products. A medical cannabis cultivation and production facility may produce medical cannabis-infused products for the facility's medical cannabis centers and may sell the medical cannabis-infused products it produces to any other licensed medical cannabis centers in the state.

(3) The medical cannabis cultivation and production facility shall have all cannabis cultivated by such facility tested by a licensed medical cannabis testing facility in accordance with the following:

(a) Cannabis shall be tested for the cannabinoid profile and for contaminants as specified by the department, including, but not limited to, mold, mildew, heavy metals, plant-growth regulators, and the presence of nonorganic pesticides. The department may require additional testing;

(b) The facility shall maintain the results of all testing for no less than one year;

(c) The facility shall have and follow a policy and procedure for responding to results indicating contamination, which shall include destruction of contaminated product and assessment of the source of contamination. Such policy shall be available to registered qualifying patients and primary caregivers;

(d) All testing shall be conducted by an independent laboratory that is:

a. Accredited to International Organization for Standardization (ISO) 17025 by a third-party accrediting body such as A2LA or ACLASS; or

b. Certified, registered, or accredited by an organization approved by the department.

(e) The facility shall arrange for testing to be conducted in accordance with the frequency required by the department;

(f) A facility shall have a contractual arrangement with a medical cannabis testing facility for the purposes of testing cannabis, including a stipulation that those individuals responsible for testing at the medical cannabis testing facility be licensed;

(g) A medical cannabis cultivation and production facility is prohibited from having any financial or other interest in a medical cannabis testing facility providing testing services for any medical cannabis cultivation and production facility;

(h) No individual employee of a medical cannabis testing facility providing testing services for medical cannabis cultivation and production facilities shall receive direct financial compensation from any medical cannabis cultivation and production facility;

(i) All transportation of cannabis to and from laboratories providing cannabis testing services shall comply with rules promulgated under any rulemaking authority granted in sections 195.900 to 195.985;

(j) All storage of cannabis at a laboratory providing cannabis testing services shall comply with subdivision (4) of this subsection; and

(k) All excess cannabis shall be returned to the source medical cannabis cultivation and production facility and be disposed of under paragraph (e) of subdivision (6) of this subsection.

(4)(a) All cannabis in the process of cultivation, production, preparation, transport, or analysis shall be housed and stored in such a manner as to prevent diversion, theft, or loss.

(b) Such items shall be accessible only to the minimum number of specifically authorized dispensary agents essential for efficient operation.

(c) Such items shall be returned to a secure location immediately after completion of the process or at the end of the scheduled business day.

(d) If a manufacturing process cannot be completed at the end of a working day, the processing area or tanks, vessels, bins, or bulk containers containing cannabis shall be securely locked inside an area or building that affords adequate security.

(5) A medical cannabis cultivation and production facility shall process cannabis in a safe and sanitary manner. A facility shall process the leaves and flowers of the female cannabis plant only, which shall be:

(a) Well cured and free of seeds and stems;

(b) Free of dirt, sand, debris, and other foreign matter;

(c) Free of contamination by mold, rot, other fungus, and bacterial diseases;

(d) Prepared and handled on food-grade stainless steel tables; and

(e) Packaged in a secure area.

(6) All facilities, including those that develop or process nonedible medical cannabis-infused products, shall comply with the following sanitary requirements:

(a) Any dispensary agent whose job includes contact with cannabis or nonedible medical cannabis-infused products, including cultivation, production, or packaging, is subject to the requirements for food handlers under state law and in accordance with rules of the department of health and senior services;

(b) Any dispensary agent working in direct contact with preparation of cannabis or nonedible medical cannabis-infused products shall conform to sanitary practices while on duty, including:

a. Maintaining adequate personal cleanliness; and

b. Washing hands thoroughly in an adequate hand-washing area before starting work, and at any other time when hands may have become soiled or contaminated.

(c) Hand-washing facilities shall be adequate and convenient and shall be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the facility in production areas and where good sanitary practices require employees to wash and sanitize their hands, and shall provide effective hand cleaning and sanitizing preparations and sanitary towel service or suitable drying devices;

(d) There shall be sufficient space for placement of equipment and storage of materials as is necessary for the maintenance of sanitary operations;

(e) Litter and waste shall be properly removed, disposed of so as to minimize the development of odor, and shall minimize the potential for the waste attracting and harboring pests. The operating systems for waste disposal shall be maintained in an adequate manner;

(f) Floors, walls, and ceilings shall be constructed in such a manner that they may be adequately kept clean and in good repair;

(g) There shall be adequate safety lighting in all processing and storage areas, as well as areas where equipment or utensils are cleaned;

(h) Buildings, fixtures, and other physical facilities shall be maintained in a sanitary condition;

(i) All contact surfaces, including utensils and equipment, shall be maintained in a clean and sanitary condition. Such surfaces shall be cleaned and sanitized as frequently as necessary to protect against contamination, using a sanitizing agent registered by the United States Environmental Protection Agency (EPA), in accordance with labeled instructions. Equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable;

(j) All toxic items shall be identified, held, and stored in a manner that protects against contamination of cannabis and medical cannabis-infused products;

(k) A facility's water supply shall be sufficient for necessary operations. Any private water source shall be capable of providing a safe, potable, and adequate supply of water to meet the facility's needs;

(l) Plumbing shall be of adequate size and design, and adequately installed and maintained to carry sufficient quantities of water to required locations throughout the facility. Plumbing shall properly convey sewage and liquid disposable waste from the facility. There shall be no cross-connections between the potable and waste water lines;

(m) A facility shall provide its employees with adequate, readily accessible toilet facilities that are maintained in a sanitary condition and in good repair;

(n) Products that may support the rapid growth of undesirable microorganisms shall be held in a manner that prevents the growth of such microorganisms; and

(o) Storage and transportation of finished products shall be under conditions that shall protect them against physical, chemical, and microbial contamination as well as against deterioration of them or their container.

3. (1) A medical cannabis cultivation and production facility shall provide adequate lighting, ventilation, temperature, humidity, space, and equipment.

(2) A facility shall have separate areas for storage of cannabis that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging have been opened or breached, until such products are destroyed.

(3) Facility storage areas shall be maintained in a clean and orderly condition.

(4) Facility storage areas shall be free from infestation by insects, rodents, birds, and pests of any kind.

(5) Facility storage areas shall be maintained in accordance with the security requirements promulgated under the authority granted in sections 195.900 to 195.985.

195.960. 1. Until a medical cannabis cultivation and production facility's cultivation or production process has been validated, such facility shall not wholesale, transfer, or process into a medical cannabis concentrate or medical cannabis product any medical cannabis, medical cannabis concentrate, or medical cannabis product unless samples from the harvest batch or production batch from which such medical cannabis, medical cannabis concentrate, or medical cannabis product was derived were tested by a medical cannabis testing facility for contaminants and passed all contaminant tests required by subsection 3 of this section.

2. (1) A medical cannabis cultivation and production facility's cultivation process shall be deemed valid if every harvest batch that it produced during a twelve-week period passed all contaminant tests required by subsection 3 of this section, including at least twelve test batches that were submitted at least six days apart and contained samples from entirely different harvest batches.

(2) A facility's production process shall be deemed valid if every production batch that it produced during a four-week period passed all contaminant tests required by

subsection 3 of this section, including at least four test batches that were submitted at least six days apart which contained samples from entirely different production batches.

3. (1) Each harvest batch of medical cannabis and production batch of medical cannabis concentrate and medical cannabis product shall be tested for microbial contamination by a medical cannabis testing facility. The microbial contamination test shall include, but not be limited to, testing to determine the presence of and amounts present of salmonella sp., escherichia coli, and other bile-tolerant bacteria. Each harvest batch of medical cannabis and production batch of medical cannabis concentrate and medical cannabis product shall be tested for mold contamination by a medical cannabis testing facility. The mold contamination test shall include, but shall be limited to, testing to determine presence and the level of aspergillus sp., mucor sp., penicillium sp., and thermophilic actinomycetes sp.

(2) Each harvest batch of medical cannabis produced by a facility shall be tested for filth and other visible contamination by a medical cannabis testing facility. The filth contamination test shall include, but shall not be limited to, the detection, separation, quantification, identification, and interpretation of extraneous materials, including insects, rodent droppings, visible adulterants, and other contaminants, in medical cannabis flowers and trim.

(3) Each production batch of solvent-based medical cannabis concentrate produced by a facility shall be tested for residual solvent contamination by a medical cannabis testing facility. The residual solvent contamination test shall include, but not be limited to, testing to determine the presence of, and amounts present of, butane, propane, ethanol, isopropanol, acetone, and heptane.

4. (1) The division may require additional tests to be conducted on a harvest batch or production batch prior to a facility wholesaling, transferring, or processing into a medical cannabis concentrate or medical cannabis product any medical cannabis, medical cannabis concentrate, or medical cannabis product from such harvest batch or production batch. Additional tests may include, but not be limited to, screening for pesticides, harmful chemicals, adulterants, or other types of microbials, molds, filth, or residual solvents.

(2) (a) A production batch of medical cannabis concentrate shall be considered exempt from subdivision (1) of this subsection if the facility that produced it does not wholesale or transfer any portion of the production batch and it uses the entire production batch to manufacture medical cannabis product; except that, a solvent-based medical cannabis concentrate produced using butane, propane, ethanol, isopropanol, acetone, heptane shall still be submitted for a residual solvent contaminant test.

(b) A facility shall not be required to have residual solvent testing conducted on the product batch of a solvent-based medical cannabis concentrate if only CO2 was used during the production of the medical cannabis concentrate.

5. (1) (a) If a facility makes a material change to its cultivation or production process, such facility shall have the first five harvest batches or production batches produced using the new standard operating procedures tested for all of the contaminants required by subsection 3 of this section regardless of whether its process has been previously validated. If any such tests fail, such facility's process shall be revalidated.

(b) It shall be considered a material change if a facility begins using a new or different pesticide during its cultivation process, and the first five harvest batches produced using the new or different pesticide shall also be tested for pesticide.

(c) It shall be considered a material change if a facility begins using a new or different solvent or combination of solvents.

(d) A facility that makes a material change shall notify the medical cannabis testing facility that conducts contaminant testing on the first five harvest batches or production batches produced using the new standard operating procedures.

(e) When a harvest batch or production batch is required to be submitted for testing under this subsection, the facility that produced it shall not wholesale, transfer, or process into a medical cannabis concentrate or medical cannabis product any of the medical cannabis, medical cannabis concentrate, or medical cannabis product from such harvest batch or production batch.

(2) If six of the ten most recently tested test batches produced by a facility fail contaminant testing, the facility shall be required to revalidate its process.

6. Notwithstanding any other provision of state law, sales of medical cannabis-infused products shall not be exempt from state or local sales tax.

195.961.1. A tax is hereby levied and imposed upon the retail sale of cannabis for medical use sold at medical cannabis centers within the state. The tax shall be equivalent to two percent of the retail price. The purpose and intent of the tax is to impose a tax upon the privilege of engaging in the business, in this state, of selling medical cannabis. The primary tax burden is placed on making taxable sales of medical cannabis. All sellers of medical cannabis shall be required to report to the director of revenue, on such forms and in such manner as the director of revenue shall prescribe. Their "gross receipts from the sale of medical cannabis," defined to mean the aggregate amount of the sales price of all sales at retail of medical cannabis, and remit to the director of revenue two percent of their gross receipts from the sales of medical cannabis.

2. After retaining no more than five percent for its actual collection costs, one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Missouri Veterans' Health and Care Fund, one-half percent of the amount generated by the tax imposed in this section will be deposited by the department of revenue into the Missouri Public Safety Fund, one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Missouri Drug Treatment Fund, and one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Early Childhood Development,

Education and Care Fund created by section 161.125. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(1) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of certain taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veteran's Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(2) There is hereby created in the state treasury the "Missouri Public Safety Fund", which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be allocated evenly to all police departments, fire protection districts, and fire departments in the State of Missouri that have medical cannabis centers or medical cannabis cultivation and production facilities within their geographic boundaries.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) There is hereby created in the state treasury the "Missouri Drug Treatment Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be allocated evenly to all Missouri Drug Treatment Centers that are funded by the State of Missouri.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(4) The department of revenue shall have the authority to establish, revise, and amend rules as necessary to carry into effect the tax imposed by this section and to issue all forms, instructions and other documents necessary for the collection of the tax.

3. The provisions of sections 144.010 through 144.527 shall apply to the administration of the tax imposed by this section.

195.963. 1. (1) There is hereby created in the state treasury the "Medical Cannabis License Cash Fund," which shall consist of all moneys collected by the division under sections

195.900 to 195.985. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of sections 195.900 to 195.985.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

(3) The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

(4) There is hereby created the "Medical Cannabis Program Account" as an account within the medical cannabis license cash fund. The account shall consist of all moneys collected by the department of health and senior services under section 195.981. The account shall be a dedicated account and, upon appropriation, moneys in the account shall be used solely for the administration of section 195.981.

2. (1) The division shall require all applicants for initial state licenses under sections 195.900 to 195.985 to submit a nonrefundable application fee of twelve thousand five hundred dollars for a medical cannabis center license, and twelve thousand five hundred dollars for a medical cannabis cultivation and production facility license. The division shall require all applicants for initial state licenses under sections 195.900 to 195.985 to submit an annual license fee of twelve thousand five hundred dollars for a medical cannabis center license, and twelve thousand five thousand dollars for a cultivation and production facility license. All applications submitted shall be accompanied by all applicable state license and application fees. Any applications which are later denied or withdrawn may allow for a refund of license fees only. All application fees provided by an applicant shall be retained by the division.

(2) The division shall establish all other fees for processing the following types of applications, licenses, notices, or reports required to be submitted to the state licensing authority:

(a) Applications to change location under subsection 13 of section 195.936 and rules promulgated thereunder;

(b) Applications for transfer of ownership under section 195.933 and rules promulgated thereunder;

(c) License renewal fees, application fees for renewals, and expired license renewal applications under section 195.939; and

(d) Licenses as listed in section 195.948.

(3) The amounts of the fees under subdivisions (1) and (2) of this subsection, when added to the other fees transferred to the fund under this section, shall reflect the actual direct and

indirect costs of the division in the administration and enforcement of sections 195.900 to 195.985.

(4) The division may charge applicants licensed under sections 195.900 to 195.985 a fee for the cost of each fingerprint analysis and background investigation undertaken to qualify new officers, directors, managers, or employees.

(5) At least annually, the division shall review the amounts of the fees and, if necessary, adjust the amounts to reflect the direct and indirect costs of the division.

3. Except as provided in subsection 4 of this section, the division shall establish a basic fee that shall be paid at the time of service of any subpoena upon the division, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the division for each day of attendance to cover the expenses of the person named in the subpoena.

4. The subpoena fee established under subsection 3 of this section shall not be applicable to any federal, state, or local governmental agency.

195.966. 1. Except as otherwise provided, all fees and fines provided for by sections 195.900 to 195.985 shall be paid to the division, which shall transmit the fees to the state treasurer. The state treasurer shall credit the fees to the medical cannabis license cash fund created in section 195.963.

2. The expenditures of the division shall be paid out of appropriations from the medical cannabis license cash fund created in section 195.963.

195.969. 1. Each application for a local license provided for in sections 195.900 to 195.985 filed with a local licensing authority shall be accompanied by an application fee and a license fee in an amount determined by the local licensing authority not to exceed ten percent of the state application fee and license fee.

2. License fees as determined by the local licensing authority shall be paid to the treasurer of the municipality or county where the licensed premises is located in advance of the approval, denial, or renewal of the license.

195.972. 1. In addition to any other sanctions prescribed by sections 195.900 to 195.985 or rules promulgated under sections 195.900 to 195.985, the division or a local licensing authority has the power, on its own motion or on complaint, after investigation and opportunity for a public hearing at which the licensee shall be afforded an opportunity to be heard, to suspend or revoke a license issued by the respective authority for a violation by the licensee or by any of the agents or employees of the licensee of the provisions of sections 195.900 to 195.985, or any of the rules promulgated under sections 195.900 to 195.985, or of any of the terms, conditions, or provisions of the license issued by the division or local

licensing authority. The division or a local licensing authority has the power to administer oaths and issue subpoenas to require the presence of persons and the production of papers, books, and records necessary to the determination of a hearing that the division or local licensing authority is authorized to conduct.

2. The division or local licensing authority shall provide notice of suspension, revocation, fine, or other sanction, as well as the required notice of the hearing under subsection 1 of this section by mailing the same in writing to the licensee at the address contained in the license. Except in the case of a summary suspension under section 195.984, a suspension shall not be for a longer period than six months. If a license is suspended or revoked, a part of the fees paid therefore shall not be returned to the licensee. Any license or permit may be summarily suspended by the issuing licensing authority without notice, pending any prosecution, investigation, or public hearing under the terms of section 195.984. Nothing in this section shall prevent the summary suspension of a license under section 195.984.

3. (1) Whenever a decision of the division or a local licensing authority suspending a license for fourteen days or less becomes final, the licensee may, before the operative date of the suspension, petition for permission to pay a fine in lieu of having the license suspended for all or part of the suspension period. Upon the receipt of the petition, the division or local licensing authority may, in its sole discretion, stay the proposed suspension and cause any investigation to be made which it deems desirable and may, in its sole discretion, grant the petition if the division or local licensing authority is satisfied that:

(a) The public welfare and morals shall not be impaired by permitting the licensee to operate during the period set for suspension and that the payment of the fine shall achieve the desired disciplinary purposes;

(b) The books and records of the licensee are kept in such a manner that the loss of sales that the licensee would have suffered had the suspension gone into effect may be determined with reasonable accuracy; and

(c) The licensee has not had his or her license suspended or revoked, nor had any suspension stayed by payment of a fine, during the two years immediately preceding the date of the motion or complaint that resulted in a final decision to suspend the license or permit.

(2) The fine accepted shall be not less than five hundred dollars nor more than one hundred thousand dollars.

(3) Payment of a fine under the provisions of this subsection shall be in the form of cash or in the form of a certified check or cashier's check made payable to the division or local licensing authority, whichever is appropriate.

4. Upon payment of the fine under subsection 3 of this section, the division or local licensing authority shall enter its further order permanently staying the imposition of the suspension. If the fine is paid to a local licensing authority, the governing body of the authority

shall cause the moneys to be paid into the general fund of the local licensing authority. Fines paid to the division under subsection 3 of this section shall be transmitted to the state treasurer who shall credit the same to the medical cannabis license cash fund created in section 195.963.

5. In connection with a petition under subsection 3 of this section, the authority of the division or local licensing authority is limited to the granting of such stays as are necessary for the authority to complete its investigation and make its findings and, if the authority makes such findings, to the granting of an order permanently staying the imposition of the entire suspension or that portion of the suspension not otherwise conditionally stayed.

6. If the division or local licensing authority does not make the findings required in subdivision (1) of subsection 3 of this section and does not order the suspension permanently stayed, the suspension shall go into effect on the operative date finally set by the division or local licensing authority.

7. Each local licensing authority shall report all actions taken to impose fines, suspensions, and revocations to the division in a manner required by the division. No later than January fifteenth of each year, the division shall compile a report of the preceding year's actions in which fines, suspensions, or revocations were imposed by local licensing authorities and by the division. The division shall file one copy of the report with the chief clerk of the house of representatives, one copy with the secretary of the senate, and six copies in the legislative library.

195.975. 1. Each licensee shall keep a complete set of all records necessary to show fully the business transactions of the licensee, all of which shall be open at all times during business hours for the inspection and examination of the division or its duly authorized representatives. The division may require any licensee to furnish such information as it considers necessary for the proper administration of this section and may require an audit to be made of the books of account and records on such occasions as it may consider necessary by an auditor to be selected by the division who shall likewise have access to all books and records of the licensee, and the expense thereof shall be paid by the licensee.

2. The licensed premises, including any places of storage where medical cannabis is grown, stored, cultivated, sold, or dispensed, shall be subject to inspection by the division or local licensing authorities and their investigators, during all business hours and other times of apparent activity, for the purpose of inspection or investigation. For examination of any inventory or books and records required to be kept by the licensees, access shall be required during business hours. Where any part of the licensed premises consists of a locked area, upon demand to the licensee, such area shall be made available for inspection without delay, and, upon request by authorized representatives of the division or local licensing authority, the licensee shall open the area for inspection.

3. Each licensee shall retain all books and records necessary to show fully the business transactions of the licensee for a period of the current tax year and the three immediately prior tax years.

195.978. 1. Except as otherwise provided in sections 195.900 to 195.985, it is unlawful for a person:

(1) To consume medical cannabis in a licensed medical cannabis center, and it shall be unlawful for a medical cannabis licensee to allow medical cannabis to be consumed upon its licensed premises;

(2) With knowledge, to permit or fail to prevent the use of such person's registry identification by any other person for the unlawful purchasing of medical cannabis; or

(3) To buy, sell, transfer, give away, or acquire medical cannabis, except as allowed under sections 195.900 to 195.985.

2. It is unlawful for a person licensed under sections 195.900 to 195.985:

(1) To be within a limited-access area unless the person's license badge is displayed as required by sections 195.900 to 195.985;

(2) To fail to designate areas of ingress and egress for limited-access areas and post signs in conspicuous locations as required by sections 195.900 to 195.985;

(3) To fail to report a transfer required by section 195.933; or

(4) To fail to report the name of or a change in managers as required by section 195.936.

3. It is unlawful for any person licensed to sell medical cannabis under sections 195.900 to 195.985:

(1) To sell more than two and one-half ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a sales transaction to a qualifying patient;

(2) To display any signs that are inconsistent with local laws or regulations;

(3) To use advertising material that is misleading, deceptive, or false, or that is designed to appeal to minors;

(4)(a) To sell medical cannabis to a person not licensed under sections 195.900 to 195.985 or to a person not able to produce a valid patient registry identification card. Notwithstanding any provision in this paragraph to the contrary, a person under twenty-one years of age shall not be employed to sell or dispense medical cannabis at a medical cannabis center or grow or cultivate medical cannabis at a medical cannabis cultivation and production facility;

(b) If a licensee or a licensee's employee has reasonable cause to believe that a person is exhibiting a fraudulent patient registry identification card in an attempt to obtain

medical cannabis, the licensee or employee shall be authorized to confiscate the fraudulent patient registry identification card, if possible, and shall, within seventy-two hours after the confiscation, turn it over to the department of health and senior services or local law enforcement agency. The failure to confiscate the fraudulent patient registry identification card or to turn it over to the department or a state or local law enforcement agency within seventy-two hours after the confiscation shall not constitute a criminal offense;

(5) To offer for sale or solicit an order for medical cannabis in person except within the licensed premises;

(6) To have in possession or upon the licensed premises any medical cannabis, the sale of which is not permitted by the license;

(7) To buy medical cannabis from a person not licensed to sell as provided by sections 195.900 to 195.985;

(8) To sell medical cannabis except in the permanent location specifically designated in the license for sale;

(9) To require a medical cannabis center or medical cannabis cultivation and production facility to make delivery to any premises other than the specific licensed premises where the medical cannabis is to be sold, except as otherwise provided under sections 195.900 to 195.985; or

(10) To sell, serve, or distribute medical cannabis at any time other than between the hours of 8:00 a.m. and 7:00 p.m. Monday through Sunday.

4. Except as otherwise provided in sections 195.900 to 195.985, it is unlawful for:

(1) A medical cannabis center or medical cannabis cultivation and production facility to sell, deliver, or cause to be delivered to a licensee any medical cannabis not grown upon its licensed premises; or

(2) A medical cannabis center or medical cannabis cultivation and production facility to sell, possess, or permit sale of medical cannabis not grown upon its licensed premises. A violation of this subsection by a licensee shall be grounds for the immediate revocation of the license granted under sections 195.900 to 195.985.

5. It shall be unlawful for a physician who makes patient referrals to a licensed medical cannabis center to receive anything of value from the medical cannabis center licensee or its agents, servants, officers, or owners or anyone financially interested in the licensee, and it shall be unlawful for a licensee licensed under sections 195.900 to 195.985 to offer anything of value to a physician for making patient referrals to the licensed medical cannabis center.

6. A person who commits any acts that are unlawful under this section is guilty of a class A misdemeanor.

195.981.1. As used in this section, the following terms shall mean:

(1) "Bona fide physician-patient relationship", for purposes of the medical cannabis program:

(a) A physician and a patient have a treatment or counseling relationship, in the course of which the physician has completed a full assessment of the patient's medical history and current medical condition, including an appropriate personal physical examination;

(b) The physician has consulted with the patient with respect to the patient's qualifying medical condition before the patient applies for a registry identification card; and

(c) The physician is available to or offers to provide follow-up care and treatment to the patient, including, but not limited to, patient examinations, to determine the efficacy of the use of medical cannabis as a treatment of the patient's qualifying medical condition.

(2) "Department", the department of health and senior services.

(3) "Director", the director of the department of health and senior services.

(4) "In good standing", with respect to a physician's license:

(a) The physician holds a doctor of medicine or doctor of osteopathic medicine degree from an accredited medical school;

(b) The physician holds a valid license to practice medicine in Missouri that does not contain a restriction or condition that prohibits the recommendation of medical cannabis; and

(c) The physician has a valid and unrestricted United States Department of Justice Federal Drug Enforcement Administration controlled substances registration.

(5) "Medical cannabis program", the program established under sections 195.900 to 195.985.

(6) "Nonresident cardholder", a person who: (1) has been diagnosed with a qualifying medical condition, or is the parent, guardian, conservator, or other person with authority to consent to the medical treatment of a person who has been diagnosed with a qualifying medical condition; (2) is not a resident of Missouri; (3) was issued a currently valid registry identification card or its equivalent under the laws of another state, district, territory, commonwealth, insular possession of the United States, or country recognized by the United States that allows the person to use cannabis for medical purposes in the jurisdiction of issuance; and (4) has submitted documentation required by the department and has received confirmation of registration.

(7) "Caregiver", the same meaning as such term is defined in section 195.900.

(8) "Registry identification card", the nontransferable confidential registry identification card issued by the department to patients and caregivers under this section.

2. The department of health and senior services shall establish, revise, and amend rules and regulations as follows:

(1) To ensure that patients suffering from qualifying medical conditions are able to safely gain access to medical cannabis and to ensure that such patients:

(a) Are not subject to criminal prosecution for their use of medical cannabis in accordance with this section, and the rules of the department; and

(b) Are able to establish an affirmative defense to their use of medical cannabis in accordance with this section, and the rules of the department.

(2) To prevent persons who do not suffer from qualifying medical conditions from using this section as a means to sell, acquire, possess, produce, use, or transport cannabis in violation of state and federal laws;

(3) The establishment and maintenance of a confidential registry of patients who have applied for and are entitled to receive a registry identification card;

(4) The development by the department of an application form and making such form available to residents of this state seeking to be listed on the confidential registry of patients who are entitled to receive a registry identification card;

(5) The verification by the department of medical information concerning patients who have applied for a confidential registry card or for renewal of a registry identification card;

(6) The development by the department of a written certification form that shall be used by a physician to certify that a patient has a qualifying medical condition;

(7) The conditions for issuance and renewal, and the form, of the registry identification cards issued to patients, including, but not limited to, standards for ensuring that the department issues a registry identification card to a patient only if such patient has a bona fide physician-patient relationship with a physician in good standing and licensed to practice medicine in the state of Missouri;

(8) Communications with law enforcement officials about registry identification cards that have been suspended when a patient is no longer diagnosed as having a qualifying medical condition;

(9) A waiver process to allow a homebound patient who is on the registry to have a caregiver transport the patient's medical cannabis from a licensed medical cannabis center to the patient; and

(10) To regulate and control the manufacturing of medical cannabis-infused products.

3. The department shall conduct a public review hearing to receive public input on any emergency rules adopted by the department and be provided with an update from the industry, caregivers, patients, and other stakeholders regarding the industry's current status. The department shall provide at least five business days' notice prior to the hearing.

4. Within one hundred eighty days of the effective date of this section, the department shall make available to the public application forms and application instructions for qualifying patient and caregiver identification cards. Within two hundred ten days of the effective date of this section, the department shall begin accepting applications for qualifying patient and caregiver identification cards.

5. A physician who certifies a qualifying medical condition for an applicant to the medical cannabis program shall comply with all of the following requirements:

(1) The physician shall have a valid and active license to practice medicine in this state, which license is in good standing;

(2) After a physician, who has a bona fide physician-patient relationship with the patient, determines that the patient has a qualifying medical condition, the physician shall certify to the department that the patient has a qualifying medical condition after the physician has completed an assessment of the qualifying patient's medical history, reviewed relevant records related to the patient's qualifying medical condition, and conducted a physical examination. The physician shall specify the qualifying medical condition and, if known, the cause or source of the qualifying medical condition;

(3) The physician shall maintain a record-keeping system for all patients for whom the physician has determined have a qualifying medical condition;

(4) A physician shall not:

(a) Accept, solicit, or offer any form of pecuniary remuneration from or to a caregiver, distributor, or any other provider of medical cannabis;

(b) Offer a discount or any other thing of value to a patient who uses or agrees to use a particular caregiver, distributor, or other provider of medical cannabis to procure medical cannabis;

(c) Examine a patient for purposes of diagnosing a qualifying medical condition at a location where medical cannabis is sold or distributed;

(d) Hold an economic interest in an enterprise that provides or distributes medical cannabis if the physician certifies the qualifying medical condition of a patient for participation in the medical cannabis program; or

(e) Issue a certification for the medical use of cannabis for a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient registry identification card on behalf of a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such registry identification card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as caregiver for a non-emancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical cannabis for a non-emancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical cannabis to a non-emancipated qualifying patient under the age of eighteen.

(5) If the department has reasonable cause to believe that a physician has violated subdivision (1), (2), or (3) of subsection 4 of this section, or the rules promulgated by the department, the department may refer the matter to the state board of registration for the healing arts.

6. (1) A caregiver shall not delegate to any other person his or her authority to provide medical cannabis to a patient nor may a caregiver engage others to assist in providing medical cannabis to a patient.

(2) A caregiver shall not cultivate cannabis. Only a medical cannabis cultivation and production facility may cultivate cannabis and only for medical use.

(3) A caregiver shall provide to a law enforcement agency, upon inquiry, the registry identification card number of each of his or her patients. The department shall maintain a registry of such information and make it available twenty-four hours per day and seven days a week to law enforcement for verification purposes.

7. A registered patient or caregiver shall not:

(1) Purchase medical cannabis from unauthorized sources; or

(2) Obtain medical cannabis from other registered patients or caregivers.

8. (1) To be considered in compliance with this section and the rules of the department, a patient or caregiver shall have his or her registry identification card in his or her possession at all times that he or she is in possession of any form of medical cannabis and produce the same upon request of a law enforcement officer to demonstrate that the patient or caregiver is not in violation of the law. A person who violates this section or the rules promulgated by the department may be subject to criminal prosecution.

(2) The department shall maintain a registry of such information and make available twenty-four hours a day and seven days a week to law enforcement for verification purposes. Authorized employees of state or local law enforcement agencies shall be granted access to the information contained within the state health agency's confidential registry only for the purpose

of verifying that an individual who has presented a registry identification card to a state or local law enforcement official is lawfully in possession of such card. The department may promulgate rules to implement this subsection.

(3) The department may deny a patient's application for a registry identification card or revoke the card if the department determines that the physician who diagnosed the patient's qualifying medical condition, the patient, or the caregiver violated this section, or the rules promulgated by the department under this section; except that, when a physician's violation is the basis for adverse action, the department may only deny or revoke a patient's application or registry identification card when the physician's violation is related to the issuance of a medical cannabis recommendation.

(4) A registry identification card shall be valid for one year and shall contain a unique identification number. It shall be the responsibility of the patient to apply to renew his or her registry identification card prior to the date on which the card expires. The department shall develop a form for a patient to use in renewing his or her registry identification card.

(5) If the department grants a patient a waiver to allow a caregiver to transport the patient's medical cannabis from a medical cannabis center to the patient, the department shall designate the waiver on the patient's registry identification card.

(6) A homebound patient who receives a waiver from the department to allow a caregiver to transport the patient's medical cannabis to the patient from a medical cannabis center shall provide the caregiver with the patient's registry identification card, which the caregiver shall carry when the caregiver is transporting the medical cannabis. A medical cannabis center may provide the medical cannabis to the caregiver for transport to the patient if the caregiver produces the patient's registry identification card.

9. (1) The State of Missouri and the medical cannabis centers in this State which hold valid medical cannabis center licenses will recognize a nonresident card under the following circumstances:

(a) The state or jurisdiction from which the holder or bearer obtained the nonresident card grants an exemption from criminal prosecution for the medical use of cannabis;

(b) The state or jurisdiction from which the holder or bearer obtained the nonresident card requires, as a prerequisite to the issuance of such a card, that a physician advise the person that the person has a qualifying medical condition recognized by the state of Missouri;

(c) The nonresident card has an expiration date and has not yet expired;

(d) The state or jurisdiction from which the holder or bearer obtained the nonresident card maintains a database which preserves such information as may be necessary to verify the authenticity or validity of the nonresident card;

(e) The state or jurisdiction from which the holder or bearer obtained the nonresident card allows the division and medical cannabis centers in this State to access the database described in paragraph (d);

(f) The division determines that the database described in paragraph (d) is able to provide to medical cannabis centers in this State information that is sufficiently accurate, current and specific as to allow those centers to verify that a person who holds or bears a nonresident card is entitled lawfully to do so; and

(g) The holder or bearer of the nonresident card agrees to abide by, and does abide by, the legal limits on the possession of cannabis for medical purposes in this State, as set forth in 195.900.3(1).

(2) For the purposes of the reciprocity described in this section:

(a) The amount of medical cannabis that the holder or bearer of a nonresident card is entitled to possess in his or her state or jurisdiction of residence is irrelevant; and

(b) Under no circumstances, while in this State, may the holder or bearer of a nonresident card possess cannabis for medical purposes in excess of the limits set forth in 195.900.3(1).

(3) As used in this section, "nonresident card" means a card or other identification that:

(a) Is issued by a state or jurisdiction other than Missouri; and

(b) Is the functional equivalent of a registry identification card or letter of approval, as determined by the division.

10. (1) The use of medical cannabis is allowed under state law to the extent that it is carried out in accordance with sections 195.900 to 195.985 and the rules of the department.

(2) A patient or caregiver shall not:

(a) Engage in the medical use of cannabis in a way that endangers the health and well-being of a person;

(b) Engage in the medical use of cannabis in plain view or in a place open to the general public;

(c) Undertake any task while under the influence of medical cannabis, when doing so would constitute negligence or professional malpractice;

(d) Possess medical cannabis or otherwise engage in the use of medical cannabis in or on the grounds of a school or in a school bus;

(e) Engage in the use of medical cannabis while:

a. In a correctional facility;
b. Subject to a sentence to incarceration; or
c. In a vehicle, aircraft, or motorboat.

(f) Operate, navigate, or be in actual physical control of any vehicle, aircraft, or motorboat while under the influence of medical cannabis; or

(g) Use medical cannabis if the person does not have a qualifying medical condition as diagnosed by the person's physician in the course of a bona fide physician-patient relationship that has been certified to the department.

(3) A person shall not establish a business to permit patients to congregate and smoke medical cannabis.

11. Only licensed medical cannabis cultivation and production facilities may cultivate medical cannabis.

12. If a patient raises an affirmative defense to prosecution under sections 195.900 to 195.985, the patient's physician shall certify the specific amounts in excess of an adequate supply that are necessary to address the patient's qualifying medical condition and why such amounts are necessary. A patient who asserts this affirmative defense shall waive confidentiality privileges related to the condition or conditions. If a patient, caregiver, or physician raises an exception to the state criminal laws, the patient, caregiver, or physician waives the confidentiality of his or her records related to the qualifying medical condition or conditions maintained by the department for the medical cannabis program. Upon request of a law enforcement agency for such records, the department shall only provide records pertaining to the individual raising the exception, and shall redact all other patient, caregiver, or physician identifying information.

13. (1) Except as provided in subdivision (2) of this subsection, the department shall establish a basic fee that shall be paid at the time of service of any subpoena upon the department, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the department for each day of attendance to cover the expenses of the person named in the subpoena.

(2) The subpoena fee established under subdivision (1) of the subsection shall not be applicable to any federal, state, or local governmental agency.

14. The department may collect fees from patients who apply to the medical cannabis program for a cannabis registry identification card for the purpose of offsetting the department's direct and indirect costs of administering the program. The amount of such

fees shall be set by rule of the department. The amount of the fees set under this section shall reflect the actual direct and indirect costs of the department in the administration and enforcement of this section. All fees collected by the department through the medical cannabis program shall be transferred to the state treasurer who shall credit the same to the medical cannabis program account within the medical cannabis license cash fund created in section 195.963.

195.982. 1. No individual or health care entity organized under the laws of this state shall be subject to any adverse action by the state or any agency, board, or subdivision thereof, including civil or criminal prosecution, denial of any right or privilege, the imposition of a civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission if such individual or employee or agent of the health care facility, in its normal course of business and within its applicable licenses and regulations, certifies a qualifying medical condition for an applicant to the medical cannabis program under sections 195.900 to 195.985.

2. A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

3. A health care provider shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing health care services that involve the medical use of cannabis consistent with this section and legal standards of professional conduct.

4. A testing laboratory shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

5. A caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering cannabis for medical use by a qualifying patient under the provisions of sections 195.900 to 195.985.

6. An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for providing legal assistance to prospective or licensed medical cannabis cultivation and productive facilities, medical cannabis centers, medical cannabis testing facilities, qualifying patients, caregivers, physicians, health care providers, or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

7. Actions and conduct by duly registered or licensed qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, and medical

cannabis testing facilities or their employees or agents, as permitted by this section and in compliance with division and department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

8. Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

9. It is the public policy of the state of Missouri that contracts related to cannabis for medical use that are entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, or medical cannabis testing facilities and those who allow property to be used by those entities, shall be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, medical cannabis testing facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical cannabis may be prohibited by federal law.

10. Real property used in the cultivation, manufacture, testing, distribution, sale, possession and administration of cannabis for medical use shall not be subject to asset forfeiture solely because of that use.

195.984.1. (1) The division of alcohol and tobacco control may summarily suspend a license issued under sections 195.900 to 195.985 prior to a hearing in order immediately to stop or restrict operations by a licensee to protect the public health, safety, or welfare. The division may rescind or amend a summary suspension.

(2) If, based upon inspection, affidavits, or other evidence, the division determines that a licensee or the products prepared by a licensee pose an immediate or serious threat to the public health, safety, or welfare, the division may summarily suspend a license:

(a) Requiring cessation or restriction of any or all licensee operations and prohibiting the use of medical cannabis produced by such licensee; or

(b) Placing restrictions on a licensee to the extent necessary to avert a continued threat, pending final investigation results.

(3) The requirements of the summary suspension shall remain in effect until the division rescinds or amends such requirements or until such time as the division takes final action on any related pending complaint and issues a final decision.

2. The department of health and senior services may summarily suspend any registration issued under section 195.981, pending further proceedings for denial of renewal or revocation of a registration, whenever the department finds that the continued registration poses an imminent danger to the public health, safety, or welfare.

195.985. 1. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in sections 195.900 to 195.985 shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. Sections 195.900 to 195.985 and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after November 6, 2018, shall be invalid and void.

2. If any provision of sections 195.900 to 195.985 or its application to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of sections 195.900 to 195.985 which can be given full effect without the invalid provision or application, and to this end the provisions of sections 195.900 to 195.985 are severable.

263.250. 1. The plant "marijuana", botanically known as cannabis sativa, is hereby declared to be a noxious weed and all owners and occupiers of land shall destroy all such plants growing upon their land. Any person who knowingly allows such plants to grow on his land or refuses to destroy such plants after being notified to do so shall allow any sheriff or such other persons as designated by the county commission to enter upon any land in this state and destroy such plants.

2. Entry to such lands shall not be made, by any sheriff or other designated person to destroy such plants, until fifteen days' notice by certified mail shall be given the owner or occupant to destroy such plants or a search warrant shall be issued on probable cause shown. In all such instances, the county commission shall bear the cost of destruction and notification.

3. The provisions of this section shall not apply to the authorized cultivation and production of cannabis plants for purposes of providing medical cannabis under sections 195.900 to 195.985.

311.610. 1. For the purpose of carrying out the provisions of this chapter [and], the liquor control law, and sections 195.900 to 195.985 the governor, by and with the advice and consent of the senate, shall appoint some suitable person of good moral character over the age of thirty years, who has been a qualified elector in the state of Missouri for at least five years next before the date of his appointment, as supervisor of liquor control. The supervisor of liquor control shall serve at the pleasure and under the supervision and direction of the governor.

2. The supervisor of liquor control shall devote his entire time to the duties of his office and, with the approval of the governor, appoint and employ all agents, assistants, deputies, inspectors and employees necessary for the proper enforcement and administration of the provisions of the liquor control law whose salaries shall be fixed by the governor, but no salary shall be greater than that paid to employees in other state departments for similar work, except that no salary of an agent directly engaged in the enforcement of the liquor control law shall be less than eight thousand dollars a year. In addition to his salary, the supervisor of liquor control and each of the agents, assistants, deputies, inspectors and employees shall be reimbursed for all

expenses necessarily incurred in the discharge of their duties. No expenses shall be allowed for sustenance to any supervisor, agent, assistant, deputy, inspector or employee while in the city or town of his residence.

3. Before entering upon the discharge of his duties, the supervisor of liquor control shall take and subscribe to an oath to support the Constitution of the United States and of this state, and faithfully demean himself in office, and shall also execute bond to the state of Missouri in the penal sum of ten thousand dollars, conditioned for the faithful performance of the duties of his office, which bond shall be approved by the governor and deposited with the secretary of state and kept in his office; the premiums of the bond shall be paid by the state out of funds appropriated for that purpose.

4. The supervisor of liquor control shall issue licenses for the manufacture and sale of ardent spirits, malt, vinous, fermented and every class of liquors used as beverages. The supervisor of liquor control shall keep a record of all intoxicating liquor manufactured, brewed or sold in this state by every brewery, distiller, manufacturer, distributor or wholesaler, and make a complete report of the same to the governor at the end of each calendar year, or as soon thereafter as possible.

311.620. 1. No person shall be appointed as agent, assistant, deputy or inspector under the provisions of the liquor control law <u>or the Missouri Patient Care Act</u> who shall have been convicted of or against whom any indictment may be pending for any offense; nor shall any person be appointed as such agent, assistant, deputy or inspector who is not of good character or who is not a citizen of the United States, and who is not or has not been a resident taxpaying citizen of the state for a period of three years previous to his appointment; or who is not able to read and write the English language or who does not possess ordinary physical strength and who is not able to pass such physical and mental examination as the majority of a board, consisting of the governor, lieutenant governor, attorney general, and the supervisor of liquor control may prescribe.

2. No agent, assistant, deputy or inspector so appointed shall hold any other commission or office, elective or appointive or accept any other employment compensation while he is an employee of the department of liquor control, except with the written permission of the supervisor of liquor control. No agent, assistant, deputy or inspector of the department of liquor control shall accept any reward or gift other than his regular salary and expenses as provided in this chapter. No agent, assistant, deputy or inspector of the department of liquor control shall perform any police duty connected with the conduct of any election, nor at any time or in any manner electioneer for or against any party ticket, or any candidate for nomination or office on any party ticket, nor for or against any proposition of any kind or nature to be voted upon at any election.

3. The agents, assistants, deputies and inspectors appointed under the provisions of section 311.610 shall before entering upon the discharge of their duties, each take and subscribe an oath to support the Constitution and laws of the United States and the State of Missouri and to faithfully demean themselves in office in the form prescribed by Section 11, Article VII of the Constitution of this State, and they shall each give bond to be approved by the supervisor of liquor control for faithful performance of the duties of their respective offices and to safely keep

and account for all moneys and property received by them. This bond shall be in the sum of five thousand dollars, and the cost of furnishing all such bonds shall be paid by the state.

4. Any agent, assistant, deputy or inspector of the department of liquor control who shall violate the provisions of this chapter shall be immediately discharged.

311.630. 1. The supervisor of alcohol and tobacco control and employees to be selected and designated as peace officers by the supervisor of alcohol and tobacco control are hereby declared to be peace officers of the state of Missouri, with full power and authority to make arrests and searches and seizures only for violations of the provisions of this chapter relating to intoxicating liquors, [and] sections 407.924 to 407.934 relating to tobacco products, and sections 195.900 to 195.985 and to serve any process connected with the enforcement of such laws. The peace officers so designated shall have been previously appointed and qualified under the provisions of section 311.620 and shall be required to hold a valid peace officer license pursuant to chapter 590.

2. The supervisor of alcohol and tobacco control shall furnish such peace officers with credentials showing their authority and a special badge, which they shall carry on their person at all times while on duty. The names of the peace officers so designated shall be made a matter of public record in the office of the supervisor of alcohol and tobacco control.

3. All fees for the arrest and transportation of persons arrested and for the service of writs and process shall be the same as provided by law in criminal proceedings and shall be taxed as costs.

311.660. 1. The supervisor of liquor control shall have the authority to suspend or revoke for cause all such licenses; and to make the following regulations, without limiting the generality of provisions empowering the supervisor of liquor control as in this chapter set forth as to the following matters, acts and things:

(1) Fix and determine the nature, form and capacity of all packages used for containing intoxicating liquor of any kind, to be kept or sold under this law;

(2) Prescribe an official seal and label and determine the manner in which such seal or label shall be attached to every package of intoxicating liquor so sold under this law; this includes prescribing different official seals or different labels for the different classes, varieties or brands of intoxicating liquor;

(3) Prescribe all forms, applications and licenses and such other forms as are necessary to carry out the provisions of this chapter, except that when a licensee substantially complies with all requirements for the renewal of a license by the date on which the application for renewal is due, such licensee shall be permitted at least an additional ten days from the date notice is sent that the application is deficient, in which to complete the application;

(4) Prescribe the terms and conditions of the licenses issued and granted under this law;

(5) Prescribe the nature of the proof to be furnished and conditions to be observed in the issuance of duplicate licenses, in lieu of those lost or destroyed;

(6) Establish rules and regulations for the conduct of the business carried on by each specific licensee under the license, and such rules and regulations if not obeyed by every licensee shall be grounds for the revocation or suspension of the license;

(7) The right to examine books, records and papers of each licensee and to hear and determine complaints against any licensee;

(8) To issue subpoenas and all necessary processes and require the production of papers, to administer oaths and to take testimony;

(9) Prescribe all forms of labels to be affixed to all packages containing intoxicating liquor of any kind; and

(10) To make such other rules and regulations as are necessary and feasible for carrying out the provisions of this chapter, as are not inconsistent with this law.

2. The supervisor of liquor control shall have the authority to regulate and control the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state; to grant or refuse state licenses for the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of sections 195.900 to 195.985, or a rule promulgated under sections 195.900 to 195.985; to impose any penalty authorized by sections 195.900 to 195.985, or any rule promulgated under sections 195.900 to 195.985; and to establish, revise, and amend rules and regulations as necessary to carry into effect the provisions of sections 195.900 to 195.985 as set forth in section 195.906.

Missouri Constitution Article VIII Suffrage and Elections is amended by adding one new section to be known as section 24, to read as follows:

The People of Missouri recommend a federal Constitutional Convention that will allow for national votes on the federal level. The People of Missouri support and recommenced to the President, Congress, and to the other states of the United States that a Constitutional Convention be held as soon as possible to address: approval of a process to attain minimal signatures (1%), of people in all states to place issues on the national ballot. Examples of possible national ballot issues could be: term limits on federal elected office, campaign finance limits, limits on time allowed to campaign for elective offices, a balanced budget amendment be added to the federal constitution and review and audits of the judicial system concerning what they were set up for by the Founding Fathers which is to protect the individual Liberties and Rights of the people.

MO. SECRETARY OF STATE

to declare Missouri Statutes 544.455.1, 217.541.1, 217.543.1, 557.011.1, 577.001.1, 217.690.1, 221.025.1, 558.002.1, unconstitutional as stated in Constitution of the United States Amendment VII, Amendment VIII for the convicted persons and for nonconvicted to remove the illegally electronic monitor by private bail/bond companies which are listed in statute 374.700.1., Which are Unconstitutional as stated in Constitution of the United States Amendment I, Amendment IV, Amendment V, Amendment VII, Amendment VIII, Amendment XIV, and Missouri Constitution Article I BILL OF RIGHTS Section 1, Section 2, Section 8, Section 9, Section 10.

used to put people not convicted of a crime violates the persons constitutional rights **Constitution of the United States Amendment I** Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances. **Amendment V** No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation. **Amendment VII** In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any court of the United States, than according to the rules of the common law. **Amendment VIII** Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted. **Amendment IV** The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized. **Amendment XIV** Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. It also violates some of **the Missouri Constitution Article I BILL OF RIGHTS Section 1** That all political power is vested in and derived from the people; that all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole. **Section 2.** Promotion of general welfare—natural rights of persons—equality under the law—purpose of government.—That all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design. **Section 8. Freedom of speech—evidence of truth in defamation actions—Province of jury.**—That no law shall be passed impairing the freedom of speech, no matter by what means communicated: that every person shall be free to say, write or publish, or otherwise communicate whatever he will on any subject, being responsible for all abuses of that liberty; and that in all suits and prosecutions for libel or slander the truth thereof may be given in evidence; and in suits and prosecutions for libel the jury, under the direction of the court, shall determine the law and the facts.
Section 9. Rights of peaceable assembly and petition.—That the people have the right peaceably to assemble for their common good, and to apply to those invested with the powers of government for redress of grievances by petition or remonstrance. **Section 10. Due process of law.**—That no person shall be deprived of life, liberty or property without due process of law.

This Missouri statute 544.455.1 also put people under house arrest which is being arrested for the same crime twice, called double jeopardy. (1) Place the person in the custody of a designated person or organization agreeing to supervise him; in custody, this violates a persons I and IV Amendment of Constitution of the United States. (2) Place restriction on the travel, association, or place of abode of the person during the period of release; this violates a persons I, IV, VIII, XIV Amendment of Constitution of the United States. (3) Require the execution of a bail bond with sufficient solvent sureties, or the deposit of cash in lieu thereof; 544.455.1 is in conflict with 532.480.1 this statute does not refer any other conditions after bail. This statute 532.480.1 says the designate the sum in which bail shall be taken, and the court at which he is required to appear, and that, on such bail being entered into, in conformity with such order and the provisions of law, the prisoner shall be discharged. 532.460.1, it appear that there is sufficient legal cause for commitment, he shall proceed to take bail, if the offense be bailable, and good bail be offered;... . 544.455.1, 532.480.1, 532.460.1 none of these statutes refer to each other as a bail being set.

Missouri statute 217.541.1 1. The department shall by rule establish a program of house arrest. The director or his designee may extend the limits of confinement of offenders serving sentences for class D or E felonies who have one year or less remaining prior to release on parole, conditional release, or discharge to participate in the house arrest program. In point 1 of 217.541.1 The Department of Corrections somehow can without a court ruling establish a program of house arrest violating a persons I, IV, V, VII, VIII, XIV Amendment of Constitution of the United States.

Missouri statute 217.543.1 When did a jailer become a judge & have the right to do the same thing as a judge in 217.543.1 below. This Statute217.543.1 is also unconstitutional according to the I, IV, V, VII, VIII, XIV Amendment of Constitution of the United States.

Missouri Statute 221.025.1 Says the electronic monitoring is for, is the same statement in Missouri statute 544.455.1 is also unconstitutional according to the I, IV, V, VII, VIII, XIV Amendment of Constitution of the United States.

Missouri statute Authorized dispositions.557.011. 1. Every person found guilty of an offense shall be dealt with by the court in accordance with the provisions of this chapter, except that for offenses defined outside this code and not repealed, the term of imprisonment or the fine that may be imposed is that provided in the statute defining the offense; however, the conditional release term of any sentence of a term of years shall be determined as provided in subsection 4 of section 558.011 6.monitoring 6. In the event a sentence of confinement is ordered executed, a court may order that an individual serve all or any portion of such sentence on electronic monitoring; except that all costs associated with the electronic monitoring shall be charged to the person on house arrest. If the judge finds the person unable to afford the costs associated with electronic monitoring, the judge may order that the person be placed on house arrest with electronic monitoring if the county commission agrees to pay the costs of such monitoring. If the person on house arrest is unable to afford the costs associated with electronic monitoring and the county commission does not agree to pay from the general revenue of the county the costs of such electronic monitoring, the judge shall not order that the person be placed on house arrest with electronic monitoring. is also unconstitutional according to the I, IV, V, VII, VIII, XIV Amendment of Constitution of the United States.

Missouri statute 577.001 Of (7)Continuous alcohol monitoring", automatically testing breath, blood, or transdermal alcohol concentration levels and tampering attempts at least once every hour, regardless of the location of the person who is being monitored, and regularly transmitting the data. Continuous alcohol monitoring shall be considered an electronic monitoring service under subsection 3 of section 217.690;... is also unconstitutional according to the I, IV, V, VII, VIII, XIV Amendment of Constitution of the United States.

Missouri statute 217.690. 1. When in its opinion there is reasonable probability that an offender of a correctional center can be released without detriment to the community or to himself, the board may in its discretion release or parole such person except as otherwise prohibited by law. All paroles shall issue upon order of the board, duly adopted. 3. The board has discretionary authority to require the payment of a fee, not to exceed sixty dollars per month, from every offender placed under board supervision on probation, parole, or conditional release, to waive all or part of any fee, to sanction offenders for willful nonpayment of fees, and to contract with a private entity for fee collections services. All fees collected shall be deposited in the inmate fund established in section 217.430. Fees collected may be used to pay the costs of contracted collections services. The fees collected may otherwise be used to provide community corrections and intervention services for offenders. Such services include substance abuse assessment and treatment, mental health assessment and treatment, electronic monitoring services, residential facilities services, employment placement services, and other offender community corrections or intervention services designated by the board to assist offenders to successfully complete probation, parole, or conditional release. The board shall adopt rules not inconsistent with law, in accordance with section 217.040, with respect to sanctioning offenders and with respect to establishing, waiving, collecting, and using fees. is also unconstitutional according to the I, IV, V, VII, VIII, XIV Amendment of Constitution of the United States.

Missouri statute 558.002.1 New statute two different fine amounts & misdemeanor for corporations just one type, the rest of the population has 4 in the new statute, also the fine amounts have increased and it has two different fine amounts for C and D Felonies it not just one statute 560.011 it replaced it total of three 560.016 and 560.021. is also unconstitutional according to the VIII Amendment of Constitution of the United States.

Each one of these Missouri Statutes should be removed deemed unconstitutional as stated in Constitution of the United States Amendment I, Amendment IV, Amendment V, Amendment VII, Amendment VIII, Amendment XIV, and Missouri Constitution Article I BILL OF RIGHTS Section 1, Section 2, Section 8, Section 9, Section 10., null and void and taken out of the Missouri statute chapters there in.

RE: Petition approval request from Charnita Walker regarding a proposed statutory amendment to Chapter 558 (2018-263)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Charnita Walker on August 7, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Section 558.019, RSMO, subsection 3 would be repealed. In lieu of it a new subsection relating to prison commitment terms for first-time dangerous felony offenders and offenders with multiple convictions of dangerous felonies. The new section: 558.019.3 will read as follows:

3. Other provisions of the law to the contrary notwithstanding, any offender who has more than once been found guilty of a dangerous felony as defined in section 556.061 and is committed to the Department of Corrections shall be required to serve a minimum prison term of eighty-five percent of the sentence imposed by the court or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first.

(1) If the offender has one previous prison commitment to the Department of Corrections for a dangerous felony offense, the minimum prison term which the offender must serve shall be fifty percent of their sentence or until the offender attains seventy years of age, and has served at least forty percent of the sentence imposed, whichever occurs first. If the offender has maintained the best possible institutional score for the year prior to their scheduled parole hearing date, then parole shall be granted. If parole is denied, a hearing shall be scheduled every two years until offender is paroled. The first-time conviction exception of this subsection shall be applicable to all dangerous felonies occurring on or after August 28, 1994.

Be it enacted by the people of the state of Missouri

To form a new Chapter numbered 156. The title of the new chapter will be "Taxation of 'Gross State Product" to prevent Monopolistic Practices'.

156.010 1. Beginning on January 1, 2019, any non-public business that does business in the state of Missouri that has a "Gross State Product" exceeding 10 million dollars will be levied a sum equal to 5% of their "Gross State Product". This levy will be accessed on the previous year's "Gross State Product" and payments will be made quarterly.

(a) Any of the businesses meeting this qualification that also controls more than 50% of the products and services sold or distributed or have sufficient control to cause barriers to entry in commerce in the state of Missouri will be levied an additional sum of 5% of their "Gross State Product".

(b) Any business that exceeds the 10 million dollars "Gross State Product" and has ***vertical integration*** of 70% or more of their product will be levied an additional 5% of their "Gross State Product".

(1), Vertical Integration will be calculated by the sum of increased value or by the amount of labor involved or by the investment of money involved in the process, whichever is larger.

(2). If the investment is the standard for calculation and the final process is a distribution point, the final dollar amount will be the wholesale value at that point.

2. All funds collected will go to the state road fund.

3. Any non-public business that does business in the state of Missouri that has a "Gross State Product" exceeding 10 million dollars will provide their employees the following benefits:

(a) All full-time employees (those exceeding 32 hours weekly) will receive medical insurance'

(b) All full-time employees (those exceeding 32 hours weekly) will earn vacation time of at least 1 week the first year, 2 weeks the second year, and 3 weeks after 5 years. One week of sick leave will be granted each year which will accumulate if unused. If 5 weeks have been accumulated, this amount will be placed in a separate trust fund from the business and be available for future illness and/or available to the employee at retirement or age of 60.

(c) All employees will have choice of positions that they are qualified for on a seniority basis. Transfers will be allowed for bid at least once per year.

(d) All employees will have a weekly posted schedule. Ten percent of the work force may be on an on-call basis. The 'on-call position will be a bid position available by seniority.

4. 290.502

1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Any non-public business that does business in the state of Missouri that has a "Gross State Product" exceeding 10 million dollars will pay a minimum wage of $15.00 per hour inflation-adjusted beginning on January 1, 2019.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapters 147, 161, and 191 (2018-258)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on August 7, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri

The annual franchise tax will be amended as follows:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

[(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section.]

(5) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly payment will be due on April 15th of 2019.

(6) Three quarters of the revenue of the annual franchise tax will be to provide revenue for the school districts with a 15% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed as listed in 161.020 6., 161.098, 161.213, 191.803, 167.031, and 161.650. Any unused funds will be used by the department of education as needed to enhance the education of Missouri students. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(7) One quarter of the revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

All subsections and all clauses of this statute, and the phrases, and the words within them, are severable If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby

The dedicated fund for the pre-kindergarten, elementary and secondary will be distributed as listed as follows:

-

Department of elementary and secondary education created--superintendents of schools for deaf and for blind students--appointment.

161.020 1. There is hereby created a department of elementary and secondary education headed by a state board of education as provided in Article IX, Constitution of Missouri, and chapter 161 and others. The state board shall appoint a commissioner of education as the chief administrative officer of the department.

2. The department of education, chapter 161 and others, is abolished and its powers, duties, personnel and property are transferred as provided in this act*.

3. The division of public schools of the department of education, chapter 161 and others, is abolished and its powers, duties, personnel and property, with exceptions specified elsewhere in this act*, are transferred by type I transfer to the department of elementary and secondary education.

4. The Missouri School for the Deaf, chapter 178 and others, and the Missouri School for the Blind, chapter 178 and others, are transferred to the department of elementary and secondary education by a type I transfer. The commissioner of education shall appoint superintendents for these schools and members of the advisory boards, provided in chapter 178 and others.

5. The commissioner of education that is installed by the state department of health and senior services will set up a separate department to distribute the funds from the franchise tax and shall appoint and shall fix the powers, duties, and compensation that will be responsible for distribution of funds as set out in this fund for distribution of revenue to pre-kindergarten, elementary and secondary education. That director will use those funds to finance changes to Chapter 161, RSMo and Chapter 191, RSMo by this act. The director will act as a liaison between this fund and the state appropriated education expenses to prevent duplication and co-ordinate services. Balances left over will be used to enhance other sections of Chapter 161 as the director sees a need.

-

6. The proceeds from the franchise tax shall be distributed in this order of priority as funds are available:

(1) 161.098. 2 -for bonus pay to retain teachers in distressed areas.

(2) 161.213. section 1 (1), (2), and (6) -will supplement funds for expanding Pre-K and furnishing notebooks. The franchise tax will be only for expanding this section and not for budgeted funds already targeted to this section.

(3) 191.803 section 1, (a) and section 5. added benefits for poverty areas, to be added as time and funds are available. Legislature will revisit on sunset date.

(4) 161.650 section 1, (1), (2), (3) may require start-up costs, but should show a long-term savings. Available funds to target startup costs.

Retention and recruitment of teachers, report required.

161.098 1. Beginning December 15, 1999, and annually by that date in each following year, the state board of education shall report to the general assembly on the retention and recruitment of teachers in the state's schools. The report shall include, but not be limited to, information on the numbers of teachers entering and leaving employment in the public schools of the state, analysis of the issues affecting teacher recruitment, including the need for identifying African-American and other minority students, including males, who show potential or interest in becoming a teacher, recruiting such students as prospective teachers, and methods for providing financial aid to such students, and suggestions for meeting predicted needs of numbers of teachers and in areas of certification.

2. All school districts with a 15% or more poverty level by using proceeds from the franchise tax will:

(a) Receive a 5% pay raise for teachers financed by the proceeds of the franchise tax. Current pay levels will be maintained by the district with inflation adjusted raises.

(b) After 3 years teaching in the same school district, another 5% will be added to the teacher's pay. The raises will be maintained by the franchise tax in future years as long as current pay levels for each school district are maintained adjusted for inflation.

(c) The increased pay will be given as a bonus at the end of the school year. This will be effective the first full school year after implementation of the franchise tax.

(L. 1998 S.B. 781 § 161.220)

High-quality early childhood education standards required—rule making authority.

161.213. 1. The department of elementary and secondary education shall develop standards for high-quality early childhood education no later than June 30, 2007. The standards shall be applicable to all public school prekindergarten programs that receive Title I or Missouri preschool project funds.

(1) All school districts to provide Universal Pre-K education for those who will become age 4 by the end of the calendar year. Because of the lengthy preparations, implementation of the Pre-K programs will target completion of all affected districts will be in a four-year period ending 2023. Districts with the highest poverty level will be implemented first. All children meeting age and residence will be eligible for Universal Pre-K. When Pre-K becomes available, all eligible children will be required to attend Pre-K.

(2) For non-public schools, each student will receive at least 2 ½ hours of instruction. The instructor will be provided by the state and will be travel from one location to another or hold multiple instructions at the same location. This will allow one teacher to attend 2 or more schools to utilize their time for maximum efforts. Computer and online teaching aids will be utilized to allow individual learning. Notebooks with learning programs will be allowed to be taken home.

2. Such standards shall include, but not be limited to, the following principles:

(1) Access for all children whose parents or guardians choose to participate;

(2) Focus on cognitive, language, physical, and social/emotional development;

(3) Assessment of needs of children and their families;

(4) Highly qualified and properly certified teachers; and

(5) Delivery of comprehensive services supported by strong and accessible technical assistance and professional development.

(6) Will provide, beginning in the school year of 2019-2020, notebooks or equivalent with learning programs to all children enrolled in public education in all districts having a poverty rate of 10% or more. Every three years the students will receive a current notebook through 6th grade. Discarded notebooks will be used for replacement of lost, stolen or dysfunctional notebooks. Notebooks will be distributed to those beginning in Pre-K. This franchise tax will only pay for notebooks in those districts that have levels of poverty above 15%.

3. In developing such standards, the department shall involve representatives of the business community, parents as teachers, head start, early childhood start, early childhood special education, Missouri pre-school project, first steps, Title I preschools, school district personnel, private providers, and faith-based providers.

4. Unless otherwise prohibited by federal law, public school districts shall not be prohibited from charging tuition and related charges for early childhood education programs. Children living in poverty conditions (one hundred eighty-five percent of the federal poverty level) will not be charged.

5. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

(L. 2006 H.B. 1511)

191.803. Boards of education to establish breakfast program — rules — waiver, procedure. — 1. By July 1, 1993, the board of education of each school in this state in which thirty-five percent or more of the students enrolled in the school on October first of the preceding school year were eligible for free or reduced-price meals shall establish a school breakfast program.

(a) In school districts with levels of poverty above 15%, schools will provide student care to be available for all students from Pre-K through 6th grade starting at 6 AM for before school and after school care until 6 PM. Breakfast, lunch and an evening meal or snack will be provided at no cost to all students in these areas regardless of income.

2. The department of elementary and secondary education may promulgate rules and regulations necessary for implementation of sections 191.800 to 191.815 in compliance with federal guidelines pursuant to the provisions of 42 U.S.C. 1773.

3. A school shall receive a waiver from the requirements of this section if the school board of the school district by majority vote adopts a resolution requesting a waiver.

4. A school district requesting a waiver must file in writing notification that it has adopted a resolution which excuses the district from the requirements of this section. Such writing shall be filed with the Missouri department of elementary and secondary education. Such a waiver shall be valid for a period of three years.

5. All school districts with a poverty level of 15% or more will have 12-month schooling for Pre-K through 6th-grade levels.

(1) All schools from pre-K through senior high will have an arts program, a music program, technical courses and will have chess classes.

(2) In schools with more than 10% minority groups, courses offered will include Bi-lingual and bi-culture classes and one year of secondary level history classes including:

a. one term (quarter), Native American,

b. one term (quarter), Hispanic,

c. one term (quarter), European and Asian History,

d. one term (quarter), Black History.

6 School districts with a poverty level of 15% or more will have staff available to allow after school, weekend and vacation times so that students 6th-grade levels and up will have supervised play areas at school areas. Computer lab and inside access will be available for those with disabilities and on days unfit for outside activity.

Termination 9-01-20

(Section 167.031, RSMo, states that any parent, guardian or other person having custody or control of a child between the ages of seven (7) and the compulsory attendance age for the district, must ensure that the child is enrolled in and regularly attends public, private, parochial, home school or a combination of schools for the full term of the school year.

The term "compulsory attendance age for the district" shall mean seventeen (17) years of age or having successfully completed sixteen (16) credits towards high school graduation in all other cases (Amish students ruled by Supreme Court to only have 8 years of classes. No part of this amendment will be applied to Amish school in a manner which violates this ruling).

Children between the ages of five (5) and seven (7) are not required to be enrolled in school. As Pre-K becomes available, enrollment will be required of all who will be 4 at the end of the calendar year. However, if they are enrolled in a public school their parent, guardian or custodian must ensure that they regularly attend.)

1. All schools, including: Amish, religion associated, homeschooling or other 'for profit', will meet the Missouri test regime, (§160.518, RSMo) which compels the State Board of Education and the Department of Elementary and Secondary Education to annually measure "by grade level a student's knowledge of academic subjects.

2. Any school that does not provide students that can pass the requirements of §160.518, RSMo for three consecutive years will not be considered filling the obligation of an educational school. Either the school will shut down or the state will take over the administration of the school. The failing school will not fulfill the obligation of being a school that allows a parent or guardian to fulfill the 'The Compulsory Attendance Law':

Department to identify and adopt violence prevention program, district to administer--state board to adopt violence prevention program--duties--administered how--funding.

161.650.

1. The department of elementary and secondary education shall identify and adopt an existing program or programs of educational instruction regarding violence prevention to be administered by public school districts pursuant to subsection 2 of this section, and which shall include, but shall not be limited to, instructing students of the negative consequences, both to the individual and to society at large, of membership in or association with criminal street gangs or participation in criminal street gang activity, as those phrases are defined in section 578.421, and shall include related training for school district employees directly responsible for the education of students concerning violence prevention and early

identification of and intervention in violent behavior. The state board of education shall adopt such program or programs by rule as approved for use in Missouri public schools. The program or programs of instruction shall encourage nonviolent conflict resolution of problems facing youth; present alternative constructive activities for the students; encourage community participation in program instruction, including but not limited to parents and law enforcement officials; and shall be administered as appropriate for different grade levels and shall not be offered for academic credit.

(1) Except in extreme instances (court ordered or security threats), no police officer will be on campus with a firearm. Police officers performing community service will be unarmed. In the case of police making an arrest on a school campus, no handcuffs or restraints will be used unless there is a danger to others.

(2) SRO (School Resource Officers) will be phased out in all schools. They will be replaced by trained counselors and staff. Each school will have fully trained personnel to address any issues that students may have. Rural areas with smaller school system may share personnel.

(3) To address school suspensions and expulsions and encourage high school graduation, the following procedures will be enacted in all schools:

(a) School administrators will develop a structured process to assess whether a student who makes a threat is likely to carry out that threat. Each school will use "restorative justice practices" instead of or in addition to suspensions or expulsions. If a threat is deemed unlikely, the student will be counseled and/or disciplined, but not suspended.

(b) All teachers will receive training in Positive Behavioral Support (PBS). If surplus monies are available, funds will be allotted to the Missouri Schoolwide Positive Behavior Support (MO SW-PBS).

(c) Beginning immediately as funds are available, a target date of three years having all schools at the maximum level for MO SW-PBS objectives.

A. Any teacher recommending multiple expulsions will receive "My Teacher Partner Program (MPT)" training. All teachers will receive training in behavior management skills. Teachers with minority students will receive culture training for different ethnic groups

B. No student will be segregated for disciplinary reasons without a teacher to keep them current in their education.

2. All public-school districts within this state with the approval of the district's board of education may administer the program or programs of student instruction adopted pursuant to subsection 1 of this section to students within the district starting at the kindergarten level and every year thereafter through the twelfth-grade level.

3. Any district adopting and providing a program of instruction pursuant to this section shall be entitled to receive state aid pursuant to section 161.031. If such aid is determined by the department to be insufficient to implement any program or programs adopted by a district pursuant to this section:

(1) The department may fund the program or programs adopted pursuant to this section or pursuant to subsection 2 of section 160.530, or both, after securing any funding available from alternative sources; and

(2) School districts may fund the program or programs from funds received pursuant to subsection 1 of section 160.530.

4. No rule or portion of a rule promulgated pursuant to this section shall become effective unless it has been promulgated pursuant to chapter 536.

(L. 1996 H.B. 1301 & 1298 § 3, A.L. 2000 S.B. 944, A.L. 2010 H.B. 1543)

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 208, Version 2 (2018-257)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on August 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires:

Be it enacted by the people of the state of Missouri

Chapter 208,RSMo, is amended by adding thereto one new section, to be known as section 208.207, to read as follows:

1. Beginning January 1, 2019, individuals age nineteen to sixty-four, who are not otherwise eligible for MO HealthNet services under this chapter, who qualify for MO HealthNet services under section 42 U.S.C. 1396a(a)(10()(A)(i)(VIII) and as set forth in 42 CFR 435.119, and who have income at or below one hundred thirty-three percent of the federal poverty level plus five percent of the applicable family size as determined under 42 U.S.C. 1396a(e)(14) and as set forth om 42 CFR 435.603, shall be eligible for medical assistance under Mo HealthNet and shall receive coverage for the health benefits service package.

2. For purposes of this section, "health benefits service package" shall mean, subject to federal approval, benefits covered by the MO HealthNet program as determined by the department of social services to meet the benchmark or benchmark-equivalent coverage requirement under 42 U.S.C. 1396a(k)(1).

3. The reimbursement rate to MO HealthNet providers for MO HealthNet services provided to individuals qualifying under the provisions of this section shall be comparable to commercial reimbursement payment levels with trend adjustment for comparable services. The rates shall be determined annually by the department of social services, and the department may develop such rates through a contracted actuary. The higher commercial comparable rates shall only apply for services provided to individuals qualifying under this section.

4. (1) The department of social services shall discontinue eligibility for persons who are eligible under subsection 1 of this section if:

(a) The federal medical assistance percentage established under 42 U.S.C. Section 1396d(y) or 1369d(z) is less than ninety percent as specified for 2020 each year thereafter or an amount determined by the MO HealthNet oversight committee to be necessary to maintain state budget solvency, whichever is lower; and

(b) The general assembly votes to discontinue eligibility for persons who are eligible under subsection 1 of this section. Prior to any vote under this paragraph, the MO HealthNet oversight committee and the department of social services shall provide the general assembly with information on the current and projected expenses incurred due to expanding eligibility to persons under subsection 1 of this section in relation to health-related savings and revenues and health outcomes of individuals and families receiving benefits under subsection 1 of this section.

(2) The department of social services shall inform persons eligible under subsection 1 of this section that their benefits may be reduced or eliminated if federal funding decreases of is eliminate.

5. The MO HealthNet oversite committee shall conduct research and investigate any potential health-related savings and revenues associated with expanding eligibility to persons under subsection 1 of this section. The committee shall investigate the federal matching rate below which the state could not maintain the expanded eligibility to persons under subsection 1 of this section. If the amount is determined to be greater than ninety percent, the committee shall report its findings to the general assembly for its consideration prior to any vote under paragraph (b) of subdivision (1) of subsection 4 of this section. In conducting its research and investigation, the committee shall also determine the feasibility of:

(1) Implementing capped cost sharing for persons eligible under subsection 1 of this section which may be reduced based on healthy behaviors of participants.

(2) Expanding Medicaid coverage for certain health care services that are currently financed by the state: and

(3) Enrolling persons under subsection 1 of this section in private health benefit plans.

6. All person living one hundred eighty-five percent of the federal poverty level for the applicable family size will be eligible for paid birth control methods to be paid from Medicaid. Birth control and family planning covered by this bill which will begin on January 1, 2019. There will be no cost for family planning services, including office visits and drugs/devices to the patient. The patient will not have to pay a co-

payment for family planning services. The patient can go to any health provider who offers family planning services such as:

(a) Birth control pills, Patches (like the OrthoEvra Patch), Vaginal rings (like the NuvaRing), Injections (like the Depo shot), Implants (like Implanon), Intrauterine devices (IUDs – like Mirena or Paragard), Emergency birth control ("the morning-after pill"), Diaphragms, Condoms, Surgical sterilization for clients 21 years old and older (like vasectomies or tubal ligation's, including the Essure procedure) or any future approved medical procedures will be included at the patient's choice.

(b) An ob/gyn or gynecologist, a certified nurse-midwife, a nurse practitioner or other advanced practice nurse, a family planning clinic, your regular doctor or primary care provider or Planned Parenthood unit that accepts Medicaid.

Birth control and family planning will be available to eligible MO women and male residents 13 years of age and over with proof of age and residence. Those seeking birth control and family planning will not need permission from family, spouses or guardians. Confidentially will be ensured at all levels. Any savings to the state from Medicaid expansion that is not used for family planning and birth control will go toward the reduction of the levy on hospitals that this bill mandates.

7. If at any time funding for Planned Parenthood by the federal government is discontinued or if it has already been discontinued at the passage of this amendment, the hospital levy will be increased enough to replace the federal funding of Planned Parenthood to a level at least equal to that of 2015 adjusted for inflation. The state of MO will fund Planned Parenthood at a level at least equal to 2015 adjusted for inflation beginning on Jan 1, 2019, and if by the time this measure is accepted, the state of MO has stopped funding Planned Parenthood, the state will begin funding Planned Parenthood again at a level equal to 2015 inflation-adjusted.

8. The cost to the state for expanding medical coverage will be borne by the hospitals in the state of Missouri as follows:

(a) All hospitals in MO will be accessed a fee to pay for the expense of this expansion. The first year will be an estimate by the 'department of health and senior services'. Assessment will be made based on the most recent records of 'department of health and senior services' for a full year and adjustments for new assessments will begin on the first of April of each following year. Each hospital will pay a share equal to the percentage of patient admittance of each hospital of the total MO visits. Each admittance will count separately even though it is a re-admittance. Hospitals will begin monthly payments on Jan 1, 2019. Hospitals will make monthly payments to the state of MO into a fund that will only be used for the full Federal Medicaid Expansion, Planned Parenthood and birth control for residents of Missouri.

(b) Missouri will make immediate application and if fees for implementation have not occurred from the hospitals on implementation, the state will borrow from reserve funds to expedite enrollment. These funds will be paid back upon receipt of funds beginning on Feb 15, 2019.

9. The 'MO HealthNet oversight committee shall conduct research and investigation for any potential heath related savings and revenues associated with expanding Medicaid eligibility and for birth control resulting in fewer births and associated costs as well as savings from continuing 'Planned Parenthood'. Any savings will go to the reduction or elimination of hospital levy. Any additional savings will go to the mental health budget. The 'health and senior services' budget in future years will remain at least at the same percent of total MO budget as in 2015 with the excess not needed going to the mental health budget with priorities for communities with the highest percent of poverty.

10. All subsections and all clauses of this statute, and the phrases, and the words within them, are severable. If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 208, Version 1 (2018-256)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on August 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri

Chapter 208,RSMo, is amended by adding thereto one new section, to be known as section 208.207, to read as follows:

1. Beginning January 1, 2019, individuals age nineteen to sixty-four, who are not otherwise eligible for MO HealthNet services under this chapter, who qualify for MO HealthNet services under section 42 U.S.C. 1396a(a)(10()(A)(i)(VIII) and as set forth in 42 CFR 435.119, and who have income at or below one hundred thirty-three percent of the federal poverty level plus five percent of the applicable family size as determined under 42 U.S.C. 1396a(e)(14) and as set forth om 42 CFR 435.603, shall be eligible for medical assistance under Mo HealthNet and shall receive coverage for the health benefits service package.

2. For purposes of this section, "health benefits service package" shall mean, subject to federal approval, benefits covered by the MO HealthNet program as determined by the department of social services to meet the benchmark or benchmark-equivalent coverage requirement under 42 U.S.C. 1396a(k)(1).

3. The reimbursement rate to MO HealthNet providers for MO HealthNet services provided to individuals qualifying under the provisions of this section shall be comparable to commercial reimbursement payment levels with trend adjustment for comparable services. The rates shall be determined annually by the department of social services, and the department may develop such rates through a contracted actuary. The higher commercial comparable rates shall only apply for services provided to individuals qualifying under this section.

4. (1) The department of social services shall discontinue eligibility for persons who are eligible under subsection 1 of this section if:

(a) The federal medical assistance percentage established under 42 U.S.C. Section 1396d(y) or 1369d(z) is less than ninety percent as specified for 2020 each year thereafter or an amount determined by the MO HealthNet oversight committee to be necessary to maintain state budget solvency, whichever is lower; and

(b) The general assembly votes to discontinue eligibility for persons who are eligible under subsection 1 of this section. Prior to any vote under this paragraph, the MO HealthNet oversight committee and the department of social services shall provide the general assembly with information on the current and projected expenses incurred due to expanding eligibility to persons under subsection 1 of this section in relation to health-related savings and revenues and health outcomes of individuals and families receiving benefits under subsection 1 of this section.

(2) The department of social services shall inform persons eligible under subsection 1 of this section that their benefits may be reduced or eliminated if federal funding decreases of is eliminate.

5. The MO HealthNet oversite committee shall conduct research and investigate any potential health-related savings and revenues associated with expanding eligibility to persons under subsection 1 of this section. The committee shall investigate the federal matching rate below which the state could not maintain the expanded eligibility to persons under subsection 1 of this section. If the amount is determined to be greater than ninety percent, the committee shall report its findings to the general assembly for its consideration prior to any vote under paragraph (b) of subdivision (1) of subsection 4 of this section. In conducting its research and investigation, the committee shall also determine the feasibility of:

(1) Implementing capped cost sharing for persons eligible under subsection 1 of this section which may be reduced based on healthy behaviors of participants.

(2) Expanding Medicaid coverage for certain health care services that are currently financed by the state: and

(3) Enrolling persons under subsection 1 of this section in private health benefit plans.

My commission expires:

Be it enacted by the people of the state of Missouri

The annual franchise tax will be amended as follows:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the

percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

[(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section.]

(5) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly payment will be due on April 15th of 2019.

(6) Three quarters of the revenue of the annual franchise tax will be to provide revenue for the school districts with a 15% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed as listed in 161.020 6., 161.098, 161.213, 191.803, 167.031, and 161.650. Any unused funds will be used by the department of education as needed to enhance the education of Missouri students. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(7) One quarter of the revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

All subsections and all clauses of this statute, and the phrases, and the words within them, are severable If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby

The dedicated fund for the pre-kindergarten, elementary and secondary will be distributed as listed as follows:

Department of elementary and secondary education created--superintendents of schools for deaf and for blind students--appointment.

161.020 1. There is hereby created a department of elementary and secondary education headed by a state board of education as provided in Article IX, Constitution of Missouri, and chapter 161 and others. The state board shall appoint a commissioner of education as the chief administrative officer of the department.

2. The department of education, chapter 161 and others, is abolished and its powers, duties, personnel and property are transferred as provided in this act*.

3. The division of public schools of the department of education, chapter 161 and others, is abolished and its powers, duties, personnel and property, with exceptions specified elsewhere in this act*, are transferred by type I transfer to the department of elementary and secondary education.

4. The Missouri School for the Deaf, chapter 178 and others, and the Missouri School for the Blind, chapter 178 and others, are transferred to the department of elementary and secondary education by a type I transfer. The commissioner of education shall appoint superintendents for these schools and members of the advisory boards, provided in chapter 178 and others.

5. The commissioner of education that is installed by the state department of health and senior services will set up a separate department to distribute the funds from the franchise tax and shall appoint and shall fix the powers, duties, and compensation that will be responsible for distribution of funds as set out in this fund for distribution of revenue to pre-kindergarten, elementary and secondary education. That director will use those funds to finance changes to Chapter 161, RSMo and Chapter 191, RSMo by this act. The director will act as a liaison between this fund and the state appropriated education expenses to prevent duplication and co-ordinate services. Balances left over will be used to enhance other sections of Chapter 161 as the director sees a need.

6. The proceeds from the franchise tax shall be distributed in this order of priority as funds are available:

(1) 161.098. 2 -for bonus pay to retain teachers in distressed areas.

(2) 161.213. section 1 (1), (2), and (6) -will supplement funds for expanding Pre-K and furnishing notebooks. The franchise tax will be only for expanding this section and not for budgeted funds already targeted to this section.

(3) 191.803 section 1, (a) and section 5. added benefits for poverty areas, to be added as time and funds are available. Legislature will revisit on sunset date.

(4) 161.650 section 1, (1), (2), (3) may require start-up costs, but should show a long-term savings. Available funds to target startup costs.

Retention and recruitment of teachers, report required.

161.098 1. Beginning December 15, 1999, and annually by that date in each following year, the state board of education shall report to the general assembly on the retention and recruitment of teachers in the state's schools. The report shall include, but not be limited to, information on the numbers of teachers entering and leaving employment in the public schools of the state, analysis of the issues affecting teacher recruitment, including the need for identifying African-American and other minority students, including males, who show potential or interest in becoming a teacher, recruiting such students as prospective teachers, and methods for providing financial aid to such students, and suggestions for meeting predicted needs of numbers of teachers and in areas of certification.

2. All school districts with a 15% or more poverty level by using proceeds from the franchise tax will:

(a) Receive a 5% pay raise for teachers financed by the proceeds of the franchise tax. Current pay levels will be maintained by the district with inflation adjusted raises.

(b) After 3 years teaching in the same school district, another 5% will be added to the teacher's pay. The raises will be maintained by the franchise tax in future years as long as current pay levels for each school district are maintained adjusted for inflation.

(c) The increased pay will be given as a bonus at the end of the school year. This will be effective the first full school year after implementation of the franchise tax.

(L. 1998 S.B. 781 § 161.220)

High-quality early childhood education standards required—rule making authority.

161.213. 1. The department of elementary and secondary education shall develop standards for high-quality early childhood education no later than June 30, 2007. The standards shall be applicable to all public school prekindergarten programs that receive Title I or Missouri pre school project funds.

1. All school districts to provide Universal Pre-K education for those who will become age 4 by the end of the calendar year. Because of the lengthy preparations, implementation of the Pre-K programs will target completion of all affected districts will be in a four-year period ending 2023. Districts with the highest poverty level will be implemented first. All children meeting age and residence will be eligible for Universal Pre-K. When Pre-K becomes available, all eligible children will be required to attend Pre-K.

1. For non-public schools, each student will receive at least 2 ½ hours of instruction. The instructor will be provided by the state and will be travel from one location to another or hold multiple instructions at the same location. This will allow one teacher to attend 2 or more schools to utilize their time for maximum efforts. Computer and online teaching aids will be utilized to allow individual learning. Notebooks with learning programs will be allowed to be taken home.

2. Such standards shall include, but not be limited to, the following principles:

(1) Access for all children whose parents or guardians choose to participate;

(2) Focus on cognitive, language, physical, and social/emotional development;

(3) Assessment of needs of children and their families;

(4) Highly qualified and properly certified teachers; and

(5) Delivery of comprehensive services supported by strong and accessible technical assistance and professional development.

(6) Will provide, beginning in the school year of 2019-2020, notebooks or equivalent with learning programs to all children enrolled in public education in all districts having a poverty rate of 10% or more. Every three years the students will receive a current notebook through 6th grade. Discarded notebooks will be used for replacement of lost, stolen or dysfunctional notebooks. Notebooks will be distributed to those beginning in Pre-K. This franchise tax will only pay for notebooks in those districts that have levels of poverty above 15%.

3. In developing such standards, the department shall involve representatives of the business community, parents as teachers, head start, early childhood start, early childhood special education, Missouri pre school project, first steps, Title I preschools, school district personnel, private providers, and faith-based providers.

4. Unless otherwise prohibited by federal law, public school districts shall not be prohibited from charging tuition and related charges for early childhood education programs. Children living in poverty conditions (one hundred eighty-five percent of the federal poverty level) will not be charged.

5. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

(L. 2006 H.B. 1511)

191.803. Boards of education to establish breakfast program — rules — waiver, procedure. — 1. By July 1, 1993, the board of education of each school in this state in which thirty-five percent or more of the students enrolled in the school on October first of the preceding school year were eligible for free or reduced-price meals shall establish a school breakfast program.

(a) In school districts with levels of poverty above 15%, schools will provide student care to be available for all students from Pre-K through 6th grade starting at 6 AM for before school and after school care until 6 PM. Breakfast, lunch and an evening meal or snack will be provided at no cost to all students in these areas regardless of income.

2. The department of elementary and secondary education may promulgate rules and regulations necessary for implementation of sections 191.800 to 191.815 in compliance with federal guidelines pursuant to the provisions of 42 U.S.C. 1773.

3. A school shall receive a waiver from the requirements of this section if the school board of the school district by majority vote adopts a resolution requesting a waiver.

4. A school district requesting a waiver must file in writing notification that it has adopted a resolution which excuses the district from the requirements of this section. Such writing shall be filed with the Missouri department of elementary and secondary education. Such a waiver shall be valid for a period of three years.

5. All school districts with a poverty level of 15% or more will have 12-month schooling for Pre-K through 6th-grade levels.

1. All schools from pre-K through senior high will have an arts program, a music program, technical courses and will have chess classes.
2. In schools with more than 10% minority groups, courses offered will include Bi-lingual and biculture classes and one year of secondary level history classes including:

1. one term, Native American,
2. one term, Hispanic,
3. one term European and Asian History
4. one term Black History.

1. School districts with a poverty level of 15% or more will have staff available to allow after school, weekend and vacation times so that students 6th-grade levels and up will have supervised play areas at school areas. Computer lab and inside access will be available for those with disabilities and on days unfit for outside activity.

Termination 9-01-20

(Section 167.031, RSMo, states that any parent, guardian or other person having custody or control of a child between the ages of seven (7) and the compulsory attendance age for the district, must ensure that the child is enrolled in and regularly attends public, private, parochial, home school or a combination of schools for the full term of the school year.

The term "compulsory attendance age for the district" shall mean seventeen (17) years of age or having successfully completed sixteen (16) credits towards high school graduation in all other cases (Amish students ruled by Supreme Court to only have 8 years of classes).

Children between the ages of five (5) and seven (7) are not required to be enrolled in school. As Pre-K becomes available, enrollment will be required of all who will be 4 at the end of the calendar year. However, if they are enrolled in a public school their parent, guardian or custodian must ensure that they regularly attend.)

1. All schools, including; Amish, religion associated, homeschooling or other 'for profit', will meet the Missouri test regime, (§160.518, RSMo) which compels the State Board of Education and the Department of Elementary and Secondary Education to annually measure "by grade level a student's knowledge of academic subjects.
2. Any school that does not provide students that can pass the requirements of §160.518, RSMo for three consecutive years will not be considered filling the obligation of an educational school. Either the school will shut down or the state will take over the administration of the school. The failing school will not fulfill the obligation of being a school that allows a parent or guardian to fulfill the 'The Compulsory Attendance Law':

Department to identify and adopt violence prevention program, district to administer--state board to adopt violence prevention program--duties--administered how--funding.

161.650. 1. The department of elementary and secondary education shall identify and adopt an existing program or programs of educational instruction regarding violence prevention to be administered by public school districts pursuant to subsection 2 of this section, and which shall include, but shall not be limited to, instructing students of the negative consequences, both to the individual and to society at large, of membership in or association with criminal street gangs or participation in criminal street gang activity, as those phrases are defined in section 578.421, and shall include related training for school district employees directly responsible for the education of students concerning violence prevention and early identification of and intervention in violent behavior. The state board of education shall adopt

such program or programs by rule as approved for use in Missouri public schools. The program or programs of instruction shall encourage nonviolent conflict resolution of problems facing youth; present alternative constructive activities for the students; encourage community participation in program instruction, including but not limited to parents and law enforcement officials; and shall be administered as appropriate for different grade levels and shall not be offered for academic credit.

(1) Except in extreme instances (court ordered or security threats), no police officer will be on campus with a firearm. Police officers performing community service will be unarmed. In the case of police making an arrest on a school campus, no handcuffs or restraints will be used unless there is a danger to others.

(2) SRO (School Resource Officers) will be phased out in all schools. They will be replaced by trained counselors and staff. Each school will have fully trained personnel to address any issues that students may have. Rural areas with smaller school system may share personnel.

(3) To address school suspensions and expulsions and encourage high school graduation, the following procedures will be enacted in all schools:

(a) School administrators will develop a structured process to assess whether a student who makes a threat is likely to carry out that threat. Each school will use "restorative justice practices" instead of or in addition to suspensions or expulsions. If a threat is deemed unlikely, the student will be counseled and/or disciplined, but not suspended.

(b) All teachers will receive training in Positive Behavioral Support (PBS). If surplus monies are available, funds will be allotted to the Missouri Schoolwide Positive Behavior Support (MO SW-PBS).

(c) Beginning immediately as funds are available, a target date of three years having all schools at the maximum level for MO SW-PBS objectives.

1. Any teacher recommending multiple expulsions will receive "My Teacher Partner Program (MPT)" training. All teachers will receive training in behavior management skills. Teachers with minority students will receive culture training for different ethnic groups

1. No student will be segregated for disciplinary reasons without a teacher to keep them current in their education.

2. All public school districts within this state with the approval of the district's board of education may administer the program or programs of student instruction adopted pursuant to subsection 1 of this section to students within the district starting at the kindergarten level and every year thereafter through the twelfth-grade level.

3. Any district adopting and providing a program of instruction pursuant to this section shall be entitled to receive state aid pursuant to section 161.031. If such aid is determined by the department to be insufficient to implement any program or programs adopted by a district pursuant to this section:

(1) The department may fund the program or programs adopted pursuant to this section or pursuant to subsection 2 of section 160.530, or both, after securing any funding available from alternative sources; and

(2) School districts may fund the program or programs from funds received pursuant to subsection 1 of section 160.530.

4. No rule or portion of a rule promulgated pursuant to this section shall become effective unless it has been promulgated pursuant to chapter 536.

(L. 1996 H.B. 1301 & 1298 § 3, A.L. 2000 S.B. 944, A.L. 2010 H.B. 1543)

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 147 (2018-254)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on August 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri

The annual franchise tax will be amended as follows:

147.010 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

[(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section.]

(5) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly payment will be due on April 15th of 2019.

(6) Three quarters of the revenue of the annual franchise tax will be to provide revenue for the school districts with a 15% or more poverty level of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax for this section will go to a dedicated fund that will be distributed as listed in 161.020 6., 161.098, 161.213, 191.803, 167.031, and 161.650. Any unused funds will be used by the department of education as needed to enhance the education of Missouri students. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget.

(7) One quarter of the revenue of the annual franchise tax will be to provide revenue for the Department of Higher Education Budget. The Missouri budget for the Department of Higher Education will not be replaced by this bill. The Department of Higher Education Budget by the state will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget. The initial revenue of $48 million from the annual franchise tax will go to help finance construction of a downtown arts campus for the University of Missouri in Kansas City. The revenue generated after this date will be allotted to the budget of the Department of Higher Education to spend as needed with an emphasis on increasing full time and tenured professors.

All subsections and all clauses of this statute, and the phrases, and the words within them, are severable If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby

Be it enacted by the People of the state of Missouri, as follows:

Section A. Sections 192.005, 195.202, 195.211, 195.222, 195.223, 263.250, 311.610, 311.620, 311.630 and 311.660 RSMo, are amended and thirty-three new sections are enacted to be known as sections 195.018, 195.900, 195.903, 195.906, 195.909, 195.912, 195.915, 195.918, 195.921, 195.924, 195.927, 195.930, 195.933, 195.936, 195.939, 195.942, 195.945, 195.948,195.951, 195.954, 195.957, 195.960, 195.961, 195.963, 195.966, 195.969, 195.972, 195.975, 195.978, 195.981, 195.982, 195.984 and 195.985 to read as follows:

192.005. There is hereby created and established as a department of state government the "Department of Health and Senior Services". The department of health and senior services shall supervise and manage all public health functions and programs. The department shall be governed by the provisions of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo, unless otherwise provided in sections 192.005 to 192.014. The division of health of the department of social services, chapter 191, this chapter, and others, including, but not limited to, such agencies and functions as the state health planning and development agency, the crippled children's service*, chapter 201, the bureau and the program for the prevention of developmental disability, the hospital subsidy program, chapter 189, the state board of health, section 191.400, the student loan program, sections 191.500 to 191.550, the family practice residency program, the licensure and certification of hospitals, chapter 197, the Missouri chest hospital, sections 199.010 to 199.070**, are hereby transferred to the department of health and senior services by a type I transfer, and the state cancer center and cancer commission, chapter 200, is hereby transferred to the department of health and senior services by a type III transfer as such transfers are defined in section 1 of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo Supp. 1984. The provisions of section 1 of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo Supp. 1984, relating to the manner and procedures for transfers of state agencies shall apply to the transfers provided in this section. The division of health of the department of social services is abolished. The department of health and senior services shall have the duties and powers set forth in sections 195.900 to 195.985.

195.018. The provisions of section 195.017 shall not apply to any product used as authorized by sections 195.900 to 195.985.

195.202. 1. Except as authorized by sections 195.005 to 195.425 and sections 195.900 to 195.985, it is unlawful for any person to possess or have under his control a controlled substance.

2. Any person who violates this section with respect to any controlled substance except thirty-five grams or less of marijuana or any synthetic cannabinoid is guilty of a class C felony.

3. Any person who violates this section with respect to not more than thirty-five grams of marijuana or any synthetic cannabinoid is guilty of a class A misdemeanor.

195.211. 1. Except as authorized by sections 195.005 to 195.425 and sections 195.900 to 195.985, and except as provided in section 195.222, it is unlawful for any person to distribute, deliver, manufacture, produce or attempt to distribute, deliver, manufacture or produce a

controlled substance or to possess with intent to distribute, deliver, manufacture, or produce a controlled substance.

2. Any person who violates or attempts to violate this section with respect to manufacturing or production of a controlled substance of any amount except for five grams or less of marijuana in a residence where a child resides or within two thousand feet of the real property comprising a public or private elementary or public or private elementary or secondary school, public vocational school or a public or private community college, college or university, or any school bus is guilty of a class A felony.

3. Any person who violates or attempts to violate this section with respect to any controlled substance except five grams or less of marijuana is guilty of a class B felony.

4. Any person who violates this section with respect to distributing or delivering not more than five grams of marijuana is guilty of a class C felony.

195.222. 1. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than thirty grams of a mixture or substance containing a detectable amount of heroin. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is ninety grams or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

2. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than one hundred fifty grams of a mixture or substance containing a detectable amount of coca leaves, except coca leaves and extracts of coca leaves from which cocaine, ecgonine, and derivatives of ecgonine or their salts have been removed; cocaine salts and their optical and geometric isomers, and salts of isomers; ecgonine, its derivatives, their salts, isomers, and salts of isomers; or any compound, mixture, or preparation which contains any quantity of any of the foregoing substances. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than one hundred fifty grams but less than four hundred fifty grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is four hundred fifty grams or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

3. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than eight grams of a mixture or substance described in subsection 2 of this section which contains cocaine base. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than eight grams but less than twenty-four grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is twenty-four grams or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

4. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than five hundred milligrams of a mixture or substance containing a detectable amount of lysergic acid diethylamide (LSD). Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than five hundred milligrams but less than one gram the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is one gram or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

5. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than thirty grams of a mixture or substance containing a detectable amount of phencyclidine (PCP). Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is ninety grams or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

6. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than four grams of phencyclidine. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than four grams but less than twelve grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is twelve grams or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

7. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425[, he] and sections 195.900 to 195.985, such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than thirty kilograms of a mixture or substance containing marijuana. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty kilograms but less than one hundred kilograms the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is one hundred kilograms or more the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

8. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than thirty grams of any material, compound, mixture or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system: amphetamine, its salts, optical isomers and salts of its optical isomers; methamphetamine, its salts, optical isomers and salts of its optical isomers; phenmetrazine and its salts; or methylphenidate. Violations of this subsection or attempts to violate this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is ninety grams or more, or if the quantity involved was thirty grams or more and the location of the offense was within two thousand feet of a school or public housing as defined in section 195.214 or section 195.218 or within a motor vehicle, or any structure or building which contains rooms furnished for the accommodation or lodging of guests, and kept, used, maintained, advertised, or held out to the public as a place where sleeping accommodations are sought for pay or compensation to transient guests or permanent guests, the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

9. A person commits the crime of trafficking drugs in the first degree if, except as authorized by sections 195.005 to 195.425, [he or she] such person distributes, delivers, manufactures, produces or attempts to distribute, deliver, manufacture or produce more than thirty grams of any material, compound, mixture or preparation which contains any quantity of

3,4-methylenedioxymethamphetamine. Violations of this subsection or attempts to violate this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be sentenced to the authorized term of imprisonment for a class A felony;

(2) If the quantity involved is ninety grams or more, or if the quantity involved was thirty grams or more and the location of the offense was within two thousand feet of a school or public housing as defined in section 195.214 or section 195.218 or within a motor vehicle, or any structure or building which contains rooms furnished for the accommodation or lodging of guests, and kept, used, maintained, advertised, or held out to the public as a place where sleeping accommodations are sought for pay or compensation to transient guests or permanent guests, the person shall be sentenced to the authorized term of imprisonment for a class A felony which term shall be served without probation or parole.

195.223. 1. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than thirty grams of a mixture or substance containing a detectable amount of heroin. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be guilty of a class B felony;

(2) If the quantity involved is ninety grams or more the person shall be guilty of a class A felony.

2. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than one hundred fifty grams of a mixture or substance containing a detectable amount of coca leaves, except coca leaves and extracts of coca leaves from which cocaine, ecgonine, and derivatives of ecgonine or their salts have been removed; cocaine salts and their optical and geometric isomers, and salts of isomers; ecgonine, its derivatives, their salts, isomers, and salts of isomers; or any compound, mixture, or preparation which contains any quantity of any of the foregoing substances. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than one hundred fifty grams but less than four hundred fifty grams the person shall be guilty of a class B felony;

(2) If the quantity involved is four hundred fifty grams or more the person shall be guilty of a class A felony.

3. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than eight grams of a

mixture or substance described in subsection 2 of this section which contains cocaine base. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than eight grams but less than twenty-four grams the person shall be guilty of a class B felony;

(2) If the quantity involved is twenty-four grams or more the person shall be guilty of a class A felony.

4. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than five hundred milligrams of a mixture or substance containing a detectable amount of lysergic acid diethylamide (LSD). Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than five hundred milligrams but less than one gram the person shall be guilty of a class B felony;

(2) If the quantity involved is one gram or more the person shall be guilty of a class A felony.

5. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than thirty grams of a mixture or substance containing a detectable amount of phencyclidine (PCP). Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be guilty of a class B felony;

(2) If the quantity involved is ninety grams or more the person shall be guilty of a class A felony.

6. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than four grams of phencyclidine. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than four grams but less than twelve grams the person shall be guilty of a class B felony;

(2) If the quantity involved is twelve grams or more the person shall be guilty of a class A felony.

7. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425[, he] and sections 195.900 to 195.985, such person

possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than thirty kilograms or more of a mixture or substance containing marijuana. Violations of this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty kilograms but less than one hundred kilograms the person shall be guilty of a class B felony;

(2) If the quantity involved is one hundred kilograms or more the person shall be guilty of a class A felony.

8. A person commits the class A felony of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425[, he] and sections 195.900 to 195.985, such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than five hundred marijuana plants.

9. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than thirty grams of any material, compound, mixture or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system: amphetamine, its salts, optical isomers and salts of its optical isomers; methamphetamine, its salts, isomers and salts of its isomers; phenmetrazine and its salts; or methylphenidate. Violations of this subsection or attempts to violate this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be guilty of a class B felony;

(2) If the quantity involved is ninety grams or more but less than four hundred fifty grams, the person shall be guilty of a class A felony;

(3) If the quantity involved is four hundred fifty grams or more, the person shall be guilty of a class A felony and the term of imprisonment shall be served without probation or parole.

10. A person commits the crime of trafficking drugs in the second degree if, except as authorized by sections 195.005 to 195.425, [he or she] such person possesses or has under his or her control, purchases or attempts to purchase, or brings into this state more than thirty grams of any material, compound, mixture or preparation which contains any quantity of 3,4-methylenedioxymethamphetamine. Violations of this subsection or attempts to violate this subsection shall be punished as follows:

(1) If the quantity involved is more than thirty grams but less than ninety grams the person shall be guilty of a class B felony;

(2) If the quantity involved is ninety grams or more but less than four hundred fifty grams, the person shall be guilty of a class A felony;

(3) If the quantity involved is four hundred fifty grams or more, the person shall be guilty of a class A felony and the term of imprisonment shall be served without probation or parole.

195.900. 1. Sections 195.900 to 195.985 shall be known and may be cited as the "Missouri Patient Care Act".

2. (1) Sections 195.900 to 195.985 shall be deemed an exercise of the police powers of the state for the protection of the economic and social welfare and the health, peace, and morals of the people of this state.

(2) It shall be unlawful under state law to cultivate, manufacture, distribute, test, possess, or sell medical cannabis, except in compliance with the terms, conditions, limitations, and restrictions in sections 195.900 to 195.985.

(3) This section is intended to permit state-licensed physicians to certify that a patient has a qualifying medical condition and that the physician is treating or managing treatment of the patient's qualifying medical condition in the course of a bona fide physician-patient relationship, after the physician has completed an assessment of the qualifying patient's medical history, reviewed relevant records related to the patient's qualifying medical condition, and conducted a physical examination.

(4) This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale, possession, and purchase of cannabis for medical use. This section is not intended to change current civil and criminal laws governing the use of cannabis for nonmedical purposes. The section does not allow for the public use of cannabis and driving under the influence of cannabis.

3. As used in sections 195.900 to 195.985, the following terms shall mean:

(1) "Adequate supply", 2.5 ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a period of fourteen days or 5 ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a period of 30 days and that is derived solely from a licensed intrastate source. Subject to the rules of the department of health and senior services, a patient may apply for a waiver to possess more than 2.5 ounces for a fourteen-day period if a physician provides a substantial medical basis in a signed written statement asserting that, based on the patient's medical history and in the physician's professional judgment, 2.5 ounces is an insufficient adequate supply for a fourteen-day period to properly alleviate the patient's qualifying medical condition or symptoms associated with the qualifying medical condition. A qualifying patient may possess no more than a sixty-day supply of cannabis flower or its equivalent in cannabis concentrate or cannabis product.

(2) "Administer", the direct application of cannabis to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming cannabis-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(3) "Cannabis", all parts of the plant genus Cannabis in any species or form thereof, including, but not limited to, Cannabis Sativa L., Cannabis Indica, Cannabis Americana, Cannabis Ruderalis, and Cannabis Gigantea, whether growing or not, the seeds thereof, the resin extracted from any part of the plant; and every compound, manufacture, derivative, mixture, or preparation of the plant, its seeds or resin. It does not include the mature stalks of the plant; fiber produced from the stalks; oil or cake made from the seeds of the plant; any other compound, manufacture, salt, derivative, mixture, or preparation of the mature stalks except the resin extracted therefrom; fiber, oil, or cake; or the sterilized seed of the plant which is incapable of germination.

(4) "Cannabis plant monitoring system", an electronic seed-to-sale tracking system that includes, but is not limited to, testing and data collection established and maintained by the licensed medical cannabis cultivation and production facility and the medical cannabis center and available to the division for the purposes of documenting each cannabis plant and for monitoring plant development throughout the life cycle of a cannabis plant cultivated for the intended use by a qualifying patient from seed planting, cloning, or other method of propagation, to final packaging and sale to a qualifying patient.

(5) "Cannabis products", concentrated cannabis, cannabis extracts, and products that are infused with cannabis or an extract thereof and are intended for use or consumption. The term includes, without limitation, edible cannabis products, beverages, topical products, ointments, oils, and tinctures.

(6) "Caregiver", a natural person, other than the qualifying patient or the qualifying patient's physician, who is twenty-one years of age or older and has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the caregiver's application for an identification card under this section.

(7) "Department", the department of health and senior services.

(8) "Division", the division of alcohol and tobacco control within the department of public safety.

(9) "Entity", a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability

company, general or limited partnership, limited liability partnership, joint venture, or any other entity.

(10) "Good cause", for purposes of refusing or denying a license renewal, reinstatement, or initial license issuance:

(a) The license applicant has violated, does not meet, or has failed to comply with any of the terms, conditions, or provisions of sections 195.900 to 195.985, any rules promulgated thereunder, or any supplemental local law, rules, or regulations;

(b) The licensee or applicant has failed to comply with any special terms or conditions that were placed on its license under an order of the state or local licensing authority; or

(c) The licensed premises have been operated in a manner that adversely affects the public health or welfare or the safety of the immediate neighborhood in which the establishment is located.

(11) "License", a license or registration under sections 195.900 to 195.985.

(12) "Licensed premises", the premises specified in an application for a license under sections 195.900 to 195.985, which are owned or in possession of the licensee and within which the licensee is authorized to cultivate, manufacture, distribute, test, possess, or sell medical cannabis in accordance with the provisions of sections 195.900 to 195.985.

(13) "Licensee", a person licensed or registered under sections 195.900 to 195.985.

(14) "Limited access area", a building, room, or other contiguous area upon the licensed premises where medical cannabis is grown, cultivated, stored, weighed, displayed, packaged, sold, or possessed for sale, under control of the licensee, with limited access to only those persons licensed by the division, and visitors and vendors as provided by rule. All areas of ingress or egress to limited access areas shall be clearly identified as such by a sign as designated by the division.

(15) "Local licensing authority", an authority designated by municipal or county charter or ordinance.

(16) "Medical cannabis", cannabis that is grown and sold under sections 195.900 to 195.985 for a purpose authorized under sections 195.900 to 195.985.

(17) "Medical cannabis center", a person licensed under sections 195.900 to 195.985 to operate a business as described in sections 195.900 to 195.985 that acquires, possesses, stores, delivers, transfer, transports, sells, supplies or dispenses cannabis, cannabis products, medical cannabis, paraphernalia or related supplies to registered qualifying patients or caregivers, or other licensed medical cannabis centers.

(18) "Medical cannabis cultivation and production facility", a person licensed under sections 195.900 to 195.985 to operate a business as described in section 195.954.

(19) "Medical cannabis-infused product", a product infused with medical cannabis that is intended for use or consumption other than by smoking, including, but not limited to edible cannabis products, beverages, topical products, ointments, oils, and tinctures or smokeless vaporizing devices. Such products, when manufactured or sold by a licensed medical cannabis center, shall not be considered a drug for the purposes of chapter 196.

(20) "Medical cannabis testing facility", an independent entity licensed, approved, and certified by the division pursuant to this act to analyze the safety and potency of cannabis and as otherwise provided under sections 195.900 to 195.985.

(21) "Medical use", the production, possession, distribution, transportation, or administration of cannabis or a cannabis-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(22) "Person", a natural person, partnership, association, company, corporation, limited liability company, or organization, or a manager, agent, owner, director, servant, officer, or employee thereof.

(23) "Premises", a distinct and definite location, which may include a building, a part of a building, a room, or any other definite contiguous area.

(24) "Qualifying medical condition", the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including, but not limited to, those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that

medical use of cannabis could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis (ALS), inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(25) "Qualifying patient", a Missouri resident diagnosed with at least one qualifying medical condition.

(26) "Smokeless vaporizing device", a medical-grade vaporizer delivery device capable of administering the active ingredients of a metered dose of medical cannabis via inhalation without combustion by-products.

(27) "State licensing authority", the division of alcohol and tobacco control which is responsible for regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state.

(28) "Written certification", a document dated and signed by a physician, stating:

(a) That the qualifying patient has a qualifying medical condition and specifying the qualifying medical condition the qualifying patient has; and

(b) That the physician is treating or managing treatment of the patient's qualifying medical condition.

195.903. 1. For the purpose of regulating and controlling the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state, the division of alcohol and tobacco control is hereby designated as the state licensing authority.

2. The state supervisor of the division may employ such officers and employees as may be determined to be necessary, with such officers and employees being part of the division. No moneys shall be appropriated to the division from the general revenue fund for the operation of sections 195.900 to 195.985, nor shall the division expend any general revenue fund moneys for the operation of sections 195.900 to 195.985. Notwithstanding any other provision of law, the division, the Commissioner of Administration, and the State Treasurer are authorized to receive and disburse funds from any source, public or private, as may assist the prompt implementation of this Act.

195.906. 1. The division shall:

(1) Grant or refuse state licenses for the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis as provided by law; suspend, fine, restrict, or revoke

such licenses upon a violation of sections 195.900 to 195.985, or a rule promulgated under sections 195.900 to 195.985; and impose any penalty authorized by sections 195.900 to 195.985, or any rule promulgated under sections 195.900 to 195.985. The division may take any action with respect to a registration under sections 195.900 to 195.985 as it may with respect to a license under sections 195.900 to 195.985, in accordance with the procedures established under sections 195.900 to 195.985;

(2) Establish, revise, and amend rules and regulations as necessary to carry into effect the provisions of sections 195.900 to 195.985;

(3) Upon denial of a state license, provide written notice of the grounds for such denial of a state license to the applicant and to the local authority and the right of the applicant to a hearing before the administrative hearing commission under subsection 2 of section 195.924;

(4) Maintain the confidentiality of patient records, reports obtained from licensees showing the sales volume or quantity of medical cannabis sold, or any other records that are exempt from inspection under state law;

(5) Develop such forms, licenses, identification cards, and applications as are necessary in the discretion of the division for the administration of sections 195.900 to 195.985 or any of the rules promulgated under sections 195.900 to 195.985; and

(6) Prepare and submit an annual report accounting to the governor for the efficient discharge of all responsibilities assigned by law or directive to the state licensing authority.

2. (1) Rules promulgated under subdivision (2) of subsection 1 of this section shall include, but not be limited to, the following:

(a) Compliance with, enforcement, or violation of any provision of sections 195.900 to 195.985, or any rule issued under sections 195.900 to 195.985, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license issued under sections 195.900 to 195.985;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions for local licensing authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed under sections 195.900 to 195.985, including a fingerprint-based criminal record check as may be required by the division prior to issuing a card;

(i) Identification of state licensees and their owners, officers, managers, and employees;

(j) Security requirements for any premises licensed under sections 195.900 to 195.985, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the division to properly administer and enforce the provisions of sections 195.900 to 195.985, including reporting requirements for changes, alterations, or modifications to the premises;

(k) Regulation of the storage of, warehouses for, and transportation of medical cannabis;

(l) Sanitary requirements for medical cannabis centers and medical cannabis cultivation and production facilities, including, but not limited to, sanitary requirements for the preparation of medical cannabis-infused products;

(m) The specification of acceptable forms of picture identification that a medical cannabis center may accept when verifying a sale;

(n) Labeling standards, including, but not limited to, the serving size of active THC per serving and total servings per package;

(o) Testing standards;

(p) Records to be kept by licensees and the required availability of the records;

(q) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(r) The reporting and transmittal of monthly sales tax payments by medical cannabis centers;

(s) Authorization for the department of revenue to have access to licensing information to ensure sales and income tax payment and effective administration of sections 195.900 to 195.985;

(t) Authorization for the division to impose administrative penalties and procedures of issuing, appealing, and creating a violation list and schedule of administrative penalties; and

(u) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of sections 195.900 to 195.985.

(2) The prompt implementation of this Missouri Patient Care Act is necessary to avoid immediate danger to the public health, safety and welfare. The division is authorized to use the emergency rulemaking procedures set out in section 536.025, and shall promulgate emergency rules by March 6, 2019, and also to file a notice of rulemaking as provided in section 536.025 by March 6, 2019.

(3) Nothing in sections 195.900 to 195.985 shall be construed as delegating to the division the power to fix prices for medical cannabis.

195.909. 1. A local licensing authority may issue only the following medical cannabis licenses upon payment of the fee and compliance with all local licensing requirements to be determined by the local licensing authority:

(1) A medical cannabis center license; and

(2) A medical cannabis cultivation and production facility license.

2. (1) A local licensing authority shall not issue a local license within a municipality or the unincorporated portion of a county unless the governing body of the municipality has adopted an ordinance or the governing body of the county has adopted a resolution containing specific standards for license issuance, or if no such ordinance or resolution is adopted prior to June 1, 2019, a local licensing authority shall consider the minimum licensing requirements of this section when issuing a license.

(2) In addition to all other standards applicable to the issuance of licenses under sections 195.900 to 195.985, the local governing body may adopt additional standards for the issuance of medical cannabis center or medical cannabis cultivation and production facility licenses consistent with the intent of sections 195.900 to 195.985 that may include, but not be limited to:

(a) Distance restrictions between premises for which local licenses are issued; and

(b) Any other requirements necessary to ensure the control of the premises and the ease of enforcement of the terms and conditions of the license.

3. Local governments may limit the use of land for operation of medical cannabis centers and medical cannabis cultivation and production facilities to specified areas as to time, place, and manner of such facilities. Local zoning approval shall be made by the governing body of the municipality if the premises are located in the municipality, or by the governing body of the county if the premises are located in the unincorporated portion of the county. The operation of sections 195.900 to 195.985 shall be statewide unless a municipality, county, or city, by a two-thirds majority of the registered voters voting at a regular election or special election called in accordance with state law, vote to prohibit the operation of medical cannabis centers and medical cannabis cultivation and production facilities in the municipality, county, or city.

4. An application for a license specified in subsection 1 of this section shall be filed with the appropriate local licensing authority on forms provided by the state licensing authority and

shall contain such information as the state licensing authority may require and any forms as the local licensing authority may require. Each application shall be verified by the oath or affirmation of the persons prescribed by the state licensing authority.

5. An applicant shall file with the application for a local license, plans and specifications for the interior of the building if the building to be occupied is in existence at the time. If the building is not in existence, the applicant shall file a plot plan and a detailed sketch for the interior and submit an architect's drawing of the building to be constructed. In its discretion, the local or state licensing authority may impose additional requirements necessary for the approval of the application.

195.912. 1. Upon receipt of an application for a local license, except an application for renewal or for transfer of ownership, a local licensing authority shall schedule and hold a public hearing upon the application to be held not less than thirty days after the date of the application, but not more than ninety days from the date of the application. If the local licensing authority fails to hold a public hearing within such time lines, the application shall be considered approved. If the local licensing authority schedules a hearing for a medical cannabis center application and/or a medical cannabis cultivation and production facility application, it shall post and publish public notice thereof not less than ten days prior to the hearing. The local licensing authority shall give public notice by the posting of a sign in a conspicuous place on the medical cannabis center premises and/or the medical cannabis cultivation and production facility premises for which application has been made and by publication in a newspaper of general circulation in the county in which the medical cannabis center premises and/or the medical cannabis cultivation and production premises are located.

2. Public notice given by posting shall include a sign of suitable material, not less than twenty-two inches wide and twenty-six inches high, composed of letters not less than one inch in height and stating the type of license applied for, the date of the hearing, the name and address of the applicant, and such other information as may be required to fully apprise the public of the nature of the application. The sign shall contain the names and addresses of the officers, directors, or manager of the facility to be licensed.

3. Public notice given by publication shall contain the same information as that required for signs.

4. If the building in which medical cannabis is to be cultivated, manufactured, distributed, possessed, or sold is in existence at the time of the application, a sign posted as required in subsections 1 and 2 of this section shall be placed so as to be conspicuous and plainly visible to the general public. If the building is not constructed at the time of the application, the applicant shall post a sign at the premises upon which the building is to be constructed in such a manner that the notice shall be conspicuous and plainly visible to the general public.

5. (1) A local licensing authority, or a license applicant with the authorization of the local licensing authority, may request that the state licensing authority conduct a concurrent review of a new license application prior to the local licensing authority's final approval of the license

application. Local licensing authorities who permit concurrent review shall continue to independently review the applicant's license application.

(2) When conducting a concurrent application review, the state licensing authority may advise the local licensing authority of any items it finds that may result in the denial of the license application. Upon correction of the noted discrepancies if the correction is permitted by the state licensing authority, the state licensing authority shall notify the local licensing authority of its conditional approval of the license application subject to the final approval by the local licensing authority. The state licensing authority shall then issue the applicant's state license upon receiving evidence of final approval by the local licensing authority.

(3) All applications submitted for concurrent review shall be accompanied by all applicable state license and application fees. Any applications which are later denied or withdrawn may allow for a refund of license fees only. All application fees provided by an applicant shall be retained by the respective licensing authority.

195.915. 1. Not less than five days prior to the date of the public hearing authorized in section 195.912, the local licensing authority shall make known its findings, based on its investigation, in writing to the applicant and other parties of interest. The local licensing authority has authority to refuse to issue a license provided for in this section for good cause, subject to judicial review.

2. Before entering a decision approving or denying the application for a local license, the local licensing authority may consider, except where sections 195.900 to 195.985 specifically provides otherwise, the facts and evidence adduced as a result of its investigation, as well as any other facts pertinent to the type of license for which application has been made, including the number, type, and availability of medical cannabis outlets located in or near the premises under consideration, and any other pertinent matters affecting the qualifications of the applicant for the conduct of the type of business proposed. A local licensing authority may only issue a medical cannabis center license and a medical cannabis cultivation and production facility license upon payment of the fee and compliance with all local licensing authority.

3. Within thirty days after the public hearing or completion of the application investigation, a local licensing authority shall issue its decision approving or denying an application for local licensure. The decision shall be in writing and shall state the reasons for the decision. The local licensing authority shall send a copy of the decision by certified mail to the applicant at the address shown on the application.

4. After approval of an application, a local licensing authority shall not issue a local license until the building in which the business to be conducted is ready for occupancy with such furniture, fixtures, and equipment in place as are necessary to comply with the applicable provisions of sections 195.900 to 195.985, and then only after the local licensing authority has inspected the premises to determine that the applicant has complied with the architect's drawing and the plot plan and detailed sketch for the interior of the buildings submitted with the application.

5. After approval of an application for local licensure, the local licensing authority shall notify the state licensing authority of such approval, who shall investigate and either approve or disapprove the application for state licensure.

195.918. 1. (1) The division may restrict the number of licenses granted for medical cannabis cultivation and production facilities, provided, however, that number may not be limited to fewer than one license per every one hundred thousand inhabitants of the state of Missouri, according to the most recent census of the United States. Each facility in operation shall require a separate license but multiple licenses may be utilized in a premises. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. No more than three medical cannabis and production facility licenses shall be issued to any person under substantially common control, ownership, or management. At least one medical cannabis center license shall be issued for each medical cannabis cultivation and production facility license.

(2) The division may restrict the numbers of licenses granted for medical cannabis centers, provided, however, that number may not be limited to fewer than one license per every one hundred thousand inhabitants of the state of Missouri, according to the most recent census of the United States, except that, an applicant for a medical cannabis center license may be approved for an additional two medical cannabis center licenses in accordance with subdivision (3) of this subsection. Such additional medical cannabis center licenses shall not be counted toward the statewide limit for medical cannabis centers. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause.

(3) Licenses shall be geographically disbursed by the division, in consultation with the department of health and senior services, based on the demographics of the state and patient demand to ensure statewide access for patients. If more than the statewide limit for medical cannabis centers are necessary to provide sufficient patient access, a medical cannabis cultivation and production facility licensee may be approved for up to an additional two medical cannabis center licenses, subject to approval by the local licensing authority and the division.

2. Before the division of alcohol and tobacco control issues a state license to an applicant, the applicant shall procure and file with the division evidence of a good and sufficient bond in the amount of five thousand dollars with corporate surety thereon duly licensed to do business with the state, approved as to form by the state attorney general, and conditioned that the applicant shall report and pay all sales and use taxes due to the state, or for which the state is the collector or collecting agent, in a timely manner, as provided in law.

3. A corporate surety shall not be required to make payments to the state claiming under such bond until a final determination of failure to pay taxes due to the state has been made by the division or a court of competent jurisdiction.

4. All bonds required under this section shall be renewed at such time as the bondholder's license is renewed. The renewal may be accomplished through a continuation certificate issued by the surety.

195.921. 1. Applications for a state license under the provisions of sections 195.900 to 195.985 shall be made to the division on forms prepared and furnished by the division and shall set forth such information as the division may require to enable the division to determine whether a state license shall be granted. The information shall include the name and address of the applicant, the names and addresses of the officers, directors, or managers, and all other information deemed necessary by the division. Each application shall be verified by the oath or affirmation of such person or persons as the division may prescribe.

2. Within one hundred eighty days of the effective date of this section, the division shall make available to the public license application forms and application instructions for medical cannabis cultivation and production facilities, medical cannabis center facilities, and medical cannabis testing facilities. The division shall begin accepting license and certification applications no later than two hundred forty days after the effective date of this section. Applications for licenses and certifications shall be approved or denied by the division no later than one hundred twenty days after their submission.

3. The division shall not issue a state license under this section until the local licensing authority has approved the application for a local license and issued a local license as provided for in sections 195.909 to 195.918.

4. Nothing in sections 195.900 to 195.985 shall preempt or otherwise impair the power of a local government to enact ordinances or resolutions concerning matters authorized to local governments.

195.924. 1. The division shall deny a state license if the premises on which the applicant proposes to conduct its business does not meet the requirements of sections 195.900 to 195.985.

2. If the division denies a state license under subsection 1 of this section, the applicant shall be entitled to a hearing before the administrative hearing commission. The division shall provide written notice of the grounds for denial of the state license to the applicant and to the local licensing authority at least fifteen days prior to the hearing.

195.927. 1. A license provided by sections 195.900 to 195.985 shall not be issued to or held by:

(1) A person until the annual fee has been paid;

(2) A person under twenty-one years of age;

(3) A person licensed under sections 195.900 to 195.985 who during a period of licensure or who at the time of application has failed to:

(a) Provide a surety bond, proof of assets, or file any tax return with a taxing agency;

(b) Avoid delinquency in the payment of any state income taxes, personal property taxes, municipal taxes, or real property taxes;

(c) Pay any judgments due to a government agency;

(d) Stay out of default on a government-issued student loan;

(e) Pay child support; or

(f) Remedy an outstanding delinquency for taxes owed, an outstanding delinquency for judgments owed to a government agency, or an outstanding delinquency for child support.

(4) A person who has discharged a sentence in the ten years immediately preceding the application date for a conviction of a felony or a person who at any time has been convicted of a felony under any state or federal law regarding the possession, distribution, or use of a controlled substance;

(5) A person who employs another person at a medical cannabis center, a medical cannabis cultivation and production facility, or a medical cannabis testing facility who has not passed a criminal background check;

(6) A sheriff, deputy sheriff, police officer, or prosecuting officer, or any officer or employee of the division or a local licensing authority;

(7) A person whose authority to be a caregiver as defined in sections 195.900 to 195.985 has been revoked by the department; or

(8) A person who holds a license for a location that is currently licensed as a retail food establishment or wholesale food registrant.

2. The provisions of section 324.010.1 shall apply to sections 195.900 to 195.985.

3. All medical cannabis cultivation and production facility licensees and all medical cannabis center licensees shall be held by entities that are sixty percent or more owned by natural persons who have been bona fide residents of the state of Missouri for at least three years continuously immediately prior to the date of filing of application for such licenses. Notwithstanding the foregoing, medical cannabis cultivation and production facility licensees and medical cannabis center licensees may be held by entities with no greater than a forty percent interest owned by natural persons who have not been citizens of the state of Missouri for at least three years continuously immediately prior to the date of filing of application for such licenses.

4. (1) In investigating the qualifications of an applicant or a licensee, the division shall have access to criminal background check information furnished by a criminal justice agency subject to any restrictions or costs imposed by such agency. In addition to considering the applicant's criminal background check information, the division shall also consider any

information provided by the applicant regarding such criminal background check, including, but not limited to, evidence of rehabilitation, character references, and educational achievements, especially those items pertaining to the period of time between the applicant's last criminal conviction and the consideration of the application for a state license.

(2) As used in subdivision (1) of this subsection, "criminal justice agency" means any federal, state, or municipal court or any governmental agency or subunit of such agency that administers criminal justice under a statute or executive order and that allocates a substantial part of its annual budget to the administration of criminal justice.

(3) At the time of filing an application for issuance or renewal of a state medical cannabis center license, a medical cannabis cultivation and production facility license, or a medical cannabis testing facility license, an applicant shall submit a set of his or her fingerprints and file personal history information concerning the applicant's qualifications for a state license on forms prepared by the division. The division shall submit the fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol shall forward the fingerprints to the Federal Bureau of Investigation for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted in accordance with section 43.543, and fees shall be paid in accordance with section 43.530. The division may acquire a name-based criminal background check for an applicant or a license holder who has twice submitted to a fingerprint-based criminal background check and whose fingerprints are unclassifiable. The division shall use the information resulting from the fingerprint-based criminal history record check to investigate and determine whether an applicant is qualified to hold a state license under sections 195.900 to 195.985. The division may verify any of the information an applicant is required to submit.

195.930. The division or a local licensing authority shall not receive or act upon an application for the issuance of a state or local license under sections 195.900 to 195.985:

(1) If the application for a state or local license concerns a particular location that is the same as or within one thousand feet of a location for which, within the two years immediately preceding the date of the application, the division or a local licensing authority denied an application for the same class of license due to the nature of the use or other concern related to the location;

(2) Until it is established that the applicant is or shall be entitled to possession of the premises for which application is made under a lease, rental agreement, or other arrangement for possession of the premises or by virtue of ownership of the premises;

(3) For a location in an area where the cultivation, manufacture, and sale of medical cannabis as contemplated is not permitted under the applicable local zoning laws of the municipality or county; or

(4) (a) If the building in which medical cannabis is to be cultivated, produced, or sold is located within one thousand feet of, the real property comprising a public or private elementary, vocational, or secondary school or a public or private college, junior college, or university, or a

playground, or housing facility owned by a public housing authority, or a licensed child care facility, or within 100 feet of a public or private youth center, public swimming pool, or video arcade facility. The provisions of this subdivision shall not affect the renewal or reissuance of a license once granted nor shall the provisions of this subdivision apply to a license in effect and actively doing business before such school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade was constructed.

(b) The distances referred to in this subdivision are to be computed by direct measurement from the nearest property line of the land used for a school, college, university, playground, housing facility, licensed child care facility, youth center, public swimming pool, or video arcade to the nearest portion of the building in which medical cannabis is to be cultivated, produced, or sold.

(c) In addition to the requirements of section 195.909, the local licensing authority shall consider the evidence and make a specific finding of fact as to whether the building in which the medical cannabis is to be cultivated, produced, or sold is located within the distance restrictions established by or under this subdivision.

195.933. 1. A state or local license granted under the provisions of sections 195.900 to 195.985 shall not be transferable except as provided in this section, but this section shall not prevent a change of location as provided in subsection 13 of section 195.936.

2. For a transfer of ownership, a license holder shall apply to the division and the local licensing authority on forms prepared and furnished by the division. In determining whether to permit a transfer of ownership, the division and the local licensing authority shall consider only the requirements of sections 195.900 to 195.985, any rules promulgated by the division, and any other local restrictions. The local licensing authority may hold a hearing on the application for transfer of ownership. The local licensing authority shall not hold a hearing under this subsection until the local licensing authority has posted a notice of hearing in the manner described in section 195.912 on the licensed medical cannabis center premises and/or the medical cannabis cultivation and production facility for a period of ten days and has provided notice of the hearing to the applicant at least ten days prior to the hearing. Any transfer of ownership hearing by the division shall be held in compliance with the requirements specified in section 195.912.

195.936. 1. Sections 195.900 to 195.985 authorize a county or municipality to enact reasonable regulations or other restrictions applicable to licenses of medical cannabis centers and medical cannabis cultivation and production facilities based on local zoning, health, safety, and public welfare laws for the distribution of medical cannabis that are more restrictive than sections 195.900 to 195.985.

2. A medical cannabis center and a medical cannabis cultivation and production facility shall not operate unless licensed by the local licensing authority and the state licensing authority under sections 195.900 to 195.985. In connection with a license, the applicant shall provide a complete and accurate list of all owners, officers, and employees

who work at, manage, own, or are otherwise associated with the operation and shall provide a complete and accurate application as required by the division.

3. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing within ten days after an owner, officer, or employee ceases to work at, manage, own, or otherwise be associated with the operation. The owner, officer, or employee shall surrender his or her identification card to the division on or before the date of the notification.

4. A medical cannabis center and a medical cannabis cultivation and production facility shall notify the division in writing of the name, address, and date of birth of an owner, officer, manager, or employee before the new owner, officer, manager, or employee begins working at, managing, owning, or begins an association with the operation. The owner, officer, manager, or employee shall pass a fingerprint-based criminal background check as required by the division and obtain the required identification prior to being associated with, managing, owning, or working at the operation.

5. A medical cannabis center and a medical cannabis cultivation and production facility shall not acquire, possess, cultivate, deliver, transfer, transport, supply, or dispense cannabis for any purpose except to assist patients with qualifying medical conditions or to test the product at a medical cannabis testing facility, or as otherwise provided in section 195.900 to 195.985.

6. All owners of a licensed medical cannabis center and a licensed medical cannabis cultivation and production facility shall be authorized to do business in Missouri. A local licensing authority shall not issue a license provided for in sections 195.900 to 195.985 until that share of the license application fee due to the state has been received by the division. All licenses granted under sections 195.900 to 195.985 shall be valid for a period not to exceed one year from the date of issuance unless revoked or suspended under sections 195.900 to 195.985 or the rules promulgated under sections 195.900 to 195.985.

7. Before granting a local or state license, the respective licensing authority may consider, except where sections 195.900 to 195.985 specifically provide otherwise, the requirements of sections 195.900 to 195.985 and any rules promulgated under sections 195.900 to 195.985, and all other reasonable restrictions that are or may be placed upon the licensee by the licensing authority. With respect to a second or additional license for the same licensee or the same owner of another licensed business under sections 195.900 to 195.985, each licensing authority shall consider the effect on competition of granting or denying the additional licenses to such licensee and shall not approve an application for a second or additional license that has the effect of restraining competition.

8. (1) Each license issued under sections 195.900 to 195.985 is separate and distinct. It is unlawful for a person to exercise any of the privileges granted under a license other than the license that the person holds or for a licensee to allow any other person to exercise the privileges granted under the licensee's license. A separate license shall be required for each specific business or business entity and each geographical location.

(2) At all times, a licensee shall possess and maintain possession of the premises for which the license is issued by ownership, lease, rental, or other arrangement for possession of the premises.

9. (1) The licenses provided under sections 195.900 to 195.985 shall specify the date of issuance, the period of licensure, the name of the licensee, and the premises licensed. The licensee shall conspicuously display the license at all times on the licensed premises.

(2) A local licensing authority shall not transfer location of or renew a license to sell medical cannabis until the applicant for the license produces a license issued and granted by the state licensing authority covering the whole period for which a license or license renewal is sought.

10. In computing any period of time prescribed by sections 195.900 to 195.985, the day of the act, event, or default from which the designated period of time begins to run shall not be included. Saturdays, Sundays, and legal holidays shall be counted as any other day.

11. A licensee shall report each transfer or change of financial interest in the license to the division and the local licensing authority thirty days prior to any transfer or change under subsection 13 of this section. A report shall be required for transfers of capital stock of any corporation, regardless of size.

12. Each licensee shall manage the licensed premises himself or herself or employ a separate and distinct manager on the premises and shall report the name of the manager to the division and the local licensing authority. The licensee shall report any change in manager to the division and local licensing authority thirty days prior to such change.

13. (1) A licensee may move his or her permanent location to any other place in the same municipality for which the license was originally granted, or in the same county if the license was granted for a place outside the corporate limits of a municipality, but it shall be unlawful to cultivate, manufacture, distribute, possess, or sell medical cannabis at any such place until permission to do so is granted by the division and the local licensing authority provided for in sections 195.900 to 195.985.

(2) In permitting a change of location, the division and the local licensing authority shall consider all reasonable restrictions that are or may be placed upon the new location by the governing body or local licensing authority of the municipality or county; any such change in location shall be in accordance with all requirements of sections 195.900 to 195.985 and rules promulgated under sections 195.900 to 195.985.

195.939. 1. (1) Ninety days prior to the expiration date of an existing license, the division shall notify the licensee of the expiration date by first class mail at the licensee's address of record with the division. A licensee shall apply for the renewal of an existing license to the local licensing authority not less than forty-five days and to the division not less than thirty days prior to the date of expiration. A local licensing authority shall not accept an application for renewal of

a license after the date of expiration, except as provided in subsection 2 of this section. The division may extend the expiration date of the license and accept a late application for renewal of a license; provided that, the applicant has filed a timely renewal application with the local licensing authority. All renewals filed with the local licensing authority and subsequently approved by the local licensing authority shall next be processed by the division. The division or the local licensing authority, in its discretion, subject to the requirements of this section and based upon reasonable grounds, may waive the forty-five-day or thirty-day time requirements set forth in this subsection. The local licensing authority may hold a hearing on the application for renewal only if the licensee has had complaints filed against it, has a history of violations, or there are allegations against the licensee that constitute good cause.

(2) The local licensing authority shall not hold a renewal hearing provided for by this subsection for a medical cannabis center and a medical cannabis cultivation and production facility until it has posted a notice of hearing on the licensed medical cannabis center premises and the medical cannabis cultivation and production facility premises in the manner described in section 195.912 for a period of ten days and provided notice to the applicant at least ten days prior to the hearing. The local licensing authority may refuse to renew any license for good cause, subject to judicial review.

2.(1) Notwithstanding the provisions of subsection 1 of this section, a licensee whose license has been expired for not more than ninety days may file a late renewal application upon the payment of a nonrefundable late application fee of five hundred dollars to the local licensing authority. A licensee who files a late renewal application and pays the requisite fees may continue to operate until both the state and local licensing authorities have taken final action to approve or deny the licensee's late renewal application.

(2) The state and local licensing authorities shall not accept a late renewal application more than ninety days after the expiration of a licensee's permanent annual license. A licensee whose permanent annual license has been expired for more than ninety days shall not cultivate, manufacture, distribute, possess, or sell any medical cannabis until all required licenses have been obtained.

195.942. The division or local licensing authority may, in its discretion, revoke or elect not to renew any license if it determines that the licensed premises have been inactive without good cause for at least one year.

195.945. 1. The division, by rule, shall require a complete disclosure of all persons having a direct or indirect financial interest and the extent of such interest in each license issued under sections 195.900 to 195.985.

2. A person shall not have an unreported financial interest in a license under sections 195.900 to 195.985 unless such person has undergone a fingerprint-based criminal background check as provided for by the division in its rules; except that, this subsection shall not apply to banks, savings and loan associations, or industrial banks supervised and regulated by an agency of the state or federal government, or to FHA-approved mortgagees, or to stockholders, directors, or officers thereof.

3. This section is intended to prohibit and prevent the control of the outlets for the sale of medical cannabis by a person or party other than the persons licensed under the provisions of sections 195.900 to 195.985.

195.948. 1. For the purpose of regulating the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis, the division may, in its discretion and upon application on the prescribed form made to it, issue and grant to the applicant a license or registration from any of the following classes, subject to the provisions and restrictions provided by sections 195.900 to 195.985:

(1) Medical cannabis center license;

(2) Medical cannabis cultivation and production facility license;

(3) Medical cannabis testing facility license;

(4) Occupational licenses and registrations for owners, managers, operators, employees, contractors, and other support staff employed by, working in, or having access to restricted areas of the licensed premises as determined by the division. The division may take any action with respect to a registration under sections 195.900 to 195.985 as it may with respect to a license under sections 195.900 to 195.985, in accordance with the procedures established under sections 195.900 to 195.985.

2. In order to do business in Missouri under sections 195.900 to 195.985, a medical cannabis business shall hold both a medical cannabis center license and a medical cannabis cultivation and production facility license and shall be operated as a vertically integrated business.

3. A medical cannabis business shall use a cannabis plant monitoring system as the primary inventory tracking system of records.

4. A state-chartered bank or a credit union may loan money to any person licensed under sections 195.900 to 195.985 for the operation of a licensed business.

5. A medical cannabis testing facility shall be licensed, approved, and certified by the division in order to test medical cannabis. A person who is an owner of a medical cannabis cultivation and production facility or a medical cannabis center facility is prohibited from having a financial interest in a medical cannabis testing facility. An owner of a medical cannabis testing facility is prohibited from having a financial interest in a medical cannabis cultivation and production facility or a medical cannabis center facility.

195.951. 1. A medical cannabis center license shall be issued only to a person selling medical cannabis under the terms and conditions of sections 195.900 to 195.985.

2. Notwithstanding the provision of this section, a medical cannabis center licensee may also sell medical cannabis-infused products that are prepackaged and labeled under subsection 7 of this section.

3. Except as otherwise provided in subsection 4 of this section, every person selling medical cannabis as provided for in this section shall sell medical cannabis grown in its medical cannabis cultivation and production facility licensed under sections 195.900 to 195.985.

4. A medical cannabis center licensee shall not purchase more than thirty percent of its total on-hand inventory of medical cannabis flower from another licensed medical cannabis center licensee in Missouri. A medical cannabis center licensee shall not sell more than thirty percent of its total on-hand inventory of medical cannabis flower to another Missouri medical cannabis licensee. At least seventy percent of the medical cannabis flower sold at a medical cannabis center shall be grown at its cultivation and production facility.

5. Prior to initiating a sale, the employee of the medical cannabis center making the sale shall verify that the purchaser has a valid registration card issued under section 195.981 and a valid picture identification card that matches the name on the registration card.

6. A licensed medical cannabis center shall provide an amount of its medical cannabis established by rule of the division for testing to a medical cannabis testing facility.

7. All medical cannabis sold at a licensed medical cannabis center shall be labeled as follows:

(1) The medical cannabis center shall place a legible, firmly affixed label on medical cannabis, excluding medical cannabis-infused products, on which the wording is no less than one-sixteenth inch in size on each package of medical cannabis that it prepares for dispensing and which contains at a minimum the following information:

(a) The registered qualifying patient's name;

(b) The name and registration number of the medical cannabis center that produced the cannabis, together with the medical cannabis center's telephone number and mailing address, and website information, if any;

(c) The quantity of usable medical cannabis contained within the package;

(d) The date that the medical cannabis center packaged the contents;

(e) A batch number, sequential serial number, and bar code when used, to identify the batch associated with manufacturing and processing;

(f) The cannabinoid profile of the medical cannabis contained within the package, including tetrahydrocannabinol (THC) level; and

(g) A statement that the product has been tested for contaminants, that there were no adverse findings, and the date of testing, and the following statement, including capitalization: "This product has not been analyzed or approved by the FDA. There is limited information on the side effects of using this product, and there may be associated health risks. Do not drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN."

(2) The medical cannabis center shall place a legible, firmly affixed label on medical cannabis-infused products on which the wording is no less than one-sixteenth inch in size on each medical cannabis-infused product that it prepares for dispensing and which contains at a minimum the following information:

(a) The registered qualifying patient's name;

(b) The name and registration number of the medical cannabis center that produced the medical cannabis-infused product, together with the medical cannabis center's telephone number and mailing address, and website information, if any;

(c) The name of the product;

(d) The quantity of usable cannabis contained within the product as measured in ounces;

(e) A list of ingredients, including the cannabinoid profile of the cannabis contained within the product, including the tetrahydrocannabinol (THC) level;

(f) The date of product creation and the recommended "use by" or expiration date;

(g) To identify the batch associated with manufacturing and processing, a batch number, sequential serial number, and bar code when used;

(h) Directions for use of the product if relevant;

(i) A statement that the product has been tested for contaminants, that there were no adverse findings, and the date of testing;

(j) A warning if known allergens are contained in the product; and

(k) The following statement, including capitalization: "This product has not been analyzed or approved by the FDA. There is limited information on the side effects of using this product, and there may be associated health risks. Do not drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN."

(3) Cannabis shall be packaged in plain, opaque, tamperproof, and child-resistant containers without depictions of the product, cartoons, or images other than the medical cannabis center's logo.

8. A licensed medical cannabis center shall comply with all provisions of law as such provisions relate to persons with disabilities.

195.954. A medical cannabis cultivation and production facility license shall only be issued to a person licensed under this section who grows and cultivates medical cannabis and who manufactures medical cannabis or medical cannabis-infused products under the terms and conditions of sections 195.900 to 195.985.

195.957. 1. The department of health and senior services is the designated state agency for regulating and controlling the manufacturing of medical cannabis-infused products.

2. (1) Medical cannabis-infused products shall be prepared on a cultivation and production facility licensed premises that is used for the manufacture and preparation of medical cannabis-infused products and which uses equipment that is used for the manufacture and preparation of medical cannabis-infused products.

(2) Only a licensed medical cannabis cultivation and production facility is permitted to produce medical cannabis-infused products. A medical cannabis cultivation and production facility may produce medical cannabis-infused products for the facility's medical cannabis centers and may sell the medical cannabis-infused products it produces to any other licensed medical cannabis centers in the state.

(3) The medical cannabis cultivation and production facility shall have all cannabis cultivated by such facility tested by a licensed medical cannabis testing facility in accordance with the following:

(a) Cannabis shall be tested for the cannabinoid profile and for contaminants as specified by the department, including, but not limited to, mold, mildew, heavy metals, plant-growth regulators, and the presence of nonorganic pesticides. The department may require additional testing;

(b) The facility shall maintain the results of all testing for no less than one year;

(c) The facility shall have and follow a policy and procedure for responding to results indicating contamination, which shall include destruction of contaminated product and assessment of the source of contamination. Such policy shall be available to registered qualifying patients and primary caregivers;

(d) All testing shall be conducted by an independent laboratory that is:

a. Accredited to International Organization for Standardization (ISO) 17025 by a third-party accrediting body such as A2LA or ACLASS; or

b. Certified, registered, or accredited by an organization approved by the department.

(e) The facility shall arrange for testing to be conducted in accordance with the frequency required by the department;

(f) A facility shall have a contractual arrangement with a medical cannabis testing facility for the purposes of testing cannabis, including a stipulation that those individuals responsible for testing at the medical cannabis testing facility be licensed;

(g) A medical cannabis cultivation and production facility is prohibited from having any financial or other interest in a medical cannabis testing facility providing testing services for any medical cannabis cultivation and production facility;

(h) No individual employee of a medical cannabis testing facility providing testing services for medical cannabis cultivation and production facilities shall receive direct financial compensation from any medical cannabis cultivation and production facility;

(i) All transportation of cannabis to and from laboratories providing cannabis testing services shall comply with rules promulgated under any rulemaking authority granted in sections 195.900 to 195.985;

(j) All storage of cannabis at a laboratory providing cannabis testing services shall comply with subdivision (4) of this subsection; and

(k) All excess cannabis shall be returned to the source medical cannabis cultivation and production facility and be disposed of under paragraph (e) of subdivision (6) of this subsection.

(4)(a) All cannabis in the process of cultivation, production, preparation, transport, or analysis shall be housed and stored in such a manner as to prevent diversion, theft, or loss.

(b) Such items shall be accessible only to the minimum number of specifically authorized dispensary agents essential for efficient operation.

(c) Such items shall be returned to a secure location immediately after completion of the process or at the end of the scheduled business day.

(d) If a manufacturing process cannot be completed at the end of a working day, the processing area or tanks, vessels, bins, or bulk containers containing cannabis shall be securely locked inside an area or building that affords adequate security.

(5) A medical cannabis cultivation and production facility shall process cannabis in a safe and sanitary manner. A facility shall process the leaves and flowers of the female cannabis plant only, which shall be:

(a) Well cured and free of seeds and stems;

(b) Free of dirt, sand, debris, and other foreign matter;

(c) Free of contamination by mold, rot, other fungus, and bacterial diseases;

(d) Prepared and handled on food-grade stainless steel tables; and

(e) Packaged in a secure area.

(6) All facilities, including those that develop or process nonedible medical cannabis-infused products, shall comply with the following sanitary requirements:

(a) Any dispensary agent whose job includes contact with cannabis or nonedible medical cannabis-infused products, including cultivation, production, or packaging, is subject to the requirements for food handlers under state law and in accordance with rules of the department of health and senior services;

(b) Any dispensary agent working in direct contact with preparation of cannabis or nonedible medical cannabis-infused products shall conform to sanitary practices while on duty, including:

a. Maintaining adequate personal cleanliness; and

b. Washing hands thoroughly in an adequate hand-washing area before starting work, and at any other time when hands may have become soiled or contaminated.

(c) Hand-washing facilities shall be adequate and convenient and shall be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the facility in production areas and where good sanitary practices require employees to wash and sanitize their hands, and shall provide effective hand cleaning and sanitizing preparations and sanitary towel service or suitable drying devices;

(d) There shall be sufficient space for placement of equipment and storage of materials as is necessary for the maintenance of sanitary operations;

(e) Litter and waste shall be properly removed, disposed of so as to minimize the development of odor, and shall minimize the potential for the waste attracting and harboring pests. The operating systems for waste disposal shall be maintained in an adequate manner;

(f) Floors, walls, and ceilings shall be constructed in such a manner that they may be adequately kept clean and in good repair;

(g) There shall be adequate safety lighting in all processing and storage areas, as well as areas where equipment or utensils are cleaned;

(h) Buildings, fixtures, and other physical facilities shall be maintained in a sanitary condition;

(i) All contact surfaces, including utensils and equipment, shall be maintained in a clean and sanitary condition. Such surfaces shall be cleaned and sanitized as frequently as necessary to protect against contamination, using a sanitizing agent registered by the United States Environmental Protection Agency (EPA), in accordance with labeled instructions. Equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable;

(j) All toxic items shall be identified, held, and stored in a manner that protects against contamination of cannabis and medical cannabis-infused products;

(k) A facility's water supply shall be sufficient for necessary operations. Any private water source shall be capable of providing a safe, potable, and adequate supply of water to meet the facility's needs;

(l) Plumbing shall be of adequate size and design, and adequately installed and maintained to carry sufficient quantities of water to required locations throughout the facility. Plumbing shall properly convey sewage and liquid disposable waste from the facility. There shall be no cross-connections between the potable and waste water lines;

(m) A facility shall provide its employees with adequate, readily accessible toilet facilities that are maintained in a sanitary condition and in good repair;

(n) Products that may support the rapid growth of undesirable microorganisms shall be held in a manner that prevents the growth of such microorganisms; and

(o) Storage and transportation of finished products shall be under conditions that shall protect them against physical, chemical, and microbial contamination as well as against deterioration of them or their container.

3. (1) A medical cannabis cultivation and production facility shall provide adequate lighting, ventilation, temperature, humidity, space, and equipment.

(2) A facility shall have separate areas for storage of cannabis that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging have been opened or breached, until such products are destroyed.

(3) Facility storage areas shall be maintained in a clean and orderly condition.

(4) Facility storage areas shall be free from infestation by insects, rodents, birds, and pests of any kind.

(5) Facility storage areas shall be maintained in accordance with the security requirements promulgated under the authority granted in sections 195.900 to 195.985.

195.960. 1. Until a medical cannabis cultivation and production facility's cultivation or production process has been validated, such facility shall not wholesale, transfer, or process into

a medical cannabis concentrate or medical cannabis product any medical cannabis, medical cannabis concentrate, or medical cannabis product unless samples from the harvest batch or production batch from which such medical cannabis, medical cannabis concentrate, or medical cannabis product was derived were tested by a medical cannabis testing facility for contaminants and passed all contaminant tests required by subsection 3 of this section.

2. (1) A medical cannabis cultivation and production facility's cultivation process shall be deemed valid if every harvest batch that it produced during a twelve-week period passed all contaminant tests required by subsection 3 of this section, including at least twelve test batches that were submitted at least six days apart and contained samples from entirely different harvest batches.

(2) A facility's production process shall be deemed valid if every production batch that it produced during a four-week period passed all contaminant tests required by subsection 3 of this section, including at least four test batches that were submitted at least six days apart which contained samples from entirely different production batches.

3. (1) Each harvest batch of medical cannabis and production batch of medical cannabis concentrate and medical cannabis product shall be tested for microbial contamination by a medical cannabis testing facility. The microbial contamination test shall include, but not be limited to, testing to determine the presence of and amounts present of salmonella sp., escherichia coli, and other bile-tolerant bacteria. Each harvest batch of medical cannabis and production batch of medical cannabis concentrate and medical cannabis product shall be tested for mold contamination by a medical cannabis testing facility. The mold contamination test shall include, but shall be limited to, testing to determine presence and the level of aspergillus sp., mucor sp., penicillium sp., and thermophilic actinomycetes sp.

(2) Each harvest batch of medical cannabis produced by a facility shall be tested for filth and other visible contamination by a medical cannabis testing facility. The filth contamination test shall include, but shall not be limited to, the detection, separation, quantification, identification, and interpretation of extraneous materials, including insects, rodent droppings, visible adulterants, and other contaminants, in medical cannabis flowers and trim.

(3) Each production batch of solvent-based medical cannabis concentrate produced by a facility shall be tested for residual solvent contamination by a medical cannabis testing facility. The residual solvent contamination test shall include, but not be limited to, testing to determine the presence of, and amounts present of, butane, propane, ethanol, isopropanol, acetone, and heptane.

4. (1) The division may require additional tests to be conducted on a harvest batch or production batch prior to a facility wholesaling, transferring, or processing into a medical cannabis concentrate or medical cannabis product any medical cannabis, medical cannabis concentrate, or medical cannabis product from such harvest batch or production batch.

Additional tests may include, but not be limited to, screening for pesticides, harmful chemicals, adulterants, or other types of microbials, molds, filth, or residual solvents.

(2) (a) A production batch of medical cannabis concentrate shall be considered exempt from subdivision (1) of this subsection if the facility that produced it does not wholesale or transfer any portion of the production batch and it uses the entire production batch to manufacture medical cannabis product; except that, a solvent-based medical cannabis concentrate produced using butane, propane, ethanol, isopropanol, acetone, heptane shall still be submitted for a residual solvent contaminant test.

(b) A facility shall not be required to have residual solvent testing conducted on the product batch of a solvent-based medical cannabis concentrate if only CO2 was used during the production of the medical cannabis concentrate.

5. (1) (a) If a facility makes a material change to its cultivation or production process, such facility shall have the first five harvest batches or production batches produced using the new standard operating procedures tested for all of the contaminants required by subsection 3 of this section regardless of whether its process has been previously validated. If any such tests fail, such facility's process shall be revalidated.

(b) It shall be considered a material change if a facility begins using a new or different pesticide during its cultivation process, and the first five harvest batches produced using the new or different pesticide shall also be tested for pesticide.

(c) It shall be considered a material change if a facility begins using a new or different solvent or combination of solvents.

(d) A facility that makes a material change shall notify the medical cannabis testing facility that conducts contaminant testing on the first five harvest batches or production batches produced using the new standard operating procedures.

(e) When a harvest batch or production batch is required to be submitted for testing under this subsection, the facility that produced it shall not wholesale, transfer, or process into a medical cannabis concentrate or medical cannabis product any of the medical cannabis, medical cannabis concentrate, or medical cannabis product from such harvest batch or production batch.

(2) If six of the ten most recently tested test batches produced by a facility fail contaminant testing, the facility shall be required to revalidate its process.

6. Notwithstanding any other provision of state law, sales of medical cannabis-infused products shall not be exempt from state or local sales tax.

195.961.1. A tax is hereby levied and imposed upon the retail sale of cannabis for medical use sold at medical cannabis centers within the state. The tax shall be equivalent to two percent of the retail price. The purpose and intent of the tax is to impose a tax upon the privilege of engaging in the business, in this state, of selling medical cannabis. The primary tax burden is

placed on making taxable sales of medical cannabis. All sellers of medical cannabis shall be required to report to the director of revenue, on such forms and in such manner as the director of revenue shall prescribe. Their "gross receipts from the sale of medical cannabis," defined to mean the aggregate amount of the sales price of all sales at retail of medical cannabis, and remit to the director of revenue two percent of their gross receipts from the sales of medical cannabis.

2. After retaining no more than five percent for its actual collection costs, one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Missouri Veterans' Health and Care Fund, one-half percent of the amount generated by the tax imposed in this section will be deposited by the department of revenue into the Missouri Public Safety Fund, one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Missouri Drug Treatment Fund, and one-half percent of the amount generated by the tax imposed in this section shall be deposited by the department of revenue into the Early Childhood Development, Education and Care Fund created by section 161.125. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(1) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of certain taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veteran's Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(2) There is hereby created in the state treasury the "Missouri Public Safety Fund", which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be allocated evenly to all police departments, fire protection districts, and fire departments in the State of Missouri that have medical cannabis centers or medical cannabis cultivation and production facilities within their geographic boundaries.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) There is hereby created in the state treasury the "Missouri Drug Treatment Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section.

(b) Next, the remainder of such funds shall be allocated evenly to all Missouri Drug Treatment Centers that are funded by the State of Missouri.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(4) The department of revenue shall have the authority to establish, revise, and amend rules as necessary to carry into effect the tax imposed by this section and to issue all forms, instructions and other documents necessary for the collection of the tax.

3. The provisions of sections 144.010 through 144.527 shall apply to the administration of the tax imposed by this section.

195.963. 1. (1) There is hereby created in the state treasury the "Medical Cannabis License Cash Fund," which shall consist of all moneys collected by the division under sections 195.900 to 195.985. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of sections 195.900 to 195.985.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

(3) The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

(4) There is hereby created the "Medical Cannabis Program Account" as an account within the medical cannabis license cash fund. The account shall consist of all moneys collected by the department of health and senior services under section 195.981. The account shall be a dedicated account and, upon appropriation, moneys in the account shall be used solely for the administration of section 195.981.

2. (1) The division shall require all applicants for initial state licenses under sections 195.900 to 195.985 to submit a nonrefundable application fee of twelve thousand five hundred dollars for a medical cannabis center license, and twelve thousand five hundred dollars for a medical cannabis cultivation and production facility license. The division shall require all applicants for initial state licenses under sections 195.900 to 195.985 to submit an annual license fee of twelve thousand five hundred dollars for a medical cannabis center license, and twelve thousand five thousand dollars for a cultivation and production facility license. All applications submitted shall be accompanied by all applicable state license and application fees. Any applications which are later denied or withdrawn may allow for a refund of license fees only. All application fees provided by an applicant shall be retained by the division.

(2) The division shall establish all other fees for processing the following types of applications, licenses, notices, or reports required to be submitted to the state licensing authority:

(a) Applications to change location under subsection 13 of section 195.936 and rules promulgated thereunder;

(b) Applications for transfer of ownership under section 195.933 and rules promulgated thereunder;

(c) License renewal fees, application fees for renewals, and expired license renewal applications under section 195.939; and

(d) Licenses as listed in section 195.948.

(3) The amounts of the fees under subdivisions (1) and (2) of this subsection, when added to the other fees transferred to the fund under this section, shall reflect the actual direct and indirect costs of the division in the administration and enforcement of sections 195.900 to 195.985.

(4) The division may charge applicants licensed under sections 195.900 to 195.985 a fee for the cost of each fingerprint analysis and background investigation undertaken to qualify new officers, directors, managers, or employees.

(5) At least annually, the division shall review the amounts of the fees and, if necessary, adjust the amounts to reflect the direct and indirect costs of the division.

3. Except as provided in subsection 4 of this section, the division shall establish a basic fee that shall be paid at the time of service of any subpoena upon the division, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the division for each day of attendance to cover the expenses of the person named in the subpoena.

4. The subpoena fee established under subsection 3 of this section shall not be applicable to any federal, state, or local governmental agency.

195.966. 1. Except as otherwise provided, all fees and fines provided for by sections 195.900 to 195.985 shall be paid to the division, which shall transmit the fees to the state treasurer. The state treasurer shall credit the fees to the medical cannabis license cash fund created in section 195.963.

2. The expenditures of the division shall be paid out of appropriations from the medical cannabis license cash fund created in section 195.963.

195.969. 1. Each application for a local license provided for in sections 195.900 to 195.985 filed with a local licensing authority shall be accompanied by an application fee and a license fee in an amount determined by the local licensing authority not to exceed ten percent of the state application fee and license fee.

2. License fees as determined by the local licensing authority shall be paid to the treasurer of the municipality or county where the licensed premises is located in advance of the approval, denial, or renewal of the license.

195.972. 1. In addition to any other sanctions prescribed by sections 195.900 to 195.985 or rules promulgated under sections 195.900 to 195.985, the division or a local licensing authority has the power, on its own motion or on complaint, after investigation and opportunity for a public hearing at which the licensee shall be afforded an opportunity to be heard, to suspend or revoke a license issued by the respective authority for a violation by the licensee or by any of the agents or employees of the licensee of the provisions of sections 195.900 to 195.985, or any of the rules promulgated under sections 195.900 to 195.985, or of any of the terms, conditions, or provisions of the license issued by the division or local licensing authority. The division or a local licensing authority has the power to administer oaths and issue subpoenas to require the presence of persons and the production of papers, books, and records necessary to the determination of a hearing that the division or local licensing authority is authorized to conduct.

2. The division or local licensing authority shall provide notice of suspension, revocation, fine, or other sanction, as well as the required notice of the hearing under subsection 1 of this section by mailing the same in writing to the licensee at the address contained in the license. Except in the case of a summary suspension under section 195.984, a suspension shall not be for a longer period than six months. If a license is suspended or revoked, a part of the fees paid therefore shall not be returned to the licensee. Any license or permit may be summarily suspended by the issuing licensing authority without notice, pending any prosecution, investigation, or public hearing under the terms of section 195.984. Nothing in this section shall prevent the summary suspension of a license under section 195.984.

3. (1) Whenever a decision of the division or a local licensing authority suspending a license for fourteen days or less becomes final, the licensee may, before the operative date of the suspension, petition for permission to pay a fine in lieu of having the license suspended for all or part of the suspension period. Upon the receipt of the petition, the division or local licensing authority may, in its sole discretion, stay the proposed suspension and cause any investigation to be made which it deems desirable and may, in its sole discretion, grant the petition if the division or local licensing authority is satisfied that:

(a) The public welfare and morals shall not be impaired by permitting the licensee to operate during the period set for suspension and that the payment of the fine shall achieve the desired disciplinary purposes;

(b) The books and records of the licensee are kept in such a manner that the loss of sales that the licensee would have suffered had the suspension gone into effect may be determined with reasonable accuracy; and

(c) The licensee has not had his or her license suspended or revoked, nor had any suspension stayed by payment of a fine, during the two years immediately preceding the date of the motion or complaint that resulted in a final decision to suspend the license or permit.

(2) The fine accepted shall be not less than five hundred dollars nor more than one hundred thousand dollars.

(3) Payment of a fine under the provisions of this subsection shall be in the form of cash or in the form of a certified check or cashier's check made payable to the division or local licensing authority, whichever is appropriate.

4. Upon payment of the fine under subsection 3 of this section, the division or local licensing authority shall enter its further order permanently staying the imposition of the suspension. If the fine is paid to a local licensing authority, the governing body of the authority shall cause the moneys to be paid into the general fund of the local licensing authority. Fines paid to the division under subsection 3 of this section shall be transmitted to the state treasurer who shall credit the same to the medical cannabis license cash fund created in section 195.963.

5. In connection with a petition under subsection 3 of this section, the authority of the division or local licensing authority is limited to the granting of such stays as are necessary for the authority to complete its investigation and make its findings and, if the authority makes such findings, to the granting of an order permanently staying the imposition of the entire suspension or that portion of the suspension not otherwise conditionally stayed.

6. If the division or local licensing authority does not make the findings required in subdivision (1) of subsection 3 of this section and does not order the suspension permanently stayed, the suspension shall go into effect on the operative date finally set by the division or local licensing authority.

7. Each local licensing authority shall report all actions taken to impose fines, suspensions, and revocations to the division in a manner required by the division. No later than January fifteenth of each year, the division shall compile a report of the preceding year's actions in which fines, suspensions, or revocations were imposed by local licensing authorities and by the division. The division shall file one copy of the report with the chief clerk of the house of representatives, one copy with the secretary of the senate, and six copies in the legislative library.

195.975. 1. Each licensee shall keep a complete set of all records necessary to show fully the business transactions of the licensee, all of which shall be open at all times during business hours for the inspection and examination of the division or its duly authorized representatives. The division may require any licensee to furnish such information as it considers necessary for the proper administration of this section and may require an audit to be made of the books of account and records on such occasions as it may consider necessary by an auditor to be selected

by the division who shall likewise have access to all books and records of the licensee, and the expense thereof shall be paid by the licensee.

2. The licensed premises, including any places of storage where medical cannabis is grown, stored, cultivated, sold, or dispensed, shall be subject to inspection by the division or local licensing authorities and their investigators, during all business hours and other times of apparent activity, for the purpose of inspection or investigation. For examination of any inventory or books and records required to be kept by the licensees, access shall be required during business hours. Where any part of the licensed premises consists of a locked area, upon demand to the licensee, such area shall be made available for inspection without delay, and, upon request by authorized representatives of the division or local licensing authority, the licensee shall open the area for inspection.

3. Each licensee shall retain all books and records necessary to show fully the business transactions of the licensee for a period of the current tax year and the three immediately prior tax years.

195.978. 1. Except as otherwise provided in sections 195.900 to 195.985, it is unlawful for a person:

(1) To consume medical cannabis in a licensed medical cannabis center, and it shall be unlawful for a medical cannabis licensee to allow medical cannabis to be consumed upon its licensed premises;

(2) With knowledge, to permit or fail to prevent the use of such person's registry identification by any other person for the unlawful purchasing of medical cannabis; or

(3) To buy, sell, transfer, give away, or acquire medical cannabis, except as allowed under sections 195.900 to 195.985.

2. It is unlawful for a person licensed under sections 195.900 to 195.985:

(1) To be within a limited-access area unless the person's license badge is displayed as required by sections 195.900 to 195.985;

(2) To fail to designate areas of ingress and egress for limited-access areas and post signs in conspicuous locations as required by sections 195.900 to 195.985;

(3) To fail to report a transfer required by section 195.933; or

(4) To fail to report the name of or a change in managers as required by section 195.936.

3. It is unlawful for any person licensed to sell medical cannabis under sections 195.900 to 195.985:

(1) To sell more than two and one-half ounces of cannabis flower or its equivalent in cannabis concentrate or cannabis product during a sales transaction to a qualifying patient;

(2) To display any signs that are inconsistent with local laws or regulations;

(3) To use advertising material that is misleading, deceptive, or false, or that is designed to appeal to minors;

(4)(a) To sell medical cannabis to a person not licensed under sections 195.900 to 195.985 or to a person not able to produce a valid patient registry identification card. Notwithstanding any provision in this paragraph to the contrary, a person under twenty-one years of age shall not be employed to sell or dispense medical cannabis at a medical cannabis center or grow or cultivate medical cannabis at a medical cannabis cultivation and production facility;

(b) If a licensee or a licensee's employee has reasonable cause to believe that a person is exhibiting a fraudulent patient registry identification card in an attempt to obtain medical cannabis, the licensee or employee shall be authorized to confiscate the fraudulent patient registry identification card, if possible, and shall, within seventy-two hours after the confiscation, turn it over to the department of health and senior services or local law enforcement agency. The failure to confiscate the fraudulent patient registry identification card or to turn it over to the department or a state or local law enforcement agency within seventy-two hours after the confiscation shall not constitute a criminal offense;

(5) To offer for sale or solicit an order for medical cannabis in person except within the licensed premises;

(6) To have in possession or upon the licensed premises any medical cannabis, the sale of which is not permitted by the license;

(7) To buy medical cannabis from a person not licensed to sell as provided by sections 195.900 to 195.985;

(8) To sell medical cannabis except in the permanent location specifically designated in the license for sale;

(9) To require a medical cannabis center or medical cannabis cultivation and production facility to make delivery to any premises other than the specific licensed premises where the medical cannabis is to be sold, except as otherwise provided under sections 195.900 to 195.985; or

(10) To sell, serve, or distribute medical cannabis at any time other than between the hours of 8:00 a.m. and 7:00 p.m. Monday through Sunday.

4. Except as otherwise provided in sections 195.900 to 195.985, it is unlawful for:

(1) A medical cannabis center or medical cannabis cultivation and production facility to sell, deliver, or cause to be delivered to a licensee any medical cannabis not grown upon its licensed premises; or

(2) A medical cannabis center or medical cannabis cultivation and production facility to sell, possess, or permit sale of medical cannabis not grown upon its licensed premises. A violation of this subsection by a licensee shall be grounds for the immediate revocation of the license granted under sections 195.900 to 195.985.

5. It shall be unlawful for a physician who makes patient referrals to a licensed medical cannabis center to receive anything of value from the medical cannabis center licensee or its agents, servants, officers, or owners or anyone financially interested in the licensee, and it shall be unlawful for a licensee licensed under sections 195.900 to 195.985 to offer anything of value to a physician for making patient referrals to the licensed medical cannabis center.

6. A person who commits any acts that are unlawful under this section is guilty of a class A misdemeanor.

195.981.1. As used in this section, the following terms shall mean:

(1) "Bona fide physician-patient relationship", for purposes of the medical cannabis program:

(a) A physician and a patient have a treatment or counseling relationship, in the course of which the physician has completed a full assessment of the patient's medical history and current medical condition, including an appropriate personal physical examination;

(b) The physician has consulted with the patient with respect to the patient's qualifying medical condition before the patient applies for a registry identification card; and

(c) The physician is available to or offers to provide follow-up care and treatment to the patient, including, but not limited to, patient examinations, to determine the efficacy of the use of medical cannabis as a treatment of the patient's qualifying medical condition.

(2) "Department", the department of health and senior services.

(3) "Director", the director of the department of health and senior services.

(4) "In good standing", with respect to a physician's license:

(a) The physician holds a doctor of medicine or doctor of osteopathic medicine degree from an accredited medical school;

(b) The physician holds a valid license to practice medicine in Missouri that does not contain a restriction or condition that prohibits the recommendation of medical cannabis; and

(c) The physician has a valid and unrestricted United States Department of Justice Federal Drug Enforcement Administration controlled substances registration.

(5) "Medical cannabis program", the program established under sections 195.900 to 195.985.

(6) "Nonresident cardholder", a person who: (1) has been diagnosed with a qualifying medical condition, or is the parent, guardian, conservator, or other person with authority to consent to the medical treatment of a person who has been diagnosed with a qualifying medical condition; (2) is not a resident of Missouri; (3) was issued a currently valid registry identification card or its equivalent under the laws of another state, district, territory, commonwealth, insular possession of the United States, or country recognized by the United States that allows the person to use cannabis for medical purposes in the jurisdiction of issuance; and (4) has submitted documentation required by the department and has received confirmation of registration.

(7) "Caregiver", the same meaning as such term is defined in section 195.900.

(8) "Registry identification card", the nontransferable confidential registry identification card issued by the department to patients and caregivers under this section.

2. The department of health and senior services shall establish, revise, and amend rules and regulations as follows:

(1) To ensure that patients suffering from qualifying medical conditions are able to safely gain access to medical cannabis and to ensure that such patients:

(a) Are not subject to criminal prosecution for their use of medical cannabis in accordance with this section, and the rules of the department; and

(b) Are able to establish an affirmative defense to their use of medical cannabis in accordance with this section, and the rules of the department.

(2) To prevent persons who do not suffer from qualifying medical conditions from using this section as a means to sell, acquire, possess, produce, use, or transport cannabis in violation of state and federal laws;

(3) The establishment and maintenance of a confidential registry of patients who have applied for and are entitled to receive a registry identification card;

(4) The development by the department of an application form and making such form available to residents of this state seeking to be listed on the confidential registry of patients who are entitled to receive a registry identification card;

(5) The verification by the department of medical information concerning patients who have applied for a confidential registry card or for renewal of a registry identification card;

(6) The development by the department of a written certification form that shall be used by a physician to certify that a patient has a qualifying medical condition;

(7) The conditions for issuance and renewal, and the form, of the registry identification cards issued to patients, including, but not limited to, standards for ensuring that the department issues a registry identification card to a patient only if such patient has a bona fide physician-patient relationship with a physician in good standing and licensed to practice medicine in the state of Missouri;

(8) Communications with law enforcement officials about registry identification cards that have been suspended when a patient is no longer diagnosed as having a qualifying medical condition;

(9) A waiver process to allow a homebound patient who is on the registry to have a caregiver transport the patient's medical cannabis from a licensed medical cannabis center to the patient; and

(10) To regulate and control the manufacturing of medical cannabis-infused products.

3. The department shall conduct a public review hearing to receive public input on any emergency rules adopted by the department and be provided with an update from the industry, caregivers, patients, and other stakeholders regarding the industry's current status. The department shall provide at least five business days' notice prior to the hearing.

4. Within one hundred eighty days of the effective date of this section, the department shall make available to the public application forms and application instructions for qualifying patient and caregiver identification cards. Within two hundred ten days of the effective date of this section, the department shall begin accepting applications for qualifying patient and caregiver identification cards.

5. A physician who certifies a qualifying medical condition for an applicant to the medical cannabis program shall comply with all of the following requirements:

(1) The physician shall have a valid and active license to practice medicine in this state, which license is in good standing;

(2) After a physician, who has a bona fide physician-patient relationship with the patient, determines that the patient has a qualifying medical condition, the physician shall certify to the department that the patient has a qualifying medical condition after the physician has completed an assessment of the qualifying patient's medical history, reviewed relevant records related to the patient's qualifying medical condition, and conducted a physical examination. The physician shall specify the qualifying medical condition and, if known, the cause or source of the qualifying medical condition;

(3) The physician shall maintain a record-keeping system for all patients for whom the physician has determined have a qualifying medical condition;

(4) A physician shall not:

(a) Accept, solicit, or offer any form of pecuniary remuneration from or to a caregiver, distributor, or any other provider of medical cannabis;

(b) Offer a discount or any other thing of value to a patient who uses or agrees to use a particular caregiver, distributor, or other provider of medical cannabis to procure medical cannabis;

(c) Examine a patient for purposes of diagnosing a qualifying medical condition at a location where medical cannabis is sold or distributed;

(d) Hold an economic interest in an enterprise that provides or distributes medical cannabis if the physician certifies the qualifying medical condition of a patient for participation in the medical cannabis program; or

(e) Issue a certification for the medical use of cannabis for a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient registry identification card on behalf of a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such registry identification card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as caregiver for a non-emancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical cannabis for a non-emancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical cannabis to a non-emancipated qualifying patient under the age of eighteen.

(5) If the department has reasonable cause to believe that a physician has violated subdivision (1), (2), or (3) of subsection 4 of this section, or the rules promulgated by the department, the department may refer the matter to the state board of registration for the healing arts.

6. (1) A caregiver shall not delegate to any other person his or her authority to provide medical cannabis to a patient nor may a caregiver engage others to assist in providing medical cannabis to a patient.

(2) A caregiver shall not cultivate cannabis. Only a medical cannabis cultivation and production facility may cultivate cannabis and only for medical use.

(3) A caregiver shall provide to a law enforcement agency, upon inquiry, the registry identification card number of each of his or her patients. The department shall maintain a registry of such information and make it available twenty-four hours per day and seven days a week to law enforcement for verification purposes.

7. A registered patient or caregiver shall not:

(1) Purchase medical cannabis from unauthorized sources; or

(2) Obtain medical cannabis from other registered patients or caregivers.

8. (1) To be considered in compliance with this section and the rules of the department, a patient or caregiver shall have his or her registry identification card in his or her possession at all times that he or she is in possession of any form of medical cannabis and produce the same upon request of a law enforcement officer to demonstrate that the patient or caregiver is not in violation of the law. A person who violates this section or the rules promulgated by the department may be subject to criminal prosecution.

(2) The department shall maintain a registry of such information and make available twenty-four hours a day and seven days a week to law enforcement for verification purposes. Authorized employees of state or local law enforcement agencies shall be granted access to the information contained within the state health agency's confidential registry only for the purpose of verifying that an individual who has presented a registry identification card to a state or local law enforcement official is lawfully in possession of such card. The department may promulgate rules to implement this subsection.

(3) The department may deny a patient's application for a registry identification card or revoke the card if the department determines that the physician who diagnosed the patient's qualifying medical condition, the patient, or the caregiver violated this section, or the rules promulgated by the department under this section; except that, when a physician's violation is the basis for adverse action, the department may only deny or revoke a patient's application or registry identification card when the physician's violation is related to the issuance of a medical cannabis recommendation.

(4) A registry identification card shall be valid for one year and shall contain a unique identification number. It shall be the responsibility of the patient to apply to renew his or her registry identification card prior to the date on which the card expires. The department shall develop a form for a patient to use in renewing his or her registry identification card.

(5) If the department grants a patient a waiver to allow a caregiver to transport the patient's medical cannabis from a medical cannabis center to the patient, the department shall designate the waiver on the patient's registry identification card.

(6) A homebound patient who receives a waiver from the department to allow a caregiver to transport the patient's medical cannabis to the patient from a medical cannabis center shall provide the caregiver with the patient's registry identification card, which the caregiver shall carry when the caregiver is transporting the medical cannabis. A medical cannabis center may provide the medical cannabis to the caregiver for transport to the patient if the caregiver produces the patient's registry identification card.

9. (1) The State of Missouri and the medical cannabis centers in this State which hold valid medical cannabis center licenses will recognize a nonresident card under the following circumstances:

(a) The state or jurisdiction from which the holder or bearer obtained the nonresident card grants an exemption from criminal prosecution for the medical use of cannabis;

(b) The state or jurisdiction from which the holder or bearer obtained the nonresident card requires, as a prerequisite to the issuance of such a card, that a physician advise the person that the person has a qualifying medical condition recognized by the state of Missouri;

(c) The nonresident card has an expiration date and has not yet expired;

(d) The state or jurisdiction from which the holder or bearer obtained the nonresident card maintains a database which preserves such information as may be necessary to verify the authenticity or validity of the nonresident card;

(e) The state or jurisdiction from which the holder or bearer obtained the nonresident card allows the division and medical cannabis centers in this State to access the database described in paragraph (d);

(f) The division determines that the database described in paragraph (d) is able to provide to medical cannabis centers in this State information that is sufficiently accurate, current and specific as to allow those centers to verify that a person who holds or bears a nonresident card is entitled lawfully to do so; and

(g) The holder or bearer of the nonresident card agrees to abide by, and does abide by, the legal limits on the possession of cannabis for medical purposes in this State, as set forth in 195.900.3(1).

(2) For the purposes of the reciprocity described in this section:

(a) The amount of medical cannabis that the holder or bearer of a nonresident card is entitled to possess in his or her state or jurisdiction of residence is irrelevant; and

(b) Under no circumstances, while in this State, may the holder or bearer of a nonresident card possess cannabis for medical purposes in excess of the limits set forth in 195.900.3(1).

(3) As used in this section, "nonresident card" means a card or other identification that:

(a) Is issued by a state or jurisdiction other than Missouri; and

(b) Is the functional equivalent of a registry identification card or letter of approval, as determined by the division.

10. (1) The use of medical cannabis is allowed under state law to the extent that it is carried out in accordance with sections 195.900 to 195.985 and the rules of the department.

(2) A patient or caregiver shall not:

(a) Engage in the medical use of cannabis in a way that endangers the health and well-being of a person;

(b) Engage in the medical use of cannabis in plain view or in a place open to the general public;

(c) Undertake any task while under the influence of medical cannabis, when doing so would constitute negligence or professional malpractice;

(d) Possess medical cannabis or otherwise engage in the use of medical cannabis in or on the grounds of a school or in a school bus;

(e) Engage in the use of medical cannabis while:

a. In a correctional facility;
b. Subject to a sentence to incarceration; or
c. In a vehicle, aircraft, or motorboat.

(f) Operate, navigate, or be in actual physical control of any vehicle, aircraft, or motorboat while under the influence of medical cannabis; or

(g) Use medical cannabis if the person does not have a qualifying medical condition as diagnosed by the person's physician in the course of a bona fide physician-patient relationship that has been certified to the department.

(3) A person shall not establish a business to permit patients to congregate and smoke medical cannabis.

11. Only licensed medical cannabis cultivation and production facilities may cultivate medical cannabis.

12. If a patient raises an affirmative defense to prosecution under sections 195.900 to 195.985, the patient's physician shall certify the specific amounts in excess of an adequate supply that are necessary to address the patient's qualifying medical condition and why such amounts are necessary. A patient who asserts this affirmative defense shall waive confidentiality privileges related to the condition or conditions. If a patient, caregiver, or physician raises an exception to the state criminal laws, the patient, caregiver, or physician waives the confidentiality of his or her records related to the qualifying medical condition or conditions maintained by the department for the medical cannabis program. Upon request of a law enforcement agency for such records, the department shall only provide records pertaining to the

individual raising the exception, and shall redact all other patient, caregiver, or physician identifying information.

13. (1) Except as provided in subdivision (2) of this subsection, the department shall establish a basic fee that shall be paid at the time of service of any subpoena upon the department, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees, for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the department for each day of attendance to cover the expenses of the person named in the subpoena.

(2) The subpoena fee established under subdivision (1) of the subsection shall not be applicable to any federal, state, or local governmental agency.

14. The department may collect fees from patients who apply to the medical cannabis program for a cannabis registry identification card for the purpose of offsetting the department's direct and indirect costs of administering the program. The amount of such fees shall be set by rule of the department. The amount of the fees set under this section shall reflect the actual direct and indirect costs of the department in the administration and enforcement of this section. All fees collected by the department through the medical cannabis program shall be transferred to the state treasurer who shall credit the same to the medical cannabis program account within the medical cannabis license cash fund created in section 195.963.

195.982. 1. No individual or health care entity organized under the laws of this state shall be subject to any adverse action by the state or any agency, board, or subdivision thereof, including civil or criminal prosecution, denial of any right or privilege, the imposition of a civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission if such individual or employee or agent of the health care facility, in its normal course of business and within its applicable licenses and regulations, certifies a qualifying medical condition for an applicant to the medical cannabis program under sections 195.900 to 195.985.

2. A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

3. A health care provider shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing health care services that involve the medical use of cannabis consistent with this section and legal standards of professional conduct.

4. A testing laboratory shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

5. A caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering cannabis for medical use by a qualifying patient under the provisions of sections 195.900 to 195.985.

6. An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for providing legal assistance to prospective or licensed medical cannabis cultivation and productive facilities, medical cannabis centers, medical cannabis testing facilities, qualifying patients, caregivers, physicians, health care providers, or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

7. Actions and conduct by duly registered or licensed qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, and medical cannabis testing facilities or their employees or agents, as permitted by this section and in compliance with division and department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

8. Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

9. It is the public policy of the state of Missouri that contracts related to cannabis for medical use that are entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, or medical cannabis testing facilities and those who allow property to be used by those entities, shall be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, caregivers, medical cannabis cultivation and production facilities, medical cannabis centers, medical cannabis testing facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical cannabis may be prohibited by federal law.

10. Real property used in the cultivation, manufacture, testing, distribution, sale, possession and administration of cannabis for medical use shall not be subject to asset forfeiture solely because of that use.

195.984.1. (1) The division of alcohol and tobacco control may summarily suspend a license issued under sections 195.900 to 195.985 prior to a hearing in order immediately to stop or restrict operations by a licensee to protect the public health, safety, or welfare. The division may rescind or amend a summary suspension.

(2) If, based upon inspection, affidavits, or other evidence, the division determines that a licensee or the products prepared by a licensee pose an immediate or serious threat to the public health, safety, or welfare, the division may summarily suspend a license:

(a) Requiring cessation or restriction of any or all licensee operations and prohibiting the use of medical cannabis produced by such licensee; or

(b) Placing restrictions on a licensee to the extent necessary to avert a continued threat, pending final investigation results.

(3) The requirements of the summary suspension shall remain in effect until the division rescinds or amends such requirements or until such time as the division takes final action on any related pending complaint and issues a final decision.

2. The department of health and senior services may summarily suspend any registration issued under section 195.981, pending further proceedings for denial of renewal or revocation of a registration, whenever the department finds that the continued registration poses an imminent danger to the public health, safety, or welfare.

195.985. 1. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in sections 195.900 to 195.985 shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. Sections 195.900 to 195.985 and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after November 6, 2018, shall be invalid and void.

2. If any provision of sections 195.900 to 195.985 or its application to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of sections 195.900 to 195.985 which can be given full effect without the invalid provision or application, and to this end the provisions of sections 195.900 to 195.985 are severable.

263.250. 1. The plant "marijuana", botanically known as cannabis sativa, is hereby declared to be a noxious weed and all owners and occupiers of land shall destroy all such plants growing upon their land. Any person who knowingly allows such plants to grow on his land or refuses to destroy such plants after being notified to do so shall allow any sheriff or such other persons as designated by the county commission to enter upon any land in this state and destroy such plants.

2. Entry to such lands shall not be made, by any sheriff or other designated person to destroy such plants, until fifteen days' notice by certified mail shall be given the owner or occupant to destroy such plants or a search warrant shall be issued on probable cause shown. In all such instances, the county commission shall bear the cost of destruction and notification.

3. The provisions of this section shall not apply to the authorized cultivation and production of cannabis plants for purposes of providing medical cannabis under sections 195.900 to 195.985.

311.610. 1. For the purpose of carrying out the provisions of this chapter [and], the liquor control law, and sections 195.900 to 195.985 the governor, by and with the advice and consent of the senate, shall appoint some suitable person of good moral character over the age of thirty years, who has been a qualified elector in the state of Missouri for at least five years next before the date of his appointment, as supervisor of liquor control. The supervisor of liquor control shall serve at the pleasure and under the supervision and direction of the governor.

2. The supervisor of liquor control shall devote his entire time to the duties of his office and, with the approval of the governor, appoint and employ all agents, assistants, deputies, inspectors and employees necessary for the proper enforcement and administration of the provisions of the liquor control law whose salaries shall be fixed by the governor, but no salary shall be greater than that paid to employees in other state departments for similar work, except that no salary of an agent directly engaged in the enforcement of the liquor control law shall be less than eight thousand dollars a year. In addition to his salary, the supervisor of liquor control and each of the agents, assistants, deputies, inspectors and employees shall be reimbursed for all expenses necessarily incurred in the discharge of their duties. No expenses shall be allowed for sustenance to any supervisor, agent, assistant, deputy, inspector or employee while in the city or town of his residence.

3. Before entering upon the discharge of his duties, the supervisor of liquor control shall take and subscribe to an oath to support the Constitution of the United States and of this state, and faithfully demean himself in office, and shall also execute bond to the state of Missouri in the penal sum of ten thousand dollars, conditioned for the faithful performance of the duties of his office, which bond shall be approved by the governor and deposited with the secretary of state and kept in his office; the premiums of the bond shall be paid by the state out of funds appropriated for that purpose.

4. The supervisor of liquor control shall issue licenses for the manufacture and sale of ardent spirits, malt, vinous, fermented and every class of liquors used as beverages. The supervisor of liquor control shall keep a record of all intoxicating liquor manufactured, brewed or sold in this state by every brewery, distiller, manufacturer, distributor or wholesaler, and make a complete report of the same to the governor at the end of each calendar year, or as soon thereafter as possible.

311.620. 1. No person shall be appointed as agent, assistant, deputy or inspector under the provisions of the liquor control law or the Missouri Patient Care Act who shall have been convicted of or against whom any indictment may be pending for any offense; nor shall any person be appointed as such agent, assistant, deputy or inspector who is not of good character or who is not a citizen of the United States, and who is not or has not been a resident taxpaying citizen of the state for a period of three years previous to his appointment; or who is not able to read and write the English language or who does not possess ordinary physical strength and who is not able to pass such physical and mental examination as the majority of a board, consisting of

the governor, lieutenant governor, attorney general, and the supervisor of liquor control may prescribe.

2. No agent, assistant, deputy or inspector so appointed shall hold any other commission or office, elective or appointive or accept any other employment compensation while he is an employee of the department of liquor control, except with the written permission of the supervisor of liquor control. No agent, assistant, deputy or inspector of the department of liquor control shall accept any reward or gift other than his regular salary and expenses as provided in this chapter. No agent, assistant, deputy or inspector of the department of liquor control shall perform any police duty connected with the conduct of any election, nor at any time or in any manner electioneer for or against any party ticket, or any candidate for nomination or office on any party ticket, nor for or against any proposition of any kind or nature to be voted upon at any election.

3. The agents, assistants, deputies and inspectors appointed under the provisions of section 311.610 shall before entering upon the discharge of their duties, each take and subscribe an oath to support the Constitution and laws of the United States and the State of Missouri and to faithfully demean themselves in office in the form prescribed by Section 11, Article VII of the Constitution of this State, and they shall each give bond to be approved by the supervisor of liquor control for faithful performance of the duties of their respective offices and to safely keep and account for all moneys and property received by them. This bond shall be in the sum of five thousand dollars, and the cost of furnishing all such bonds shall be paid by the state.

4. Any agent, assistant, deputy or inspector of the department of liquor control who shall violate the provisions of this chapter shall be immediately discharged.

311.630. 1. The supervisor of alcohol and tobacco control and employees to be selected and designated as peace officers by the supervisor of alcohol and tobacco control are hereby declared to be peace officers of the state of Missouri, with full power and authority to make arrests and searches and seizures only for violations of the provisions of this chapter relating to intoxicating liquors, [and] sections 407.924 to 407.934 relating to tobacco products, and sections 195.900 to 195.985 and to serve any process connected with the enforcement of such laws. The peace officers so designated shall have been previously appointed and qualified under the provisions of section 311.620 and shall be required to hold a valid peace officer license pursuant to chapter 590.

2. The supervisor of alcohol and tobacco control shall furnish such peace officers with credentials showing their authority and a special badge, which they shall carry on their person at all times while on duty. The names of the peace officers so designated shall be made a matter of public record in the office of the supervisor of alcohol and tobacco control.

3. All fees for the arrest and transportation of persons arrested and for the service of writs and process shall be the same as provided by law in criminal proceedings and shall be taxed as costs.

311.660. 1. The supervisor of liquor control shall have the authority to suspend or revoke for cause all such licenses; and to make the following regulations, without limiting the generality

of provisions empowering the supervisor of liquor control as in this chapter set forth as to the following matters, acts and things:

(1) Fix and determine the nature, form and capacity of all packages used for containing intoxicating liquor of any kind, to be kept or sold under this law;

(2) Prescribe an official seal and label and determine the manner in which such seal or label shall be attached to every package of intoxicating liquor so sold under this law; this includes prescribing different official seals or different labels for the different classes, varieties or brands of intoxicating liquor;

(3) Prescribe all forms, applications and licenses and such other forms as are necessary to carry out the provisions of this chapter, except that when a licensee substantially complies with all requirements for the renewal of a license by the date on which the application for renewal is due, such licensee shall be permitted at least an additional ten days from the date notice is sent that the application is deficient, in which to complete the application;

(4) Prescribe the terms and conditions of the licenses issued and granted under this law;

(5) Prescribe the nature of the proof to be furnished and conditions to be observed in the issuance of duplicate licenses, in lieu of those lost or destroyed;

(6) Establish rules and regulations for the conduct of the business carried on by each specific licensee under the license, and such rules and regulations if not obeyed by every licensee shall be grounds for the revocation or suspension of the license;

(7) The right to examine books, records and papers of each licensee and to hear and determine complaints against any licensee;

(8) To issue subpoenas and all necessary processes and require the production of papers, to administer oaths and to take testimony;

(9) Prescribe all forms of labels to be affixed to all packages containing intoxicating liquor of any kind; and

(10) To make such other rules and regulations as are necessary and feasible for carrying out the provisions of this chapter, as are not inconsistent with this law.

2. The supervisor of liquor control shall have the authority to regulate and control the licensing of the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis in this state; to grant or refuse state licenses for the cultivation, manufacture, distribution, testing, possession, and sale of medical cannabis as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of sections 195.900 to 195.985, or a rule promulgated under sections 195.900 to 195.985; to impose any penalty authorized by sections 195.900 to 195.985, or any rule promulgated under sections 195.900 to 195.985; and to establish, revise, and amend rules and regulations as necessary to carry into effect the provisions of sections 195.900 to 195.985 as set forth in section 195.906.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapter 156 (2018-252)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on July 25, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires:

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"
To form a new Chapter numbered 156. The title of the new chapter will be "Taxation of 'Gross State Product" to prevent Monopolistic Practices'.

156.010 1. Beginning on January 1, 2019, any non-public business that does business in the state of Missouri that has a "Gross State Product" exceeding 10 million dollars will be levied a sum equal to 5% of their "Gross State Product". This levy will be accessed on the previous year's "Gross State Product" and payments will be made quarterly.

(a) Any of the businesses meeting this qualification that also controls more than 50% of the products and services sold or distributed or have sufficient control to cause barriers to entry in commerce in the state of Missouri will be levied an additional sum of 5% of their "Gross State Product".

(b) Any business that exceeds the 10 million dollars "Gross State Product" and has ***vertical integration*** of 70% or more of their product will be levied an additional 5% of their "Gross State Product".

(1). Vertical Integration will be calculated by the sum of increased value or by the amount of labor involved or by the investment of money involved in the process, whichever is larger.

(2). If the investment is the standard for calculation and the final process is a distribution point, the final dollar amount will be the wholesale value at that point.

2. All funds collected will go to the state road fund.

RE: Petition approval request from Gerald Peterson regarding a proposed statutory amendment to Chapters 156 and 290 (2018-251)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Gerald Peterson on July 25, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

2. All funds collected will go to the state road fund.

3. Any non-public business that does business in the state of Missouri that has a "Gross State Product" exceeding 10 million dollars will provide their employees the following benefits:

(a) All full-time employees (those exceeding 32 hours weekly) will receive medical insurance'

(b) All full-time employees (those exceeding 32 hours weekly) will earn vacation time of at least 1 week the first year, 2 weeks the second year, and 3 weeks after 5 years. One week of sick leave will be granted each year which will accumulate if unused. If 5 weeks have been accumulated, this amount will be placed in a separate trust fund from the business and be available for future illness and/or available to the employee at retirement or age of 60.

(c) All employees will have choice of positions that they are qualified for on a seniority basis. Transfers will be allowed for bid at least once per year.

(d) All employees will have a weekly posted schedule. Ten percent of the work force may be on an on-call basis. The 'on-call position will be a bid position available by seniority.

4. 290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Any non-public business that does business in the state of Missouri that has a "Gross State Product" exceeding 10 million dollars will pay a minimum wage of $15.00 per hour inflation-adjusted beginning on January 1, 2019.

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"

The annual franchise tax will be amended as follows:

147.010. 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

{(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section.}

(5) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly payment will be due on April 15th of 2019.

(6) The annual franchise tax will be to provide revenue for the stressed portions of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget

(7) .All subsections and all clauses of this statute, and the phrases, and the words within them, are severable If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article V entitled Judicial Department, is amended by adding one new section to be known as Section 32, to read as follows:

The Supreme Court allows certified paralegals or legal assistants certified by a credited college or university to shadow and work alongside of an attorney at law for a period of three years. Thereafter, the person would be allowed to take a bar exam and if passed will be able to practice law in Missouri and will be accepted by the Supreme Court and the Appeals Courts and all Courts and Tribunals in the state and have the same basic rights to practice law and give legal advice to the People of the state.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-249)

Subject

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article V. (Received July 17, 2017)

Date

August 7, 2017

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **Missouri Bar Association.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no impact.

Officials from the **Office of Administration** indicated this proposal would allow certified paralegals and legal assistants that have shadowed and worked alongside of an attorney for three years to take the bar exam and, if passed, practice law in Missouri. There should be no impact to their office.

Officials from the **Office of State Courts Administrator** indicated since the number of people who would qualify to practice law under this amendment is unknown the impact cannot be quantified at this time. Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this proposal may provide additional "attorneys" to be hired by the Public Defender, but it will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this initiative petition would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this constitutional amendment will have no fiscal impact on their city.

Officials from the **City of Springfield** indicated they are trying to determine what has changed or would be different than the current process for certifying a petition that might affect the costs to their city.

Officials from the **City of St. Joseph** indicated this proposal would not have an impact on the local government.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Bar Association.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article IV, Section 54 (2018-248)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on July 17, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article IV of the Constitution of Missouri is amended by adding one new section to be known as Section 54 and to read as follows:

A state sales tax of one tenth of one percent will provide additional money for the State Economic Development Department to be used solely for the promotion and development of "Technology Parks in Missouri." Technology Parks serve as incubators helping create new companies, jobs, and research and development. Cities will be able to apply with the State of Missouri to have certified technology park status. Local counties or cities operating in the state may place voting yes or no on their ballot to seek approval or disapproval of the People to have such a development in their community.

The one year sales/use tax of one tenth of one percent (referred to above) is hereby levied and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are or hereafter are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provide in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith; the one year sales/use tax of one tenth of one percent is levied and imposed for the privilege of storing, using or consuming within this state any article of tangible personal property as set forth and provided in the "Compensating Use Tax Law" and, except as to the amount of the tax, subject to the provisions of and to be collected as provided in the "Compensating Tax Law" and subject to the rules and regulations promulgated in connection therewith.

Schedule

Section 54 amendment. All of the provisions of 54 amendment shall be self-enforcing except that the general assembly shall adjust brackets for the collection of the sales and use taxes. The above one tenth of one percent sales/use tax will sunset one year after imposition.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-248)

Subject

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article IV. (Received July 17, 2017)

Date

August 7, 2017

Description

This proposal would amend Article IV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Missouri Joint Municipal Electric Utility Commission,** and **Missouri Municipal League.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the Department of Economic Development indicated no impact to their department.

Officials from the **Department of Higher Education** indicated no fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact on their department.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department but will increase total state revenues.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal imposes a $1/10^{th}$ of 1% state sales tax for one year to provide additional money for the Department of Economic Development to promote and develop technology parks. If this proposal passes during the 2018 General Election, the new sales tax would begin January 1, 2019 and end December 31, 2019. Based on gross general revenue tax collection in FY 17 of $2,147.1 million, B&P estimates that the 0.1% sales tax would generate $35.8M in FY 19 and FY 20. The language is silent on where the sales tax would be deposited; therefore, B&P assumes it would be deposited in general revenue. The language allows counties or cities to vote, but does not specify on what they are voting. This response assumes there would be no fiscal impact related to that vote. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY 2013, the appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing

requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this initiative petition would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this constitutional amendment will have no fiscal impact on their city.

Officials from the **City of Springfield** indicated they are trying to determine what has changed or would be different than the current process for certifying a petition that might affect the costs to their city.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, the Missouri Joint Municipal Electric Utility Commission,** and the **Missouri Municipal League.**

Fiscal Note Summary

This proposal will impose a state sales and use tax of one-tenth of one percent for one year. The additional revenues of approximately $71.6 million will be used for the promotion and development of Technology Parks in Missouri.

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article IV, Section 30 (2018-247)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on July 17, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Initiative petition from Steven Reed regarding a proposed constitutional amendment to Article I. (Received July 17, 2017)

Date

August 7, 2017

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this proposal would expressly allow people to petition at the public entrances of all Missouri Career Center locations as allowed in the state and federal Constitutions. This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this initiative petition would result in no fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this constitutional amendment will have no fiscal impact on their city.

Officials from the **City of Springfield** indicated they are trying to determine what has changed or would be different than the current process for certifying a petition that might affect the costs to their city.

Officials from the **City of St. Joseph** indicated proposing to amend Article I would not have a fiscal impact on the local government.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

County _____

My commission expires:

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"
Chapter 208,RSMo, is amended by adding thereto one new section, to be known as section 208.207, to read as follows:

1. Beginning January 1, 2019, individuals age nineteen to sixty-four, who are not otherwise eligible for MO HealthNet services under this chapter, who qualify for MO HealthNet srvices under section 42 U.S.C. 1396a(a)(10()(A)(i)(VIII) and as set forth in 42 CFR 435.119, and who have income at or below one hundred thirty-three percent of the federal poverty level plus five percent of the applicable family size as determined under 42 U.S.C. 1396a(e)(14) amd as set fprtj om 42 CFR 435.603, shall be eligible for medical assistance under Mo HealthNet and shall receive coverage for the health benefits service package.

2. For purposes of this section, "health benefits service package" shall mean, subject to federal approval, benefits covered by the MO HealthNet program as determined by the department of social services to meet the benchmark or benchmark-equivalent coverage requirement under 42 U.S.C. 1396a(k)(1).

3. The reimbursement rate to MO HealthNet providers for MO HealthNet services provided to individuals qualifying under the provisions of this section shall be comparable to commercial reimbursement payment levels with trend adjustment for comparable services. The rates shall be determined annually by the department of social services, and the department may develop such rates through a contracted actuary. The higher commercial comparable rates shall only apply for services provided to individuals qualifying under this section.

4. (1) The department of social srvices shall discontinue eligibility for persons who are elibible under subsection 1 of this section if:

(a) The federal medical assistance percentage established under 42 U.S.C. Section 1396d(y) or 1369d(z) is less than than ninety percent as specified for 2020 each year thereafter or an amount determined by the MO HealthNet oversight committee to be necessary to maintain state budget solvency, whichever is lower; and

(b) The general assembly votes to discontinue eligibility for persons who are eligible under subsection 1 of this section. Prior to any vote under this paragraph, the MO HealthNet oversight committee and the department of social services shall provide the general assembly with information on the current and projected expenses incurred due to expanding eligibility to persons under subsection 1 of this section in relation to health-related savings and revenues and health outcomes of individuals and families receiving benefits under subsection 1 of this section.

(2) The department of social services shall inform persons elibible under subsection 1 of this section that their benefits may be reduced or eliminated if federal funding decreases of is eliminate.

5. The MO HealthNet oversite committee shall conduct research and investigate any potential health-related savings and revenues associated with expanding eligibility to persons under subsection 1 of this section. The committee shall investigate the federal matching rate below which the state could not maintain the expanded esibibility to persons under subsection 1 of this section. If the amount is determined to be greater than ninety percent, the committee shall report its findings to the general assembly for its consideration prior to any vote under paragraph (b) of subdivision (1) of subsection 4 of this section. In conducting its research and investigation, the committee shall also determine the feasibility of:

(1) Implementing capped cost sharing for persons eligible under subsection 1 of this section which may be reduced based on healthy behaviors of participants.

(2) Expanding Medicaid coverage for certain health care services that are currently financed by the state: and

(3) Enrolling persons under subsection 1 of this section in private health benefit plans.

6. All person living one hundred eighty-five percent of the federal poverty level for the applicable family size will be eligible for paid birth control methods to be paid from Medicaid. Birth control and family planning covered by this bill which will begin on January 1, 2019. There will be no cost for family planning services, including office visits and drugs/devices to the patient. The patient will not have to pay a co-

payment for family planning services. The patient can go to any health provider who offers family planning services such as:

(a) Birth control pills, Patches (like the OrthoEvra Patch), Vaginal rings (like the NuvaRing), Injections (like the Depo shot), Implants (like Implanon), Intrauterine devices (IUDs – like Mirena or Paragard), Emergency birth control ("the morning-after pill"), Diaphragms, Condoms, Surgical sterilization for clients 21 years old and older (like vasectomies or tubal ligation's, including the Essure procedure) or any future approved medical procedures will be included at the patient's choice.

(b) An ob/gyn or gynecologist, a certified nurse-midwife, a nurse practitioner or other advanced practice nurse, a family planning clinic, your regular doctor or primary care provider or Planned Parenthood unit that accepts Medicaid.

Birth control and family planning will be available to eligible MO women and male residents 13 years of age and over with proof of age and residence. Those seeking birth control and family planning will not need permission from family, spouses or guardians. Confidentially will be ensured at all levels. Any savings to the state from Medicaid expansion that is not used for family planning and birth control will go toward the reduction of the levy on hospitals that this bill mandates.

7. If at any time funding for Planned Parenthood by the federal government is discontinued or if it has already been discontinued at the passage of this amendment, the hospital levy will be increased enough to replace the federal funding of Planned Parenthood to a level at least equal to that of 2015 adjusted for inflation. The state of MO will fund Planned Parenthood at a level at least equal to 2015 adjusted for inflation beginning on Jan 1, 2019, and if by the time this measure is accepted, the state of MO has stopped funding Planned Parenthood, the state will begin funding Planned Parenthood again at a level equal to 2015 inflation-adjusted.

8. The cost to the state for expanding medical coverage will be borne by the hospitals in the state of Missouri as follows:

(a) All hospitals in MO will be accessed a fee to pay for the expense of this expansion. The first year will be an estimate by the 'department of health and senior services'. Assessment will be made based on the most recent records of 'department of health and senior services' for a full year and adjustments for new assessments will begin on the first of April of each following year. Each hospital will pay a share equal to the percentage of patient admittance of each hospital of the total MO visits. Each admittance will count separately even though it is a re-admittance. Hospitals will begin monthly payments on Jan 1, 2019. Hospitals will make monthly payments to the state of MO into a fund that will only be used for the full Federal Medicaid Expansion, Planned Parenthood and birth control for residents of Missouri.

(b) Missouri will make immediate application and if fees for implementation have not occurred from the hospitals on implementation, the state will borrow from reserve funds to expedite enrollment. These funds will be paid back upon receipt of funds beginning on Feb 15, 2019.

9. The 'MO HealthNet oversight committee shall conduct research and investigation for any potential heath related savings and revenues associated with expanding Medicaid eligibility and for birth control resulting in fewer births and associated costs as well as savings from continuing 'Planned Parenthood'. Any savings will go to the reduction or elimination of hospital levy. Any additional savings will go to the mental health budget. The 'health and senior services' budget in future years will remain at least at the same percent of total MO budget as in 2015 with the excess not needed going to the mental health budget with priorities for communities with the highest percent of poverty.

11. All subsections and all clauses of this statute, and the phrases, and the words within them, are severable. If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby.

My commission expires:

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"
Chapter 208,RSMo, is amended by adding thereto one new section, to be known as section 208.207, to read as follows:

1. Beginning January 1, 2019, individuals age nineteen to sixty-four, who are not otherwise eligible for MO HealthNet services under this chapter, who qualify for MO HealthNet srvices under section 42 U.S.C. 1396a(a)(10())(A)(i)(VIII) and as set forth in 42 CFR 435.119, and who have income at or below one hundred thirty-three percent of the federal poverty level plus five percent of the applicable family size as determined under 42 U.S.C. 1396a(e)(14) amd as set fprtj om 42 CFR 435.603, shall be eligible for medical assistance under Mo HealthNet and shall receive coverage for the health benefits service package.

2. For purposes of this section, "health benefits service package" shall mean, subject to federal approval, benefits covered by the MO HealthNet program as determined by the department of social services to meet the benchmark or benchmark-equivalent coverage requirement under 42 U.S.C. 1396a(k)(1).

3. The reimbursement rate to MO HealthNet providers for MO HealthNet services provided to individuals qualifying under the provisions of this section shall be comparable to commercial reimbursement payment levels with trend adjustment for comparable services. The rates shall be determined annually by the department of social services, and the department may develop such rates through a contracted actuary. The higher commercial comparable rates shall only apply for services provided to individuals qualifying under this section.

4. (1) The department of social srvices shall discontinue eligibility for persons who are elibible under subsection 1 of this section if:

(a) The federal medical assistance percentage established under 42 U.S.C. Section 1396d(y) or 1369d(z) is less than than ninety percent as specified for 2020 each year thereafter or an amount determined by the MO HealthNet oversight committee to be necessary to maintain state budget solvency, whichever is lower; and

(b) The general assembly votes to discontinue eligibility for persons who are eligible under subsection 1 of this section. Prior to any vote under this paragraph, the MO HealthNet oversight committee and the department of social services shall provide the general assembly with information on the current and projected expenses incurred due to expanding eligibility to persons under subsection 1 of this section in relation to health-related savings and revenues and health outcomes of individuals and families receiving benefits under subsection 1 of this section.

(2) The department of social services shall inform persons elibible under subsection 1 of this section that their benefits may be reduced or eliminated if federal funding decreases of is eliminate.

5. The MO HealthNet oversite committee shall conduct research and investigate any potential health-related savings and revenues associated with expanding eligibility to persons under subsection 1 of this section. The committee shall investigate the federal matching rate below which the state could not maintain the expanded esibibility to persons under subsection 1 of this section. If the amount is determined to be greater than ninety percent, the committee shall report its findings to the general assembly for its consideration prior to any vote under paragraph (b) of subdivision (1) of subsection 4 of this section. In conducting its research and investigation, the committee shall also determine the feasibility of:

(1) Implementing capped cost sharing for persons eligible under subsection 1 of this section which may be reduced based on healthy behaviors of participants.

(2) Expanding Medicaid coverage for certain health care services that are currently financed by the state: and

(3) Enrolling persons under subsection 1 of this section in private health benefit plans.

6. All person living one hundred eighty-five percent of the federal poverty level for the applicable family size will be eligible for paid birth control methods to be paid from Medicaid. Birth control and family planning covered by this bill which will begin on January 1, 2019. There will be no cost for family planning services, including office visits and drugs/devices to the patient. The patient will not have to pay a co-

payment for family planning services. The patient can go to any health provider who offers family planning services such as:

(a) Birth control pills, Patches (like the OrthoEvra Patch), Vaginal rings (like the NuvaRing), Injections (like the Depo shot), Implants (like Implanon), Intrauterine devices (IUDs – like Mirena or Paragard), Emergency birth control ("the morning-after pill"), Diaphragms, Condoms, Surgical sterilization for clients 21 years old and older (like vasectomies or tubal ligation's, including the Essure procedure) or any future approved medical procedures will be included at the patient's choice.

(b) An ob/gyn or gynecologist, a certified nurse-midwife, a nurse practitioner or other advanced practice nurse, a family planning clinic, your regular doctor or primary care provider or Planned Parenthood unit that accepts Medicaid.

Birth control and family planning will be available to eligible MO women and male residents 13 years of age and over with proof of age and residence. Those seeking birth control and family planning will not need permission from family, spouses or guardians (those under the age of 16 will need permission of guardians or parent). Confidentially will be ensured at all levels. Any savings to the state from Medicaid expansion that is not used for family planning and birth control will go toward the reduction of the levy on hospitals that this bill mandates.

7, If at any time funding for Planned Parenthood by the federal government is discontinued or if it has already been discontinued at the passage of this amendment, the hospital levy will be increased enough to replace the federal funding of Planned Parenthood to a level at least equal to that of 2015 adjusted for inflation. The state of MO will fund Planned Parenthood at a level at least equal to 2015 adjusted for inflation beginning on Jan 1, 2019, and if by the time this measure is accepted, the state of MO has stopped funding Planned Parenthood, the state will begin funding Planned Parenthood again at a level equal to 2015 inflation-adjusted.

8. The cost to the state for expanding medical coverage will be borne by the hospitals in the state of Missouri as follows:

(a) All hospitals in MO will be accessed a fee to pay for the expense of this expansion. The first year will be an estimate by the 'department of health and senior services'. Assessment will be made based on the most recent records of 'department of health and senior services' for a full year and adjustments for new assessments will begin on the first of April of each following year. Each hospital will pay a share equal to the percentage of patient admittance of each hospital of the total MO visits. Each admittance will count separately even though it is a re-admittance. Hospitals will begin monthly payments on Jan 1, 2019. Hospitals will make monthly payments to the state of MO into a fund that will only be used for the full Federal Medicaid Expansion, Planned Parenthood and birth control for residents of Missouri.

(b) Missouri will make immediate application and if fees for implementation have not occurred from the hospitals on implementation, the state will borrow from reserve funds to expedite enrollment. These funds will be paid back upon receipt of funds beginning on Feb 15, 2019.

9. The 'MO HealthNet oversight committee shall conduct research and investigation for any potential heath related savings and revenues associated with expanding Medicaid eligibility and for birth control resulting in fewer births and associated costs as well as savings from continuing 'Planned Parenthood'. Any savings will go to the reduction or elimination of hospital levy. Any additional savings will go to the mental health budget. The 'health and senior services' budget in future years will remain at least at the same percent of total MO budget as in 2015 with the excess not needed going to the mental health budget with priorities for communities with the highest percent of poverty.

11. All subsections and all clauses of this statute, and the phrases, and the words within them, are severable. My commission expires:

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"

The annual franchise tax will be amended as follows:

147.010. 1. For the transitional year defined in subsection 4 of this section and each taxable year beginning on or after January 1, 1980, but before January 1, 2000, every corporation organized pursuant to or subject to chapter 351 or pursuant to any other law of this state shall, in addition to all other fees and taxes now required or paid, pay an annual franchise tax to the state of Missouri equal to one-twentieth of one percent of the par value of its outstanding shares and surplus if its outstanding shares and surplus exceed two hundred thousand dollars, or if the outstanding shares of such corporation or any part thereof consist of shares without par value, then, in that event, for the purpose contained in this section, such shares shall be considered as having a value of five dollars per share unless the actual value of such shares exceeds five dollars per share, in which case the tax shall be levied and collected on the actual value and the surplus if the actual value and the surplus exceed two hundred thousand dollars. If such corporation employs a part of its outstanding shares in business in another state or country, then such corporation shall pay an annual franchise tax equal to one-twentieth of one percent of its outstanding shares and surplus employed in this state if its outstanding shares and surplus employed in this state exceed two hundred thousand dollars, and for the purposes of sections 147.010 to 147.120, such corporation shall be deemed to have employed in this state that proportion of its entire outstanding shares and surplus that its property and assets employed in this state bears to all its property and assets wherever located. A foreign corporation engaged in business in this state, whether pursuant to a certificate of authority issued pursuant to chapter 351 or not, shall be subject to this section. Any corporation whose outstanding shares and surplus as calculated in this subsection does not exceed two hundred thousand dollars shall state that fact on the annual report form prescribed by the secretary of state. For all taxable years beginning on or after January 1, 2000, but ending before December 31, 2009, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed one million dollars. Any corporation whose outstanding shares and surplus do not exceed one million dollars shall state that fact on the annual report form prescribed by the director of revenue. For taxable years beginning on or after January 1, 2010, but before December 31, 2011, the annual franchise tax shall be equal to one-thirtieth of one percent of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars. For all taxable years beginning on or after January 1, 2010, but before December 31, 2015, any corporation whose outstanding shares and surplus do not exceed ten million dollars shall state that fact on the annual report form prescribed by the director of revenue. For all taxable years beginning on or after January 1, 2011, but before December 31, 2015, a corporation's annual tax liability under this chapter shall not exceed the amount of annual franchise tax liability of such corporation for the taxable year ending on or before December 31, 2010. If the corporation had no annual franchise tax liability under this chapter for the taxable year ending on or before December 31, 2010, because such corporation was not in existence or doing business in Missouri, the annual franchise tax for the first taxable year in which such corporation exists shall be determined by applying the applicable rate of tax provided under the provisions of this subsection to the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed ten million dollars, but in no case shall such corporation's tax liability for any subsequent taxable year exceed the amount of annual franchise tax liability of such corporation for the first full taxable year such corporation was in existence or doing business in Missouri. For taxable years beginning on or after January 1, 2012, the annual franchise tax shall be equal to the percentage rate prescribed in this subsection for the corresponding taxable year of the corporation's outstanding shares and surplus if the outstanding shares and surplus exceed the corresponding minimum threshold amount prescribed as follows:

(1) For tax year 2012, the rate shall be one-thirty-seventh of one percent and the threshold amount shall be ten million dollars;

(2) For tax year 2013, the rate shall be one-fiftieth of one percent and the threshold amount shall be ten million dollars;

(3) For tax year 2014, the rate shall be one-seventy-fifth of one percent and the threshold amount shall be ten million dollars;

(4) For tax year 2015, the rate shall be one-hundred-fiftieth of one percent and the threshold amount shall be ten million dollars;

{(5) For tax years beginning on or after January 1, 2016, no annual franchise tax shall be imposed under this section.}

(5) For the tax year 2019, the rate shall be one percent and the threshold amount shall be ten million dollars and shall remain at that rate unless changed through a ballot of the citizens of the state of Missouri. The first quarterly payment will be due on April 15th of 2019.

(6) The annual franchise tax will be to provide revenue for the stressed portions of the Missouri public-school system including pre-kindergarten, elementary and secondary education. The revenue generated from the franchise tax will go to a dedicated fund that will be distributed as listed in 161.020 6. The Missouri budget for elementary and secondary education will not be replaced by this bill. The elementary and secondary education budgets will remain at least equal to a percent of the total budget from general revenue in future years as during the year 2015. Failure of the legislatures to fulfill this obligation will require the shortfall to be filled with funds from the Elected Officials, & General Assembly budget

(7) .All subsections and all clauses of this statute, and the phrases, and the words within them, are severable If any of the provisions within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted or invalid, the remainder of those provisions shall remain valid and the application of such provisions shall not be affected thereby

Department of elementary and secondary education created--superintendents of schools for deaf and for blind students--appointment.

161.020. 1. There is hereby created a department of elementary and secondary education headed by a state board of education as provided in Article IX, Constitution of Missouri, and chapter 161 and others. The state board shall appoint a commissioner of education as the chief administrative officer of the department.

2. The department of education, chapter 161 and others, is abolished and its powers, duties, personnel and property are transferred as provided in this act*.

3. The division of public schools of the department of education, chapter 161 and others, is abolished and its powers, duties, personnel and property, with exceptions specified elsewhere in this act*, are transferred by type I transfer to the department of elementary and secondary education.

4. The Missouri School for the Deaf, chapter 178 and others, and the Missouri School for the Blind, chapter 178 and others, are transferred to the department of elementary and secondary education by a type I transfer. The commissioner of education shall appoint superintendents for these schools and members of the advisory boards, provided in chapter 178 and others.

5. The commissioner of education that is installed by the state department of health and senior services will set up a separate department to distribute the funds from the franchise tax and shall appoint and shall fix the powers, duties, and compensation that will be responsible for distribution of funds as set out in this fund for distribution of revenue to pre-kindergarten, elementary and secondary education. That director will use those funds to finance changes to Chapter 161, RSMo and Chapter 191, RSMo by this act. The director will act as a liaison between this fund and the state appropriated education expenses to prevent duplication and co-ordinate services. Balances left over will be used to enhance other sections of Chapter 161 as the director sees need.

6. The proceeds from the franchise tax shall be distributed in this order of priority as funds are available:
(1) 161.098. 2 -for bonus pay to retain teachers in destressed areas.
(2) 161.213. section 1 (1), (2), and (6) -will supplement funds for expanding Pre-K and furnishing notebooks. The franchise tax will be only for expanding this section and not for budgeted funds already targeted to this section.
(3) 191.803 section 1, (a) and section 5. -Added benefits for poverty areas, to be added as time and funds are available. Legislature will revisit on sunset date.
(4) 161.650. section 1, (1), (2), (3) may require start-up costs, but should show a long-term savings. Available funds to target start up costs.
(5) Any surplus funds will be transferred to the general budget for state department of health and senior services.

Retention and recruitment of teachers, report required.

161.098. 1. Beginning December 15, 1999, and annually by that date in each following year, the state board of education shall report to the general assembly on the retention and recruitment of teachers in the state's schools. The report shall include, but not be limited to, information on the numbers of teachers entering and leaving employment in the public schools of the state, analysis of the issues affecting teacher recruitment, including the need for identifying African-American and other minority students, including males, who show potential or interest in becoming a teacher, recruiting such students as prospective teachers, and methods for providing financial aid to such students, and suggestions for meeting predicted needs of numbers of teachers and in areas of certification.

2. All school districts with a 15% or more poverty level by using proceeds from the franchise tax will:
(a) Receive a 5% pay raise for teachers financed by the proceeds of the franchise tax. Current pay levels will be maintained by the district with inflation adjusted raises.
(b) After 3 years teaching in the same school district, another 5% will be added to the teacher's pay The raises will be maintained by the franchise tax in future years as long as current pay levels for each school district are maintained adjusted for inflation.
(c) The increased pay will be given as a bonus at the end of the school year. This will be effective the first full school year after implementation of franchise tax.

(L. 1998 S.B. 781 § 161.220)

High-quality early childhood education standards required—rule making authority.

161.213. 1. The department of elementary and secondary education shall develop standards for high-quality early childhood education no later than June 30, 2007. The standards shall be applicable to all public school prekindergarten programs that receive Title I or Missouri preschool project funds.

(1) All school districts to provide Universal Pre-K education for those who will become age 4 by the end of the calendar year. Because of the lengthy preparations, implementation of the Pre-K programs will target completion of all affected districts will be in a four-year period ending 2023.. Districts with the highest poverty level will be implemented first. All children meeting age and residence will be eligible for Universal Pre-K. When Pre-K becomes available, all eligible children will be required to attend Pre-K.

(2) For non-public schools, each student will receive at least 2 ½ hours of instruction. The instructor will be provided by the state and will be travel from one location to another or hold multiple instructions at the same location. This will allow one teacher to attend 2 or more schools to utilize their time for maximum efforts. Computer and on-line teaching aids will be utilized to allow individual learning. Notebooks with learning programs will be allowed to be taken home.

2. Such standards shall include, but not be limited to, the following principles:

(1) Access for all children whose parents or guardians choose to participate;

(2) Focus on cognitive, language, physical, and social/emotional development;

(3) Assessment of needs of children and their families;

(4) Highly qualified and properly certified teachers; and

(5) Delivery of comprehensive services supported by strong and accessible technical assistance and professional development.

(6) Will provide, beginning in the school year of 2019-2020, notebooks or equivalent with learning programs to all children enrolled in public education in all districts having a poverty rate of 10% or more. Every three years the students will receive a current notebook through 6th grade. Discarded notebooks will be used for replacement of lost, stolen or dysfunctional notebooks. Notebooks will be distributed to those beginning in Pre-K. This franchise tax will only pay for notebooks in those districts that have levels of poverty above 15%.

3. In developing such standards, the department shall involve representatives of the business community, parents as teachers, head start, early childhood start, early childhood special education, Missouri preschool project, first steps, Title I preschools, school district personnel, private providers, and faith-based providers.

4. Unless otherwise prohibited by federal law, public school districts shall not be prohibited from charging tuition and related charges for early childhood education programs. Children living in poverty conditions (one hundred eighty-five percent of the federal poverty level) will not be charged.

5. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

(L. 2006 H.B. 1511)

191.803. Boards of education to establish breakfast program — rules — waiver, procedure. — 1. By July 1, 1993, the board of education of each school in this state in which thirty-five percent or more of the students enrolled in the school on October first of the preceding school year were eligible for free or reduced price meals shall establish a school breakfast program.

(a) In school districts with levels of poverty above 15%, schools will provide student care to be available for all students from Pre-K through 6th grade starting at 6 AM for before school and after school care until 6 PM. Breakfast, lunch and an evening meal or snack will be provided at no cost to all students in these areas regardless of income.

2. The department of elementary and secondary education may promulgate rules and regulations necessary for implementation of sections 191.800 to 191.815 in compliance with federal guidelines pursuant to the provisions of 42 U.S.C. 1773.

3. A school shall receive a waiver from the requirements of this section if the school board of the school district by majority vote adopts a resolution requesting a waiver.

4. A school district requesting a waiver must file in writing notification that it has adopted a resolution which excuses the district from the requirements of this section. Such writing shall be filed with the Missouri department of elementary and secondary education. Such a waiver shall be valid for a period of three years.

5. All school districts with a poverty level of 15% or more will have 12-month schooling for Pre-K through 6th grade levels.

(a) All schools from pre-K through senior high will have an arts program, a music program, technical courses and will have chess classes.

(b) In schools with more than 10% minority groups, courses offered will include Bi-lingual and bi-culture classes and one year of secondary level history classes including;

1. one term, Native American,
2. one term, Hispanic,
3. one term European and Asian History
4. one term Black History.

(c) School districts with a poverty level of 15% or more will have staff available to allow after school, weekend and vacation times so that students 6th grade levels and up will have supervised play areas

at school areas. Computer lab and inside access will be available for those with disabilities and on days unfit for outside activity.

Termination 9-01-20

(Section **167.031**, RSMo, states that any parent, guardian or other person having custody or control of a child between the ages of seven (7) and the compulsory attendance age for the district, must ensure that the child is enrolled in and regularly attends public, private, parochial, home school or a combination of schools for the full term of the school year.
The term "compulsory attendance age for the district" shall mean seventeen (17) years of age or having successfully completed sixteen (16) credits towards high school graduation in all other cases (Amish students ruled by Supreme Court to only have 8 years of classes).
Children between the ages of five (5) and seven (7) are not required to be enrolled in school. As Pre-K becomes available, enrollment will be required of all who will be 4 at the end of calendar year. However, if they are enrolled in a public school their parent, guardian or custodian must ensure that they regularly attend.)

(1) All schools, including; Amish, religion associated, homeschooling or other 'for profit', will meet the Missouri test regime, (§160.518, RSMo) which compels the State Board of Education and the Department of Elementary and Secondary Education to annually measure "by grade level a student's knowledge of academic subjects.
(2) Any school that does not provide students that can pass the requirements of §160.518, RSMo for three consecutive years will not be considered filling the obligation of an educational school. Either the school will shut down or the state will take over the administration of the school. The failing school will not fulfil the obligation of being a school that allows a parent or guardian to fulfil the 'The Compulsory Attendance Law':

Department to identify and adopt violence prevention program, district to administer--state board to adopt violence prevention program--duties--administered how--funding.

161.650. 1. The department of elementary and secondary education shall identify and adopt an existing program or programs of educational instruction regarding violence prevention to be administered by public school districts pursuant to subsection 2 of this section, and which shall include, but shall not be limited to, instructing students of the negative consequences, both to the individual and to society at large, of membership in or association with criminal street gangs or participation in criminal street gang activity, as those phrases are defined in section 578.421, and shall include related training for school district employees directly responsible for the education of students concerning violence prevention and early identification of and intervention in violent behavior. The state board of education shall adopt such program or programs by rule as approved for use in Missouri public schools. The program or programs of instruction shall encourage nonviolent conflict resolution of problems facing youth; present alternative constructive activities for the students; encourage community participation in program instruction, including but not limited to parents and law enforcement officials; and shall be administered as appropriate for different grade levels and shall not be offered for academic credit.

(1) Except in extreme instances (court ordered or security threats), no police officer will be on campus with a firearm. Police officers preforming community service will be unarmed. In case of police making an arrest on a school campus, no handcuffs or restraints will be used unless there is danger to others.

(2) SRO (School Resource Officers) will be phased out in all schools. They will be replaced by trained counselors and staff. Each school will have fully trained personnel to address any issues that students may have. Rural areas with smaller school system may share personnel.

(3) To address school suspensions and expulsions and encourage high school graduation, the following procedures will be enacted in all schools:

(a) School administrators will develop a structured process to assess whether a student who makes a threat is likely to carry out that threat. Each school will use "restorative justice practices" instead of or in addition to suspensions or expulsions. If a threat is deemed unlikely, the student will be counseled and/or disciplined, but not suspended.

(b) All teachers will receive training in Positive Behavioral Support (PBS). If surplus monies are available, funds will be allotted to the Missouri Schoolwide Positive Behavior Support (MO SW-PBS).

(c) Beginning immediately as funds are available, a target date of three years having all schools at maximum level for MO SW-PBS objectives.

(3) . Any teacher recommending multiple expulsions will receive "My Teacher Partner Program (MPT)" training. All teachers will receive training in behavior management skills. Teachers with minority students will receive culture training for different ethnic groups

(4) .No student will be segregated for disciplinary reasons without a teacher to keep them current in their education.

2. All public school districts within this state with the approval of the district's board of education may administer the program or programs of student instruction adopted pursuant to subsection 1 of this section to students within the district starting at the kindergarten level and every year thereafter through the twelfth-grade level.

3. Any district adopting and providing a program of instruction pursuant to this section shall be entitled to receive state aid pursuant to section 163.031. If such aid is determined by the department to be insufficient to implement any program or programs adopted by a district pursuant to this section:

(1) The department may fund the program or programs adopted pursuant to this section or pursuant to subsection 2 of section 160.530, or both, after securing any funding available from alternative sources; and

(2) School districts may fund the program or programs from funds received pursuant to subsection 1 of section 160.530.

4. No rule or portion of a rule promulgated pursuant to this section shall become effective unless it has been promulgated pursuant to chapter 536.

(L. 1996 H.B. 1301 & 1298 § 3, A.L. 2000 S.B. 944, A.L. 2010 H.B. 1543)

RE: Petition approval request from Rush Loftis regarding a proposed statutory amendment to Chapter 188 (2018-242)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Rush Loftis on July 13, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

A new section be added to the Revised Statutes of Missouri to be known as section 188.340 and to read as follows:

188.340 1. As used in this section, the following terms shall mean:

(1) "Fertilization", the fusion of a human spermatozoon with a human ovum.

(2) "Premeditated murder", a murder planned in advance and carried out willfully.

(3) "Unborn human", an individual organism of the species homo sapiens from fertilization until live birth.

(4) "Abortion", The Willing use of or prescription of any instrument, medicine, drug, or any other substance or device to intentionally kill an unborn human;

2. This state recognizes that abortion denies the most defenseless persons the same rights, powers, and privileges as are secured or granted by the laws of this state to any other human child.

3. This state recognizes that all persons are created equal and are entitled to equal rights and opportunity under the law.

4.This state recognizes that all persons have a natural right to life including the right to life of every unborn human child at every stage of biological development and shall protect such life from deprivation by the state or private action.

5. On the effective date of this section, no person who lives in this state or has traveled to this state shall perform, procure, or attempt to perform an abortion. No person who lives in this state may perform, procure, or attempt to perform an abortion outside of this state.

6. Any individual who violates the provisions of this section shall be guilty of the offense of premeditated murder and shall be punished in accordance with the penalties for that offense under the law on the effective date of this section.

7. No abortions are permitted in this state. Any current state statutes regarding the regulation of abortions are void on the effective date of this section. It shall be the duty of the Missouri General Assembly to immediately repeal laws that regulate abortion during the next legislative or extraordinary session.

8. No government may deprive any person of life, without due process of law, therefore any federal statute, regulation, executive order, or court decision which purports to supersede, stay, or overrule this Act is in violation of the Missouri Constitution and the Constitution of the United States of America and is therefore void. The State of Missouri and its political subdivisions, and agents thereof, may not enter an appearance, special or otherwise, in any federal suit challenging this Act.

Be it enacted by the people of the state of Missouri:

A new section of the Missouri Revised Statutes is hereby enacted, to be known as section 130.130, to read as follows:

130.130. 1 (a): The United States Supreme Court decision in *Citizens United v. Federal Election Commission*, 558 U.S. 310 (2010), and other cases have allowed for the creation of Super PACs and other vehicles for accumulating and spending unlimited amounts of money from undisclosed donors in election campaigns for public office, resulting in unregulated campaign expenditures in unprecedented amounts.

(b). The people of Missouri and the United States of America, and their legislative bodies, must have the authority to regulate political contributions and expenditures to secure our rights as equal citizens, human beings and States in the Republic.

(c). Based on the American values of fair play, leveling the playing field and ensuring that all citizens, regardless of wealth, have an opportunity for their political views to be heard, there is a compelling reason to regulate political spending so that the voices of natural persons are not overwhelmed by corporate spending.

(d). Article IX, Sec. 3 of the Missouri Constitution provides that "The exercise of the police power of the state shall never be surrendered, abridged, or construed to permit corporations to infringe the equal rights of individuals, or the general well-being of the state."

(e). The people of Missouri would benefit from regular updates on the status of such an amendment from the State of Missouri.

2: The People of the State of Missouri request that the Congress of the United States of America propose and send to the states for ratification an amendment to the United States Constitution specifying that the rights in the United State Constitution are rights enjoyed only by natural persons, and that the proposed amendment to the United States Constitution specify that Congress and state legislatures may regulate all moneys raised and spent for political purposes, whether from artificial persons or natural persons, including by prohibiting artificial persons from political spending.

3: At least once per year, until ratification of such an amendment, the Secretary of State shall cause to be posted on the official website of the office an update on the status of such an amendment. The information included in the update shall include, but not be limited to:

(a) whether the amendment has been proposed by Congress or a convention of states, and is thus waiting for ratification by the states;

(b) a list and tally of the states currently calling for any such amendment;

(c) which members of the current Congressional Delegation from the state of Missouri are cosponsors of such amendment proposals in the US Senate and House of Representatives;

(d) the voting history of the current Congressional Delegation on any such amendment proposals; and

(e) any other information regarding the Congressional Delegation with respect to such an amendment proposal.

4: The provisions of this Act shall be severable. If any of the above sections are declared unconstitutional by any court of competent jurisdiction, the unconstitutional paragraph or section shall be severed and the remainder of this Act shall be enforced to the fullest extent permitted by law.

5: This Act shall be effective 90 days following certification of the election results passing this initiative.

Be it enacted by the people of the state of Missouri:

A new section of the Missouri Revised Statutes is hereby enacted, to be known as section 130.130, to read as follows:

Section 1. Policy and Purpose

a. This Act establishes a non-partisan Citizens Commission to examine the extent, nature and impact of unlimited political spending after the Supreme Court's 2010 decision, Citizens United v. Federal Election Commission, and subsequent decisions struck down numerous federal and state campaign finance laws as unconstitutional. The Citizen Commission will educate the public and advance the policy of amending the Constitution of the United States to eliminate the undue influence of concentrated money on elections and governmental policy.

b. It is the intent of this Act that the proposed federal constitutional amendment or amendments that are the subject matter of this Act shall be drafted and construed so as to protect the integrity and fairness of elections and government; prevent corruption; secure the right of all Americans to be represented and to participate in self-government as equal citizens; protect the freedom of speech, of the press and other rights of all Americans; and enable the sound regulation and operation of corporations and other economic entities by the people.

c. To further this intent and advance the constitutional amendment(s) and the policies described herein, an independent, non-partisan Citizens Commission is hereby established for the purpose of reporting and making such recommendations as may be of assistance in drafting, passing and ratifying such constitutional amendment(s).

d. This Act shall be known as the Citizens Commission Concerning a Constitutional Amendment to Secure Free and Fair Elections and Government of the People Act.

Section 2. Establishment of Citizens Commission on Free and Fair Elections

a) This act establishes a Citizens Commission on Free and Fair Elections to advance the policy of the State of Missouri, as set forth in this Act.

b) The People find and declare that the establishment of a non-partisan Citizens Commission as provided herein will ensure prudent consideration of such a constitutional amendment by the Missouri Congressional delegation and by the citizens and the Missouri General Assembly during the ratification process to follow Congressional approval.

c) The Citizens Commission shall research, take testimony, report, and make such recommendations as may be of assistance in drafting, passing, and ratifying such a constitutional amendment.

Section 3. Composition, Appointments, and Deliberative Process

a) The Citizens Commission shall be comprised of 15 United States citizens who are residents of Missouri, and shall be appointed as follows:

i) The Governor shall appoint 3 members;
ii) The Secretary of State shall appoint 3 members;
iii) The Attorney General shall appoint 3 members;
iv) The Speaker of the House shall appoint 3 members; and
v) The President of the Senate shall appoint 3 members.

b) No person shall be appointed to the Citizens Commission who has not publicly applied for such appointment, which applications the Governor shall cause to be posted on a page established for the public knowledge and oversight of the appointment and operation of the Citizens Commission on the official website of the State of Missouri.

c) An application by any citizen who seeks to serve on this Commission shall state:

i) The intent of the applicant to comply with and advance the policy established by this Act;
ii) The applicant's qualifications and interest in serving on the Citizens Commission;
iii) The political party affiliation, if any, of the applicant over the previous 5 years;
iv) The city or town in which the applicant resides;
v) The employment of the applicant, if employed.

d) All applications for service on the Citizens Commission shall be submitted within 60 days of the posting of the appointment opportunity on the official website of the State of Missouri, which posting the Governor shall cause to be made within 30 days of effective date of this Act.

e) All appointments to the Citizens Commission shall be made no sooner than 90 days and no later than 120 days after the effective date of this Act.

f) In making appointments to the Commission, the Governor, Secretary of State, Attorney General, President of the Senate and Speaker of the House of Representatives shall have due regard for the non-partisan nature of the Citizens Commission, and shall seek to ensure that the Citizens Commission reflect a range of geographic, political, and demographic backgrounds.

g) Appointees to the Citizens Commission shall serve without compensation.

h) Members of the Citizens Commission shall elect a chair or co-chairs, in the manner as the members of the Commission may decide by majority vote.

i) The Citizens Commission shall meet on a regular basis to gather evidence, testimony, and advice in the manner that the members of the Commission determine is most conducive to achieving the objectives of this Act, provided however, that the Citizen Commission proceedings and activities shall be subject to the Open Meeting Law and the Public Records Law, and that all residents of Missouri have a reasonable opportunity to offer their views and ideas related to the policies herein to the Commission.

Section 4. Report and Recommendations

a) The Citizens Commission shall issue a Report of Findings and Recommendations, which shall include the following:

   i) The nature and impact of political and election spending in Missouri;
   ii) The limitations, if any, on the legal ability of the State and its citizens to reasonably regulate corporations and other entities due to the Supreme Court's conclusion that corporations may assert Constitutional rights of human beings;
   iii) Recommendations as to the scope and language of one or more constitutional amendment resolutions that would address the problem and policies described herein, and that would be prudent for the State of Missouri to ratify under Article V of the United States Constitution;
   iv) An analysis of the constitutional amendments that have been introduced in Congress to date in response to the Supreme Court's decision in *Citizens United v. FEC*, an assessment of their alignment with the policies and objectives set forth in this Act; and
   v) Recommendations for actions to be taken by Congress, the Missouri General Assembly, the Governor, Secretary of the State, the Attorney General and other public officials and bodies, and citizens of the State of Missouri to further passage and ratification of the recommended constitutional amendment or amendments.

b) The Citizens Commission shall deliver its final Report and Recommendations to the President of the Senate, the Speaker of the House of Representatives, the Governor, the Secretary of the State, the Attorney General and the citizens of Missouri on or before December 31, 2019.

c) Within 5 days of receipt, the Secretary of the State is instructed to deliver the Report and Recommendations of the Citizens Commission to all current members of the Missouri General Assembly, all current members of the United States Congress, and the President of the United States.

d) The Secretary of the State is directed to immediately deliver copies of this law, when enacted, to the following persons: The Governor, the Attorney General, all current members of the Missouri General Assembly, all current members of the United States Congress, and the President of the United States.

e) With the Act, the People hereby request that Congress, the General Assembly of Missouri, the Governor, Secretary of the State, the Attorney General and other public officials and bodies, and citizens of the State of Missouri carefully review the Citizen Commission's findings and take all constitutional and lawful actions to further passage and ratification of the recommended constitutional amendment or amendments.

Section 5. Severability

The several provisions of this Act are independent and severable and the invalidity, if any, of any part or feature thereof shall not affect or render the remainder of the Act invalid or inoperative.

Section 6. Effective Date

This act shall take effect on January 1, 2019

RE: Petition approval request from Steven Reed regarding a proposed constitutional amendment to Article V (2018-239)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Steven Reed on June 27, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Article V entitled Judicial Department, is amended by adding one new section to be known as Section 32, to read as follows:

The Supreme Court allows certified paralegals or legal assistants certified by a credited college or university to shadow and work alongside of an attorney at law for a period of three years. Thereafter, the person would be allowed to take a bar exam and if passed will be able to practice law in Missouri and will be accepted by the Supreme Court and the Appeals Courts and all Courts and Tribunals in the state and have the same basic rights to practice law and give legal advice to the People of the state.

BE IT RESOLVED BY THE PEOPLE of the state of Missouri that the Constitution be amended:

Section 36(a) of Article IV of the Constitution of Missouri is amended by modifying Section 36(a). The existing Section 36(a) is set forth hereinafter with the new matter underlined.

Section 36(a). **Economic development, department of - duties of department - director, how appointed.** - The department of economic development shall be in charge of a director appointed by the governor, by and with the advice and consent of the senate. The department shall administer all programs provided by law relating to the promotion of the economy of the state, the economic development of the state, trade and business, technology development and other activities and programs impacting on the economy of the state.

A state sales tax of one tenth of one percent will provide additional money for the State Economic Development Department to be used solely for the promotion and development of "Technology Parks in Missouri. Technology Parks serve as incubators helping create new companies, jobs, and research and development. Cities will be able to apply with the State of Missouri to have certified technology park status. Local counties or cities operating in the state may place voting yes or no on their ballot to seek approval or disapproval of the People.

The one year sales/use tax of one tenth of one percent (referred to above) is hereby levied and imposed upon all sellers for the privilege of selling tangible personal property or rendering taxable services at retail in this state upon the sales and services which now are or hereafter are listed and set forth in, and, except as to the amount of tax, subject to the provisions of and to be collected as provide in the "Sales Tax Law" and subject to the rules and regulations promulgated in connection therewith; the one year sales/use tax of one tenth of one percent is levied and imposed for the privilege of storing, using or consuming within this state any article of tangible personal property as set forth and provided in the "Compensating Use Tax Law" and, except as to the amount of the tax, subject to the provisions of and to be collected as provided in the "Compensating Tax Law" and subject to the rules and regulations promulgated in connection therewith.

Schedule

Section 36(a) amendment. All of the provisions of 36(a) amendment shall be self-enforcing except that the general assembly shall adjust brackets for the collection of the sales and use taxes. The above one tenth of one percent sales/use tax will sunset one year after imposition.

Be it enacted by the people of the State of Missouri:

A new section be added to the Revised Statutes of Missouri to be known as section 188.340 and to read as follows:

188.340 1. As used in this section, the following terms shall mean:

(1) "Fertilization", the fusion of a human spermatozoon with a human ovum.

(2) "Premeditated murder", a murder planned in advance and carried out willfully.

(3) "Unborn human", an individual organism of the species homo sapiens from fertilization until live birth.

(4) "Abortion", The Willing use of or prescription of any instrument, medicine, drug, or any other substance or device to intentionally kill an unborn human;

2. This state recognizes that abortion denies the most defenseless persons the same rights, powers, and privileges as are secured or granted by the laws of this state to any other human child.

3. This state recognizes that all persons are created equal and are entitled to equal rights and opportunity under the law.

4.This state recognizes that all persons have a natural right to life including the right to life of every unborn human child at every stage of biological development and shall protect such life from deprivation by the state or private action.

5. On the effective date of this section, no person who lives in this state or has traveled to this state shall perform, procure, or attempt to perform an abortion. No person who lives in this state may perform, procure, or attempt to perform an abortion outside of this state.

6. Any individual who violates the provisions of this section shall be guilty of the offense of premeditated murder and shall be punished in accordance with the penalties for that offense under the law on the effective date of this section.

7. No abortions are permitted in this state. Any current state statutes regarding the regulation of abortions are void on the effective date of this section. It shall be the duty of the Missouri General Assembly to immediately repeal laws that regulate abortion during the next legislative or extraordinary session.

8. No government may deprive any person of life, without due process of law, therefore any federal statute, regulation, executive order, or court decision which purports to supersede, stay, or overrule this Act is in violation of the Missouri Constitution and the Constitution of the United States of America and is therefore void. The State of Missouri and its political subdivisions, and agents thereof, may not enter an appearance, special or otherwise, in any federal suit challenging this Act.

MO. SECRETARY OF STATE

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"
The State of MO will levy *a one and one-half percent (1.5) tax on the GSP* (Missouri Gross State Product) of the private sector with a GSP greater than 5 million dollars.

The one percent portion of the levy will be used to enhance stressed portions of the public-school system *including pre-kindergarten, elementary and secondary education.*

The one half of one percent (.5) of the revenue from the GSP will go a separate budget for *improving higher education.*

All school districts with a 15% or more poverty level using proceeds from the levy will:

- receive a 10% pay raise for teachers financed by the proceeds of the levy. Current pay levels will be maintained by the district with inflation adjusted raises. After 3 years in the same school district, another 5% will be added. The 10% raise will be maintained by the levy in future years as long as current pay levels are maintained by the district adjusted for inflation. The increased pay will be given as a bonus at the end of the school year. This will be effective the first full school year after implementation of levy.
- Will provide, beginning in the school year of 2019-2020, notebooks or equivalent to all children enrolled in public education in these districts. Every three years the students will receive a current notebook. Notebooks will be distributed to those beginning in Pre-K. This levy will only pay for notebooks in those districts that have levels of poverty above 15%.
- Gifted students from rural areas that do not have access to suitable education opportunities, will be afforded opportunities to attend summer classes. These classes will be set up at the MU campus and will utilize experienced instructors. The classes will be free to the student. Utilizing vacant housing because of the summer session, housing will be available for free to the student along with a guardian. A transportation allowance and meal expense will be furnished to the student and guardian. This will be available summer of 2020.

The levy will fund all school districts to provide Universal Pre-K education for those who will become age 4 by the end of the calendar year. Because of the lengthy preparations, implementation of the following programs will target completion of all affected districts in a four-year program. Districts with the highest poverty level will be implemented first. All children meeting age and residence will be eligible for Universal Pre-K. When Pre-K becomes available, all eligible children will be required to attend Pre-K.

- Each student will receive at least 2 ½ hours of instruction. This will allow one teacher to attend 2 or more schools to utilize their time for maximum efforts. Computer and on-line teaching aids will be utilized to allow individual learning. Notebooks will be allowed to be taken home.
- If schools do not have space available to school Pre-K students, teachers may go to other public centers where children of this age group are and provide the 2 ½ hours of instruction. By the school year, 2022, all schools will provide Pre-K space.
- In school districts with levels of poverty above 15%, schools will provide student care to be available for all students from Pre-K through 6th grade starting at 6 AM for before school and after school care until 6 PM. Breakfast, lunch and an evening meal will be provided at no cost to all students in these areas regardless of income.

- All school districts with a poverty level of 15% or more will have 12-month schooling for Pre-K through 6th grade levels.
- All schools from pre-K through senior high will have an arts program, a music program, technical courses and will have chess classes.
- In schools with More than 10% minority groups, courses offered will include Bi-lingual and bi-culture classes and one year of secondary level history classes including;
  1. one term, Native American,
  2. one term, Hispanic,
  3. one term European and Asian History
  4. one term Black History.

- Any enlargement of sports activities will be in an area that addresses those less inclined to exercise or with physical handicaps. Pre-K through 6th grade schools will have equipment to encourage physical activity including activities such as ping pong, badminton, whiffle ball, or other minimal impact, low effort, limited skill games.

- School districts with a poverty level of 15% or more will have staff available to allow after school, weekend and vacation times so that students 6th grade levels and up will have supervised play areas at school areas. Computer lab and inside access will be available for those with disabilities and on days unfit for outside activity.

As monies are available, funds will be allotted to the Missouri Schoolwide Positive Behavior Support (MO SW-PBS). Beginning immediately as funds are available, a target date of three years having all schools at maximum level for MO SW-PBS objectives.

- Magnet schools will be established in school districts with minority groups that exceed 40% of the student enrollment. Sufficient magnet schools will be established in these districts to have extra room for 30% of students from adjoining districts. Students from adjoining districts will be afforded transportation to the magnet schools. This will encourage diverse cultures to attend low income schools.

Except in extreme instances (court ordered or security threats), no police officer will be on campus with a firearm. Police officers preforming community service will be unarmed. In case of police making an arrest on a school campus, no handcuffs or restraints will be used unless there is danger to others.

SRO (School Resource Officers) will be phased out in all schools. They will be replaced by trained counselors and staff. Each school will have fully trained personnel to address any issues that students may have. Rural areas with smaller school system may share personnel.

To address school suspensions and expulsions and encourage high school graduation, the following procedures will be enacted in all schools:

School administrators will develop a structured process to assess whether a student who makes a threat is likely to carry out that threat. Each school will use "restorative justice practices" instead of or in addition to suspensions or expulsions. If a threat is deemed

unlikely, the student will be counseled and/or disciplined, but not suspended. All teachers will receive training in Positive Behavioral Support (PBS)

Any teacher recommending multiple expulsions will receive "My Teacher Partner Program (MPT)" training. All teachers will receive training in behavior management skills. Teachers with minority students will receive culture training for different ethnic groups

No student will be segregated for disciplinary reasons without a teacher to keep them current in their education.

All schools, including; Amish, religion associated, homeschooling or other 'for profit', will meet the Missouri test regime, (§160.518, RSMo) which compels the State Board of Education and the Department of Elementary and Secondary Education to annually measure "by grade level a student's knowledge of academic subjects. All schools will employ teachers with a state recognized BA or BS degree.
Any school that does not provide students that can pass the requirements of §160.518, RSMo for three consecutive years will not be considered filling the obligation of an educational school. Either the school will shut down or the state will take over the administration of the school. The school will not fulfil the obligation being a school that allows a parent or guardian to fulfil the 'The Compulsory Attendance Law':

(Section **167.031**, RSMo, states that any parent, guardian or other person having custody or control of a child between the ages of seven (7) and the compulsory attendance age for the district, must ensure that the child is enrolled in and regularly attends public, private, parochial, home school or a combination of schools for the full term of the school year.

- The term "compulsory attendance age for the district" shall mean seventeen (17) years of age or having successfully completed sixteen (16) credits towards high school graduation in all other cases.
- Children between the ages of five (5) and seven (7) are not required to be enrolled in school. However, if they are enrolled in a public school their parent, guardian or custodian must ensure that they regularly attend.)

To ensure that this levy is not used to replace the current educational budgets from the general revenue, the state of MO will be required to maintain a budget at a current basis. This 'current basis' for school financing by the state of MO will be equal to the state appropriations per full-time student of the school year 2001 inflation-adjusted (as measured by the Consumer Price Index). At any time that this education budget is not appropriated to meet this basis, the deficit will be drawn from the Elected Officials budget to fulfill this obligation.

The one half of one percent (.5) of the revenue from the GSP will go to state higher education. Beginning with the fall semester of 2019 utilization of this revenue, the higher education schools (state colleges and universities):

- Will begin the process of restoring full time instructors and tenured professors. In a three-year period, this restoration will proceed to restore the status of per student relationships to full time instructors and tenured professors equal to the year 1976.
- The wages and salaries for instructors and professors will be adjusted to at least equal those paid in 1976 (as measured by the Consumer Price Index). This additional

income from the levy will not replace current budgeted expenses from the state, but will be given to the school to make wages as adjusted.

- Current budgeted expenses for instructors from the state will remain at the level per student as of 2001 as adjusted for CPI.
- At least one university will have a graduate program in sustainable agriculture financed by the levy.
- The levy will pay for summer gifted student classes.
- All state colleges and universities will have expanded courses to supply needed counselors and support staff to fill needed spots in Pre-K through senior high for enacting MO SW-PBS and MPT. These courses will be in co-ordination with the federal government's National Technical Assistance Center on Positive Behavioral Intervention and Supports.

The levy will be based on the previous year. The first quarterly payment will be due on April 15th of 2019. This will allow training and implementation of the programs for the fall school season.

The programs listed will begin to be implemented at the first of the fall session, 2019. This will give the state time to set up training for the areas covered. All the procedures listed are currently in use at several school systems across the United States. In addition, there are different organizations, non-profit and for profit, that can be contacted for proven procedures. In addition, the state will apply for grants available to implement these procedures. The federal government will be a source both for information and grants.

A director will be hired to manage this endeavor. The director will act as a liaison between this fund and the state appropriated education expenses to prevent duplication and co-ordinate services. The revenue generated by this bill will be distributed by a commission set up for that purpose. The revenues will be kept separate from the state budget. School districts receiving monies will be responsible for accounting for their use to ensure used as directed.

Eight representatives will be hired to represent 8 districts. Each district will be a Congressional District. Each representative will have at least a Master's Degree in an education related subject. Each representative will have lived and taught in the district they represent for at least 3 years, preferably in a stressed school.

Each representative will be responsible for assessing the needs to be supplied by this bill for their district. They will act as an overseer and liaison for the schools in their district. All support personnel will be furnished by the levy.

The representatives will be responsible for presenting the needs of their district and working with the other representatives and the director to make a budget once a year with allowances for each district.

Any surplus funds not used to implement the listed programs will be available for 'education' scholarships for minority students from districts with minority students.

RE: Petition approval request from Gerald Peterson regarding a proposed constitutional amendment to the Missouri Constitution (2018-233)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Gerald Peterson on June 12, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

MO SECRETARY OF STATE

"Be it resolved by the people of the state of Missouri that the Constitution be amended:"

To increase medical care of Missouri residents through Federal Medicaid Expansion, Planned Parenthood and birth control procedures.

The cost to the state of expanding medical coverage will be borne by the hospitals in the state of Missouri.

All hospitals in MO will be accessed a fee to pay for the expense of this expansion. Each hospital will pay a share equal to the number of patients admitted at their hospital. The fee paid will be equal to the percentage of patient admittance of each hospital of the total MO visits. Each admittance will count separately even though it is a re-admittance. Hospitals will begin quarterly payments on April 1, 2019. Assessment will be made based on the previous year and adjustments for new assessments will begin on the first of April of each year. Hospitals will make quarterly payments to the state of MO into a fund that will only be used for the full Federal Medicaid Expansion, Planned Parenthood and birth control for residents of Missouri.

Missouri will accept the full federal program of Medicaid Expansion. These funds generated by the hospitals will be used to pay for the cost to the state for Medicaid expansion. Missouri will make immediate application and if fees for implementation have not occurred from the hospitals on implementation, the state will borrow from reserve funds to expedite enrollment. These funds will be paid back upon receipt of funds beginning on April 1, 2019.

If at any time funding for Planned Parenthood by the federal government is discontinued or if it has already been discontinued at the passage of this amendment, the hospital levy will be increased enough to replace the federal funding of Planned Parenthood to a level at least equal to that of 2015 adjusted for inflation. The state of MO will continue its funding of Planned Parenthood at a level at least equal to 2015 adjusted for inflation and if by the time this measure is accepted, the state of MO has stopped funding Planned Parenthood, the state will begin funding Planned Parenthood again at a level equal to 2015 inflation-adjusted.

Birth control and family planning covered by this bill which will begin on April 1, 2019:

Birth control pills, Patches (like the OrthoEvra Patch), Vaginal rings (like the NuvaRing) Injections (like the Depo shot), Implants (like Implanon), Intrauterine devices (IUDs – like Mirena or Paragard), Emergency birth control ("the morning-after pill"), Diaphragms, Condoms, Surgical sterilization for clients 21 years old and older (like vasectomies or tubal ligation's, including the Essure procedure) or any future approved medical procedures.

There will be no cost for family planning services, including office visits and drugs/devices to the patient. The patient will not have to pay a co-payment for family planning services. The patient can go to any health provider who offers family planning services such as:

an ob/gyn or gynecologist, a certified nurse-midwife, a nurse practitioner or other advanced practice nurse, a family planning clinic, your regular doctor or primary care provider or Planned Parenthood. The patient may see 'out of network' doctors as the state will be billed directly covering the costs.

The patient does not need a referral from their primary care provider to receive family planning services. They may choose to see any family planning provider or doctor even if they are in a managed care plan provider plan. The patient may see 'out-of-network' providers as the state will be covering the costs. Birth control and family planning will be available to all MO women and male residents 13 years of age and over with proof of age and residence. Applications for birth control and family planning will not need permission from family, spouses or guardians. Confidentially will be ensured at all levels.

Payments for family planning and birth control will be made by the state from funding of this measure directly to the provider without the recipient having any costs.

Any savings to the state from Medicaid expansion that is not used for family planning and birth control will go toward the reduction of the levy on hospitals that this bill mandates.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c, 195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1.The following shall be called the Cannabis Treatment Amendment

2. Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof. This Amendment shall apply to all rsmo mentioning marijuana.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

e)"establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

f) "dispensary" refers to a facility where medicine are prepared and provided.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Possession and consumption for cannabis for medical treatment with a doctor's recommendation.

b) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for the purpose of supplying cannabis to patients, care givers, and medical dispensaries.

4. The Missouri legislature may pass laws that doesn't conflict with this amendment. Medical cannabis, commonly known as marijuana, shall be available to patients who with a doctor's recommendation and Missouri Controlled Substance relating to marijuana schedule list shall change to reflect that cannabis as defined in Section two; clause a of this amendment, shall be available with a doctor's recommendation. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture:

a) All Missouri patients engaged in cannabis treatment shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of 18 with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis treatment shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

f) Primary caregiver shall not be subjected to criminal or civil charges for providing cannabis to patients who been given a doctor's a medical professional.

5. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

6. Medical dispensaries shall verify the following:

a) The patient has a notarized letter from medical professional recommendation cannabis for medical treatment.

b) If, primary caregiver, the dispensary verifies the patient and the primary caregiver.

c) The patient's 9 digit random alphabet. Dispensaries my issue a random alphabet after verifying the Doctor's Recommendation.

d) Retail cannabis products for medical use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

7. The Department of Health and Senior Services shall issue 9 digit random alphabet out to patients and keep records of the alphabet on a state wide registry. The registry is to verify it's a patient and it shall not be subjected to Sunshine request under rsmo chapter 610. No law enforcement agency my access the list without a warrant. Law enforcement agencies my only view a printed list but not electronically. Dispensaries shall the Register with the the Department of Health and Senior Services for:

a) licensing and regulations b) paying registration fees c) to assist with the 9 digit random alphabet registry.

8. Upon the passage of this Act, individuals incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal for medical treatment in the State of Missouri under this Act and been convicted prior to this Act shall be immediately released and their civil and criminal records shall be expunge by the Court even if such offense wasn't related to medical treatment. This shall not apply to individuals convicted of convicted of offenses other then nonviolent, cannabis related offenses. Within 120 days of of the passages of this Act, the Attorney General shall develop and make available to the public legal documents ordering destruction of nonviolent, cannabis related civil and criminal offenses records committed prior to the passage of this Act.

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor. Patients are are allowed to grow cannabis for medical treatment for self. Primary caregiver are allowed to grow for their patients.

11. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

12. A 4 % excise tax shall apply to the retail sell of cannabis from the dispensaries. The excise tax shall be used in the following:

a) 1 % of the excise tax be dedicated to a new trust fund called the Veterans Health Fund for the purpose of funding health services for Missouri veterans

b) 3 % of the excise tax shall be dedicated to a new trust fund called Show the Me Health Access Fund. The purpose of this trust fund is to subsidize primary care doctor visits, dental visits, and ophthalmology and vision services for Missourians in poverty.

RE: Petition approval request from Damien Johnson regarding a proposed constitutional amendment to Article IV (2018-230)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Damien Johnson on May 25, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c, 195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1.The following shall be called the Cannabis Treatment Amendment

2. Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof. This Amendment shall apply to all rsmo mentioning marijuana.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

e)"establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

f) "dispensary" refers to a facility where medicine are prepared and provided.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Possession and consumption for cannabis for medical treatment with a doctor's recommendation.

b) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for the purpose of supplying cannabis to patients, care givers, and medical dispensaries.

4. The Missouri legislature may pass laws that doesn't conflict with this amendment. Medical cannabis, commonly known as marijuana, shall be available to patients who with a doctor's recommendation and Missouri Controlled Substance relating to marijuana schedule list shall change to reflect that cannabis as defined in Section two; clause a of this amendment, shall be available with a doctor's recommendation. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture:

a) All Missouri patients engaged in cannabis treatment shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of 18 with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis treatment shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

f) Primary caregiver shall not be subjected to criminal or civil charges for providing cannabis to patients who been given a doctor's a medical professional.

5. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

6. Medical dispensaries shall verify the following:

a) The patient has a notarized letter from medical professional recommendation cannabis for medical treatment.

b) If, primary caregiver, the dispensary verifies the patient and the primary caregiver.

c) The patient's 9 digit random alphabet. Dispensaries my issue a random alphabet after verifying the Doctor's Recommendation.

d) Retail cannabis products for medical use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

7. The Department of Health and Senior Services shall issue 9 digit random alphabet out to patients and keep records of the alphabet on a state wide registry. The registry is to verify it's a patient and it shall not be subjected to Sunshine request under rsmo chapter 610. No law enforcement agency my access the list without a warrant. Law enforcement agencies my only view a printed list but not electronically. Dispensaries shall the Register with the the Department of Health and Senior Services for:

a) licensing and regulations b) paying registration fees c) to assist with the 9 digit random alphabet registry.

8. Upon the passage of this Act, individuals incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal for medical treatment in the State of Missouri under this Act and been convicted prior to this Act shall be immediately released and their civil and criminal records shall be expunge by the Court even if such offense wasn't related to medical treatment. This shall not apply to individuals convicted of convicted of offenses other then nonviolent, cannabis related offenses. Within 120 days of of the passages of this Act, the Attorney General shall develop and make available to the public legal documents ordering destruction of nonviolent, cannabis related civil and criminal offenses records committed prior to the passage of this Act.

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor. Patients are are allowed to grow cannabis for medical treatment for self. Primary caregiver are allowed to grow for their patients.

11. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

12. A 4 % excise tax shall apply to the retail sell of cannabis from the dispensaries. The excise tax shall be used in the following:

a) 1 % of the excise tax be dedicated to a new trust fund called the Veterans Health Fund for the purpose of funding health services for Missouri veterans

b) 3 % of the excise tax shall be dedicated to a new trust fund called Show the Me Health Access Fund. The purpose of this trust fund is to subsidize primary care doctor visits, dental visits, and ophthalmology and vision services for Missourians in poverty.

Be it enacted by the people of the state of Missouri

Section 115.427. is amended by deleting all matters within the enclosed brackets and adding all the underlined matters as required pursuant to Section 116.050 RSMo.

115.427. 1. Persons seeking to vote in a public election shall establish their identity and eligibility to vote at the polling place by presenting a form of personal identification to election officials. No form of personal identification other than the forms listed in this section shall be accepted to establish a voter's qualifications to vote. Forms of personal identification that satisfy the requirements of this section are any one of the following:

(1) Nonexpired Missouri driver's license;

(2) Nonexpired or nonexpiring Missouri nondriver's license;

(3) A document that satisfies all of the following requirements:

(a) The document contains the name of the individual to whom the document was issued, and the name substantially conforms to the most recent signature in the individual's voter registration record;

(b) The document shows a photograph of the individual;

(c) Except form an accredited institution of higher education, [T]the document includes an expiration date, and the document is not expired, or, if expired, the document expired after the date of the most recent general election; and

(d) The document was issued by the United States, an accredited institution of higher education, or the state of Missouri; or

(4) Any identification containing a photograph of the individual which is issued by the Missouri National Guard, the United States Armed Forces, or the United States Department of Veteran Affairs to a member or former member of the Missouri National Guard or the United States Armed Forces and that is not expired or does not have an expiration date[.];

(5) A picture identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

(6) A identification issued by the United States government or agency thereof;

2. (1) An individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place may execute a statement, under penalty of perjury, averring that the individual is the person listed in the precinct register; averring that the individual does not possess a form of personal identification described in subsection 1 of this section; acknowledging that the individual is eligible to receive a Missouri nondriver's license free of charge if desiring it in order to vote; and acknowledging that the individual is required to present a form of personal identification, as described in subsection 1 of this section, in order to vote. Such statement shall be executed and sworn to before the election official receiving the statement. Upon executing such statement, the individual may cast a regular ballot, provided such individual presents one of the following forms of identification:

(a) non-picture Identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

[(b) Identification issued by the United States government or agency thereof;]

[(c) Identification issued by an institution of higher education, including a university, college, vocational and technical school, located within the state of Missouri;]

[(d)](b) A copy of a current utility bill, bank statement, government check, paycheck, or other government document that contains the name and address of the individual;

[(e)](c) Other identification approved by the secretary of state under rules promulgated pursuant to this section.

(2) For any individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place, the election authority may take a picture of such individual and keep it as part of that individual's voter registration file at the election authority.

(3) Any individual who chooses not to execute the statement described in subdivision (1) of this subsection may cast a provisional ballot. Such provisional ballot shall be counted, provided that it meets the requirements of subsection 4 of this section.

(4) For the purposes of this section, the term "election official" shall include any person working under the authority of the election authority.

3. The statement to be used for voting under subdivision (1) of subsection 2 of this section shall be substantially in the following form:

"State of .....

County of .....

I do solemnly swear (or affirm) that my name is .....; that I reside at .....; that I am the person listed in the precinct register under this name and at this address; and that, under penalty of perjury, I do not possess a form of personal identification approved for voting. As a person who does not possess a form of personal identification approved for voting, I acknowledge that I am eligible to receive free of charge a Missouri nondriver's license at any fee office if desiring it in order to vote. I furthermore acknowledge that I am required to present a form of personal identification, as prescribed by law, in order to vote.

I understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

.....

Signature of voter

Subscribed and affirmed before me this ..... day of ....., 20....

.....

Signature of election official"

4. A voter shall be allowed to cast a provisional ballot under section 115.430 even if the election judges cannot establish the voter's identity under this section. The election judges shall make a notation on the provisional ballot envelope to indicate that the voter's identity was not verified. The provisional ballot cast by such voter shall not be counted unless:

(1) (a) The voter returns to the polling place during the uniform polling hours established by section115.407 and provides a form of personal identification that allows the election judges to verify the voter's identity as provided in subsection 1 of this section; or

(b) The election authority verifies the identity of the individual by comparing that individual's signature to the signature on file with the election authority and determines that the individual was eligible to cast a ballot at the polling place where the ballot was cast; and

(2) The provisional ballot otherwise qualifies to be counted under section 115.430

5. The secretary of state shall provide advance notice of the personal identification requirements of subsection 1 of this section in a manner calculated to inform the public generally of the requirement for forms of personal identification as provided in this section. Such advance notice shall include, at a minimum, the use of advertisements and public service announcements in print, broadcast television, radio, and cable television media, as well as the posting of information on the opening pages of the official state internet websites of the secretary of state and governor.

6. (1) Notwithstanding the provisions of section 136.055 and section 302.181 to the contrary, the state and all fee offices shall provide one nondriver's license at no cost to any otherwise qualified voter who does not already possess such identification and who desires the identification in order to vote.

(2) This state and its agencies shall provide one copy of each of the following, free of charge, if needed by an individual seeking to obtain a form of personal identification described in subsection 1 of this section in order to vote:

(a) A birth certificate;

(b) A marriage license or certificate;

(c) A divorce decree;

(d) A certificate of decree of adoption;

(e) A court order changing the person's name;

(f) A Social Security card reflecting an updated name; and

(g) Naturalization papers or other documents from the United States Department of State proving citizenship.

Any individual seeking one of the above documents in order to obtain a form of personal identification described in subsection 1 of this section in order to vote may request the secretary of state to facilitate the acquisition of such documents. The secretary of state shall pay any fee or fees charged by another state or its agencies, or any court of competent jurisdiction in this state or any other state, or the federal government or its agencies, in order to obtain any of the above documents from such state or the federal government.

(3) All costs associated with the implementation of this section shall be reimbursed from the general revenue of this state by an appropriation for that purpose. If there is not a sufficient appropriation of state funds, then the personal identification requirements of subsection 1 of this section shall not be enforced.

(4) Any applicant who requests a nondriver's license for the purpose of voting shall not be required to pay a fee if the applicant executes a statement, under penalty of perjury, averring that the applicant does not have any other form of personal identification that meets the requirements of this section. The state of Missouri shall pay the legally required fees for any such applicant. The director of the department of revenue shall design a statement to be used for this purpose. The total cost associated with nondriver's license photo identification under this subsection shall be borne by the state of Missouri from funds appropriated to the department of revenue for that specific purpose. The department of revenue and a local election authority may enter into a contract that allows the local election authority to assist the department in issuing nondriver's license photo identifications.

7. The director of the department of revenue shall, by January first of each year, prepare and deliver to each member of the general assembly a report documenting the number of individuals who have requested and received a nondriver's license photo identification for the purposes of voting under this section. The report shall also include the number of persons requesting a nondriver's license for purposes of voting under this section, but not receiving such license, and the reason for the denial of the nondriver's license.

8. The precinct register shall serve as the voter identification certificate. The following form shall be printed at the top of each page of the precinct register:

VOTER'S IDENTIFICATION CERTIFICATE

Warning: It is against the law for anyone to vote, or attempt to vote, without having a lawful right to vote.

PRECINCT

WARD OR TOWNSHIP .....

GENERAL (SPECIAL, PRIMARY) ELECTION

Held ....., 20....

Date

I hereby certify that I am qualified to vote at this election by signing my name and verifying my address by signing my initials next to my address.

9. The secretary of state shall promulgate rules to effectuate the provisions of this section.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

11. If any voter is unable to sign his name at the appropriate place on the certificate or computer printout, an election judge shall print the name and address of the voter in the appropriate place on the precinct register, the voter shall make his mark in lieu of signature, and the voter's mark shall be witnessed by the signature of an election judge.

12. This section [shall] became [become] effective [only] upon the passage and approval by the voters of a constitutional amendment submitted to them by the general assembly regarding the authorization of photo identification requirements for elections by general law. Future Amendments to this section shall become effective immediately. [If such constitutional amendment is approved by the voters, this section shall become effective June 1, 2017.]

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c, 195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1.The following shall be called the Cannabis Treatment Amendment

2. Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof. This Amendment shall apply to all rsmo mentioning marijuana.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

e)"establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

f) "dispensary" refers to a facility where medicine are prepared and provided.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Possession and consumption for cannabis for medical treatment with a doctor's recommendation.

b) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for the purpose of supplying cannabis to patients, care givers, and medical dispensaries.

4. The Missouri legislature may pass laws that doesn't conflict with this amendment. Medical cannabis, commonly known as marijuana, shall be available to patients who with a doctor's recommendation and Missouri Controlled Substance relating to marijuana schedule list shall change to reflect that cannabis as defined in Section two; clause a of this amendment, shall be available with a doctor's recommendation. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture:

a) All Missouri patients engaged in cannabis treatment shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of 18 with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis treatment shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

f) Primary caregiver shall not be subjected to criminal or civil charges for providing cannabis to patients who been given a doctor's a medical professional.

5. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

6. Medical dispensaries shall verify the following:

a) The patient has a notarized letter from medical professional recommendation cannabis for medical treatment.

b) If, primary caregiver, the dispensary verifies the patient and the primary caregiver.

c) The patient's 9 digit random alphabet. Dispensaries my issue a random alphabet after verifying the Doctor's Recommendation.

d) Retail cannabis products for medical use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

7. The Department of Health and Senior Services shall issue 9 digit random alphabet out to patients and keep records of the alphabet on a state wide registry. The registry is to verify it's a patient and it shall not be subjected to Sunshine request under rsmo chapter 610. No law enforcement agency my access the list without a warrant. Law enforcement agencies my only view a printed list but not electronically. Dispensaries shall the Register with the the Department of Health and Senior Services for:

a) licensing and regulations b) paying registration fees c) to assist with the 9 digit random alphabet registry.

8. Upon the passage of this Act, individuals incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal for medical treatment in the State of Missouri under this Act and been convicted prior to this Act shall be immediately released and their civil and criminal records shall be expunge by the Court even if such offense wasn't related to medical treatment. This shall not apply to individuals convicted of convicted of offenses other then nonviolent, cannabis related offenses. Within 120 days of of the passages of this Act, the Attorney General shall develop and make available to the public legal documents ordering destruction of nonviolent, cannabis related civil and criminal offenses records committed prior to the passage of this Act.

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor. Patients are are allowed to grow cannabis for medical treatment for self. Primary caregiver are allowed to grow for their patients.

11. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

12. A 4 % excise tax shall apply to the retail sell of cannabis from the dispensaries. The excise tax shall be used in the following:

a) 1 % of the excise tax be dedicated to a new trust fund called Veterans Health Fund for the purpose of funding health services for Missouri veterans

b) 3 % of the excise tax shall be dedicated to a new trust fund called Show Me Health Access Fund. The purpose of this trust fund is to subsidize primary care doctor visit, dentist, and ophthalmology and vision services for Missourians in poverty.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c, 195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1.The following shall be called the Cannabis Treatment Amendment

2. Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof. This Amendment shall apply to all rsmo mentioning marijuana.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

e)"establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

f) "dispensary" refers to a facility where medicine are prepared and provided.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Possession and consumption for cannabis for medical treatment with a doctor's recommendation.

b) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for the purpose of supplying cannabis to patients, care givers, and medical dispensaries.

4. The Missouri legislature may pass laws that doesn't conflict with this amendment. Medical cannabis, commonly known as marijuana, shall be available to patients who with a doctor's recommendation and Missouri Controlled Substance relating to marijuana schedule list shall change to reflect that cannabis as defined in Section two; clause a of this amendment, shall be available with a doctor's recommendation. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture:

a) All Missouri patients engaged in cannabis treatment shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of 18 with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis treatment shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

f) Primary caregiver shall not be subjected to criminal or civil charges for providing cannabis to patients who been given a doctor's a medical professional.

5. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

6. Medical dispensaries shall verify the following:

a) The patient has a notarized letter from medical professional recommendation cannabis for medical treatment.

b) If, primary caregiver, the dispensary verifies the patient and the primary caregiver.

c) The patient's 9 digit random alphabet. Dispensaries my issue a random alphabet after verifying the Doctor's Recommendation.

d) Retail cannabis products for medical use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

7. The Department of Health and Senior Services shall issue 9 digit random alphabet out to patients and keep records of the alphabet on a state wide registry. The registry is to verify it's a patient and it shall not be subjected to Sunshine request under rsmo chapter 610. No law enforcement agency my access the list without a warrant. Law enforcement agencies my only view a printed list but not electronically. Dispensaries shall the Register with the the Department of Health and Senior Services for:

a) licensing and regulations b) paying registration fees c) to assist with the 9 digit random alphabet registry.

8. Upon the passage of this Act, individuals incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal for medical treatment in the State of Missouri under this Act and been convicted prior to this Act shall be immediately released and their civil and criminal records shall be expunge by the Court even if such offense wasn't related to medical treatment. This shall not apply to individuals convicted of convicted of offenses other then nonviolent, cannabis related offenses. Within 120 days of of the passages of this Act, the Attorney General shall develop and make available to the public legal documents ordering destruction of nonviolent, cannabis related civil and criminal offenses records committed prior to the passage of this Act.

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor. Patients are are allowed to grow cannabis for medical treatment for self. Primary caregiver are allowed to grow for their patients.

11. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

Be it enacted by the people of the state of Missouri

Section 115.427. is amended by deleting all matters within the enclosed brackets and adding all the underlined matters as required pursuant to Section 116.050 RSMo.

115.427. 1. Persons seeking to vote in a public election shall establish their identity and eligibility to vote at the polling place by presenting a form of personal identification to election officials. No form of personal identification other than the forms listed in this section shall be accepted to establish a voter's qualifications to vote. Forms of personal identification that satisfy the requirements of this section are any one of the following:

(1) Nonexpired Missouri driver's license;

(2) Nonexpired or nonexpiring Missouri nondriver's license;

(3) A document that satisfies all of the following requirements:

(a) The document contains the name of the individual to whom the document was issued, and the name substantially conforms to the most recent signature in the individual's voter registration record;

(b) The document shows a photograph of the individual;

(c) Except form an accredited institution of higher education, [T]the document includes an expiration date, and the document is not expired, or, if expired, the document expired after the date of the most recent general election; and

(d) The document was issued by the United States, an accredited institution of higher education, or the state of Missouri; or

(4) Any identification containing a photograph of the individual which is issued by the Missouri National Guard, the United States Armed Forces, or the United States Department of Veteran Affairs to a member or former member of the Missouri National Guard or the United States Armed Forces and that is not expired or does not have an expiration date[.];

(5) A picture identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

(6) A identification issued by the United States government or agency thereof;

2. (1) An individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place may execute a statement, under penalty of perjury, averring that the individual is the person listed in the precinct register; averring that the individual does not possess a form of personal identification described in subsection 1 of this section; acknowledging that the individual is eligible to receive a Missouri nondriver's license free of charge if desiring it in order to vote; and acknowledging that the individual is required to present a form of personal identification, as described in subsection 1 of this section, in order to vote. Such statement shall be executed and sworn to before the election official receiving the statement. Upon executing such statement, the individual may cast a regular ballot, provided such individual presents one of the following forms of identification:

(a) non-picture Identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;

[(b) Identification issued by the United States government or agency thereof;]

[(c) Identification issued by an institution of higher education, including a university, college, vocational and technical school, located within the state of Missouri;]

[(d)](b) A copy of a current utility bill, bank statement, government check, paycheck, or other government document that contains the name and address of the individual;

[(e)](c) Other identification approved by the secretary of state under rules promulgated pursuant to this section.

(2) For any individual who appears at a polling place without a form of personal identification described in subsection 1 of this section and who is otherwise qualified to vote at that polling place, the election authority may take a picture of such individual and keep it as part of that individual's voter registration file at the election authority.

(3) Any individual who chooses not to execute the statement described in subdivision (1) of this subsection may cast a provisional ballot. Such provisional ballot shall be counted, provided that it meets the requirements of subsection 4 of this section.

(4) For the purposes of this section, the term "election official" shall include any person working under the authority of the election authority.

3. The statement to be used for voting under subdivision (1) of subsection 2 of this section shall be substantially in the following form:

"State of .....

County of .....

I do solemnly swear (or affirm) that my name is .....; that I reside at .....; that I am the person listed in the precinct register under this name and at this address; and that, under penalty of perjury, I do not possess a form of personal identification approved for voting. As a person who does not possess a form of personal identification approved for voting, I acknowledge that I am eligible to receive free of charge a Missouri nondriver's license at any fee office if desiring it in order to vote. I furthermore acknowledge that I am required to present a form of personal identification, as prescribed by law, in order to vote.

I understand that knowingly providing false information is a violation of law and subjects me to possible criminal prosecution.

.....

Signature of voter

Subscribed and affirmed before me this ..... day of ....., 20....

.....

Signature of election official"

4. A voter shall be allowed to cast a provisional ballot under section 115.430 even if the election judges cannot establish the voter's identity under this section. The election judges shall make a notation on the provisional ballot envelope to indicate that the voter's identity was not verified. The provisional ballot cast by such voter shall not be counted unless:

(1) (a) The voter returns to the polling place during the uniform polling hours established by section115.407 and provides a form of personal identification that allows the election judges to verify the voter's identity as provided in subsection 1 of this section; or

(b) The election authority verifies the identity of the individual by comparing that individual's signature to the signature on file with the election authority and determines that the individual was eligible to cast a ballot at the polling place where the ballot was cast; and

(2) The provisional ballot otherwise qualifies to be counted under section 115.430

5. The secretary of state shall provide advance notice of the personal identification requirements of subsection 1 of this section in a manner calculated to inform the public generally of the requirement for forms of personal identification as provided in this section. Such advance notice shall include, at a minimum, the use of advertisements and public service announcements in print, broadcast television, radio, and cable television media, as well as the posting of information on the opening pages of the official state internet websites of the secretary of state and governor.

6. (1) Notwithstanding the provisions of section 136.055 and section 302.181 to the contrary, the state and all fee offices shall provide one nondriver's license at no cost to any otherwise qualified voter who does not already possess such identification and who desires the identification in order to vote.

(2) This state and its agencies shall provide one copy of each of the following, free of charge, if needed by an individual seeking to obtain a form of personal identification described in subsection 1 of this section in order to vote:

(a) A birth certificate;

(b) A marriage license or certificate;

(c) A divorce decree;

(d) A certificate of decree of adoption;

(e) A court order changing the person's name;

(f) A Social Security card reflecting an updated name; and

(g) Naturalization papers or other documents from the United States Department of State proving citizenship.

Any individual seeking one of the above documents in order to obtain a form of personal identification described in subsection 1 of this section in order to vote may request the secretary of state to facilitate the acquisition of such documents. The secretary of state shall pay any fee or fees charged by another state or its agencies, or any court of competent jurisdiction in this state or any other state, or the federal government or its agencies, in order to obtain any of the above documents from such state or the federal government.

(3) All costs associated with the implementation of this section shall be reimbursed from the general revenue of this state by an appropriation for that purpose. If there is not a sufficient appropriation of state funds, then the personal identification requirements of subsection 1 of this section shall not be enforced.

(4) Any applicant who requests a nondriver's license for the purpose of voting shall not be required to pay a fee if the applicant executes a statement, under penalty of perjury, averring that the applicant does not have any other form of personal identification that meets the requirements of this section. The state of Missouri shall pay the legally required fees for any such applicant. The director of the department of revenue shall design a statement to be used for this purpose. The total cost associated with nondriver's license photo identification under this subsection shall be borne by the state of Missouri from funds appropriated to the department of revenue for that specific purpose. The department of revenue and a local election authority may enter into a contract that allows the local election authority to assist the department in issuing nondriver's license photo identifications.

7. The director of the department of revenue shall, by January first of each year, prepare and deliver to each member of the general assembly a report documenting the number of individuals who have requested and received a nondriver's license photo identification for the purposes of voting under this section. The report shall also include the number of persons requesting a nondriver's license for purposes of voting under this section, but not receiving such license, and the reason for the denial of the nondriver's license.

8. The precinct register shall serve as the voter identification certificate. The following form shall be printed at the top of each page of the precinct register:

VOTER'S IDENTIFICATION CERTIFICATE

Warning: It is against the law for anyone to vote, or attempt to vote, without having a lawful right to vote.

PRECINCT

WARD OR TOWNSHIP .....

GENERAL (SPECIAL, PRIMARY) ELECTION

Held ....., 20....

Date

I hereby certify that I am qualified to vote at this election by signing my name and verifying my address by signing my initials next to my address.

9. The secretary of state shall promulgate rules to effectuate the provisions of this section.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

11. If any voter is unable to sign his name at the appropriate place on the certificate or computer printout, an election judge shall print the name and address of the voter in the appropriate place on the precinct register, the voter shall make his mark in lieu of signature, and the voter's mark shall be witnessed by the signature of an election judge.

12. This section [shall] became [become] effective [only] upon the passage and approval by the voters of a constitutional amendment submitted to them by the general assembly regarding the authorization of photo identification requirements for elections by general law. Future Amendments to this section shall become effective immediately. [If such constitutional amendment is approved by the voters, this section shall become effective June 1, 2017.]

Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c,195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1.The following shall be called the Cannabis Treatment Amendment

2. Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof. This Amendment shall apply to all rsmo mentioning marijuana.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "Expungeable marijuana offense" are any convictions committed prior to this amendment.

e) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

f) "dispensary" refers to a facility where medicine are prepared and provided.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for the purpose of supplying cannabis to patients, care givers, and medical dispensaries.

b) Procession and consumption of cannabis for medical treatment with a doctor's recommendation.

4. The Missouri legislature may pass laws that doesn't conflict with this amendment. Medical cannabis, commonly known as marijuana, shall be available to patients who with a doctor's recommendation and Missouri Controlled Substance relating to marijuana schedule list shall change to reflect that cannabis as defined in Section two; clause a of this amendment, shall be available with a doctor's recommendation. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture:

a) All Missouri patients engaged in cannabis treatment shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of 18 with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis treatment shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

f) Primary caregiver shall not be subjected to criminal or civil charges for providing cannabis to patients who been given a doctor's a medical professional.

5. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

6. Medical dispensaries shall verify the following:

a) The patient has a notarized letter from medical professional recommendation cannabis for medical treatment.

b) If, primary caregiver, the dispensary verifies the patient and the primary caregiver.

c) The patient's 9 digit random alphabet. Dispensaries my issue a random alphabet after verifying the Doctor's Recommendation.

d) Retail cannabis products for medical use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

7. The Department of Health and Senior Services shall issue 9 digit random alphabet out to patients and keep records of the alphabet on a state wide registry. The registry is to verify it's a patient and it shall not be subjected to Sunshine request under rsmo chapter 610. No law enforcement agency my access the list without a warrant. Law enforcement agencies my only view a printed list but not electronically. Dispensaries shall the Register with the the Department of Health and Human Services for:

a) licensing and regulations b) paying fees of no more than $100.00 c) to assist with the 9 digit random alphabet registry.

8. Upon the passage of this Act, individuals incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal for medical treatment in the State of Missouri under this Act and been convicted prior to the passage of this Act shall be immediately released and their civil and criminal records shall be expunge by the Court even if such offense wasn't related to medical treatment. This shall not apply to individuals convicted of offenses other then nonviolent, cannabis related offenses. Within 120 days of the passage of this Act, the Attorney General shall develop and make available to the public a legal document ordering the immediate destruction of nonviolent cannabis related civil and criminal records committed prior to the passage of this Act.

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor. Patients are are allowed to grow cannabis for medical treatment for self. Primary caregiver are allowed to grow for their patients.

11. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.This shall

12. become effective on December 6th 2018.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends Article III section 50 of the Missouri Constitution by deleting all matters within the enclosed brackets and adding all the underlined matters as required pursuant to Section 116.050 RSMo.
Section 50. Initiative petitions proposing amendments to the constitution shall be signed by eight percent of the legal voters in each of two-thirds of the congressional districts in the state, and petitions proposing laws shall be signed by five percent of such voters. Every such petition shall be filed with the secretary of state not less than six months before the election and shall contain an enacting clause and the full text of the measure. Petitions for constitutional amendments shall not contain more than one amended and revised article of this constitution, or one new article which shall not contain more than one subject and matters properly connected therewith, and the enacting clause thereof shall be "Be it resolved by the people of the state of Missouri that the Constitution be amended:". Petitions for laws shall contain not more than one subject which shall be expressed clearly in the title, and the enacting clause thereof shall be "Be it enacted by the people of the state of Missouri:". A petition may be filed following a November election and no filing fee shall be imposed. Any adult 18 years old or older may collect signatures any petition approved of circulation. A petitioner may volunteer or be paid. An employer may pay per signature, by the hour, or any way agreed to. The legislature may pass no law requiring ID badges. No changes to election laws without voter approval. The Secretary of State shall host and maintain a web based system for the purpose of providing voters the option of sign petitions electronically. The office the Secretary of State shall provide a verified voter with a unique identification number and collect identical information as required by existing initiative petition law. The electronic signature process is in addition to existing signature requirements and allows an individual to choose between the electronic signature and personally signing a hard copy of a petition. Voters shall have the option of receiving a confirmation text, confirmation email, email, any electronic message within the capacity of Secretary of State and available at the time, or postcard confirming the electronic signature and informing the voter about the 20 day period respond with any corrections or objections to the electronic signature.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-224)

Subject

Initiative petition from Damien Johnson regarding a proposed constitutional amendment to Article III. (Received May 2, 2017)

Date

May 22, 2017

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this legislation will not have a fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This proposal amends Article III, Section 50 of the MO Constitution with the following:

- Prohibits filing fees for initiative petitions and allows them to be filed following a November elections.
- Allows any adult over age 18 to collect signatures as a volunteer or paid staff.
- Requires the Secretary of State to host and maintain a system to provide an option for voters to sign petitions electronically, receive confirmation of such signatures and provide a time period for the voter to response with any corrections or objections to the electronic signature.

There are various spelling and grammatical errors in the petition that may impact implementation if passed.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated:

Petition 2018-224 would require their office to develop a web page to allow electronic signature of initiative and referendum petitions. The Information Technology Division estimates the labor costs for this project at $238,767.96. The Elections Division would require an additional FTE to process the queue of electronic signatures at an initial salary of $38,148 beginning in FY 2019.

This proposed amendment would also require their office to contact each voter within 20 days of receipt of an electronic petition signature. The proposal does authorize electronic methods such as e-mail or text messages to be used. However, since telephone numbers and e-mail addresses are optional information on a voter record and not currently captured on initiative or referendum petitions, the remaining feasible option is a physical mailing to each voter using an electronic signature. While they cannot determine the specific number of voters that will utilize the electronic system, they can determine a reasonable estimate based on the petitions received in the 2016 cycle.

For the 2016 cycle, their office received five initiative petitions, with the largest petition having approximately 369,319 signatures checked by local election authorities. If five petitions with that number of signatures on each are received in one petition cycle, that number would total up to 1,846,595 signatures for the cycle, any or all of which could be submitted electronically. Assuming a going rate of postage and processing at $0.49 per postcard, a reasonable estimated cost of mailing could equal up to $904,831.55.

Additionally, their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated to the extent that electronic signature gathering may make it easier for initiative petitions to succeed in Missouri, thus making initiative petitions a more attractive option, it is conceivable that their office could experience an increased initiative petition review workload. They cannot, however, quantify that potential increase at this time, so as to say whether it could be handled with existing resources.

As to the remainder, they do not see any other provisions that may have a fiscal impact upon their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this constitutional amendment will have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate one-time costs of $239,000, increased annual costs of $38,000, and unknown costs during each 2-year election cycle of up to $900,000 depending on how many registered voters sign petitions electronically and the correspondence method the state uses. Local governmental entities expect no costs or savings.

This measure amends the Missouri Constitution by adding Section 54 to Article IV. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105.1, 105.1108.1, 105.1112.1, 195.0010.1, 196.0100.1, 263.0250.1, 577.0024.1, 579.0015.1, 579.0020.1, 579.0030.1, 579.0055.1, 579.0065.1, 579.0068.1, and 579.0105.1.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted to be known as Article IV, Section 54 and to read as follows:

1. Cannabis shall immediately be removed from the Missouri list of controlled substances and shall no longer be listed among Missouri's drug schedules.

2. Definitions: cannabis and cannabis hemp refer to Cannabis, Marijuana, Cannabis Sativa, Cannabis Indica, Cannabis Ruderalis or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
   a. Medical cannabis refers to physician recommended use.
   b. Personal use refers to any use not recommended by physician.
   c. Cannabis accessories means any equipment, products or materials of any kind that are used or intended for use planting, propagating, cultivating, growing, harvesting, manufacturing, compounding , converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into or onto the human body.
   d. Establishment refers to a cannabis cultivation facility, a cannabis manufacturing facility or retail store or other entity that cultivates, prepares, manufactures, packages, transports, or sells cannabis products or accessories.
   e. Minor refers to anyone under the age 18.

3. Cannabis or its products shall not be sold to anyone under the age 18. Anyone under the age of 18 shall have access to cannabis through physician recommendation or consent from parent/legal guardian.
   a. No minor shall be criminally prosecuted for possession of cannabis or its products.

4. The following acts are not unlawful and shall not be an offense under Missouri law
   a. Possession of cannabis for personal or medical use.
   b. Cultivating cannabis for personal or medical use, to obey zoning restrictions.
   c. Cultivating, harvesting, processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for commercial purposes, provided the person has current applicable licenses to run a business in Missouri.
   d. Providing cannabis, cannabis accessories and products for sale to consumers. Any product to be sold to public must be tested for purity and weight.
   e. Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (e) of this section.
   f. The possession of cannabis is not to be the sole reason for issuing a D.U.I. (driving under the influence), arrest or fines when operating a motor vehicle.

5. Patient rights: Cannabis shall be available to all patients regardless of age, without taxation when physician recommended.

6. All prisoners that have been incarcerated for non-violent cannabis related crimes shall be released within 30 days, unless time remains on the sentence for another dissimilar offense.
   a. Within 60 days of passage of this act, the attorney general's office shall develop and make available to the public a legal document ordering the immediate expungement of all cannabis related non-violent civil and criminal records in Missouri, to be distributed to all circuit courts within the state.

7. No state funds shall be used to enforce federal laws which are no longer illegal in the state of Missouri.
   a. Any person who willfully impedes the lawful exercise of these provisions is guilty of a class A misdemeanor.

8. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirements, licensing fee that is discriminant, prohibitive, or in any way contrary to that which is relative to any other commercial or agriculture farmer, manufacturer, processor or distributor.

9. Pursuant to the ninth and tenth amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge federal cannabis prohibitions that conflict with this act.

10. All provisions of this section are self-executing and severable and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance or resolution.

11. The dictates of this Initiative shall be implemented no later than April 20th following the election that placed this initiative before the people.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-223)

Subject

Initiative petition from Charles Jones regarding a proposed constitutional amendment to Article IV. (Received April 24, 2017)

Date

May 15, 2017

Description

This proposal would amend Article IV of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated among other provisions, this proposal could require their office to develop and issue an order providing for the expungement of all cannabis-related "non-violent civil and criminal records in Missouri." Moreover, the proposal purports to supersede federal law.

They expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated estimated increased operating costs of $0 in fiscal year 2018, unknown>$72,713 in fiscal year 2019, and unknown>$169,098 in fiscal year 2020.

Section 192.945, RSMo, allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for medical and recreational purposes. Therefore, persons with intractable epilepsy would not need to apply for a hemp extract registration card in order to legally use the CBD oil.

They expect rental space for two staff located in Jefferson City would be required: 2 staff x 230 sq.ft./FTE x $21.00 = $9,660.

They indicated marijuana cultivation facilities, products manufacturer, dispensary, and testing facilities may be established as small businesses.

This proposal does not require their department to issue any licenses or conduct inspections to ensure the safety of marijuana infused food products. However, sections 196.010 through 196.298, RSMo, gives their department responsibility for the regulation of food to include such duties as ensuring food safety, sanitation, proper labeling, etc. Therefore, their department would have responsibility to assure that facilities manufacturing foods containing marijuana and marijuana products are regulated the same as other food manufacturers.

Due to the broad parameters of this proposal, it is difficult to determine how many food manufacturing facilities would be established. In states that have legalized marijuana, the demand for marijuana-infused food products has increased. For the purposes of this fiscal note, they estimate that at least 300 food manufacturing facilities that will be established as a result of this proposal. In order to properly inspect these manufacturing facilities, DCPH would require a minimum of two additional Environmental Public Health Specialist IV staff ($44,352, A27, Step G). This proposal is to be implemented no later than April 20, 2019. Therefore, for purposes of this estimate, DCPH assumes that the two Environmental Public Health Specialist IV positions would begin April 1, 2019.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of $7,178,073 in fiscal year 2019 (7 Months), $7,511,746 in fiscal year 2020, $10,741,186 in fiscal year 2022 and thereafter.

Legalizing the possession and use of marijuana would remove from the criminal statutes all controlled substance offenses for marijuana, including possession, distribution and trafficking. If the legislation that removed marijuana from the list of controlled substances was retrospective then there would be two reductions in the cost of incarceration: the release of offenders serving a marijuana offense and fewer admissions to prison. The legalization of marijuana will largely impact offenders who are only serving a marijuana offense. Offenders serving multiple concurrent sentences will continue to be required to serve the other sentences after legalization and no estimate is made for offenders serving multiple sentences.

The reduction in the offender population is the total of reductions from the expungement of sentences and fewer admissions and probations. The cost avoidance is based upon a direct prison cost per year in FY17 of $6,085 and an average cost of $2,234 per year for offenders on field supervision. In the first year after the enactment of the legislation that legalizes marijuana there is an estimated reduction of 633 offenders in prison and 3,676 offenders on field supervision. In the next year (FY20) there will no discharges from expungement but the reduction in the prison population will increase to 214. The field reduction will continue into FY21 because the marijuana offenders are estimated to serve 2.5 years on supervision.

The estimate is qualified by the use of an expansion factor that assumes that the drug distribution in the sentences where the drug is not known will be similar to that where the drug is known.

The estimated cost avoidance in the first year is $7,178,073 and will be $10,741,186 after the 4th year.

If marijuana usage becomes legal it could impact the safety and security of our prisons as it is not believed that there is a means for testing whether an employee is under the influence of marijuana. Impaired prison employees or visitors can impact the safe and secure operation of our prisons.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety -Office of the Director** indicated they see no fiscal impact due to this legislation. They have, however, forwarded this to both ATC and MSHP for their input, should that be required. They will respond directly, if needed.

Officials from the **Missouri State Highway Patrol** indicated they expect increased operating costs of $426,235 for the first year implemented, $487,385 for the second year implemented, and $492,597 for the third year implemented.

The provisions of this petition would require their agency to rent office space for 4 FTE's to process the expungement requests.

The proposed legislation would order the immediate destruction of all cannabis-related non-violent civil and criminal records in Missouri.

Two different divisions within their agency will be impacted by this legislation. Here is a breakdown for each division:

Criminal Justice Information Services Division
The Criminal Justice Information Services Division (CJIS) states that there are currently 95,550 arrest charges in the Central Repository. The current expungement process, pursuant to Chapter 610, takes approximately 90 minutes to process. One FTE can handle 1,243 expungements per year. Conservatively, at least five FTE's would be required to initially handle the expungments created by this legislation. A significant processing backlog would occur if sufficient FTE's are not assigned to accommodate the number of expungements ordered.

1 FTE = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

The current average time per petition to log, process, research, review, create related correspondences, and to expunge the information when the order is received is 90 minutes. Therefore, one FTE can handle 1,243 expungements per year = 111,840 / 90.

These FTE's (CJIS Technicians, Range 16) would be necessary to process all expungement requests, review criminal history records, contact any agency associated with the arrests or convictions, and collect the necessary data for the court orders.

Based on the average yearly salary and benefit rate per FTE at $55,495 and the ability of that employee to process 1,243 expungements per year, the cost alone per expungement is $55,495 \ 1,243 = $44.64. It is suggested that a fee, similar to the criminal history background check fee, be implemented for the cost of researching and reviewing the criminal histories, as well as contacting of the various agencies associated with the arrests. In researching other states with similar expungement requirements, they all charge a fee to offset the cost of the time required to process the expungements. Their fees ranged from $50 to $450 per petition per arrest date.

These FTE will most likely be 2nd and 3rd shift employees so they would not require any equipment. However, there would be recurring costs of $650 per year per FTE for office supplies and phone charges. If any FTE were placed on the 1st shift, standard equipment would be required at a one-time cost of $6,094 per FTE.

5 CJIS Technicians ($1,232.50 x 24)	$147,900
Office Equipment/HW/SW	$6,094
RECURRING COSTS	
Phone Charges per FTE	$350
Office Supplies per FTE	$300

Patrol Records Divison

Currently, there are 109,072 records in the Patrol's Traffic Arrest System (TAS) pertaining to arrests completed by the Missouri Highway Patrol that could possibly meet the requirements of this proposed constitutional amendment. These are arrest records with or without a court conviction pertaining to individuals the age of 18 years and older with an NCIC modifier of 60-64 that relate to marijuana offenses. Given this, if only ten percent of the individuals who qualify to have his or her record expunged sought to do so, the Patrol Records Division (PRD) would require four FTE's. However, if a large number of these expungements were to be granted with even four FTE's, the backlog would compound greatly to the point it may take several years to catch up. If 100 percent of the individuals who qualify to have their record expunged sought to do so, the Patrol Records Division would require 44 FTE's to complete this task in approximately one year. The addition of 44 FTE's would require additional supervisory personnel. However, due to the vague and uncertain nature of this proposed amendment, the Patrol Records Division has no true way to determine the actual effect or costs.

1 FTE = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

The current average time per petition to log, process, research, review, create related correspondences, and to expunge the information when the order is received is 45 minutes. Therefore, one FTE can handle 2,485 expungements per year = 111,840 / 45.

With the current estimate of 109,072 records that potentially meet the requirements of this proposed amendment and would potentially be eligible for expungement, the following percentages of persons actually requesting an expungement will directly relate to the number of PRD FTE's required:

10% = 109,072 x .10 = 10,907 / 2,485 = 4 FTE's
50% = 109,072 x .50 = 54,536 / 2,485 = 22 FTE's
100% = 109,072 / 2,485 = 44 FTE's

These FTE's (Quality Control Clerks, Range 10) would be necessary to process all expungement requests, review records, contact agencies, and collect the necessary data for the court orders.

Based on the average yearly salary and benefit rate per FTE of $45,702 and the ability of that employee to process 2,485 expungements per year, the cost per expungement is $45,702 \ 2,485 = $18.39. It is suggested that a fee, similar to the criminal history background check fee, be implemented for the cost of researching and reviewing the criminal histories.

Processing ten percent of the possible expungements would require additional workspace. The physical requirements would increase with the number of FTE's required to meet the demand for expungements. There will be recurring costs of $650 per year per FTE for office supplies and phone charges. Standard equipment and office furniture would be required at a one-time cost of $6,094 per FTE.

4 Quality Control Clerks ($1,015 x 24)	$97,440
Equipment/Office Furniture	$6,094

RECURRING COSTS	
Phone Charges per FTE	$350
Office Supplies per FTE	$300

The provisions of this petition would require the Highway Patrol to rent office space for 4 FTE's to process the expungement requests. The Office of Administration states that 1,500 square feet of office space would be required. The following costs apply per square foot:

Office Space	$14/Sq Ft
Janitorial/Trash Costs	$1.50/Sq Ft

Utility Costs $2/Sq Ft

The agency provided the following additional comments:

It is suggested to add this additional language to provide for the collection of a fee to offset the costs of the expungements:

43.530. 1. For each request requiring the payment of a fee received by the central repository, the requesting entity shall pay a fee of not more than nine dollars per request for criminal history record information not based on a fingerprint search. In each year beginning on or after January 1, 2010, the superintendent may increase the fee paid by requesting entities by an amount not to exceed one dollar per year, however, under no circumstance shall the fee paid by requesting entities exceed fifteen dollars per request.

2. For each request requiring the payment of a fee received by the central repository, the requesting entity shall pay a fee of not more than twenty dollars per request for criminal history record information based on a fingerprint search, unless the request is required under the provisions of subdivision (6) of section 210.481, section 210.487, or section 571.101, in which case the fee shall be fourteen dollars.

3. A request made under subsections 1 and 2 of this section shall be limited to check and search on one individual. Each request shall be accompanied by a check, warrant, voucher, money order, or electronic payment payable to the state of Missouri-criminal record system or payment shall be made in a manner approved by the highway patrol. The highway patrol may establish procedures for receiving requests for criminal history record information for classification and search for fingerprints, from courts and other entities, and for the payment of such requests. There is hereby established by the treasurer of the state of Missouri a fund to be entitled as the "Criminal Record System Fund". Notwithstanding the provisions of section 33.080 to the contrary, if the moneys collected and deposited into this fund are not totally expended annually for the purposes set forth in sections 43.500 to 43.543, the unexpended moneys in such fund shall remain in the fund and the balance shall be kept in the fund to accumulate from year to year.

4. For all petitions for expungement under the provisions of Chapter 610, Section 577.054, or any other created expungement requirement under statute, excluding Section 610.122, the applicant shall pay a fee of seventy-five dollars per arrest date listed on the petition. Each petition shall be accompanied by a check, warrant, voucher, money order, or electronic payment payable to the state of Missouri-criminal record system or payment shall be made in a manner approved by the highway patrol. For expungements that require removal from the Traffic Arrest System twenty dollars of the seventy-five dollar fee will be deposited in the Highway Patrol Traffic Records Fund.

There are numerous uncertainties associated with this proposed constitutional amendment. For example, it is uncertain what a cannabis related non-violent civil and criminal record is. It is unclear if individuals with the aforementioned conviction records

are required to abide by the expungement process mandated by various other state statutes. Does the individual just complete and file a document with a circuit clerk and the record is expunged or does the "court," whomever that is, order the immediate expungement of all civil and criminal records pertaining to non-violent cannabis only offenses?

They have concerns with number 7. This wording would prevent us from assisting federal agencies.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Changes to Missouri's state driving laws could impact some federal commercial drivers' license laws.

Failure to comply with 49 C.F.R. 384.225 & 384.226 could result in a withholding of Missouri's federal-aid highway funds apportioned to it under each of Title 23, United States Code (U.S.C.), sections 104(b)(1), (b)(3), and (b)(4). The federal funds impacted consist of national highway performance program funds, highway safety improvement program funds and congestion mitigation and air quality improvement funds. The withholding amount would be 4 percent for the first year of non-compliance and 8 percent for the second and subsequent years.

Officials from the **Office of Administration** (OA) indicated:

This proposal enacts one new section in Article IV, Section 54 which:

- Legalizes cannabis under certain circumstances.
- Orders the release of those convicted of nonviolent cannabis-related crimes and requires the expungement of those criminal records.
- Prohibits the use of state funds to enforce federal laws that are no longer illegal in Missouri.
- Prohibits special zoning requirements or licensing fees for cannabis farmers, manufacturers, processors, and distributors.
- Repudiates and challenges federal cannabis prohibitions that conflict with this initiative petition.

- Sets an effective date of no later than April 20th following the election.

This proposal should not have a fiscal impact for their office.

Officials from the **Office of State Courts Administrator** indicated:

The proposed initiative petition would create a new section of the Missouri Constitution to be known as Article IV, section 54. This section would allow citizens over the age of eighteen to have the right to engage in the production, sale, distribution and consumption of marijuana and the manufacture of goods from hemp, subject to reasonable regulations adopted by the state pursuant to this section.

The average of all marijuana related charge codes from 2011 to 2015 for Circuit case types is 14,122 per year. The average of all marijuana related charge codes from 2011 to 2015 for Associate case types is 10,982. They are unable to determine what number of these charges were for someone over the age of twenty-one.

The following Criminal Court Costs would be affected by this petition:

Criminal Court Costs		
Felony Case Costs	**Amount of Cost**	**Disburse to State/County**
Basic Civil Legal Services Fund surcharge	$10.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$45.00	State of Missouri - General Revenue $36, County $9
County Fee	$75.00	County
Court Automation Fund Fee	$7.00	State of Missouri -Statewide Court Automation Fund
Court Reporter fee (All Circuit Division Cases)	$15.00	State of Missouri - General Revenue
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$30.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Head Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund

Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards & Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$1.00	State of Missouri - Prosecuting Attorney Training Fund
Sheriffs' Fee	$75.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement Fund
Spinal Cord Injury Fund surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$279.50**	
Misdemeanor Case Costs		
Basic Civil Legal Services Fund surcharge	$8.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$15.00	$12 State of Missouri / $3 County
County Fee	$25.00	County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$15.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Brain Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund

Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$1.00	$0.50 State of Missouri / $0.50 County
Sheriffs' fee	$10.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement fund
Spinal Cord Injury Fund Surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$102.50**	
Municipal Case (Filed in Associate Division) Costs		
Clerk Fee	$15.00	$12 State of Missouri / $3 County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Sheriffs' Retirement Fund surcharge	$3.00	Sheriffs' Retirement Fund
Total	**$33.50**	
Criminal Costs Not Included Above		
Drug Testing by a State Lab	$150.00	State of Missouri

Drug Testing by a Private Lab	Actual Costs	County Reimbursement
Law Enforcement Arrest Costs:		
Highway Patrol		Amt. Approved by the Court
Local (County)		Amt. Approved by the Court
Municipal		Amt. Approved by the Court

The decrease in the court fees, depending on the number of cases, will result in an unknown loss to the courts.

They also assume there will be an unknown decrease in caseload for the courts because the courts will no longer process these cases; however, at this time they are unable to calculate the decrease.

Any significant increase or decrease will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated if passed, this constitutional amendment would have a positive impact on the workload of the Missouri State Public Defender, since possession, manufacture, distribution, etc. of cannabis would no longer be unlawful, offenses that the Public Defender currently uses resources to defend and no longer would need to.

The exact positive impact is difficult to predict because they track cases by statutory offense and most drug offenses are not limited to marijuana.

However, their best estimate, using FY2014 MSPD data, is that this would reduce their caseload by 3,523 cases (685 A/B felonies, 1,797 C/D felonies, 1,041 misdemeanors, and 1,140 probation violations).

In *The Missouri Project: A Study of the Missouri Public Defender System and Attorney Workload Standards*, prepared by RubinBrown on behalf of the American Bar Association's Standing Committee on Legal Aid and Indigent Defendants, the relevant workload standards are: A/B felonies, 47.6 hours per case; C/D felonies, 25.0 hours per case; misdemeanors, 11.7 hours per case; and probation violations, 9.8 hours per case). (The workload standards include only case related tasks over which an attorney has some control (they exclude, for example, in court and travel time) and thereby reflect a conservative estimate.)

Applying those workload standards to the 2,858 cases, those cases require 100,882.7 attorney hours. With 2,080 hours per attorney available each year, that represents the work of 48.5 attorneys.

While in theory they might also handle fewer appeals of guilty verdicts after trial, the fact is that only a very small percentage of their cases proceed to trial and it's likely that only a small percentage of those cases are appeals from marijuana convictions. Therefore this minimal positive impact is not being taken into account in this estimate.

However, the Missouri State Public Defender already is significantly understaffed by 333 attorneys under the workload standards developed in *The Missouri Project*. (The 333 attorneys is a conservative estimate of the under-staffing in that it assumes we contract all conflicts to private attorneys, which we are not able to do for budgetary reasons).

Therefore, despite the positive impact on the workload of the Missouri State Public Defender, because they are already understaffed that savings in attorney time would not allow the Public Defender to reduce its workforce and therefore would not translate into an actual cost savings. However it does reduce by the cost of 48.5 attorneys how much money needs to be added to their budget in order to meet *The Missouri Project*'s workload standards.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there is anticipated costs for this initiative petition. Unfortunately there is not enough time given in the date requested for this response to provide actual estimated costs.

County Prosecutor, Dan Patterson provided the following information:

October 12, 2016

No on 64 Campaign and SAM Action

California voters are being told that they will see the crime rate go down if they vote to legalize marijuana commercially; this has not been the case in the state of Colorado or the city of Denver. Since the legalization of recreational marijuana in Colorado in 2013 traffic related marijuana deaths have increased 48%, marijuana related emergency room visits have increased 49%, and marijuana related calls to the poison center have increased 100%. According to the Colorado Bureau of Investigations in 2015 statewide homicides in Colorado rose 14.7 % over the previous year. Pueblo, Colorado had the highest homicide rate in the state with 11.1 killings per 100,000 residents. Aurora, Colorado's homicide rate more than doubled from 2014. Additionally more places in Colorado were robbed and more thefts occurred, especially cars, as 193,115 motor vehicles were reported stolen, up 27.7 % in 2015 from the previous year. In 2015, sexual assaults rose 10% in Colorado with Denver, Aurora, Lakewood, Westminster and Pueblo all reporting higher numbers as well.

In the city of Denver since the legalization of recreational marijuana the number of crimes in Denver has grown by about 44 %, according to annual figures the city reported to the National Incident Based Reporting System. In 2015 in Denver alone crime rose in every neighborhood in the city. The murder rate hit a decade high, 1059 more cars were broken into, there were 903 more auto thefts, 321 more aggravated assaults and 231 more homes were broken into compared to 2014.

California voters are also being told that legalizing recreational marijuana will free up law enforcement to work on other criminal activities. Again that has not been the case in Denver. Besides the overall increases in crime we have experience, the Denver police department is dealing with a 900% increase in the unlawful cultivation and manufacture of marihuana concentrate, and a 99% increase in the unlawful distribution of marijuana and marijuana concentrate. The quantity of illegal marijuana seized by the Denver police has increased 3,424% on average per case. The volume of marijuana seized per case has increased from an average of 162 pounds to 5724 pounds. In Denver unlawful public consumption of marijuana citations has increased over 300% per year since the legalization of recreational marijuana. The Denver police department is busier enforcing marijuana laws and investigating crimes directly related to marijuana, including murderers, robberies, and home invasions, than any other time in the history of the city.

Sincerely,

Mitchell R. Morrissey
Denver District Attorney

Officials from the **City of Kanas City** indicated:

Their local government estimates the fiscal impact of the above-referenced constitutional amendment for fiscal years 2018, 2019 and 2020 to be as follows:
(reminder: 2018 will likely be a portion of a fiscal year, depending on effective date of amendment)
Revenues: (explain amount per fiscal year and source or reason for increase)
This constitutional amendment will have no fiscal impact on their city.

Savings: (explain amount per fiscal year, reason for savings and area where savings will occur)
This constitutional amendment will have no fiscal impact on their city.

Costs:(explain what type of costs will be incurred, amount per fiscal year and reason)
This constitutional amendment will have no fiscal impact on their city.

Losses:(explain why revenue losses would be expected and amount per fiscal year)
This constitutional amendment will have no fiscal impact on their city.

Officials from the **City of St. Joseph** indicated this initiative petition proposing to amend Article IV would have fiscal impact on the local government. There have been increased concerns from a public safety aspect that may contribute to additional law enforcement officers to deal with the repercussions of this amendment.

Officials from the **Missouri State University** indicated no fiscal impact to their university.

Officials from the **Missouri Western State University** indicated this initiative will not have a fiscal impact on their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education,** the **Department of Labor and Industrial Relations, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Fiscal Note Summary

This proposal is estimated to result in annual state savings of $11 million. Additional state operating costs resulting from this proposal are estimated at $700,000 annually. Local law enforcement costs could increase.

RE: Petition approval request from Damien Johnson regarding a proposed constitutional amendment to Article X (2018-222)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Damien Johnson on April 7, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends Article X section 26 of the Missouri Constitution by deleting all matters within the enclosed brackets and adding all the underlined matters as required pursuant to Section 116.050 RSMo.

Section 26. A. In order to prohibit an increase in the tax burden on the citizens of Missouri without voter approval, state and local sales and use taxes (or any similar transaction-based tax) shall not be expanded to impose taxes on any service or transaction that was not [subject to sales, use or similar transaction-based tax on January 1, 2015.] approved by voters.

B. Prohibit funding of sports and entertainment stadiums, recreation centers or facilities without voter approval.

C. Prohibit expansion, extending, modifying, or amending current or future bonds, tax credits for the purpose of funding sports and entertainment centers, recreation centers or facilities, without voter approval.

D. No unelected governmental body, committee, or commissions shall have the power to spend money, apply for grants, enter into agreements for the purpose of funding sports and entertainment centers, recreation centers or facilities. No unelected body of government body, committee, or commissions shall have to power to sue in any official capacity to dispute any part of this section.

E. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

All provisions shall take effect immediately upon passage.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-222)

Subject

Initiative petition from Damien Johnson regarding a proposed constitutional amendment to Article X. (Received April 7, 2017)

Date

April 27, 2017

Description

This proposal would amend Article X of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb

the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated their impact is unknown.

This initiative petition amends the MO Constitution so that public money can't be spent on any sports facility without voter approval. This may cause a decrease in the amount of public money that is spent on sports facilities. The impact is unknown because the state may save money that it would have spent on the facilities but there will be lost economic activity that the facilities would have caused.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated that this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their agency.

Officials from **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration (OA)** indicated this proposal amends Article X, Section 26.

- Subsection A prohibits the imposition of state and local taxes on any services or transactions that were approved by voters instead of the current language which prohibits taxes on any service or transaction that was not subject to sales, use or similar transaction-based tax on January 1, 2015. Budget and Planning does not have enough information to estimate the fiscal impact of this provision, however, it could have a significant negative fiscal impact on the state and local taxing authorities.

- Subsection B prohibits funding of sports and entertainment stadiums, recreation centers or facilities without voter approval. B&P assumes this language is prospective; therefore, it would impact only new taxes and construction of new sports and entertainment stadiums, recreation centers or facilities. While there would be a fiscal impact, B&P is unable to determine the impact, as the operative terms are undefined.

- Subsection C prohibits expansion, extension modification or amending current or future bonds, or tax credits without voter approval. The intent of this provision is unclear. A broad interpretation would be that provision C would not allow refunding transactions (which save tax payer money by reducing debt service without substantive changes to principal payments or dates) on any bonds (not just sports stadiums) without voter approval (which would be unlikely to obtain in a timely manner to execute the transaction before the markets changes). An even broader but reasonable interpretation would be that no changes to any existing bond documents could be made regardless of how trivial. This could present challenges in managing the state’s current debt and could result in higher debt service costs for the state. In regards to the reference to tax credits, this could be interpreted to mean that the state could not take any action on any existing tax credit program without a vote of the people. This means the program could not be extended or ended, caps could not be lowered or raised, and other program changes such as limiting the transferability of credits could not be implemented by the General Assembly without a vote of the people.

- Subsection D prohibits any unelected governmental body, committee, or commission from spending money, applying for grants or entering into agreements for the purpose of funding sports and entertainment centers, recreation centers or facilities. It also removes the ability of any unelected government body from suing or being sued in any official capacity to dispute any part of this section. B&P does not have enough information to determine the fiscal impact of this proposal.

- Subsection E states the provisions of the initiative petition are self-executing and severable and shall supersede conflicting city, county, state or federal statutory, local charter, ordinance or resolution. Budget and Planning does not have enough information to estimate the fiscal impact of this provision, however, it could have a significant negative impact on the state and local taxing authorities.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition could have a very significant negative fiscal impact on their city in an indeterminate amount.
This amendment could end their city's ability to funds projects with industrial revenue bonds or do sale-leasebacks through economic development corporations. The amendment would also prohibit the restructuring of bonds for entertainment districts without getting approval of the voters and there is an expense to the city in putting questions before the voters.

Officials from the **City of St. Joseph** indicated this initiative petition would have a fiscal impact if it required going to the voters to approve construction of sporting and entertainment centers.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia**, the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College**.

Fiscal Note Summary

The proposal could have a significant negative fiscal impact on the state and local governmental entities. The amount of the impact is unknown.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by adding one new section to be known as section 30(e) of Article IV to read as follows:

Section 30(e). 1. Neither the General Assembly nor any other entity or officer of state government may finance, acquire, construct, maintain, improve, reconstruct, or operate toll roads or toll facilities in this state.

2. "Toll facility" includes any facility, structure, or appurtenance which is to be paid for in whole or in part from revenues collected from tolls, fees, rents, or other charges imposed for the use of the facility.

3. The state may not relocate or incorporate any public roads, highways, or bridges into a toll facility project.

4. The state may not transfer all or part of a public road, highway, or bridge to another entity for operation as a toll road or toll facility.

5. Nothing herein shall prevent the collection of taxes for the benefit of the state transportation fund.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-221)

Subject

Initiative petition from Wayne Baker regarding a proposed constitutional amendment to Article IV. (Received April 5, 2017)

Date

April 25, 2017

Description

This proposal would amend Article IV of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **Missouri Joint Municipal Electric Utility Commission.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that the enactment of this proposal would result in increased litigation. They assume they could absorb costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated fiscal impact - unknown negative, as it would prohibit the imposition, collection and operation of toll facilities by the Missouri Highways and Transportation Commission and Missouri Department of Transportation, which would eliminate a future, possible revenue stream to build, operate and maintain state highways. But, since the Commission and Department do not currently operate any state toll facility, any future negative fiscal impact is unknown.

Officials from the **Office of Administration** indicated this proposal would prohibit public toll roads or toll facilities and the transfer of any non-tolled roads or bridges to another entity to operate as a toll project. It also states that this amendment does not prevent the collection of taxes for the benefit of the state transportation fund.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition would have a very significant negative fiscal impact on their city in an indeterminate amount.

Their city (both in its own right and through the use of multiple economic development corporations agencies) has a large number of economic development projects that are owned by the city and financed with bonds that are repaid using the rents that are derived from these projects. This process is commonly referred to as a "sale-leaseback". This proposes amendment, if it passes, would make sale-leasebacks unlawful.

If the purpose of this proposed amendment is to prohibit toll roads than the language it uses to also prohibit toll facilities is overbroad.

Officials from the **City of Raymore** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission.**

Fiscal Note Summary

The state currently operates no toll facilities and thus passage of this proposal results in no immediate fiscal impact; however, state governmental entities expect a future unknown negative fiscal impact because the proposal eliminates potential sources of revenue. Local governmental entities expect a significant unknown negative fiscal impact.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by adding one new section to be known as section 30(e) of Article IV to read as follows:

Section 30(e). All government owned roads in existence at the time of passage of this amendment shall be public and not subject to the payment of any toll for their use. The highways and transportation commission shall not transfer all or part of a nontolled road to another entity for operation as a toll project.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-220)

Subject

Initiative petition from Wayne Baker regarding a proposed constitutional amendment to Article IV. (Received April 5, 2017)

Date

April 25, 2017

Description

This proposal would amend Article IV of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **Missouri Joint Municipal Electric Utility Commission.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that the enactment of this proposal would result in increased litigation. They assume they could absorb costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated fiscal impact - unknown negative, as it would prohibit the imposition, collection and operation of toll facilities by the Missouri Highways and Transportation Commission and Missouri Department of Transportation, which would eliminate a future, possible revenue stream to build, operate and maintain state highways. But, since the Commission and Department do not currently operate any state toll facility, any future negative fiscal impact is unknown.

Officials from the **Office of Administration** indicated this proposal would require all government-owned roads at the time of passage of the amendment to remain public and not subject to tolling for their use. It would also prohibit the Highways and Transportation Commission from transferring all or part of a non-tolled road to another entity to operate as a toll project.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition would have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission.**

Fiscal Note Summary

The state currently operates no toll facilities and thus passage of this proposal results in no immediate fiscal impact; however, state governmental entities expect a future unknown negative fiscal impact because the proposal eliminates a potential source of revenue. Local governmental entities expect no fiscal impact.

RE: Petition approval request from Wayne Baker regarding a proposed constitutional amendment to Article IV, Version 1 (2018-219)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Wayne Baker on April 5, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

FISCAL NOTE (18-219)

Subject

Initiative petition from Wayne Baker regarding a proposed constitutional amendment to Article IV. (Received April 5, 2017)

Date

April 25, 2017

Description

This proposal would amend Article IV of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and **Missouri Joint Municipal Electric Utility Commission.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that the enactment of this proposal would result in increased litigation. They assume they could absorb costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated fiscal impact - unknown negative, as it would prohibit the imposition, collection and operation of toll facilities by the Missouri Highways and Transportation Commission and Missouri Department of Transportation, which would eliminate a future, possible revenue stream to build, operate and maintain state highways. But, since the Commission and Department do not currently operate any state toll facility, any future negative fiscal impact is unknown.

Officials from the **Office of Administration** indicated this proposal would prohibit public toll roads and the transfer of any non-tolled roads to another entity to operate as a toll project.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition would have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Missouri Joint Municipal Electric Utility Commission.**

Fiscal Note Summary

The state currently operates no toll facilities and thus passage of this proposal results in no immediate fiscal impact; however, state governmental entities expect a future unknown negative fiscal impact because the proposal eliminates a potential source of revenue. Local governmental entities expect no fiscal impact.

This measure amends the Missouri Constitution by adding Section 54 to Article IV. This amendment implicitly repeals, in part or in whole, and Amends various statutes and subsections including but not necessarily limited to RSMo 87.400.1(6), 87.400.1(7), 87.505.1(12), 87.505.1(13), 105.1108.1, 105.1112.1, 192.945.1, 195.010.1(17)(g), 195.010.1(l), 195.010.1(24), 195.010.1(40), 195.017.1(4)(w), 195.017.1(4)(ee), 195.017.2(4)(w), 195.017.2(ee), 195.140.2, 195.207.1, 195.211.1, 195.222.1(7), 195.223.1(7), 195.223.1(8), 261.265.1, 263.250.1, 261.265.1, 306.110.1(2), 579.015.1(2), 579.015.1(3), 579.015.1(4), 579.015.1(5), 579.020.1(2), 579.020.1(3), 579.020.1(4), 579.020.1(5), 577.024.1(2), 579.030.1, 579.055.1(3), 579.055.1(4), 579.068.1(7), 579.068.1(9)3.(7), 579.068.1(9)3.(8), 579.105.1.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted to be known as Article IV, Section 54 and to read as follows:

1. Cannabis shall immediately be removed from the Missouri Revised Statutes list of controlled substances and shall no longer be listed among Missouri's drug schedules. Cannabis shall no longer be considered a controlled substance or a drug hence forth by Missouri law.

2. Definition of terms, as used in this Act:
(a) "Cannabis" and "Cannabis hemp" refer to the Cannabis, marihuana, marijuana, Cannabis sativa, Cannabis sativa L., Cannabis Americana, Cannabis Gigantea, Cannabis indica, Cannabis ruderalis, or any variety of Cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
(b) "Medical Cannabis" refers to Cannabis used to prevent or to treat a medical condition.
(c) "Personal use" refers to the personal use or consumption of Cannabis.
(d) "Cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing Cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing Cannabis into and/or onto the human body.
(e) "Establishment" refers to a Cannabis cultivation facility, a Cannabis testing facility, a Cannabis product manufacturing facility, or a retail store, Cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells Cannabis, Cannabis products and/or Cannabis accessories.

3. The following acts are not unlawful and shall not be an offense under Missouri law:
(a) Possession of Cannabis for personal or medical use.
(b) Cultivating Cannabis for personal or medical use.
(c) Cultivation, harvesting, processing, manufacturing, packaging, distributing, transferring, displaying or possessing Cannabis, Cannabis accessories, and Cannabis products for commercial purposes, provided the person has current applicable licensing to operate a commercial establishment. No special licensing will be required beyond that which is applicable for the cultivation, harvest, processing, manufacturing, packaging, distribution, transferal, display or possessing of any non-toxic food or food product.
(d) Providing Cannabis, Cannabis accessories, and Cannabis products for sale to consumers.
(e) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (d) of this subsection.
(f) No one shall be denied housing solely based on their use of Cannabis.
(g) No one shall be denied employment solely based on their use of Cannabis.
(h) The use and/or possession of Cannabis shall not be grounds for issuing a "Driving under the influence" (DUI) stop, charge, arrest or fines when operating a motor vehicle.

4. Medical Cannabis shall be available to patients without taxation who have a physician's recommendation for its use.
(a) All patients engaged in Cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through conventional therapeutic means, whether or not under the care of a physician.
(b) Licensed physicians shall not be penalized for, nor restricted from recommending Cannabis for medical purposes to any person under their care.
(c) Veterinarians shall not be penalized nor restricted from recommending Cannabis for medical purposes for any creature under their care.
(d) Opinions pertaining to, and willingness to recommend medical Cannabis therapy shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical Cannabis therapy.
(e) Any individual who is a Cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri Cannabis patient.
(f) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of Cannabis.

5. Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, Cannabis-only offenses which are no longer illegal in the State of Missouri under this Act shall be immediately released.
(a) The Court shall order the immediate expungement of civil and criminal records pertaining to all non-violent Cannabis only offenses which are no longer illegal in the State of Missouri under this Act.
(b) Within 60 days of the passage of this Act, a legal document shall be developed and made available to the public ordering the immediate destruction of all Cannabis-related non-violent civil and criminal records in Missouri and for any offense covered by this amendment which is no longer illegal in the State of Missouri under this Act. This document shall be distributed to all pertinent parties throughout the state.

6. No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of federal Cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment.
(a) Asset Forfeiture shall no longer be justified or used by any Missouri law enforcement through association with Cannabis, Cannabis cultivation, it's use and/or possession.

7. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

8. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor.

9. Pursuant to the Ninth and Tenth Amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge federal Cannabis prohibitions that conflict with this Act.

10. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

11. The dictates of this Initiative shall be implemented no later than January 31st, following the election that placed this initiative before the people.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-218)

Subject

Initiative petition from Doug Burlison regarding a proposed constitutional amendment to Article IV. (Received April 4, 2017)

Date

April 24, 2017

Description

This proposal would amend Article IV of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University.**

Assumptions

Officials from the **Attorney General's office** indicated among other provisions, this proposal could require the development and issuance of an order providing for the destruction of "all Cannabis-related non-violent civil and criminal records in Missouri." Moreover, the proposal purports to supersede federal law.

They expect that, to the extent that the enactment of this proposal would result in increased litigation, their office can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** estimated increased operating costs of $0 in fiscal year 2018, $109,353 in fiscal year 2019, and $169,098 in fiscal year 2020.

Section 192.945, RSMo, allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for both medical and recreational purposes. Therefore, persons with intractable epilepsy would not need to apply for a hemp extract registration card in order to legally use the CBD oil.

They expect rental space for two staff located in Jefferson City would be required: 2 staff x 230 sq.ft./FTE x $21.00 = $9,660.

They indicated retail marijuana, cultivation facilities, products manufacturer, and testing facilities may be established as small businesses.

This proposal does not require their department to issue any licenses or conduct inspections to ensure the safety of marijuana infused food products. However, 196.010 through 196.298, RSMo, gives their department responsibility for the regulation of food to include such duties as ensuring food safety, sanitation, proper labeling, etc. Therefore, they would have responsibility to assure that facilities manufacturing foods containing marijuana and marijuana products are regulated the same as other food manufacturers.

Due to the broad parameters of this proposal, it is difficult to determine how many food manufacturing facilities would be established. States which have legalized retail marijuana have seen a significant demand for edible marijuana products. For the purposes of this fiscal note, they estimate that at least 300 food manufacturing facilities that will be established as a result of this proposal. In order to properly inspect these manufacturing facilities, DCPH would require a minimum of two additional Environmental Public Health Specialist IV staff ($44,352, A27, Step G). This law shall be implemented no later than January 31 following the November 2018 election. Therefore, DCPH assumes that the two Environmental Public Health Specialist IV positions would begin January 1, 2019.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** expect cost avoidance of $7,178,073 in fiscal year 2019 (7 Months), $7,511,746 in fiscal year 2020, and $10,741,186 in fiscal year 2022 and thereafter.

Legalizing the possession and use of marijuana would remove from the criminal statutes all controlled substance offenses for marijuana, including possession, distribution and trafficking. If the legislation that removed marijuana from the list of controlled substances was retrospective then there would be two reductions in the cost of incarceration: the release of offenders serving a marijuana offense and fewer admissions to prison. The legalization of marijuana will largely impact offenders who are only serving a marijuana offense. Offenders serving multiple concurrent sentences will continue to be required to serve the other sentences after legalization and no estimate is made for offenders serving multiple sentences.

The reduction in the offender population is the total of reductions from the expungement of sentences and fewer admissions and probations. The cost avoidance is based upon a direct prison cost per year in FY17 of $6,085 and an average cost of $2,234 per year for offenders on field supervision. In the first year after the enactment of the legislation that legalizes marijuana there is an estimated reduction of 633 offenders in prison and 3,676 offenders on field supervision. In the next year (FY20) there will no discharges from expungement but the reduction in the prison population will increase to 214. The field reduction will continue into FY21 because the marijuana offenders are estimated to serve 2.5 years on supervision.

The estimate is qualified by the use of an expansion factor that assumes that the drug distribution in the sentences where the drug is not known will be similar to that where the drug is known.

The estimated cost avoidance in the first year is $7,178,073 and will be $10,741,186 after the 4th year.

If marijuana usage becomes legal it could impact the safety and security of the prisons as it is not believed that there is a means for testing whether an employee is under the influence of marijuana. Impaired prison employees or visitors can impact the safe and secure operation of the prisons.

Officials from the **Department of Labor and Industrial Relations** indicated they will not be responding to these fiscal notes. They have no effect on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated they see no fiscal impact for this initiative petition. They have forwarded this to MHSP for their input.

Officials from the **Missouri State Highway Patrol** indicated they expect increased operating costs of $474,311 for the first year implemented, $538,337 for the second year implemented, and $544,128 for the third year implemented.

The provisions of this petition would require their agency to rent office space for 5 FTE's to process the expungement requests.

The proposed legislation would order the immediate destruction of all cannabis-related non-violent civil and criminal records in Missouri.

Two different divisions within their agency will be impacted by this legislation. Here is a breakdown for each division:

Criminal Justice Information Services Division
The Criminal Justice Information Services Division (CJIS) states that there are currently 95,550 arrest charges in the Central Repository. The current expungement process, pursuant to Chapter 610, takes approximately 90 minutes to process. One FTE can handle 1,243 expungements per year. Conservatively, at least five FTE's would be required to initially handle the expungments created by this legislation. A significant processing backlog would occur if sufficient FTE's are not assigned to accommodate the number of expungements ordered.

1 FTE = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

The current average time per petition to log, process, research, review, create related correspondences, and to expunge the information when the order is received is 90 minutes. Therefore, one FTE can handle 1,243 expungements per year = 111,840 / 90.

These FTE's (CJIS Technicians, Range 16) would be necessary to process all expungement requests, review criminal history records, contact any agency associated with the arrests or convictions, and collect the necessary data for the court orders.

Based on the average yearly salary and benefit rate per FTE at $55,495 and the ability of that employee to process 1,243 expungements per year, the cost alone per expungement is $55,495 \ 1,243 = $44.64. It is suggested that a fee, similar to the criminal history background check fee, be implemented for the cost of researching and reviewing the criminal histories, as well as contacting of the various agencies associated with the arrests. In researching other states with similar expungement requirements, they all charge a fee to offset the cost of the time required to process the expungements. Their fees ranged from $50 to $450 per petition per arrest date.

These FTE will most likely be 2nd and 3rd shift employees so they would not require any equipment. However, there would be recurring costs of $650 per year per FTE for office supplies and phone charges. If any FTE were placed on the 1st shift, standard equipment would be required at a one-time cost of $6,094 per FTE.

5 CJIS Technicians ($1,232.50 x 24)	$147,900
Office Equipment/HW/SW	$6,094
RECURRING COSTS	
Phone Charges per FTE	$350
Office Supplies per FTE	$300

Patrol Records Division

Currently, there are 111,977 records in the Patrol's Traffic Arrest System (TAS) pertaining to arrests completed by the Missouri Highway Patrol that could possibly meet the requirements of this proposed constitutional amendment. These are arrest and arrest/disposition records pertaining to individuals the age of 17 years and older with an NCIC modifier of 60-64 that relate to marijuana offenses. Given this, if only ten percent of the individuals who qualify to have his or her record expunged sought to do so, the Patrol Records Division (PRD) would require 5 FTE's. However, if a large number of these expungements were to be granted with even five FTE's, the backlog would compound greatly to the point it may take several years to catch up. If 100 percent of the individuals who qualify to have their record expunged sought to do so, the Patrol Records Division would require 45 FTE's to complete this task in approximately one year.

The addition of 45 FTE's would require additional supervisory personnel. However, due to the vague and uncertain nature of this proposed amendment, the Patrol Records Division has no true way to determine the actual effect or costs.

1 FTE = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

The current average time per petition to log, process, research, review, create related correspondences, and to expunge the information when the order is received is 45 minutes. Therefore, one FTE can handle 2,485 expungements per year = 111,840 / 45.

With the current estimate of 111,977 records that potentially meet the requirements of this proposed amendment and would potentially be eligible for expungement, the following percentages of persons actually requesting an expungement will directly relate to the number of PRD FTE's required:

10% = 111,977 x .10 = 11,198 / 2,485 = 5 FTE's
50% = 111,977 x .50 = 55,989 / 2,485 = 23 FTE's
100% = 111,977 / 2,485 = 45 FTE's

These FTE's (Quality Control Clerks, Range 10) would be necessary to process all expungement requests, review records, contact agencies, and collect the necessary data for the court orders.

Based on the average yearly salary and benefit rate per FTE of $45,702 and the ability of that employee to process 2,485 expungements per year, the cost per expungement is $45,702 \ 2,485 = $18.39. It is suggested that a fee, similar to the criminal history background check fee, be implemented for the cost of researching and reviewing the criminal histories.

Processing ten percent of the possible expungements would require additional workspace. The physical requirements would increase with the number of FTE's required to meet the demand for expungements. There will be recurring costs of $650 per year per FTE for office supplies and phone charges. Standard equipment and office furniture would be required at a one-time cost of $6,094 per FTE.

5 Quality Control Clerks ($1,015 x 24)	$121,800
Equipment/Office Furniture	$6,094

RECURRING COSTS	
Phone Charges per FTE	$350
Office Supplies per FTE	$300

The provisions of this petition would require the Highway Patrol to rent office space for 5 FTE's to process the expungement requests. The Office of Administration states that 1,150 square feet of office space would be required. The following costs apply per square foot:

Office Space	$14/Sq Ft
Janitorial/Trash Costs	$1.50/Sq Ft

Utility Costs $2/Sq Ft

The agency provided the following additional comments:

It is suggested to add this additional language to provide for the collection of a fee to offset the costs of the expungements:

43.530. 1. For each request requiring the payment of a fee received by the central repository, the requesting entity shall pay a fee of not more than nine dollars per request for criminal history record information not based on a fingerprint search. In each year beginning on or after January 1, 2010, the superintendent may increase the fee paid by requesting entities by an amount not to exceed one dollar per year, however, under no circumstance shall the fee paid by requesting entities exceed fifteen dollars per request.

2. For each request requiring the payment of a fee received by the central repository, the requesting entity shall pay a fee of not more than twenty dollars per request for criminal history record information based on a fingerprint search, unless the request is required under the provisions of subdivision (6) of section 210.481, section 210.487, or section 571.101, in which case the fee shall be fourteen dollars.

3. A request made under subsections 1 and 2 of this section shall be limited to check and search on one individual. Each request shall be accompanied by a check, warrant, voucher, money order, or electronic payment payable to the state of Missouri-criminal record system or payment shall be made in a manner approved by the highway patrol. The highway patrol may establish procedures for receiving requests for criminal history record information for classification and search for fingerprints, from courts and other entities, and for the payment of such requests. There is hereby established by the treasurer of the state of Missouri a fund to be entitled as the "Criminal Record System Fund". Notwithstanding the provisions of section 33.080 to the contrary, if the moneys collected and deposited into this fund are not totally expended annually for the purposes set forth in sections 43.500 to 43.543, the unexpended moneys in such fund shall remain in the fund and the balance shall be kept in the fund to accumulate from year to year.

4. For all petitions for expungement under the provisions of Chapter 610, Section 577.054, or any other created expungement requirement under statute, excluding Section 610.122, the applicant shall pay a fee of seventy-five dollars per arrest date listed on the petition. Each petition shall be accompanied by a check, warrant, voucher, money order, or electronic payment payable to the state of Missouri-criminal record system or payment shall be made in a manner approved by the highway patrol. For expungements that require removal from the Traffic Arrest System twenty dollars of the seventy-five dollar fee will be deposited in the Highway Patrol Traffic Records Fund.

There are numerous uncertainties associated with this proposed constitutional amendment. The definition of a “non-violent cannabis-only offense” needs to be added. It is unclear if individuals with the aforementioned conviction records are required to

abide by the expungement process mandated by various other state statutes. Does the individual just complete and file a document with a circuit clerk and the record is expunged or does the "court," whomever that is, order the immediate expungement of all civil and criminal records pertaining to non-violent cannabis only offenses?

The Highway Patrol has concerns with number 6. This wording would prevent them from assisting federal agencies.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Changes to Missouri's state driving laws could impact some federal commercial drivers' license laws.

Failure to comply with 49 C.F.R. 384.225 & 384.226 could result in a withholding of Missouri's federal-aid highway funds apportioned to it under each of Title 23, United States Code (U.S.C.), sections 104(b)(1), (b)(3), and (b)(4). The federal funds impacted consist of national highway performance program funds, highway safety improvement program funds and congestion mitigation and air quality improvement funds. The withholding amount would be 4 percent for the first year of non-compliance and 8 percent for the second and subsequent years.

Officials from the **Office of Administration** (OA) indicated:

Under this proposal:

- Cannabis would be removed from the list of scheduled drugs
- Possessing, cultivating, harvesting and distributing cannabis for personal or medical use would be decriminalized.
- The use or possession of cannabis is not grounds alone for a Driving Under the Influence infraction and no one shall be denied housing or employment solely based on their use of cannabis.
- Cannabis shall be available to all patients, without taxation, when recommended by a physician as a medicine.
- All prisoners who have been incarcerated or under supervision of the MO Board of Probation and Parole for nonviolent cannabis-related crimes shall be immediately released and all charges for cannabis crimes expunged.

- No Missouri law enforcement personnel or state funds shall be used to enforce federal laws that are no longer illegal in Missouri under this amendment.
- Asset forfeiture will no longer be allowed through association with cannabis, cannabis cultivation, its use and/or possession. This could result in an unknown decrease to the state Federal Drug Seizure Fund.
- Language is included to state that the people of Missouri repudiate and challenge federal cannabis prohibitions that conflict with this proposal.
- Effective date is no later than January 31st following the election.

This should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated if passed, this constitutional amendment would have a positive impact on the workload of the Missouri State Public Defender, since possession, manufacture, distribution, etc. of cannabis would no longer be unlawful, offenses that the Public Defender currently uses resources to defend and no longer would need to.

The exact positive impact is difficult to predict because they track cases by statutory offense and most drug offenses are not limited to marijuana.

However, their best estimate, using FY2014 MSPD data, is that this would reduce their caseload by 3,523 cases (685 A/B felonies, 1,797 C/D felonies, 1,041 misdemeanors, and 1,140 probation violations).

In *The Missouri Project: A Study of the Missouri Public Defender System and Attorney Workload Standards*, prepared by RubinBrown on behalf of the American Bar Association's Standing Committee on Legal Aid and Indigent Defendants, the relevant workload standards are: A/B felonies, 47.6 hours per case; C/D felonies, 25.0 hours per case; misdemeanors, 11.7 hours per case; and probation violations, 9.8 hours per case). (The workload standards include only case related tasks over which an attorney has some control (they exclude, for example, in court and travel time) and thereby reflect a conservative estimate.)

Applying those workload standards to the 2,858 cases, those cases require 100,882.7 attorney hours. With 2,080 hours per attorney available each year, that represents the work of 48.5 attorneys.

While in theory they might also handle fewer appeals of guilty verdicts after trial, the fact is that only a very small percentage of their cases proceed to trial and it's likely that only a small percentage of those cases are appeals from marijuana convictions. Therefore this minimal positive impact is not being taken into account in this estimate.

However, the Missouri State Public Defender already is significantly understaffed by 333 attorneys under the workload standards developed in *The Missouri Project*. (The 333 attorneys is a conservative estimate of the under-staffing in that it assumes we contract all conflicts to private attorneys, which we are not able to do for budgetary reasons).

Therefore, despite the positive impact on the workload of the Missouri State Public Defender, because they are already understaffed that savings in attorney time would not allow the Public Defender to reduce its workforce and therefore would not translate into an actual cost savings. However it does reduce by the cost of 48.5 attorneys how much money needs to be added to their budget in order to meet *The Missouri Project*'s workload standards.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office.

Officials from **Greene County** indicated there is anticipated costs for this initiative petition. Unfortunately there is not enough time given in the response to provide an actual estimated costs.

County Prosecutor, Dan Patterson provided the following information:

DenverDA
Mitchell R. Morrissey, District Attorney - Second Judicial District
201 W. Colfax Avenue, Dept. 801, Denver, CO 80202
Bus. Phone: 720-913-900
Fax: 720-913-903

October 12, 2016

No on 64 Campaign and SAM Action

California voters are being told that they will see the crime rate go down if they vote to legalize marijuana commercially; this has not been the case in the state of Colorado or the city of Denver. Since the legalization of recreational marijuana in Colorado in 2013 traffic related marijuana deaths have increased 48%, marijuana related emergency room visits have increased 49%, and marijuana related calls to the poison center have increased 100%. According to the Colorado Bureau of Investigations in 2015 statewide homicides in Colorado rose 14.7 % over the previous year. Pueblo, Colorado had the highest homicide rate in the state with 11.1 killings per 100,000 residents. Aurora, Colorado's homicide rate more than doubled from 2014. Additionally more places in Colorado were robbed and more thefts occurred, especially cars, as 193,115 motor vehicles were reported stolen, up 27.7 % in 2015 from the previous year. In 2015, sexual assaults rose 10% in Colorado with Denver, Aurora, Lakewood, Westminster and Pueblo all reporting higher numbers as well.

In the city of Denver since the legalization of recreational marijuana the number of crimes in Denver has grown by about 44 %, according to annual figures the city reported to the National Incident Based Reporting System. In 2015 in Denver alone crime rose in every neighborhood in the city. The murder rate hit a decade high, 1059 more cars were broken into, there were 903 more auto thefts, 321 more aggravated assaults and 231 more homes were broken into compared to 2014.

California voters are also being told that legalizing recreational marijuana will free up law enforcement to work on other criminal activities. Again that has not been the case in Denver. Besides the overall increases in crime we have experience, the Denver police department is dealing with a 900% increase in the unlawful cultivation and manufacture of marihuana concentrate, and a 99% increase in the unlawful distribution of marijuana and marijuana concentrate. The quantity of illegal marijuana seized by the Denver police has increased 3,424% on average per case. The volume of marijuana seized per case has increased from an average of 162 pounds to 5724 pounds. In Denver unlawful public consumption of marijuana citations has increased over 300% per year since the legalization of recreational marijuana. The Denver police department is busier enforcing marijuana laws and investigating crimes directly related to marijuana, including murderers, robberies, and home invasions, than any other time in the history of the city.

Sincerely,

Mitchell R. Morrissey
Denver District Attorney

Officials from the **City of Kansas City** indicated this petition would have no fiscal impact on their city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **University of Central Missouri** indicated they estimate no fiscal impact from this initiative petition.

Officials from the **Missouri State University** indicated no fiscal impact to their university.

Officials from the **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from the **Missouri Western University** indicated no fiscal impact to their university.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Fiscal Note Summary

This proposal is estimated to result in annual state savings of $10.7 million. Additional state operating costs resulting from this proposal are estimated at $700,000 annually. Local law enforcement costs could increase.

Jefferson City, MO 65101

RE: Petition approval request from Damien Johnson regarding a proposed constitutional amendment to Article IV (2018-217)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Damien Johnson on April 4, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c,195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1.The following shall be called the Cannabis Treatment Amendment

2. Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof. This Amendment shall apply to all rsmo mentioning marijuana.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "personal use" refers to the non-medical consumption of cannabis.

e) "Expungeable marijuana offense" are any convictions committed prior to this amendment.

f) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

g) "establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Possession, production, cultivation and distribution of hemp, marijuana and cannabis.

b) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for commercial purposes provided the person has current applicable licensing to operate a commercial establishment. No special licensing will be required beyond that which is applicable for the cultivation, harvest, processing, manufacturing, packaging, distribution, transferal, display or possessing of any non-toxic food or food product.

4. The Missouri legislature may pass laws that doesn't conflict with this amendment. Medical cannabis, commonly known as marijuana, shall be available to patients who with a doctor's recommendation and Missouri Controlled Substance relating to marijuana schedule list shall change to reflect that cannabis as defined in Section two; clause a of this amendment, shall be available with a doctor's recommendation. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture:

a) All Missouri patients engaged in cannabis treatment shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of 18 with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis treatment shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

f) Primary caregiver shall not be subjected to criminal or civil charges for providing cannabis to patients who been given a doctor's a medical professional.

5. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

c) Permit the transfer or sale of cannabis intended for medical treatment to a person engaged in personal use.

6. Medical dispensaries shall verify the following:

a) The patient has a notarized letter from medical professional recommendation cannabis for medical treatment.

b) If, primary caregiver, the dispensary verifies the patient and the primary caregiver.

c) The patient's 9 digit random alphabet. Dispensaries my issue a random alphabet after verifying the Doctor's Recommendation.

d) Retail cannabis products for medical use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

7. The Department of Health and Human Services shall issue 9 digit random alphabet out to patients and keep records of the alphabet on a state wide registry. The registry is to verify it's a patient and it shall not be subjected to Sunshine request under rsmo chapter 610. No law enforcement agency my access the list without a warrant. Law enforcement agencies my only view a printed list but not electronically. Dispensaries shall the Register with the the Department of Health and Human Services for:

a) licensing and regulations

b) paying fees of no more than $100.00

c) to assist with the 9 digit random alphabet registry.

8. Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal for medical treatment in the State of Missouri under this Act and been convicted prior to this Act shall be immediately released and their civil and criminal records shall be expunge by the Court.

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor. Patients are are allowed to grow cannabis for medical treatment for self. Primary caregiver are allowed to grow for their patients.

11. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.This shall
12. become effective on December 6th 2018.

13. In the November general of 2020, voters shall vote to repeal the above sections 1 through 12 & replace it with the below section 14 through 26. A yes vote approve the repeal above sections 1 through 12 and replace with below sections 14 through 26. If voters fail shall to vote yes, the above sections 1 though 12 remains and voters shall vote again every four years until voters vote yes. Because such voter is contingent on the passage of 1 though 12, voters will neither be asked to repeal 1 though 12 and replace with 14 through 26 if 1 though 12 don't pass.

14.The following shall be called the Cannabis Legalization Amendment

15.Definition of terms, as used in this Act:

a) "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.

b) "hemp": the fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "personal use" refers to the non-medical consumption of cannabis.

e) "Expungeable marijuana offense" are any convictions committed prior to this amendment.

f) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

g) "establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

16. The Missouri legislature my pass laws that doesn't conflict with this amendment. Marijuana shall shall not be listed in Missouri Controlled Substance to reflect the change that cannabis as defined in section 14; clause a, are permitted for personal use for persons 21 of age or older and shall be available with a doctor's recommendation without an age limit. The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizure or forfeiture.

a) Adult Possession of cannabis for personal at 21 years or older.

b) Possession, production, cultivation and distribution of hemp, marijuana and cannabis.

c) Providing cannabis, cannabis accessories, and products for sale to consumers. Retail cannabis products for medical or personal use shall contain appropriate labeling, which outlines the weight and estimated potency of the product, lists all pesticides used in production, and summarizes the safe and effective use of cannabis. Labels shall not be false or misleading, and should be based on data derived from scientific study and prevailing human experience

17. Medical cannabis shall be available to patients who have a physician's recommendation.

a) All patients engaged in cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of twenty-one with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

c) Licensed physicians shall not be penalized for, nor restricted from recommending cannabis for medical purposes to any person.

d) Opinions pertaining to, and willingness to recommend medical cannabis therapy shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

e) Any individual who is a legal cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri cannabis patient.

Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

18. Nothing in this section shall:

a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

c) Permit the transfer or sale of cannabis intended for adult use to a person younger than twenty-one years of age.

19. Forbid any individual, corporate property owner, elementary education institutions, and secondary education institutions from prohibiting the distribution, sale or cultivation of cannabis within their dwelling for medical treatment

20. The dictates of this Initiative shall be implemented no later than January 1, following the election that placed this Initiative before the people.

21. Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for nonviolent, cannabis-only offenses which are no longer illegal in the State of Missouri under this Act shall be immediately released.

(a) The Court shall order the immediate expungement of civil and criminal records pertaining to all non-violent cannabis only offenses which are no longer illegal in the State of Missouri under this Act.

(b) Within 60 days of the passage of this Act, The Attorney General shall develop and make available to the public a legal document ordering the immediate destruction of all cannabis-related nonviolent civil and criminal records in Missouri and for any offense covered by this amendment. This document shall be distributed to all Circuit Court clerks within the State.

22. No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of federal cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment.

23. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

24. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor.

25. Taxes and regulations not conflicting with sections may be imposed on the production, distribution, cultivation and possession of cannabis, marijuana and hemp shall be subjected to duly authorized powers, if any, conferred by article III and VI of the Constitution of Missouri:

26. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, Version 21 (2018-216)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on April 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 290.502 and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next two years, until it reaches $11.00 per hour, effective January 1, 2021. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2022, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-216)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received April 4, 2017)

Date

April 24, 2017

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election**

Commissioners City of St. Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners**.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided information as proponents of the proposal to the State Auditor's office.

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided information as an opponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations. They do not expect that the enactment of this proposal would result in any other increased costs to their office.

Officials from the **Department of Agriculture** indicated there is no fiscal impact to their department for this initiative petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department since public employers are exempt from the new provisions proposed.

Officials from the **Department of Health and Senior Services** indicated this proposal would have no direct fiscal impact on their department since government employees are exempt from its provisions. However, employees of certain entities that receive funding through the department's budget would be impacted, such as Medicaid Home and Community Based Services vendors/providers and Area Agencies on Aging.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department defers to the Office of Administration to determine the fiscal impact of this proposal.

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department. Their department defers to the Office of Administration for a state impact.

Officials from the **Department of Public Safety - Office of the Director** indicated they will defer to the response provided for this initiative petition by the Office of Administration - Human Resources.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to the Office of Administration.

Officials from the **Governor's office** indicated there should be no added cost or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Officials from the **Office of Administration** indicated the proposal amends Sections 290.502 and 290.527, RSMo and adds Section 290.529, RSMo.

Section 290.502, RSMo, increases the minimum wage to $9.00 per hour, beginning January 1, 2019 and by another $1.00 per hour each year until it reaches $11.00 per hour beginning January 1, 2021. Thereafter, the minimum wage will be adjusted annually based on the increase/decrease in the cost of living.

The proposal exempts public employers from both requirements; therefore, there would be no cost to the State of Missouri.

Because no tax rates are affected, there is no direct impact on general and total state revenues. However, these proposals may have several indirect affects, which could impact revenue collections by an unknown amount, including but not limited to:

- Increased wages for certain employees. According to the US BLS, in 2015, Missouri had 57,000 hourly employees earning wages at or below the federal minimum wage;[1]
- Increased consumption by those employees;
- Lower overall employment (if employers choose to hold costs steady);

[1] http://www.bls.gov/opub/reports/minimum-wage/2015/home.htm

- Lower business investment (if employers' payrolls increase);
- Increased prices as firms pass–through labor costs.

This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated they do not predict an immediate fiscal impact upon their office if Missouri's minimum wage rate were increased to $11.00 per hour. However, the potential future impact of applying cost of living increases and/or increases in the federal minimum wage to a Missouri minimum wage of $11.00 per hour, as called for elsewhere in Section 290.502, RSMo., is unknown.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition may have a small negative fiscal impact on their city as a result of the increased hourly minimum wage being higher than the hourly rate paid some city employees.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated they are not able to estimate any significant financial impact on their university.

Officials from **University of Central Missouri** indicated they estimate no fiscal impact since they are excluded under the public employer definition in section 4.

Officials from the **Missouri State University** indicated no fiscal impact.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated the wording is unclear as to whether Colleges/Universities are included in this petition. In assuming they are included, they calculate the following significant fiscal impact to their university. The proposal will have a substantial negative fiscal impact on the university. A proposed minimum wage increase, beginning January 2019 to $9.00 an hour would increase current payroll expenditures by approximately $455,840.00. With the proposed $1.00 increase for the next two years payroll expenditures could increase approximately $1,236,640.00. These payroll increases would be detrimental to the university.

Officials from the **Kansas City Board of Election Commissioners** indicated no fiscal effect on their operations.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition does not have a fiscal impact on their office.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Minimum Wage Initiative Petitions

Summary of Proposed Minimum Wage Initiatives						
Version Number		**Initiative Summary**				
Version Number Used in This Impact Analysis	**Version Number Assigned by the Secretary of State**	**Minimum Wage Level**	**Matches the Federal Minimum Wage When It Is Higher**	**Stronger Penalty for Wage Violations**	**Tipped Worker Minimum Wage (as a % of Full Minimum Wage)**	**Allows Localities to Enact a Local Minimum Wage**
Version 13	2018 - 204	$12 by 2023 *(Start at $8.60 and $.85/year)*	Yes	Yes	No Change	No
Version 14	2018 - 205	$12 by 2023 *(Start at $8.60 and $.85/year)*	Yes	No	No Change	No
Version 15	2018 - 206	$12 by 2023 *(Start at $8.60 and $.85/year)*	No	No	No Change	No
Version 16	2018 - 207	$12 by 2024 *(Start at $8.50 and $.70/year)*	Yes	Yes	No Change	No
Version 17	2018 - 208	$12 by 2024 *(Start at $8.50 and $.70/year)*	Yes	No	No Change	No
Version 18	2018 - 209	$12 by 2024 *(Start at $8.50 and $.70/year)*	No	No	No Change	No

Version 19	2018 - 210	$13 by 2025 *(Start at $8.50 and $.75/year)*	Yes	Yes	No Change	No
Version 20	2018 - 211	$13 by 2025 *(Start at $8.50 and $.75/year)*	Yes	No	No Change	No
Version 21	2018 - 212	$13 by 2025 *(Start at $8.50 and $.75/year)*	No	No	No Change	No
Version 22	2018 - 213	$11 by 2022 (Start at $8.75 and $.75/year)	Yes	Yes	No Change	No
Version 23	2018 - 214	$11 by 2022 (Start at $8.75 and $.75/year)	Yes	No	No Change	No
Version 24	2018 - 215	$11 by 2022 (Start at $8.75 and $.75/year)	No	No	No Change	No
Version 25	2018 - 216	$11 by 2021 (Start at $9; $1/year)	Yes	Yes	No Change	No
Version 26	2018 - 200	$12 by 2022 (Start at $9; $1/year)	Yes	No	No Change	No
Version 27	2018 - 201	$13 by 2023 (Start at $9; $1/year)	Yes	No	No Change	No
Version 28	2018 - 202	$12 by 2024 (Start at $8.25; .75/year)	Yes	Yes	100%	No
Version 29	2018 - 203	$13 by 2025 (Start at $8.50; .75/year)	Yes	Yes	60%	No
Version 30	2018 - 196	$12 by 2022 (Start at $9; $1/year)	Yes	Yes	100%	Yes
Version 31	2018 - 197	$12 by 2022 (Start at $9; $1/year)	Yes	Yes	60%	Yes
Version 32	2018 - 198	$13 by 2023 (Start at 9; $1/year)	Yes	Yes	100%	Yes

Version 33	2018 - 199	$13 by 2023 (Start at $9; $1/year)	Yes	Yes	60%	Yes

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced Minimum Wage Initiative Petitions. Pursuant to RSMo. Section 116.175, we write to submit the following fiscal impact information to assist your office in its analysis of the fiscal impact of the above-mentioned seven proposed Minimum Wage Initiative Petitions.

Our analysis estimates the impact of the proposed Minimum Wage Initiative Petitions on state and local sales and personal income tax revenue in Missouri. We follow the process that has been used in the past to estimate the impact of minimum initiative petitions on state and local sales and personal income tax revenue, with some refinements. We also address certain claims that have been made by opponents of similar initiative petitions in the past.

As these petitions exclude public workers from the proposed minimum wage increases, we do not include in our analysis an estimate of the impact on state and local payroll costs of the proposed Minimum Wage Initiative Petitions.

I. Estimate of Number of Workers Affected Statewide and the Impact on Their Wages

Table 1. Summary of the Number of Affected Workers and Aggregate Wage Increases for Missouri in the Final Year of Minimum Wage Implementation.

Proposal	Year of Peak Minimum Wage (MW)	Proposed Peak MW	Tipped MW in Peak MW Year	Workers Affected by MW increase	Aggregate Annual Wage Increase in Nominal Dollars
13,14,15[a]	2023	$ 12.00	$ 6.00	835,350	$4,358,798,129
16,17,18[a]	2024	$ 12.00	$ 6.00	819,652	$4,209,438,048
19,20,21[a]	2025	$ 13.00	$ 6.50	900,788	$5,309,336,662
22,23,24[a]	2022	$ 11.00	$ 5.50	738,515	$3,347,138,756
25	2021	$ 11.00	$ 5.50	761,164	$3,469,534,559
26	2022	$ 12.00	$ 6.00	852,284	$4,510,285,824
27	2023	$ 13.00	$ 6.50	949,801	$5,667,065,534
28	2024	$ 12.00	$ 9.60	832,328	$4,288,614,460
29	2025	$ 13.00	$ 7.80	905,942	$5,332,471,496
30	2022	$ 12.00	$ 8.40	864,090	$4,558,317,729
31	2022	$ 12.00	$ 6.84	855,887	$4,523,341,931

32	2023	$ 13.00	$ 9.75	948,421	$5,745,051,956
33	2023	$ 13.00	$ 7.54	942,566	$5,685,951,766

Notes: Author's Analysis of American Community Survey (ACS) Data from 2014.
(a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

Across the proposals analyzed, the total aggregate wage increase for workers in Missouri ranges from a low of $3.347 billion (Proposals 22-24) to a high of $5.745 billion under Proposal 32. While some proposals have the same final impact numbers, they have different impacts in the initial years (not listed) based on the relative pace of increases in earlier years. A full, year-by-year impact analysis is presented in Appendix Tables A1 through A13 below.

The wage impact of an increase in the minimum wage for the state of Missouri is calculated using the following procedure. The American Community Survey (ACS) Public Use Micro Sample for the most recent year available (2014) for the state of Missouri was downloaded from the US Census Bureau. The American Community Survey was chosen over the Current Population survey because the ACS has a significantly larger sample. We followed the method of Perry, Thomason, and Bernhardt (2016) for calculating an hourly wage rate from the ACS based on observed total annual wage income, typical hours worked each week and weeks worked per year. Since ACS income figures are clustered around whole-numbers, we smoothed the wage distribution by randomly adding or subtracting $0.25 from each wage figure.

Wage adjustments were made only for those individuals earning less than the proposed minimum wage, or proposed tipped minimum wage. We did not make additional adjustments for the "ripple effect" of minimum wage increases on workers earning slightly above the new threshold. Recent evidence suggests that workers earning up to 15 percent above of the minimum wage also receive small increases in response to a minimum wage increase. (See Wicks-Lim (2006) and Dube, Giuliano and Leonard (2015).) Thus, the estimated impacts listed above are likely to be smaller than the actual impact of increasing the minimum wage to the proposed level.

The proposed minimum wage increases exclude public employees. However, it was not practicable to exclude public employees from these calculations because the ACS does not have a published variable that allows for identification of public employees. Nonetheless, this inclusion of public employees should have only a minimal impact on our results, since their numbers are small and most already earn more than the proposed minimum wage increases.[1]

All wages from the 2014 survey were adjusted upward to account for inflation between the time of the survey and the time of measurement of the impact. Actual rates of inflation were used to adjust wages up to 2016. For all subsequent years between 2017 and 2028, baseline wages were adjusted using the projected annual average rate of change in the Consumer Price Index for Urban Workers (CPI-U) for the Midwest region. The 2015 and 2016 Missouri Minimum wage of $7.65 was adjusted by the same factor prior to measuring the impact of a change to the proposed minimum wage in 2019.

After these adjustments, the resulting hourly wage of all employees was compared to the proposed minimum wage. A total of twenty-one proposals were analyzed. For each proposal, we constructed a baseline wage scenario that used only basic wage changes from expected inflation rates to predict each ACS respondent's hourly wage rate in each year

[1] For Missouri's state employees, this can be validated by viewing the earnings of all state employees at: http://mapyourtaxes.mo.gov/MAP/Employees/. In larger counties and cities most all public employees already earn more than the highest proposed minimum wage. Smaller counties and towns may have some public employees who earn less than the highest proposed minimum.

between 2019 and 2028. We then constructed a counterfactual, or "proposed" wage distribution for each worker under all twenty-one minimum wage proposed scenarios. Since the minimum wage proposals offer nine different paths for raising the minimum wage for all non-tipped private sector workers, and different wage paths for tipped workers, we create separate minimum wage changes for tipped and non-tipped workers. Specifically, we used information on a worker's occupation and observed wage levels to separately identify tipped workers and assign them the proposed tipped minimum wage in each year, rather than the higher non-tipped minimum wage.[2]

If the proposed minimum wage was less than the inflation-adjusted hourly earnings of an employee, then no impact was calculated. If the proposed minimum wage was more than the hourly earnings for an employee, then the difference between the inflation-adjusted hourly earnings (i.e. baseline) and the proposed minimum wage was calculated. That difference was multiplied by the number of hours the employee worked in the year to calculate the annual impact for that employee. The result was then multiplied by a weighing factor for that employee in the population. The total impact for the state of Missouri was then summed across all affected workers to generate a total estimated increase in wage income in the state.

We do not include an estimate of job losses due to minimum wage changes. Existing research is clear that past minimum wage increases have had no measurable effect on aggregate employment levels. Larger minimum wage increases, such as those in Los Angeles, Seattle, and other jurisdictions, have not yet been studied to detect a clear disemployment effect. While it is possible that there may be some employment losses due to automation or other factors, this potential negative effect is likely offset by the positive potential job growth stemming from multiplier effects of the spending of minimum wage workers who receive substantial raises. There is substantial research to indicate that increases in the minimum wage have multiplier effects that increase the direct effects. For this reason and because of the likely increases in wages for individuals who earn above the proposed minimum wage rates, the impacts summarized in the table are considered conservative estimates relative to the total impact that would occur as a result of increasing the minimum wage to the proposed levels.

II. Economic Literature on the Impact of Minimum Wage Increases on Employment

Next, it is necessary to review the economic literature on the impact of minimum wage increases on employment. Opponents often claim that minimum wage increases may reduce employment in a state. If that is true, then those employment reductions would result in reductions in state income and sales tax revenue. However, review of the most credible recent empirical research on the minimum wage shows that increases in the minimum wage have had no discernible impact on employment. We thus conclude that it is not appropriate to project that the proposed initiative petitions would result in any detectable employment reduction, and resulting losses in income and sales tax revenue, or increases in unemployment-related costs to the state.

Economists have conducted hundreds of studies of the employment impact of the minimum wage. A recent meta-study – a formal statistical study of studies – by Doucouliagos and Stanley (2009) reviewed all the research conducted over the last three decades on the employment impact of minimum wage increases on teenagers in the United States. The researchers concluded that the minimum wage has little or no discernible effect on the employment prospects of low-wage workers. Their study followed a rigorous, peer-reviewed procedure and has the advantage of using a set of predetermined, objective criteria for weighing the validity of statistical findings across studies with different results.

[2] We defined tipped workers as those employed in occupations that typically receive a large share of income as tips. These occupations were 'Bartenders' (4040), 'Waiters and Waitresses', 'Food Servers, Non-restaurant' and 'Miscellaneous food preparation and serving related workers including dining room and cafeteria attendants and bartender helpers'.

(Source: Doucouliagos, Hristos and T. D. Stanley. 2009. "Publication Selection Bias in Minimum-Wage Research? A Meta-Regression Analysis." British Journal of Industrial Relations,vol. 47, no. 2, pp. 406-428.)

Recent theoretical and empirical research emphasizes several explanations for the consistently negligible employment impacts of moderate increases in the minimum wage. First, relative to total wage costs, minimum-wage increases are small. Second, employers and workers appear to respond to minimum-wage increases in many ways that reduce the direct cost to employers and substantially reduce or eliminate the need to cut employment.

Probably the most important economic response to a higher minimum wage is a reduction in turnover. At higher wages, employers fill vacancies faster and retain employees longer, boosting total employment and average productivity per worker while reducing direct and indirect training costs. Dube, Lester, and Reich (2012), for example, examined the effect of the minimum wage on labor turnover among teens and restaurant workers. They find "...striking evidence that separations, new hires, and turnover rates for teens and restaurant workers fall substantially following a minimum wage increase..." (p. 2). Their findings, using nationally representative data, are consistent with local case studies of the minimum wage and related "living wage" laws, including Dube, Naidu, and Reich's (2007) analysis of the San Francisco city-wide minimum wage; Fairris's (2005) study of local government contractors in Los Angeles; Howes (2005) on homecare workers in California; and Reich, Hall, and Jacobs (2005) on workers at the San Francisco airport.
(Sources: Dube, Arindrajit, T. William Lester, and Michael Reich. 2012. "Minimum Wage Shocks, Employment Flows and Labor Market Frictions." Berkeley, CA: Institute for Research on Labor and Employment. http://escholarship.org/uc/item/76p927ks; Dube, Arindrajit, Suresh Naidu, and Michael Reich. 2007. "The Economic Effects of a Citywide Minimum Wage." *Industrial and Labor Relations Review*, vol. 60, no. 4, pp. 522-543; Fairris, David. 2005. "The Impact of Living Wages on Employers: A Control Group Analysis of the Los Angeles Ordinance." *Industrial Relations*, vol. 44, no. 1, pp. 84-105; Howes, Candace. 2005. "Living Wages and the Retention of Home Care Workers in San Francisco." *Industrial Relations*, vol. 44, 5 no. 1, pp. 139-163; Reich, Michael, Peter Hall, and Ken Jacobs. 2005. "Living Wage Policies at the San Francisco Airport: Impacts on Workers and Businesses." *Industrial Relations*, vol. 44, no. 1, pp. 106-138.)

Employers also appear to respond to increases in the minimum wage by taking measures to boost productivity. Hirsch, Kaufman, and Zelenska's (2011) study of the impact of the federal minimum wage increase on 81 fast-food restaurants in Georgia and Alabama, for example, asked fast-food managers about the scope for efficiency improvements in response to the minimum-wage rise. About 90 percent of managers indicated that they planned to respond to the minimum wage increase with increased performance standards such as "requiring a better attendance and on-time record, faster and more proficient performance of job duties, taking on additional tasks, and faster termination of poor performers." (p. 27) Roughly the same share of managers said that they sought to "boost morale" by presenting the minimum wage increase as a "challenge to the store" and using this as a way "to energize employees to improve productivity." (pp. 28-29) Based on their interviews with store managers, the researchers concluded that a minimum wage increase may function as a "catalyst or shock that forces managers to step out of the daily routine and think about where cost savings can occur." (p. 29) (Source: Hirsch, Barry T., Bruce Kaufman, and Tetyana Zelenska, "Minimum Wage Channels of Adjustment." IZA Discussion Paper No. 6132. Germany: Institute for the Study of Labor. http://www2.gsu.edu/~ecobth/IZA_HKZ_MinWageCoA_dp6132.pdf)

A higher minimum wage may also motivate workers to work harder, independently of any actions by employers to increase productivity. According to "efficiency wage" theory, wages above the competitive-market rate may elicit greater work effort for several reasons. As Carl Shapiro and Joseph Stiglitz (1984) have argued, higher pay increases the cost to workers of losing their job, potentially inducing greater effort from workers in order to reduce their chances of

being fired. George Akerlof (1982), arguing from a more sociological point of view, has suggested that workers may see higher wages as a gift from employers, leading workers to reciprocate by working harder. (Sources: Shapiro, Carl and Joseph E. Stiglitz. 1984. "Equilibrium unemployment as a worker discipline device." *American Economic Review*, vol. 74, no. 3, pp. 433-444; Akerlof, George A. 1982. "Labor contracts as partial gift exchange." *Quarterly Journal of Economics*, vol. 97, no. 4, pp. 543-569.)

We therefore conclude that the proposed increase in the Missouri minimum wage would have no discernible impact on the employment levels of low-wage workers. Accordingly, we do not factor in reductions in employment, or any resulting decrease in sales tax or income tax. We also do not project any increased unemployment insurance costs – both because we do not project any resulting job losses, and, additionally, because unemployment insurance costs are paid for by employer premiums, and so are ultimately not a cost to the state.

For similar reasons, we do not believe that the proposed increase will have any significant adverse economic impact on small businesses or, by extension, on corporate income tax revenue. In fact, many small businesses already pay little if any corporate income tax.

III. State and Local Sales and Personal Income Tax Revenue Impact of Raising the Minimum Wage

Based on the wage impact figures calculated above, and the understanding that the minimum wage increases would be unlikely to result in offsetting job losses, we next calculate the impact of the projected wage increases on state and local sales and personal income tax revenue in Missouri. We project only the direct impact of the various minimum wage increase scenarios on such tax revenue. We do not attempt to project the additional impact through a GDP multiplier effect, or the potentially higher sales taxes generated if employers offset wage increases with higher prices (which would be taxable).

Personal Income Tax Revenue. In order to determine the projected increase in personal income tax revenues that would result directly from the increased wages, we had to develop assumptions about the effective income tax rates of the affected workers. We made the following assumptions with respect to the effective tax rate:

1. That 25% of affected workers can be claimed as a dependent on another party's Missouri income tax return and, as a result, would pay an effective tax rate of 6.0% on the increase in income;
2. That 50% of the affected workers would file as single taxpayers, would claim one deduction of $2,100, and would be entitled to a standard deduction of $5,800. This would result in an effective tax rate of 2.47%;
3. The remaining 25% would, we assumed, pay no additional Missouri income tax.

In light of these assumptions, the increased Missouri income tax revenue for each petition version can be calculated as follows: (total wage increase * 25% * 6.0%) + (total wage increase * 50% * 2.47%) + (total wage increase *25% * 0%).

Sales Tax Revenue. The state of Missouri imposes a 4.225% state sales tax on those items that are not exempt from the sales tax base. In addition, the average local sales tax rate is 2.95%. As a result, the average Missouri net sales tax rate is 7.175%. To estimate the share of income that is spent on goods and services that are subject to sales taxes, we used data from the 2015 Consumer Expenditure Survey (CES) for the US to estimate the share of income spent on categories that are subject to sales taxes. The CES summary tables list average spending per consumer across 20 different

categories (e.g. housing, transportation, food away from home) and we categorized each spending item as taxable or non-taxable and then calculated the share of spending that we taxable.[3] The resulting rate was 30.3 percent.

Based upon the above assumptions, and the total wage increase calculations for each version of the petition, we estimate that the increase in state income tax revenue resulting from the increased wages would be as follows:

Table 2. Summary of the Impact of Minimum Wage Increases on State and Local Sales and Income Taxes in Year of Full Minimum Wage Final Implementation.

Proposal	State Sales Tax (4.225%)	Local Sales Tax Revenue (2.95%)	Total Sales Tax Revenue Increase	Personal Income Tax Revenue	Total Sales and Personal Income Tax Revenue Increase
13,14,15[a]	$55,814,587	$38,971,132	$94,785,719	$119,213,129	$213,998,848
16,17,18[a]	$53,902,025	$37,635,734	$91,537,759	$115,128,131	$206,665,889
19,20,21[a]	$67,986,272	$47,469,704	$115,455,976	$145,210,358	$260,666,334
22,23,24[a]	$42,860,248	$29,926,090	$72,786,338	$91,544,245	$164,330,583
25	$44,427,531	$31,020,406	$75,447,937	$94,891,770	$170,339,707
26	$57,754,393	$40,325,553	$98,079,946	$123,356,317	$221,436,263
27	$72,567,004	$50,668,086	$123,235,090	$154,994,242	$278,229,333
28	$54,915,882	$38,343,634	$93,259,516	$117,293,605	$210,553,122
29	$68,282,514	$47,676,548	$115,959,062	$145,843,095	$261,802,158
30	$58,369,444	$40,754,996	$99,124,440	$124,669,990	$223,794,430
31	$57,921,577	$40,442,285	$98,363,862	$123,713,402	$222,077,264
32	$73,565,624	$51,365,347	$124,930,970	$157,127,171	$282,058,141
33	$72,808,843	$50,836,944	$123,645,787	$155,510,781	$279,156,568

Note: Author's Analysis of American Community Survey (ACS) data from 2014 and fiscal impact assumptions described above. All dollars are in nominal figures. (a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

As described in Table 2 above, the fiscal impact of the proposed minimum wage increases varies based on the ultimate level of the minimum wage and the degree of tipped minimum wage phase out. The estimates of the total fiscal benefit range from $164 million to $282 million annually. Appendix tables A1 through A13 provide a year-by-year summary of the fiscal benefits.

[3] Specifically, the categories we assumed to be subject to state and local sales taxes are: food, household furnishings and equipment, vehicle purchases, gasoline and motor oil, entertainment, and all other expenditures. We assumed that 50 percent of the spending on the category "apparel and services" was taxable.

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,

Lara Granich

1) Total employed workers in 2014 from the ACS was estimated to be 2,795,876. This figure was inflated to each subsequent year based on the population projections in the State of Missouri between 2020 and 2030 (CAGR = 0.6%)

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided the following information as an opponent of this initiative petition.

These corrections were subsequently provided to the submitted information

In the table on the bottom of page 7 and top of page 8, both averages for 2023 should be based on a 5 year phase-in. Accordingly, the figure on that table should state for 2023 ($12) Average Annual Unemployment Premiums Paid by State of $16,269,523.52.

The corresponding change on the table on page 12 would be to state, for 2023 ($12) Total Net Loss to State Government from Taxes and Unemployment Insurance of ($19,137,851.76).

Re: Initiative Petitions 2018-196 through 2018-216

Dear Mr. Halwes,

I write on behalf of Robert Bonney. Mr. Bonney is the Chief Executive Officer of the Missouri Restaurant Association. Please consider this letter and the accompanying studies as his fiscal impact statement as an opponent of Initiative Petitions 2018-196 through 2018-216 (the "Initiative Petitions"). If passed, any of these twenty-one initiatives would have a substantial negative impact on state and local governments, as well as Missouri small businesses. Those effects are both direct (as noted in Section 1) and secondary (as noted in Sections 2 through 5). The direct effects stem from higher labor and contracting costs that the state and its political subdivisions will incur, despite the Initiatives' effort to exclude government workers from the mandate.

The indirect effects will present a debate this Office has seen before. The proponents of the Initiative Petitions will once again rely on data sourced from political activist groups who claim increases in the minimum wage only serve to create new taxable income. The reality is that such groups approach this issue with political bias. Their analysis is one-sided because it completely ignores the fact that a wage increase does not "create" income from thin air; instead, it is an economic transfer from Missouri businesses to workers. Missouri businesses must pay the new wages "created" by the increases. Political activists' models fail to account, then, for two specific manifestations of the "debit" side of this transfer: reductions in employment, and the reduction in corporate income tax paid based upon business done in Missouri.

The failure to account for any employment effect at any proposed wage increase—even a drastic increase of the minimum wage to $13—is particularly puzzling, because Missouri's most populous areas border Illinois and Kansas. These states, respectively, have minimum wages of $8.25 and $7.25. Neither state adjusts the minimum wage for inflation. Likewise, the second effect—loss of corporate income tax revenues—is a mathematical certainty. Missouri businesses will be the source of the wage increase, which will lower their own taxable income. Assuming a one-to-one substitution of "created" wages for lost corporate income, the difference in the rates

at which these two types of income are taxed will result in a net decrease in state revenue. A dollar from increased wages is taxable by state government in Missouri at 6% or substantially less, whereas Missouri's corporate income tax rate is 6.25%.

On top of these two types of negative outcomes—lower employment and lower state tax revenues—there may be second-order effects to small businesses because they lack the access to capital to weather price fluctuations; they may not survive at all because they may not have the flexibility to simply cut employment, shifting their reliance to capital instead of labor resources, or suffering a decrease in production and revenue.

In short, much of the fiscal impact regarding the current crop of wage-related ballot measures is secondary: they cause transfers of wealth within (or out of) the state economy, and those transfers of wealth then create second-order effects for state and local governments via their collection of tax revenues and provision of welfare services for the unemployed or less-employed. Because these fiscal notes call for the Auditor operate in the area of secondary effects, it is critical that she treat both sides of the wealth transfer equally, and refrain from assessing only one half of the wage increase equation.

1. Direct Labor Cost Impact on State and Local Government Budgets

As noted to the State Auditor's Office previously by Dr. David Macpherson, a nationally prominent labor and economics expert, there are two ways to measure labor cost on state and local government budgets. First, one can use the information included in fiscal note responses from state and local government entities. It is important to note that these fiscal notes provide an incomplete and, therefore, too-low estimate of labor cost. Few state and local government entities respond to requests for a fiscal note response, and those that do respond often ignore important effects.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can be used to calculate increased labor cost to state and local government entities in Missouri. To combat this time-honored analysis, and in a blatant attempt to manipulate the fiscal note process, the Initiative Petitions provide that they will raise the minimum wage for private workers, but not for workers employed by state or local governmental entities. No conceivable justification exists for solely raising the minimum wage on private businesses. Whatever the disparity between the value of total compensation at a private business and at a government employer, that disparity does not approach the wage adjustments at issue here, ranging from an inflation adjusted wage increase of 51.16% (($13-$8.60)/$8.60) in Initiative Petitions 2018-198 through 2018-201 to a wage increase of 30.17% (($11-$8.45)/$8.45) in Initiative Petitions 2018-213 through 2018-215.

Moreover, it is unreasonable to assume that on a sustained basis public employers, as defined in the Initiative Petitions, would be able to maintain dramatically lower wage levels than private businesses. Public employers would lose staff employable at higher rates in the private market, imposing substantial costs on government productivity. Using the method traditionally employed by labor economists and followed by the Auditor's office, one can calculate the annual

wage costs to state and local governmental entities, based on the annual wage cost for each state and local government worker in the ORG CPS, as detailed on page 6 of Dr. Macpherson's 2012 report, attached hereto as **Exhibit A**. Even if the auditor finds that a specific estimate of costs is not determinable, the auditor should note that state and local government "operating costs could increase by an unknown annual amount that could be significant," through the form of higher wage costs and higher contracting costs.

The proponents of the Initiative Petitions may argue that the Auditor should abandon any state and local cost estimates altogether. The proponents will argue that provisions they have inserted in the statute would mean that state and local government entities will not have to pay higher wages to their employees. Setting aside unjustifiable discrimination against private employers (and "public employees"), the provision is of uncertain legal effect and constitutionality. A "public employer," defined in the initiatives as "the state or a political subdivision of the state" still incurs substantial costs for wages of individuals that are "private employees," rather than "public employees." Cleaning services, food service, and other essential services often rely on state contracts with outside vendors. Sometimes, a contract rate may vary depending on the cost of labor. Even if the contract rate is fixed, it must be re-bid periodically, and that bidding process would take into account the new minimum wage. Plainly, the initiative would impose higher costs for state and local governments in contracting with any private entity and its employees. As a matter of law, it would be insufficient and unfair for the Auditor's fiscal note or summary to simply assume that these costs to state and local governmental entities do not exist.

2. Cost of Unemployment Benefits

a) The effect of inflation on Missouri's minimum wage

CPS–ORG data show that between 2007 and 2015, median nominal wages for adult (25–59 years old) workers in the U.S. grew by 1.68 percent a year. However, Missouri's minimum wage is currently adjusted using "the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W)." Section 290.502, RSMo. Coincidentally (or perhaps not), the CPI-W, over the period from 2006 to 2016, also increased at an average rate of 1.68 percent a year.

Year	CPI-W	Observed inflation %
2006	199.2	
2007	203.7	0.022590361
2008	216.304	0.061875307
2009	210.526	-0.0267124

2010	213.898	0.016017024
2011	222.686	0.041085003
2012	225.568	0.01294199
2013	230.084	0.02002057
2014	234.525	0.019301646
2015	233.806	-0.00306577
2016	234.771	0.004127353

Using Missouri's current inflation-adjusted minimum wage rate and an assumed, constant 1.68 percent increase in the CPI-W, the minimum wage in Missouri will be as follows:

Year	Estimated Minimum Wage
2016	$7.65 (observed)
2017	$7.70 (observed)
2018	$7.85
2019	$8.00
2020	$8.15
2021	$8.30
2022	$8.45
2023	$8.60
2024	$8.75
2025	$8.90
2026	$9.05

b) Calculating job loss attributable to increased minimum wage

At least one outside economist, James Sherk, has already provided an estimate for job loss in Missouri based on a $15 minimum wage. Mr. Sherk calculated the effect of a $15 minimum wage implemented in 2021. Mr. Sherk's figures accounted for inflation by estimating the present value of $15.00 in 2021, rather than estimating an absolute figure for wage inflation in Missouri. Mr. Sherk calculated the present value of $15.00 in 2021 to be $13.57, per hour, based on wage inflation of 1.68 percent. Mr. Sherk evaluated the change from $7.65 per hour to $13.57 per hour (a 77.39% increase), exclusive of agricultural workers. Cumulatively, Mr. Sherk calculated this 77.39 percent increase in wages to reduce employment in the affected workforce by (0.7739*0.677) 52.39%.

Graves Garrett LLC

Mr. Sherk calculated that approximately 40.9% of Missouri's Wage and Salary Workers would be affected by such a $15 minimum wage. Mr. Sherk's calculations reveal that a $15 minimum wage in 2021 would be expected to reduce the number of full-time equivalent jobs in Missouri by approximately 218,000. Based on CPS–ORG data, these figures reveal an affected workforce of approximately 416,086 workers impacted by a $15 minimum wage increase in 2021.

However, in 2014, Dr. Macpherson found, using more conservative, national-level Congressional Budget Office data, that an increase to a $10.10 minimum wage, effective January 1, 2015, would eliminate about 15,700 jobs in Missouri. Dr. Macpherson analyzed the effect of a Missouri $10.10 minimum wage using a model suitable to a national analysis. This analysis predicted a loss of 15,700 Missouri jobs based on a wage increase from $7.50 in 2014 to $10.10 in 2015 (a 34.67% increase).

On the whole, the analysis by Mr. Sherk is more instructive here, since it is more recent, Missouri-specific, and anticipates larger wage changes contemplated by the Initiative Petitions. The most accurate way to determine the estimate of Workers Affected would be to analyze the CPS–ORG data. However, without such data readily available in the time constraints imposed by the fiscal note process, it is reasonable for estimation purposes to assume Mr. Sherk's figures are evenly distributed. Assuming that worker data follows an equal distribution, the Initiative Petitions would be expected to result in the following job losses:

Year of final prescribed wage increase	Wage without IP	Wage mandated by IP	Percentage increase	Percentage of affected workers who lose jobs (Percentage Increase x 0.677 Elasticity)	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by Initiative
2021	$8.30	$11.00	32.53%	22.02%	174,897	38,512
2022	$8.45	$11.00	30.18%	20.43%	162,262	33,150
2022	$8.45	$12.00	42.01%	28.44%	225,866	64,236
2023	$8.60	$12.00	39.53%	26.77%	212,532	56,895
2023	$8.60	$13.00	51.16%	34.64%	275,061	95,281
2024	$8.75	$12.00	37.14%	25.15%	199,683	50,220
2024	$8.75	$13.00	48.57%	32.88%	261,136	85,861
2025	$8.90	$13.00	46.07%	31.19%	247,695	77,256
2026	$9.05	$13.00	43.65%	29.55%	234,683	69,349

c) The best estimate for a price elasticity of demand for low-skilled labor is -0.677.

As noted by Mr. Sherk, starting wages of $15.00 per hour mean that full-time employee must create at least $38,700 a year in value for his or her employer (including wages, employer payroll taxes, and mandatory healthcare benefits). High minimum wages and mandatory benefit costs make it much harder for less-experienced and less-skilled workers to find jobs, particularly full-time work.

Recent labor economics scholarship has revealed that, accounting for publication bias, a state-specific elasticity of demand for less-skilled workers is, on average, approximately -0.677, though some estimates are even higher, around -1.0.[1] "[E]conomists have extensively studied how businesses respond to higher wages overall, not just minimum-wage increases. On average these studies find a 10 percent increase in labor costs causes firms to reduce employment of less-skilled workers by 6.8 percent in the long run."[2]

While these elasticity estimates are substantial in absolute terms, there is reason to believe that such estimates might still understate the impact of a Missouri state-specific effort to increase the minimum wage. This is so for several reasons. First, traditionally, labor economists view labor as a reasonably difficult input to substitute; however, Missouri businesses have readily available options. There are relatively few barriers to doing business in Missouri's border states, and businesses can easily relocate across a state line to take advantage of more favorable wage (and tax laws). Additionally, substantially raising the cost for Missouri labor, relative to labor sources in other states and other countries, is likely to force many manufacturing jobs in Missouri to disappear entirely. Automation is also a significant risk. The substitution of labor is becoming increasingly easy due to technology advancements and the "sharing" economy, where fewer individuals are "employees" covered by the minimum wage. Finally, a labor "price shock" may result in significant decreases in the demand for goods and services. People make behavioral changes to avoid higher costs, including eating out less often and generally decreasing consumption (or shifting their activities to consumption involving comparatively low amounts of labor) wherever possible.

[1] Sherk, James, "How $15-per-Hour Minimum Starting Wages Would Affect Each State," The Heritage Foundation, http://report.heritage.org/ib4601.

[2] "The coefficients on these estimates imply an elasticity of –0.677 for a study published in 2012 (the most recent year in their data) of long-run unconditional labor demand for low-skilled labor in the U.S., estimated using industry-level administrative panel data and a structural form model." "Estimates that do not account for publication bias tend to slow a long-run elasticity closer to –1.0. See, for example, George Borjas, Labor Economics, 6th ed. (Columbus, OH: McGraw-Hill, 2013), Chapter 4: 'The evidence also suggests that the estimates of the long-run labor demand elasticity cluster around –1, so the long-run labor demand curve is indeed more elastic than the short-run curve.' " Sherk, available at http://report.heritage.org/ib4601.

Graves Garrett LLC

d) Unemployment Benefit Costs

We derived an average unemployment payout by calculating the expected weekly unemployment benefit amount. Based on current data, the expected unemployment weekly benefit amount of a worker making $7.65 an hour, on a 40 hour workweek, is $159.12 per week, for 20 weeks.[3] The expected unemployment weekly benefit amount of a worker making $10.99 an hour is $228.59 per week. The expected unemployment weekly benefit amount of a worker making $11.99 an hour is $249.39 per week. The expected unemployment weekly benefit amount of a worker making $12.99 an hour is $270.19 per week. We assume that workers will seek unemployment insurance for the full twenty weeks authorized under Missouri law, because unemployment attributable to an increase in the minimum wage is structural. In this case, structural unemployment occurs because workers' job skills do not meet the established "price floor" of labor, rendering the worker's skills unmarketable. Assuming an even distribution of workers affected, the average unemployment benefit cost to the state for a worker is calculated as follows:

- For Initiative Petitions 2018-213 through 2018-216, [($159.12+$228.59)/2]*20 = $3,877.10
- For Initiative Petitions 2018-196, 2018-197, 2018-200, 2018-202, and 2018-204 through 209, [($159.12+$249.39)/2]*20 = $4,085.10
- For Initiative Petitions 2018-198, 2018-199, 2018-201, 2018-203, 2018-210 through 2018-212, [($159.12+$270.19)/2]*20 = $4,293.10

Consistent with Dr. Macpherson's 2012 report, it would be reasonable for the Auditor to assume that 35% of unemployed workers will receive unemployment benefits. Combining these numbers leads to the following estimates:

Year of final prescribed wage increase	Estimate of Missouri Workers Unemployed by Initiative	Estimated Unemployment Amount Per Worker	Estimated Total Unemployment Premiums Paid	Average Annual Unemployment Premiums Paid by State
2021 ($11)	38,512	3,877.10	$52,260,206.32	$17,420,068.77
2022 ($11)	33,150	3,877.10	$44,984,052.75	$11,246,013.19
2022 ($12)	64,236	4,085.10	$91,843,669.26	$22,960,917.32
2023 ($12)	56,895	4,085.10	$81,347,617.58	$20,336,904.39

[3] https://labor.mo.gov/DES/Claims/calculator. A 2015 law decreased the unemployment benefit period from 20 weeks to 13 weeks, but the Supreme Court of Missouri struck down the law in July 2016.

2023 ($13)	95,281	4,293.10	$143,167,801.39	$28,633,560.28
2024 ($12)	50,220	4,085.10	$71,803,802.70	$11,967,300.45
2024 ($13)	85,861	4,293.10	$129,013,450.69	$21,502,241.78
2025 ($13)	77,256	4,293.10	$116,083,706.76	$16,583,386.68
2026 ($13)	69,349	4,293.10	$104,202,767.17	$13,025,345.90

3. Impact on State Income Tax Revenue

The 2012 analysis prepared by Dr. Macpherson may also be used as a reference in calculating the effect of the initiative petitions on state income tax revenue. Here, again, it is reasonable to assume that our "affected workers" are evenly distributed, though precise CPS–ORG data would also provide a reliable estimate. Here, the increased income tax revenue is the additional income tax paid by workers whose wages increase. There is a loss of revenue, however, in the form of decreased income tax paid by workers whose wages decrease and businesses who absorb the increased cost of labor, rather than passing it along to customers.

For the purposes of these estimates, we assume that workers work 40 hours a week and 52 weeks per year:

Year of final prescribed wage increase	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by IP	Estimate of Missouri Workers with Increased Wages	Annual Increase in Wages Paid to Workers who get Wage Increase in Final Year	Annual Decrease in Wages Paid to Workers now Unemployed
2021 ($11)	174,897	38,512	136,385	$382,969,080.00	$108,141,696.00

2022 ($11)	162,262	33,150	129,112	$342,405,024.00	$87,913,800.00
2022 ($12)	225,866	64,236	161,630	$596,737,960.00	$237,159,312.00
2023 ($12)	212,532	56,895	155,637	$550,332,432.00	$201,180,720.00
2023 ($13)	275,061	95,281	179,780	$822,673,280.00	$436,005,856.00
2024 ($12)	199,683	50,220	149,463	$505,184,940.00	$169,743,600.00
2024 ($13)	261,136	85,861	175,275	$774,715,500.00	$379,505,620.00
2025 ($13)	247,695	77,256	170,439	$726,750,021.03	$329,419,584.00
2026 ($13)	234,683	69,349	165,334	$679,192,072.00	$284,885,692.00

These net wage increases will lead to corresponding increases in state income tax collections. Traditionally, it has been assumed that about 50% of affected workers will pay 6% income tax, while the other 50% of workers pay no state income tax. This assumption may be less accurate at the higher wage increases contemplated by the Initiative Petitions. Accordingly, figures are also displayed assuming that about 75% of affected workers will pay 6% income tax, while the other 25% of workers pay no state income tax.

Annual Net Increase in Wages Paid To Workers	Annual Income Tax Increase from Wage Increase (50% pay tax)	Annual Income Tax Increase from Wage Increase (75% pay tax)
$274,827,384.00	$8,244,821.52	$12,367,232.28
$254,491,224.00	$7,634,736.72	$11,452,105.08
$359,578,648.00	$10,787,359.44	$16,181,039.16
$349,151,712.00	$10,474,551.36	$15,711,827.04
$386,667,424.00	$11,600,022.72	$17,400,034.08
$335,441,340.00	$10,063,240.20	$15,094,860.30
$395,209,880.00	$11,856,296.40	$17,784,444.60
$397,330,437.03	$11,919,913.11	$17,879,869.67
$394,306,380.00	$11,829,191.40	$17,743,787.10

Graves Garrett LLC

Based on these figures, Missouri businesses must also decide whether to pass along any increase in wage costs (wages and mandatory payments).[4]

Year of final prescribed wage increase	Annual Cost to Business from Increased Wage	Annual Decreased Corporate Income Tax if cost is fully absorbed	Annual Decreased Corporate Income Tax if cost is 50% absorbed
2021 ($11)	$412,266,214.62	$25,766,638.41	$12,883,319.21
2022 ($11)	$368,599,008.34	$23,037,438.02	$11,518,719.01
2022 ($12)	$642,388,413.94	$40,149,275.87	$20,074,637.94
2023 ($12)	$592,432,863.05	$37,027,053.94	$18,513,526.97
2023 ($13)	$885,607,785.92	$55,350,486.62	$27,675,243.31
2024 ($12)	$543,831,587.91	$33,989,474.24	$16,994,737.12
2024 ($13)	$833,981,235.80	$52,123,827.23	$26,061,913.62
2025 ($13)	$782,346,397.64	$48,896,649.85	$24,448,324.93
2026 ($13)	$731,150,265.50	$45,696,891.59	$22,848,445.80

Assuming businesses absorb half of the cost of increased wages, and 75 percent of affected workers pay the new, higher taxes, the effect on state income tax collections is estimated to be:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss
2021 ($11)	($516,086.93)
2022 ($11)	($66,613.93)
2022 ($12)	($3,893,598.78)
2023 ($12)	($2,801,699.93)
2023 ($13)	($10,275,209.23)
2024 ($12)	($1,899,876.82)
2024 ($13)	($8,277,469.02)
2025 ($13)	($6,568,455.26)
2026 ($13)	($5,104,658.70)

[4] A healthcare benefit cost estimate is not available based on the time limitations imposed by this fiscal note.

Graves Garrett LLC

4. Sales tax revenue gain or loss

Projecting any increase in sales tax revenue resulting from an increased minimum wage would require the auditor's office to conclude, based on data separate and apart from the sheer conjecture typically offered by political activist groups: (1) the net effect on consumer disposable income and (2) the percentage of a consumer's disposable income that is spent on goods subject to the sales tax, taking into consideration that the scope of Missouri's sales tax has been truncated by a voter-approved constitutional amendment from November 2016.

Typically, the Auditor's office multiplies the total increase in worker earnings (which should be adjusted for employment reductions) and multiplies the result by 25 percent, then multiplying that figure by the Missouri the population weighted combined average state and local sales tax in Missouri, 7.81%.[5] Based on this estimate, the population-weighted combined average local sales tax is 3.585%.

However, it would be deceptive to fail to account for sales tax losses from workers whose wages are eliminated or sales tax losses from reduced business profits (attributable to the higher wages paid), which will lower spending by business owners. The first figure is calculable by determining the total annual wages (adjusted for employment deductions) for all workers who lose jobs due to a minimum wage hike, multiplied by 25 percent. The second number is calculable by multiplying the total increase in worker earnings (multiplied by 1.0765 to account for Social Security and Medicare taxes) by approximately 15 percent.[6]

Year of final prescribed wage increase	Annual Net Increase in Wages Paid To Workers	New Wages Spent on Sales Tax Items	Annual Cost to Business from Increased Wage	Annual Business Income No Longer Included in Sales Tax Base (50% passed-through)
2021 ($11)	$274,827,384	$68,706,846	$412,266,214.62	($61,839,932)
2022 ($11)	$254,491,224	$63,622,806	$368,599,008.34	($55,289,851)
2022 ($12)	$359,578,648	$89,894,662	$642,388,413.94	($96,358,262)
2023 ($12)	$349,151,712	$87,287,928	$592,432,863.05	($88,864,929)

[5] http://taxfoundation.org/sites/taxfoundation.org/files/docs/LOST--2015.png.
[6] This estimate would also need to be adjusted to reflect certain employers' mandate under the Affordable Care Act to provide healthcare coverage and pay 60 percent of such coverage.

2023 ($13)	$386,667,424	$96,666,856	$885,607,785.92	($132,841,168)
2024 ($12)	$335,441,340	$83,860,335	$543,831,587.91	($81,574,738)
2024 ($13)	$395,209,880	$98,802,470	$833,981,235.75	($125,097,185)
2025 ($13)	$397,330,437	$99,332,609	$782,346,397.64	($117,351,960)
2026 ($13)	$394,306,380	$98,576,595	$731,150,265.51	($109,672,540)

Accordingly, the annual estimations of the effects on state and local revenue, and total state economic impact are as follows:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss	Annual Net Effect on State Sales Tax	Total Annual Effect on State Tax Revenue	Total Net Loss to State Government from Taxes and Unemployment Insurance	Annual Net Effect on Local Sales Tax
2021 ($11)	($516,086.93)	$290,127.11	($225,959.82)	($17,646,028.59)	$246,178.86
2022 ($11)	($66,613.93)	$352,067.34	$285,453.41	($10,960,559.78)	$298,736.43
2022 ($12)	($3,893,598.78)	($273,087.10)	($4,166,685.88)	($27,127,603.19)	($231,720.06)
2023 ($12)	($2,801,699.93)	($66,628.31)	($2,868,328.24)	($23,205,232.64)	($56,535.50)
2023 ($13)	($10,275,209.23)	($1,528,364.68)	($11,803,573.91)	($40,437,134.18)	($1,296,849.08)
2024 ($12)	($1,899,876.82)	$96,566.47	($1,803,310.36)	($13,770,610.81)	$81,938.65
2024 ($13)	($8,277,469.02)	($1,110,951.72)	($9,388,420.74)	($30,890,662.52)	($942,665.55)
2025 ($13)	($6,136,139.31)	($761,317.55)	($6,897,456.87)	($23,480,843.55)	($645,993.71)
2026 ($13)	($5,104,658.70)	($468,803.67)	($5,573,462.37)	($18,598,808.26)	($397,789.62)

5. Damage to small business

Additionally, any proponent or opponent fiscal note submission is required, pursuant to Missouri law, to state the impact of the initiative on small businesses. According to analysis by the Employment Policies Institute, 40 percent of the minimum wage workforce is employed at businesses with fewer than 50 employees. [7] The impact on extra costs to small business may be more significant than even this 40% figure suggests. Small businesses are more easily shut down by input price increases than large businesses, which have greater access to capital to weather the

[7] https://www.epionline.org/oped/who-really-employs-minimum-wage-workers/

storm. Clearly, small businesses that do not shut down due to increases in the minimum wage will pay higher costs, estimated at about 40% of business' total increased costs, described above.

Conclusion

In conclusion, the State Auditor should attempt to quantify the increased cost to be borne by state and local government entities through increased contracting costs as a result of an increase to the minimum wage. This direct cost is outlined in Section 1.

Indirect costs are outlined in Sections 2 through 5, and show a net loss. Although such second-order effects more difficult to predict, a net loss is easily the most likely outcome. Significantly, this result is only obtainable if the Auditor reviews both the "credit" and "debit" sides of the transfer of wealth from businesses to workers. The Auditor should refrain from taking the proponents' likely invitation to consider and present only the "credit," side, and should attempt to provide a complete picture of all effects of a minimum wage increase, including the loss of revenue to state and local governments from individuals who lose employment. Only conveying (or quantifying) the potential for gain, without fairly conveying the likelihood of net loss, would be deceptive and unfair.

The State Auditor's previous 2018 fiscal notes are a good model. Each of the fiscal notes for the Initiative Petitions should follow the already-established format and state that:

> "[O]perating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could change by an unknown annual amount ranging from a $## million decrease to a $## million increase depending on business decisions."

Should you desire further detail or have any questions about this fiscal impact statement, please do not hesitate to contact me.

Sincerely,

Edward D. Greim

ABOUT THE MISSOURI RESTAURANT ASSOCIATION

With origins dating back to 1916, the Missouri Restaurant Association (MRA) is a statewide trade association representing over 1,500 member establishments. The association's membership is diverse, and includes full service, fast casual, and quick service restaurants, cafeterias, hotels, schools, institutions, contract feeders, and ancillary foodservice providers such as theme parks. The association has been successful in securing support from virtually every segment of the foodservice and hospitality industry.

MRA includes seven chapters as extensions of the parent organization, each with its own Officers, Board of Directors, and limited budget. The association is governed by a Board of Directors comprised of five Officers, 33 Directors, and each President of the seven affiliated chapters.

MRA is dedicated to serving the needs of the foodservice and hospitality industry, enhancing and improving its growth and development, assisting and educating its members in operating more effectively, improving the political and social environment in which the industry conducts business, for the benefit of its members, patrons, employees, and the well-being of the community.

David A. Macpherson is the E.M. Stevens Professor of Economics at Trinity University. He received undergraduate and doctoral degrees in economics from Pennsylvania State University.

Dr. Macpherson has published over 60 articles in leading economics and real estate journals including Review of Economics and Statistics, Industrial and Labor Relations Review, Journal of Labor Economics, Journal of Human Resources, and Journal of Real Estate Economics and Finance. His research has been funded by a variety of entities including the National Science Foundation, Florida Legislature, and the National Association of Realtors. He is co-author of the undergraduate labor economics text, Contemporary Labor Economics, as well as the principles of economics text, Economics: Private and Public Choice. He is included in Who's Who in Economics, Fourth Edition, which includes the 1,200 most frequently cited economists.

THE IMPACT OF A $10.10 MINIMUM WAGE ON JOBS AND TAXPAYER COSTS IN MISSOURI

June 2014

Economic Analysis by **Dr. David Macpherson**
Trinity University

Index

Executive Summary 4
Results 5
Technical Appendix 7

EXECUTIVE SUMMARY

Missouri's minimum wage of $7.50 is linked to rise in most years with the inflation rate. But some state legislators and labor unions would like to raise that figure even higher. For instance, a recent labor union-organized bus tour in the state promoted a $10.10 minimum wage in St. Louis.

Proponents have enthusiastically pointed to the benefits of the $10.10 policy. But there's been far less discussion of the costs involved with a $10.10-an-hour minimum wage—both the cost on employment, and the cost to taxpayers.

In this study, labor economist David Macpherson of Trinity University uses Census Bureau data to estimate the impact on Missouri's labor market and budget from raising the minimum wage to $10.10 an hour. He also provides separate results for the St. Louis metropolitan area.

Dr. Macpherson's employment estimates follow the methodology used by the nonpartisan Congressional Budget Office in its report earlier this year estimating the impact of a $10.10 minimum wage nationwide, which in turn relied on 60 different empirical studies to formulate its estimates.

Statewide, he finds that over 15,000 jobs would be lost at the $10.10 wage level—with 9,300 of those jobs being held by women. In the St. Louis metropolitan area, approximately 4,800 jobs would be lost from a $10.10 minimum wage.

The cost to taxpayers would be significant: There are approximately 40,000 state and local employees whose wages would be affected by the $10.10 increase in Missouri, for a combined cost to taxpayers of $87 million annually.

Raising wages is an admirable goal, but the evidence suggests that accomplishing this goal with a blunt wage mandate could do more harm than good.

RESULTS

The minimum wage is one of the most hotly-debated topics in the political world. Some legislators claim that a higher base wage will stimulate the economy; others claim that it will reduce jobs when affected employers can't offset the higher costs through higher prices.

Economists, who have studied the issue since the late 1940s, tend to take a skeptical view of minimum wage increases. Since the early 1990s, for instance, roughly 85 percent of the most credible research on the minimum wage points to job loss for less-skilled groups. The nonpartisan Congressional Budget Office (CBO), in an evaluation of President Obama's proposed $10.10 minimum wage increase, reviewed 60 different studies and concluded that the policy would eliminate 500,000 jobs if enacted.

The estimates that follow, of the employment impact of a higher minimum wage on Missouri's labor market, were performed by Dr. David Macpherson of Trinity University. Dr. Macpherson followed closely the methodology used by the CBO in its 2014 report. Dr. Macpherson also estimates the taxpayer costs of a higher minimum wage, as many state and local public employees will see their earnings increase when the minimum wage rises.

Dr. Macpherson's methodology is presented in detail in a technical appendix.

Estimated Employment Effects of a $10.10 Minimum Wage in Missouri

Statewide, Dr. Macpherson finds that increasing the minimum wage to $10.10 would eliminate over 15,000 jobs—approximately 60 percent of which are jobs held by women. The bulk of the job losses would be concentrated among individuals with a high school degree or less, and among people who work in the retail or leisure & hospitality industries.

(Note: Totals have slight discrepancies due to rounding.)

City-Specific Minimum Wage Employment Impacts

The city of St. Louis has been the subject of a number of protests calling for a higher minimum wage. Dr. Macpherson analyzed the employment impact of a $10.10 minimum wage in the St. Louis metropolitan area, providing breakouts by gender and education where the data permits. He estimates that the wage hike would eliminate approximately 5,000 jobs—just over half of which would be jobs held by women.

RESULTS CONTINUED

Missouri Taxpayer Costs of a $10.10 Minimum Wage

Dr. Macpherson estimates that approximately forty thousand state & local public employees would be affected by a minimum wage increase to $10.10 an hour. These additional wage costs translate to new costs for state and local taxpayers. Following the methodology described in detail in the technical appendix, Dr. Macpherson estimates both the straight wage cost of a $10.10 minimum wage, as well as the total compensation cost with Social Security, Medicare, workers compensation, and unemployment insurance included. Statewide, taxpayers would shoulder an additional $87 million in costs if the base wage was increased to $10.10 an hour and public employees were covered by the new wage.

Missouri Taxpayer Costs of a $10.10 Minimum Wage	
# of State & Local Workers	304,588
# Affected By $10.10 MW	40,103
Annual Wage Cost	$79,629,374
Annual Compensation Cost	$87,004,355

Note: Annual compensation costs include the cost of worker's compensation, FICA, and unemployment insurance benefits.

TECHNICAL APPENDIX

Estimating Employment Loss and the Cost to State and Local Government of an Increase in the Minimum Wage

Dr. David Macpherson
E.M. Stevens Professor of Economics
Trinity University

This paper describes how we estimate the employment loss and the cost to state and local governments of a proposed increase in the minimum wage effective on January 1, 2015.

Data and Sample

First, we use data from the Current Population Survey (CPS) Outgoing Rotation Groups (ORG) from January 2011 through December 2013. For each worker in the sample, we calculate their wage rate. We also adjust the wage rate to reflect a forecast of wages in 2015. This is done in two steps. First, based on legislation enacted as of April 2014, we estimate the minimum wage that would be in effect in January 2015 for each state and city that we consider. If a state or city has an indexed minimum wage, we increase the January 2014 state or city minimum wage by the Congressional Budget Office (CBO) inflation forecast for 2014 of 1.7%.

Since we use data from 2011 through 2013, we also follow the CBO approach for forecasting what the wage distribution would be in 2015. This is done in two steps. First, we adjust wages observed prior to 2013 to reflect 2013 minimum wage legislation. For example, if the minimum wage in a state was $7.25 in 2011 and grew to $8.00 by 2013, anyone who earned between $7.25 and $8.00 in 2011 would have their wage increased to $8.00. After wages are adjusted to 2013 levels, we assume that all wages grow by 2.9% in 2014. Using the resulting 2015 distribution of wages, we adjust for minimum wage legislation that would increase the minimum between 2013 and 2015. Anyone earning a wage between the 2013 and 2015 minimum wage is assigned a wage matching the 2015 minimum wage.

After generating the forecast 2015 distribution of wages reflecting wage growth and existing minimum wage legislation, we identify workers who would be affected by additional changes to the 2015 minimum wage as those with wages between the predicted minimum wage legislated for 2015 (or up to $.25 below it) and the proposed minimum.

To estimate the number of affected workers, we take two steps. First, for each state, we estimate the number of affected workers for 2013. Second, we adjust the weights in the 2011 and 2012 data so that the state-specific number of affected workers implied by the 2011 and 2012 data matches that for 2013. This adjustment is designed to correct for the changing economic climate as the economy recovers from the great recession and to generate estimates that are as close as possible to the most recent data (2013). After we adjust the 2011 and 2012 weights, we estimate the number of affected workers by summing their earnings weights and dividing the total by 36 (the number of months of data).

[1] Also, following CBO, anyone earning up to $.25 less than the 2011 minimum wage would have their wage increased by the amount that the minimum wage increased (i.e. a $7.00 wage would be increased to $7.75 in this example). This approach is used to adjust for the fact that many workers round their answers when asked about their wage.

TECHINCAL APPENDIX CONTINUED

Employment Loss

To estimate employment loss, for each affected worker we compute:

L = e *(Proposed Min Wage /Min Wage 2015 – 1)

where e is an assumed elasticity of employment with respect to changes in the minimum wage, Min Wage 2015 is the minimum wage currently legislated for 2015, and Proposed Min Wage is the minimum wage that is being proposed for 2015. Thus, for example, if a worker is projected to earn the federal minimum of $7.25 in 2015, the expected reduction in employment resulting from a $10.10 minimum wage in 2015 if e=.45 is .45*(10.10/7.25 – 1) = .18. That is, for every 100 workers currently earning the federal minimum, the expectation is that 18 would lose a job if the minimum wage elasticity is .45.

To estimate the aggregate employment loss in the economy, we use earnings weights to sum L across workers. We also follow the Congressional Budget Office (2014) and use an elasticity of 0.15 for non-teenagers and 0.45 for teenagers.

Cost to State and Local Government

We use the same data to estimate the cost to state and local government of a proposed minimum wage hike. We apply the same definition of affected workers described above and estimate the number of state and local government workers affected by a minimum wage hike. We do not, however, assume that there is any job loss for state and local workers as we do not have an appropriate elasticity estimate specific to state and local workers. To the extent that state or local governments reduce hours or employment in response tothe minimum wage hike, our estimate of the cost of the hike would be overstated.

To estimate the increase in annual payroll cost resulting from an increase in the minimum wage, we estimate the increase in annual cost for each worker as:

(Proposed Min Wage-Min Wage 2015)*weekly hours*52

We then multiply the increase in annual cost by the earnings weight for each worker and sum across workers. Since an increase in wages also requires increased employer contributions for Social Security, Medicare, workers' compensation and unemployment insurance, we apply an estimate of the payroll tax rate for these mandatory programs to calculate the additional cost for these programs.

For each state and city considered, we provide tables summarizing the number of affected workers, employment loss, and the distribution of employment loss by sex, education, race, age and industry. Given that we use three years of data, a rule of thumb for minimum sample size required to achieve a reasonably accurate estimate of the employment loss is to require at least 30,000 people be in the relevant category. For example, if there are fewer than 30,000 people projected to be in a particular industry category, the Bureau of Labor Statistics would not report the estimate due to a lack of reliability based on the variance of the estimate relative to its mean.

In addition to the estimate of employment loss, for each state or city considered, we estimate the number of state and local workers that would be affected by the minimum wage hike and the total annual cost to government in terms of wages and total compensation. As with the employment estimates, we advise caution in interpreting estimates that are based on fewer than 30,000 affected workers.

[3] Congressional Budget Office, "The Effects of a Minimum-Wage Increase on Employment and Family Income," February 2014.

[4] For workers paid by the hour the reported hourly wage was used. For workers who are not paid by the hour, we calculate the hourly wage by dividing usual weekly earnings by usual weekly hours. Overtime pay was calculated as time and one-half for hours above 40 hours for hourly workers.

[5] The assumed payroll tax for Medicare and Social Security is 7.65 percent. To estimate the payroll tax for workers' compensation and unemployment insurance, we use unpublished data from the 2010 Employer Cost of Employee Compensation database for state and local workers in the relevant region in 2010.

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

Prepared for

Victor Allred versus Robin Carnahan and Thomas Schweich
Circuit Court of Cole County, Missouri

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

I. Introduction

This report was undertaken at the request of counsel representing plaintiffs in the case of Victor Allred versus Robin Carnahan and Thomas Schweich. As part of the basis of the lawsuit, the plaintiffs allege that the fiscal note summaries for proposed statutory initiative petitions 2012-084 and 2012-085 are insufficient and unfair. I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will

range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

The report is organized as follows. My qualifications to prepare this report are contained in Section II. Section III describes the data and records I relied upon for this report. Section IV reviews the estimated fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085. A summary and my conclusions are provided in Section VI.

II. Qualifications

I am currently the E.M. Stevens Professor of Economics at Trinity University in San Antonio, Texas. Previously, I was employed by Florida State University as Director of the Pepper Institute on Aging and Public Policy and the Rod and Hope Brim Eminent Scholar in Economics. I have taught both undergraduate and graduate Econometrics (statistical analysis of economic data), and Labor Economics. I have published over 50 articles in peer-reviewed professional journals.

I am currently serving on the editorial board of the *Journal of Forensic Economics*, which is a peer-reviewed journal. I have also served as a reviewer or 'referee' for 24 peer-reviewed journals, including the *Journal of Human Resources, Journal of Labor Economics, Quarterly Journal of Economics,* and the *Review of Economics and Statistics*. Based upon these experiences, I am very familiar with the scholarly and professional research process and the concept of peer review.

I have prepared numerous analyses and reports that use statistical methods as applied to specific questions. I have been responsible for developing the techniques and approaches required for these analyses. I routinely use computers and statistical software packages to assist me in my analytical work. I have been qualified as an expert witness on statistical analysis of employment discrimination and economic damages in state courts in Florida and Georgia and Federal Courts, and I have given expert testimony. I have prepared analyses and offered testimony on behalf of both plaintiffs and defendants.

Details of my qualifications are reflected in my current resume and legal cases, attached as Appendix A to the report.

III. Data and Records

I reviewed the following materials in preparing this report.

- Plaintiff's Complaint
- Material cited in footnotes below.

IV. Fiscal Impact

A. Overview

The proposed statutory initiative petitions 2012-084 and 2012-085 contain many elements in common. Both initiatives would increase the Missouri minimum wage to $8.25 per hour, alter the exemption for retail and service firms, raise the cash wage of tipped workers from 50% to 60% of the minimum wage, and increase the statute of limitation from two to three year for underpayment claims.

The initiatives differ in their linkage to the federal minimum wage. Initiative petition 2012-084 requires that the state minimum wage be automatically increased to the

federal minimum wage if it is higher than the state minimum wage. Initiative petition 2012-085 does not have such a linkage. It only requires that workers be paid the higher of the state minimum wage or the federal minimum wage. The linkage to the federal minimum wage will cause the state minimum wage to be higher under initiative petition 2012-084 over time. This is because the state minimum wage, in contrast to the federal minimum wage, is adjusted for inflation as measured by the Consumer Price Index.

An increase in the minimum wage in Missouri will affect state and local government entities in two ways. First, it will directly increase the cost of labor to state and local government entities. This will occur due to the increase in wages of state and local government workers earning between the existing minimum wage of $7.25 and the new minimum wage of $8.25.[1] In addition, workers laid off due to the minimum wage increase can collect unemployment benefits. The state government will bear the cost of unemployment benefits of these workers for the first 20 weeks. Second, state and local government may gain increased revenue through higher income tax and sales taxes paid by workers affected by the minimum wage who remain employed. However, state and local government will suffer reduced tax revenue to the extent the higher wage cost lowers profits of businesses.

The following sections estimate the cost and revenue effects to state and local government entities of the proposed minimum wage increase.

[1] Information about the minimum wage in Missouri is available at http://www.labor.mo.gov/DLS/minimumwage/.

B. Direct Labor Cost Impact on State and Local Government Budgets

There are two possible ways to measure the direct labor cost on state and local government budgets. First, one can use the information included in the fiscal notes prepared by the State Auditor regarding the proposed initiatives. It is important to note that the fiscal notes provide an incomplete and thus too low estimate of the direct labor cost. The fiscal notes indicate that the Office of Administration's (OA) Division of Personnel reported that as of September 2011 there were 834 state workers who would be affected by an increase of the minimum wage to $8.25 and the "approximate annual cost" would be more than $540,000.

This OA estimate excludes seasonal workers such as State Fair employees, State Parks Employees, and tax season staff. The Division of Revenue noted its labor cost would rise by $40,000. The Division of Natural Resources stated they have over 500 workers who would be affected by the increase, but did not provide an estimate of the cost. The State Fair hired 745 workers that would be affected, but no cost estimate was provided.

Thus, the cost to state government, based on the fiscal notes, would be more than $580,000.

The fiscal notes also provide an incomplete and thus too low measure of the cost to local government and public educational institutions. Many cities and educational institutions did not respond to Office of Auditor's survey or provide an estimate of the cost of the higher minimum wage. The City of Columbia, City of Jefferson, City of

Joseph, Linn State Technical College, and Metropolitan Community College did provide such an estimate. The total cost to these five institutions is $772,182.

Based on the fiscal notes, the cost to state and local government entities of the increase in the minimum wage to $8.25 will be more than $1,352,182.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can also be used to calculate the cost of the increased labor cost to state and local government entities in Missouri. Using the data from January 2010 to December 2011 Outgoing Rotation Group (ORG) CPS, I calculated that 17,089 state and local government workers would be affected by the minimum wage increase. I defined affected workers as those individuals earning between $7.00 and $8.24 per hour. Though the minimum wage was $7.25 per hour during this period, I also included those workers reporting earnings of $7.00 to $7.24 since some individuals may round their wage rate. I calculated the annual wage cost for each state and local government worker (i) in the ORG CPS as:

$$Annual\ Wage\ Cost_i = (\$8.25 - current\ wage_i) * weekly\ hours_i * 52.$$[2]

The average annual wage cost increase was $870. I summed the cost over each worker (i) to obtain the total wage cost to state and local government entities in Missouri of $14,866,430.

The increased wage cost is not the only labor cost to state and local government entities of the minimum wage increase. Employers are required to pay 7.65% of their wage costs in Social Security and Medicare taxes. Thus, the total labor cost of the minimum wage increase will be 1.0765 times $14,866,430 or $16,003,712.

---

[2] I assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour.

C. Unemployment Benefit Impact

The higher minimum wage will cause firms to reduce their level of employment.[3] As a result, the number of unemployed workers will increase. Thus, another important fiscal cost of the minimum wage increase is the cost of the unemployment insurance benefits for the workers laid off as a result of the minimum wage increase.

To calculate the cost to the unemployment benefits program, I first calculated the number of workers laid off. To do so, I calculated a probability of job loss for each affected Missouri worker (i) in the January 2010 to December 2011 ORG CPS:

$$Probability\ Job\ Loss_{\ i} = \frac{(\$8.25 - Current\ Wage_i)}{Current\ Wage_i} * elasticity_i.$$

I used the preferred employment elasticity (i.e., sensitivity of employment to wage changes) contained in Sabia and Burkhauser (2010), which was -0.6 for individuals aged 16 to 29 without a high school degree and -0.2 for all other individuals. The sole exception was for state and local government workers, where I assumed an elasticity of zero.[4] The sum across all affected workers yielded an estimated job loss of 5,745 jobs.

The next step was to calculate the weekly benefit for the average unemployed worker. Using the benefits calculator on the Missouri unemployment benefits web site and the wage income of average private-sector affected worker ($10,937), yields an average weekly benefit of $109.36[5]. The state of Missouri pays the first 20 weeks of benefits.[6] Thus, each eligible unemployed worker could receive a total of $2,187.20 in

---

[3] For a survey of research regarding the effect of the minimum wage on employment, see David Neumark and William L. Wascher, *Minimum Wages* (Cambridge, MA: MIT Press, 2008).
[4] Joseph J. Sabia and Richard V. Burkhauser, "Minimum Wages and Poverty: Will a $9.50 Federal Minimum Wage Really Help the Working Poor?" *Southern Economic Journal* (January 2010): 592-623.
[5] http://www.labor.mo.gov/DES/Claims/calculator.asp
[6] See http://www.labor.mo.gov/DES/Claims/

benefits paid for by the state of Missouri. These jobs are permanently eliminated and so it is appropriate to calculate the full amount of benefits for each worker.

Unemployment insurance, however, does not cover all unemployed workers. For example, it does not cover people who leave a job voluntarily, people looking for their first job, and re-entrants who previously left the labor force voluntarily. Furthermore, some individuals don't apply for benefits even though they are eligible. I assume that 35% of the unemployed workers will receive unemployment benefits based on analysis by Wenger (2001).[7]

The last step is to calculate the total cost to the Missouri unemployment benefits program. This done by multiplying the number of jobs lost (5,745) times the average benefit amount ($2,187.20) times the percent of unemployed individuals collecting benefits (35%). This calculation yields a figure of $4,397,510. This cost would be borne only during the first year of the minimum wage increase. The inflation adjustments in the minimum wage will also yield costs to the unemployment insurance program, but it is not possible to estimate the amount.

D. Impact on State Income Tax Revenue

The state of Missouri will gain increased revenue through higher income tax taxes paid by workers affected by the minimum wage who remain employed. However, it will

[7] Jeffery Wenger. "Divided We Fall: Deserving Workers Slip through America's Patchwork Unemployment Insurance System." *Economic Policy Institute*, 2001. Sabia and Burkhauser (2010) make the same assumption in their calculation of the amount of unemployment benefits generated by a minimum wage increase.

suffer reduced corporate income tax revenue to the extent the higher wage cost lowers profits of businesses.

To calculate the impact on individual income tax revenue, I again used data from January 2010 to December 2011 ORG CPS. I defined affected workers as those Missouri individuals earning between $7.00 and $8.24 per hour.[8] I used the following formula to estimate the change in income tax revenue:

$$\Delta Tax\ Revenue_i = (Tax_After_i - Tax_Before_i) - Prob_Job_Loss_i * Tax_Before_i,$$

where Tax_After_i is the income tax paid by worker i after the minimum wage increase. Tax_Before_i is the income tax paid by worker i after the minimum wage increase, and $Prob_Job_Loss_i$ is the probability of job loss for worker i. The first term shows the change in individual income tax revenue assuming no job loss and the second term shows the loss in tax revenue due to the employment loss caused by the minimum wage increase.

The income tax calculations were based on two assumptions.[9] First, the 50% percent of affected workers who were under the age 25 who were assumed to be dependents on another person's tax return. As a result, it was assumed that the affected workers' earnings were taxable at the maximum Missouri income tax rate of 6% both and after the minimum wage increase.[10] Second, all persons age 25 and older were assumed to be paying little or no income tax after exemptions and deductions. Thus, about 50% of the earnings increase will be taxed at a rate of 6%.

---

[8] I again assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour. The annual earnings level was calculated as the worker's wage rate times usual weekly hours worked times 52.

[9] The same assumptions are used in the State Auditor's fiscal notes for the initiatives.

[10] This assumption will overstate the revenue increase as 20% of affected workers under the age 25 are living by themselves and some of these individuals will not be a dependent on another person's tax return.

The tax calculations reveal an increase in income tax revenue increase to the state. Assuming no workers were laid off by the minimum wage increase, income tax revenue would rise by $6,043,534. However, the state will lose $1,965,446 in income tax revenue due to the lost earnings of private-sector workers no longer employed due to the minimum wage hike.[11] Thus, the net increase in individual income tax revenue is $4,078,088.

Businesses have three options to respond to the higher labor costs of a higher minimum wage. They can reduce their profits, raise prices, or lay off workers. Based on the 2010-2011 ORG CPS data, the minimum wage increase will raise private-sector labor costs by $192,620,900 if employment levels are not reduced. However, labor costs will be lowered by $55,240,790 due to the reduction in employment. Thus, labor costs will, on net, rise by $137,380,110. These increased labor costs may be either passed on to consumers through higher prices or reduced profits or more likely some combination of higher prices and reduced profits. Assuming that businesses absorbed all of the higher costs through reduced profits, the corporate income tax revenue would fall by the Missouri corporate income tax of 6.25% times the rise in labor costs of $137,380,110 * 1.0765 (to account for employer-paid Social Security and Medicare taxes) or $9,243,106.[12] Alternatively, if half of the higher labor costs were passed on to consumers, then corporate income tax revenue would fall by $4,621,553.

[11] The probability of job loss was calculated in the same manner as in the prior section.
[12] The corporate income tax for Missouri is available at: http://dor.mo.gov/business/corporate/

E. Impact on State and Local Sales Tax Revenue

To calculate the impact on state and local sales tax revenue the following approach was undertaken.[13] First, the total increase in worker earnings, adjusted for employment reductions, was calculated using the 2010-2011 ORG CPS. This figure was $152,246,540. Second, the increase in Missouri taxable sales was calculated as 25% of the earnings increase or $38,061,635. Third, the increase in sales tax revenue was calculated by multiplying the taxable sales change times the average state and local rate of 7.67% or $2,919,327.[14]

The higher minimum wage may decrease sales tax revenue to the extent that it reduces business profits, which will lower spending by business owners.

VI. Summary and Conclusions

I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

[13] The same general approach is used in the State Auditor's fiscal notes for the initiatives.
[14] The average rate comes from http://taxfoundation.org/news/show/27023.html

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

Miami University Faculty Research Grant, 6/1991-8/1991, $4,000, "Projected Growth in Retiree Health Insurance Liabilities."

Ohio Board of Regents Research Challenge Grant, 1/1990-12/1990, $4,980, "Proposal to Enhance the Data Library of the Center of Pension and Retirement Research," with William Even and Samuel Williamson.

Miami University Faculty Research Grant, 6/1990-8/1990, $4,000, "The Role of Firm Size in Pension Coverage and Options."

Miami University Faculty Research Grant, 6/1989-8/1989, $4,000, "Declining Unionism and the Gender Wage Gap," with William Even.

Participation in National Meetings

Panel Discussant, American Real Estate and Urban Economics Association/ASSA meetings, January 2008.

Presented, "Employee Turnover in the Long-Term Care Industry," at Academy Health Annual Research Meetings, June 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at International Atlantic Economic Society meetings, October 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at International Atlantic Economic Society meetings, October 2005.

Presented, "Replacing Earnings After Termination: Evidence from the Displaced Worker Survey," at the Allied Social Science Association/National Association of Forensic Economics, January 2002.

Presented, "Labor Market Transitions of Older Workers," at the Allied Social Science Association/Society of Government Economists meetings, January 1999.

Presented, "Why has the Loss in Pension Coverage Accelerated Among Less Educated Workers?" at the American Economic Association Meetings, 1995.

Presented, "Wages and Gender Composition: Why Do Women's Jobs Pay Less?" at the American Economic Association Meetings, 1994, with Barry Hirsch.

Presented, "Pensions, Labor Turnover, and Employer Size" at the American Economic Association Meetings, 1993, with William Even.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the American Economic Association meetings, 1992, with William Even.

Participation in Regional Meetings

Presented "Unions and Pension Performance: The Role of Pension Design," at Southern Economics Association meetings, November 2009.

Panel member, "Recent Federal Reserve Policy: An Evaluation" at Southern Economics Association meetings, November 2009.

Discussant, "Topics in Health Economics," at Southern Economics Association meetings, November 2009.

Discussant, "Teacher Pay, Principals, and Schooling," at Southern Economics Association meetings, November 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Western Economic Association meetings, July 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Eastern Economic Association meetings, February 2009.

Panel Discussant at the Southern Economic Association meetings, November 2008.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Southern Economic Association meetings, November 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Western Economic Association meetings, July 2008.

Chair "Pensions and Retirement" Session at Southern Economic Association meetings, November 2007.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Southern Economic Association meetings, November 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at Southern Economic Association meetings, November 2006.

Panel Discussant, Southern Economic Association meetings, November 2005.

Presented, "Do Pensions Impede Phased Retirement?" at the Southern Economic Association meetings, November 2004.

Presented, "When Will the Gender Gap in Retirement Income Narrow?" at the Southern Economic Association meetings, November 2003.

Presented, "How Will the Growth of DC and 401(k) Plans Affect Pension Income?" at the Southern Economic Association meetings, November 2002.

Presented, "Racial Composition, Wages, and Quality Sorting," at the Southern Economic Association meetings, November 1999.

Presented, "Racial and Ethnic Differences in Pension Coverage and Benefit Levels," at the Southern Economic Association meetings, November 1998.

Presented, "Factors Influencing Participation and Contribution Levels in 401(k) Plans," at the Western Economics Association meetings, July 1998.

Presented, "Aging at Work: Employment Determination, Firm Strategies, and Public Policy in the United States," at the Western Economic Association meetings, July 1994.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Western Economic Association meetings, July 1992.

Presented "Plant Size and the Decline of Unionism," at the Southern Economic Association meetings, 1989, with William Even.

Panel Discussant, Southern Economic Association meetings, November 1989.

Presented "The Labor Force Participation and Earnings Profiles of Married Female Immigrants," at the Southern Economic Association meetings, November 1988.

Presented "Pensions, Screening, and the Gender Wage Gap," at the Southern Economic Association meetings, November 1988.

Session Chair and Panel Discussant at the Southern Economic Association meetings, November 1988.

Participation in Invited Seminars, Conferences, and other Presentations

Presented, "Teaching Macroeconomics During Troubled Times," at Creative Ideas for Your Basic Economics Course Conference at Florida State University, February 2012.

Presented, "Participant Direction in Defined Contribution Pension Plans," at Pennsylvania State University, April 2010.

Presented, "The Parallels Between the Japanese Economic Crisis of the 1990s and the US Today" at Creative Ideas for Your Basic Economics Course Conference at Florida State University, February 2010.

Chair "Minimum Wage & EITC" Session at Society of Labor Economists meetings, May 2009.

Presented "Participant Direction in Defined Contribution Plans," at Lehigh University, April 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Association of Private Enterprise Education meetings, April 2009.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Trinity University, October 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Georgia State University, April 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Association of Private Enterprise Education meetings, April 2008.
Presented, "Improving Pension Coverage at Small Firms," at Hudson Institute, May 2006.

Presented, "Participant Direction in Defined Contribution Plans," at Society of Labor Economics meetings, May 2006.

Presented, "Participant Direction in Defined Contribution Plans," at Association of Private Enterprise Education meetings, April 2006.

Presented, "Participant Direction in Defined Contribution Plans," at University of Wisconsin-Milwaukee, April 2006.

Invited Panel Participant for Pepper Foundation and Center Symposium on pension reform, Washington, DC, February 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at West Virginia University, April 2005.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at the University of Kentucky, November 2004.

Presented, "The Causes and Consequences of Company Stock Holdings in Pension Funds," at the Federal Reserve Bank of Atlanta, April 2004.

Presented, "The Causes and Consequences of Company Stock Holdings in Pension Funds," at the University of Oklahoma, February 2004.

Presented, "Tracking Union and Nonunion Wages in the U.S.: Can the Evidence be Reconciled?" at the Middlebury Annual Conference on Economic Issues, April 2002.

Presented, "How Will the Growth of DC and 401(k) Plans Affect Pension Income?" at the Miami University Center for Pension and Retirement Research Conference, June 2001.

Presented, "Benefits and Worker Productivity," Benefits for the Workplace of Tomorrow Conference, Wharton School, University of Pennsylvania, May 2001.

Participant, Innovations in Managing the Financial Risks of Retirement Conference, Wharton School, University of Pennsylvania, May 2000.

Presented "Using Hi-Tech in Large Lectures," at Association of Private Enterprise Education meetings, April 2000.

Presented "Employee Participation in 401(k) Plans," at University of Wisconsin-Milwaukee, October 1999.

Presented "Gender, Race, and Ethnicity in the Labor Market," as part of the Smith Chair course in Labor Economics at Brigham Young University, September 1999.

Presented, "The Decline in Pension Coverage Among Less Educated Workers," at the Florida State University Economics Department Seminar Series, 1996.

Presented, "Children's Effects on Women's Labor Market Attachment and Earnings" at the Conference on the Changes in Working Time in Canada and the United States, Canadian Employment Research Forum, 1996.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" at the Ohio State University Economics Department Seminar Series, 1996.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" at the Florida State University Economics Department Seminar Series, 1995.

Presented, "Employer Size and Labor Turnover: The Role of Pensions," at Syracuse University, 1995.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" while visiting scholar at the Federal Reserve Bank of Cleveland, 1995.

Presented, "Trends in Individual and Household Pension Coverage," at the Miami University Center for Pension and Retirement Research Conference, 1994.

Presented, "Racial Composition, Quality Sorting, and the Black-White Wage Gap" at the University of Wisconsin, Institute for Research on Poverty, Small Grants Workshop, 1993, with Barry Hirsch.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Florida State University Economics Department Seminar Series, 1992.

Participant at National Bureau of Economic Research (NBER) Labor Studies meetings of the Summer Institute, 1992.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Miami University Conference on Current Pension Policy Issues, 1992.

Organizer and participant at conference on "Contemporary Issues in Pension Economics," hosted by the Center for Pension and Retirement Research, Miami University, 1990.

Presented "The Effect of International Competition on Union and Nonunion Wages," at the University of Cincinnati Seminar Series, 1987.

Outside reviewer for Department of Economics, UNC-Greensboro, Georgia State University.

Promotion and tenure letters for candidates at Georgia State University, Kansas State University, Monmouth University, Ohio State University, University of Massachusetts, University of Southern California, and University of Wisconsin-Milwaukee.

Honors and Awards

Awarded sabbatical, Trinity, Fall 2011.

Nominated for FSU Award for Excellence in Undergraduate Teaching, Spring 2005.

Named Rod and Hope Brim Eminent Scholar in Economics, FSU, Fall 2004.

Research Fellow, Institute for the Study of Labor (IZA), Bonn, 2004-.

Who's Who in Economics, Fourth Edition, Mark Blaug and Howard Vane (eds), Edward Elgar Publishing, 2003, pp. 524 (selection criteria: one of the 1,200 most frequently cited economists in the years 1990-2000 using the Social Science Citation Index).

Awarded Abba Lerner named professorship, FSU, Spring 2000.

Awarded sabbatical, FSU, Spring 2000.

Received FSU Award for Excellence in Undergraduate Teaching, Spring 2000.

Received FSU Teaching Incentive Program Award, Fall 1995.

Nominated for FSU Award for Excellence in Undergraduate Teaching, Spring 1994.

Nominated for Outstanding Teaching Award, Associated Student Government, Miami University,1992.
Selected by the Miami University Sisters of Delta Gamma for a "Favorite Professor Award" in Fall 1990.

Honorary Member of Golden Key National Honor Society, Fall 1989.

Selected by the Sisters of Delta Gamma as "One of the twenty five most outstanding faculty members at Miami University" in Fall 1988.

Service

Vice President, Southern Economic Association, 2011-

Trinity University

Dick and Peggy Prassel Professor of Business Administration Search Committee, 2011
Faculty and Staff Compensation Committee, 2010-2011
Student Retention Committee, 2010

Florida State University

University and College Committees:

Member, GPC subcommittee for Marketing, Spring 2008.
Member, Graduate Policy Committee, Fall 2007-.
Chair, GPC subcommittee for Political Science, Fall 2006.
Member, Title IV Admissions Attendance Committee, Fall 2003-Spring 2004.
Member, College of Social Sciences Executive Committee, Fall 2003-.
Member, Ad Hoc Committee on COSS Technology, Spring 2003.
Member, Computing and Information Resource Committee, Fall 1999-.
Member, Academic and Policy Affairs Committee, Fall 1996-Spring 1998.

Economics Department Committees:

Member, Ad Hoc Committee on Economics 2000 Level Courses, Spring 1999.
Member, Undergraduate Economics Committee, Fall 1998-
Member, Economics Department Executive Committee, Fall 1994-Spring 1995, Fall 1996-Spring 1999, Fall 2000-.
Economics Department Library Representative, Fall 1993-.
Micro/Macroeconomics Seminar Coordinator, Fall 1993-Spring 1995, Fall 1998-Fall 1999, Fall 2001, Fall 2006-.

Comprehensive Examination Committees:

Member, Masters Comprehensive Exam Committee, Spring 1994.
Member, Ph.D. Labor Field Exam Committee, Fall 1992, Spring 1994, Fall 1994, Fall 1995, Fall 1996, Spring 1997, Spring 1998.
Chair, Masters Comprehensive Exam Committee, Fall 1994, Spring 1998.
Chair, Ph.D. Labor Field Exam Committee, Spring 1993-Fall 1993, Spring 1995, Spring 1996, Spring 2000, Spring 2001, Fall 2001.

Miami University

Computing Task Force, Department of Economics, 1991-92.
Recruiting Committee, Department of Economics, 1990-92.
Economics Club Advisor, 1988-1991.
Research Associate, Center for Pension and Retirement Research, 1988-92.
Delta Sigma Pi Chapter Advisor, 1988-89.
Student Finance Committee, Student Affairs Council, 1988-89.
Omicron Delta Epsilon Advisor, 1987-88.

Theses, Extended Papers, and Dissertations

Undergraduate Honors Thesis:

Chair, Leela Hebbar, 1995

Member, Nicole Cubies, 2006
Member, John Stutts, 2006
Member, Todd Crannell, 2000
Member, Mark Plotnick, 2000
Member, Bobby Pittman, 1998

MS Thesis and Extended Paper:

Chair, Maria Arce-Trigatti, 2009
Chair, George Holescko, 2000
Chair, J. Michael DuMond, 1994

Member, Shael Wolfson, 2000

Member, Lehr Eliason, 2000
Member, Steve Muri, 2000
Member, Ken Meier, 1998
Member, Tarteshia Williams, 1995
Member, Richard Page, 1994

PhD Dissertation:

Chair, James Farrell, 2009
Chair, Mark Keightley, 2008
Chair, Ali Al-Malki, 2007
Chair, Carter Doyle, 2005
Chair, Edward Wolpert, 1998
Chair, J. Michael DuMond, 1997

Member, Bogdan Daraban, 2007
Member, Russell Engel, 2007
Member, Li Feng, 2006
Member, Chuck Skipton, 2003
Member, Nicole Yurgin, 2003
Member, Jennifer Troyer, 1999
Member, Josefina Tranfa, 1999
Member, Shaliesh Bandarhi, 1998
Member, James Freeman, 1998
Member, Brian Nottage, 1998
Member, Ben Shippen, 1995
Member, Ed Schumacher, 1994

Depositions and Trial Testimony: 2008 to 2012

1. Angela Speed and Adrian Speed vs. Hertz Corporation
   Atty: Dawn Pompey Whitehurst; Brevard County, Florida; gave deposition; wrongful injury; 2008; Case No: 05-2005-CA-065447

2. Patricia Morrison vs. Anthony Mork and Microspine Surgery
   Atty: Steven Andrews; Walton County, Florida; testified at trial; wrongful injury; 2008; Case No: 06000249CA.

3. James Tomaselli vs. State of Florida, Department of Corrections
   Atty: Gordon Leech; Martin County, Florida; gave deposition; wrongful termination; 2008; Case No: 01-554-CA.

4. Russell Martin, et al. v. City of Atlanta, et al.
   Atty: Andrew Coffman; U.S. District Court, Northern District of Georgia, Atlanta 5Division; gave deposition; racial discrimination; 2008; Case CA File No: 1:07-cv-00326-BBM

5. McCabe, et al. v. Harmon Fruit, et al.
   Atty: Larry Perry; Polk County, Florida; gave deposition; wrongful death; 2008; Case 53-2005-CA-003612-0000-00

6. Thomas Faulkner v. Michael Chertoff and Department of Homeland Security
   Atty: John Davis; U.S. District Court; Northern District of Florida; gave deposition; wrongful termination; 2009; Case 4:08CV341-SPM/WCS

7. Matthew Debord and Tabitha Debord vs. G & S Material Service et al.
   Atty: Hubert Brown; U.S. District Court; Northern District of Florida; gave deposition; wrongful injury; 2009; Case 3:07cv365-LAC/MD

8. Jessica Loveday vs. USA
   Atty: Anthony Caggiano; U.S. District Court; Northern District of Florida; gave deposition; wrongful injury; 2009; Case 1:08cv205/SPM

9. Julia Keyes vs. AIG
   Atty: Larry Perry; Jackson County, Florida; gave deposition; wrongful injury; 2009; Case 08706CA

10. Estate of Linda DePuy vs. Broeseker et al.
    Atty: Steve Andrews; Leon County, Florida; gave deposition; wrongful death; 2009; Case 2007 CA 2509

11. Oliver and Sollman vs. VSoft Inc.
    Atty: Larry Pankey; U.S. District Court, Northern District of Georgia, Atlanta Division; gave deposition; age discrimination; 2009; Case CA File No: 1:09-CV-0185

12. Yolanda Young vs. Covington and Burling, LLP
    Atty: Latif Damon; U.S. District Court for the District of Columbia; gave deposition; racial discrimination; 2009; Case CA File No: 1:09-CV-0464 RBW

13. Deborah Suboh vs. Mark Bergeson et al.
    Atty: Stephanie Wright and Charlotte Perrell; Georgia, Dekalb County; Case 07A77585-5, gave deposition; legal malpractice; 2010.

14. Rolando Simmons vs. Davis and Peterson
    Atty: Hubert Brown; Florida, Calhoun County; Case 2008-0150-CA, gave deposition and testified at trial; medical malpractice; 2010.

15. Lorie J. Marshall, et al. vs. H & R Block Tax Services, Inc.
    Atty: Allan Steyer; U.S, U.S. District Court
    Southern District of Illinois; Case No. 3:08-CV591-MJR; gave deposition; consumer damages; 2010.

16. Daren Davis vs. Joseph Austin and Terry Roberts Work Site
    Atty: Anthony Caggiano; Florida, Osceola County; gave deposition; wrongful injury; 2010; Case 2006 CA 002997 AN

17. David Darrow vs. Adventist Health Systems/Sunbelt Inc.
    Atty: Anthony Caggiano; Florida, Orange County; gave deposition; wrongful injury; 2010; Case 48-2009-CA-004897-0

18. Samuel Gonzalez vs. Gurdev Singh Nijjar et al.
    Atty: Ramon Rodriguez; Texas, El Paso County; gave deposition; wrongful injury; 2010; Case 2007-011

19. John Davis vs. Devereux Foundation.
    Atty: Thomas Brown; Florida, Brevard County; gave deposition; wrongful injury; 2010; Case 99-15992-CA-F

20. Al Kowalski vs. et al. YellowPages.Com, LLC
    Atty: Peter Pearlman; U.S. District Court Southern District of New York; Case No. 10-7318 (PGG); gave deposition; consumer damages; 2011.

21. Christina Glover and Jason Glover vs. Publix Super Markets
    Atty: Phelicia Steill; Florida, Leon; Case No. 08 CA 2695; gave deposition; wrongful injury; 2011.

22. Lissette Cartagena and William Cartagena vs. Bracero et al.
    Atty: Thomas Brown; Florida, Orange County; Case No. 07-CA-2645 DIV 34; gave deposition and testified at trial; wrongful injury; 2011.

23. Lillie Conyers and James Conyers vs. Werner Enterprises et al.
    Atty: Thomas Brown; Florida, Jackson County; Case No. 09-1174-CA; gave deposition; wrongful injury; 2011.

24. Shannon McCants vs. Wackenhut Corporation
    Atty: Dawn Pompey Whitehurst; Duval County, Florida; gave deposition and testified at trial; wrongful death; 2011; Case No: 16-2008-CA-014834

25. Christina Whipple versus R.E.S.A, Inc.
    Atty: Susan Haney; Bexar County, Texas; gave deposition; business damages; 2011; Case No.: 2009-CI-17074

26. Daniel Plouffe, et al. versus General Motors, LLC
    Atty: Michael Pitt; Wayne County, Michigan; gave deposition; age discrimination; 2012; Case No.: Case No. 11-007645-CL

27. Johnny Cash versus State Farm
    Atty: Steven Andrews; Leon County, Florida; testified at trial; wrongful injury; 2012; Case No.: Case No. 10-CA-2429

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College, Harris-Stowe State University, Lincoln University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governments estimate no direct costs or savings from the proposal, but operating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could increase by an unknown annual amount ranging from $20,000 to $170 million depending on business decisions.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, Version 20 (2018-215)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on April 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Section 290.502 of the Revised Statutes of Missouri is amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.75 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.75 per hour, effective January 1 of each of the next three years, until it reaches $11.00 per hour, effective January 1, 2022. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2023, and on January 1 of successive years, per the method set forth in subsection (2) of this section.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-215)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received April 4, 2017)

Date

April 24, 2017

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election**

Commissioners City of St. Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners**.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided information as proponents of the proposal to the State Auditor's office.

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided information as an opponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations. They do not expect that the enactment of this proposal would result in any other increased costs to their office.

Officials from the **Department of Agriculture** indicated there is no fiscal impact to their department for this initiative petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department since public employers are exempt from the new provisions proposed.

Officials from the **Department of Health and Senior Services** indicated this proposal would have no direct fiscal impact on their department since government employees are exempt from its provisions. However, employees of certain entities that receive funding through the department's budget would be impacted, such as Medicaid Home and Community Based Services vendors/providers and Area Agencies on Aging.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department defers to the Office of Administration to determine the fiscal impact of this proposal.

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department. Their department defers to the Office of Administration for a state impact.

Officials from the **Department of Public Safety - Office of the Director** indicated they will defer to the response provided for this initiative petition by the Office of Administration - Human Resources.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to the Office of Administration.

Officials from the **Governor's office** indicated there should be no added cost or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Officials from the **Office of Administration** indicated the proposal amends Sections 290.502, RSMo and adds Section 290.529, RSMo.

Section 290.502, RSMo, increases the minimum wage to $8.75 per hour, beginning January 1, 2019 and by another $0.75 per hour each year until it reaches $11.00 per hour beginning January 1, 2022. Thereafter, the minimum wage will be adjusted annually based on the increase/decrease in the cost of living.

The proposal exempts public employers from both requirements; therefore, there would be no cost to the State of Missouri.

Because no tax rates are affected, there is no direct impact on general and total state revenues. However, these proposals may have several indirect affects, which could impact revenue collections by an unknown amount, including but not limited to:

- Increased wages for certain employees. According to the US BLS, in 2015, Missouri had 57,000 hourly employees earning wages at or below the federal minimum wage;[1]
- Increased consumption by those employees;
- Lower overall employment (if employers choose to hold costs steady);

[1] http://www.bls.gov/opub/reports/minimum-wage/2015/home.htm

- Lower business investment (if employers' payrolls increase);
- Increased prices as firms pass–through labor costs.

This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated they do not predict an immediate fiscal impact upon their office if Missouri's minimum wage rate were increased to $11.00 per hour. However, the potential future impact of applying cost of living increases and/or increases in the federal minimum wage to a Missouri minimum wage of $11.00 per hour, as called for elsewhere in Section 290.502, RSMo., is unknown.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition may have a small negative fiscal impact on their city as a result of the increased hourly minimum wage being higher than the hourly rate paid some city employees.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated they are not able to estimate any significant financial impact on their university.

Officials from **University of Central Missouri** indicated they estimate no fiscal impact since they are excluded under the public employer definition in section 4.

Officials from the **Missouri State University** indicated no fiscal impact.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated the wording is unclear as to whether Colleges/Universities are included in this petition. In assuming they are included, they calculate the following significant fiscal impact to their university. The proposal will have a severe negative fiscal impact on the university. The proposed minimum wage increase to $8.75 per hour beginning in 2019 and continuing with .75 increases for the next 3 years to $11.00 per hour will result in approximately $1,236,000.00 increase in a three year span in their payroll expenditures. This increase would be detrimental to the university.

Officials from the **Kansas City Board of Election Commissioners** indicated no fiscal effect on their operations.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition does not have a fiscal impact on their office.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided the following information as proponents of this initiative petition.

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced Minimum Wage Initiative Petitions. Pursuant to RSMo. Section 116.175, we write to submit the following fiscal impact information to assist your office in its analysis of the fiscal impact of the above-mentioned seven proposed Minimum Wage Initiative Petitions.

Our analysis estimates the impact of the proposed Minimum Wage Initiative Petitions on state and local sales and personal income tax revenue in Missouri. We follow the process that has been used in the past to estimate the impact of minimum initiative petitions on state and local sales and personal income tax revenue, with some refinements. We also address certain claims that have been made by opponents of similar initiative petitions in the past.

As these petitions exclude public workers from the proposed minimum wage increases, we do not include in our analysis an estimate of the impact on state and local payroll costs of the proposed Minimum Wage Initiative Petitions.

I. Estimate of Number of Workers Affected Statewide and the Impact on Their Wages

Table 1. Summary of the Number of Affected Workers and Aggregate Wage Increases for Missouri in the Final Year of Minimum Wage Implementation.

Proposal	Year of Peak Minimum Wage (MW)	Proposed Peak MW	Tipped MW in Peak MW Year	Workers Affected by MW increase	Aggregate Annual Wage Increase in Nominal Dollars
13,14,15[a]	2023	$ 12.00	$ 6.00	835,350	$4,358,798,129

Notes: Author's Analysis of American Community Survey (ACS) Data from 2014.
(a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

Across the proposals analyzed, the total aggregate wage increase for workers in Missouri ranges from a low of $3.347 billion (Proposals 22-24) to a high of $5.745 billion under Proposal 32. While some proposals have the same final impact numbers, they have different impacts in the initial years (not listed) based on the relative pace of increases in earlier years. A full, year-by-year impact analysis is presented in Appendix Tables A1 through A13 below.

The wage impact of an increase in the minimum wage for the state of Missouri is calculated using the following procedure. The American Community Survey (ACS) Public Use Micro Sample for the most recent year available (2014) for the state of Missouri was downloaded from the US Census Bureau. The American Community Survey was chosen over the Current Population survey because the ACS has a significantly larger sample. We followed the method of Perry, Thomason, and Bernhardt (2016) for calculating an hourly wage rate from the ACS based on observed total annual wage income, typical hours worked each week and weeks worked per year. Since ACS income figures are clustered around whole-numbers, we smoothed the wage distribution by randomly adding or subtracting $0.25 from each wage figure.

Wage adjustments were made only for those individuals earning less than the proposed minimum wage, or proposed tipped minimum wage. We did not make additional adjustments for the "ripple effect" of minimum wage increases on workers earning slightly above the new threshold. Recent evidence suggests that workers earning up to 15 percent above of the minimum wage also receive small increases in response to a minimum wage increase. (See Wicks-Lim (2006) and Dube, Giuliano and Leonard (2015).) Thus, the estimated impacts listed above are likely to be smaller than the actual impact of increasing the minimum wage to the proposed level.

The proposed minimum wage increases exclude public employees. However, it was not practicable to exclude public employees from these calculations because the ACS does not have a published variable that allows for identification of public employees. Nonetheless, this inclusion of public employees should have only a minimal impact on our results, since their numbers are small and most already earn more than the proposed minimum wage increases.[1]

All wages from the 2014 survey were adjusted upward to account for inflation between the time of the survey and the time of measurement of the impact. Actual rates of inflation were used to adjust wages up to 2016. For all subsequent years between 2017 and 2028, baseline wages were adjusted using the projected annual average rate of change in the Consumer Price Index for Urban Workers (CPI-U) for the Midwest region. The 2015 and 2016 Missouri Minimum wage of $7.65 was adjusted by the same factor prior to measuring the impact of a change to the proposed minimum wage in 2019.

After these adjustments, the resulting hourly wage of all employees was compared to the proposed minimum wage. A total of twenty-one proposals were analyzed. For each proposal, we constructed a baseline wage scenario that used only basic wage changes from expected inflation rates to predict each ACS respondent's hourly wage rate in each year

[1] For Missouri's state employees, this can be validated by viewing the earnings of all state employees at: http://mapyourtaxes.mo.gov/MAP/Employees/. In larger counties and cities most all public employees already earn more than the highest proposed minimum wage. Smaller counties and towns may have some public employees who earn less than the highest proposed minimum.

between 2019 and 2028. We then constructed a counterfactual, or "proposed" wage distribution for each worker under all twenty-one minimum wage proposed scenarios. Since the minimum wage proposals offer nine different paths for raising the minimum wage for all non-tipped private sector workers, and different wage paths for tipped workers, we create separate minimum wage changes for tipped and non-tipped workers. Specifically, we used information on a worker's occupation and observed wage levels to separately identify tipped workers and assign them the proposed tipped minimum wage in each year, rather than the higher non-tipped minimum wage.[2]

If the proposed minimum wage was less than the inflation-adjusted hourly earnings of an employee, then no impact was calculated. If the proposed minimum wage was more than the hourly earnings for an employee, then the difference between the inflation-adjusted hourly earnings (i.e. baseline) and the proposed minimum wage was calculated. That difference was multiplied by the number of hours the employee worked in the year to calculate the annual impact for that employee. The result was then multiplied by a weighing factor for that employee in the population. The total impact for the state of Missouri was then summed across all affected workers to generate a total estimated increase in wage income in the state.

We do not include an estimate of job losses due to minimum wage changes. Existing research is clear that past minimum wage increases have had no measurable effect on aggregate employment levels. Larger minimum wage increases, such as those in Los Angeles, Seattle, and other jurisdictions, have not yet been studied to detect a clear disemployment effect. While it is possible that there may be some employment losses due to automation or other factors, this potential negative effect is likely offset by the positive potential job growth stemming from multiplier effects of the spending of minimum wage workers who receive substantial raises. There is substantial research to indicate that increases in the minimum wage have multiplier effects that increase the direct effects. For this reason and because of the likely increases in wages for individuals who earn above the proposed minimum wage rates, the impacts summarized in the table are considered conservative estimates relative to the total impact that would occur as a result of increasing the minimum wage to the proposed levels.

II. Economic Literature on the Impact of Minimum Wage Increases on Employment

Next, it is necessary to review the economic literature on the impact of minimum wage increases on employment. Opponents often claim that minimum wage increases may reduce employment in a state. If that is true, then those employment reductions would result in reductions in state income and sales tax revenue. However, review of the most credible recent empirical research on the minimum wage shows that increases in the minimum wage have had no discernible impact on employment. We thus conclude that it is not appropriate to project that the proposed initiative petitions would result in any detectable employment reduction, and resulting losses in income and sales tax revenue, or increases in unemployment-related costs to the state.

Economists have conducted hundreds of studies of the employment impact of the minimum wage. A recent meta-study – a formal statistical study of studies – by Doucouliagos and Stanley (2009) reviewed all the research conducted over the last three decades on the employment impact of minimum wage increases on teenagers in the United States. The researchers concluded that the minimum wage has little or no discernible effect on the employment prospects of low-wage workers. Their study followed a rigorous, peer-reviewed procedure and has the advantage of using a set of predetermined, objective criteria for weighing the validity of statistical findings across studies with different results.

[2] We defined tipped workers as those employed in occupations that typically receive a large share of income as tips. These occupations were 'Bartenders' (4040), 'Waiters and Waitresses', 'Food Servers, Non-restaurant' and 'Miscellaneous food preparation and serving related workers including dining room and cafeteria attendants and bartender helpers'.

(Source: Doucouliagos, Hristos and T. D. Stanley. 2009. "Publication Selection Bias in Minimum-Wage Research? A Meta-Regression Analysis." British Journal of Industrial Relations,vol. 47, no. 2, pp. 406-428.)

Recent theoretical and empirical research emphasizes several explanations for the consistently negligible employment impacts of moderate increases in the minimum wage. First, relative to total wage costs, minimum-wage increases are small. Second, employers and workers appear to respond to minimum-wage increases in many ways that reduce the direct cost to employers and substantially reduce or eliminate the need to cut employment.

Probably the most important economic response to a higher minimum wage is a reduction in turnover. At higher wages, employers fill vacancies faster and retain employees longer, boosting total employment and average productivity per worker while reducing direct and indirect training costs. Dube, Lester, and Reich (2012), for example, examined the effect of the minimum wage on labor turnover among teens and restaurant workers. They find "...striking evidence that separations, new hires, and turnover rates for teens and restaurant workers fall substantially following a minimum wage increase..." (p. 2). Their findings, using nationally representative data, are consistent with local case studies of the minimum wage and related "living wage" laws, including Dube, Naidu, and Reich's (2007) analysis of the San Francisco city-wide minimum wage; Fairris's (2005) study of local government contractors in Los Angeles; Howes (2005) on homecare workers in California; and Reich, Hall, and Jacobs (2005) on workers at the San Francisco airport.
(Sources: Dube, Arindrajit, T. William Lester, and Michael Reich. 2012. "Minimum Wage Shocks, Employment Flows and Labor Market Frictions." "The Economic Effects of a Citywide Minimum Wage." *Industrial and Labor Relations Review*, vol. 60, no. 4, pp. 522-543; Fairris, David. 2005. "The Impact of Living Wages on Employers: A Control Group Analysis of the Los Angeles Ordinance." *Industrial Relations*, vol. 44, no. 1, pp. 84-105; Howes, Candace. 2005. "Living Wages and the Retention of Home Care Workers in San Francisco." *Industrial Relations*, vol. 44, 5 no. 1, pp. 139-163; Reich, Michael, Peter Hall, and Ken Jacobs. 2005. "Living Wage Policies at the San Francisco Airport: Impacts on Workers and Businesses." *Industrial Relations*, vol. 44, no. 1, pp. 106-138.)

Employers also appear to respond to increases in the minimum wage by taking measures to boost productivity. Hirsch, Kaufman, and Zelenska's (2011) study of the impact of the federal minimum wage increase on 81 fast-food restaurants in Georgia and Alabama, for example, asked fast-food managers about the scope for efficiency improvements in response to the minimum-wage rise. About 90 percent of managers indicated that they planned to respond to the minimum wage increase with increased performance standards such as "requiring a better attendance and on-time record, faster and more proficient performance of job duties, taking on additional tasks, and faster termination of poor performers." (p. 27) Roughly the same share of managers said that they sought to "boost morale" by presenting the minimum wage increase as a "challenge to the store" and using this as a way "to energize employees to improve productivity." (pp. 28-29) Based on their interviews with store managers, the researchers concluded that a minimum wage increase may function as a "catalyst or shock that forces managers to step out of the daily routine and think about where cost savings can occur." (p. 29) (Source: Hirsch, Barry T., Bruce Kaufman, and Tetyana Zelenska, "Minimum Wage Channels of Adjustment." IZA Discussion Paper No. 6132. Germany: Institute for the Study of Labor. http://www2.gsu.edu/~ecobth/IZA_HKZ_MinWageCoA_dp6132.pdf)

A higher minimum wage may also motivate workers to work harder, independently of any actions by employers to increase productivity. According to "efficiency wage" theory, wages above the competitive-market rate may elicit greater work effort for several reasons. As Carl Shapiro and Joseph Stiglitz (1984) have argued, higher pay increases the cost to workers of losing their job, potentially inducing greater effort from workers in order to reduce their chances of

being fired. George Akerlof (1982), arguing from a more sociological point of view, has suggested that workers may see higher wages as a gift from employers, leading workers to reciprocate by working harder. (Sources: Shapiro, Carl and Joseph E. Stiglitz. 1984. "Equilibrium unemployment as a worker discipline device." *American Economic Review*, vol. 74, no. 3, pp. 433-444; Akerlof, George A. 1982. "Labor contracts as partial gift exchange." *Quarterly Journal of Economics*, vol. 97, no. 4, pp. 543-569.)

We therefore conclude that the proposed increase in the Missouri minimum wage would have no discernible impact on the employment levels of low-wage workers. Accordingly, we do not factor in reductions in employment, or any resulting decrease in sales tax or income tax. We also do not project any increased unemployment insurance costs – both because we do not project any resulting job losses, and, additionally, because unemployment insurance costs are paid for by employer premiums, and so are ultimately not a cost to the state.

For similar reasons, we do not believe that the proposed increase will have any significant adverse economic impact on small businesses or, by extension, on corporate income tax revenue. In fact, many small businesses already pay little if any corporate income tax.

III. State and Local Sales and Personal Income Tax Revenue Impact of Raising the Minimum Wage

Based on the wage impact figures calculated above, and the understanding that the minimum wage increases would be unlikely to result in offsetting job losses, we next calculate the impact of the projected wage increases on state and local sales and personal income tax revenue in Missouri. We project only the direct impact of the various minimum wage increase scenarios on such tax revenue. We do not attempt to project the additional impact through a GDP multiplier effect, or the potentially higher sales taxes generated if employers offset wage increases with higher prices (which would be taxable).

Personal Income Tax Revenue. In order to determine the projected increase in personal income tax revenues that would result directly from the increased wages, we had to develop assumptions about the effective income tax rates of the affected workers. We made the following assumptions with respect to the effective tax rate:

1. That 25% of affected workers can be claimed as a dependent on another party's Missouri income tax return and, as a result, would pay an effective tax rate of 6.0% on the increase in income;
2. That 50% of the affected workers would file as single taxpayers, would claim one deduction of $2,100, and would be entitled to a standard deduction of $5,800. This would result in an effective tax rate of 2.47%;
3. The remaining 25% would, we assumed, pay no additional Missouri income tax.

In light of these assumptions, the increased Missouri income tax revenue for each petition version can be calculated as follows: (total wage increase * 25% * 6.0%) + (total wage increase * 50% * 2.47%) + (total wage increase *25% * 0%).

Sales Tax Revenue. The state of Missouri imposes a 4.225% state sales tax on those items that are not exempt from the sales tax base. In addition, the average local sales tax rate is 2.95%. As a result, the average Missouri net sales tax rate is 7.175%. To estimate the share of income that is spent on goods and services that are subject to sales taxes, we used data from the 2015 Consumer Expenditure Survey (CES) for the US to estimate the share of income spent on categories that are subject to sales taxes. The CES summary tables list average spending per consumer across 20 different

categories (e.g. housing, transportation, food away from home) and we categorized each spending item as taxable or non-taxable and then calculated the share of spending that we taxable.[3] The resulting rate was 30.3 percent.

Based upon the above assumptions, and the total wage increase calculations for each version of the petition, we estimate that the increase in state income tax revenue resulting from the increased wages would be as follows:

Table 2. Summary of the Impact of Minimum Wage Increases on State and Local Sales and Income Taxes in Year of Full Minimum Wage Final Implementation.

Proposal	State Sales Tax (4.225%)	Local Sales Tax Revenue (2.95%)	Total Sales Tax Revenue Increase	Personal Income Tax Revenue	Total Sales and Personal Income Tax Revenue Increase

Note: Author's Analysis of American Community Survey (ACS) data from 2014 and fiscal impact assumptions described above. All dollars are in nominal figures. (a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

As described in Table 2 above, the fiscal impact of the proposed minimum wage increases varies based on the ultimate level of the minimum wage and the degree of tipped minimum wage phase out. The estimates of the total fiscal benefit range from $164 million to $282 million annually. Appendix tables A1 through A13 provide a year-by-year summary of the fiscal benefits.

[3] Specifically, the categories we assumed to be subject to state and local sales taxes are: food, household furnishings and equipment, vehicle purchases, gasoline and motor oil, entertainment, and all other expenditures. We assumed that 50 percent of the spending on the category "apparel and services" was taxable.

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,

1) Total employed workers in 2014 from the ACS was estimated to be 2,795,876. This figure was inflated to each subsequent year based on the population projections in the State of Missouri between 2020 and 2030 (CAGR = 0.6%)

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided the following information as an opponent of this initiative petition.

These corrections were subsequently provided to the submitted information

In the table on the bottom of page 7 and top of page 8, both averages for 2023 should be based on a 5 year phase-in. Accordingly, the figure on that table should state for 2023 ($12) Average Annual Unemployment Premiums Paid by State of $16,269,523.52.

The corresponding change on the table on page 12 would be to state, for 2023 ($12) Total Net Loss to State Government from Taxes and Unemployment Insurance of ($19,137,851.76).

Re: Initiative Petitions 2018-196 through 2018-216

Dear Mr. Halwes,

I write on behalf of Robert Bonney. Mr. Bonney is the Chief Executive Officer of the Missouri Restaurant Association. Please consider this letter and the accompanying studies as his fiscal impact statement as an opponent of Initiative Petitions 2018-196 through 2018-216 (the "Initiative Petitions"). If passed, any of these twenty-one initiatives would have a substantial negative impact on state and local governments, as well as Missouri small businesses. Those effects are both direct (as noted in Section 1) and secondary (as noted in Sections 2 through 5). The direct effects stem from higher labor and contracting costs that the state and its political subdivisions will incur, despite the Initiatives' effort to exclude government workers from the mandate.

The indirect effects will present a debate this Office has seen before. The proponents of the Initiative Petitions will once again rely on data sourced from political activist groups who claim increases in the minimum wage only serve to create new taxable income. The reality is that such groups approach this issue with political bias. Their analysis is one-sided because it completely ignores the fact that a wage increase does not "create" income from thin air; instead, it is an economic transfer from Missouri businesses to workers. Missouri businesses must pay the new wages "created" by the increases. Political activists' models fail to account, then, for two specific manifestations of the "debit" side of this transfer: reductions in employment, and the reduction in corporate income tax paid based upon business done in Missouri.

The failure to account for any employment effect at any proposed wage increase—even a drastic increase of the minimum wage to $13—is particularly puzzling, because Missouri's most populous areas border Illinois and Kansas. These states, respectively, have minimum wages of $8.25 and $7.25. Neither state adjusts the minimum wage for inflation. Likewise, the second effect—loss of corporate income tax revenues—is a mathematical certainty. Missouri businesses will be the source of the wage increase, which will lower their own taxable income. Assuming a one-to-one substitution of "created" wages for lost corporate income, the difference in the rates

at which these two types of income are taxed will result in a net decrease in state revenue. A dollar from increased wages is taxable by state government in Missouri at 6% or substantially less, whereas Missouri's corporate income tax rate is 6.25%.

On top of these two types of negative outcomes—lower employment and lower state tax revenues—there may be second-order effects to small businesses because they lack the access to capital to weather price fluctuations; they may not survive at all because they may not have the flexibility to simply cut employment, shifting their reliance to capital instead of labor resources, or suffering a decrease in production and revenue.

In short, much of the fiscal impact regarding the current crop of wage-related ballot measures is secondary: they cause transfers of wealth within (or out of) the state economy, and those transfers of wealth then create second-order effects for state and local governments via their collection of tax revenues and provision of welfare services for the unemployed or less-employed. Because these fiscal notes call for the Auditor operate in the area of secondary effects, it is critical that she treat both sides of the wealth transfer equally, and refrain from assessing only one half of the wage increase equation.

1. Direct Labor Cost Impact on State and Local Government Budgets

As noted to the State Auditor's Office previously by Dr. David Macpherson, a nationally prominent labor and economics expert, there are two ways to measure labor cost on state and local government budgets. First, one can use the information included in fiscal note responses from state and local government entities. It is important to note that these fiscal notes provide an incomplete and, therefore, too-low estimate of labor cost. Few state and local government entities respond to requests for a fiscal note response, and those that do respond often ignore important effects.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can be used to calculate increased labor cost to state and local government entities in Missouri. To combat this time-honored analysis, and in a blatant attempt to manipulate the fiscal note process, the Initiative Petitions provide that they will raise the minimum wage for private workers, but not for workers employed by state or local governmental entities. No conceivable justification exists for solely raising the minimum wage on private businesses. Whatever the disparity between the value of total compensation at a private business and at a government employer, that disparity does not approach the wage adjustments at issue here, ranging from an inflation adjusted wage increase of 51.16% (($13-$8.60)/$8.60) in Initiative Petitions 2018-198 through 2018-201 to a wage increase of 30.17% (($11-$8.45)/$8.45) in Initiative Petitions 2018-213 through 2018-215.

Moreover, it is unreasonable to assume that on a sustained basis public employers, as defined in the Initiative Petitions, would be able to maintain dramatically lower wage levels than private businesses. Public employers would lose staff employable at higher rates in the private market, imposing substantial costs on government productivity. Using the method traditionally employed by labor economists and followed by the Auditor's office, one can calculate the annual

wage costs to state and local governmental entities, based on the annual wage cost for each state and local government worker in the ORG CPS, as detailed on page 6 of Dr. Macpherson's 2012 report, attached hereto as **Exhibit A**. Even if the auditor finds that a specific estimate of costs is not determinable, the auditor should note that state and local government "operating costs could increase by an unknown annual amount that could be significant," through the form of higher wage costs and higher contracting costs.

The proponents of the Initiative Petitions may argue that the Auditor should abandon any state and local cost estimates altogether. The proponents will argue that provisions they have inserted in the statute would mean that state and local government entities will not have to pay higher wages to their employees. Setting aside unjustifiable discrimination against private employers (and "public employees"), the provision is of uncertain legal effect and constitutionality. A "public employer," defined in the initiatives as "the state or a political subdivision of the state" still incurs substantial costs for wages of individuals that are "private employees," rather than "public employees." Cleaning services, food service, and other essential services often rely on state contracts with outside vendors. Sometimes, a contract rate may vary depending on the cost of labor. Even if the contract rate is fixed, it must be re-bid periodically, and that bidding process would take into account the new minimum wage. Plainly, the initiative would impose higher costs for state and local governments in contracting with any private entity and its employees. As a matter of law, it would be insufficient and unfair for the Auditor's fiscal note or summary to simply assume that these costs to state and local governmental entities do not exist.

2. Cost of Unemployment Benefits

a) The effect of inflation on Missouri's minimum wage

CPS–ORG data show that between 2007 and 2015, median nominal wages for adult (25–59 years old) workers in the U.S. grew by 1.68 percent a year. However, Missouri's minimum wage is currently adjusted using "the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W)." Section 290.502, RSMo. Coincidentally (or perhaps not), the CPI-W, over the period from 2006 to 2016, also increased at an average rate of 1.68 percent a year.

Year	CPI-W	Observed inflation %
2006	199.2	
2007	203.7	0.022590361
2008	216.304	0.061875307
2009	210.526	-0.0267124

2010	213.898	0.016017024
2011	222.686	0.041085003
2012	225.568	0.01294199
2013	230.084	0.02002057
2014	234.525	0.019301646
2015	233.806	-0.00306577
2016	234.771	0.004127353

Using Missouri's current inflation-adjusted minimum wage rate and an assumed, constant 1.68 percent increase in the CPI-W, the minimum wage in Missouri will be as follows:

Year	Estimated Minimum Wage
2016	$7.65 (observed)
2017	$7.70 (observed)
2018	$7.85
2019	$8.00
2020	$8.15
2021	$8.30
2022	$8.45
2023	$8.60
2024	$8.75
2025	$8.90
2026	$9.05

b) Calculating job loss attributable to increased minimum wage

At least one outside economist, James Sherk, has already provided an estimate for job loss in Missouri based on a $15 minimum wage. Mr. Sherk calculated the effect of a $15 minimum wage implemented in 2021. Mr. Sherk's figures accounted for inflation by estimating the present value of $15.00 in 2021, rather than estimating an absolute figure for wage inflation in Missouri. Mr. Sherk calculated the present value of $15.00 in 2021 to be $13.57, per hour, based on wage inflation of 1.68 percent. Mr. Sherk evaluated the change from $7.65 per hour to $13.57 per hour (a 77.39% increase), exclusive of agricultural workers. Cumulatively, Mr. Sherk calculated this 77.39 percent increase in wages to reduce employment in the affected workforce by (0.7739*0.677) 52.39%.

Graves Garrett LLC

Mr. Sherk calculated that approximately 40.9% of Missouri's Wage and Salary Workers would be affected by such a $15 minimum wage. Mr. Sherk's calculations reveal that a $15 minimum wage in 2021 would be expected to reduce the number of full-time equivalent jobs in Missouri by approximately 218,000. Based on CPS–ORG data, these figures reveal an affected workforce of approximately 416,086 workers impacted by a $15 minimum wage increase in 2021.

However, in 2014, Dr. Macpherson found, using more conservative, national-level Congressional Budget Office data, that an increase to a $10.10 minimum wage, effective January 1, 2015, would eliminate about 15,700 jobs in Missouri. Dr. Macpherson analyzed the effect of a Missouri $10.10 minimum wage using a model suitable to a national analysis. This analysis predicted a loss of 15,700 Missouri jobs based on a wage increase from $7.50 in 2014 to $10.10 in 2015 (a 34.67% increase).

On the whole, the analysis by Mr. Sherk is more instructive here, since it is more recent, Missouri-specific, and anticipates larger wage changes contemplated by the Initiative Petitions. The most accurate way to determine the estimate of Workers Affected would be to analyze the CPS–ORG data. However, without such data readily available in the time constraints imposed by the fiscal note process, it is reasonable for estimation purposes to assume Mr. Sherk's figures are evenly distributed. Assuming that worker data follows an equal distribution, the Initiative Petitions would be expected to result in the following job losses:

Year of final prescribed wage increase	Wage without IP	Wage mandated by IP	Percentage increase	Percentage of affected workers who lose jobs (Percentage Increase x 0.677 Elasticity)	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by Initiative
2021	$8.30	$11.00	32.53%	22.02%	174,897	38,512
2022	$8.45	$11.00	30.18%	20.43%	162,262	33,150
2022	$8.45	$12.00	42.01%	28.44%	225,866	64,236
2023	$8.60	$12.00	39.53%	26.77%	212,532	56,895
2023	$8.60	$13.00	51.16%	34.64%	275,061	95,281
2024	$8.75	$12.00	37.14%	25.15%	199,683	50,220
2024	$8.75	$13.00	48.57%	32.88%	261,136	85,861
2025	$8.90	$13.00	46.07%	31.19%	247,695	77,256
2026	$9.05	$13.00	43.65%	29.55%	234,683	69,349

c) The best estimate for a price elasticity of demand for low-skilled labor is -0.677.

As noted by Mr. Sherk, starting wages of $15.00 per hour mean that full-time employee must create at least $38,700 a year in value for his or her employer (including wages, employer payroll taxes, and mandatory healthcare benefits). High minimum wages and mandatory benefit costs make it much harder for less-experienced and less-skilled workers to find jobs, particularly full-time work.

Recent labor economics scholarship has revealed that, accounting for publication bias, a state-specific elasticity of demand for less-skilled workers is, on average, approximately -0.677, though some estimates are even higher, around -1.0.[1] "[E]conomists have extensively studied how businesses respond to higher wages overall, not just minimum-wage increases. On average these studies find a 10 percent increase in labor costs causes firms to reduce employment of less-skilled workers by 6.8 percent in the long run."[2]

While these elasticity estimates are substantial in absolute terms, there is reason to believe that such estimates might still understate the impact of a Missouri state-specific effort to increase the minimum wage. This is so for several reasons. First, traditionally, labor economists view labor as a reasonably difficult input to substitute; however, Missouri businesses have readily available options. There are relatively few barriers to doing business in Missouri's border states, and businesses can easily relocate across a state line to take advantage of more favorable wage (and tax laws). Additionally, substantially raising the cost for Missouri labor, relative to labor sources in other states and other countries, is likely to force many manufacturing jobs in Missouri to disappear entirely. Automation is also a significant risk. The substitution of labor is becoming increasingly easy due to technology advancements and the "sharing" economy, where fewer individuals are "employees" covered by the minimum wage. Finally, a labor "price shock" may result in significant decreases in the demand for goods and services. People make behavioral changes to avoid higher costs, including eating out less often and generally decreasing consumption (or shifting their activities to consumption involving comparatively low amounts of labor) wherever possible.

[1] Sherk, James, "How $15-per-Hour Minimum Starting Wages Would Affect Each State," The Heritage Foundation, http://report.heritage.org/ib4601.

[2] "The coefficients on these estimates imply an elasticity of –0.677 for a study published in 2012 (the most recent year in their data) of long-run unconditional labor demand for low-skilled labor in the U.S., estimated using industry-level administrative panel data and a structural form model." "Estimates that do not account for publication bias tend to slow a long-run elasticity closer to –1.0. See, for example, George Borjas, Labor Economics, 6th ed. (Columbus, OH: McGraw-Hill, 2013), Chapter 4: 'The evidence also suggests that the estimates of the long-run labor demand elasticity cluster around –1, so the long-run labor demand curve is indeed more elastic than the short-run curve.' " Sherk, available at http://report.heritage.org/ib4601.

Graves Garrett LLC

d) Unemployment Benefit Costs

We derived an average unemployment payout by calculating the expected weekly unemployment benefit amount. Based on current data, the expected unemployment weekly benefit amount of a worker making $7.65 an hour, on a 40 hour workweek, is $159.12 per week, for 20 weeks.[3] The expected unemployment weekly benefit amount of a worker making $10.99 an hour is $228.59 per week. The expected unemployment weekly benefit amount of a worker making $11.99 an hour is $249.39 per week. The expected unemployment weekly benefit amount of a worker making $12.99 an hour is $270.19 per week. We assume that workers will seek unemployment insurance for the full twenty weeks authorized under Missouri law, because unemployment attributable to an increase in the minimum wage is structural. In this case, structural unemployment occurs because workers' job skills do not meet the established "price floor" of labor, rendering the worker's skills unmarketable. Assuming an even distribution of workers affected, the average unemployment benefit cost to the state for a worker is calculated as follows:

- For Initiative Petitions 2018-213 through 2018-216, [($159.12+$228.59)/2]*20 = $3,877.10
- For Initiative Petitions 2018-196, 2018-197, 2018-200, 2018-202, and 2018-204 through 209, [($159.12+$249.39)/2]*20 = $4,085.10
- For Initiative Petitions 2018-198, 2018-199, 2018-201, 2018-203, 2018-210 through 2018-212, [($159.12+$270.19)/2]*20 = $4,293.10

Consistent with Dr. Macpherson's 2012 report, it would be reasonable for the Auditor to assume that 35% of unemployed workers will receive unemployment benefits. Combining these numbers leads to the following estimates:

Year of final prescribed wage increase	Estimate of Missouri Workers Unemployed by Initiative	Estimated Unemployment Amount Per Worker	Estimated Total Unemployment Premiums Paid	Average Annual Unemployment Premiums Paid by State
2021 ($11)	38,512	3,877.10	$52,260,206.32	$17,420,068.77
2022 ($11)	33,150	3,877.10	$44,984,052.75	$11,246,013.19
2022 ($12)	64,236	4,085.10	$91,843,669.26	$22,960,917.32
2023 ($12)	56,895	4,085.10	$81,347,617.58	$20,336,904.39

[3] https://labor.mo.gov/DES/Claims/calculator. A 2015 law decreased the unemployment benefit period from 20 weeks to 13 weeks, but the Supreme Court of Missouri struck down the law in July 2016.

2023 ($13)	95,281	4,293.10	$143,167,801.39	$28,633,560.28
2024 ($12)	50,220	4,085.10	$71,803,802.70	$11,967,300.45
2024 ($13)	85,861	4,293.10	$129,013,450.69	$21,502,241.78
2025 ($13)	77,256	4,293.10	$116,083,706.76	$16,583,386.68
2026 ($13)	69,349	4,293.10	$104,202,767.17	$13,025,345.90

3. Impact on State Income Tax Revenue

The 2012 analysis prepared by Dr. Macpherson may also be used as a reference in calculating the effect of the initiative petitions on state income tax revenue. Here, again, it is reasonable to assume that our "affected workers" are evenly distributed, though precise CPS–ORG data would also provide a reliable estimate. Here, the increased income tax revenue is the additional income tax paid by workers whose wages increase. There is a loss of revenue, however, in the form of decreased income tax paid by workers whose wages decrease and businesses who absorb the increased cost of labor, rather than passing it along to customers.

For the purposes of these estimates, we assume that workers work 40 hours a week and 52 weeks per year:

Year of final prescribed wage increase	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by IP	Estimate of Missouri Workers with Increased Wages	Annual Increase in Wages Paid to Workers who get Wage Increase in Final Year	Annual Decrease in Wages Paid to Workers now Unemployed
2021 ($11)	174,897	38,512	136,385	$382,969,080.00	$108,141,696.00

2022 ($11)	162,262	33,150	129,112	$342,405,024.00	$87,913,800.00
2022 ($12)	225,866	64,236	161,630	$596,737,960.00	$237,159,312.00
2023 ($12)	212,532	56,895	155,637	$550,332,432.00	$201,180,720.00
2023 ($13)	275,061	95,281	179,780	$822,673,280.00	$436,005,856.00
2024 ($12)	199,683	50,220	149,463	$505,184,940.00	$169,743,600.00
2024 ($13)	261,136	85,861	175,275	$774,715,500.00	$379,505,620.00
2025 ($13)	247,695	77,256	170,439	$726,750,021.03	$329,419,584.00
2026 ($13)	234,683	69,349	165,334	$679,192,072.00	$284,885,692.00

These net wage increases will lead to corresponding increases in state income tax collections. Traditionally, it has been assumed that about 50% of affected workers will pay 6% income tax, while the other 50% of workers pay no state income tax. This assumption may be less accurate at the higher wage increases contemplated by the Initiative Petitions. Accordingly, figures are also displayed assuming that about 75% of affected workers will pay 6% income tax, while the other 25% of workers pay no state income tax.

Annual Net Increase in Wages Paid To Workers	Annual Income Tax Increase from Wage Increase (50% pay tax)	Annual Income Tax Increase from Wage Increase (75% pay tax)
$274,827,384.00	$8,244,821.52	$12,367,232.28
$254,491,224.00	$7,634,736.72	$11,452,105.08
$359,578,648.00	$10,787,359.44	$16,181,039.16
$349,151,712.00	$10,474,551.36	$15,711,827.04
$386,667,424.00	$11,600,022.72	$17,400,034.08
$335,441,340.00	$10,063,240.20	$15,094,860.30
$395,209,880.00	$11,856,296.40	$17,784,444.60
$397,330,437.03	$11,919,913.11	$17,879,869.67
$394,306,380.00	$11,829,191.40	$17,743,787.10

Graves Garrett LLC

Based on these figures, Missouri businesses must also decide whether to pass along any increase in wage costs (wages and mandatory payments).[4]

Year of final prescribed wage increase	Annual Cost to Business from Increased Wage	Annual Decreased Corporate Income Tax if cost is fully absorbed	Annual Decreased Corporate Income Tax if cost is 50% absorbed
2021 ($11)	$412,266,214.62	$25,766,638.41	$12,883,319.21
2022 ($11)	$368,599,008.34	$23,037,438.02	$11,518,719.01
2022 ($12)	$642,388,413.94	$40,149,275.87	$20,074,637.94
2023 ($12)	$592,432,863.05	$37,027,053.94	$18,513,526.97
2023 ($13)	$885,607,785.92	$55,350,486.62	$27,675,243.31
2024 ($12)	$543,831,587.91	$33,989,474.24	$16,994,737.12
2024 ($13)	$833,981,235.80	$52,123,827.23	$26,061,913.62
2025 ($13)	$782,346,397.64	$48,896,649.85	$24,448,324.93
2026 ($13)	$731,150,265.50	$45,696,891.59	$22,848,445.80

Assuming businesses absorb half of the cost of increased wages, and 75 percent of affected workers pay the new, higher taxes, the effect on state income tax collections is estimated to be:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss
2021 ($11)	($516,086.93)
2022 ($11)	($66,613.93)
2022 ($12)	($3,893,598.78)
2023 ($12)	($2,801,699.93)
2023 ($13)	($10,275,209.23)
2024 ($12)	($1,899,876.82)
2024 ($13)	($8,277,469.02)
2025 ($13)	($6,568,455.26)
2026 ($13)	($5,104,658.70)

[4] A healthcare benefit cost estimate is not available based on the time limitations imposed by this fiscal note.

Graves Garrett LLC

4. Sales tax revenue gain or loss

Projecting any increase in sales tax revenue resulting from an increased minimum wage would require the auditor's office to conclude, based on data separate and apart from the sheer conjecture typically offered by political activist groups: (1) the net effect on consumer disposable income and (2) the percentage of a consumer's disposable income that is spent on goods subject to the sales tax, taking into consideration that the scope of Missouri's sales tax has been truncated by a voter-approved constitutional amendment from November 2016.

Typically, the Auditor's office multiplies the total increase in worker earnings (which should be adjusted for employment reductions) and multiplies the result by 25 percent, then multiplying that figure by the Missouri the population weighted combined average state and local sales tax in Missouri, 7.81%.[5] Based on this estimate, the population-weighted combined average local sales tax is 3.585%.

However, it would be deceptive to fail to account for sales tax losses from workers whose wages are eliminated or sales tax losses from reduced business profits (attributable to the higher wages paid), which will lower spending by business owners. The first figure is calculable by determining the total annual wages (adjusted for employment deductions) for all workers who lose jobs due to a minimum wage hike, multiplied by 25 percent. The second number is calculable by multiplying the total increase in worker earnings (multiplied by 1.0765 to account for Social Security and Medicare taxes) by approximately 15 percent.[6]

Year of final prescribed wage increase	Annual Net Increase in Wages Paid To Workers	New Wages Spent on Sales Tax Items	Annual Cost to Business from Increased Wage	Annual Business Income No Longer Included in Sales Tax Base (50% passed-through)
2021 ($11)	$274,827,384	$68,706,846	$412,266,214.62	($61,839,932)
2022 ($11)	$254,491,224	$63,622,806	$368,599,008.34	($55,289,851)
2022 ($12)	$359,578,648	$89,894,662	$642,388,413.94	($96,358,262)
2023 ($12)	$349,151,712	$87,287,928	$592,432,863.05	($88,864,929)

[5] http://taxfoundation.org/sites/taxfoundation.org/files/docs/LOST--2015.png.
[6] This estimate would also need to be adjusted to reflect certain employers' mandate under the Affordable Care Act to provide healthcare coverage and pay 60 percent of such coverage.

2023 ($13)	$386,667,424	$96,666,856	$885,607,785.92	($132,841,168)
2024 ($12)	$335,441,340	$83,860,335	$543,831,587.91	($81,574,738)
2024 ($13)	$395,209,880	$98,802,470	$833,981,235.75	($125,097,185)
2025 ($13)	$397,330,437	$99,332,609	$782,346,397.64	($117,351,960)
2026 ($13)	$394,306,380	$98,576,595	$731,150,265.51	($109,672,540)

Accordingly, the annual estimations of the effects on state and local revenue, and total state economic impact are as follows:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss	Annual Net Effect on State Sales Tax	Total Annual Effect on State Tax Revenue	Total Net Loss to State Government from Taxes and Unemployment Insurance	Annual Net Effect on Local Sales Tax
2021 ($11)	($516,086.93)	$290,127.11	($225,959.82)	($17,646,028.59)	$246,178.86
2022 ($11)	($66,613.93)	$352,067.34	$285,453.41	($10,960,559.78)	$298,736.43
2022 ($12)	($3,893,598.78)	($273,087.10)	($4,166,685.88)	($27,127,603.19)	($231,720.06)
2023 ($12)	($2,801,699.93)	($66,628.31)	($2,868,328.24)	($23,205,232.64)	($56,535.50)
2023 ($13)	($10,275,209.23)	($1,528,364.68)	($11,803,573.91)	($40,437,134.18)	($1,296,849.08)
2024 ($12)	($1,899,876.82)	$96,566.47	($1,803,310.36)	($13,770,610.81)	$81,938.65
2024 ($13)	($8,277,469.02)	($1,110,951.72)	($9,388,420.74)	($30,890,662.52)	($942,665.55)
2025 ($13)	($6,136,139.31)	($761,317.55)	($6,897,456.87)	($23,480,843.55)	($645,993.71)
2026 ($13)	($5,104,658.70)	($468,803.67)	($5,573,462.37)	($18,598,808.26)	($397,789.62)

5. Damage to small business

Additionally, any proponent or opponent fiscal note submission is required, pursuant to Missouri law, to state the impact of the initiative on small businesses. According to analysis by the Employment Policies Institute, 40 percent of the minimum wage workforce is employed at businesses with fewer than 50 employees. [7] The impact on extra costs to small business may be more significant than even this 40% figure suggests. Small businesses are more easily shut down by input price increases than large businesses, which have greater access to capital to weather the

[7] https://www.epionline.org/oped/who-really-employs-minimum-wage-workers/

storm. Clearly, small businesses that do not shut down due to increases in the minimum wage will pay higher costs, estimated at about 40% of business' total increased costs, described above.

Conclusion

In conclusion, the State Auditor should attempt to quantify the increased cost to be borne by state and local government entities through increased contracting costs as a result of an increase to the minimum wage. This direct cost is outlined in Section 1.

Indirect costs are outlined in Sections 2 through 5, and show a net loss. Although such second-order effects more difficult to predict, a net loss is easily the most likely outcome. Significantly, this result is only obtainable if the Auditor reviews both the "credit" and "debit" sides of the transfer of wealth from businesses to workers. The Auditor should refrain from taking the proponents' likely invitation to consider and present only the "credit," side, and should attempt to provide a complete picture of all effects of a minimum wage increase, including the loss of revenue to state and local governments from individuals who lose employment. Only conveying (or quantifying) the potential for gain, without fairly conveying the likelihood of net loss, would be deceptive and unfair.

The State Auditor's previous 2018 fiscal notes are a good model. Each of the fiscal notes for the Initiative Petitions should follow the already-established format and state that:

> "[O]perating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could change by an unknown annual amount ranging from a $## million decrease to a $## million increase depending on business decisions."

Should you desire further detail or have any questions about this fiscal impact statement, please do not hesitate to contact me.

Sincerely,

Edward D. Greim

ABOUT THE MISSOURI RESTAURANT ASSOCIATION

With origins dating back to 1916, the Missouri Restaurant Association (MRA) is a statewide trade association representing over 1,500 member establishments. The association's membership is diverse, and includes full service, fast casual, and quick service restaurants, cafeterias, hotels, schools, institutions, contract feeders, and ancillary foodservice providers such as theme parks. The association has been successful in securing support from virtually every segment of the foodservice and hospitality industry.

MRA includes seven chapters as extensions of the parent organization, each with its own Officers, Board of Directors, and limited budget. The association is governed by a Board of Directors comprised of five Officers, 33 Directors, and each President of the seven affiliated chapters.

MRA is dedicated to serving the needs of the foodservice and hospitality industry, enhancing and improving its growth and development, assisting and educating its members in operating more effectively, improving the political and social environment in which the industry conducts business, for the benefit of its members, patrons, employees, and the well-being of the community.

David A. Macpherson is the E.M. Stevens Professor of Economics at Trinity University. He received undergraduate and doctoral degrees in economics from Pennsylvania State University.

Dr. Macpherson has published over 60 articles in leading economics and real estate journals including Review of Economics and Statistics, Industrial and Labor Relations Review, Journal of Labor Economics, Journal of Human Resources, and Journal of Real Estate Economics and Finance. His research has been funded by a variety of entities including the National Science Foundation, Florida Legislature, and the National Association of Realtors. He is co-author of the undergraduate labor economics text, Contemporary Labor Economics, as well as the principles of economics text, Economics: Private and Public Choice. He is included in Who's Who in Economics, Fourth Edition, which includes the 1,200 most frequently cited economists.

THE IMPACT OF A $10.10 MINIMUM WAGE ON JOBS AND TAXPAYER COSTS IN MISSOURI

June 2014

Economic Analysis by **Dr. David Macpherson**
Trinity University

Index

Executive Summary 4
Results 5
Technical Appendix 7

EXECUTIVE SUMMARY

Missouri's minimum wage of $7.50 is linked to rise in most years with the inflation rate. But some state legislators and labor unions would like to raise that figure even higher. For instance, a recent labor union-organized bus tour in the state promoted a $10.10 minimum wage in St. Louis.

Proponents have enthusiastically pointed to the benefits of the $10.10 policy. But there's been far less discussion of the costs involved with a $10.10-an-hour minimum wage—both the cost on employment, and the cost to taxpayers.

In this study, labor economist David Macpherson of Trinity University uses Census Bureau data to estimate the impact on Missouri's labor market and budget from raising the minimum wage to $10.10 an hour. He also provides separate results for the St. Louis metropolitan area.

Dr. Macpherson's employment estimates follow the methodology used by the nonpartisan Congressional Budget Office in its report earlier this year estimating the impact of a $10.10 minimum wage nationwide, which in turn relied on 60 different empirical studies to formulate its estimates.

Statewide, he finds that over 15,000 jobs would be lost at the $10.10 wage level—with 9,300 of those jobs being held by women. In the St. Louis metropolitan area, approximately 4,800 jobs would be lost from a $10.10 minimum wage.

The cost to taxpayers would be significant: There are approximately 40,000 state and local employees whose wages would be affected by the $10.10 increase in Missouri, for a combined cost to taxpayers of $87 million annually.

Raising wages is an admirable goal, but the evidence suggests that accomplishing this goal with a blunt wage mandate could do more harm than good.

RESULTS

The minimum wage is one of the most hotly-debated topics in the political world. Some legislators claim that a higher base wage will stimulate the economy; others claim that it will reduce jobs when affected employers can't offset the higher costs through higher prices.

Economists, who have studied the issue since the late 1940s, tend to take a skeptical view of minimum wage increases. Since the early 1990s, for instance, roughly 85 percent of the most credible research on the minimum wage points to job loss for less-skilled groups. The nonpartisan Congressional Budget Office (CBO), in an evaluation of President Obama's proposed $10.10 minimum wage increase, reviewed 60 different studies and concluded that the policy would eliminate 500,000 jobs if enacted.

The estimates that follow, of the employment impact of a higher minimum wage on Missouri's labor market, were performed by Dr. David Macpherson of Trinity University. Dr. Macpherson followed closely the methodology used by the CBO in its 2014 report. Dr. Macpherson also estimates the taxpayer costs of a higher minimum wage, as many state and local public employees will see their earnings increase when the minimum wage rises.

Dr. Macpherson's methodology is presented in detail in a technical appendix.

Estimated Employment Effects of a $10.10 Minimum Wage in Missouri

Statewide, Dr. Macpherson finds that increasing the minimum wage to $10.10 would eliminate over 15,000 jobs—approximately 60 percent of which are jobs held by women. The bulk of the job losses would be concentrated among individuals with a high school degree or less, and among people who work in the retail or leisure & hospitality industries.

(Note: Totals have slight discrepancies due to rounding.)

City-Specific Minimum Wage Employment Impacts

The city of St. Louis has been the subject of a number of protests calling for a higher minimum wage. Dr. Macpherson analyzed the employment impact of a $10.10 minimum wage in the St. Louis metropolitan area, providing breakouts by gender and education where the data permits. He estimates that the wage hike would eliminate approximately 5,000 jobs—just over half of which would be jobs held by women.

Impact on St. Louis Metro Area of a $10.10 Minimum Wage

RESULTS CONTINUED

Missouri Taxpayer Costs of a $10.10 Minimum Wage

Dr. Macpherson estimates that approximately forty thousand state & local public employees would be affected by a minimum wage increase to $10.10 an hour. These additional wage costs translate to new costs for state and local taxpayers. Following the methodology described in detail in the technical appendix, Dr. Macpherson estimates both the straight wage cost of a $10.10 minimum wage, as well as the total compensation cost with Social Security, Medicare, workers compensation, and unemployment insurance included. Statewide, taxpayers would shoulder an additional $87 million in costs if the base wage was increased to $10.10 an hour and public employees were covered by the new wage.

Missouri Taxpayer Costs of a $10.10 Minimum Wage	
# of State & Local Workers	304,588
# Affected By $10.10 MW	40,103
Annual Wage Cost	$79,629,374
Annual Compensation Cost	$87,004,355

Note: Annual compensation costs include the cost of worker's compensation, FICA, and unemployment insurance benefits.

TECHNICAL APPENDIX

Estimating Employment Loss and the Cost to State and Local Government of an Increase in the Minimum Wage

Dr. David Macpherson
E.M. Stevens Professor of Economics
Trinity University

This paper describes how we estimate the employment loss and the cost to state and local governments of a proposed increase in the minimum wage effective on January 1, 2015.

Data and Sample

First, we use data from the Current Population Survey (CPS) Outgoing Rotation Groups (ORG) from January 2011 through December 2013. For each worker in the sample, we calculate their wage rate. We also adjust the wage rate to reflect a forecast of wages in 2015. This is done in two steps. First, based on legislation enacted as of April 2014, we estimate the minimum wage that would be in effect in January 2015 for each state and city that we consider. If a state or city has an indexed minimum wage, we increase the January 2014 state or city minimum wage by the Congressional Budget Office (CBO) inflation forecast for 2014 of 1.7%.

Since we use data from 2011 through 2013, we also follow the CBO approach for forecasting what the wage distribution would be in 2015. This is done in two steps. First, we adjust wages observed prior to 2013 to reflect 2013 minimum wage legislation. For example, if the minimum wage in a state was $7.25 in 2011 and grew to $8.00 by 2013, anyone who earned between $7.25 and $8.00 in 2011 would have their wage increased to $8.00. After wages are adjusted to 2013 levels, we assume that all wages grow by 2.9% in 2014. Using the resulting 2015 distribution of wages, we adjust for minimum wage legislation that would increase the minimum between 2013 and 2015. Anyone earning a wage between the 2013 and 2015 minimum wage is assigned a wage matching the 2015 minimum wage.

After generating the forecast 2015 distribution of wages reflecting wage growth and existing minimum wage legislation, we identify workers who would be affected by additional changes to the 2015 minimum wage as those with wages between the predicted minimum wage legislated for 2015 (or up to $.25 below it) and the proposed minimum.

To estimate the number of affected workers, we take two steps. First, for each state, we estimate the number of affected workers for 2013. Second, we adjust the weights in the 2011 and 2012 data so that the state-specific number of affected workers implied by the 2011 and 2012 data matches that for 2013. This adjustment is designed to correct for the changing economic climate as the economy recovers from the great recession and to generate estimates that are as close as possible to the most recent data (2013). After we adjust the 2011 and 2012 weights, we estimate the number of affected workers by summing their earnings weights and dividing the total by 36 (the number of months of data).

[1] Also, following CBO, anyone earning up to $.25 less than the 2011 minimum wage would have their wage increased by the amount that the minimum wage increased (i.e. a $7.00 wage would be increased to $7.75 in this example). This approach is used to adjust for the fact that many workers round their answers when asked about their wage.

TECHINCAL APPENDIX CONTINUED

Employment Loss

To estimate employment loss, for each affected worker we compute:

L = e *(Proposed Min Wage /Min Wage 2015 – 1)

where e is an assumed elasticity of employment with respect to changes in the minimum wage, Min Wage 2015 is the minimum wage currently legislated for 2015, and Proposed Min Wage is the minimum wage that is being proposed for 2015. Thus, for example, if a worker is projected to earn the federal minimum of $7.25 in 2015, the expected reduction in employment resulting from a $10.10 minimum wage in 2015 if e=.45 is .45*(10.10/7.25 – 1) = .18. That is, for every 100 workers currently earning the federal minimum, the expectation is that 18 would lose a job if the minimum wage elasticity is .45.

To estimate the aggregate employment loss in the economy, we use earnings weights to sum L across workers. We also follow the Congressional Budget Office (2014) and use an elasticity of 0.15 for non-teenagers and 0.45 for teenagers.

Cost to State and Local Government

We use the same data to estimate the cost to state and local government of a proposed minimum wage hike. We apply the same definition of affected workers described above and estimate the number of state and local government workers affected by a minimum wage hike. We do not, however, assume that there is any job loss for state and local workers as we do not have an appropriate elasticity estimate specific to state and local workers. To the extent that state or local governments reduce hours or employment in response tothe minimum wage hike, our estimate of the cost of the hike would be overstated.

To estimate the increase in annual payroll cost resulting from an increase in the minimum wage, we estimate the increase in annual cost for each worker as:

(Proposed Min Wage-Min Wage 2015)*weekly hours*52

We then multiply the increase in annual cost by the earnings weight for each worker and sum across workers. Since an increase in wages also requires increased employer contributions for Social Security, Medicare, workers' compensation and unemployment insurance, we apply an estimate of the payroll tax rate for these mandatory programs to calculate the additional cost for these programs.

For each state and city considered, we provide tables summarizing the number of affected workers, employment loss, and the distribution of employment loss by sex, education, race, age and industry. Given that we use three years of data, a rule of thumb for minimum sample size required to achieve a reasonably accurate estimate of the employment loss is to require at least 30,000 people be in the relevant category. For example, if there are fewer than 30,000 people projected to be in a particular industry category, the Bureau of Labor Statistics would not report the estimate due to a lack of reliability based on the variance of the estimate relative to its mean.

In addition to the estimate of employment loss, for each state or city considered, we estimate the number of state and local workers that would be affected by the minimum wage hike and the total annual cost to government in terms of wages and total compensation. As with the employment estimates, we advise caution in interpreting estimates that are based on fewer than 30,000 affected workers.

[3] Congressional Budget Office, "The Effects of a Minimum-Wage Increase on Employment and Family Income," February 2014.

[4] For workers paid by the hour the reported hourly wage was used. For workers who are not paid by the hour, we calculate the hourly wage by dividing usual weekly earnings by usual weekly hours. Overtime pay was calculated as time and one-half for hours above 40 hours for hourly workers.

[5] The assumed payroll tax for Medicare and Social Security is 7.65 percent. To estimate the payroll tax for workers' compensation and unemployment insurance, we use unpublished data from the 2010 Employer Cost of Employee Compensation database for state and local workers in the relevant region in 2010.

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

Prepared for

Victor Allred versus Robin Carnahan and Thomas Schweich
Circuit Court of Cole County, Missouri

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

I. Introduction

This report was undertaken at the request of counsel representing plaintiffs in the case of Victor Allred versus Robin Carnahan and Thomas Schweich. As part of the basis of the lawsuit, the plaintiffs allege that the fiscal note summaries for proposed statutory initiative petitions 2012-084 and 2012-085 are insufficient and unfair. I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will

range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

The report is organized as follows. My qualifications to prepare this report are contained in Section II. Section III describes the data and records I relied upon for this report. Section IV reviews the estimated fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085. A summary and my conclusions are provided in Section VI.

II. Qualifications

I am currently the E.M. Stevens Professor of Economics at Trinity University in San Antonio, Texas. Previously, I was employed by Florida State University as Director of the Pepper Institute on Aging and Public Policy and the Rod and Hope Brim Eminent Scholar in Economics. I have taught both undergraduate and graduate Econometrics (statistical analysis of economic data), and Labor Economics. I have published over 50 articles in peer-reviewed professional journals.

I am currently serving on the editorial board of the *Journal of Forensic Economics*, which is a peer-reviewed journal. I have also served as a reviewer or 'referee' for 24 peer-reviewed journals, including the *Journal of Human Resources, Journal of Labor Economics, Quarterly Journal of Economics,* and the *Review of Economics and Statistics*. Based upon these experiences, I am very familiar with the scholarly and professional research process and the concept of peer review.

I have prepared numerous analyses and reports that use statistical methods as applied to specific questions. I have been responsible for developing the techniques and approaches required for these analyses. I routinely use computers and statistical software packages to assist me in my analytical work. I have been qualified as an expert witness on statistical analysis of employment discrimination and economic damages in state courts in Florida and Georgia and Federal Courts, and I have given expert testimony. I have prepared analyses and offered testimony on behalf of both plaintiffs and defendants.

Details of my qualifications are reflected in my current resume and legal cases, attached as Appendix A to the report.

III. Data and Records

I reviewed the following materials in preparing this report.

- Plaintiff's Complaint
- Material cited in footnotes below.

IV. Fiscal Impact

A. Overview

The proposed statutory initiative petitions 2012-084 and 2012-085 contain many elements in common. Both initiatives would increase the Missouri minimum wage to $8.25 per hour, alter the exemption for retail and service firms, raise the cash wage of tipped workers from 50% to 60% of the minimum wage, and increase the statute of limitation from two to three year for underpayment claims.

The initiatives differ in their linkage to the federal minimum wage. Initiative petition 2012-084 requires that the state minimum wage be automatically increased to the

federal minimum wage if it is higher than the state minimum wage. Initiative petition 2012-085 does not have such a linkage. It only requires that workers be paid the higher of the state minimum wage or the federal minimum wage. The linkage to the federal minimum wage will cause the state minimum wage to be higher under initiative petition 2012-084 over time. This is because the state minimum wage, in contrast to the federal minimum wage, is adjusted for inflation as measured by the Consumer Price Index.

An increase in the minimum wage in Missouri will affect state and local government entities in two ways. First, it will directly increase the cost of labor to state and local government entities. This will occur due to the increase in wages of state and local government workers earning between the existing minimum wage of $7.25 and the new minimum wage of $8.25.[1] In addition, workers laid off due to the minimum wage increase can collect unemployment benefits. The state government will bear the cost of unemployment benefits of these workers for the first 20 weeks. Second, state and local government may gain increased revenue through higher income tax and sales taxes paid by workers affected by the minimum wage who remain employed. However, state and local government will suffer reduced tax revenue to the extent the higher wage cost lowers profits of businesses.

The following sections estimate the cost and revenue effects to state and local government entities of the proposed minimum wage increase.

[1] Information about the minimum wage in Missouri is available at http://www.labor.mo.gov/DLS/minimumwage/.

B. Direct Labor Cost Impact on State and Local Government Budgets

There are two possible ways to measure the direct labor cost on state and local government budgets. First, one can use the information included in the fiscal notes prepared by the State Auditor regarding the proposed initiatives. It is important to note that the fiscal notes provide an incomplete and thus too low estimate of the direct labor cost. The fiscal notes indicate that the Office of Administration's (OA) Division of Personnel reported that as of September 2011 there were 834 state workers who would be affected by an increase of the minimum wage to $8.25 and the "approximate annual cost" would be more than $540,000.

This OA estimate excludes seasonal workers such as State Fair employees, State Parks Employees, and tax season staff. The Division of Revenue noted its labor cost would rise by $40,000. The Division of Natural Resources stated they have over 500 workers who would be affected by the increase, but did not provide an estimate of the cost. The State Fair hired 745 workers that would be affected, but no cost estimate was provided.

Thus, the cost to state government, based on the fiscal notes, would be more than $580,000.

The fiscal notes also provide an incomplete and thus too low measure of the cost to local government and public educational institutions. Many cities and educational institutions did not respond to Office of Auditor's survey or provide an estimate of the cost of the higher minimum wage. The City of Columbia, City of Jefferson, City of

Joseph, Linn State Technical College, and Metropolitan Community College did provide such an estimate. The total cost to these five institutions is $772,182.

Based on the fiscal notes, the cost to state and local government entities of the increase in the minimum wage to $8.25 will be more than $1,352,182.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can also be used to calculate the cost of the increased labor cost to state and local government entities in Missouri. Using the data from January 2010 to December 2011 Outgoing Rotation Group (ORG) CPS, I calculated that 17,089 state and local government workers would be affected by the minimum wage increase. I defined affected workers as those individuals earning between $7.00 and $8.24 per hour. Though the minimum wage was $7.25 per hour during this period, I also included those workers reporting earnings of $7.00 to $7.24 since some individuals may round their wage rate. I calculated the annual wage cost for each state and local government worker (i) in the ORG CPS as:

$$Annual\ Wage\ Cost_i = (\$8.25 - current\ wage_i) * weekly\ hours_i * 52.$$[2]

The average annual wage cost increase was $870. I summed the cost over each worker (i) to obtain the total wage cost to state and local government entities in Missouri of $14,866,430.

The increased wage cost is not the only labor cost to state and local government entities of the minimum wage increase. Employers are required to pay 7.65% of their wage costs in Social Security and Medicare taxes. Thus, the total labor cost of the minimum wage increase will be 1.0765 times $14,866,430 or $16,003,712.

---

[2] I assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour.

C. Unemployment Benefit Impact

The higher minimum wage will cause firms to reduce their level of employment.[3] As a result, the number of unemployed workers will increase. Thus, another important fiscal cost of the minimum wage increase is the cost of the unemployment insurance benefits for the workers laid off as a result of the minimum wage increase.

To calculate the cost to the unemployment benefits program, I first calculated the number of workers laid off. To do so, I calculated a probability of job loss for each affected Missouri worker (i) in the January 2010 to December 2011 ORG CPS:

$$Probability\ Job\ Loss_{\ i} = \frac{(\$8.25 - Current\ Wage_i)}{Current\ Wage_i} * elasticity_i.$$

I used the preferred employment elasticity (i.e., sensitivity of employment to wage changes) contained in Sabia and Burkhauser (2010), which was -0.6 for individuals aged 16 to 29 without a high school degree and -0.2 for all other individuals. The sole exception was for state and local government workers, where I assumed an elasticity of zero.[4] The sum across all affected workers yielded an estimated job loss of 5,745 jobs.

The next step was to calculate the weekly benefit for the average unemployed worker. Using the benefits calculator on the Missouri unemployment benefits web site and the wage income of average private-sector affected worker ($10,937), yields an average weekly benefit of $109.36[5]. The state of Missouri pays the first 20 weeks of benefits.[6] Thus, each eligible unemployed worker could receive a total of $2,187.20 in

---

[3] For a survey of research regarding the effect of the minimum wage on employment, see David Neumark and William L. Wascher, *Minimum Wages* (Cambridge, MA: MIT Press, 2008).
[4] Joseph J. Sabia and Richard V. Burkhauser, "Minimum Wages and Poverty: Will a $9.50 Federal Minimum Wage Really Help the Working Poor?" *Southern Economic Journal* (January 2010): 592-623.
[5] http://www.labor.mo.gov/DES/Claims/calculator.asp
[6] See http://www.labor.mo.gov/DES/Claims/

benefits paid for by the state of Missouri. These jobs are permanently eliminated and so it is appropriate to calculate the full amount of benefits for each worker.

Unemployment insurance, however, does not cover all unemployed workers. For example, it does not cover people who leave a job voluntarily, people looking for their first job, and re-entrants who previously left the labor force voluntarily. Furthermore, some individuals don't apply for benefits even though they are eligible. I assume that 35% of the unemployed workers will receive unemployment benefits based on analysis by Wenger (2001).[7]

The last step is to calculate the total cost to the Missouri unemployment benefits program. This done by multiplying the number of jobs lost (5,745) times the average benefit amount ($2,187.20) times the percent of unemployed individuals collecting benefits (35%). This calculation yields a figure of $4,397,510. This cost would be borne only during the first year of the minimum wage increase. The inflation adjustments in the minimum wage will also yield costs to the unemployment insurance program, but it is not possible to estimate the amount.

D. Impact on State Income Tax Revenue

The state of Missouri will gain increased revenue through higher income tax taxes paid by workers affected by the minimum wage who remain employed. However, it will

[7] Jeffery Wenger. "Divided We Fall: Deserving Workers Slip through America's Patchwork Unemployment Insurance System." *Economic Policy Institute*, 2001. Sabia and Burkhauser (2010) make the same assumption in their calculation of the amount of unemployment benefits generated by a minimum wage increase.

suffer reduced corporate income tax revenue to the extent the higher wage cost lowers profits of businesses.

To calculate the impact on individual income tax revenue, I again used data from January 2010 to December 2011 ORG CPS. I defined affected workers as those Missouri individuals earning between $7.00 and $8.24 per hour.[8] I used the following formula to estimate the change in income tax revenue:

$$\Delta Tax\ Revenue_i = (Tax_After_i - Tax_Before_i) - Prob_Job_Loss_i * Tax_Before_i,$$

where Tax_After_i is the income tax paid by worker i after the minimum wage increase. Tax_Before_i is the income tax paid by worker i after the minimum wage increase, and $Prob_Job_Loss_i$ is the probability of job loss for worker i. The first term shows the change in individual income tax revenue assuming no job loss and the second term shows the loss in tax revenue due to the employment loss caused by the minimum wage increase.

The income tax calculations were based on two assumptions.[9] First, the 50% percent of affected workers who were under the age 25 who were assumed to be dependents on another person's tax return. As a result, it was assumed that the affected workers' earnings were taxable at the maximum Missouri income tax rate of 6% both and after the minimum wage increase.[10] Second, all persons age 25 and older were assumed to be paying little or no income tax after exemptions and deductions. Thus, about 50% of the earnings increase will be taxed at a rate of 6%.

---

[8] I again assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour. The annual earnings level was calculated as the worker's wage rate times usual weekly hours worked times 52.

[9] The same assumptions are used in the State Auditor's fiscal notes for the initiatives.

[10] This assumption will overstate the revenue increase as 20% of affected workers under the age 25 are living by themselves and some of these individuals will not be a dependent on another person's tax return.

The tax calculations reveal an increase in income tax revenue increase to the state. Assuming no workers were laid off by the minimum wage increase, income tax revenue would rise by $6,043,534. However, the state will lose $1,965,446 in income tax revenue due to the lost earnings of private-sector workers no longer employed due to the minimum wage hike.[11] Thus, the net increase in individual income tax revenue is $4,078,088.

Businesses have three options to respond to the higher labor costs of a higher minimum wage. They can reduce their profits, raise prices, or lay off workers. Based on the 2010-2011 ORG CPS data, the minimum wage increase will raise private-sector labor costs by $192,620,900 if employment levels are not reduced. However, labor costs will be lowered by $55,240,790 due to the reduction in employment. Thus, labor costs will, on net, rise by $137,380,110. These increased labor costs may be either passed on to consumers through higher prices or reduced profits or more likely some combination of higher prices and reduced profits. Assuming that businesses absorbed all of the higher costs through reduced profits, the corporate income tax revenue would fall by the Missouri corporate income tax of 6.25% times the rise in labor costs of $137,380,110 * 1.0765 (to account for employer-paid Social Security and Medicare taxes) or $9,243,106.[12] Alternatively, if half of the higher labor costs were passed on to consumers, then corporate income tax revenue would fall by $4,621,553.

[11] The probability of job loss was calculated in the same manner as in the prior section.
[12] The corporate income tax for Missouri is available at: http://dor.mo.gov/business/corporate/

E. Impact on State and Local Sales Tax Revenue

To calculate the impact on state and local sales tax revenue the following approach was undertaken.[13] First, the total increase in worker earnings, adjusted for employment reductions, was calculated using the 2010-2011 ORG CPS. This figure was $152,246,540. Second, the increase in Missouri taxable sales was calculated as 25% of the earnings increase or $38,061,635. Third, the increase in sales tax revenue was calculated by multiplying the taxable sales change times the average state and local rate of 7.67% or $2,919,327.[14]

The higher minimum wage may decrease sales tax revenue to the extent that it reduces business profits, which will lower spending by business owners.

VI. Summary and Conclusions

I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

[13] The same general approach is used in the State Auditor's fiscal notes for the initiatives.
[14] The average rate comes from http://taxfoundation.org/news/show/27023.html

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

Miami University Faculty Research Grant, 6/1989-8/1989, $4,000, "Declining Unionism and the Gender Wage Gap," with William Even.

Participation in National Meetings

Panel Discussant, American Real Estate and Urban Economics Association/ASSA meetings, January 2008.

Presented, "Employee Turnover in the Long-Term Care Industry," at Academy Health Annual Research Meetings, June 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at International Atlantic Economic Society meetings, October 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at International Atlantic Economic Society meetings, October 2005.

Presented, "Replacing Earnings After Termination: Evidence from the Displaced Worker Survey," at the Allied Social Science Association/National Association of Forensic Economics, January 2002.

Presented, "Labor Market Transitions of Older Workers," at the Allied Social Science Association/Society of Government Economists meetings, January 1999.

Presented, "Why has the Loss in Pension Coverage Accelerated Among Less Educated Workers?" at the American Economic Association Meetings, 1995.

Presented, "Wages and Gender Composition: Why Do Women's Jobs Pay Less?" at the American Economic Association Meetings, 1994, with Barry Hirsch.

Presented, "Pensions, Labor Turnover, and Employer Size" at the American Economic Association Meetings, 1993, with William Even.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the American Economic Association meetings, 1992, with William Even.

Participation in Regional Meetings

Presented "Unions and Pension Performance: The Role of Pension Design," at Southern Economics Association meetings, November 2009.

Panel member, "Recent Federal Reserve Policy: An Evaluation" at Southern Economics Association meetings, November 2009.

Discussant, "Topics in Health Economics," at Southern Economics Association meetings, November 2009.

Discussant, "Teacher Pay, Principals, and Schooling," at Southern Economics Association meetings, November 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Western Economic Association meetings, July 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Eastern Economic Association meetings, February 2009.

Panel Discussant at the Southern Economic Association meetings, November 2008.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Southern Economic Association meetings, November 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Western Economic Association meetings, July 2008.

Chair "Pensions and Retirement" Session at Southern Economic Association meetings, November 2007.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Southern Economic Association meetings, November 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at Southern Economic Association meetings, November 2006.

Panel Discussant, Southern Economic Association meetings, November 2005.

Presented, "Do Pensions Impede Phased Retirement?" at the Southern Economic Association meetings, November 2004.

Presented, "When Will the Gender Gap in Retirement Income Narrow?" at the Southern Economic Association meetings, November 2003.

Presented, "How Will the Growth of DC and 401(k) Plans Affect Pension Income?" at the Southern Economic Association meetings, November 2002.

Presented, "Racial Composition, Wages, and Quality Sorting," at the Southern Economic Association meetings, November 1999.

Presented, "Racial and Ethnic Differences in Pension Coverage and Benefit Levels," at the Southern Economic Association meetings, November 1998.

Presented, "Factors Influencing Participation and Contribution Levels in 401(k) Plans," at the Western Economics Association meetings, July 1998.

Presented, "Aging at Work: Employment Determination, Firm Strategies, and Public Policy in the United States," at the Western Economic Association meetings, July 1994.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Western Economic Association meetings, July 1992.

Presented "Plant Size and the Decline of Unionism," at the Southern Economic Association meetings, 1989, with William Even.

Panel Discussant, Southern Economic Association meetings, November 1989.

Presented "The Labor Force Participation and Earnings Profiles of Married Female Immigrants," at the Southern Economic Association meetings, November 1988.

Presented "Pensions, Screening, and the Gender Wage Gap," at the Southern Economic Association meetings, November 1988.

Session Chair and Panel Discussant at the Southern Economic Association meetings, November 1988.

Participation in Invited Seminars, Conferences, and other Presentations

Presented, "Teaching Macroeconomics During Troubled Times," at Creative Ideas for Your Basic Economics Course Conference at Florida State University, February 2012.

Presented, "Participant Direction in Defined Contribution Pension Plans," at Pennsylvania State University, April 2010.

Presented, "The Parallels Between the Japanese Economic Crisis of the 1990s and the US Today" at Creative Ideas for Your Basic Economics Course Conference at Florida State University, February 2010.

Chair "Minimum Wage & EITC" Session at Society of Labor Economists meetings, May 2009.

Presented "Participant Direction in Defined Contribution Plans," at Lehigh University, April 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Association of Private Enterprise Education meetings, April 2009.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Trinity University, October 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Georgia State University, April 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Association of Private Enterprise Education meetings, April 2008.
Presented, "Improving Pension Coverage at Small Firms," at Hudson Institute, May 2006.

Presented, "Participant Direction in Defined Contribution Plans," at Society of Labor Economics meetings, May 2006.

Presented, "Participant Direction in Defined Contribution Plans," at Association of Private Enterprise Education meetings, April 2006.

Presented, "Participant Direction in Defined Contribution Plans," at University of Wisconsin-Milwaukee, April 2006.

Invited Panel Participant for Pepper Foundation and Center Symposium on pension reform, Washington, DC, February 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at West Virginia University, April 2005.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at the University of Kentucky, November 2004.

Presented, "The Causes and Consequences of Company Stock Holdings in Pension Funds," at the Federal Reserve Bank of Atlanta, April 2004.

Presented, "The Causes and Consequences of Company Stock Holdings in Pension Funds," at the University of Oklahoma, February 2004.

Presented, "Tracking Union and Nonunion Wages in the U.S.: Can the Evidence be Reconciled?" at the Middlebury Annual Conference on Economic Issues, April 2002.

Presented, "How Will the Growth of DC and 401(k) Plans Affect Pension Income?" at the Miami University Center for Pension and Retirement Research Conference, June 2001.

Presented, "Benefits and Worker Productivity," Benefits for the Workplace of Tomorrow Conference, Wharton School, University of Pennsylvania, May 2001.

Participant, Innovations in Managing the Financial Risks of Retirement Conference, Wharton School, University of Pennsylvania, May 2000.

Presented "Using Hi-Tech in Large Lectures," at Association of Private Enterprise Education meetings, April 2000.

Presented "Employee Participation in 401(k) Plans," at University of Wisconsin-Milwaukee, October 1999.

Presented "Gender, Race, and Ethnicity in the Labor Market," as part of the Smith Chair course in Labor Economics at Brigham Young University, September 1999.

Presented, "The Decline in Pension Coverage Among Less Educated Workers," at the Florida State University Economics Department Seminar Series, 1996.

Presented, "Children's Effects on Women's Labor Market Attachment and Earnings" at the Conference on the Changes in Working Time in Canada and the United States, Canadian Employment Research Forum, 1996.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" at the Ohio State University Economics Department Seminar Series, 1996.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" at the Florida State University Economics Department Seminar Series, 1995.

Presented, "Employer Size and Labor Turnover: The Role of Pensions," at Syracuse University, 1995.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" while visiting scholar at the Federal Reserve Bank of Cleveland, 1995.

Presented, "Trends in Individual and Household Pension Coverage," at the Miami University Center for Pension and Retirement Research Conference, 1994.

Presented, "Racial Composition, Quality Sorting, and the Black-White Wage Gap" at the University of Wisconsin, Institute for Research on Poverty, Small Grants Workshop, 1993, with Barry Hirsch.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Florida State University Economics Department Seminar Series, 1992.

Participant at National Bureau of Economic Research (NBER) Labor Studies meetings of the Summer Institute, 1992.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Miami University Conference on Current Pension Policy Issues, 1992.

Organizer and participant at conference on "Contemporary Issues in Pension Economics," hosted by the Center for Pension and Retirement Research, Miami University, 1990.

Presented "The Effect of International Competition on Union and Nonunion Wages," at the University of Cincinnati Seminar Series, 1987.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, Version 19 (2018-214)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on April 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Joshua D. Hawley

County _____

Page No. _____

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

INITIATIVE PETITION

To the Honorable John (Jay) Ashcroft, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed law shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 6th day of November, 2018 and each for himself or herself says: I have personally signed this petition, I am a registered voter of the state of Missouri and _____ County (or city of St. Louis), my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

[Official Ballot title]

Be it enacted by the people of the state of Missouri:

Section 290.502 of the Revised Statutes of Missouri is amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.75 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.75 per hour, effective January 1 of each of the next three years, until it reaches $11.00 per hour, effective January 1, 2022. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2023, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-214)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received April 4, 2017)

Date

April 24, 2017

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election**

Commissioners City of St. Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners**.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided information as proponents of the proposal to the State Auditor's office.

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided information as an opponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations. They do not expect that the enactment of this proposal would result in any other increased costs to their office.

Officials from the **Department of Agriculture** indicated there is no fiscal impact to their department for this initiative petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department since public employers are exempt from the new provisions proposed.

Officials from the **Department of Health and Senior Services** indicated this proposal would have no direct fiscal impact on their department since government employees are exempt from its provisions. However, employees of certain entities that receive funding through the department's budget would be impacted, such as Medicaid Home and Community Based Services vendors/providers and Area Agencies on Aging.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department defers to the Office of Administration to determine the fiscal impact of this proposal.

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department. Their department defers to the Office of Administration for a state impact.

Officials from the **Department of Public Safety - Office of the Director** indicated they will defer to the response provided for this initiative petition by the Office of Administration - Human Resources.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to the Office of Administration.

Officials from the **Governor's office** indicated there should be no added cost or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Officials from the **Office of Administration** indicated the proposal amends Sections 290.502, RSMo and adds Section 290.529, RSMo.

Section 290.502, RSMo, increases the minimum wage to $8.75 per hour, beginning January 1, 2019 and by another $0.75 per hour each year until it reaches $11.00 per hour beginning January 1, 2022. Thereafter, the minimum wage will be adjusted annually based on the increase/decrease in the cost of living.

The proposal exempts public employers from both requirements; therefore, there would be no cost to the State of Missouri.

Because no tax rates are affected, there is no direct impact on general and total state revenues. However, these proposals may have several indirect affects, which could impact revenue collections by an unknown amount, including but not limited to:

- Increased wages for certain employees. According to the US BLS, in 2015, Missouri had 57,000 hourly employees earning wages at or below the federal minimum wage;[1]
- Increased consumption by those employees;
- Lower overall employment (if employers choose to hold costs steady);

[1] http://www.bls.gov/opub/reports/minimum-wage/2015/home.htm

- Lower business investment (if employers' payrolls increase);
- Increased prices as firms pass–through labor costs.

This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated they do not predict an immediate fiscal impact upon their office if Missouri's minimum wage rate were increased to $11.00 per hour. However, the potential future impact of applying cost of living increases and/or increases in the federal minimum wage to a Missouri minimum wage of $11.00 per hour, as called for elsewhere in Section 290.502, RSMo., is unknown.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition may have a small negative fiscal impact on their city as a result of the increased hourly minimum wage being higher than the hourly rate paid some city employees.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated they are not able to estimate any significant financial impact on their university.

Officials from **University of Central Missouri** indicated they estimate no fiscal impact since they are excluded under the public employer definition in section 4.

Officials from the **Missouri State University** indicated no fiscal impact.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated the wording is unclear as to whether Colleges/Universities are included in this petition. In assuming they are included, they calculate the following significant fiscal impact to their university. The proposal will have a severe negative fiscal impact on the university. The proposed minimum wage increase to $8.75 per hour beginning in 2019 and continuing with .75 increases for the next 3 years to $11.00 per hour will result in approximately $1,236,000.00 increase in a three year span in their payroll expenditures. This increase would be detrimental to the university.

Officials from the **Kansas City Board of Election Commissioners** indicated no fiscal effect on their operations.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition does not have a fiscal impact on their office.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided the following information as proponents of this initiative petition.

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced Minimum Wage Initiative Petitions. Pursuant to RSMo. Section 116.175, we write to submit the following fiscal impact information to assist your office in its analysis of the fiscal impact of the above-mentioned seven proposed Minimum Wage Initiative Petitions.

Our analysis estimates the impact of the proposed Minimum Wage Initiative Petitions on state and local sales and personal income tax revenue in Missouri. We follow the process that has been used in the past to estimate the impact of minimum initiative petitions on state and local sales and personal income tax revenue, with some refinements. We also address certain claims that have been made by opponents of similar initiative petitions in the past.

As these petitions exclude public workers from the proposed minimum wage increases, we do not include in our analysis an estimate of the impact on state and local payroll costs of the proposed Minimum Wage Initiative Petitions.

I. Estimate of Number of Workers Affected Statewide and the Impact on Their Wages

Table 1. Summary of the Number of Affected Workers and Aggregate Wage Increases for Missouri in the Final Year of Minimum Wage Implementation.

Proposal	Year of Peak Minimum Wage (MW)	Proposed Peak MW	Tipped MW in Peak MW Year	Workers Affected by MW increase	Aggregate Annual Wage Increase in Nominal Dollars
13,14,15[a]	2023	$ 12.00	$ 6.00	835,350	$4,358,798,129
16,17,18[a]	2024	$ 12.00	$ 6.00	819,652	$4,209,438,048
19,20,21[a]	2025	$ 13.00	$ 6.50	900,788	$5,309,336,662
22,23,24[a]	2022	$ 11.00	$ 5.50	738,515	$3,347,138,756
25	2021	$ 11.00	$ 5.50	761,164	$3,469,534,559
26	2022	$ 12.00	$ 6.00	852,284	$4,510,285,824
27	2023	$ 13.00	$ 6.50	949,801	$5,667,065,534
28	2024	$ 12.00	$ 9.60	832,328	$4,288,614,460
29	2025	$ 13.00	$ 7.80	905,942	$5,332,471,496
30	2022	$ 12.00	$ 8.40	864,090	$4,558,317,729
31	2022	$ 12.00	$ 6.84	855,887	$4,523,341,931

32	2023	$ 13.00	$ 9.75	948,421	$5,745,051,956
33	2023	$ 13.00	$ 7.54	942,566	$5,685,951,766

Notes: Author's Analysis of American Community Survey (ACS) Data from 2014.
(a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

Across the proposals analyzed, the total aggregate wage increase for workers in Missouri ranges from a low of $3.347 billion (Proposals 22-24) to a high of $5.745 billion under Proposal 32. While some proposals have the same final impact numbers, they have different impacts in the initial years (not listed) based on the relative pace of increases in earlier years. A full, year-by-year impact analysis is presented in Appendix Tables A1 through A13 below.

The wage impact of an increase in the minimum wage for the state of Missouri is calculated using the following procedure. The American Community Survey (ACS) Public Use Micro Sample for the most recent year available (2014) for the state of Missouri was downloaded from the US Census Bureau. The American Community Survey was chosen over the Current Population survey because the ACS has a significantly larger sample. We followed the method of Perry, Thomason, and Bernhardt (2016) for calculating an hourly wage rate from the ACS based on observed total annual wage income, typical hours worked each week and weeks worked per year. Since ACS income figures are clustered around whole-numbers, we smoothed the wage distribution by randomly adding or subtracting $0.25 from each wage figure.

Wage adjustments were made only for those individuals earning less than the proposed minimum wage, or proposed tipped minimum wage. We did not make additional adjustments for the "ripple effect" of minimum wage increases on workers earning slightly above the new threshold. Recent evidence suggests that workers earning up to 15 percent above of the minimum wage also receive small increases in response to a minimum wage increase. (See Wicks-Lim (2006) and Dube, Giuliano and Leonard (2015).) Thus, the estimated impacts listed above are likely to be smaller than the actual impact of increasing the minimum wage to the proposed level.

The proposed minimum wage increases exclude public employees. However, it was not practicable to exclude public employees from these calculations because the ACS does not have a published variable that allows for identification of public employees. Nonetheless, this inclusion of public employees should have only a minimal impact on our results, since their numbers are small and most already earn more than the proposed minimum wage increases.[1]

All wages from the 2014 survey were adjusted upward to account for inflation between the time of the survey and the time of measurement of the impact. Actual rates of inflation were used to adjust wages up to 2016. For all subsequent years between 2017 and 2028, baseline wages were adjusted using the projected annual average rate of change in the Consumer Price Index for Urban Workers (CPI-U) for the Midwest region. The 2015 and 2016 Missouri Minimum wage of $7.65 was adjusted by the same factor prior to measuring the impact of a change to the proposed minimum wage in 2019.

After these adjustments, the resulting hourly wage of all employees was compared to the proposed minimum wage. A total of twenty-one proposals were analyzed. For each proposal, we constructed a baseline wage scenario that used only basic wage changes from expected inflation rates to predict each ACS respondent's hourly wage rate in each year

[1] For Missouri's state employees, this can be validated by viewing the earnings of all state employees at: http://mapyourtaxes.mo.gov/MAP/Employees/. In larger counties and cities most all public employees already earn more than the highest proposed minimum wage. Smaller counties and towns may have some public employees who earn less than the highest proposed minimum.

between 2019 and 2028. We then constructed a counterfactual, or "proposed" wage distribution for each worker under all twenty-one minimum wage proposed scenarios. Since the minimum wage proposals offer nine different paths for raising the minimum wage for all non-tipped private sector workers, and different wage paths for tipped workers, we create separate minimum wage changes for tipped and non-tipped workers. Specifically, we used information on a worker's occupation and observed wage levels to separately identify tipped workers and assign them the proposed tipped minimum wage in each year, rather than the higher non-tipped minimum wage.[2]

If the proposed minimum wage was less than the inflation-adjusted hourly earnings of an employee, then no impact was calculated. If the proposed minimum wage was more than the hourly earnings for an employee, then the difference between the inflation-adjusted hourly earnings (i.e. baseline) and the proposed minimum wage was calculated. That difference was multiplied by the number of hours the employee worked in the year to calculate the annual impact for that employee. The result was then multiplied by a weighing factor for that employee in the population. The total impact for the state of Missouri was then summed across all affected workers to generate a total estimated increase in wage income in the state.

We do not include an estimate of job losses due to minimum wage changes. Existing research is clear that past minimum wage increases have had no measurable effect on aggregate employment levels. Larger minimum wage increases, such as those in Los Angeles, Seattle, and other jurisdictions, have not yet been studied to detect a clear disemployment effect. While it is possible that there may be some employment losses due to automation or other factors, this potential negative effect is likely offset by the positive potential job growth stemming from multiplier effects of the spending of minimum wage workers who receive substantial raises. There is substantial research to indicate that increases in the minimum wage have multiplier effects that increase the direct effects. For this reason and because of the likely increases in wages for individuals who earn above the proposed minimum wage rates, the impacts summarized in the table are considered conservative estimates relative to the total impact that would occur as a result of increasing the minimum wage to the proposed levels.

II. Economic Literature on the Impact of Minimum Wage Increases on Employment

Next, it is necessary to review the economic literature on the impact of minimum wage increases on employment. Opponents often claim that minimum wage increases may reduce employment in a state. If that is true, then those employment reductions would result in reductions in state income and sales tax revenue. However, review of the most credible recent empirical research on the minimum wage shows that increases in the minimum wage have had no discernible impact on employment. We thus conclude that it is not appropriate to project that the proposed initiative petitions would result in any detectable employment reduction, and resulting losses in income and sales tax revenue, or increases in unemployment-related costs to the state.

Economists have conducted hundreds of studies of the employment impact of the minimum wage. A recent meta-study – a formal statistical study of studies – by Doucouliagos and Stanley (2009) reviewed all the research conducted over the last three decades on the employment impact of minimum wage increases on teenagers in the United States. The researchers concluded that the minimum wage has little or no discernible effect on the employment prospects of low-wage workers. Their study followed a rigorous, peer-reviewed procedure and has the advantage of using a set of predetermined, objective criteria for weighing the validity of statistical findings across studies with different results.

[2] We defined tipped workers as those employed in occupations that typically receive a large share of income as tips. These occupations were 'Bartenders' (4040), 'Waiters and Waitresses', 'Food Servers, Non-restaurant' and 'Miscellaneous food preparation and serving related workers including dining room and cafeteria attendants and bartender helpers'.

(Source: Doucouliagos, Hristos and T. D. Stanley. 2009. "Publication Selection Bias in Minimum-Wage Research? A Meta-Regression Analysis." British Journal of Industrial Relations,vol. 47, no. 2, pp. 406-428.)

Recent theoretical and empirical research emphasizes several explanations for the consistently negligible employment impacts of moderate increases in the minimum wage. First, relative to total wage costs, minimum-wage increases are small. Second, employers and workers appear to respond to minimum-wage increases in many ways that reduce the direct cost to employers and substantially reduce or eliminate the need to cut employment.

Probably the most important economic response to a higher minimum wage is a reduction in turnover. At higher wages, employers fill vacancies faster and retain employees longer, boosting total employment and average productivity per worker while reducing direct and indirect training costs. Dube, Lester, and Reich (2012), for example, examined the effect of the minimum wage on labor turnover among teens and restaurant workers. They find "...striking evidence that separations, new hires, and turnover rates for teens and restaurant workers fall substantially following a minimum wage increase..." (p. 2). Their findings, using nationally representative data, are consistent with local case studies of the minimum wage and related "living wage" laws, including Dube, Naidu, and Reich's (2007) analysis of the San Francisco city-wide minimum wage; Fairris's (2005) study of local government contractors in Los Angeles; Howes (2005) on homecare workers in California; and Reich, Hall, and Jacobs (2005) on workers at the San Francisco airport.

"Living Wage Policies at the San Francisco Airport: Impacts on Workers and Businesses." *Industrial Relations*, vol. 44, no. 1, pp. 106-138.)

Employers also appear to respond to increases in the minimum wage by taking measures to boost productivity. Hirsch, Kaufman, and Zelenska's (2011) study of the impact of the federal minimum wage increase on 81 fast-food restaurants in Georgia and Alabama, for example, asked fast-food managers about the scope for efficiency improvements in response to the minimum-wage rise. About 90 percent of managers indicated that they planned to respond to the minimum wage increase with increased performance standards such as "requiring a better attendance and on-time record, faster and more proficient performance of job duties, taking on additional tasks, and faster termination of poor performers." (p. 27) Roughly the same share of managers said that they sought to "boost morale" by presenting the minimum wage increase as a "challenge to the store" and using this as a way "to energize employees to improve productivity." (pp. 28-29) Based on their interviews with store managers, the researchers concluded that a minimum wage increase may function as a "catalyst or shock that forces managers to step out of the daily routine and think about where cost savings can occur." (p. 29) (Source: Hirsch, Barry T., Bruce Kaufman, and Tetyana Zelenska, "Minimum Wage Channels of Adjustment." IZA Discussion Paper No. 6132. Germany: Institute for the Study of Labor. http://www2.gsu.edu/~ecobth/IZA_HKZ_MinWageCoA_dp6132.pdf)

A higher minimum wage may also motivate workers to work harder, independently of any actions by employers to increase productivity. According to "efficiency wage" theory, wages above the competitive-market rate may elicit greater work effort for several reasons. As Carl Shapiro and Joseph Stiglitz (1984) have argued, higher pay increases the cost to workers of losing their job, potentially inducing greater effort from workers in order to reduce their chances of

being fired. George Akerlof (1982), arguing from a more sociological point of view, has suggested that workers may see higher wages as a gift from employers, leading workers to reciprocate by working harder. (Sources: Shapiro, Carl and Joseph E. Stiglitz. 1984. "Equilibrium unemployment as a worker discipline device." *American Economic Review*, vol. 74, no. 3, pp. 433-444; Akerlof, George A. 1982. "Labor contracts as partial gift exchange." *Quarterly Journal of Economics*, vol. 97, no. 4, pp. 543-569.)

We therefore conclude that the proposed increase in the Missouri minimum wage would have no discernible impact on the employment levels of low-wage workers. Accordingly, we do not factor in reductions in employment, or any resulting decrease in sales tax or income tax. We also do not project any increased unemployment insurance costs – both because we do not project any resulting job losses, and, additionally, because unemployment insurance costs are paid for by employer premiums, and so are ultimately not a cost to the state.

For similar reasons, we do not believe that the proposed increase will have any significant adverse economic impact on small businesses or, by extension, on corporate income tax revenue. In fact, many small businesses already pay little if any corporate income tax.

III. State and Local Sales and Personal Income Tax Revenue Impact of Raising the Minimum Wage

Based on the wage impact figures calculated above, and the understanding that the minimum wage increases would be unlikely to result in offsetting job losses, we next calculate the impact of the projected wage increases on state and local sales and personal income tax revenue in Missouri. We project only the direct impact of the various minimum wage increase scenarios on such tax revenue. We do not attempt to project the additional impact through a GDP multiplier effect, or the potentially higher sales taxes generated if employers offset wage increases with higher prices (which would be taxable).

Personal Income Tax Revenue. In order to determine the projected increase in personal income tax revenues that would result directly from the increased wages, we had to develop assumptions about the effective income tax rates of the affected workers. We made the following assumptions with respect to the effective tax rate:

1. That 25% of affected workers can be claimed as a dependent on another party's Missouri income tax return and, as a result, would pay an effective tax rate of 6.0% on the increase in income;
2. That 50% of the affected workers would file as single taxpayers, would claim one deduction of $2,100, and would be entitled to a standard deduction of $5,800. This would result in an effective tax rate of 2.47%;
3. The remaining 25% would, we assumed, pay no additional Missouri income tax.

In light of these assumptions, the increased Missouri income tax revenue for each petition version can be calculated as follows: (total wage increase * 25% * 6.0%) + (total wage increase * 50% * 2.47%) + (total wage increase *25% * 0%).

Sales Tax Revenue. The state of Missouri imposes a 4.225% state sales tax on those items that are not exempt from the sales tax base. In addition, the average local sales tax rate is 2.95%. As a result, the average Missouri net sales tax rate is 7.175%. To estimate the share of income that is spent on goods and services that are subject to sales taxes, we used data from the 2015 Consumer Expenditure Survey (CES) for the US to estimate the share of income spent on categories that are subject to sales taxes. The CES summary tables list average spending per consumer across 20 different

categories (e.g. housing, transportation, food away from home) and we categorized each spending item as taxable or non-taxable and then calculated the share of spending that we taxable.[3] The resulting rate was 30.3 percent.

Based upon the above assumptions, and the total wage increase calculations for each version of the petition, we estimate that the increase in state income tax revenue resulting from the increased wages would be as follows:

Table 2. Summary of the Impact of Minimum Wage Increases on State and Local Sales and Income Taxes in Year of Full Minimum Wage Final Implementation.

Proposal	State Sales Tax (4.225%)	Local Sales Tax Revenue (2.95%)	Total Sales Tax Revenue Increase	Personal Income Tax Revenue	Total Sales and Personal Income Tax Revenue Increase

Note: Author's Analysis of American Community Survey (ACS) data from 2014 and fiscal impact assumptions described above. All dollars are in nominal figures. (a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

As described in Table 2 above, the fiscal impact of the proposed minimum wage increases varies based on the ultimate level of the minimum wage and the degree of tipped minimum wage phase out. The estimates of the total fiscal benefit range from $164 million to $282 million annually. Appendix tables A1 through A13 provide a year-by-year summary of the fiscal benefits.

[3] Specifically, the categories we assumed to be subject to state and local sales taxes are: food, household furnishings and equipment, vehicle purchases, gasoline and motor oil, entertainment, and all other expenditures. We assumed that 50 percent of the spending on the category "apparel and services" was taxable.

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,

Lara Granich

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided the following information as an opponent of this initiative petition.

These corrections were subsequently provided to the submitted information

In the table on the bottom of page 7 and top of page 8, both averages for 2023 should be based on a 5 year phase-in. Accordingly, the figure on that table should state for 2023 ($12) Average Annual Unemployment Premiums Paid by State of $16,269,523.52.

The corresponding change on the table on page 12 would be to state, for 2023 ($12) Total Net Loss to State Government from Taxes and Unemployment Insurance of ($19,137,851.76).

Re: Initiative Petitions 2018-196 through 2018-216

Dear Mr. Halwes,

I write on behalf of Robert Bonney. Mr. Bonney is the Chief Executive Officer of the Missouri Restaurant Association. Please consider this letter and the accompanying studies as his fiscal impact statement as an opponent of Initiative Petitions 2018-196 through 2018-216 (the "Initiative Petitions"). If passed, any of these twenty-one initiatives would have a substantial negative impact on state and local governments, as well as Missouri small businesses. Those effects are both direct (as noted in Section 1) and secondary (as noted in Sections 2 through 5). The direct effects stem from higher labor and contracting costs that the state and its political subdivisions will incur, despite the Initiatives' effort to exclude government workers from the mandate.

The indirect effects will present a debate this Office has seen before. The proponents of the Initiative Petitions will once again rely on data sourced from political activist groups who claim increases in the minimum wage only serve to create new taxable income. The reality is that such groups approach this issue with political bias. Their analysis is one-sided because it completely ignores the fact that a wage increase does not "create" income from thin air; instead, it is an economic transfer from Missouri businesses to workers. Missouri businesses must pay the new wages "created" by the increases. Political activists' models fail to account, then, for two specific manifestations of the "debit" side of this transfer: reductions in employment, and the reduction in corporate income tax paid based upon business done in Missouri.

The failure to account for any employment effect at any proposed wage increase—even a drastic increase of the minimum wage to $13—is particularly puzzling, because Missouri's most populous areas border Illinois and Kansas. These states, respectively, have minimum wages of $8.25 and $7.25. Neither state adjusts the minimum wage for inflation. Likewise, the second effect—loss of corporate income tax revenues—is a mathematical certainty. Missouri businesses will be the source of the wage increase, which will lower their own taxable income. Assuming a one-to-one substitution of "created" wages for lost corporate income, the difference in the rates

at which these two types of income are taxed will result in a net decrease in state revenue. A dollar from increased wages is taxable by state government in Missouri at 6% or substantially less, whereas Missouri's corporate income tax rate is 6.25%.

On top of these two types of negative outcomes—lower employment and lower state tax revenues—there may be second-order effects to small businesses because they lack the access to capital to weather price fluctuations; they may not survive at all because they may not have the flexibility to simply cut employment, shifting their reliance to capital instead of labor resources, or suffering a decrease in production and revenue.

In short, much of the fiscal impact regarding the current crop of wage-related ballot measures is secondary: they cause transfers of wealth within (or out of) the state economy, and those transfers of wealth then create second-order effects for state and local governments via their collection of tax revenues and provision of welfare services for the unemployed or less-employed. Because these fiscal notes call for the Auditor operate in the area of secondary effects, it is critical that she treat both sides of the wealth transfer equally, and refrain from assessing only one half of the wage increase equation.

1. Direct Labor Cost Impact on State and Local Government Budgets

As noted to the State Auditor's Office previously by Dr. David Macpherson, a nationally prominent labor and economics expert, there are two ways to measure labor cost on state and local government budgets. First, one can use the information included in fiscal note responses from state and local government entities. It is important to note that these fiscal notes provide an incomplete and, therefore, too-low estimate of labor cost. Few state and local government entities respond to requests for a fiscal note response, and those that do respond often ignore important effects.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can be used to calculate increased labor cost to state and local government entities in Missouri. To combat this time-honored analysis, and in a blatant attempt to manipulate the fiscal note process, the Initiative Petitions provide that they will raise the minimum wage for private workers, but not for workers employed by state or local governmental entities. No conceivable justification exists for solely raising the minimum wage on private businesses. Whatever the disparity between the value of total compensation at a private business and at a government employer, that disparity does not approach the wage adjustments at issue here, ranging from an inflation adjusted wage increase of 51.16% (($13-$8.60)/$8.60) in Initiative Petitions 2018-198 through 2018-201 to a wage increase of 30.17% (($11-$8.45)/$8.45) in Initiative Petitions 2018-213 through 2018-215.

Moreover, it is unreasonable to assume that on a sustained basis public employers, as defined in the Initiative Petitions, would be able to maintain dramatically lower wage levels than private businesses. Public employers would lose staff employable at higher rates in the private market, imposing substantial costs on government productivity. Using the method traditionally employed by labor economists and followed by the Auditor's office, one can calculate the annual

wage costs to state and local governmental entities, based on the annual wage cost for each state and local government worker in the ORG CPS, as detailed on page 6 of Dr. Macpherson's 2012 report, attached hereto as **Exhibit A**. Even if the auditor finds that a specific estimate of costs is not determinable, the auditor should note that state and local government "operating costs could increase by an unknown annual amount that could be significant," through the form of higher wage costs and higher contracting costs.

The proponents of the Initiative Petitions may argue that the Auditor should abandon any state and local cost estimates altogether. The proponents will argue that provisions they have inserted in the statute would mean that state and local government entities will not have to pay higher wages to their employees. Setting aside unjustifiable discrimination against private employers (and "public employees"), the provision is of uncertain legal effect and constitutionality. A "public employer," defined in the initiatives as "the state or a political subdivision of the state" still incurs substantial costs for wages of individuals that are "private employees," rather than "public employees." Cleaning services, food service, and other essential services often rely on state contracts with outside vendors. Sometimes, a contract rate may vary depending on the cost of labor. Even if the contract rate is fixed, it must be re-bid periodically, and that bidding process would take into account the new minimum wage. Plainly, the initiative would impose higher costs for state and local governments in contracting with any private entity and its employees. As a matter of law, it would be insufficient and unfair for the Auditor's fiscal note or summary to simply assume that these costs to state and local governmental entities do not exist.

2. Cost of Unemployment Benefits

a) The effect of inflation on Missouri's minimum wage

CPS–ORG data show that between 2007 and 2015, median nominal wages for adult (25–59 years old) workers in the U.S. grew by 1.68 percent a year. However, Missouri's minimum wage is currently adjusted using "the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W)." Section 290.502, RSMo. Coincidentally (or perhaps not), the CPI-W, over the period from 2006 to 2016, also increased at an average rate of 1.68 percent a year.

Year	CPI-W	Observed inflation %
2006	199.2	
2007	203.7	0.022590361
2008	216.304	0.061875307
2009	210.526	-0.0267124

2010	213.898	0.016017024
2011	222.686	0.041085003
2012	225.568	0.01294199
2013	230.084	0.02002057
2014	234.525	0.019301646
2015	233.806	-0.00306577
2016	234.771	0.004127353

Using Missouri's current inflation-adjusted minimum wage rate and an assumed, constant 1.68 percent increase in the CPI-W, the minimum wage in Missouri will be as follows:

Year	Estimated Minimum Wage
2016	$7.65 (observed)
2017	$7.70 (observed)
2018	$7.85
2019	$8.00
2020	$8.15
2021	$8.30
2022	$8.45
2023	$8.60
2024	$8.75
2025	$8.90
2026	$9.05

b) Calculating job loss attributable to increased minimum wage

At least one outside economist, James Sherk, has already provided an estimate for job loss in Missouri based on a $15 minimum wage. Mr. Sherk calculated the effect of a $15 minimum wage implemented in 2021. Mr. Sherk's figures accounted for inflation by estimating the present value of $15.00 in 2021, rather than estimating an absolute figure for wage inflation in Missouri. Mr. Sherk calculated the present value of $15.00 in 2021 to be $13.57, per hour, based on wage inflation of 1.68 percent. Mr. Sherk evaluated the change from $7.65 per hour to $13.57 per hour (a 77.39% increase), exclusive of agricultural workers. Cumulatively, Mr. Sherk calculated this 77.39 percent increase in wages to reduce employment in the affected workforce by (0.7739*0.677) 52.39%.

Graves Garrett LLC

Mr. Sherk calculated that approximately 40.9% of Missouri's Wage and Salary Workers would be affected by such a $15 minimum wage. Mr. Sherk's calculations reveal that a $15 minimum wage in 2021 would be expected to reduce the number of full-time equivalent jobs in Missouri by approximately 218,000. Based on CPS–ORG data, these figures reveal an affected workforce of approximately 416,086 workers impacted by a $15 minimum wage increase in 2021.

However, in 2014, Dr. Macpherson found, using more conservative, national-level Congressional Budget Office data, that an increase to a $10.10 minimum wage, effective January 1, 2015, would eliminate about 15,700 jobs in Missouri. Dr. Macpherson analyzed the effect of a Missouri $10.10 minimum wage using a model suitable to a national analysis. This analysis predicted a loss of 15,700 Missouri jobs based on a wage increase from $7.50 in 2014 to $10.10 in 2015 (a 34.67% increase).

On the whole, the analysis by Mr. Sherk is more instructive here, since it is more recent, Missouri-specific, and anticipates larger wage changes contemplated by the Initiative Petitions. The most accurate way to determine the estimate of Workers Affected would be to analyze the CPS–ORG data. However, without such data readily available in the time constraints imposed by the fiscal note process, it is reasonable for estimation purposes to assume Mr. Sherk's figures are evenly distributed. Assuming that worker data follows an equal distribution, the Initiative Petitions would be expected to result in the following job losses:

Year of final prescribed wage increase	Wage without IP	Wage mandated by IP	Percentage increase	Percentage of affected workers who lose jobs (Percentage Increase x 0.677 Elasticity)	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by Initiative
2021	$8.30	$11.00	32.53%	22.02%	174,897	38,512
2022	$8.45	$11.00	30.18%	20.43%	162,262	33,150
2022	$8.45	$12.00	42.01%	28.44%	225,866	64,236
2023	$8.60	$12.00	39.53%	26.77%	212,532	56,895
2023	$8.60	$13.00	51.16%	34.64%	275,061	95,281
2024	$8.75	$12.00	37.14%	25.15%	199,683	50,220
2024	$8.75	$13.00	48.57%	32.88%	261,136	85,861
2025	$8.90	$13.00	46.07%	31.19%	247,695	77,256
2026	$9.05	$13.00	43.65%	29.55%	234,683	69,349

c) The best estimate for a price elasticity of demand for low-skilled labor is -0.677.

As noted by Mr. Sherk, starting wages of $15.00 per hour mean that full-time employee must create at least $38,700 a year in value for his or her employer (including wages, employer payroll taxes, and mandatory healthcare benefits). High minimum wages and mandatory benefit costs make it much harder for less-experienced and less-skilled workers to find jobs, particularly full-time work.

Recent labor economics scholarship has revealed that, accounting for publication bias, a state-specific elasticity of demand for less-skilled workers is, on average, approximately -0.677, though some estimates are even higher, around -1.0.[1] "[E]conomists have extensively studied how businesses respond to higher wages overall, not just minimum-wage increases. On average these studies find a 10 percent increase in labor costs causes firms to reduce employment of less-skilled workers by 6.8 percent in the long run."[2]

While these elasticity estimates are substantial in absolute terms, there is reason to believe that such estimates might still understate the impact of a Missouri state-specific effort to increase the minimum wage. This is so for several reasons. First, traditionally, labor economists view labor as a reasonably difficult input to substitute; however, Missouri businesses have readily available options. There are relatively few barriers to doing business in Missouri's border states, and businesses can easily relocate across a state line to take advantage of more favorable wage (and tax laws). Additionally, substantially raising the cost for Missouri labor, relative to labor sources in other states and other countries, is likely to force many manufacturing jobs in Missouri to disappear entirely. Automation is also a significant risk. The substitution of labor is becoming increasingly easy due to technology advancements and the "sharing" economy, where fewer individuals are "employees" covered by the minimum wage. Finally, a labor "price shock" may result in significant decreases in the demand for goods and services. People make behavioral changes to avoid higher costs, including eating out less often and generally decreasing consumption (or shifting their activities to consumption involving comparatively low amounts of labor) wherever possible.

[1] Sherk, James, "How $15-per-Hour Minimum Starting Wages Would Affect Each State," The Heritage Foundation, http://report.heritage.org/ib4601.

[2] "The coefficients on these estimates imply an elasticity of –0.677 for a study published in 2012 (the most recent year in their data) of long-run unconditional labor demand for low-skilled labor in the U.S., estimated using industry-level administrative panel data and a structural form model." "Estimates that do not account for publication bias tend to slow a long-run elasticity closer to –1.0. See, for example, George Borjas, Labor Economics, 6th ed. (Columbus, OH: McGraw-Hill, 2013), Chapter 4: 'The evidence also suggests that the estimates of the long-run labor demand elasticity cluster around –1, so the long-run labor demand curve is indeed more elastic than the short-run curve.' " Sherk, available at http://report.heritage.org/ib4601.

Graves Garrett LLC

d) Unemployment Benefit Costs

We derived an average unemployment payout by calculating the expected weekly unemployment benefit amount. Based on current data, the expected unemployment weekly benefit amount of a worker making $7.65 an hour, on a 40 hour workweek, is $159.12 per week, for 20 weeks.[3] The expected unemployment weekly benefit amount of a worker making $10.99 an hour is $228.59 per week. The expected unemployment weekly benefit amount of a worker making $11.99 an hour is $249.39 per week. The expected unemployment weekly benefit amount of a worker making $12.99 an hour is $270.19 per week. We assume that workers will seek unemployment insurance for the full twenty weeks authorized under Missouri law, because unemployment attributable to an increase in the minimum wage is structural. In this case, structural unemployment occurs because workers' job skills do not meet the established "price floor" of labor, rendering the worker's skills unmarketable. Assuming an even distribution of workers affected, the average unemployment benefit cost to the state for a worker is calculated as follows:

- For Initiative Petitions 2018-213 through 2018-216, [($159.12+$228.59)/2]*20 = $3,877.10
- For Initiative Petitions 2018-196, 2018-197, 2018-200, 2018-202, and 2018-204 through 209, [($159.12+$249.39)/2]*20 = $4,085.10
- For Initiative Petitions 2018-198, 2018-199, 2018-201, 2018-203, 2018-210 through 2018-212, [($159.12+$270.19)/2]*20 = $4,293.10

Consistent with Dr. Macpherson's 2012 report, it would be reasonable for the Auditor to assume that 35% of unemployed workers will receive unemployment benefits. Combining these numbers leads to the following estimates:

Year of final prescribed wage increase	Estimate of Missouri Workers Unemployed by Initiative	Estimated Unemployment Amount Per Worker	Estimated Total Unemployment Premiums Paid	Average Annual Unemployment Premiums Paid by State
2021 ($11)	38,512	3,877.10	$52,260,206.32	$17,420,068.77
2022 ($11)	33,150	3,877.10	$44,984,052.75	$11,246,013.19
2022 ($12)	64,236	4,085.10	$91,843,669.26	$22,960,917.32
2023 ($12)	56,895	4,085.10	$81,347,617.58	$20,336,904.39

[3] https://labor.mo.gov/DES/Claims/calculator. A 2015 law decreased the unemployment benefit period from 20 weeks to 13 weeks, but the Supreme Court of Missouri struck down the law in July 2016.

2023 ($13)	95,281	4,293.10	$143,167,801.39	$28,633,560.28
2024 ($12)	50,220	4,085.10	$71,803,802.70	$11,967,300.45
2024 ($13)	85,861	4,293.10	$129,013,450.69	$21,502,241.78
2025 ($13)	77,256	4,293.10	$116,083,706.76	$16,583,386.68
2026 ($13)	69,349	4,293.10	$104,202,767.17	$13,025,345.90

3. Impact on State Income Tax Revenue

The 2012 analysis prepared by Dr. Macpherson may also be used as a reference in calculating the effect of the initiative petitions on state income tax revenue. Here, again, it is reasonable to assume that our "affected workers" are evenly distributed, though precise CPS–ORG data would also provide a reliable estimate. Here, the increased income tax revenue is the additional income tax paid by workers whose wages increase. There is a loss of revenue, however, in the form of decreased income tax paid by workers whose wages decrease and businesses who absorb the increased cost of labor, rather than passing it along to customers.

For the purposes of these estimates, we assume that workers work 40 hours a week and 52 weeks per year:

Year of final prescribed wage increase	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by IP	Estimate of Missouri Workers with Increased Wages	Annual Increase in Wages Paid to Workers who get Wage Increase in Final Year	Annual Decrease in Wages Paid to Workers now Unemployed
2021 ($11)	174,897	38,512	136,385	$382,969,080.00	$108,141,696.00

2022 ($11)	162,262	33,150	129,112	$342,405,024.00	$87,913,800.00
2022 ($12)	225,866	64,236	161,630	$596,737,960.00	$237,159,312.00
2023 ($12)	212,532	56,895	155,637	$550,332,432.00	$201,180,720.00
2023 ($13)	275,061	95,281	179,780	$822,673,280.00	$436,005,856.00
2024 ($12)	199,683	50,220	149,463	$505,184,940.00	$169,743,600.00
2024 ($13)	261,136	85,861	175,275	$774,715,500.00	$379,505,620.00
2025 ($13)	247,695	77,256	170,439	$726,750,021.03	$329,419,584.00
2026 ($13)	234,683	69,349	165,334	$679,192,072.00	$284,885,692.00

These net wage increases will lead to corresponding increases in state income tax collections. Traditionally, it has been assumed that about 50% of affected workers will pay 6% income tax, while the other 50% of workers pay no state income tax. This assumption may be less accurate at the higher wage increases contemplated by the Initiative Petitions. Accordingly, figures are also displayed assuming that about 75% of affected workers will pay 6% income tax, while the other 25% of workers pay no state income tax.

Annual Net Increase in Wages Paid To Workers	Annual Income Tax Increase from Wage Increase (50% pay tax)	Annual Income Tax Increase from Wage Increase (75% pay tax)
$274,827,384.00	$8,244,821.52	$12,367,232.28
$254,491,224.00	$7,634,736.72	$11,452,105.08
$359,578,648.00	$10,787,359.44	$16,181,039.16
$349,151,712.00	$10,474,551.36	$15,711,827.04
$386,667,424.00	$11,600,022.72	$17,400,034.08
$335,441,340.00	$10,063,240.20	$15,094,860.30
$395,209,880.00	$11,856,296.40	$17,784,444.60
$397,330,437.03	$11,919,913.11	$17,879,869.67
$394,306,380.00	$11,829,191.40	$17,743,787.10

Graves Garrett LLC

Based on these figures, Missouri businesses must also decide whether to pass along any increase in wage costs (wages and mandatory payments).[4]

Year of final prescribed wage increase	Annual Cost to Business from Increased Wage	Annual Decreased Corporate Income Tax if cost is fully absorbed	Annual Decreased Corporate Income Tax if cost is 50% absorbed
2021 ($11)	$412,266,214.62	$25,766,638.41	$12,883,319.21
2022 ($11)	$368,599,008.34	$23,037,438.02	$11,518,719.01
2022 ($12)	$642,388,413.94	$40,149,275.87	$20,074,637.94
2023 ($12)	$592,432,863.05	$37,027,053.94	$18,513,526.97
2023 ($13)	$885,607,785.92	$55,350,486.62	$27,675,243.31
2024 ($12)	$543,831,587.91	$33,989,474.24	$16,994,737.12
2024 ($13)	$833,981,235.80	$52,123,827.23	$26,061,913.62
2025 ($13)	$782,346,397.64	$48,896,649.85	$24,448,324.93
2026 ($13)	$731,150,265.50	$45,696,891.59	$22,848,445.80

Assuming businesses absorb half of the cost of increased wages, and 75 percent of affected workers pay the new, higher taxes, the effect on state income tax collections is estimated to be:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss
2021 ($11)	($516,086.93)
2022 ($11)	($66,613.93)
2022 ($12)	($3,893,598.78)
2023 ($12)	($2,801,699.93)
2023 ($13)	($10,275,209.23)
2024 ($12)	($1,899,876.82)
2024 ($13)	($8,277,469.02)
2025 ($13)	($6,568,455.26)
2026 ($13)	($5,104,658.70)

[4] A healthcare benefit cost estimate is not available based on the time limitations imposed by this fiscal note.

Graves Garrett LLC

4. Sales tax revenue gain or loss

Projecting any increase in sales tax revenue resulting from an increased minimum wage would require the auditor's office to conclude, based on data separate and apart from the sheer conjecture typically offered by political activist groups: (1) the net effect on consumer disposable income and (2) the percentage of a consumer's disposable income that is spent on goods subject to the sales tax, taking into consideration that the scope of Missouri's sales tax has been truncated by a voter-approved constitutional amendment from November 2016.

Typically, the Auditor's office multiplies the total increase in worker earnings (which should be adjusted for employment reductions) and multiplies the result by 25 percent, then multiplying that figure by the Missouri the population weighted combined average state and local sales tax in Missouri, 7.81%.[5] Based on this estimate, the population-weighted combined average local sales tax is 3.585%.

However, it would be deceptive to fail to account for sales tax losses from workers whose wages are eliminated or sales tax losses from reduced business profits (attributable to the higher wages paid), which will lower spending by business owners. The first figure is calculable by determining the total annual wages (adjusted for employment deductions) for all workers who lose jobs due to a minimum wage hike, multiplied by 25 percent. The second number is calculable by multiplying the total increase in worker earnings (multiplied by 1.0765 to account for Social Security and Medicare taxes) by approximately 15 percent.[6]

Year of final prescribed wage increase	Annual Net Increase in Wages Paid To Workers	New Wages Spent on Sales Tax Items	Annual Cost to Business from Increased Wage	Annual Business Income No Longer Included in Sales Tax Base (50% passed-through)
2021 ($11)	$274,827,384	$68,706,846	$412,266,214.62	($61,839,932)
2022 ($11)	$254,491,224	$63,622,806	$368,599,008.34	($55,289,851)
2022 ($12)	$359,578,648	$89,894,662	$642,388,413.94	($96,358,262)
2023 ($12)	$349,151,712	$87,287,928	$592,432,863.05	($88,864,929)

[5] http://taxfoundation.org/sites/taxfoundation.org/files/docs/LOST--2015.png.
[6] This estimate would also need to be adjusted to reflect certain employers' mandate under the Affordable Care Act to provide healthcare coverage and pay 60 percent of such coverage.

2023 ($13)	$386,667,424	$96,666,856	$885,607,785.92	($132,841,168)
2024 ($12)	$335,441,340	$83,860,335	$543,831,587.91	($81,574,738)
2024 ($13)	$395,209,880	$98,802,470	$833,981,235.75	($125,097,185)
2025 ($13)	$397,330,437	$99,332,609	$782,346,397.64	($117,351,960)
2026 ($13)	$394,306,380	$98,576,595	$731,150,265.51	($109,672,540)

Accordingly, the annual estimations of the effects on state and local revenue, and total state economic impact are as follows:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss	Annual Net Effect on State Sales Tax	Total Annual Effect on State Tax Revenue	Total Net Loss to State Government from Taxes and Unemployment Insurance	Annual Net Effect on Local Sales Tax
2021 ($11)	($516,086.93)	$290,127.11	($225,959.82)	($17,646,028.59)	$246,178.86
2022 ($11)	($66,613.93)	$352,067.34	$285,453.41	($10,960,559.78)	$298,736.43
2022 ($12)	($3,893,598.78)	($273,087.10)	($4,166,685.88)	($27,127,603.19)	($231,720.06)
2023 ($12)	($2,801,699.93)	($66,628.31)	($2,868,328.24)	($23,205,232.64)	($56,535.50)
2023 ($13)	($10,275,209.23)	($1,528,364.68)	($11,803,573.91)	($40,437,134.18)	($1,296,849.08)
2024 ($12)	($1,899,876.82)	$96,566.47	($1,803,310.36)	($13,770,610.81)	$81,938.65
2024 ($13)	($8,277,469.02)	($1,110,951.72)	($9,388,420.74)	($30,890,662.52)	($942,665.55)
2025 ($13)	($6,136,139.31)	($761,317.55)	($6,897,456.87)	($23,480,843.55)	($645,993.71)
2026 ($13)	($5,104,658.70)	($468,803.67)	($5,573,462.37)	($18,598,808.26)	($397,789.62)

5. Damage to small business

Additionally, any proponent or opponent fiscal note submission is required, pursuant to Missouri law, to state the impact of the initiative on small businesses. According to analysis by the Employment Policies Institute, 40 percent of the minimum wage workforce is employed at businesses with fewer than 50 employees. [7] The impact on extra costs to small business may be more significant than even this 40% figure suggests. Small businesses are more easily shut down by input price increases than large businesses, which have greater access to capital to weather the

[7] https://www.epionline.org/oped/who-really-employs-minimum-wage-workers/

storm. Clearly, small businesses that do not shut down due to increases in the minimum wage will pay higher costs, estimated at about 40% of business' total increased costs, described above.

Conclusion

In conclusion, the State Auditor should attempt to quantify the increased cost to be borne by state and local government entities through increased contracting costs as a result of an increase to the minimum wage. This direct cost is outlined in Section 1.

Indirect costs are outlined in Sections 2 through 5, and show a net loss. Although such second-order effects more difficult to predict, a net loss is easily the most likely outcome. Significantly, this result is only obtainable if the Auditor reviews both the "credit" and "debit" sides of the transfer of wealth from businesses to workers. The Auditor should refrain from taking the proponents' likely invitation to consider and present only the "credit," side, and should attempt to provide a complete picture of all effects of a minimum wage increase, including the loss of revenue to state and local governments from individuals who lose employment. Only conveying (or quantifying) the potential for gain, without fairly conveying the likelihood of net loss, would be deceptive and unfair.

The State Auditor's previous 2018 fiscal notes are a good model. Each of the fiscal notes for the Initiative Petitions should follow the already-established format and state that:

> "[O]perating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could change by an unknown annual amount ranging from a $## million decrease to a $## million increase depending on business decisions."

Should you desire further detail or have any questions about this fiscal impact statement, please do not hesitate to contact me.

Sincerely,

Edward D. Greim

ABOUT THE MISSOURI RESTAURANT ASSOCIATION

With origins dating back to 1916, the Missouri Restaurant Association (MRA) is a statewide trade association representing over 1,500 member establishments. The association's membership is diverse, and includes full service, fast casual, and quick service restaurants, cafeterias, hotels, schools, institutions, contract feeders, and ancillary foodservice providers such as theme parks. The association has been successful in securing support from virtually every segment of the foodservice and hospitality industry.

MRA includes seven chapters as extensions of the parent organization, each with its own Officers, Board of Directors, and limited budget. The association is governed by a Board of Directors comprised of five Officers, 33 Directors, and each President of the seven affiliated chapters.

MRA is dedicated to serving the needs of the foodservice and hospitality industry, enhancing and improving its growth and development, assisting and educating its members in operating more effectively, improving the political and social environment in which the industry conducts business, for the benefit of its members, patrons, employees, and the well-being of the community.

David A. Macpherson is the E.M. Stevens Professor of Economics at Trinity University. He received undergraduate and doctoral degrees in economics from Pennsylvania State University.

Dr. Macpherson has published over 60 articles in leading economics and real estate journals including Review of Economics and Statistics, Industrial and Labor Relations Review, Journal of Labor Economics, Journal of Human Resources, and Journal of Real Estate Economics and Finance. His research has been funded by a variety of entities including the National Science Foundation, Florida Legislature, and the National Association of Realtors. He is co-author of the undergraduate labor economics text, Contemporary Labor Economics, as well as the principles of economics text, Economics: Private and Public Choice. He is included in Who's Who in Economics, Fourth Edition, which includes the 1,200 most frequently cited economists.

THE IMPACT OF A $10.10 MINIMUM WAGE ON JOBS AND TAXPAYER COSTS IN MISSOURI

June 2014

Economic Analysis by **Dr. David Macpherson**

Index

Executive Summary 4
Results 5
Technical Appendix 7

EXECUTIVE SUMMARY

Missouri's minimum wage of $7.50 is linked to rise in most years with the inflation rate. But some state legislators and labor unions would like to raise that figure even higher. For instance, a recent labor union-organized bus tour in the state promoted a $10.10 minimum wage in St. Louis.

Proponents have enthusiastically pointed to the benefits of the $10.10 policy. But there's been far less discussion of the costs involved with a $10.10-an-hour minimum wage—both the cost on employment, and the cost to taxpayers.

In this study, labor economist David Macpherson of Trinity University uses Census Bureau data to estimate the impact on Missouri's labor market and budget from raising the minimum wage to $10.10 an hour. He also provides separate results for the St. Louis metropolitan area.

Dr. Macpherson's employment estimates follow the methodology used by the nonpartisan Congressional Budget Office in its report earlier this year estimating the impact of a $10.10 minimum wage nationwide, which in turn relied on 60 different empirical studies to formulate its estimates.

Statewide, he finds that over 15,000 jobs would be lost at the $10.10 wage level—with 9,300 of those jobs being held by women. In the St. Louis metropolitan area, approximately 4,800 jobs would be lost from a $10.10 minimum wage.

The cost to taxpayers would be significant: There are approximately 40,000 state and local employees whose wages would be affected by the $10.10 increase in Missouri, for a combined cost to taxpayers of $87 million annually.

Raising wages is an admirable goal, but the evidence suggests that accomplishing this goal with a blunt wage mandate could do more harm than good.

RESULTS

The minimum wage is one of the most hotly-debated topics in the political world. Some legislators claim that a higher base wage will stimulate the economy; others claim that it will reduce jobs when affected employers can't offset the higher costs through higher prices.

Economists, who have studied the issue since the late 1940s, tend to take a skeptical view of minimum wage increases. Since the early 1990s, for instance, roughly 85 percent of the most credible research on the minimum wage points to job loss for less-skilled groups. The nonpartisan Congressional Budget Office (CBO), in an evaluation of President Obama's proposed $10.10 minimum wage increase, reviewed 60 different studies and concluded that the policy would eliminate 500,000 jobs if enacted.

The estimates that follow, of the employment impact of a higher minimum wage on Missouri's labor market, were performed by Dr. David Macpherson of Trinity University. Dr. Macpherson followed closely the methodology used by the CBO in its 2014 report. Dr. Macpherson also estimates the taxpayer costs of a higher minimum wage, as many state and local public employees will see their earnings increase when the minimum wage rises.

Dr. Macpherson's methodology is presented in detail in a technical appendix.

Estimated Employment Effects of a $10.10 Minimum Wage in Missouri

Statewide, Dr. Macpherson finds that increasing the minimum wage to $10.10 would eliminate over 15,000 jobs—approximately 60 percent of which are jobs held by women. The bulk of the job losses would be concentrated among individuals with a high school degree or less, and among people who work in the retail or leisure & hospitality industries.

(Note: Totals have slight discrepancies due to rounding.)

City-Specific Minimum Wage Employment Impacts

The city of St. Louis has been the subject of a number of protests calling for a higher minimum wage. Dr. Macpherson analyzed the employment impact of a $10.10 minimum wage in the St. Louis metropolitan area, providing breakouts by gender and education where the data permits. He estimates that the wage hike would eliminate approximately 5,000 jobs—just over half of which would be jobs held by women.

RESULTS CONTINUED

Missouri Taxpayer Costs of a $10.10 Minimum Wage

Dr. Macpherson estimates that approximately forty thousand state & local public employees would be affected by a minimum wage increase to $10.10 an hour. These additional wage costs translate to new costs for state and local taxpayers. Following the methodology described in detail in the technical appendix, Dr. Macpherson estimates both the straight wage cost of a $10.10 minimum wage, as well as the total compensation cost with Social Security, Medicare, workers compensation, and unemployment insurance included. Statewide, taxpayers would shoulder an additional $87 million in costs if the base wage was increased to $10.10 an hour and public employees were covered by the new wage.

Missouri Taxpayer Costs of a $10.10 Minimum Wage

TECHNICAL APPENDIX

Estimating Employment Loss and the Cost to State and Local Government of an Increase in the Minimum Wage

Dr. David Macpherson
E.M. Stevens Professor of Economics
Trinity University

This paper describes how we estimate the employment loss and the cost to state and local governments of a proposed increase in the minimum wage effective on January 1, 2015.

Data and Sample

First, we use data from the Current Population Survey (CPS) Outgoing Rotation Groups (ORG) from January 2011 through December 2013. For each worker in the sample, we calculate their wage rate. We also adjust the wage rate to reflect a forecast of wages in 2015. This is done in two steps. First, based on legislation enacted as of April 2014, we estimate the minimum wage that would be in effect in January 2015 for each state and city that we consider. If a state or city has an indexed minimum wage, we increase the January 2014 state or city minimum wage by the Congressional Budget Office (CBO) inflation forecast for 2014 of 1.7%.

Since we use data from 2011 through 2013, we also follow the CBO approach for forecasting what the wage distribution would be in 2015. This is done in two steps. First, we adjust wages observed prior to 2013 to reflect 2013 minimum wage legislation. For example, if the minimum wage in a state was $7.25 in 2011 and grew to $8.00 by 2013, anyone who earned between $7.25 and $8.00 in 2011 would have their wage increased to $8.00. After wages are adjusted to 2013 levels, we assume that all wages grow by 2.9% in 2014. Using the resulting 2015 distribution of wages, we adjust for minimum wage legislation that would increase the minimum between 2013 and 2015. Anyone earning a wage between the 2013 and 2015 minimum wage is assigned a wage matching the 2015 minimum wage.

After generating the forecast 2015 distribution of wages reflecting wage growth and existing minimum wage legislation, we identify workers who would be affected by additional changes to the 2015 minimum wage as those with wages between the predicted minimum wage legislated for 2015 (or up to $.25 below it) and the proposed minimum.

To estimate the number of affected workers, we take two steps. First, for each state, we estimate the number of affected workers for 2013. Second, we adjust the weights in the 2011 and 2012 data so that the state-specific number of affected workers implied by the 2011 and 2012 data matches that for 2013. This adjustment is designed to correct for the changing economic climate as the economy recovers from the great recession and to generate estimates that are as close as possible to the most recent data (2013). After we adjust the 2011 and 2012 weights, we estimate the number of affected workers by summing their earnings weights and dividing the total by 36 (the number of months of data).

[1] Also, following CBO, anyone earning up to $.25 less than the 2011 minimum wage would have their wage increased by the amount that the minimum wage increased (i.e. a $7.00 wage would be increased to $7.75 in this example). This approach is used to adjust for the fact that many workers round their answers when asked about their wage.

TECHINCAL APPENDIX CONTINUED

Employment Loss

To estimate employment loss, for each affected worker we compute:

L = e *(Proposed Min Wage /Min Wage 2015 – 1)

where e is an assumed elasticity of employment with respect to changes in the minimum wage, Min Wage 2015 is the minimum wage currently legislated for 2015, and Proposed Min Wage is the minimum wage that is being proposed for 2015. Thus, for example, if a worker is projected to earn the federal minimum of $7.25 in 2015, the expected reduction in employment resulting from a $10.10 minimum wage in 2015 if e=.45 is .45*(10.10/7.25 – 1) = .18. That is, for every 100 workers currently earning the federal minimum, the expectation is that 18 would lose a job if the minimum wage elasticity is .45.

To estimate the aggregate employment loss in the economy, we use earnings weights to sum L across workers. We also follow the Congressional Budget Office (2014) and use an elasticity of 0.15 for non-teenagers and 0.45 for teenagers.

Cost to State and Local Government

We use the same data to estimate the cost to state and local government of a proposed minimum wage hike. We apply the same definition of affected workers described above and estimate the number of state and local government workers affected by a minimum wage hike. We do not, however, assume that there is any job loss for state and local workers as we do not have an appropriate elasticity estimate specific to state and local workers. To the extent that state or local governments reduce hours or employment in response tothe minimum wage hike, our estimate of the cost of the hike would be overstated.

To estimate the increase in annual payroll cost resulting from an increase in the minimum wage, we estimate the increase in annual cost for each worker as:

(Proposed Min Wage-Min Wage 2015)*weekly hours*52

We then multiply the increase in annual cost by the earnings weight for each worker and sum across workers. Since an increase in wages also requires increased employer contributions for Social Security, Medicare, workers' compensation and unemployment insurance, we apply an estimate of the payroll tax rate for these mandatory programs to calculate the additional cost for these programs.

For each state and city considered, we provide tables summarizing the number of affected workers, employment loss, and the distribution of employment loss by sex, education, race, age and industry. Given that we use three years of data, a rule of thumb for minimum sample size required to achieve a reasonably accurate estimate of the employment loss is to require at least 30,000 people be in the relevant category. For example, if there are fewer than 30,000 people projected to be in a particular industry category, the Bureau of Labor Statistics would not report the estimate due to a lack of reliability based on the variance of the estimate relative to its mean.

In addition to the estimate of employment loss, for each state or city considered, we estimate the number of state and local workers that would be affected by the minimum wage hike and the total annual cost to government in terms of wages and total compensation. As with the employment estimates, we advise caution in interpreting estimates that are based on fewer than 30,000 affected workers.

[3] Congressional Budget Office, "The Effects of a Minimum-Wage Increase on Employment and Family Income," February 2014.

[4] For workers paid by the hour the reported hourly wage was used. For workers who are not paid by the hour, we calculate the hourly wage by dividing usual weekly earnings by usual weekly hours. Overtime pay was calculated as time and one-half for hours above 40 hours for hourly workers.

[5] The assumed payroll tax for Medicare and Social Security is 7.65 percent. To estimate the payroll tax for workers' compensation and unemployment insurance, we use unpublished data from the 2010 Employer Cost of Employee Compensation database for state and local workers in the relevant region in 2010.

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

Prepared for

Victor Allred versus Robin Carnahan and Thomas Schweich
Circuit Court of Cole County, Missouri

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

I. Introduction

This report was undertaken at the request of counsel representing plaintiffs in the case of Victor Allred versus Robin Carnahan and Thomas Schweich. As part of the basis of the lawsuit, the plaintiffs allege that the fiscal note summaries for proposed statutory initiative petitions 2012-084 and 2012-085 are insufficient and unfair. I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will

range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

The report is organized as follows. My qualifications to prepare this report are contained in Section II. Section III describes the data and records I relied upon for this report. Section IV reviews the estimated fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085. A summary and my conclusions are provided in Section VI.

II. Qualifications

I am currently the E.M. Stevens Professor of Economics at Trinity University in San Antonio, Texas. Previously, I was employed by Florida State University as Director of the Pepper Institute on Aging and Public Policy and the Rod and Hope Brim Eminent Scholar in Economics. I have taught both undergraduate and graduate Econometrics (statistical analysis of economic data), and Labor Economics. I have published over 50 articles in peer-reviewed professional journals.

I am currently serving on the editorial board of the *Journal of Forensic Economics*, which is a peer-reviewed journal. I have also served as a reviewer or 'referee' for 24 peer-reviewed journals, including the *Journal of Human Resources, Journal of Labor Economics, Quarterly Journal of Economics,* and the *Review of Economics and Statistics*. Based upon these experiences, I am very familiar with the scholarly and professional research process and the concept of peer review.

I have prepared numerous analyses and reports that use statistical methods as applied to specific questions. I have been responsible for developing the techniques and approaches required for these analyses. I routinely use computers and statistical software packages to assist me in my analytical work. I have been qualified as an expert witness on statistical analysis of employment discrimination and economic damages in state courts in Florida and Georgia and Federal Courts, and I have given expert testimony. I have prepared analyses and offered testimony on behalf of both plaintiffs and defendants.

Details of my qualifications are reflected in my current resume and legal cases, attached as Appendix A to the report.

III. Data and Records

I reviewed the following materials in preparing this report.

- Plaintiff's Complaint
- Material cited in footnotes below.

IV. Fiscal Impact

A. Overview

The proposed statutory initiative petitions 2012-084 and 2012-085 contain many elements in common. Both initiatives would increase the Missouri minimum wage to $8.25 per hour, alter the exemption for retail and service firms, raise the cash wage of tipped workers from 50% to 60% of the minimum wage, and increase the statute of limitation from two to three year for underpayment claims.

The initiatives differ in their linkage to the federal minimum wage. Initiative petition 2012-084 requires that the state minimum wage be automatically increased to the

federal minimum wage if it is higher than the state minimum wage. Initiative petition 2012-085 does not have such a linkage. It only requires that workers be paid the higher of the state minimum wage or the federal minimum wage. The linkage to the federal minimum wage will cause the state minimum wage to be higher under initiative petition 2012-084 over time. This is because the state minimum wage, in contrast to the federal minimum wage, is adjusted for inflation as measured by the Consumer Price Index.

An increase in the minimum wage in Missouri will affect state and local government entities in two ways. First, it will directly increase the cost of labor to state and local government entities. This will occur due to the increase in wages of state and local government workers earning between the existing minimum wage of $7.25 and the new minimum wage of $8.25.[1] In addition, workers laid off due to the minimum wage increase can collect unemployment benefits. The state government will bear the cost of unemployment benefits of these workers for the first 20 weeks. Second, state and local government may gain increased revenue through higher income tax and sales taxes paid by workers affected by the minimum wage who remain employed. However, state and local government will suffer reduced tax revenue to the extent the higher wage cost lowers profits of businesses.

The following sections estimate the cost and revenue effects to state and local government entities of the proposed minimum wage increase.

[1] Information about the minimum wage in Missouri is available at http://www.labor.mo.gov/DLS/minimumwage/.

B. Direct Labor Cost Impact on State and Local Government Budgets

There are two possible ways to measure the direct labor cost on state and local government budgets. First, one can use the information included in the fiscal notes prepared by the State Auditor regarding the proposed initiatives. It is important to note that the fiscal notes provide an incomplete and thus too low estimate of the direct labor cost. The fiscal notes indicate that the Office of Administration's (OA) Division of Personnel reported that as of September 2011 there were 834 state workers who would be affected by an increase of the minimum wage to $8.25 and the "approximate annual cost" would be more than $540,000.

This OA estimate excludes seasonal workers such as State Fair employees, State Parks Employees, and tax season staff. The Division of Revenue noted its labor cost would rise by $40,000. The Division of Natural Resources stated they have over 500 workers who would be affected by the increase, but did not provide an estimate of the cost. The State Fair hired 745 workers that would be affected, but no cost estimate was provided.

Thus, the cost to state government, based on the fiscal notes, would be more than $580,000.

The fiscal notes also provide an incomplete and thus too low measure of the cost to local government and public educational institutions. Many cities and educational institutions did not respond to Office of Auditor's survey or provide an estimate of the cost of the higher minimum wage. The City of Columbia, City of Jefferson, City of

Joseph, Linn State Technical College, and Metropolitan Community College did provide such an estimate. The total cost to these five institutions is $772,182.

Based on the fiscal notes, the cost to state and local government entities of the increase in the minimum wage to $8.25 will be more than $1,352,182.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can also be used to calculate the cost of the increased labor cost to state and local government entities in Missouri. Using the data from January 2010 to December 2011 Outgoing Rotation Group (ORG) CPS, I calculated that 17,089 state and local government workers would be affected by the minimum wage increase. I defined affected workers as those individuals earning between $7.00 and $8.24 per hour. Though the minimum wage was $7.25 per hour during this period, I also included those workers reporting earnings of $7.00 to $7.24 since some individuals may round their wage rate. I calculated the annual wage cost for each state and local government worker (i) in the ORG CPS as:

$$Annual\ Wage\ Cost_i = (\$8.25 - current\ wage_i) * weekly\ hours_i * 52.$$[2]

The average annual wage cost increase was $870. I summed the cost over each worker (i) to obtain the total wage cost to state and local government entities in Missouri of $14,866,430.

The increased wage cost is not the only labor cost to state and local government entities of the minimum wage increase. Employers are required to pay 7.65% of their wage costs in Social Security and Medicare taxes. Thus, the total labor cost of the minimum wage increase will be 1.0765 times $14,866,430 or $16,003,712.

---

[2] I assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour.

C. Unemployment Benefit Impact

The higher minimum wage will cause firms to reduce their level of employment.[3] As a result, the number of unemployed workers will increase. Thus, another important fiscal cost of the minimum wage increase is the cost of the unemployment insurance benefits for the workers laid off as a result of the minimum wage increase.

To calculate the cost to the unemployment benefits program, I first calculated the number of workers laid off. To do so, I calculated a probability of job loss for each affected Missouri worker (i) in the January 2010 to December 2011 ORG CPS:

$$Probability\ Job\ Loss_{\ i} = \frac{(\$8.25 - Current\ Wage_i)}{Current\ Wage_i} * elasticity_i.$$

I used the preferred employment elasticity (i.e., sensitivity of employment to wage changes) contained in Sabia and Burkhauser (2010), which was -0.6 for individuals aged 16 to 29 without a high school degree and -0.2 for all other individuals. The sole exception was for state and local government workers, where I assumed an elasticity of zero.[4] The sum across all affected workers yielded an estimated job loss of 5,745 jobs.

The next step was to calculate the weekly benefit for the average unemployed worker. Using the benefits calculator on the Missouri unemployment benefits web site and the wage income of average private-sector affected worker ($10,937), yields an average weekly benefit of $109.36[5]. The state of Missouri pays the first 20 weeks of benefits.[6] Thus, each eligible unemployed worker could receive a total of $2,187.20 in

---

[3] For a survey of research regarding the effect of the minimum wage on employment, see David Neumark and William L. Wascher, *Minimum Wages* (Cambridge, MA: MIT Press, 2008).
[4] Joseph J. Sabia and Richard V. Burkhauser, "Minimum Wages and Poverty: Will a $9.50 Federal Minimum Wage Really Help the Working Poor?" *Southern Economic Journal* (January 2010): 592-623.
[5] http://www.labor.mo.gov/DES/Claims/calculator.asp
[6] See http://www.labor.mo.gov/DES/Claims/

benefits paid for by the state of Missouri. These jobs are permanently eliminated and so it is appropriate to calculate the full amount of benefits for each worker.

Unemployment insurance, however, does not cover all unemployed workers. For example, it does not cover people who leave a job voluntarily, people looking for their first job, and re-entrants who previously left the labor force voluntarily. Furthermore, some individuals don't apply for benefits even though they are eligible. I assume that 35% of the unemployed workers will receive unemployment benefits based on analysis by Wenger (2001).[7]

The last step is to calculate the total cost to the Missouri unemployment benefits program. This done by multiplying the number of jobs lost (5,745) times the average benefit amount ($2,187.20) times the percent of unemployed individuals collecting benefits (35%). This calculation yields a figure of $4,397,510. This cost would be borne only during the first year of the minimum wage increase. The inflation adjustments in the minimum wage will also yield costs to the unemployment insurance program, but it is not possible to estimate the amount.

D. Impact on State Income Tax Revenue

The state of Missouri will gain increased revenue through higher income tax taxes paid by workers affected by the minimum wage who remain employed. However, it will

[7] Jeffery Wenger. "Divided We Fall: Deserving Workers Slip through America's Patchwork Unemployment Insurance System." *Economic Policy Institute*, 2001. Sabia and Burkhauser (2010) make the same assumption in their calculation of the amount of unemployment benefits generated by a minimum wage increase.

suffer reduced corporate income tax revenue to the extent the higher wage cost lowers profits of businesses.

To calculate the impact on individual income tax revenue, I again used data from January 2010 to December 2011 ORG CPS. I defined affected workers as those Missouri individuals earning between $7.00 and $8.24 per hour.[8] I used the following formula to estimate the change in income tax revenue:

$$\Delta Tax\ Revenue_i = (Tax_After_i - Tax_Before_i) - Prob_Job_Loss_i * Tax_Before_i,$$

where Tax_After_i is the income tax paid by worker i after the minimum wage increase. Tax_Before_i is the income tax paid by worker i after the minimum wage increase, and $Prob_Job_Loss_i$ is the probability of job loss for worker i. The first term shows the change in individual income tax revenue assuming no job loss and the second term shows the loss in tax revenue due to the employment loss caused by the minimum wage increase.

The income tax calculations were based on two assumptions.[9] First, the 50% percent of affected workers who were under the age 25 who were assumed to be dependents on another person's tax return. As a result, it was assumed that the affected workers' earnings were taxable at the maximum Missouri income tax rate of 6% both and after the minimum wage increase.[10] Second, all persons age 25 and older were assumed to be paying little or no income tax after exemptions and deductions. Thus, about 50% of the earnings increase will be taxed at a rate of 6%.

---

[8] I again assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour. The annual earnings level was calculated as the worker's wage rate times usual weekly hours worked times 52.

[9] The same assumptions are used in the State Auditor's fiscal notes for the initiatives.

[10] This assumption will overstate the revenue increase as 20% of affected workers under the age 25 are living by themselves and some of these individuals will not be a dependent on another person's tax return.

The tax calculations reveal an increase in income tax revenue increase to the state. Assuming no workers were laid off by the minimum wage increase, income tax revenue would rise by $6,043,534. However, the state will lose $1,965,446 in income tax revenue due to the lost earnings of private-sector workers no longer employed due to the minimum wage hike.[11] Thus, the net increase in individual income tax revenue is $4,078,088.

Businesses have three options to respond to the higher labor costs of a higher minimum wage. They can reduce their profits, raise prices, or lay off workers. Based on the 2010-2011 ORG CPS data, the minimum wage increase will raise private-sector labor costs by $192,620,900 if employment levels are not reduced. However, labor costs will be lowered by $55,240,790 due to the reduction in employment. Thus, labor costs will, on net, rise by $137,380,110. These increased labor costs may be either passed on to consumers through higher prices or reduced profits or more likely some combination of higher prices and reduced profits. Assuming that businesses absorbed all of the higher costs through reduced profits, the corporate income tax revenue would fall by the Missouri corporate income tax of 6.25% times the rise in labor costs of $137,380,110 * 1.0765 (to account for employer-paid Social Security and Medicare taxes) or $9,243,106.[12] Alternatively, if half of the higher labor costs were passed on to consumers, then corporate income tax revenue would fall by $4,621,553.

[11] The probability of job loss was calculated in the same manner as in the prior section.
[12] The corporate income tax for Missouri is available at: http://dor.mo.gov/business/corporate/

E. Impact on State and Local Sales Tax Revenue

To calculate the impact on state and local sales tax revenue the following approach was undertaken.[13] First, the total increase in worker earnings, adjusted for employment reductions, was calculated using the 2010-2011 ORG CPS. This figure was $152,246,540. Second, the increase in Missouri taxable sales was calculated as 25% of the earnings increase or $38,061,635. Third, the increase in sales tax revenue was calculated by multiplying the taxable sales change times the average state and local rate of 7.67% or $2,919,327.[14]

The higher minimum wage may decrease sales tax revenue to the extent that it reduces business profits, which will lower spending by business owners.

VI. Summary and Conclusions

I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

[13] The same general approach is used in the State Auditor's fiscal notes for the initiatives.
[14] The average rate comes from http://taxfoundation.org/news/show/27023.html

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

Ph.D., Economics, The Pennsylvania State University.
B.S., Economics, The Pennsylvania State University.

Current Positions

E.M. Stevens Professor of Economics, Trinity University, 2009-
Research Fellow, Institute for the Study of Labor (IZA), Bonn, 2004-.

Previous Positions

Rod and Hope Brim Eminent Scholar in Economics, FSU 2004-2009.
Director, Pepper Institute on Aging and Public Policy, FSU, 2003-2009.
Abba P. Lerner Professor of Economics, FSU, 2000-2009.
Professor, Department of Economics, Florida State University, 1996-2009.
Director of Research, Pepper Institute on Aging and Public Policy, FSU, 1995-2000.
Associate Professor, Department of Economics, Florida State University, 1993-1996.
Research Associate, Pepper Institute on Aging and Public Policy, FSU, 1993-2001, 2003-2009.
Visiting Associate Professor, Department of Economics, Florida State University, 1992-1993.
Research Affiliate, Pepper Institute on Aging and Public Policy, FSU, 1992-1993, 2001-2003.
Associate Professor, Department of Economics, Miami University, 1991-1993.
Assistant Professor, Department of Economics, Miami University, 1987-1991.

Research Areas

Labor Economics, Labor Market Aspects of Pensions, Labor Unions, Racial and Gender Differences in the Labor Market, Minimum Wage, Deregulation.

Teaching Areas

Principles of Microeconomics and Macroeconomics, Intermediate Microeconomics, Money and Banking, Econometrics (undergraduate and graduate), Labor Economics and Labor Relations (undergraduate and graduate).

Miami University Faculty Research Grant, 6/1989-8/1989, $4,000, "Declining Unionism and the Gender Wage Gap," with William Even.

Participation in National Meetings

Panel Discussant, American Real Estate and Urban Economics Association/ASSA meetings, January 2008.

Presented, "Employee Turnover in the Long-Term Care Industry," at Academy Health Annual Research Meetings, June 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at International Atlantic Economic Society meetings, October 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at International Atlantic Economic Society meetings, October 2005.

Presented, "Replacing Earnings After Termination: Evidence from the Displaced Worker Survey," at the Allied Social Science Association/National Association of Forensic Economics, January 2002.

Presented, "Labor Market Transitions of Older Workers," at the Allied Social Science Association/Society of Government Economists meetings, January 1999.

Presented, "Why has the Loss in Pension Coverage Accelerated Among Less Educated Workers?" at the American Economic Association Meetings, 1995.

Presented, "Wages and Gender Composition: Why Do Women's Jobs Pay Less?" at the American Economic Association Meetings, 1994, with Barry Hirsch.

Presented, "Pensions, Labor Turnover, and Employer Size" at the American Economic Association Meetings, 1993, with William Even.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the American Economic Association meetings, 1992, with William Even.

Participation in Regional Meetings

Presented "Unions and Pension Performance: The Role of Pension Design," at Southern Economics Association meetings, November 2009.

Panel member, "Recent Federal Reserve Policy: An Evaluation" at Southern Economics Association meetings, November 2009.

Discussant, "Topics in Health Economics," at Southern Economics Association meetings, November 2009.

Discussant, "Teacher Pay, Principals, and Schooling," at Southern Economics Association meetings, November 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Western Economic Association meetings, July 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Eastern Economic Association meetings, February 2009.

Fiscal Note Summary

State and local governments estimate no direct costs or savings from the proposal, but operating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could increase by an unknown annual amount ranging from $600,000 to $164 million depending on business decisions.

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, Version 18 (2018-213)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on April 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Sections 290.502 and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.75 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.75 per hour, effective January 1 of each of the next three years, until it reaches $11.00 per hour, effective January 1, 2022. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2023, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-213)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received April 4, 2017)

Date

April 24, 2017

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election**

Commissioners City of St. Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners**.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided information as proponents of the proposal to the State Auditor's office.

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided information as an opponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations. They do not expect that the enactment of this proposal would result in any other increased costs to their office.

Officials from the **Department of Agriculture** indicated there is no fiscal impact to their department for this initiative petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department since public employers are exempt from the new provisions proposed.

Officials from the **Department of Health and Senior Services** indicated this proposal would have no direct fiscal impact on their department since government employees are exempt from its provisions. However, employees of certain entities that receive funding through the department's budget would be impacted, such as Medicaid Home and Community Based Services vendors/providers and Area Agencies on Aging.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department defers to the Office of Administration to determine the fiscal impact of this proposal.

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department. Their department defers to the Office of Administration for a state impact.

Officials from the **Department of Public Safety - Office of the Director** indicated they will defer to the response provided for this initiative petition by the Office of Administration - Human Resources.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to the Office of Administration.

Officials from the **Governor's office** indicated there should be no added cost or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Officials from the **Office of Administration** indicated the proposal amends Sections 290.502 and 290.527, RSMo and adds Section 290.529, RSMo.

Section 290.502, RSMo, increases the minimum wage to $8.75 per hour, beginning January 1, 2019 and by another $0.75 per hour each year until it reaches $11.00 per hour beginning January 1, 2022. Thereafter, the minimum wage will be adjusted annually based on the increase/decrease in the cost of living.

The proposal exempts public employers from both requirements; therefore, there would be no cost to the State of Missouri.

Because no tax rates are affected, there is no direct impact on general and total state revenues. However, these proposals may have several indirect affects, which could impact revenue collections by an unknown amount, including but not limited to:

- Increased wages for certain employees. According to the US BLS, in 2015, Missouri had 57,000 hourly employees earning wages at or below the federal minimum wage;[1]
- Increased consumption by those employees;
- Lower overall employment (if employers choose to hold costs steady);

[1] http://www.bls.gov/opub/reports/minimum-wage/2015/home.htm

- Lower business investment (if employers' payrolls increase);
- Increased prices as firms pass–through labor costs.

This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated they do not predict an immediate fiscal impact upon their office if Missouri's minimum wage rate were increased to $11.00 per hour. However, the potential future impact of applying cost of living increases and/or increases in the federal minimum wage to a Missouri minimum wage of $11.00 per hour, as called for elsewhere in Section 290.502, RSMo., is unknown.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition may have a small negative fiscal impact on their city as a result of the increased hourly minimum wage being higher than the hourly rate paid some city employees.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated they are not able to estimate any significant financial impact on their university.

Officials from **University of Central Missouri** indicated they estimate no fiscal impact since they are excluded under the public employer definition in section 4.

Officials from the **Missouri State University** indicated no fiscal impact.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated the wording is unclear as to whether Colleges/Universities are included in this petition. In assuming they are included, they calculate the following significant fiscal impact to their university. The proposal will have a severe negative fiscal impact on the university. The proposed minimum wage increase to $8.75 per hour beginning in 2019 and continuing with .75 increases for the next 3 years to $11.00 per hour will result in approximately $1,236,000.00 increase in a three year span in their payroll expenditures. This increase would be detrimental to the university.

Officials from the **Kansas City Board of Election Commissioners** indicated no fiscal effect on their operations.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition does not have a fiscal impact on their office.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided the following information as proponents of this initiative petition.

Version 31	2018 - 197	$12 by 2022 (Start at $9; $1/year)	Yes	Yes	60%	Yes
Version 32	2018 - 198	$13 by 2023 (Start at 9; $1/year)	Yes	Yes	100%	Yes

Version 33	2018 - 199	$13 by 2023 (Start at $9; $1/year)	Yes	Yes	60%	Yes

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced Minimum Wage Initiative Petitions. Pursuant to RSMo. Section 116.175, we write to submit the following fiscal impact information to assist your office in its analysis of the fiscal impact of the above-mentioned seven proposed Minimum Wage Initiative Petitions.

Our analysis estimates the impact of the proposed Minimum Wage Initiative Petitions on state and local sales and personal income tax revenue in Missouri. We follow the process that has been used in the past to estimate the impact of minimum initiative petitions on state and local sales and personal income tax revenue, with some refinements. We also address certain claims that have been made by opponents of similar initiative petitions in the past.

As these petitions exclude public workers from the proposed minimum wage increases, we do not include in our analysis an estimate of the impact on state and local payroll costs of the proposed Minimum Wage Initiative Petitions.

I. Estimate of Number of Workers Affected Statewide and the Impact on Their Wages

Table 1. Summary of the Number of Affected Workers and Aggregate Wage Increases for Missouri in the Final Year of Minimum Wage Implementation.

Proposal	Year of Peak Minimum Wage (MW)	Proposed Peak MW	Tipped MW in Peak MW Year	Workers Affected by MW increase	Aggregate Annual Wage Increase in Nominal Dollars
13,14,15[a]	2023	$ 12.00	$ 6.00	835,350	$4,358,798,129
16,17,18[a]	2024	$ 12.00	$ 6.00	819,652	$4,209,438,048
19,20,21[a]	2025	$ 13.00	$ 6.50	900,788	$5,309,336,662
22,23,24[a]	2022	$ 11.00	$ 5.50	738,515	$3,347,138,756
25	2021	$ 11.00	$ 5.50	761,164	$3,469,534,559
26	2022	$ 12.00	$ 6.00	852,284	$4,510,285,824
27	2023	$ 13.00	$ 6.50	949,801	$5,667,065,534
28	2024	$ 12.00	$ 9.60	832,328	$4,288,614,460
29	2025	$ 13.00	$ 7.80	905,942	$5,332,471,496
30	2022	$ 12.00	$ 8.40	864,090	$4,558,317,729
31	2022	$ 12.00	$ 6.84	855,887	$4,523,341,931

32	2023	$ 13.00	$ 9.75	948,421	$5,745,051,956
33	2023	$ 13.00	$ 7.54	942,566	$5,685,951,766

Notes: Author's Analysis of American Community Survey (ACS) Data from 2014.
(a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

Across the proposals analyzed, the total aggregate wage increase for workers in Missouri ranges from a low of $3.347 billion (Proposals 22-24) to a high of $5.745 billion under Proposal 32. While some proposals have the same final impact numbers, they have different impacts in the initial years (not listed) based on the relative pace of increases in earlier years. A full, year-by-year impact analysis is presented in Appendix Tables A1 through A13 below.

The wage impact of an increase in the minimum wage for the state of Missouri is calculated using the following procedure. The American Community Survey (ACS) Public Use Micro Sample for the most recent year available (2014) for the state of Missouri was downloaded from the US Census Bureau. The American Community Survey was chosen over the Current Population survey because the ACS has a significantly larger sample. We followed the method of Perry, Thomason, and Bernhardt (2016) for calculating an hourly wage rate from the ACS based on observed total annual wage income, typical hours worked each week and weeks worked per year. Since ACS income figures are clustered around whole-numbers, we smoothed the wage distribution by randomly adding or subtracting $0.25 from each wage figure.

Wage adjustments were made only for those individuals earning less than the proposed minimum wage, or proposed tipped minimum wage. We did not make additional adjustments for the "ripple effect" of minimum wage increases on workers earning slightly above the new threshold. Recent evidence suggests that workers earning up to 15 percent above of the minimum wage also receive small increases in response to a minimum wage increase. (See Wicks-Lim (2006) and Dube, Giuliano and Leonard (2015).) Thus, the estimated impacts listed above are likely to be smaller than the actual impact of increasing the minimum wage to the proposed level.

The proposed minimum wage increases exclude public employees. However, it was not practicable to exclude public employees from these calculations because the ACS does not have a published variable that allows for identification of public employees. Nonetheless, this inclusion of public employees should have only a minimal impact on our results, since their numbers are small and most already earn more than the proposed minimum wage increases.[1]

All wages from the 2014 survey were adjusted upward to account for inflation between the time of the survey and the time of measurement of the impact. Actual rates of inflation were used to adjust wages up to 2016. For all subsequent years between 2017 and 2028, baseline wages were adjusted using the projected annual average rate of change in the Consumer Price Index for Urban Workers (CPI-U) for the Midwest region. The 2015 and 2016 Missouri Minimum wage of $7.65 was adjusted by the same factor prior to measuring the impact of a change to the proposed minimum wage in 2019.

After these adjustments, the resulting hourly wage of all employees was compared to the proposed minimum wage. A total of twenty-one proposals were analyzed. For each proposal, we constructed a baseline wage scenario that used only basic wage changes from expected inflation rates to predict each ACS respondent's hourly wage rate in each year

[1] For Missouri's state employees, this can be validated by viewing the earnings of all state employees at: http://mapyourtaxes.mo.gov/MAP/Employees/. In larger counties and cities most all public employees already earn more than the highest proposed minimum wage. Smaller counties and towns may have some public employees who earn less than the highest proposed minimum.

between 2019 and 2028. We then constructed a counterfactual, or "proposed" wage distribution for each worker under all twenty-one minimum wage proposed scenarios. Since the minimum wage proposals offer nine different paths for raising the minimum wage for all non-tipped private sector workers, and different wage paths for tipped workers, we create separate minimum wage changes for tipped and non-tipped workers. Specifically, we used information on a worker's occupation and observed wage levels to separately identify tipped workers and assign them the proposed tipped minimum wage in each year, rather than the higher non-tipped minimum wage.[2]

If the proposed minimum wage was less than the inflation-adjusted hourly earnings of an employee, then no impact was calculated. If the proposed minimum wage was more than the hourly earnings for an employee, then the difference between the inflation-adjusted hourly earnings (i.e. baseline) and the proposed minimum wage was calculated. That difference was multiplied by the number of hours the employee worked in the year to calculate the annual impact for that employee. The result was then multiplied by a weighing factor for that employee in the population. The total impact for the state of Missouri was then summed across all affected workers to generate a total estimated increase in wage income in the state.

We do not include an estimate of job losses due to minimum wage changes. Existing research is clear that past minimum wage increases have had no measurable effect on aggregate employment levels. Larger minimum wage increases, such as those in Los Angeles, Seattle, and other jurisdictions, have not yet been studied to detect a clear disemployment effect. While it is possible that there may be some employment losses due to automation or other factors, this potential negative effect is likely offset by the positive potential job growth stemming from multiplier effects of the spending of minimum wage workers who receive substantial raises. There is substantial research to indicate that increases in the minimum wage have multiplier effects that increase the direct effects. For this reason and because of the likely increases in wages for individuals who earn above the proposed minimum wage rates, the impacts summarized in the table are considered conservative estimates relative to the total impact that would occur as a result of increasing the minimum wage to the proposed levels.

II. Economic Literature on the Impact of Minimum Wage Increases on Employment

Next, it is necessary to review the economic literature on the impact of minimum wage increases on employment. Opponents often claim that minimum wage increases may reduce employment in a state. If that is true, then those employment reductions would result in reductions in state income and sales tax revenue. However, review of the most credible recent empirical research on the minimum wage shows that increases in the minimum wage have had no discernible impact on employment. We thus conclude that it is not appropriate to project that the proposed initiative petitions would result in any detectable employment reduction, and resulting losses in income and sales tax revenue, or increases in unemployment-related costs to the state.

Economists have conducted hundreds of studies of the employment impact of the minimum wage. A recent meta-study – a formal statistical study of studies – by Doucouliagos and Stanley (2009) reviewed all the research conducted over the last three decades on the employment impact of minimum wage increases on teenagers in the United States. The researchers concluded that the minimum wage has little or no discernible effect on the employment prospects of low-wage workers. Their study followed a rigorous, peer-reviewed procedure and has the advantage of using a set of predetermined, objective criteria for weighing the validity of statistical findings across studies with different results.

[2] We defined tipped workers as those employed in occupations that typically receive a large share of income as tips. These occupations were 'Bartenders' (4040), 'Waiters and Waitresses', 'Food Servers, Non-restaurant' and 'Miscellaneous food preparation and serving related workers including dining room and cafeteria attendants and bartender helpers'.

(Source: Doucouliagos, Hristos and T. D. Stanley. 2009. "Publication Selection Bias in Minimum-Wage Research? A Meta-Regression Analysis." British Journal of Industrial Relations,vol. 47, no. 2, pp. 406-428.)

Recent theoretical and empirical research emphasizes several explanations for the consistently negligible employment impacts of moderate increases in the minimum wage. First, relative to total wage costs, minimum-wage increases are small. Second, employers and workers appear to respond to minimum-wage increases in many ways that reduce the direct cost to employers and substantially reduce or eliminate the need to cut employment.

Probably the most important economic response to a higher minimum wage is a reduction in turnover. At higher wages, employers fill vacancies faster and retain employees longer, boosting total employment and average productivity per worker while reducing direct and indirect training costs. Dube, Lester, and Reich (2012), for example, examined the effect of the minimum wage on labor turnover among teens and restaurant workers. They find "...striking evidence that separations, new hires, and turnover rates for teens and restaurant workers fall substantially following a minimum wage increase..." (p. 2). Their findings, using nationally representative data, are consistent with local case studies of the minimum wage and related "living wage" laws, including Dube, Naidu, and Reich's (2007) analysis of the San Francisco city-wide minimum wage; Fairris's (2005) study of local government contractors in Los Angeles; Howes (2005) on homecare workers in California; and Reich, Hall, and Jacobs (2005) on workers at the San Francisco airport.
(Sources: Dube, Arindrajit, T. William Lester, and Michael Reich. 2012. "Minimum Wage Shocks, Employment Flows and Labor Market Frictions." Berkeley, CA: Institute for Research on Labor and Employment. http://escholarship.org/uc/item/76p927ks; Dube, Arindrajit, Suresh Naidu, and Michael Reich. 2007. "The Economic Effects of a Citywide Minimum Wage." *Industrial and Labor Relations Review*, vol. 60, no. 4, pp. 522-543; Fairris, David. 2005. "The Impact of Living Wages on Employers: A Control Group Analysis of the Los Angeles Ordinance." *Industrial Relations*, vol. 44, no. 1, pp. 84-105; Howes, Candace. 2005. "Living Wages and the Retention of Home Care Workers in San Francisco." *Industrial Relations*, vol. 44, 5 no. 1, pp. 139-163; Reich, Michael, Peter Hall, and Ken Jacobs. 2005. "Living Wage Policies at the San Francisco Airport: Impacts on Workers and Businesses." *Industrial Relations*, vol. 44, no. 1, pp. 106-138.)

Employers also appear to respond to increases in the minimum wage by taking measures to boost productivity. Hirsch, Kaufman, and Zelenska's (2011) study of the impact of the federal minimum wage increase on 81 fast-food restaurants in Georgia and Alabama, for example, asked fast-food managers about the scope for efficiency improvements in response to the minimum-wage rise. About 90 percent of managers indicated that they planned to respond to the minimum wage increase with increased performance standards such as "requiring a better attendance and on-time record, faster and more proficient performance of job duties, taking on additional tasks, and faster termination of poor performers." (p. 27) Roughly the same share of managers said that they sought to "boost morale" by presenting the minimum wage increase as a "challenge to the store" and using this as a way "to energize employees to improve productivity." (pp. 28-29) Based on their interviews with store managers, the researchers concluded that a minimum wage increase may function as a "catalyst or shock that forces managers to step out of the daily routine and think about where cost savings can occur." (p. 29) (Source: Hirsch, Barry T., Bruce Kaufman, and Tetyana Zelenska, "Minimum Wage Channels of Adjustment." IZA Discussion Paper No. 6132. Germany: Institute for the Study of Labor. http://www2.gsu.edu/~ecobth/IZA_HKZ_MinWageCoA_dp6132.pdf)

A higher minimum wage may also motivate workers to work harder, independently of any actions by employers to increase productivity. According to "efficiency wage" theory, wages above the competitive-market rate may elicit greater work effort for several reasons. As Carl Shapiro and Joseph Stiglitz (1984) have argued, higher pay increases the cost to workers of losing their job, potentially inducing greater effort from workers in order to reduce their chances of

being fired. George Akerlof (1982), arguing from a more sociological point of view, has suggested that workers may see higher wages as a gift from employers, leading workers to reciprocate by working harder. (Sources: Shapiro, Carl and Joseph E. Stiglitz. 1984. "Equilibrium unemployment as a worker discipline device." *American Economic Review*, vol. 74, no. 3, pp. 433-444; Akerlof, George A. 1982. "Labor contracts as partial gift exchange." *Quarterly Journal of Economics*, vol. 97, no. 4, pp. 543-569.)

We therefore conclude that the proposed increase in the Missouri minimum wage would have no discernible impact on the employment levels of low-wage workers. Accordingly, we do not factor in reductions in employment, or any resulting decrease in sales tax or income tax. We also do not project any increased unemployment insurance costs – both because we do not project any resulting job losses, and, additionally, because unemployment insurance costs are paid for by employer premiums, and so are ultimately not a cost to the state.

For similar reasons, we do not believe that the proposed increase will have any significant adverse economic impact on small businesses or, by extension, on corporate income tax revenue. In fact, many small businesses already pay little if any corporate income tax.

III. State and Local Sales and Personal Income Tax Revenue Impact of Raising the Minimum Wage

Based on the wage impact figures calculated above, and the understanding that the minimum wage increases would be unlikely to result in offsetting job losses, we next calculate the impact of the projected wage increases on state and local sales and personal income tax revenue in Missouri. We project only the direct impact of the various minimum wage increase scenarios on such tax revenue. We do not attempt to project the additional impact through a GDP multiplier effect, or the potentially higher sales taxes generated if employers offset wage increases with higher prices (which would be taxable).

Personal Income Tax Revenue. In order to determine the projected increase in personal income tax revenues that would result directly from the increased wages, we had to develop assumptions about the effective income tax rates of the affected workers. We made the following assumptions with respect to the effective tax rate:

1. That 25% of affected workers can be claimed as a dependent on another party's Missouri income tax return and, as a result, would pay an effective tax rate of 6.0% on the increase in income;
2. That 50% of the affected workers would file as single taxpayers, would claim one deduction of $2,100, and would be entitled to a standard deduction of $5,800. This would result in an effective tax rate of 2.47%;
3. The remaining 25% would, we assumed, pay no additional Missouri income tax.

In light of these assumptions, the increased Missouri income tax revenue for each petition version can be calculated as follows: (total wage increase * 25% * 6.0%) + (total wage increase * 50% * 2.47%) + (total wage increase *25% * 0%).

Sales Tax Revenue. The state of Missouri imposes a 4.225% state sales tax on those items that are not exempt from the sales tax base. In addition, the average local sales tax rate is 2.95%. As a result, the average Missouri net sales tax rate is 7.175%. To estimate the share of income that is spent on goods and services that are subject to sales taxes, we used data from the 2015 Consumer Expenditure Survey (CES) for the US to estimate the share of income spent on categories that are subject to sales taxes. The CES summary tables list average spending per consumer across 20 different

categories (e.g. housing, transportation, food away from home) and we categorized each spending item as taxable or non-taxable and then calculated the share of spending that we taxable.[3] The resulting rate was 30.3 percent.

Based upon the above assumptions, and the total wage increase calculations for each version of the petition, we estimate that the increase in state income tax revenue resulting from the increased wages would be as follows:

Table 2. Summary of the Impact of Minimum Wage Increases on State and Local Sales and Income Taxes in Year of Full Minimum Wage Final Implementation.

Proposal	State Sales Tax (4.225%)	Local Sales Tax Revenue (2.95%)	Total Sales Tax Revenue Increase	Personal Income Tax Revenue	Total Sales and Personal Income Tax Revenue Increase
13,14,15[a]	$55,814,587	$38,971,132	$94,785,719	$119,213,129	$213,998,848

Note: Author's Analysis of American Community Survey (ACS) data from 2014 and fiscal impact assumptions described above. All dollars are in nominal figures. (a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

As described in Table 2 above, the fiscal impact of the proposed minimum wage increases varies based on the ultimate level of the minimum wage and the degree of tipped minimum wage phase out. The estimates of the total fiscal benefit range from $164 million to $282 million annually. Appendix tables A1 through A13 provide a year-by-year summary of the fiscal benefits.

[3] Specifically, the categories we assumed to be subject to state and local sales taxes are: food, household furnishings and equipment, vehicle purchases, gasoline and motor oil, entertainment, and all other expenditures. We assumed that 50 percent of the spending on the category "apparel and services" was taxable.

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,

Lara Granich

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided the following information as an opponent of this initiative petition.

These corrections were subsequently provided to the submitted information

In the table on the bottom of page 7 and top of page 8, both averages for 2023 should be based on a 5 year phase-in. Accordingly, the figure on that table should state for 2023 ($12) Average Annual Unemployment Premiums Paid by State of $16,269,523.52.

The corresponding change on the table on page 12 would be to state, for 2023 ($12) Total Net Loss to State Government from Taxes and Unemployment Insurance of ($19,137,851.76).

Re: Initiative Petitions 2018-196 through 2018-216

Dear Mr. Halwes,

I write on behalf of Robert Bonney. Mr. Bonney is the Chief Executive Officer of the Missouri Restaurant Association. Please consider this letter and the accompanying studies as his fiscal impact statement as an opponent of Initiative Petitions 2018-196 through 2018-216 (the "Initiative Petitions"). If passed, any of these twenty-one initiatives would have a substantial negative impact on state and local governments, as well as Missouri small businesses. Those effects are both direct (as noted in Section 1) and secondary (as noted in Sections 2 through 5). The direct effects stem from higher labor and contracting costs that the state and its political subdivisions will incur, despite the Initiatives' effort to exclude government workers from the mandate.

The indirect effects will present a debate this Office has seen before. The proponents of the Initiative Petitions will once again rely on data sourced from political activist groups who claim increases in the minimum wage only serve to create new taxable income. The reality is that such groups approach this issue with political bias. Their analysis is one-sided because it completely ignores the fact that a wage increase does not "create" income from thin air; instead, it is an economic transfer from Missouri businesses to workers. Missouri businesses must pay the new wages "created" by the increases. Political activists' models fail to account, then, for two specific manifestations of the "debit" side of this transfer: reductions in employment, and the reduction in corporate income tax paid based upon business done in Missouri.

The failure to account for any employment effect at any proposed wage increase—even a drastic increase of the minimum wage to $13—is particularly puzzling, because Missouri's most populous areas border Illinois and Kansas. These states, respectively, have minimum wages of $8.25 and $7.25. Neither state adjusts the minimum wage for inflation. Likewise, the second effect—loss of corporate income tax revenues—is a mathematical certainty. Missouri businesses will be the source of the wage increase, which will lower their own taxable income. Assuming a one-to-one substitution of "created" wages for lost corporate income, the difference in the rates

at which these two types of income are taxed will result in a net decrease in state revenue. A dollar from increased wages is taxable by state government in Missouri at 6% or substantially less, whereas Missouri's corporate income tax rate is 6.25%.

On top of these two types of negative outcomes—lower employment and lower state tax revenues—there may be second-order effects to small businesses because they lack the access to capital to weather price fluctuations; they may not survive at all because they may not have the flexibility to simply cut employment, shifting their reliance to capital instead of labor resources, or suffering a decrease in production and revenue.

In short, much of the fiscal impact regarding the current crop of wage-related ballot measures is secondary: they cause transfers of wealth within (or out of) the state economy, and those transfers of wealth then create second-order effects for state and local governments via their collection of tax revenues and provision of welfare services for the unemployed or less-employed. Because these fiscal notes call for the Auditor operate in the area of secondary effects, it is critical that she treat both sides of the wealth transfer equally, and refrain from assessing only one half of the wage increase equation.

1. Direct Labor Cost Impact on State and Local Government Budgets

As noted to the State Auditor's Office previously by Dr. David Macpherson, a nationally prominent labor and economics expert, there are two ways to measure labor cost on state and local government budgets. First, one can use the information included in fiscal note responses from state and local government entities. It is important to note that these fiscal notes provide an incomplete and, therefore, too-low estimate of labor cost. Few state and local government entities respond to requests for a fiscal note response, and those that do respond often ignore important effects.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can be used to calculate increased labor cost to state and local government entities in Missouri. To combat this time-honored analysis, and in a blatant attempt to manipulate the fiscal note process, the Initiative Petitions provide that they will raise the minimum wage for private workers, but not for workers employed by state or local governmental entities. No conceivable justification exists for solely raising the minimum wage on private businesses. Whatever the disparity between the value of total compensation at a private business and at a government employer, that disparity does not approach the wage adjustments at issue here, ranging from an inflation adjusted wage increase of 51.16% (($13-$8.60)/$8.60) in Initiative Petitions 2018-198 through 2018-201 to a wage increase of 30.17% (($11-$8.45)/$8.45) in Initiative Petitions 2018-213 through 2018-215.

Moreover, it is unreasonable to assume that on a sustained basis public employers, as defined in the Initiative Petitions, would be able to maintain dramatically lower wage levels than private businesses. Public employers would lose staff employable at higher rates in the private market, imposing substantial costs on government productivity. Using the method traditionally employed by labor economists and followed by the Auditor's office, one can calculate the annual

wage costs to state and local governmental entities, based on the annual wage cost for each state and local government worker in the ORG CPS, as detailed on page 6 of Dr. Macpherson's 2012 report, attached hereto as **Exhibit A**. Even if the auditor finds that a specific estimate of costs is not determinable, the auditor should note that state and local government "operating costs could increase by an unknown annual amount that could be significant," through the form of higher wage costs and higher contracting costs.

The proponents of the Initiative Petitions may argue that the Auditor should abandon any state and local cost estimates altogether. The proponents will argue that provisions they have inserted in the statute would mean that state and local government entities will not have to pay higher wages to their employees. Setting aside unjustifiable discrimination against private employers (and "public employees"), the provision is of uncertain legal effect and constitutionality. A "public employer," defined in the initiatives as "the state or a political subdivision of the state" still incurs substantial costs for wages of individuals that are "private employees," rather than "public employees." Cleaning services, food service, and other essential services often rely on state contracts with outside vendors. Sometimes, a contract rate may vary depending on the cost of labor. Even if the contract rate is fixed, it must be re-bid periodically, and that bidding process would take into account the new minimum wage. Plainly, the initiative would impose higher costs for state and local governments in contracting with any private entity and its employees. As a matter of law, it would be insufficient and unfair for the Auditor's fiscal note or summary to simply assume that these costs to state and local governmental entities do not exist.

2. Cost of Unemployment Benefits

a) The effect of inflation on Missouri's minimum wage

CPS–ORG data show that between 2007 and 2015, median nominal wages for adult (25–59 years old) workers in the U.S. grew by 1.68 percent a year. However, Missouri's minimum wage is currently adjusted using "the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W)." Section 290.502, RSMo. Coincidentally (or perhaps not), the CPI-W, over the period from 2006 to 2016, also increased at an average rate of 1.68 percent a year.

Year	CPI-W	Observed inflation %
2006	199.2	
2007	203.7	0.022590361
2008	216.304	0.061875307
2009	210.526	-0.0267124

2010	213.898	0.016017024
2011	222.686	0.041085003
2012	225.568	0.01294199
2013	230.084	0.02002057
2014	234.525	0.019301646
2015	233.806	-0.00306577
2016	234.771	0.004127353

Using Missouri's current inflation-adjusted minimum wage rate and an assumed, constant 1.68 percent increase in the CPI-W, the minimum wage in Missouri will be as follows:

Year	Estimated Minimum Wage
2016	$7.65 (observed)
2017	$7.70 (observed)
2018	$7.85
2019	$8.00
2020	$8.15
2021	$8.30
2022	$8.45
2023	$8.60
2024	$8.75
2025	$8.90
2026	$9.05

b) Calculating job loss attributable to increased minimum wage

At least one outside economist, James Sherk, has already provided an estimate for job loss in Missouri based on a $15 minimum wage. Mr. Sherk calculated the effect of a $15 minimum wage implemented in 2021. Mr. Sherk's figures accounted for inflation by estimating the present value of $15.00 in 2021, rather than estimating an absolute figure for wage inflation in Missouri. Mr. Sherk calculated the present value of $15.00 in 2021 to be $13.57, per hour, based on wage inflation of 1.68 percent. Mr. Sherk evaluated the change from $7.65 per hour to $13.57 per hour (a 77.39% increase), exclusive of agricultural workers. Cumulatively, Mr. Sherk calculated this 77.39 percent increase in wages to reduce employment in the affected workforce by (0.7739*0.677) 52.39%.

Graves Garrett LLC

Mr. Sherk calculated that approximately 40.9% of Missouri's Wage and Salary Workers would be affected by such a $15 minimum wage. Mr. Sherk's calculations reveal that a $15 minimum wage in 2021 would be expected to reduce the number of full-time equivalent jobs in Missouri by approximately 218,000. Based on CPS–ORG data, these figures reveal an affected workforce of approximately 416,086 workers impacted by a $15 minimum wage increase in 2021.

However, in 2014, Dr. Macpherson found, using more conservative, national-level Congressional Budget Office data, that an increase to a $10.10 minimum wage, effective January 1, 2015, would eliminate about 15,700 jobs in Missouri. Dr. Macpherson analyzed the effect of a Missouri $10.10 minimum wage using a model suitable to a national analysis. This analysis predicted a loss of 15,700 Missouri jobs based on a wage increase from $7.50 in 2014 to $10.10 in 2015 (a 34.67% increase).

On the whole, the analysis by Mr. Sherk is more instructive here, since it is more recent, Missouri-specific, and anticipates larger wage changes contemplated by the Initiative Petitions. The most accurate way to determine the estimate of Workers Affected would be to analyze the CPS–ORG data. However, without such data readily available in the time constraints imposed by the fiscal note process, it is reasonable for estimation purposes to assume Mr. Sherk's figures are evenly distributed. Assuming that worker data follows an equal distribution, the Initiative Petitions would be expected to result in the following job losses:

Year of final prescribed wage increase	Wage without IP	Wage mandated by IP	Percentage increase	Percentage of affected workers who lose jobs (Percentage Increase x 0.677 Elasticity)	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by Initiative
2021	$8.30	$11.00	32.53%	22.02%	174,897	38,512
2022	$8.45	$11.00	30.18%	20.43%	162,262	33,150
2022	$8.45	$12.00	42.01%	28.44%	225,866	64,236
2023	$8.60	$12.00	39.53%	26.77%	212,532	56,895
2023	$8.60	$13.00	51.16%	34.64%	275,061	95,281
2024	$8.75	$12.00	37.14%	25.15%	199,683	50,220
2024	$8.75	$13.00	48.57%	32.88%	261,136	85,861
2025	$8.90	$13.00	46.07%	31.19%	247,695	77,256
2026	$9.05	$13.00	43.65%	29.55%	234,683	69,349

c) The best estimate for a price elasticity of demand for low-skilled labor is -0.677.

As noted by Mr. Sherk, starting wages of $15.00 per hour mean that full-time employee must create at least $38,700 a year in value for his or her employer (including wages, employer payroll taxes, and mandatory healthcare benefits). High minimum wages and mandatory benefit costs make it much harder for less-experienced and less-skilled workers to find jobs, particularly full-time work.

Recent labor economics scholarship has revealed that, accounting for publication bias, a state-specific elasticity of demand for less-skilled workers is, on average, approximately -0.677, though some estimates are even higher, around -1.0.[1] "[E]conomists have extensively studied how businesses respond to higher wages overall, not just minimum-wage increases. On average these studies find a 10 percent increase in labor costs causes firms to reduce employment of less-skilled workers by 6.8 percent in the long run."[2]

While these elasticity estimates are substantial in absolute terms, there is reason to believe that such estimates might still understate the impact of a Missouri state-specific effort to increase the minimum wage. This is so for several reasons. First, traditionally, labor economists view labor as a reasonably difficult input to substitute; however, Missouri businesses have readily available options. There are relatively few barriers to doing business in Missouri's border states, and businesses can easily relocate across a state line to take advantage of more favorable wage (and tax laws). Additionally, substantially raising the cost for Missouri labor, relative to labor sources in other states and other countries, is likely to force many manufacturing jobs in Missouri to disappear entirely. Automation is also a significant risk. The substitution of labor is becoming increasingly easy due to technology advancements and the "sharing" economy, where fewer individuals are "employees" covered by the minimum wage. Finally, a labor "price shock" may result in significant decreases in the demand for goods and services. People make behavioral changes to avoid higher costs, including eating out less often and generally decreasing consumption (or shifting their activities to consumption involving comparatively low amounts of labor) wherever possible.

[1] Sherk, James, "How $15-per-Hour Minimum Starting Wages Would Affect Each State," The Heritage Foundation, http://report.heritage.org/ib4601.

[2] "The coefficients on these estimates imply an elasticity of –0.677 for a study published in 2012 (the most recent year in their data) of long-run unconditional labor demand for low-skilled labor in the U.S., estimated using industry-level administrative panel data and a structural form model." "Estimates that do not account for publication bias tend to slow a long-run elasticity closer to –1.0. See, for example, George Borjas, Labor Economics, 6th ed. (Columbus, OH: McGraw-Hill, 2013), Chapter 4: 'The evidence also suggests that the estimates of the long-run labor demand elasticity cluster around –1, so the long-run labor demand curve is indeed more elastic than the short-run curve.' " Sherk, available at http://report.heritage.org/ib4601.

Graves Garrett LLC

d) Unemployment Benefit Costs

We derived an average unemployment payout by calculating the expected weekly unemployment benefit amount. Based on current data, the expected unemployment weekly benefit amount of a worker making $7.65 an hour, on a 40 hour workweek, is $159.12 per week, for 20 weeks.[3] The expected unemployment weekly benefit amount of a worker making $10.99 an hour is $228.59 per week. The expected unemployment weekly benefit amount of a worker making $11.99 an hour is $249.39 per week. The expected unemployment weekly benefit amount of a worker making $12.99 an hour is $270.19 per week. We assume that workers will seek unemployment insurance for the full twenty weeks authorized under Missouri law, because unemployment attributable to an increase in the minimum wage is structural. In this case, structural unemployment occurs because workers' job skills do not meet the established "price floor" of labor, rendering the worker's skills unmarketable. Assuming an even distribution of workers affected, the average unemployment benefit cost to the state for a worker is calculated as follows:

- For Initiative Petitions 2018-213 through 2018-216, [($159.12+$228.59)/2]*20 = $3,877.10
- For Initiative Petitions 2018-196, 2018-197, 2018-200, 2018-202, and 2018-204 through 209, [($159.12+$249.39)/2]*20 = $4,085.10
- For Initiative Petitions 2018-198, 2018-199, 2018-201, 2018-203, 2018-210 through 2018-212, [($159.12+$270.19)/2]*20 = $4,293.10

Consistent with Dr. Macpherson's 2012 report, it would be reasonable for the Auditor to assume that 35% of unemployed workers will receive unemployment benefits. Combining these numbers leads to the following estimates:

Year of final prescribed wage increase	Estimate of Missouri Workers Unemployed by Initiative	Estimated Unemployment Amount Per Worker	Estimated Total Unemployment Premiums Paid	Average Annual Unemployment Premiums Paid by State
2021 ($11)	38,512	3,877.10	$52,260,206.32	$17,420,068.77
2022 ($11)	33,150	3,877.10	$44,984,052.75	$11,246,013.19
2022 ($12)	64,236	4,085.10	$91,843,669.26	$22,960,917.32
2023 ($12)	56,895	4,085.10	$81,347,617.58	$20,336,904.39

[3] https://labor.mo.gov/DES/Claims/calculator. A 2015 law decreased the unemployment benefit period from 20 weeks to 13 weeks, but the Supreme Court of Missouri struck down the law in July 2016.

2023 ($13)	95,281	4,293.10	$143,167,801.39	$28,633,560.28
2024 ($12)	50,220	4,085.10	$71,803,802.70	$11,967,300.45
2024 ($13)	85,861	4,293.10	$129,013,450.69	$21,502,241.78
2025 ($13)	77,256	4,293.10	$116,083,706.76	$16,583,386.68
2026 ($13)	69,349	4,293.10	$104,202,767.17	$13,025,345.90

3. Impact on State Income Tax Revenue

The 2012 analysis prepared by Dr. Macpherson may also be used as a reference in calculating the effect of the initiative petitions on state income tax revenue. Here, again, it is reasonable to assume that our "affected workers" are evenly distributed, though precise CPS–ORG data would also provide a reliable estimate. Here, the increased income tax revenue is the additional income tax paid by workers whose wages increase. There is a loss of revenue, however, in the form of decreased income tax paid by workers whose wages decrease and businesses who absorb the increased cost of labor, rather than passing it along to customers.

For the purposes of these estimates, we assume that workers work 40 hours a week and 52 weeks per year:

Year of final prescribed wage increase	Estimate of Workers Affected	Estimate of Missouri Workers Unemployed by IP	Estimate of Missouri Workers with Increased Wages	Annual Increase in Wages Paid to Workers who get Wage Increase in Final Year	Annual Decrease in Wages Paid to Workers now Unemployed
2021 ($11)	174,897	38,512	136,385	$382,969,080.00	$108,141,696.00

2022 ($11)	162,262	33,150	129,112	$342,405,024.00	$87,913,800.00
2022 ($12)	225,866	64,236	161,630	$596,737,960.00	$237,159,312.00
2023 ($12)	212,532	56,895	155,637	$550,332,432.00	$201,180,720.00
2023 ($13)	275,061	95,281	179,780	$822,673,280.00	$436,005,856.00
2024 ($12)	199,683	50,220	149,463	$505,184,940.00	$169,743,600.00
2024 ($13)	261,136	85,861	175,275	$774,715,500.00	$379,505,620.00
2025 ($13)	247,695	77,256	170,439	$726,750,021.03	$329,419,584.00
2026 ($13)	234,683	69,349	165,334	$679,192,072.00	$284,885,692.00

These net wage increases will lead to corresponding increases in state income tax collections. Traditionally, it has been assumed that about 50% of affected workers will pay 6% income tax, while the other 50% of workers pay no state income tax. This assumption may be less accurate at the higher wage increases contemplated by the Initiative Petitions. Accordingly, figures are also displayed assuming that about 75% of affected workers will pay 6% income tax, while the other 25% of workers pay no state income tax.

Annual Net Increase in Wages Paid To Workers	Annual Income Tax Increase from Wage Increase (50% pay tax)	Annual Income Tax Increase from Wage Increase (75% pay tax)
$274,827,384.00	$8,244,821.52	$12,367,232.28
$254,491,224.00	$7,634,736.72	$11,452,105.08
$359,578,648.00	$10,787,359.44	$16,181,039.16
$349,151,712.00	$10,474,551.36	$15,711,827.04
$386,667,424.00	$11,600,022.72	$17,400,034.08
$335,441,340.00	$10,063,240.20	$15,094,860.30
$395,209,880.00	$11,856,296.40	$17,784,444.60
$397,330,437.03	$11,919,913.11	$17,879,869.67
$394,306,380.00	$11,829,191.40	$17,743,787.10

Graves Garrett LLC

Based on these figures, Missouri businesses must also decide whether to pass along any increase in wage costs (wages and mandatory payments).[4]

Year of final prescribed wage increase	Annual Cost to Business from Increased Wage	Annual Decreased Corporate Income Tax if cost is fully absorbed	Annual Decreased Corporate Income Tax if cost is 50% absorbed
2021 ($11)	$412,266,214.62	$25,766,638.41	$12,883,319.21
2022 ($11)	$368,599,008.34	$23,037,438.02	$11,518,719.01
2022 ($12)	$642,388,413.94	$40,149,275.87	$20,074,637.94
2023 ($12)	$592,432,863.05	$37,027,053.94	$18,513,526.97
2023 ($13)	$885,607,785.92	$55,350,486.62	$27,675,243.31
2024 ($12)	$543,831,587.91	$33,989,474.24	$16,994,737.12
2024 ($13)	$833,981,235.80	$52,123,827.23	$26,061,913.62
2025 ($13)	$782,346,397.64	$48,896,649.85	$24,448,324.93
2026 ($13)	$731,150,265.50	$45,696,891.59	$22,848,445.80

Assuming businesses absorb half of the cost of increased wages, and 75 percent of affected workers pay the new, higher taxes, the effect on state income tax collections is estimated to be:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss
2021 ($11)	($516,086.93)
2022 ($11)	($66,613.93)
2022 ($12)	($3,893,598.78)
2023 ($12)	($2,801,699.93)
2023 ($13)	($10,275,209.23)
2024 ($12)	($1,899,876.82)
2024 ($13)	($8,277,469.02)
2025 ($13)	($6,568,455.26)
2026 ($13)	($5,104,658.70)

[4] A healthcare benefit cost estimate is not available based on the time limitations imposed by this fiscal note.

Graves Garrett LLC

4. Sales tax revenue gain or loss

Projecting any increase in sales tax revenue resulting from an increased minimum wage would require the auditor's office to conclude, based on data separate and apart from the sheer conjecture typically offered by political activist groups: (1) the net effect on consumer disposable income and (2) the percentage of a consumer's disposable income that is spent on goods subject to the sales tax, taking into consideration that the scope of Missouri's sales tax has been truncated by a voter-approved constitutional amendment from November 2016.

Typically, the Auditor's office multiplies the total increase in worker earnings (which should be adjusted for employment reductions) and multiplies the result by 25 percent, then multiplying that figure by the Missouri the population weighted combined average state and local sales tax in Missouri, 7.81%.[5] Based on this estimate, the population-weighted combined average local sales tax is 3.585%.

However, it would be deceptive to fail to account for sales tax losses from workers whose wages are eliminated or sales tax losses from reduced business profits (attributable to the higher wages paid), which will lower spending by business owners. The first figure is calculable by determining the total annual wages (adjusted for employment deductions) for all workers who lose jobs due to a minimum wage hike, multiplied by 25 percent. The second number is calculable by multiplying the total increase in worker earnings (multiplied by 1.0765 to account for Social Security and Medicare taxes) by approximately 15 percent.[6]

Year of final prescribed wage increase	Annual Net Increase in Wages Paid To Workers	New Wages Spent on Sales Tax Items	Annual Cost to Business from Increased Wage	Annual Business Income No Longer Included in Sales Tax Base (50% passed-through)
2021 ($11)	$274,827,384	$68,706,846	$412,266,214.62	($61,839,932)
2022 ($11)	$254,491,224	$63,622,806	$368,599,008.34	($55,289,851)
2022 ($12)	$359,578,648	$89,894,662	$642,388,413.94	($96,358,262)
2023 ($12)	$349,151,712	$87,287,928	$592,432,863.05	($88,864,929)

[5] http://taxfoundation.org/sites/taxfoundation.org/files/docs/LOST--2015.png.
[6] This estimate would also need to be adjusted to reflect certain employers' mandate under the Affordable Care Act to provide healthcare coverage and pay 60 percent of such coverage.

2023 ($13)	$386,667,424	$96,666,856	$885,607,785.92	($132,841,168)
2024 ($12)	$335,441,340	$83,860,335	$543,831,587.91	($81,574,738)
2024 ($13)	$395,209,880	$98,802,470	$833,981,235.75	($125,097,185)
2025 ($13)	$397,330,437	$99,332,609	$782,346,397.64	($117,351,960)
2026 ($13)	$394,306,380	$98,576,595	$731,150,265.51	($109,672,540)

Accordingly, the annual estimations of the effects on state and local revenue, and total state economic impact are as follows:

Year of final prescribed wage increase	Annual Net Income Tax Revenue Loss	Annual Net Effect on State Sales Tax	Total Annual Effect on State Tax Revenue	Total Net Loss to State Government from Taxes and Unemployment Insurance	Annual Net Effect on Local Sales Tax
2021 ($11)	($516,086.93)	$290,127.11	($225,959.82)	($17,646,028.59)	$246,178.86
2022 ($11)	($66,613.93)	$352,067.34	$285,453.41	($10,960,559.78)	$298,736.43
2022 ($12)	($3,893,598.78)	($273,087.10)	($4,166,685.88)	($27,127,603.19)	($231,720.06)
2023 ($12)	($2,801,699.93)	($66,628.31)	($2,868,328.24)	($23,205,232.64)	($56,535.50)
2023 ($13)	($10,275,209.23)	($1,528,364.68)	($11,803,573.91)	($40,437,134.18)	($1,296,849.08)
2024 ($12)	($1,899,876.82)	$96,566.47	($1,803,310.36)	($13,770,610.81)	$81,938.65
2024 ($13)	($8,277,469.02)	($1,110,951.72)	($9,388,420.74)	($30,890,662.52)	($942,665.55)
2025 ($13)	($6,136,139.31)	($761,317.55)	($6,897,456.87)	($23,480,843.55)	($645,993.71)
2026 ($13)	($5,104,658.70)	($468,803.67)	($5,573,462.37)	($18,598,808.26)	($397,789.62)

5. Damage to small business

Additionally, any proponent or opponent fiscal note submission is required, pursuant to Missouri law, to state the impact of the initiative on small businesses. According to analysis by the Employment Policies Institute, 40 percent of the minimum wage workforce is employed at businesses with fewer than 50 employees. [7] The impact on extra costs to small business may be more significant than even this 40% figure suggests. Small businesses are more easily shut down by input price increases than large businesses, which have greater access to capital to weather the

[7] https://www.epionline.org/oped/who-really-employs-minimum-wage-workers/

storm. Clearly, small businesses that do not shut down due to increases in the minimum wage will pay higher costs, estimated at about 40% of business' total increased costs, described above.

Conclusion

In conclusion, the State Auditor should attempt to quantify the increased cost to be borne by state and local government entities through increased contracting costs as a result of an increase to the minimum wage. This direct cost is outlined in Section 1.

Indirect costs are outlined in Sections 2 through 5, and show a net loss. Although such second-order effects more difficult to predict, a net loss is easily the most likely outcome. Significantly, this result is only obtainable if the Auditor reviews both the "credit" and "debit" sides of the transfer of wealth from businesses to workers. The Auditor should refrain from taking the proponents' likely invitation to consider and present only the "credit," side, and should attempt to provide a complete picture of all effects of a minimum wage increase, including the loss of revenue to state and local governments from individuals who lose employment. Only conveying (or quantifying) the potential for gain, without fairly conveying the likelihood of net loss, would be deceptive and unfair.

The State Auditor's previous 2018 fiscal notes are a good model. Each of the fiscal notes for the Initiative Petitions should follow the already-established format and state that:

> "[O]perating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could change by an unknown annual amount ranging from a $## million decrease to a $## million increase depending on business decisions."

Should you desire further detail or have any questions about this fiscal impact statement, please do not hesitate to contact me.

Sincerely,

Edward D. Greim

ABOUT THE MISSOURI RESTAURANT ASSOCIATION

With origins dating back to 1916, the Missouri Restaurant Association (MRA) is a statewide trade association representing over 1,500 member establishments. The association's membership is diverse, and includes full service, fast casual, and quick service restaurants, cafeterias, hotels, schools, institutions, contract feeders, and ancillary foodservice providers such as theme parks. The association has been successful in securing support from virtually every segment of the foodservice and hospitality industry.

MRA includes seven chapters as extensions of the parent organization, each with its own Officers, Board of Directors, and limited budget. The association is governed by a Board of Directors comprised of five Officers, 33 Directors, and each President of the seven affiliated chapters.

MRA is dedicated to serving the needs of the foodservice and hospitality industry, enhancing and improving its growth and development, assisting and educating its members in operating more effectively, improving the political and social environment in which the industry conducts business, for the benefit of its members, patrons, employees, and the well-being of the community.

David A. Macpherson is the E.M. Stevens Professor of Economics at Trinity University. He received undergraduate and doctoral degrees in economics from Pennsylvania State University.

Dr. Macpherson has published over 60 articles in leading economics and real estate journals including Review of Economics and Statistics, Industrial and Labor Relations Review, Journal of Labor Economics, Journal of Human Resources, and Journal of Real Estate Economics and Finance. His research has been funded by a variety of entities including the National Science Foundation, Florida Legislature, and the National Association of Realtors. He is co-author of the undergraduate labor economics text, Contemporary Labor Economics, as well as the principles of economics text, Economics: Private and Public Choice. He is included in Who's Who in Economics, Fourth Edition, which includes the 1,200 most frequently cited economists.

THE IMPACT OF A $10.10 MINIMUM WAGE ON JOBS AND TAXPAYER COSTS IN MISSOURI

June 2014

Economic Analysis by **Dr. David Macpherson**
Trinity University

Index

Executive Summary 4
Results 5
Technical Appendix 7

EXECUTIVE SUMMARY

Missouri's minimum wage of $7.50 is linked to rise in most years with the inflation rate. But some state legislators and labor unions would like to raise that figure even higher. For instance, a recent labor union-organized bus tour in the state promoted a $10.10 minimum wage in St. Louis.

Proponents have enthusiastically pointed to the benefits of the $10.10 policy. But there's been far less discussion of the costs involved with a $10.10-an-hour minimum wage—both the cost on employment, and the cost to taxpayers.

In this study, labor economist David Macpherson of Trinity University uses Census Bureau data to estimate the impact on Missouri's labor market and budget from raising the minimum wage to $10.10 an hour. He also provides separate results for the St. Louis metropolitan area.

Dr. Macpherson's employment estimates follow the methodology used by the nonpartisan Congressional Budget Office in its report earlier this year estimating the impact of a $10.10 minimum wage nationwide, which in turn relied on 60 different empirical studies to formulate its estimates.

Statewide, he finds that over 15,000 jobs would be lost at the $10.10 wage level—with 9,300 of those jobs being held by women. In the St. Louis metropolitan area, approximately 4,800 jobs would be lost from a $10.10 minimum wage.

The cost to taxpayers would be significant: There are approximately 40,000 state and local employees whose wages would be affected by the $10.10 increase in Missouri, for a combined cost to taxpayers of $87 million annually.

Raising wages is an admirable goal, but the evidence suggests that accomplishing this goal with a blunt wage mandate could do more harm than good.

RESULTS

The minimum wage is one of the most hotly-debated topics in the political world. Some legislators claim that a higher base wage will stimulate the economy; others claim that it will reduce jobs when affected employers can't offset the higher costs through higher prices.

Economists, who have studied the issue since the late 1940s, tend to take a skeptical view of minimum wage increases. Since the early 1990s, for instance, roughly 85 percent of the most credible research on the minimum wage points to job loss for less-skilled groups. The nonpartisan Congressional Budget Office (CBO), in an evaluation of President Obama's proposed $10.10 minimum wage increase, reviewed 60 different studies and concluded that the policy would eliminate 500,000 jobs if enacted.

The estimates that follow, of the employment impact of a higher minimum wage on Missouri's labor market, were performed by Dr. David Macpherson of Trinity University. Dr. Macpherson followed closely the methodology used by the CBO in its 2014 report. Dr. Macpherson also estimates the taxpayer costs of a higher minimum wage, as many state and local public employees will see their earnings increase when the minimum wage rises.

Dr. Macpherson's methodology is presented in detail in a technical appendix.

Estimated Employment Effects of a $10.10 Minimum Wage in Missouri

Statewide, Dr. Macpherson finds that increasing the minimum wage to $10.10 would eliminate over 15,000 jobs—approximately 60 percent of which are jobs held by women. The bulk of the job losses would be concentrated among individuals with a high school degree or less, and among people who work in the retail or leisure & hospitality industries.

City-Specific Minimum Wage Employment Impacts

The city of St. Louis has been the subject of a number of protests calling for a higher minimum wage. Dr. Macpherson analyzed the employment impact of a $10.10 minimum wage in the St. Louis metropolitan area, providing breakouts by gender and education where the data permits. He estimates that the wage hike would eliminate approximately 5,000 jobs—just over half of which would be jobs held by women.

Impact on St. Louis Metro Area of a $10.10 Minimum Wage

RESULTS CONTINUED

Missouri Taxpayer Costs of a $10.10 Minimum Wage

Dr. Macpherson estimates that approximately forty thousand state & local public employees would be affected by a minimum wage increase to $10.10 an hour. These additional wage costs translate to new costs for state and local taxpayers. Following the methodology described in detail in the technical appendix, Dr. Macpherson estimates both the straight wage cost of a $10.10 minimum wage, as well as the total compensation cost with Social Security, Medicare, workers compensation, and unemployment insurance included. Statewide, taxpayers would shoulder an additional $87 million in costs if the base wage was increased to $10.10 an hour and public employees were covered by the new wage.

Missouri Taxpayer Costs of a $10.10 Minimum Wage	
# of State & Local Workers	304,588
# Affected By $10.10 MW	40,103
Annual Wage Cost	$79,629,374
Annual Compensation Cost	$87,004,355

Note: Annual compensation costs include the cost of worker's compensation, FICA, and unemployment insurance benefits.

TECHNICAL APPENDIX

Estimating Employment Loss and the Cost to State and Local Government of an Increase in the Minimum Wage

Dr. David Macpherson
E.M. Stevens Professor of Economics
Trinity University

This paper describes how we estimate the employment loss and the cost to state and local governments of a proposed increase in the minimum wage effective on January 1, 2015.

Data and Sample

First, we use data from the Current Population Survey (CPS) Outgoing Rotation Groups (ORG) from January 2011 through December 2013. For each worker in the sample, we calculate their wage rate. We also adjust the wage rate to reflect a forecast of wages in 2015. This is done in two steps. First, based on legislation enacted as of April 2014, we estimate the minimum wage that would be in effect in January 2015 for each state and city that we consider. If a state or city has an indexed minimum wage, we increase the January 2014 state or city minimum wage by the Congressional Budget Office (CBO) inflation forecast for 2014 of 1.7%.

Since we use data from 2011 through 2013, we also follow the CBO approach for forecasting what the wage distribution would be in 2015. This is done in two steps. First, we adjust wages observed prior to 2013 to reflect 2013 minimum wage legislation. For example, if the minimum wage in a state was $7.25 in 2011 and grew to $8.00 by 2013, anyone who earned between $7.25 and $8.00 in 2011 would have their wage increased to $8.00. After wages are adjusted to 2013 levels, we assume that all wages grow by 2.9% in 2014. Using the resulting 2015 distribution of wages, we adjust for minimum wage legislation that would increase the minimum between 2013 and 2015. Anyone earning a wage between the 2013 and 2015 minimum wage is assigned a wage matching the 2015 minimum wage.

After generating the forecast 2015 distribution of wages reflecting wage growth and existing minimum wage legislation, we identify workers who would be affected by additional changes to the 2015 minimum wage as those with wages between the predicted minimum wage legislated for 2015 (or up to $.25 below it) and the proposed minimum.

To estimate the number of affected workers, we take two steps. First, for each state, we estimate the number of affected workers for 2013. Second, we adjust the weights in the 2011 and 2012 data so that the state-specific number of affected workers implied by the 2011 and 2012 data matches that for 2013. This adjustment is designed to correct for the changing economic climate as the economy recovers from the great recession and to generate estimates that are as close as possible to the most recent data (2013). After we adjust the 2011 and 2012 weights, we estimate the number of affected workers by summing their earnings weights and dividing the total by 36 (the number of months of data).

[1] Also, following CBO, anyone earning up to $.25 less than the 2011 minimum wage would have their wage increased by the amount that the minimum wage increased (i.e. a $7.00 wage would be increased to $7.75 in this example). This approach is used to adjust for the fact that many workers round their answers when asked about their wage.

TECHINCAL APPENDIX CONTINUED

Employment Loss

To estimate employment loss, for each affected worker we compute:

L = e *(Proposed Min Wage /Min Wage 2015 – 1)

where e is an assumed elasticity of employment with respect to changes in the minimum wage, Min Wage 2015 is the minimum wage currently legislated for 2015, and Proposed Min Wage is the minimum wage that is being proposed for 2015. Thus, for example, if a worker is projected to earn the federal minimum of $7.25 in 2015, the expected reduction in employment resulting from a $10.10 minimum wage in 2015 if e=.45 is .45*(10.10/7.25 – 1) = .18. That is, for every 100 workers currently earning the federal minimum, the expectation is that 18 would lose a job if the minimum wage elasticity is .45.

To estimate the aggregate employment loss in the economy, we use earnings weights to sum L across workers. We also follow the Congressional Budget Office (2014) and use an elasticity of 0.15 for non-teenagers and 0.45 for teenagers.

Cost to State and Local Government

We use the same data to estimate the cost to state and local government of a proposed minimum wage hike. We apply the same definition of affected workers described above and estimate the number of state and local government workers affected by a minimum wage hike. We do not, however, assume that there is any job loss for state and local workers as we do not have an appropriate elasticity estimate specific to state and local workers. To the extent that state or local governments reduce hours or employment in response tothe minimum wage hike, our estimate of the cost of the hike would be overstated.

To estimate the increase in annual payroll cost resulting from an increase in the minimum wage, we estimate the increase in annual cost for each worker as:

(Proposed Min Wage-Min Wage 2015)*weekly hours*52

We then multiply the increase in annual cost by the earnings weight for each worker and sum across workers. Since an increase in wages also requires increased employer contributions for Social Security, Medicare, workers' compensation and unemployment insurance, we apply an estimate of the payroll tax rate for these mandatory programs to calculate the additional cost for these programs.

For each state and city considered, we provide tables summarizing the number of affected workers, employment loss, and the distribution of employment loss by sex, education, race, age and industry. Given that we use three years of data, a rule of thumb for minimum sample size required to achieve a reasonably accurate estimate of the employment loss is to require at least 30,000 people be in the relevant category. For example, if there are fewer than 30,000 people projected to be in a particular industry category, the Bureau of Labor Statistics would not report the estimate due to a lack of reliability based on the variance of the estimate relative to its mean.

In addition to the estimate of employment loss, for each state or city considered, we estimate the number of state and local workers that would be affected by the minimum wage hike and the total annual cost to government in terms of wages and total compensation. As with the employment estimates, we advise caution in interpreting estimates that are based on fewer than 30,000 affected workers.

[3] Congressional Budget Office, "The Effects of a Minimum-Wage Increase on Employment and Family Income," February 2014.

[4] For workers paid by the hour the reported hourly wage was used. For workers who are not paid by the hour, we calculate the hourly wage by dividing usual weekly earnings by usual weekly hours. Overtime pay was calculated as time and one-half for hours above 40 hours for hourly workers.

[5] The assumed payroll tax for Medicare and Social Security is 7.65 percent. To estimate the payroll tax for workers' compensation and unemployment insurance, we use unpublished data from the 2010 Employer Cost of Employee Compensation database for state and local workers in the relevant region in 2010.

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

Prepared for

Victor Allred versus Robin Carnahan and Thomas Schweich
Circuit Court of Cole County, Missouri

FISCAL ANALYSIS
OF
PROPOSED STATUTORY INITIATIVE PETITIONS 2012-084 AND 2012-085

I. Introduction

This report was undertaken at the request of counsel representing plaintiffs in the case of Victor Allred versus Robin Carnahan and Thomas Schweich. As part of the basis of the lawsuit, the plaintiffs allege that the fiscal note summaries for proposed statutory initiative petitions 2012-084 and 2012-085 are insufficient and unfair. I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will

range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

The report is organized as follows. My qualifications to prepare this report are contained in Section II. Section III describes the data and records I relied upon for this report. Section IV reviews the estimated fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085. A summary and my conclusions are provided in Section VI.

II. Qualifications

I am currently the E.M. Stevens Professor of Economics at Trinity University in San Antonio, Texas. Previously, I was employed by Florida State University as Director of the Pepper Institute on Aging and Public Policy and the Rod and Hope Brim Eminent Scholar in Economics. I have taught both undergraduate and graduate Econometrics (statistical analysis of economic data), and Labor Economics. I have published over 50 articles in peer-reviewed professional journals.

I am currently serving on the editorial board of the *Journal of Forensic Economics*, which is a peer-reviewed journal. I have also served as a reviewer or 'referee' for 24 peer-reviewed journals, including the *Journal of Human Resources, Journal of Labor Economics, Quarterly Journal of Economics,* and the *Review of Economics and Statistics*. Based upon these experiences, I am very familiar with the scholarly and professional research process and the concept of peer review.

I have prepared numerous analyses and reports that use statistical methods as applied to specific questions. I have been responsible for developing the techniques and approaches required for these analyses. I routinely use computers and statistical software packages to assist me in my analytical work. I have been qualified as an expert witness on statistical analysis of employment discrimination and economic damages in state courts in Florida and Georgia and Federal Courts, and I have given expert testimony. I have prepared analyses and offered testimony on behalf of both plaintiffs and defendants.

Details of my qualifications are reflected in my current resume and legal cases, attached as Appendix A to the report.

III. Data and Records

I reviewed the following materials in preparing this report.

- Plaintiff's Complaint
- Material cited in footnotes below.

IV. Fiscal Impact

A. Overview

The proposed statutory initiative petitions 2012-084 and 2012-085 contain many elements in common. Both initiatives would increase the Missouri minimum wage to $8.25 per hour, alter the exemption for retail and service firms, raise the cash wage of tipped workers from 50% to 60% of the minimum wage, and increase the statute of limitation from two to three year for underpayment claims.

The initiatives differ in their linkage to the federal minimum wage. Initiative petition 2012-084 requires that the state minimum wage be automatically increased to the

federal minimum wage if it is higher than the state minimum wage. Initiative petition 2012-085 does not have such a linkage. It only requires that workers be paid the higher of the state minimum wage or the federal minimum wage. The linkage to the federal minimum wage will cause the state minimum wage to be higher under initiative petition 2012-084 over time. This is because the state minimum wage, in contrast to the federal minimum wage, is adjusted for inflation as measured by the Consumer Price Index.

An increase in the minimum wage in Missouri will affect state and local government entities in two ways. First, it will directly increase the cost of labor to state and local government entities. This will occur due to the increase in wages of state and local government workers earning between the existing minimum wage of $7.25 and the new minimum wage of $8.25.[1] In addition, workers laid off due to the minimum wage increase can collect unemployment benefits. The state government will bear the cost of unemployment benefits of these workers for the first 20 weeks. Second, state and local government may gain increased revenue through higher income tax and sales taxes paid by workers affected by the minimum wage who remain employed. However, state and local government will suffer reduced tax revenue to the extent the higher wage cost lowers profits of businesses.

The following sections estimate the cost and revenue effects to state and local government entities of the proposed minimum wage increase.

[1] Information about the minimum wage in Missouri is available at http://www.labor.mo.gov/DLS/minimumwage/.

B. Direct Labor Cost Impact on State and Local Government Budgets

There are two possible ways to measure the direct labor cost on state and local government budgets. First, one can use the information included in the fiscal notes prepared by the State Auditor regarding the proposed initiatives. It is important to note that the fiscal notes provide an incomplete and thus too low estimate of the direct labor cost. The fiscal notes indicate that the Office of Administration's (OA) Division of Personnel reported that as of September 2011 there were 834 state workers who would be affected by an increase of the minimum wage to $8.25 and the "approximate annual cost" would be more than $540,000.

This OA estimate excludes seasonal workers such as State Fair employees, State Parks Employees, and tax season staff. The Division of Revenue noted its labor cost would rise by $40,000. The Division of Natural Resources stated they have over 500 workers who would be affected by the increase, but did not provide an estimate of the cost. The State Fair hired 745 workers that would be affected, but no cost estimate was provided.

Thus, the cost to state government, based on the fiscal notes, would be more than $580,000.

The fiscal notes also provide an incomplete and thus too low measure of the cost to local government and public educational institutions. Many cities and educational institutions did not respond to Office of Auditor's survey or provide an estimate of the cost of the higher minimum wage. The City of Columbia, City of Jefferson, City of

Joseph, Linn State Technical College, and Metropolitan Community College did provide such an estimate. The total cost to these five institutions is $772,182.

Based on the fiscal notes, the cost to state and local government entities of the increase in the minimum wage to $8.25 will be more than $1,352,182.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can also be used to calculate the cost of the increased labor cost to state and local government entities in Missouri. Using the data from January 2010 to December 2011 Outgoing Rotation Group (ORG) CPS, I calculated that 17,089 state and local government workers would be affected by the minimum wage increase. I defined affected workers as those individuals earning between $7.00 and $8.24 per hour. Though the minimum wage was $7.25 per hour during this period, I also included those workers reporting earnings of $7.00 to $7.24 since some individuals may round their wage rate. I calculated the annual wage cost for each state and local government worker (i) in the ORG CPS as:

$$Annual\ Wage\ Cost_i = (\$8.25 - current\ wage_i) * weekly\ hours_i * 52.$$[2]

The average annual wage cost increase was $870. I summed the cost over each worker (i) to obtain the total wage cost to state and local government entities in Missouri of $14,866,430.

The increased wage cost is not the only labor cost to state and local government entities of the minimum wage increase. Employers are required to pay 7.65% of their wage costs in Social Security and Medicare taxes. Thus, the total labor cost of the minimum wage increase will be 1.0765 times $14,866,430 or $16,003,712.

---

[2] I assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour.

C. Unemployment Benefit Impact

The higher minimum wage will cause firms to reduce their level of employment.[3] As a result, the number of unemployed workers will increase. Thus, another important fiscal cost of the minimum wage increase is the cost of the unemployment insurance benefits for the workers laid off as a result of the minimum wage increase.

To calculate the cost to the unemployment benefits program, I first calculated the number of workers laid off. To do so, I calculated a probability of job loss for each affected Missouri worker (i) in the January 2010 to December 2011 ORG CPS:

$$Probability\ Job\ Loss_{\ i} = \frac{(\$8.25 - Current\ Wage_i)}{Current\ Wage_i} * elasticity_i.$$

I used the preferred employment elasticity (i.e., sensitivity of employment to wage changes) contained in Sabia and Burkhauser (2010), which was -0.6 for individuals aged 16 to 29 without a high school degree and -0.2 for all other individuals. The sole exception was for state and local government workers, where I assumed an elasticity of zero.[4] The sum across all affected workers yielded an estimated job loss of 5,745 jobs.

The next step was to calculate the weekly benefit for the average unemployed worker. Using the benefits calculator on the Missouri unemployment benefits web site and the wage income of average private-sector affected worker ($10,937), yields an average weekly benefit of $109.36[5]. The state of Missouri pays the first 20 weeks of benefits.[6] Thus, each eligible unemployed worker could receive a total of $2,187.20 in

---

[3] For a survey of research regarding the effect of the minimum wage on employment, see David Neumark and William L. Wascher, *Minimum Wages* (Cambridge, MA: MIT Press, 2008).
[4] Joseph J. Sabia and Richard V. Burkhauser, "Minimum Wages and Poverty: Will a $9.50 Federal Minimum Wage Really Help the Working Poor?" *Southern Economic Journal* (January 2010): 592-623.
[5] http://www.labor.mo.gov/DES/Claims/calculator.asp
[6] See http://www.labor.mo.gov/DES/Claims/

benefits paid for by the state of Missouri. These jobs are permanently eliminated and so it is appropriate to calculate the full amount of benefits for each worker.

Unemployment insurance, however, does not cover all unemployed workers. For example, it does not cover people who leave a job voluntarily, people looking for their first job, and re-entrants who previously left the labor force voluntarily. Furthermore, some individuals don't apply for benefits even though they are eligible. I assume that 35% of the unemployed workers will receive unemployment benefits based on analysis by Wenger (2001).[7]

The last step is to calculate the total cost to the Missouri unemployment benefits program. This done by multiplying the number of jobs lost (5,745) times the average benefit amount ($2,187.20) times the percent of unemployed individuals collecting benefits (35%). This calculation yields a figure of $4,397,510. This cost would be borne only during the first year of the minimum wage increase. The inflation adjustments in the minimum wage will also yield costs to the unemployment insurance program, but it is not possible to estimate the amount.

D. Impact on State Income Tax Revenue

The state of Missouri will gain increased revenue through higher income tax taxes paid by workers affected by the minimum wage who remain employed. However, it will

[7] Jeffery Wenger. "Divided We Fall: Deserving Workers Slip through America's Patchwork Unemployment Insurance System." *Economic Policy Institute*, 2001. Sabia and Burkhauser (2010) make the same assumption in their calculation of the amount of unemployment benefits generated by a minimum wage increase.

suffer reduced corporate income tax revenue to the extent the higher wage cost lowers profits of businesses.

To calculate the impact on individual income tax revenue, I again used data from January 2010 to December 2011 ORG CPS. I defined affected workers as those Missouri individuals earning between $7.00 and $8.24 per hour.[8] I used the following formula to estimate the change in income tax revenue:

$$\Delta Tax\ Revenue_i = (Tax_After_i - Tax_Before_i) - Prob_Job_Loss_i * Tax_Before_i,$$

where Tax_After_i is the income tax paid by worker i after the minimum wage increase. Tax_Before_i is the income tax paid by worker i after the minimum wage increase, and $Prob_Job_Loss_i$ is the probability of job loss for worker i. The first term shows the change in individual income tax revenue assuming no job loss and the second term shows the loss in tax revenue due to the employment loss caused by the minimum wage increase.

The income tax calculations were based on two assumptions.[9] First, the 50% percent of affected workers who were under the age 25 who were assumed to be dependents on another person's tax return. As a result, it was assumed that the affected workers' earnings were taxable at the maximum Missouri income tax rate of 6% both and after the minimum wage increase.[10] Second, all persons age 25 and older were assumed to be paying little or no income tax after exemptions and deductions. Thus, about 50% of the earnings increase will be taxed at a rate of 6%.

---

[8] I again assume that persons reporting an hourly wage rate between $7.00 and $7.24 are actually earning $7.25 per hour. The annual earnings level was calculated as the worker's wage rate times usual weekly hours worked times 52.

[9] The same assumptions are used in the State Auditor's fiscal notes for the initiatives.

[10] This assumption will overstate the revenue increase as 20% of affected workers under the age 25 are living by themselves and some of these individuals will not be a dependent on another person's tax return.

The tax calculations reveal an increase in income tax revenue increase to the state. Assuming no workers were laid off by the minimum wage increase, income tax revenue would rise by $6,043,534. However, the state will lose $1,965,446 in income tax revenue due to the lost earnings of private-sector workers no longer employed due to the minimum wage hike.[11] Thus, the net increase in individual income tax revenue is $4,078,088.

Businesses have three options to respond to the higher labor costs of a higher minimum wage. They can reduce their profits, raise prices, or lay off workers. Based on the 2010-2011 ORG CPS data, the minimum wage increase will raise private-sector labor costs by $192,620,900 if employment levels are not reduced. However, labor costs will be lowered by $55,240,790 due to the reduction in employment. Thus, labor costs will, on net, rise by $137,380,110. These increased labor costs may be either passed on to consumers through higher prices or reduced profits or more likely some combination of higher prices and reduced profits. Assuming that businesses absorbed all of the higher costs through reduced profits, the corporate income tax revenue would fall by the Missouri corporate income tax of 6.25% times the rise in labor costs of $137,380,110 * 1.0765 (to account for employer-paid Social Security and Medicare taxes) or $9,243,106.[12] Alternatively, if half of the higher labor costs were passed on to consumers, then corporate income tax revenue would fall by $4,621,553.

[11] The probability of job loss was calculated in the same manner as in the prior section.
[12] The corporate income tax for Missouri is available at: http://dor.mo.gov/business/corporate/

E. Impact on State and Local Sales Tax Revenue

To calculate the impact on state and local sales tax revenue the following approach was undertaken.[13] First, the total increase in worker earnings, adjusted for employment reductions, was calculated using the 2010-2011 ORG CPS. This figure was $152,246,540. Second, the increase in Missouri taxable sales was calculated as 25% of the earnings increase or $38,061,635. Third, the increase in sales tax revenue was calculated by multiplying the taxable sales change times the average state and local rate of 7.67% or $2,919,327.[14]

The higher minimum wage may decrease sales tax revenue to the extent that it reduces business profits, which will lower spending by business owners.

VI. Summary and Conclusions

I was asked by counsel to evaluate the fiscal impact of proposed statutory initiative petitions 2012-084 and 2012-085.

The results of my analysis indicate:

(1) labor costs to state and local government entities, based on state auditor fiscal notes, will rise by more than $1,352,182. A more inclusive estimate indicates that state and local government labor costs will increase by $16,003,712;

[13] The same general approach is used in the State Auditor's fiscal notes for the initiatives.
[14] The average rate comes from http://taxfoundation.org/news/show/27023.html

(2) unemployment benefit costs will rise by $4,397,510 during the first year of the minimum wage increase;

(3) individual income tax revenue will rise by at most $4,078,088;

(4) the loss in corporate income tax revenue could be as high as $9,243,105;

(5) state and local sales tax revenue will rise by at most $2,919,327;

(6) during the first year: state and local governments will incur increased costs of $20,401,222; the change in state and local government revenue will range from -$2,245,690 to +$6,997,415; and the net state and local government fiscal impact will range from -$22,646,912 to -$13,403,807.

"Gender-Related Differences in Pension Coverage," with William Even, in *Women and Work: A Handbook*, Garland Publishing, New York, NY, 1996.

"The Pension Coverage of Young and Mature Workers", with William Even, in *Pension Coverage Issues for the '90s*, eds. Richard Hinz, John Turner, and Phyllis Fernandez, U.S. Government Printing Office, Washington, D.C, 1994.

Working Papers (Economics)

"Deferred Compensation vs. Efficiency Wages: An Experimental Test of Effort Provision and
Self-Selection," with Tim Salmon and Kislaya Prasad, under review, *Journal of Business and Economic Organization*

"What Do Unions Do to Pension Performance?" with William Even, September 2011, under revision

"Teacher Salaries, State Collective Bargaining Laws, and Union Coverage" March 2011, with Barry Hirsch and John Winters.

"The Effects of the 2007-2009 Federal Minimum Wage Increases on Teen Employment," with William Even, under revision, July 2010.

"Participant Direction in Defined Contribution Plans," April 2006, with William Even, under revision.

"Do Pensions Impede Phased Retirement?" September 2004, with William Even, under revision.

Working Papers (Real Estate and Insurance)

"An Empirical Analysis of Socio-Demographic Factors and the Mispricing of Homeowners Insurance in Florida," under review *Journal of Financial Services Research*, with Ronald Cheung, Charles Nyce, Kathleen McCullough, and Cassandra Cole.

"The Impact of No-Fault Legislation on Automobile Insurance Premiums," revised and resubmitted to *North American Actuarial Journal*, with Cassandra Cole, Kevin Eastman, Patrick Maroney, and Kathleen McCullough.

Funded Projects

Employment Policies Institute, 5/2010-7/2010, $16,500 (Trinity University portion), "Employment Effects of the 2007-2009 Federal Minimum Wage Increases," with William Even.

National Science Foundation, 9/2009-8/2012, $125,866 (Trinity University portion), "Incentives in the Workplace: An Experimental Examination of How Wage Differences Across Time and Among Peers Affect Productivity and Self-Selection," with Tim Salmon, Kislaya Prasad, and Hyejin Ku.

Florida Legislature, 10/2007-6/2009, $175,000, "Child Support Guidelines," with Stefan Norrbin and Thomas McCaleb.

Florida Legislature (through University of Florida), 12/2006-9/2007, $223,000, "Analysis of Save our Homes Amendment," with Dean Gatzlaff.

U.S. Administration on Aging (through University of South Florida), 5/2005-9/2007, $175,000, "Employment in the Long-Term Care Industry: The Importance of Recruitment and Retention," with William Even.

Florida Legislature, 2/2003-8/2004, $175,000, "Child Support Guidelines," with Stefan Norrbin and Thomas McCaleb.

Florida Department of Environmental Protection, 6/2002-2/2003, $94,157, "Affordability Index," with Stefan Norrbin and William Serow.

University of South Carolina, 4/2000-11/2000, $10,000, "Minority Homeownership in South Carolina," with Stacy Sirmans.

Florida Department of Business and Professional Regulation, 3/1999-6/1999, $21,739, "Forecasting Housing Demand in Florida," with Stacy Sirmans.

University of South Carolina, 4/1999-11/1999, $10,000, "Forecasting Housing Demand in South Carolina," with Stacy Sirmans.

Florida State University, 6/1999-8/1999, $7,500, "Support for Preparing ECO 2000 as a Web-Based Course."

TIAA-CREF, 8/1998-8/1999, $23,000, "Determinants of Savings in Supplemental Pension Plans: A Case Study of Pension Choices in Higher Education," with Melissa Hardy and Larry Hazelrigg.

Florida Department of Business and Professional Regulation, 4/1998-6/1998, $16,638, "Forecasting Seniors' Demand for Housing in Florida," with Stacy Sirmans.

Florida Department of Business and Professional Regulation, 12/1997-6/1998, $18,472, "Housing Price Appreciation in Orlando and Tampa," with Stacy Sirmans.

Florida State University, 6/1998-8/1998, $7,500, "Support for Preparing ECO 2000 as a Web-Assisted Course."

Florida Department of Business and Professional Regulation, 3/1997-6/1997, $17,898, "Minority Homeownership in Florida," with Stacy Sirmans.

U.S. Department of Labor, Pension Welfare and Benefit Administration, 12/1996-8/1997, $20,000, "The Impact of Rising 401(k) Pension Coverage on Retirement Income," with William Even.

U.S. Department of Labor, Pension Welfare and Benefit Administration, 3/1996-6/1997, $15,000, "The Determinants of 401(k) Participation and Contribution Levels," with William Even.

Florida Department of Business and Professional Regulation, 4/1996-6/1996, $22,702, "Forecasting the Number of New Florida Real Estate Licensees," with Stacy Sirmans.

U.S. Department of Labor, Pension Welfare and Benefit Administration, 3/1995-6/1996, $15,000, "Explaining the Decline in Pension Coverage of Less Educated Workers," with William Even.

Florida State University COFRS Grant, 6/1994-8/1994, $8,000, "The Relative Compensation and Quality of Public and Private Sector Workers."

W.E. Upjohn Institute for Employment Research, 3/1994-12/1995, $35,000, "Pensions and Productivity," with Stuart Dorsey and Christopher Cornwell.

Florida Division of Workers' Compensation, 1/94-12/1995, $100,000, "Worker's Compensation Recipency in Union and Nonunion Workplaces," part of a service contract titled "Research Partnership with the Division of Workers' Compensation," co-investigator (one of several).

University of Wisconsin Institute for Research on Poverty Small Grant Program, 7/1993-6/1994, $15,000, "Racial Composition, Wages, and Quality Sorting," with Barry Hirsch.

U.S. Department of Labor, Pension Welfare and Benefit Administration, 7/1993-6/1993, $10,000, "Trends in Individual and Family Pension Coverage," with William Even.

U.S. Department of Labor, Pension Welfare and Benefit Administration, 6/1992-5/1993, $10,000, "The Pension Coverage of Young and Mature Workers," with William Even.

U.S. Department of Labor, Pension Welfare and Benefit Administration and American Society of Pension Actuaries, 6/1991-5/1992, $10,000, "A Conference on Current Pension Policy Issues," with William Even.

Miami University Faculty Research Grant, 6/1991-8/1991, $4,000, "Projected Growth in Retiree Health Insurance Liabilities."

Ohio Board of Regents Research Challenge Grant, 1/1990-12/1990, $4,980, "Proposal to Enhance the Data Library of the Center of Pension and Retirement Research," with William Even and Samuel Williamson.

Miami University Faculty Research Grant, 6/1990-8/1990, $4,000, "The Role of Firm Size in Pension Coverage and Options."

Miami University Faculty Research Grant, 6/1989-8/1989, $4,000, "Declining Unionism and the Gender Wage Gap," with William Even.

Participation in National Meetings

Panel Discussant, American Real Estate and Urban Economics Association/ASSA meetings, January 2008.

Presented, "Employee Turnover in the Long-Term Care Industry," at Academy Health Annual Research Meetings, June 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at International Atlantic Economic Society meetings, October 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at International Atlantic Economic Society meetings, October 2005.

Presented, "Replacing Earnings After Termination: Evidence from the Displaced Worker Survey," at the Allied Social Science Association/National Association of Forensic Economics, January 2002.

Presented, "Labor Market Transitions of Older Workers," at the Allied Social Science Association/Society of Government Economists meetings, January 1999.

Presented, "Why has the Loss in Pension Coverage Accelerated Among Less Educated Workers?" at the American Economic Association Meetings, 1995.

Presented, "Wages and Gender Composition: Why Do Women's Jobs Pay Less?" at the American Economic Association Meetings, 1994, with Barry Hirsch.

Presented, "Pensions, Labor Turnover, and Employer Size" at the American Economic Association Meetings, 1993, with William Even.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the American Economic Association meetings, 1992, with William Even.

Participation in Regional Meetings

Presented "Unions and Pension Performance: The Role of Pension Design," at Southern Economics Association meetings, November 2009.

Panel member, "Recent Federal Reserve Policy: An Evaluation" at Southern Economics Association meetings, November 2009.

Discussant, "Topics in Health Economics," at Southern Economics Association meetings, November 2009.

Discussant, "Teacher Pay, Principals, and Schooling," at Southern Economics Association meetings, November 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Western Economic Association meetings, July 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Eastern Economic Association meetings, February 2009.

Panel Discussant at the Southern Economic Association meetings, November 2008.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Southern Economic Association meetings, November 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Western Economic Association meetings, July 2008.

Chair "Pensions and Retirement" Session at Southern Economic Association meetings, November 2007.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Southern Economic Association meetings, November 2007.

Presented, "Participant Direction in Defined Contribution Pension Plans," at Southern Economic Association meetings, November 2006.

Panel Discussant, Southern Economic Association meetings, November 2005.

Presented, "Do Pensions Impede Phased Retirement?" at the Southern Economic Association meetings, November 2004.

Presented, "When Will the Gender Gap in Retirement Income Narrow?" at the Southern Economic Association meetings, November 2003.

Presented, "How Will the Growth of DC and 401(k) Plans Affect Pension Income?" at the Southern Economic Association meetings, November 2002.

Presented, "Racial Composition, Wages, and Quality Sorting," at the Southern Economic Association meetings, November 1999.

Presented, "Racial and Ethnic Differences in Pension Coverage and Benefit Levels," at the Southern Economic Association meetings, November 1998.

Presented, "Factors Influencing Participation and Contribution Levels in 401(k) Plans," at the Western Economics Association meetings, July 1998.

Presented, "Aging at Work: Employment Determination, Firm Strategies, and Public Policy in the United States," at the Western Economic Association meetings, July 1994.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Western Economic Association meetings, July 1992.

Presented "Plant Size and the Decline of Unionism," at the Southern Economic Association meetings, 1989, with William Even.

Panel Discussant, Southern Economic Association meetings, November 1989.

Presented "The Labor Force Participation and Earnings Profiles of Married Female Immigrants," at the Southern Economic Association meetings, November 1988.

Presented "Pensions, Screening, and the Gender Wage Gap," at the Southern Economic Association meetings, November 1988.

Session Chair and Panel Discussant at the Southern Economic Association meetings, November 1988.

Participation in Invited Seminars, Conferences, and other Presentations

Presented, "Teaching Macroeconomics During Troubled Times," at Creative Ideas for Your Basic Economics Course Conference at Florida State University, February 2012.

Presented, "Participant Direction in Defined Contribution Pension Plans," at Pennsylvania State University, April 2010.

Presented, "The Parallels Between the Japanese Economic Crisis of the 1990s and the US Today" at Creative Ideas for Your Basic Economics Course Conference at Florida State University, February 2010.

Chair "Minimum Wage & EITC" Session at Society of Labor Economists meetings, May 2009.

Presented "Participant Direction in Defined Contribution Plans," at Lehigh University, April 2009.

Presented "Is Bigger Still Better?: The Decline of the Wage Premium at Large Firms," at Association of Private Enterprise Education meetings, April 2009.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Trinity University, October 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Georgia State University, April 2008.

Presented "The Growth of Participant Direction in Defined Contribution Pensions," at Association of Private Enterprise Education meetings, April 2008.
Presented, "Improving Pension Coverage at Small Firms," at Hudson Institute, May 2006.

Presented, "Participant Direction in Defined Contribution Plans," at Society of Labor Economics meetings, May 2006.

Presented, "Participant Direction in Defined Contribution Plans," at Association of Private Enterprise Education meetings, April 2006.

Presented, "Participant Direction in Defined Contribution Plans," at University of Wisconsin-Milwaukee, April 2006.

Invited Panel Participant for Pepper Foundation and Center Symposium on pension reform, Washington, DC, February 2006.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at West Virginia University, April 2005.

Presented, "The Risk and Return of Pension Investments in Employer Stock," at the University of Kentucky, November 2004.

Presented, "The Causes and Consequences of Company Stock Holdings in Pension Funds," at the Federal Reserve Bank of Atlanta, April 2004.

Presented, "The Causes and Consequences of Company Stock Holdings in Pension Funds," at the University of Oklahoma, February 2004.

Presented, "Tracking Union and Nonunion Wages in the U.S.: Can the Evidence be Reconciled?" at the Middlebury Annual Conference on Economic Issues, April 2002.

Presented, "How Will the Growth of DC and 401(k) Plans Affect Pension Income?" at the Miami University Center for Pension and Retirement Research Conference, June 2001.

Presented, "Benefits and Worker Productivity," Benefits for the Workplace of Tomorrow Conference, Wharton School, University of Pennsylvania, May 2001.

Participant, Innovations in Managing the Financial Risks of Retirement Conference, Wharton School, University of Pennsylvania, May 2000.

Presented "Using Hi-Tech in Large Lectures," at Association of Private Enterprise Education meetings, April 2000.

Presented "Employee Participation in 401(k) Plans," at University of Wisconsin-Milwaukee, October 1999.

Presented "Gender, Race, and Ethnicity in the Labor Market," as part of the Smith Chair course in Labor Economics at Brigham Young University, September 1999.

Presented, "The Decline in Pension Coverage Among Less Educated Workers," at the Florida State University Economics Department Seminar Series, 1996.

Presented, "Children's Effects on Women's Labor Market Attachment and Earnings" at the Conference on the Changes in Working Time in Canada and the United States, Canadian Employment Research Forum, 1996.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" at the Ohio State University Economics Department Seminar Series, 1996.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" at the Florida State University Economics Department Seminar Series, 1995.

Presented, "Employer Size and Labor Turnover: The Role of Pensions," at Syracuse University, 1995.

Presented, "Earnings, Rents, and Competition in the Airline Labor Market" while visiting scholar at the Federal Reserve Bank of Cleveland, 1995.

Presented, "Trends in Individual and Household Pension Coverage," at the Miami University Center for Pension and Retirement Research Conference, 1994.

Presented, "Racial Composition, Quality Sorting, and the Black-White Wage Gap" at the University of Wisconsin, Institute for Research on Poverty, Small Grants Workshop, 1993, with Barry Hirsch.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Florida State University Economics Department Seminar Series, 1992.

Participant at National Bureau of Economic Research (NBER) Labor Studies meetings of the Summer Institute, 1992.

Presented, "Why Did Male Pension Coverage Decline in the 1980s?" at the Miami University Conference on Current Pension Policy Issues, 1992.

Organizer and participant at conference on "Contemporary Issues in Pension Economics," hosted by the Center for Pension and Retirement Research, Miami University, 1990.

Presented "The Effect of International Competition on Union and Nonunion Wages," at the University of Cincinnati Seminar Series, 1987.

Fiscal Note Summary

State and local governments estimate no direct costs or savings from the proposal, but operating costs could increase by an unknown annual amount that could be significant. State and local government tax revenue could increase by an unknown annual amount ranging from $600,000 to $164 million depending on business decisions.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, Version 17 (2018-212)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on April 3, 2017.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Section 290.502 of the Revised Statutes of Missouri is amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.75 per hour, effective January 1 of each of the next six years, until it reaches $13.00 per hour, effective January 1, 2025. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2026, and on January 1 of successive years, per the method set forth in subsection (2) of this section.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-212)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received April 4, 2017)

Date

April 24, 2017

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Kansas City Board of Police Commissioners, The Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election**

Commissioners City of St. Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners**.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided information as proponents of the proposal to the State Auditor's office.

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided information as an opponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they can absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may request additional appropriations. They do not expect that the enactment of this proposal would result in any other increased costs to their office.

Officials from the **Department of Agriculture** indicated there is no fiscal impact to their department for this initiative petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department since public employers are exempt from the new provisions proposed.

Officials from the **Department of Health and Senior Services** indicated this proposal would have no direct fiscal impact on their department since government employees are exempt from its provisions. However, employees of certain entities that receive funding through the department's budget would be impacted, such as Medicaid Home and Community Based Services vendors/providers and Area Agencies on Aging.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department defers to the Office of Administration to determine the fiscal impact of this proposal.

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this petition will have no fiscal impact on their department. Their department defers to the Office of Administration for a state impact.

Officials from the **Department of Public Safety - Office of the Director** indicated they will defer to the response provided for this initiative petition by the Office of Administration - Human Resources.

Officials from the **Department of Social Services** indicated no fiscal impact on their department. They defer to the Office of Administration.

Officials from the **Governor's office** indicated there should be no added cost or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated unknown fiscal impact.

Officials from the **Office of Administration** indicated the proposal amends Sections 290.502 RSMo, and adds Section 290.529, RSMo.

Section 290.502, RSMo, increases the minimum wage to $8.50 per hour, beginning January 1, 2019 and by another $0.75 per hour each year until it reaches $13.00 per hour beginning January 1, 2025. Thereafter, the minimum wage will be adjusted annually based on the increase/decrease in the cost of living.

The proposal exempts public employers from both requirements; therefore, there would be no cost to the State of Missouri.

Because no tax rates are affected, there is no direct impact on general and total state revenues. However, these proposals may have several indirect affects which could impact revenue collections by an unknown amount, including but not limited to:

- Increased wages for certain employees. According to the US BLS, in 2015, Missouri had 57,000 hourly employees earning wages at or below the federal minimum wage;[1]
- Increased consumption by those employees;
- Lower overall employment (if employers choose to hold costs steady);

[1] http://www.bls.gov/opub/reports/minimum-wage/2015/home.htm

- Lower business investment (if employers' payrolls increase);
- Increased prices as firms pass–through labor costs.

This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this proposal would have no impact on their office, as it would not apply to state employees.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this petition may have a small negative fiscal impact on their city as a result of the increased hourly minimum wage being higher than the hourly rate paid some city employees.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated they are not able to estimate any significant financial impact on their university.

Officials from **University of Central Missouri** indicated they estimate no fiscal impact since they are excluded under the public employer definition in section 4.

Officials from the **Missouri State University** indicated no fiscal impact.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated the wording is unclear as to whether Colleges/Universities are included in this petition. In assuming they are included, they calculate the following significant fiscal impact to their university. The proposal will have a severe negative impact on the university. A projected minimum wage increase in 2019 to $8.50 an hour would increase their payroll expenditure for 2019 by approximately $275,800.00. With a proposed increase of .75 per hour for six years, reaching $13.00 an hour by 2025 their payroll expenses would see an approximate increase of $2,039,200.00, proving to be detrimental to the university.

Officials from the **Kansas City Board of Election Commissioners** indicated no fiscal effect on their operations.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition does not have a fiscal impact on their office.

Lara Granich and **Missouri Jobs with Justice Voter Action** provided the following information as proponents of this initiative petition.

Version Number Used in This Impact Analysis	**Version Number Assigned by the Secretary of State**	**Minimum Wage Level**	**Matches the Federal Minimum Wage When It Is Higher**	**Stronger Penalty for Wage Violations**	**Tipped Worker Minimum Wage (as a % of Full Minimum Wage)**	**Allows Localities to Enact a Local Minimum Wage**
Version 13	2018 - 204	$12 by 2023 *(Start at $8.60 and $.85/year)*	Yes	Yes	No Change	No
Version 14	2018 - 205	$12 by 2023 *(Start at $8.60 and $.85/year)*	Yes	No	No Change	No
Version 15	2018 - 206	$12 by 2023 *(Start at $8.60 and $.85/year)*	No	No	No Change	No
Version 16	2018 - 207	$12 by 2024 *(Start at $8.50 and $.70/year)*	Yes	Yes	No Change	No
Version 17	2018 - 208	$12 by 2024 *(Start at $8.50 and $.70/year)*	Yes	No	No Change	No
Version 18	2018 - 209	$12 by 2024 *(Start at $8.50 and $.70/year)*	No	No	No Change	No

Version 19	2018 - 210	$13 by 2025 *(Start at $8.50 and $.75/year)*	Yes	Yes	No Change	No
Version 20	2018 - 211	$13 by 2025 *(Start at $8.50 and $.75/year)*	Yes	No	No Change	No
Version 21	2018 - 212	$13 by 2025 *(Start at $8.50 and $.75/year)*	No	No	No Change	No
Version 22	2018 - 213	$11 by 2022 (Start at $8.75 and $.75/year)	Yes	Yes	No Change	No
Version 23	2018 - 214	$11 by 2022 (Start at $8.75 and $.75/year)	Yes	No	No Change	No
Version 24	2018 - 215	$11 by 2022 (Start at $8.75 and $.75/year)	No	No	No Change	No
Version 25	2018 - 216	$11 by 2021 (Start at $9; $1/year)	Yes	Yes	No Change	No
Version 26	2018 - 200	$12 by 2022 (Start at $9; $1/year)	Yes	No	No Change	No
Version 27	2018 - 201	$13 by 2023 (Start at $9; $1/year)	Yes	No	No Change	No
Version 28	2018 - 202	$12 by 2024 (Start at $8.25; .75/year)	Yes	Yes	100%	No
Version 29	2018 - 203	$13 by 2025 (Start at $8.50; .75/year)	Yes	Yes	60%	No
Version 30	2018 - 196	$12 by 2022 (Start at $9; $1/year)	Yes	Yes	100%	Yes
Version 31	2018 - 197	$12 by 2022 (Start at $9; $1/year)	Yes	Yes	60%	Yes
Version 32	2018 - 198	$13 by 2023 (Start at 9; $1/year)	Yes	Yes	100%	Yes

Version 33	2018 - 199	$13 by 2023 (Start at $9; $1/year)	Yes	Yes	60%	Yes

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced Minimum Wage Initiative Petitions. Pursuant to RSMo. Section 116.175, we write to submit the following fiscal impact information to assist your office in its analysis of the fiscal impact of the above-mentioned seven proposed Minimum Wage Initiative Petitions.

Our analysis estimates the impact of the proposed Minimum Wage Initiative Petitions on state and local sales and personal income tax revenue in Missouri. We follow the process that has been used in the past to estimate the impact of minimum initiative petitions on state and local sales and personal income tax revenue, with some refinements. We also address certain claims that have been made by opponents of similar initiative petitions in the past.

As these petitions exclude public workers from the proposed minimum wage increases, we do not include in our analysis an estimate of the impact on state and local payroll costs of the proposed Minimum Wage Initiative Petitions.

I. Estimate of Number of Workers Affected Statewide and the Impact on Their Wages

Table 1. Summary of the Number of Affected Workers and Aggregate Wage Increases for Missouri in the Final Year of Minimum Wage Implementation.

Proposal	Year of Peak Minimum Wage (MW)	Proposed Peak MW	Tipped MW in Peak MW Year	Workers Affected by MW increase	Aggregate Annual Wage Increase in Nominal Dollars
13,14,15[a]	2023	$ 12.00	$ 6.00	835,350	$4,358,798,129
16,17,18[a]	2024	$ 12.00	$ 6.00	819,652	$4,209,438,048
19,20,21[a]	2025	$ 13.00	$ 6.50	900,788	$5,309,336,662
22,23,24[a]	2022	$ 11.00	$ 5.50	738,515	$3,347,138,756
25	2021	$ 11.00	$ 5.50	761,164	$3,469,534,559
26	2022	$ 12.00	$ 6.00	852,284	$4,510,285,824
27	2023	$ 13.00	$ 6.50	949,801	$5,667,065,534
28	2024	$ 12.00	$ 9.60	832,328	$4,288,614,460
29	2025	$ 13.00	$ 7.80	905,942	$5,332,471,496
30	2022	$ 12.00	$ 8.40	864,090	$4,558,317,729
31	2022	$ 12.00	$ 6.84	855,887	$4,523,341,931

32	2023	$ 13.00	$ 9.75	948,421	$5,745,051,956
33	2023	$ 13.00	$ 7.54	942,566	$5,685,951,766

Notes: Author's Analysis of American Community Survey (ACS) Data from 2014.
(a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

Across the proposals analyzed, the total aggregate wage increase for workers in Missouri ranges from a low of $3.347 billion (Proposals 22-24) to a high of $5.745 billion under Proposal 32. While some proposals have the same final impact numbers, they have different impacts in the initial years (not listed) based on the relative pace of increases in earlier years. A full, year-by-year impact analysis is presented in Appendix Tables A1 through A13 below.

The wage impact of an increase in the minimum wage for the state of Missouri is calculated using the following procedure. The American Community Survey (ACS) Public Use Micro Sample for the most recent year available (2014) for the state of Missouri was downloaded from the US Census Bureau. The American Community Survey was chosen over the Current Population survey because the ACS has a significantly larger sample. We followed the method of Perry, Thomason, and Bernhardt (2016) for calculating an hourly wage rate from the ACS based on observed total annual wage income, typical hours worked each week and weeks worked per year. Since ACS income figures are clustered around whole-numbers, we smoothed the wage distribution by randomly adding or subtracting $0.25 from each wage figure.

Wage adjustments were made only for those individuals earning less than the proposed minimum wage, or proposed tipped minimum wage. We did not make additional adjustments for the "ripple effect" of minimum wage increases on workers earning slightly above the new threshold. Recent evidence suggests that workers earning up to 15 percent above of the minimum wage also receive small increases in response to a minimum wage increase. (See Wicks-Lim (2006) and Dube, Giuliano and Leonard (2015).) Thus, the estimated impacts listed above are likely to be smaller than the actual impact of increasing the minimum wage to the proposed level.

The proposed minimum wage increases exclude public employees. However, it was not practicable to exclude public employees from these calculations because the ACS does not have a published variable that allows for identification of public employees. Nonetheless, this inclusion of public employees should have only a minimal impact on our results, since their numbers are small and most already earn more than the proposed minimum wage increases.[1]

All wages from the 2014 survey were adjusted upward to account for inflation between the time of the survey and the time of measurement of the impact. Actual rates of inflation were used to adjust wages up to 2016. For all subsequent years between 2017 and 2028, baseline wages were adjusted using the projected annual average rate of change in the Consumer Price Index for Urban Workers (CPI-U) for the Midwest region. The 2015 and 2016 Missouri Minimum wage of $7.65 was adjusted by the same factor prior to measuring the impact of a change to the proposed minimum wage in 2019.

After these adjustments, the resulting hourly wage of all employees was compared to the proposed minimum wage. A total of twenty-one proposals were analyzed. For each proposal, we constructed a baseline wage scenario that used only basic wage changes from expected inflation rates to predict each ACS respondent's hourly wage rate in each year

[1] For Missouri's state employees, this can be validated by viewing the earnings of all state employees at: http://mapyourtaxes.mo.gov/MAP/Employees/. In larger counties and cities most all public employees already earn more than the highest proposed minimum wage. Smaller counties and towns may have some public employees who earn less than the highest proposed minimum.

between 2019 and 2028. We then constructed a counterfactual, or "proposed" wage distribution for each worker under all twenty-one minimum wage proposed scenarios. Since the minimum wage proposals offer nine different paths for raising the minimum wage for all non-tipped private sector workers, and different wage paths for tipped workers, we create separate minimum wage changes for tipped and non-tipped workers. Specifically, we used information on a worker's occupation and observed wage levels to separately identify tipped workers and assign them the proposed tipped minimum wage in each year, rather than the higher non-tipped minimum wage.[2]

If the proposed minimum wage was less than the inflation-adjusted hourly earnings of an employee, then no impact was calculated. If the proposed minimum wage was more than the hourly earnings for an employee, then the difference between the inflation-adjusted hourly earnings (i.e. baseline) and the proposed minimum wage was calculated. That difference was multiplied by the number of hours the employee worked in the year to calculate the annual impact for that employee. The result was then multiplied by a weighing factor for that employee in the population. The total impact for the state of Missouri was then summed across all affected workers to generate a total estimated increase in wage income in the state.

We do not include an estimate of job losses due to minimum wage changes. Existing research is clear that past minimum wage increases have had no measurable effect on aggregate employment levels. Larger minimum wage increases, such as those in Los Angeles, Seattle, and other jurisdictions, have not yet been studied to detect a clear disemployment effect. While it is possible that there may be some employment losses due to automation or other factors, this potential negative effect is likely offset by the positive potential job growth stemming from multiplier effects of the spending of minimum wage workers who receive substantial raises. There is substantial research to indicate that increases in the minimum wage have multiplier effects that increase the direct effects. For this reason and because of the likely increases in wages for individuals who earn above the proposed minimum wage rates, the impacts summarized in the table are considered conservative estimates relative to the total impact that would occur as a result of increasing the minimum wage to the proposed levels.

II. Economic Literature on the Impact of Minimum Wage Increases on Employment

Next, it is necessary to review the economic literature on the impact of minimum wage increases on employment. Opponents often claim that minimum wage increases may reduce employment in a state. If that is true, then those employment reductions would result in reductions in state income and sales tax revenue. However, review of the most credible recent empirical research on the minimum wage shows that increases in the minimum wage have had no discernible impact on employment. We thus conclude that it is not appropriate to project that the proposed initiative petitions would result in any detectable employment reduction, and resulting losses in income and sales tax revenue, or increases in unemployment-related costs to the state.

Economists have conducted hundreds of studies of the employment impact of the minimum wage. A recent meta-study – a formal statistical study of studies – by Doucouliagos and Stanley (2009) reviewed all the research conducted over the last three decades on the employment impact of minimum wage increases on teenagers in the United States. The researchers concluded that the minimum wage has little or no discernible effect on the employment prospects of low-wage workers. Their study followed a rigorous, peer-reviewed procedure and has the advantage of using a set of predetermined, objective criteria for weighing the validity of statistical findings across studies with different results.

[2] We defined tipped workers as those employed in occupations that typically receive a large share of income as tips. These occupations were 'Bartenders' (4040), 'Waiters and Waitresses', 'Food Servers, Non-restaurant' and 'Miscellaneous food preparation and serving related workers including dining room and cafeteria attendants and bartender helpers'.

(Source: Doucouliagos, Hristos and T. D. Stanley. 2009. "Publication Selection Bias in Minimum-Wage Research? A Meta-Regression Analysis." British Journal of Industrial Relations,vol. 47, no. 2, pp. 406-428.)

Recent theoretical and empirical research emphasizes several explanations for the consistently negligible employment impacts of moderate increases in the minimum wage. First, relative to total wage costs, minimum-wage increases are small. Second, employers and workers appear to respond to minimum-wage increases in many ways that reduce the direct cost to employers and substantially reduce or eliminate the need to cut employment.

Probably the most important economic response to a higher minimum wage is a reduction in turnover. At higher wages, employers fill vacancies faster and retain employees longer, boosting total employment and average productivity per worker while reducing direct and indirect training costs. Dube, Lester, and Reich (2012), for example, examined the effect of the minimum wage on labor turnover among teens and restaurant workers. They find "...striking evidence that separations, new hires, and turnover rates for teens and restaurant workers fall substantially following a minimum wage increase..." (p. 2). Their findings, using nationally representative data, are consistent with local case studies of the minimum wage and related "living wage" laws, including Dube, Naidu, and Reich's (2007) analysis of the San Francisco city-wide minimum wage; Fairris's (2005) study of local government contractors in Los Angeles; Howes (2005) on homecare workers in California; and Reich, Hall, and Jacobs (2005) on workers at the San Francisco airport.
(Sources: Dube, Arindrajit, T. William Lester, and Michael Reich. 2012. "Minimum Wage Shocks, Employment Flows and Labor Market Frictions." Berkeley, CA: Institute for Research on Labor and Employment. http://escholarship.org/uc/item/76p927ks; Dube, Arindrajit, Suresh Naidu, and Michael Reich. 2007. "Living Wage Policies at the San Francisco Airport: Impacts on Workers and Businesses." *Industrial Relations*, vol. 44, no. 1, pp. 106-138.)

Employers also appear to respond to increases in the minimum wage by taking measures to boost productivity. Hirsch, Kaufman, and Zelenska's (2011) study of the impact of the federal minimum wage increase on 81 fast-food restaurants in Georgia and Alabama, for example, asked fast-food managers about the scope for efficiency improvements in response to the minimum-wage rise. About 90 percent of managers indicated that they planned to respond to the minimum wage increase with increased performance standards such as "requiring a better attendance and on-time record, faster and more proficient performance of job duties, taking on additional tasks, and faster termination of poor performers." (p. 27) Roughly the same share of managers said that they sought to "boost morale" by presenting the minimum wage increase as a "challenge to the store" and using this as a way "to energize employees to improve productivity." (pp. 28-29) Based on their interviews with store managers, the researchers concluded that a minimum wage increase may function as a "catalyst or shock that forces managers to step out of the daily routine and think about where cost savings can occur." (p. 29) (Source: Hirsch, Barry T., Bruce Kaufman, and Tetyana Zelenska, "Minimum Wage Channels of Adjustment." IZA Discussion Paper No. 6132. Germany: Institute for the Study of Labor. http://www2.gsu.edu/~ecobth/IZA_HKZ_MinWageCoA_dp6132.pdf)

A higher minimum wage may also motivate workers to work harder, independently of any actions by employers to increase productivity. According to "efficiency wage" theory, wages above the competitive-market rate may elicit greater work effort for several reasons. As Carl Shapiro and Joseph Stiglitz (1984) have argued, higher pay increases the cost to workers of losing their job, potentially inducing greater effort from workers in order to reduce their chances of

being fired. George Akerlof (1982), arguing from a more sociological point of view, has suggested that workers may see higher wages as a gift from employers, leading workers to reciprocate by working harder. (Sources: Shapiro, Carl and Joseph E. Stiglitz. 1984. "Equilibrium unemployment as a worker discipline device." *American Economic Review*, vol. 74, no. 3, pp. 433-444; Akerlof, George A. 1982. "Labor contracts as partial gift exchange." *Quarterly Journal of Economics*, vol. 97, no. 4, pp. 543-569.)

We therefore conclude that the proposed increase in the Missouri minimum wage would have no discernible impact on the employment levels of low-wage workers. Accordingly, we do not factor in reductions in employment, or any resulting decrease in sales tax or income tax. We also do not project any increased unemployment insurance costs – both because we do not project any resulting job losses, and, additionally, because unemployment insurance costs are paid for by employer premiums, and so are ultimately not a cost to the state.

For similar reasons, we do not believe that the proposed increase will have any significant adverse economic impact on small businesses or, by extension, on corporate income tax revenue. In fact, many small businesses already pay little if any corporate income tax.

III. State and Local Sales and Personal Income Tax Revenue Impact of Raising the Minimum Wage

Based on the wage impact figures calculated above, and the understanding that the minimum wage increases would be unlikely to result in offsetting job losses, we next calculate the impact of the projected wage increases on state and local sales and personal income tax revenue in Missouri. We project only the direct impact of the various minimum wage increase scenarios on such tax revenue. We do not attempt to project the additional impact through a GDP multiplier effect, or the potentially higher sales taxes generated if employers offset wage increases with higher prices (which would be taxable).

Personal Income Tax Revenue. In order to determine the projected increase in personal income tax revenues that would result directly from the increased wages, we had to develop assumptions about the effective income tax rates of the affected workers. We made the following assumptions with respect to the effective tax rate:

1. That 25% of affected workers can be claimed as a dependent on another party's Missouri income tax return and, as a result, would pay an effective tax rate of 6.0% on the increase in income;
2. That 50% of the affected workers would file as single taxpayers, would claim one deduction of $2,100, and would be entitled to a standard deduction of $5,800. This would result in an effective tax rate of 2.47%;
3. The remaining 25% would, we assumed, pay no additional Missouri income tax.

In light of these assumptions, the increased Missouri income tax revenue for each petition version can be calculated as follows: (total wage increase * 25% * 6.0%) + (total wage increase * 50% * 2.47%) + (total wage increase *25% * 0%).

Sales Tax Revenue. The state of Missouri imposes a 4.225% state sales tax on those items that are not exempt from the sales tax base. In addition, the average local sales tax rate is 2.95%. As a result, the average Missouri net sales tax rate is 7.175%. To estimate the share of income that is spent on goods and services that are subject to sales taxes, we used data from the 2015 Consumer Expenditure Survey (CES) for the US to estimate the share of income spent on categories that are subject to sales taxes. The CES summary tables list average spending per consumer across 20 different

categories (e.g. housing, transportation, food away from home) and we categorized each spending item as taxable or non-taxable and then calculated the share of spending that we taxable.[3] The resulting rate was 30.3 percent.

Based upon the above assumptions, and the total wage increase calculations for each version of the petition, we estimate that the increase in state income tax revenue resulting from the increased wages would be as follows:

Table 2. Summary of the Impact of Minimum Wage Increases on State and Local Sales and Income Taxes in Year of Full Minimum Wage Final Implementation.

Proposal	State Sales Tax (4.225%)	Local Sales Tax Revenue (2.95%)	Total Sales Tax Revenue Increase	Personal Income Tax Revenue	Total Sales and Personal Income Tax Revenue Increase
13,14,15[a]	$55,814,587	$38,971,132	$94,785,719	$119,213,129	$213,998,848
16,17,18[a]	$53,902,025	$37,635,734	$91,537,759	$115,128,131	$206,665,889
19,20,21[a]	$67,986,272	$47,469,704	$115,455,976	$145,210,358	$260,666,334
22,23,24[a]	$42,860,248	$29,926,090	$72,786,338	$91,544,245	$164,330,583
25	$44,427,531	$31,020,406	$75,447,937	$94,891,770	$170,339,707
26	$57,754,393	$40,325,553	$98,079,946	$123,356,317	$221,436,263
27	$72,567,004	$50,668,086	$123,235,090	$154,994,242	$278,229,333
28	$54,915,882	$38,343,634	$93,259,516	$117,293,605	$210,553,122
29	$68,282,514	$47,676,548	$115,959,062	$145,843,095	$261,802,158
30	$58,369,444	$40,754,996	$99,124,440	$124,669,990	$223,794,430
31	$57,921,577	$40,442,285	$98,363,862	$123,713,402	$222,077,264
32	$73,565,624	$51,365,347	$124,930,970	$157,127,171	$282,058,141
33	$72,808,843	$50,836,944	$123,645,787	$155,510,781	$279,156,568

Note: Author's Analysis of American Community Survey (ACS) data from 2014 and fiscal impact assumptions described above. All dollars are in nominal figures. (a) Since these proposals only vary on non-economic factors, their economic and fiscal impacts are treated as equal for the purposes of this report.

As described in Table 2 above, the fiscal impact of the proposed minimum wage increases varies based on the ultimate level of the minimum wage and the degree of tipped minimum wage phase out. The estimates of the total fiscal benefit range from $164 million to $282 million annually. Appendix tables A1 through A13 provide a year-by-year summary of the fiscal benefits.

[3] Specifically, the categories we assumed to be subject to state and local sales taxes are: food, household furnishings and equipment, vehicle purchases, gasoline and motor oil, entertainment, and all other expenditures. We assumed that 50 percent of the spending on the category "apparel and services" was taxable.

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,

Lara Granich

1) Total employed workers in 2014 from the ACS was estimated to be 2,795,876. This figure was inflated to each subsequent year based on the population projections in the State of Missouri between 2020 and 2030 (CAGR = 0.6%)

Robert Bonney, Chief Executive Officer of the Missouri Restaurant Association provided the following information as an opponent of this initiative petition.

These corrections were subsequently provided to the submitted information

In the table on the bottom of page 7 and top of page 8, both averages for 2023 should be based on a 5 year phase-in. Accordingly, the figure on that table should state for 2023 ($12) Average Annual Unemployment Premiums Paid by State of $16,269,523.52.

The corresponding change on the table on page 12 would be to state, for 2023 ($12) Total Net Loss to State Government from Taxes and Unemployment Insurance of ($19,137,851.76).

Re: Initiative Petitions 2018-196 through 2018-216

Dear Mr. Halwes,

I write on behalf of Robert Bonney. Mr. Bonney is the Chief Executive Officer of the Missouri Restaurant Association. Please consider this letter and the accompanying studies as his fiscal impact statement as an opponent of Initiative Petitions 2018-196 through 2018-216 (the "Initiative Petitions"). If passed, any of these twenty-one initiatives would have a substantial negative impact on state and local governments, as well as Missouri small businesses. Those effects are both direct (as noted in Section 1) and secondary (as noted in Sections 2 through 5). The direct effects stem from higher labor and contracting costs that the state and its political subdivisions will incur, despite the Initiatives' effort to exclude government workers from the mandate.

The indirect effects will present a debate this Office has seen before. The proponents of the Initiative Petitions will once again rely on data sourced from political activist groups who claim increases in the minimum wage only serve to create new taxable income. The reality is that such groups approach this issue with political bias. Their analysis is one-sided because it completely ignores the fact that a wage increase does not "create" income from thin air; instead, it is an economic transfer from Missouri businesses to workers. Missouri businesses must pay the new wages "created" by the increases. Political activists' models fail to account, then, for two specific manifestations of the "debit" side of this transfer: reductions in employment, and the reduction in corporate income tax paid based upon business done in Missouri.

The failure to account for any employment effect at any proposed wage increase—even a drastic increase of the minimum wage to $13—is particularly puzzling, because Missouri's most populous areas border Illinois and Kansas. These states, respectively, have minimum wages of $8.25 and $7.25. Neither state adjusts the minimum wage for inflation. Likewise, the second effect—loss of corporate income tax revenues—is a mathematical certainty. Missouri businesses will be the source of the wage increase, which will lower their own taxable income. Assuming a one-to-one substitution of "created" wages for lost corporate income, the difference in the rates

at which these two types of income are taxed will result in a net decrease in state revenue. A dollar from increased wages is taxable by state government in Missouri at 6% or substantially less, whereas Missouri's corporate income tax rate is 6.25%.

On top of these two types of negative outcomes—lower employment and lower state tax revenues—there may be second-order effects to small businesses because they lack the access to capital to weather price fluctuations; they may not survive at all because they may not have the flexibility to simply cut employment, shifting their reliance to capital instead of labor resources, or suffering a decrease in production and revenue.

In short, much of the fiscal impact regarding the current crop of wage-related ballot measures is secondary: they cause transfers of wealth within (or out of) the state economy, and those transfers of wealth then create second-order effects for state and local governments via their collection of tax revenues and provision of welfare services for the unemployed or less-employed. Because these fiscal notes call for the Auditor operate in the area of secondary effects, it is critical that she treat both sides of the wealth transfer equally, and refrain from assessing only one half of the wage increase equation.

1. Direct Labor Cost Impact on State and Local Government Budgets

As noted to the State Auditor's Office previously by Dr. David Macpherson, a nationally prominent labor and economics expert, there are two ways to measure labor cost on state and local government budgets. First, one can use the information included in fiscal note responses from state and local government entities. It is important to note that these fiscal notes provide an incomplete and, therefore, too-low estimate of labor cost. Few state and local government entities respond to requests for a fiscal note response, and those that do respond often ignore important effects.

Second, data from the U.S. Census Bureau's Current Population Survey (CPS) can be used to calculate increased labor cost to state and local government entities in Missouri. To combat this time-honored analysis, and in a blatant attempt to manipulate the fiscal note process, the Initiative Petitions provide that they will raise the minimum wage for private workers, but not for workers employed by state or local governmental entities. No conceivable justification exists for solely raising the minimum wage on private businesses. Whatever the disparity between the value of total compensation at a private business and at a government employer, that disparity does not approach the wage adjustments at issue here, ranging from an inflation adjusted wage increase of 51.16% (($13-$8.60)/$8.60) in Initiative Petitions 2018-198 through 2018-201 to a wage increase of 30.17% (($11-$8.45)/$8.45) in Initiative Petitions 2018-213 through 2018-215.

Moreover, it is unreasonable to assume that on a sustained basis public employers, as defined in the Initiative Petitions, would be able to maintain dramatically lower wage levels than private businesses. Public employers would lose staff employable at higher rates in the private market, imposing substantial costs on government productivity. Using the method traditionally employed by labor economists and followed by the Auditor's office, one can calculate the annual
